

## Worlds Plot 691

Chapter 691: 12.93 Unknown Star – Modern ABO World: Second Case – Poppy on run.

Morning...

Prosecutor Ye Yuyan and Papa Hei were scolded badly by their wives while drinking a bowl of hangover soup. Afterward, the family ate breakfast together and had a peaceful family meal for the first time. Prosecutor Ye Yuyan told his wife to take the rest of the day off but Hei Yuhua didn't agree. He told them that if they wasted the opportunity, they had right now Poppy and his executives would definitely be able to escape. It is better to clean them all up than let a possible danger slip through the net.

Hei Yuhua said, "I'm not going to rest. We need to capture them all. You cannot do it alone. It is better to focus on what we need to do than waste our opportunity right now. The rest... can wait after the mission is completed."

He wipes his mouth after eating his meal ignoring everyone else's reaction. The others were silent and knew that they couldn't make Hei Yuhua change his decision.

Hei Yumei spoke up and asked, "B-Brother! After the Red Poppy Syndicate leaders and executives are caught, can... Can you live with us for a while?"

"Okay. I promise," said Hei Yuhua.

He then looked at his husband and said, "A'Yan, you didn't return to the bedroom last night so I didn't inform you. You've received a message from Police Director Yu Xi. I suggest that you check on him. Though he might have already run away with Poppy. I will need to contact Aster to close all routes to leave the country for the two of them. I'm sorry but I'm putting Yu Xi and Ying Su under wanted status."

.....

Hei Yuhua said before walking away to get back to the Master's bedroom and contact Aster as his reinforcement. Now that two of the executives had defected to their side and one had been captured means there is only the leader and three more executives on the run.

Meanwhile, Prosecutor Ye Yuyan was stunned by what he heard. His head was immediately forgotten as he grabbed the phone his wife left on the table. He saw the pictures Yu Xi had to send last night. He was extremely familiar with most things in the photo and his expression turned serious as more time passed by. System Yue who was seeing through everything commented as he saw the props and tools in the photo, he is more familiar with these things as he controls the system mall.

System Yue said, [Wow~ that's a lot of healing stones, all kinds of talismans and there is even a Resurrection stone in there. That last one is extremely expensive. It cost at least half a million points.]

Prosecutor Ye Yuyan asked, 'What is a Resurrection Stone, System Yue?'

[As the name suggests, it brings a person back to life. But the Resurrection Stone on his head is already registered by his blood. It means Ying Su had an extra life on his own. You should be careful.] explained System Yue.

Another voice can be heard in Prosecutor Ye Yuyan's head but this voice can also be heard by System Yue. It was Lord God Ye.

{I need that stone. It would be helpful to Jing'er if I converted that stone into something useful for my wife. Get it for me and I will help you awaken your ability as your wife does. Zhi Yue will help you track it. The Teleportation Talisman on their hands cannot be used for long-distance like going to other countries. But it was useful for any places in this country which is why I would limit it to somewhere in this city instead which is better for your case. Following Zhi Yue will most likely allow you to meet the two who are on the run.}

System Yue responded, [As Milord commanded. This Zhi Yue would help Ye Yuyan capture the owner of the Resurrection Stone.]

Prosecutor Ye Yuyan said, 'I will do it as well.'

After the conversation in his mind had halted, he looked at the Hei Family looking at him. They also have helpless smiles on their faces and know that Prosecutor Ye Yuyan also has a job to do.

"Er~ I..."

"No need to explain, son. I, your mom, and your younger sister will follow your arrangements and join your family to hide on the island as you suggested last night. Hua'er is right. Letting the Red Poppy Syndicate on loose would be extremely dangerous." Papa Hei.

Mama Hei held Ye Yuyan's hand and said, "Child, can you promise mom that you and Hua'er would be careful? Mom is very worried something might happen. Keep these amulets and give one to Hua'er for me."

"Brother Ye, please be careful. Datura is very cunning and ruthless. He might sacrifice himself just to end his enemies," said Hei Yumei.

Prosecutor Ye Yuyan smiled and ruffled Yumei's hair, "We will be careful. Don't worry I will protect Yu'er."

After a short preparation, the family of three gathered in the living with their things. Ye Yuyan and Hei Yuhua were there to send them off. They would be using a Teleportation Talisman for faster means. The Hei Family hugs the two men in front of them and bids their farewell. Mama Hei is especially emotional.

"Baby, be careful. If you are in danger just run away, okay? Mama will wait for you to come home."

"Honey, calm down. You're scaring Hua'er." Papa Hei said.

"Big Brother, be careful around Datura. All these years he complained to me how much he hates you. We would do anything just to harm you. Can't you leave that man to your brother-in-law instead?"

Hei Yuhua felt overwhelmed this time. He stiffens under the warmth coming from the hug of these people who call these families. He wanted to move away but his husband was blocking his way of retreat and had no other but to let them hug him until they were all satisfied. After half an hour they finally calmed down and left. Hei Yuhua and Ye Yuyan watch them disappear in thin air.

Prosecutor Ye Yuyan pulled his wife for a hug and kissed his forehead.

“Don’t worry. We will see them again soon. After everything is over, we can all live together in one house with both of our parents.”

“...I don’t seem to hate them as I thought so,” said Hei Yuhua.

Prosecutor Ye Yuyan said, “Of course, you wouldn’t. Not only they didn’t abandon you as you thought but they also love you much more than you know. You can’t hate a family like that.”

“Will... Will they like our Huahua?” asked Hei Yuhua.

“They will! Our daughter is the most adorable and the prettiest baby in the world,” proclaimed Prosecutor Ye Yuyan.

Hei Yuhua chuckles at his husband’s reaction and lightly hits his chest.

“Don’t be silly~ haha~”

After a round of flirting this married couple left and headed to the underground prison. They wanted to interrogate Nightshade. Bai Yin and Iris returned to the abandoned warehouse to watch over Datura. Bai Jin and Shi Wuya were tasked to capture Azalea and Hyacinth. The former were Gods so capturing these two would be a child’s play.

—

In Aster’s Headquarters.

“Send orders to all agents. Keep in mind the appearances of Poppy and Yu Xi. As well as the executives who weren’t captured yet. After half a day spread the evil things Datura had done in this country. I wanted him to be hated by all people not only in this country but in the whole world.”

Director Wei received the information about Ying Su and Yu Xi. After hearing the situation from Agent Y, he immediately issued a wanted status for these two people. The pictures of these two plus their details were all spread all around the city for everyone to see. Now Ying Su and Yu Xi were wanted criminals on the run. The airports and sea docks would be extremely strict with their inspections not allowing these two to have the opportunity to leave the country whether it was in a legal or illegal way.

He also included pictures of the remaining three executives of the Red Poppy Syndicate. Photos of Datura, Azalea, and Hyacinth were also shared with all agents on duty.

News flashes with information about the two runaway criminals. There are lots of people from the police department who recognized both Ying Su and Police Director Yu Xi.

“What Police Officer Ying Wu was Ying Su all this time?!”

“District Director Yu had betrayed us!? He had chosen a criminal over Prosecutor Ye! The upper echelons were raging mad. I heard they would be calling back Prosecutor Ye and let him handle this case.”

“I can believe this! Why did District Director Yu betray us for being an international criminal? They say Ying Su was the leader of the notorious Red Poppy Syndicate!”

“Fudge! This is scary. Doesn’t this mean I’ve been working with a criminal undercover all these years!? Shivers\*”

“What the hell!? Is this for real!? I heard that the real Ying Wu was also alive and is now living with his parents. That funeral from a few years before was fake done by Ying Su. Ying Wu was sickly all this time and was in a coma for years. He had recently woken up and learned that his younger twin brother had taken over his identity.”

The one above is the excuse Ye Yuyan and the rest made for people to be able to accept Ying Wu’s sudden rebirth. Only the Ying Family and Ye Yuyan’s side knew what really happened. Of course, Ying Su also knew about it as Yu Xi told him about Ying Wu coming back to life by someone from Ye Yuyan’s side. When Ying Su heard about this, he was stunned for a long time as he felt horrified. His brother being brought back to life was something even his White Snake system could not do. For someone or something to be able to do such a mystical event, Ying Su is afraid that Gods exist in this world.

—

Back to Ye Yuyan’s Condominium Building.

In the underground prison, some police officers had gathered in the building to take over the former personnel of the hidden laboratory under the Red Poppy Syndicate. All scientists were brought back and were under the protection of the government. They would sign contracts of secrecy and the government would give them new identities while serving the country. Thanks to Hei Yuhua working as a middleman, the restrictions on them were lessened. As long as they stay in the country under protection, they are free to do anything they want as long as it isn’t illegal. The only downside is that they aren’t allowed to leave the country without a person from above.

The scientists were delighted with this result and thanked Prosecutor Ye Yuyan as they were still very afraid of Hei Yuhua. Only the older generation fearlessly showed their gratitude to Agent Y. The reason they can go back to their family is that this young man had fought for their rights.

After that, all the minions of the Red Poppy Syndicate surrendered to the government. Some were sentenced to the death penalty for the case of murder, some ended with life imprisonment and some were jailed for a few years as they didn’t do anything excessive.

Meanwhile, with Hei Yuhua’s authority as Agent Y, he had given Oleander and Iris some new background. They were placed under his name working under his commands as undercover agents. So, when Aster agents learned about this, they started to look at Oleander and Iris as comrades who were willing to erase their background just so they could serve the country better. The news about them being undercover agents under Agent Y made them famous at the same time free of the label of being called criminals.

A lot of things happened and fate finally started leaning on the side of Prosecutor Ye Yuyan and his team. Things are completely different from their past lives. Before it would always be Ying Su and his syndicate winning all the time. Now, this is the first time his memories of all those past lives had ended up useless as the original plot had completely broken. The only similar thing from the past is that Yu Xi is always by his side no matter what happens.

Chapter 692: 12.94 Unknown Star – Modern ABO World: Second Case – Wanted Status

The pictures of Ying Su and Yu Xi had been spread all over the city. The work of the government intelligence division, Aster, was fast. In just a few hours, the wanted status of Ying Su and Yu Xi spread not only online, but in street advertisements, even making it an almost permanent flash news banner. Everyone would always see their photos and their memories would voluntarily register these wanted men's faces in fear of something bad happening. Because of this Ying Su and Yu Xi who tried to flee out of the country were almost caught multiple times at the airport and sea docks. This time Hei Yuhua and Prosecutor Ye Yuyan no longer need to hold back.

Thanks to Yu Xi joining the side of his beloved, Ying Su already knew that Hydrangea was never going to betray Ye Yuyan. Moreover, those people he ordered to be killed in the past few years were all protected by Ye Yuyan and Hei Yuhua. Just thinking about this Ying Su felt that he was toyed with by this hateful couple. He was thinking that his system had taken too long to return, but who would have thought that he would lose that annoying existence that trapped his soul in an endless loop of sadness, tragedy, and pain? No one would be delighted watching their loved one dies countless time before your eyes but unable to change the ending to something you wanted

At this moment, Yu Xi and Ying Su were hiding in the slum area where they had a route out of all possible ways to escape. They were hiding in a small house they had rented and even had the curtains of the house down and only a dim light inside the room. Yu Xi was looking out of the window carefully and saw patrol cars roaming around the area multiple times. The house they were staying in from the deceased doctor Shen ended up dead in the first case.

Ying Su made two instant noodles for him and Yu Xi. They had been on run for a whole day after being pursued from the airport and docks.

Ying Su said, "Xu-gege, fill your stomach first. We can leave after we eat. I still have some disguised talismans with me. We can use it later."

"No. Don't waste it. I have a human mask here. Let's use this to escape first. Since planes and ships aren't accessible, let's use the train instead. Thank you for the noodles, Su'er," said Yu Xi with a gentle smile at his lover as always.

Ying Su felt joy for his lover's care yet guilt for suffering this way with him. If it were not for him his lover would still be a respectable director at the police headquarters.

.....

"Xi-gege, I'm sorry. You shouldn't be here with me. If I surrender myself would Brother Ye and Hei Yuhua forgive me?" asked Ying Su.

But as he asked this question Yu Xi recalled the scenes Ye Yuyan had shown to him that day. He had seen all episodes of the death of Hei Yuhua just to protect Ye Yuyan and the latter went mad afterward. Then he also saw the cold and lifeless eyes of Ying Su on his neck, a strange white snake with scarlet eyes leering at him.

Yu Xi held his lover's hand and said, "Let's take our time. We should go into hiding somewhere first. Let the heat go out first. Right now, Yuyan and Yuhua might not think well of you. Even if you say that the system has gotten you under control, they wouldn't believe it right now."

“I know... Xi-gege I...” He suddenly held his head as if he was in pain. Yu Xi has witnessed this multiple times and knows that he cannot do anything about it. His Su'er said that a soul had been taking over his body since childhood.

This soul had the same name as he is, but he is different from the Ying Su of this original timeline. He is the Ying Su had full memories of his past lives and was hypnotized by the White Snake System to hate Ye Yuyan and Hei Yuhua to his core. This Ying Su's existence is an error caused by Lord Hei when they suddenly returned the time back.

After they had all returned to the past the soul of future Ye Yuyan and Hei Yuhua merged completely with the current Ye Yuyan and Hei Yuhua. Lord Hei helped with their soul merging and so there was no conflict between their two selves. But Ying Su was different. The prerequisite of his rebirth is time reversal. But according to the plot, the time would only reverse if Ye Yuyan and Hei Yuhua are both dead in the timeline.

The time reversal caused by System Yang and System Yue had accidentally brought his future soul back to the past like Hei Yuhua and Ye Yuyan. His soul wasn't protected like the first two and suffered quite a lot due to the transfer. This event greatly weakened the white snake system and Ying Su's soul. Because of this Ying Su's future soul fails to merge with the current timeline's Ying Su.

So in his body, they are two Ying Su. The Ying Su of the present and the Ying Su of the future. Moreover, the time reversal he had suffered caused him to jump time farther past that of Ye Yuyan and Hei Yuhua. This is the reason why the Red Poppy Syndicate was created when Ying Su was still young. The one who created it was Ying Su from the future.

Poppy grunted as he felt the throbbing pain in his head and saw Yu Xi looking at him worriedly.

“A'Xi, don't worry. It is just a slight pain from change. It's evening now. The present Ying Su needs to rest. He wouldn't be able to help you escape,” said Poppy. This is the future Ying Su.

Yu Xi still held his lover's hand. Whether it was the innocent present Ying Su or the cold future Ying Su, he loves them both. To his eyes, both Ying Su is important.

“Hm~, go finish eating. In a while, we should take our leave. For now, let's hide in the countryside. Once the barricade checkpoints in the airport and docks, then we can escape from the country,” said Yu Xi.

Poppy didn't agree right away like the present innocent Ying Su. Instead, he stares at his lover with those cold eyes yet there is no killing intent or other emotion within it. Most people would feel uncomfortable being stared at like that but Yu Xi had a nerve of steel. Even if a volcano exploded near him he would still remain collectively calm and think of the best way to escape.

Former Police Director Yu Xi asked, “What's wrong?”

Seeing his lover's gentle smile, Poppy ignored the uneasiness in his heart. He doesn't believe his lover would leave him like the other people. But he also knew that Yu Xi loves the innocent version of him rather than a cold-hearted one like he does.

Poppy averted his eyes and started eating, “Nothing. But I don't agree with hiding in the countryside. The Syndicate had created a few hideouts that no one knew except me and Nightshade. I'm sure she would come looking for me in those places. We can wait for her there.”

“A’Su, what do you plan to do?” asked Yu Xi.

Poppy said, “If I said I wanted to kill ye Yuyan would you stop me?”

Yu Xi shut his mouth and grit his teeth as if denying something but in the end, he hardly responded with a single word.

“No.”

“That’s good. But not, for now, I am currently running out of tools and pawns to use. I at least need to contact my executives once,” said Poppy.

Yu Xu asked, “How? Your face and mine were under wanted status plus... Datura’s situation is the worst. His wicked deeds were spreading on the internet. I think his bounty is even higher than both of ours.”

“Don’t worry about that madman. He wouldn’t be caught so easily. He hated Hei Yuhua more than I did. Datura wouldn’t stop unless he destroyed Hei Yuhua with his own hands. He was his obsession after his face was ruined by him,” said Poppy.

Yu Xi looked out of the window and saw that there was still sun out.

“Let’s take a nap. We will leave when the sun completely sets. A’Su, do you want to meet your elder brother Ying Wu?” asked Yu Xi.

Poppy halted his hand movement from eating the noodles and asked, “Big brother was really alive? Who resurrected him?”

“I don’t know much about the details. But I heard from the system around Yuyan that a God helped him,” explained Yu Xi.

Poppy mumbled, “They are able to revive someone from the dead without nothing as a medium. Even the White Snake couldn’t revive someone who died. Except for me, resurrection is impossible for the white snake system. Is the system with Ye Yuyan a real god or something?”

“What are you talking about?” asked Yu Xi.

Poppy replied, “Nothing much. I’m done eating, let’s go to sleep.”

“Sure.”

The two head to the bedroom they had cleaned up when they first arrived. Lying on the same bed, the lovers hugged each other in their sleep. They look peaceful even in the middle of all chaos.

—

Ye Yuyan’s Condominium Building

Underground Prison

Nightshade finally woke up and saw herself tied to a chair. She felt weak as she looked up at the dim light swing above her head. The whole room itself was too dark and the only source of light was the small lamp on the top of her head.

Clang! Clang!

The sounds of metal echo in the room as Nightshade tries to move her hands. She tried controlling her pheromones and converting them to shadows like before but her pheromones remained the same as usual. Obviously, can no longer be converted into shadows. What remains is just a mere fragrance of an Alpha.

Nightshade mumbles, "My special ability is gone..."

Lou Wei and Yun Jie sat on the couch near her and noticed Nightshade awake. They'd been waiting for her all night.

"So the effects of the potion are that effective? It completely erased her special ability," said Lou Wei.

Yun Jie said, "It seems these potions are that effective but Uncle Hei said the once they've tried to spread in the city were diluted ones with bad side effects. Where they plan to make our whole city an experiment. You are quite bold."

Nightshade looked at the two coldly and she recognized them too well. One is the partner of Agent Y and the other is the right-hand man of Prosecutor Ye Yuyan.

Her eyes narrowed with scrutiny and said, "It's you two. Your bosses thought you could make me talk?" said Nightshade in a provocative manner.

Lou Wei just raised his eyebrows while Yun Jie remained silent. Nightshade provocation was useless to the two of them.

Yun Jie said, "Brother and Brother Ye had already placed your boss under wanted status. They've been on the run since this morning. Thanks to Aster, they couldn't leave the country at all. We had blocked all routes of escaping abroad."

"Moreover, with our people and Aster working together we planned to capture Azalea and Hyacinth today as well. Datura would be personally picked up by Saozi (Sister-in-law [Hei Yuhua]) and the captain. I don't think he can escape by then," said Lou Wei.

Nightshade sneered at them and said, "Aren't you guys forgetting a few people? What about Oleander and Iris? You don't have plans on catching them too? Then we would be able to escape."

"Oleander and Iris? Hm, aren't those code names familiar?" asked Lou Wei.

"It's Sir Bai Yin and Sir Wan Yi," said Yun Jie.

Lou Wei said, "Ah! Right but... aren't they on our side? If this woman says she would get help from them?"

"She didn't know that Sir Bai Yin and Sir Wan Yi were undercover agents from Aster and under Brother... Agent Y's command to infiltrate the Syndicate," said Yun Jie. novEIU8B/C\o/m

According to big bosses they need to spread the news about Oleander and Iris being people who were originally on their side. This is to keep the existence of the systems and God's backing them.

Chapter 693: 12.95 Unknown Star – Modern ABO World: Second Case – Catching the rest of the Executives.

Nightshade was in disbelief. She couldn't accept the fact that two of the executives of the Red Poppy Syndicate were undercover from Aster and work under Agent Y.

"Y-You're lying!!!" shouted Nightshade in denial.

She truly couldn't accept the possibility of some of her friends betraying the syndicate like that. Unknown to her, some changes in her body are witnessed by Yun Jie. This observant partner of Agent Y.

A frown appeared on Yun Jie's face and said, "Brother Wei, there is something weird about this lady. The way she is reacting... Is strange. Looking at her eyes it wasn't focusing on something but more like dazed. Her reactions are also slower than normal."

"Isn't it the side effect of the dis-enhancer we've injected into her that caused it?" asked Lou Wei.

Yun Jie spoke, "No. Uncle Hei had explained the effects and use of the Heaven and Hell potions. I remembered everything about these drugs. Her current state is similar to a person's reaction under hypnosis. I've watched it in a few videos before. Dazed yet listless eyes, uncontrolled spasming, slower reactions, and restless fingers. This lady... She might be under hypnotism."

"What should we do now? Call the Captains?" asked Lou Wei.

.....

Yun Jie said, "Stop! You can't. They are going to catch Datura right now! We can't destroy their plans!"

"Whom should we ask then?" asked Lou Wei. "How about Lord Hei?"

Yun Jie replied, "Lord Hei and Lord God Ye went to Mount Everest to hike. They wouldn't be back until later."

"Whoa~ climbing the tallest mountain in the world?! They really know how to play," said Lou Wei.

"Yesterday, I heard they went to Bermuda Triangle to fish. Nothing in this world is dangerous for them anyway," said Yun Jie.

Suddenly a pair of footsteps can be heard coming towards this location. When Lou Wei and Yun Jie saw who it was, they were delighted. The people who arrived were Warden Lou and Yun Ming who were called back by Lord Hei and Lord God Ye.

Warden Lou said, "So, you guys are here. Ming'er and I thought no one was at home."

"Lou-dage! Ming-ge!? You're back!" said Lou Wei as he ran towards Warden Lou for a hug. He had always been grateful to this big brother God who allowed him and Yun Jie to get back their past memories.

Warden Lou blocked the kid and looked around so that neither Ye Yuyan nor Hei Yuhua was around. But they already knew that both Lords were awake and no longer needed a vessel to rest. Lord Hie and Lord God Ye dropped by once to visit them when they went food shopping in Japan, Korea, India, Indonesia,

and Paris before. Remembering that both Lou Wei and Yun Ming were abroad as a second thought, this shameless couple visited them once asking them to go home and even asking them to take time.

After removing all traces of the Syndicate and having a few days of dates all over the world they've decided to go home. But as soon as they got back there were no people in Ye Yuyan's condominium unit and had to ask to look around and found familiar auras underground. As expected they've found Lou Wei and Yun Jie.

Yu Ming asked, "Where are Lord Hei and Lord God Ye?"

"They went hiking on Mount Everest. Why did you return to Ming-ge?" asked Yun Jie.

Yun Ming replied, "Orders from Lord Hei. He said you guys are about to finish your business. By the way, who is that lady tied to the chair? There is something in her that isn't supposed to be in this world."

"Something not from this world?" repeated Yun Jie in confusion.

Lou Wei shivered and said, "What do you mean something is inside Nightshade? Is there a ghost?"

"Hm? Not a ghost but a parasite," said Warden Lou and waved his hand towards Nightshade suddenly something like a wriggling white snake came out of Nightshade's mouth.

"This is... a parasite. Not an ordinary one but one that gives illusions and takes control over someone's memories. It had a hypnotism effect on the target and this can only be redeemed in the System Mall," said Warden Lou as he crushed the wriggling white snake into nothing.

Yun Ming said, "Seeing these the executives might be under some kind of hypnotism but if the plot wasn't wholly affected until Ye Yuyan and Hei Yuhua come back to the past that means... Some other variables caused these effects. The memories we got from you are enough proof that in your past life none of the executives were inflicted with the parasites. Hm? No... Only one might be affected by it. Yun Jie, the reason you started attacking Ye Yuyan and his people in your past life might be because of this. You are under the control of that parasite which greatly increased your hatred of Ye Yuyan when Hei Yuhua died."

"Y-You mean I have the same thing in my past life?" asked Yun Jie in shock and fear.

Warden Lou said, "There is that possibility. But for the parasite that is supposed to be used on you to end up in this lady's body means that... The hidden villain from your original timeline might have been transferred back here with you guys."

"The only difference is that the hidden villain didn't know you guys regressed with your memories and he thought of his situation as a glitch. After living in a loop he no longer has any sense of time," said Yun Ming. "Be careful. Those who have this kind of parasite had to live with them. In short, that hidden villain is living a life with mixed reality and illusion."

Silence descended in the room. Things have gotten better but some things about their past lives are starting to resurface. Even some secrets they didn't expect before were now being revealed to them.

Lou Wei knitted his eyebrows and commented, "A life of mixed reality and illusions? Does that mean he is insane?"

“Possible. If this is true that means that Director Yu Xi is in danger of being by his side. We should report this to Brother as soon as we can. Someone’s life is in danger,” said Yun Jie.

Ring. Ring. Ring.

Yun Jie’s phone started ringing all of the sudden. Once he answered it, he got a report from Aster that someone had seen the figure of Inspector Yi Rouya going to Crossfield Private High School’s premises. When we tried to capture him, he suddenly grabbed a few students as hostages.

Lou Wei can see Yun Jie’s expressions turning darker as he listens to the report coming from the phone.

“I understand. Make sure to evacuate the other students and surround the building he is in. Make sure to keep the students safe. Tell him to give me time and I will let him talk to Prosecutor Ye Yuyan and Agent Y. Don’t make any mistakes and work with the police.”

Yun Jie ended the call with a heavy atmosphere. He knew what kind of exchange Inspector Yi Rouya wanted to do. He must have heard that Datura, Azalea, and Hyacinth were currently being captured. Prosecutor Ye Yuyan and Hei Yuhua might have captured them all right now especially when Bai Jin, the God of Wealth, and Shi Wuya were there to help. Their task is to capture Hyacinth and Azalea while Prosecutor Ye Yuyan and Hei Yuhua focus on capturing Datura.

Lou Wei asked, “What happened? I just heard you mentioned Inspector Yi Rouya’s name. Isn’t he supposed to be missing all this time?”

“He is back but he is crazier now than before. He even went to Crossfield Private High School just to take some hostages. I don’t know what he wanted to do but we need to stop him from killing the hostages,” said Yun Ming.

Lou Wei said, “Hostage-taking!? What the hell does he want!”

“I will call my brother. You arrange some more people and a sniper just in case,” said Yun Jie

Warden Lou said, “Go ahead. Leave this lady to us. We will look after her.”

Beside him, Yun Ming nodded his head and said, “Go saving lives is the priority.”

Lou Wei and Yun Jie agreed to this and left Nightshade in the hands of Warden Lou and Yun Ming. They left the building and headed to the High school as soon as they could.

—

Somewhere in the City...

Bai Jin and Shi Wuya had effortlessly captured Azalea and Hyacinth. They had surrendered the two of them to the police after they had injected a potion in them to erase their special abilities like what happened to Nightshade.

Hyacinth was shouting at Bai Jin and Shi Wuya as they were being pushed into a police car.

“Who are you?! Why did you know our identity and appearances? You guys had no information about our faces.”

Bai Jin was eating a burger on the side with Shi Wuya after capturing them.

“Of course, we originally didn’t know. But after we got Iris on our side, it is easy to know things about you guys. Don’t worry you’ll see the others in the cell. Just wait for them in the prison to have a reunion party,” said Bai Jin.

“Impossible! You are lying!! Iris would never betray us!!” shouted Hyacinth while Azalea was completely different from him, she was silent yet observant. even though she looks like he didn’t care that she was captured by the police, she was still listening to his surroundings on how and why they were captured all of the sudden. hearing what Bai Jin had said a knowing look appeared on her face.

Azalea looked like he understood some things and gave up struggling right as they were captured. She likes saving people as a doctor more than killing. She truly couldn’t understand why he had joined an evil group like the Red Poppy Syndicate. It was as if she was under some kind of illusion that she must join the syndicate. Hyacinth on the other hand was shouting curses about Iris being a traitor or something. His voice had turned hoarse as his ability was removed.

Bai Jin said, “There is no use shouting at me. Who would even though you would lose his voice when his ability was erased.”

“His awakened ability was connected to sounds. When the effect of drugs on him helped him awaken his ability after it was removed the side effects caused him to lose his voice. He can never sing anymore. By the way, can’t you see your phone flashing? I think someone is calling you?” said Shi Wuya.

Ring. Ring. Ring~

Bai Jin whose hands were full with a cup of coke and burger in his hands said, “You answer it please~ I’m eating.”

Shi Wuya took out Bai Jin’s phone from his pocket and saw it was Yun Jie who was calling. They informed them about the parasites they had found on Nightshade’s body and asked them to check Azalea and Hyacinth.

As expected, they had found the same parasites on the two and they fainted. Shi Wuya did it secretly and said that the two might have fainted as an effect of the potion that erased their special abilities. The police officers believed them and decided to ask a few medics to check on them in the prison. Azalea and Hyacinth were captured without any hardship. Bai Jin and Shi Wuya were different from Ye Yuyan and Hei Yuhua, after all, they are Gods.

—

What happened a few hours later after Hei Yuhua and Ye Yuyan send away the Hei Family and continue their plans? Their mission is to capture the Mad Scientist, Datura.

At the abandoned warehouse.

The secret hideout of the Red Poppy Syndicate.

Prosecutor Ye Yuyan was in the lead of the group standing beside him was his wife, Hei Yuhua.

He made a gesture with his hand to the police officer who came with them to surround the warehouse. Most police who came to them were wearing full body suits as they were informed that Datura might be a special ability user like the other people appearing in this city nowadays. With the help of the potions and experimental concoctions surrendered by the scientists from the Secret Main Laboratory, the government was now informed about the existence of special abilities and their connection to the Red Poppy Syndicate. *novel.usbdotc\o/m*

In the Bluetooth headset, a report was heard in Ye Yuyan and Hei Yuhua's ears.

[Sir. All clear. We had secured the whole area. Waiting for your orders to infiltrate!]

Prosecutor Ye Yuyan responded, "Wait outside. I and Agent Y will enter first. Capture anyone who would run out of the warehouse after we entered."

[Affirmative!]

Chapter 694: 12.96 Unknown Star – Modern ABO World: Second Case -World Eater's Fragment

The whole abandoned warehouse was surrounded by police under the command of Prosecutor Ye Yuyan. After all, preparation was done, Prosecutor Ye Yuyan looked at his wife who was playing with his bullet suit armor and guns in his hands. He looked serious and was surrounded by coldness. It cannot be denied that Datura had a connection with Hei Yuhua. They both hated each other to the core.

Prosecutor Ye Yuyan was about to talk to his wife when suddenly a report from Lou Wei arrived. Saying that a hostage-taking case in Crossfield private High school is taking place. The cause of it was Former Inspector Yi Rouya. They say that they would be a bit late in sending reinforcements. The only good news they hear is that Azalea and Hyacinth were already caught and were now on their way to prison.

"Yu'er, don't push yourself too much. A message came from Lao Wei. Yi Rouya is acting weird by suddenly taking some students hostage. Don't you think this move is out of place? Is he sure we can capture Datura?" asked Prosecutor Ye Yuyan.

Hei Yuhua replied, "Leave that case to Lou Wei and Yun Jie. Datura is the most important. We must capture him alive."

System Yang spoke, [Something's weird here.]

Prosecutor Ye Yuyan and Hei Yuhua heard System Yang's voice in their head but it didn't materialize in reality.

'What do you mean, System Yang?' asked Hei Yuhua.

.....

This time the one who answered was System Yue.

[There is a presence of a god in there. An evil god! It is not too powerful but... For mortals, you can never defeat it. What's more... It fused with Datura's vessel. Iris and Oleander are unconscious.]

System Yang said, [Yue, go and find Lord Hei and Lord God Ye. I remembered this feeling... This is a wisp of a world eater's aura! We need to leave as soon as possible!]

BOOOOM~

But as soon as System Yang finished saying those words, a huge explosion came from the abandoned warehouse. The whole place was destroyed and only a pile of ruins, rocks, and dust spread around. Except for Hei Yuhua and Prosecutor Ye Yuyan who were firmly protected by System Yang and System Yue, the rest of the police were all killed by the explosion.

“AH! No!!!”

Looking at the numerous burned bodies of their comrades, Prosecutor Ye Yuyan felt pain in his heart. These people came here to work with him. They were all by his side all this time. Most of them were subordinates that had been with him all this time. They had died with him in his past lives and still died in this present lifetime. He once again failed to save them.

Eyes bloodshot with immense anger and sadness, Prosecutor Ye Yuyan glares at the being that appeared before them. He wears the face of Datura. The only difference is the black wing on his back and the black eyes and scarlet irises staring at them. There’s a sneer on the corner of his lips as he looks at Prosecutor Ye Yuyan and Hei Yuhua.

The evil in Datura’s body spoke, “Hmm~, unlike these mortal bodies which possess souls of Gods, you two are both pure humans in flesh and soul but... There is a trace of pure divinity in your bodies. And two systems from the upper realm. I see now! No wonder I can’t eat the souls of these two gods. Their souls are under the protection of the gods you guys have a connection with. Hehehe~”

Not far from the battered bodies of Bai Yin and Wan Yi were lying under the foot of Datura. They are still unconscious. Unable to wake up due to their heavy injuries. Fear spreads in the whole being of Prosecutor Ye Yuyan and Hei Yuhua. They wanted to run away but their bodies were not listening at all. The aura coming from Datura at this moment horrified them too much.

Prosecutor Ye Yuyan’s thoughts at this moment, ‘What is this? A devil? God’s exist so the devil exists as well?!’

‘W-Why does it feel that this being in front of them doesn’t care about them at all? Even System Yang and System Yue don’t seem to interest him much.’ The thoughts of Hei Yuhua.

System Yang and System Yue materialized in their human forms. Zhi Yue and Zhi Gang stood in front of Hei Yuhua and Prosecutor Ye Yuyan in a protective manner. If something happened to these two humans the karma of failing the vow of exchange would fall on their lords which would lead to bad karma that will affect their lives.

System Yang didn’t hesitate and teleported to take the God of Misfortune and the Celestial General back to their side. His teleportation ability is as strong as his master, Hei Anjing. Seeing this series of actions the Evil Datura looked at them nonchalantly. He doesn’t care if a few of his prey were taken from him. He couldn’t eat them anyway plus, they weren’t as delicious as a whole world filled with world energy. He loves world energy the most and divinity found in gods and goddesses can only serve as seasonings to the main dish. Looking at the sky, he was checking the age of the age world he is in right now.

He couldn’t help but lick his lips when he found out that this world is an upgrading one. An S rank world that is about to enter SS rank. It is one of his favorite foods. Worlds that are ranked S and above are

delicacies his race can eat once in a while since most of these worlds are protected by a Celestial God and above.

He is just a mere fragment of an awakened World Eater. There are many of his kind scattered around the world. Who would expect he would be awakened too early this time? Lots of fragments of his kind exist all over the universe. Their mission is to eat lower-level worlds and let the main egg grow stronger until he is born.

But a few hundred millennia ago, the Origin God of Light and the Origin God of Darkness had destroyed their whole race. They exterminated them leaving not even a soul to exist. Unknown to them, a dormant egg was taken away by some before they completely destroyed the existence of the World Eater. Sleeping all this time waiting for an opportunity to once again wake up. Lately, the main egg was slowly getting stronger. It seems someone is helping it feed; they didn't know who that fool was. But thanks to him they are slowly gaining strength. As long as they don't bump into a being that could utterly destroy a world's existence they would be safe.

System Yue teleported Prosecutor Ye Yuyan and Hei Yuhua back to their house without explanation.

System Yue said, [A'Yang, what should we do now? That's a world eater fragment! We can't defeat that even in our real form!]

[I already informed Lord Hei and someone from Vearth but... I don't know if they came here on time. For now, we can use an array to trap him here. Help me Yue'er.] said System Yang.

System Yue responded, [I will be with you!]

The two who rule the sun and moon domains released their powers. In a split second the sky above them had split into half morning and half evening. Both the sun and moon are out, creating a yin-yang scene in the sky. Inscriptions of ancient god language appeared on both the sky and earth. Trapping the evil Datura inside the prison created from heaven and earth.

Evil Datura remained calm and said, "The Imprisonment of Heaven and Earth. You little fledglings! You are from Vearth aren't you? Hehehe~"

System Yue said, [So, what if we are!?] *novEℓusB\c\o/m*

[Yue'er. Ignore him! Focus on the array! This being is even worse than demons. They can control minds as long as you respond to them!] said System Yang.

"Hehehe~ One is a young god but the other seems to be someone from ancient times..."

Hearing this System Yue decided to cut off his hearing and ignore the Evil thing. According to his memories, this being is from the vilest race in existence. He had no care for the factions of good and bad. It only knows one thing, that was to eat. Its most favorite food is the world.

A world eaten by this being can never be reborn. It will forever be gone. Unlike the worlds destroyed by Gods which can still be reborn from a world seed that would sprout after a world is destroyed. It is very hard for worlds to be born and it takes a long time for them to grow.

The actions taken by Zhi Yue and Zhi Yang caused chaos in the whole world. No one knows what is happening. The phenomenon of both morning and evening appearing at the same time frightened everyone. To humans, this can be considered a scene of the world ending.

On Mount Everest, Hei Anjing and Ye Cijaie just finished making large sets of snowmen in different shapes on the peak of the mountain when suddenly they saw the scene of sun and moon domains being activated at the same time.

Hei Anjing spoke, "Hm? Sun and Moon Domains? Aren't these the domains of Yue and Yang? Why are they using their real ability the world wouldn't bear it."

Ye Xiajie was observing the world and noticed no cracks appearing on its surface which is weird.

"Something that does not need to exist seems to be awakened in this world. Jing'er do you know what this thing is?" asked Ye Xiajie.

Unlike his wife's weakened state, his state is almost close to his perfect state. He is the most powerful being in the world right now. He showed the image of the evil Datura, Zhi Yue, and Zhi Yang trapped in the array.

Hei Anjing is different from his husband, he had both memories of his past lives and current ones. When he saw the ghastly aura of gluttony in Datura he immediately recognized it.

"That fragment of a World Eater race!! My love... This being cannot exist! We must destroy it or its main body would awaken. If that happens then... All existence would be in danger," said Hei Anjing.

Ye Xiajie frowned. He can be based on his wife's reaction that this thing is a bad thing that must be destroyed. He hasn't heard about this thing but he wouldn't let anything exist that can harm his wife.

"How to kill it? Will my God Slaying sword be enough!?" asked Ye Xiajie.

Hei Anjing shook his head, "The World Eater Fragment is not a god or a being of divinity. The God-slaying sword wouldn't be useful to it. My love, the only thing that could destroy it is pure energy. If your soul is complete you can destroy it with the pure energy of darkness but... Right now, your strength even if you are stronger than I am right now, wouldn't be able to harm that thing. A'Xia, use my domain."

"Which one?" asked Ye Xiajie as he looked at his wife who was smiling at him gently. He knew his following words wouldn't be nice to hear.

Hei Anjing placed his hands on his husband's head and poured all the pure energy of his main element as the God of Destruction. He gave his husband the ability to destroy everything that exists. An extremely powerful element that wasn't listed as element ability but one born as one.

Ye Xiajie knew what his wife was planning to do. He is giving him all his divinity. He wanted to stop him because the transfer of strength cannot be stopped. He can only watch as his wife's soul turns blurry and transparent before his eyes. He tried to stop him but it was useless.

"Stop this Jing'er!!" Ye Xiajie's tears couldn't help but fall. There is nothing more painful than to see his beloved disappear before him like this. He never wanted this feeling. Even though he knew they would once again meet in Vearth.

“I’m sorry my love. We will meet again after the final stage of the second trial. Don’t cry. Promise me. You must destroy the World Eater’s fragment. That is a thing that should never exist.”

“N-No... Don’t do this.”

“Silly~ don’t cry. We can meet again in the Netherworld.”

Hei Anjing’s soul faded as he gave one last kiss on his husband’s lips. A silver crown made from stars appeared on Ye Xiajie’s head. It was a crown made from Hei Anjing’s Destruction energy. As long as this domain is activated the one who wears the crown would possess the strongest authority and ability to use the power of destruction. The most powerful and destructive ability the God of Destruction possesses. The Domain of Ruination.

The moment Ye Xiajie saw his beloved disappear he could only scream in anger and loneliness.

AAARRRGGGHHH!!!

Chapter 695: 12.97 Unknown Star – Modern ABO World: Second Case – World Eater’s Fragment (2)

What happened before Hei Yuhua and Ye Yuyan appeared outside the warehouse and planned to capture Datura?

In the mad scientist, Datura’s Laboratory, before Prosecutor Ye Yuyan and Hei Yuhua arrives at the abandoned building where he is hiding. Oleander (Bai Yin) and Iris (Wan Yi) just rejoined the Syndicate as spies. They already knew that the appearance of the executives of the Red Poppy Syndicate had all been known by the people from Aster. They’ve also heard about the wanted status of everyone involved with the Red Poppy Syndicate.

In the living room space within the warehouse, Oleander and Iris were staying as they watched Datura closely. They cannot let him escape.

Oleander whispered, “Iris, don’t you feel that the meteorite in the lab of that madman felt weird? It gives me an eerie feeling. That stone was something that gave the madman countless unknown elements or whatever he uses in his drugs. It seems to be a living thing.”

Iris thought so as well. Even though he hadn’t gotten his full strength and his vessel had no divinity at all, there is at least something that protects his soul. This was something his Lord left in him. Even Bai Yin had his soul protected by Lord Hei. That protection is able to block almost anything in the universe. This is anything that pertains to attacks that involve the soul. Their vessel still needs to die to return to Vearth.

The effects of protective measures left by Hei Anjing on them had the effects of canceling debuffs including fear and other negative emotions. But like what Oleander had said, that meteorite gave him the chills.

Iris said, “That thing doesn’t seem like it’s ordinary. If it can make us feel anxiety that means it wasn’t something of this world. But I don’t remember the hidden villain redeeming such a thing from the System Mall.”

.....

"I've checked. There is no such thing in the system mall. But it really gave me an uncomfortable feeling, should we destroy it?" asked Oleander.

Iris stared at the laboratory with a scrutinizing gaze and sees that Datura is so focused on the meteorite. He didn't even know the current situation of the Red Poppy Syndicate. Not even he knew that his reputation and evil deeds had been known to everyone.

"Wait for him to come out of the laboratory then destroy it. Watch over that mate of his, he's been staring at us for quite a long time," said Iris.

Oleander spoke, "Hasn't he lost his mind already?"

"He is but... his bond with Datura is enough for him to understand what is happening. It's just that he lost his way of communication and became an idiot," said Iris.

Oleander asked, "You mean he can still understand us even though he is dazed like that?"

"Because his soul is still alive. Protected by his soul bond with Datura. He cannot die even if he wishes to. His love for his fated mate restrains his soul," said Iris.

Oleander mumbles, "Human love is sometimes too troublesome."

"Haven't been in love yet?" asked Iris. *novelus&dotc/o/m*

Shrugging his shoulders, Bai Yin said, "I'm a God of Misfortune. Everyone who stays by my side would be unlucky. Would someone even stay with me?"

"Isn't that little pigeon of yours unaffected by your Misfortune? You just need to find the right person to love," said Iris.

Meanwhile, inside the laboratory, Datura, this mad scientist, is slowly peeling the meteorite in front of him.

Datura murmurs in anticipation, "A bit more. Just a bit more. Hehehe~"

{My source is at the center. As long as you peel my skin you would see something not from this world~}

This is the voice enchanting Datura all this time as he uses the meteorite as his mine of unknown components to be studied. Datura had always loved unknown things, especially those that had no explanation. It made him excited knowing. He is a scientific person, he believes everything has scientific meaning. So when he first heard of the voice of the meteorite, Datura had only thought of it as something like a hallucination. If it's only hallucinations he can still work on it while ignoring it.

This meteorite was something his Poppy Leader had given to him as a gift for joining the Syndicate. He had this ever since he joined the Syndicate but he only started hearing its voice when Agent Y destroyed his face. At that time he was full of hatred and killing intent for Hei Yuhua. He didn't even know that the thing in this meteorite awakened due to those feelings. The World Eater was born from hatred and resentment of all beings in the world. It only wanted to eat anything that came its way. A gluttonous being that wouldn't die unless it was full.

This mad scientist did not know what he is doing right now is like freeing a devil out of hell. He didn't even expect that he would lose not only his life but also his body to this thing he considered an experimental subject.

He had been prying at it for quite a long time. It was only now that he focused on doing so. At the moment the core of the meteorite was revealed, Datura's excited smile was replaced by extreme fear and disbelief instead. What is inside the meteorite if only an obsidian ball that looks like it was made of galaxies and a blackhole sneering at him?

{Hahaha~ Humans are truly foolish~ your body would be a useful temporary vessel for me.}

AAAHHHH!!!

Datura wanted to run away but his whole being was eaten by the world eater fragment. Once they've heard the scream of Datura, Bai Yin, and Wan Yi run towards the laboratory and witness the scene of him being eaten by that weird ball on the table.

Bai Yin exclaimed, "What the hell is that!?"

"Run! That's a world eater fragment! We need to tell the Lords!!" shouted Iris.

But sadly, the world eater had already morphed into Datura's body and used his face as its own. In just a step, it appeared in front of Bai Yin and stared at him with black eyes that seemed made of endless darkness and eternity.

{Heh~ the body is human but the soul is a God. You might be a bit weaker but you should suffice as a snack for now~}

Iris said, "Escape now. Inform Lord Hei that the World Eater Fragment exists in this world!!"

The world eater fragment wanted to eat the God of Misfortune but was attacked by Wan Yi. His abilities as a Celestial God General but his soul weapon is still with him a black spear with silver runes appeared in his hands. This weapon was bestowed to him by Hei Anjing hundreds of years before. It can be said that the weapon itself is mixed with Hei Anjing's aura as the God of Destruction. As a person who fought side by side with Hei Anjing, Wan Yi's weapon had an aura of destruction in it. The aura of destruction is what Hei Anjing used to destroy multiple world eater fragments when he was still working as the strongest Executioner in the God System.

Phew! The world fragment waves his hand the gravity in the world following his will. Iris and Oleander were thrown here and there until they reached the threshold of injuries that their mortal bodies can bear.

{The power of ruination. You are an apostle that serves that annoying God of Destruction! That bastard had destroyed a lot of my fragments and prevented me from awakening! It is because he is in the way that I accepted the alliance with that lowly Ye Gui! If not for me helping him kill his son, that bastard God of Destruction wouldn't sacrifice himself to protect the dying soul of the Lord God of Netherworld. Hahaha,~ isn't he too weak right now? I can barely feel his soul~ did you really think he could kill me in his state!? Hahaha!}

Iris spoke, "So it was your fault. Lord Hei wasn't supposed to meet Lord God Ye in inferno. You were the one who sent that anonymous report about the hideout of the Ye Gui Race, which caused Lord Hei's system to malfunction and spread the existence of Ye Gui's Crown Prince. It was you all along!!!"

{Hahaha~ of course! How hard do you think it is to kill someone with the blood of Mo? It is already unfair that their bloodline is pure, they are powerful as well. With mortality it is almost impossible to kill them, thankfully newborn Gods and their unbound other half are easy to manipulate. After all, no matter how intelligent a Mo is, their weakness would always be the other half of their soul. It was so easy to scheme the God of Destruction. His yearning for his other half almost causes his death. It was hilarious~}

"You evil be...-ing!"

Wan Yi was glaring at this being wearing Datura's face. But his mortal body was so injured he couldn't keep himself awake and finally lost consciousness like Bai Yin not far from him.

Tsk!

{Because their souls are protected by that God of Destruction's aura I cannot eat their souls or my current body will explode. He is still in my way of eating even after losing most of his soul and strength. Either way... this world is enough nourishment for me to move in the universe and look for other worlds to eat~}

Suddenly he noticed the dazed Yi Rouya staring not far from him. He recognized this human as someone that foolish scientist had treated as a precious subject. He was even willing to harm a person that loves him the most.

{A God was willing to sacrifice everything to revive his lover while a human is willing to harm his love for the sake of his desires. As expected of the source of negative emotions, humans are made of both good and bad. They are contradictory beings in existence.}

He observes the dazed Yi Rouya staring at him, no it is more like on the face he is currently using. The face of Datura is the appearance of Yi Rouya's obsession. He allowed the human to touch his face with that expressionless face of his, but for some reason, he can feel the happiness hidden within the depths of those empty eyes.

{Do something for me and then I will let you be with the soul of your lover. Do you understand me?}

Unexpectedly, Yi Rouya nods his head. Like Iris had said before, Yi Rouya lost most of his functions to show his emotions. He looked like he lost his soul but his connection with Datura as his fated mate remains to keep him alive.

The World Eater Fragment whispered to Yi Rouya what he should do and the former teleported him to the place he needs to be. It was just after he teleported Yi Rouya away that he felt numerous human auras coming over and the auras of two Gods much stronger than the faint ones under his feet.

{A mechanical being that gains a soul. It's the first generation system and two at that. Most first-generation systems were only owned by Supreme Gods and Goddesses. This is interesting.}

Prosecutor Ye Yuyan and Hei Yuhua did not know that what welcomed them in that warehouse was no longer human. It was replaced by an evil existence that was no longer human yet wore the face of Datura. The police officers who came with them had all died and only Hei Yuhua and Prosecutor Ye Yuyan were spared as they were protected by System Yang and System Yue.

Chapter 696: 12.98 Unknown Star – Modern ABO World: Second Case – Back to the Netherworld

In Vearth

Both the God System and the Nether System received a report from System Yue. It was reported that the existence of a World Eater Fragment was found in the current world Hei Anjing and Ye Xiajie are in.

An Liang exclaimed, “World Eater Fragment!?! Impossible! Isn’t the World eater extinct!?”

“No. It wasn’t. Hundreds of years ago, the one who cleans up these fragments was Jing’er. Though he was busy looking for Ye Xiajie’s soul, he still does his responsibilities. Most of the worlds he had destroyed had this kind of fragment. To make a new world be born. It needs to be destroyed first and collected for the world seed to be planted once again. We’ve hidden the facts about the world eater ever since the prophecy from the Origin had been made,” said Hei Jue.

An Liang asked, “How can we kill a fragment of the world eater?”

“The way to eliminate a world eater can be simple at the same time not. You only need to make the right person kill it. It can only be killed by the pure energy of negativity. It can be the power of destruction, darkness, carnage, and death. Jing’er usually uses his domain to kill it but right now... I do not know if it is possible with his current state. We should report it to Senior Hei and the higher-ups,” said Hei Jue.

“We’ll go. Give me the coordinates.”

.....

Then suddenly they heard a cold voice coming from behind him, the aura of this person was suffocating making it hard for Hei Jue and An Lianh to breathe. As soon as they turned around, they saw the Supreme Ruler of Light, Lord Shen Siwang, and his wife, the Supreme Lord of Life and Death, Lord Mo Baojun.

Both Hei Jue and An Liang lowered their heads in greeting. These are Sovereign Gods that control Vearth. They are supreme beings.

“Greetings to Supreme Lord Shen and Supreme Lord Mo!”

Shen Siwang had an amiable smile on his face as he nodded to them in return for their greeting. On the other hand, Mo Baojun frowned a bit and resumed his expressionless face in front of their greetings. Mo Baojun is unlike Hei Anjing who can wear a smile while facing others. He remains cold in front of strangers and only in front of his family and other half. Hei Jue might be Hei Anjing’s cousin but he is a stranger to Mo Baojun so this tyrant would show emotions towards him.

Mo Baojun said, “Coordinates.”

“Ah. Yes! Please give me a second!” said An Liang as he found the exact coordinates of Hei Anjing, the world eater fragment, and Ye Xiajie.

Hei Jue remained silent in the presence of Mo Baojun.

“Hei Jue, for the rest of the trials, I and Siwang would handle the things in the Nether System temporarily. You can go home with your husband and daughter,” said Mo Baojun.

Hei Jue was startled at first but did not question Mo Baojun. He is always like this, Hei Jue never questioned anything the Supreme Lord Mo did.

“As you wish, Supreme Lord Mo,” responded Hei Jue.

An Liang who just returned said otherwise and asked, “What do you mean, Milords?”

Mo Baojun responded and Shen Siwang had to speak for him. His wife never had patience with others except when it comes to his family and him.

Shen Siwang said, “What remains of the Second Trial is the final world. Ye Xiajie is destined not to enter that world as his soul core would do it instead. He will remain here on Netherworld until Xiao Jing’er and his soul core complete it. Even though his soul is incomplete, the fact that he is the former God of Void, and his strength as a former Supreme God cannot be denied. You both wouldn’t be able to stop him no matter what you do because you’re weak.”

The Supreme God of Light is blunt as always. Even if his words aren’t nice to hear and his gentle smile looks fake, Shen Siwang can openly say what he wants to say straight to your face.

Supreme Lord Shen Siwang’e reply left Nethergod An Liang and the God of Space, Hei Jue, dumbfounded. This is the first time they met someone smiling so kindly yet possessing a poisonous tongue. The atmosphere in the throne room suddenly becomes awkward. Senior Hei Mo who just arrived saves the young married couple from their predicament.

Cough!

Senior Hei Mo spoke, “I know who was hiding the main egg of the world fragment.”

Shen Siwang didn’t greet Hei Mo but Mo Baojun at least clasped his hands towards him. To Mo Baojun, this man can be considered an elder due to age. He had always been polite towards those older than him. Shen Siwang cannot be considered Hei Mo’s junior as no one knows how old this man is as he was the one who created Vearth with the help of the Origin.

“Who is it, Old Man?” asked Shen Siwang.

Senior Hei Mo didn’t mind Shen Siwang’s words. He understood that this man stood above any of them except for his wife, brother, and his wife’s family. Even though he looks gentle, his kindness can only be received by his wife.

“Answering to the Supreme Lord Shen, I saw Ye Mo of the Ye Gui Race possessed the Main egg of the World Eater race,” said Senior Hei Mo.

Supreme Lord Mo Baojun said, “Him again?” Then he glared at his husband.

“W-Why are you glaring at me, wifey?” asked Shen Siwang.

Mo Baojun answered, “If you didn’t complain to your brother about boredom would he even create that damn race? Now that race even dared to hide the main egg of the World Eater!”

“Wifey, calm down, please. Anger is bad for the heart~” said Shen Siwang.

Mo Baojun said, “Shut your mouth.”

“Okay,” said Shen Siwang.

The interaction between this couple is not much different from Hei Anjing and Ye Xiajie. It is just that Mo Baojun is more fierce than coquettish and Shen Siwang is more expressive.

Mo Baojun asked, “Does the elder have any idea where Ye Mo might be hiding?”

“I’ve already listed the worlds I know that might be used as hideouts but... Some had become barren worlds and others were destroyed by Lord Xia Jieye. No more traces can be found,” answered Senior Hei Mo.

Mo Baojun said, “That means they are hiding or... Much closer than we think.”

He only needs to glance at his husband for the latter to understand what he wants to do.

Shen Siwang said, “I’ll ask Cao Xinsheng to send people to look around every place and crooks in Vearth but I can only check at the places with light. As for those filled with darkness, we can only wait for my brother to come back.”

“Even if he comes back right now his soul is still incomplete. He would still be useless,” said Mo Baojun.  
novelUsB.c\o\m

Out of nowhere, the whole place shook. Not only Netherworld is affected but even the whole Vearth rumbles.

Shen Siwang said, “This is a quake caused by something outside the world. Only Xia and Xiao Jing’er are able to cause this much of an after effect.”

“It cannot be Jing’er. He is currently just a soul fragment. It must be your brother’s but isn’t his soul incomplete as well?” said Mo Baojun.

When suddenly a huge teleportation circle appeared in the throne room, humans from another world kept appearing group by group. The number that appeared before them is enough to be considered a whole population of one world. The humans were stabilized by Warden Lou, Yun Ming, the God of Wealth, Demon General Shi Wuya, the God of Misfortune, Angel Race Gezi, and Celestial General Wan Yi.

Nethergod An Liang said, “What is happening where these humans came from!?”

“Stop panicking. No humans should be able to enter Vearth without permission from the Lord Gods or Supreme Lords. If these mortals are able to enter the Netherworld that means it was your friend that asked System Yue and System Yang to bring them here” said Hei Jue.

The ones who transferred them here were System Yue and System Yang under the orders of Lord God Ye.

All humans were put into a dream state except for Ye Yuyan, Hei Yuhua, Ying Su, Yu Xi, Yun Jie, and Lou Wei.

“What is this place?” Lou Wei said in shock. The surroundings around them immediately tell them that they were no longer in the same world they were born into. This place looks like a throne room, not an ordinary throne room but one that serves the purpose of serving Demon Gods or Immortals in the books.

“Don’t move around. We don’t know this place,” said Yun Jie as he held his lover’s curiosity down.

Ye Yuyan said, “Don’t move around. Stay where you are.”

“This place might be where Lord Hei and Lord God Ye originally lived,” muttered Hei Yuhua while carrying his sleeping daughter.

Suddenly, in front of them, they saw Zhi Yue, Zhi Yang, Warden Lou, Yun Ming, Bai Yin, Bai Jin, Wan Yi, Shi Wuya, and Guang kneeling on one knee before five men wearing ancient clothes. They were wearing varying types of cultivator clothes on them. Three of them wore dark green robes of the same style. Obviously, these three people are from the same side of the family. Only the Hei Clan wore Dark green robes, Hei Jue, Hei Mo, and An Liang who is the husband of Hei Jue were considered people from the Hei Clan.

But the other two were different, the smiling man wears gold and white robes while emitting a holy aura on him, and the other wears pure white clothes with golden sun patterns on his robe. Obviously, it was a couple of robes with the man wearing a gold white robe. They are clearly a couple and one had a similar aura as Lord Hei and Lord God Ye though their aura is more of the light than the darkness the former emits.

“Greetings to Supreme Lord Mo and Supreme Lord Shen.”

“Greetings to Senior Hei, Clan Leader Hei, and Nethergod An!”

An Liang spoke, “Okay. You may rise. Can someone tell me what is happening? Why did you bring mortals to the Netherworld? This place is full of souls and the dead.”

“Answering Lord An, after finding out the existence of the World Eater Fragment, I and Zhi Yue tried to contain it but failed. Lord God Ye suddenly appeared but...” Zhi Yang was explaining.

Hei Jue asked, “But what...?”

“We didn’t see Lord Hei. Only... Only the crown of carnage and Domain of Ruination can be felt coming from Lord God Ye... He... The Lord God had totally lost it. The S rank Omegaverse Crime World becomes Lord God Ye and the World Eater Fragment’s battlefield. We could only bring the humans here due to the Karma we made with these humans,” said Zhi Yang as he told them the relationship of Hei Yuhua and Ye Yuyan to Lord Hei and Lord God Ye.

Shen Siwang’s smile disappeared and said, “As expected, he had gone insane. But this time, Xiao Jing’er is still alive. Why is he going mad for no reason?”

“Stop talking nonsense and go with me. If this continues they might end up destroying more worlds and the balance would turn bad,” said Mo Baojun.

Shen Siwang smiled at his wife and said, “Okay. Let me contact Cao Yinshen first and help these mortals move into another world. There’s a lot of new worlds in the modern genre.”

“Hei Jue, I will leave this for you to handle for these mortals. Senior Hei, please help me with the security of Vearth while we are away,” said Mo Baojun.

Hei Jue said, “As you wish Supreme Lord Mo.”

“Leave it to this old man. I can handle it,” said Hei Mo. Beside him, An Liang just finished opening the portal with coordinates of the world where the world eater fragment is found.

Only then did Mo Baojun and Shen Siwang disappear in thin air, entering the portal An Liang had opened for them. This portal leads to the world where Ye Xiajie is currently.

Meanwhile, as ordered Hei Jue handled the humans. They’ve contacted Cao Xinsheng, the Lord God of the God System. After asking for an empty new world, the other gods worked together to bring them over. An Liang even made sure that the structure of the new world is completely similar to the old world these humans came from. At the last moment, before their memories of Vearth were erased they made Ye Yuyan and Hei Yuhua finish their fate with Ying Su. Their past memories of the tragedy were also cleared up as they wished. Now they would be living in a new world with a new life and a new destiny. No world plots, no schemes, only happiness.

Chapter 697: 12.99 – Unknown Star – Modern ABO World: Second Case – Ye Xiajie and the World Eater Fragment

The scene of his beloved fading before him broke his heart. Ye Xiajie knew it wasn’t a complete separation but only a temporary one. Even then, he couldn’t accept that his beloved would have to give him the little bit of power he had left in him just to give him the temporary authority to control the power of destruction.

His eyes were glowing dark red and the atmosphere around him turned dangerous. Rage. Ye Xiajie is very angry. The space around him shook as the darkness around him was released. The tall snowy peaks of Mount Everest melted under his pressure and one of the few peaks turned to dust.

Ye Xiajie murmured in extreme fury, “It was that thing’s fault. I don’t know what the hell is that World Eater Fragment that caused me to be separated from my wife but... I’ll make sure to erase your existence when I get my whole soul back!”

Tsk! Ye Xiajie clicked his tongue in a bad mood. Before disappearing in thin air after ruining half of the mount peak of Mount Everest. If this scene was discovered, this would definitely be reported in the news for days and would be considered a headline. Who would have expected the icy mountain peaks of Mount Everest to melt? Causing natural disasters followed by its melting.

Meanwhile, Ye Yuyan and Hei Yuhua had been teleported back to their condominium. They fall on the carpeted floor as if they were boneless. The pressure that almost suffocated them and caused them to lose control over their bodies due to intense fear was finally gone. It still took a while before the trembling of their bodies resided.

Hei Yuhua asked, "A'Yu, what should we do? That thing... The one that wears Datura's face is obviously no longer human. I... Is the world ending?"

Ye Yuyan hugs his wife, he can feel the shaking of both their bodies. When humans face the end of the world, the only thing they would remember is the most important people in their lives. Their loved ones and their family.

.....

"Don't worry. System Yang and System Yu can stop that. Moreover, we have Lord Hei and Lord God Ye on our side." said Ye Yuyan.

Hei Yuhua hugs back his husband and says, "A'Yan, I want to see Huahua, Father Ye, Mother Ye, and my family."

"Um, I will bring you there. Let's go stay with them now," said Ye Yuyan.

Hei Yuhua said, "No. Call back, A'Jie and Brother Wei then... We will go back home together."

"Okay. I will call them back," said Ye Yuyan as he called Lou Wei and Yun Jie back home. They only waited for half an hour before the two came back. He also ordered the people imprisoned underground to be released.

Though no one informed Warden Lou and Yun Ming about the World Eater Fragment's existence they could still feel the changes in the world. They were waiting for everyone to return when they felt the owners of this building had come back.

At the underground prison...

Yun Ming and Warden Lou unfreed Agent A who had fainted when the parasite on her was removed. They were waiting for her to wake up when they felt the existence of the World Eater Fragment. Yun Ming had no idea about this, he can be considered a young god that knows nothing about this Mythical existence. On the other hand, Warden Lou knew about the prophecy spreading in Vearth. It is about the existence of who eats worlds.

"The world is in turmoil. I can feel the domain of the sun and moon. Is it Zhi Yue and Zhi Yang? But why would they use their domains in this world?" asked Yun Ming.

Warden Lou said, "Something isn't right? There's another unknown energy... A sinister one that steals or eats energy. Feel it, do you think that the world energy in this world is fading?"

"You are right? What is it that is causing this situation? Plus..."

RUMBLES~

Yun Ming's words were cut off when they felt the whole world shook. They know this isn't an ordinary earthquake since they could feel the dangerous aura of Lord God Ye in it.

Warden Lou frowned and said, "This is... Milord's aura but... Something was mixed in it."

"No, impossible! How can he wield the power of destruction!? Only Lord Hei is capable of using it! Eh??? No... No way! Lord Hei's presence... it disappeared?" said Yun Ming.

This time Warden Lou himself was shocked. What does Lord Hei's soul presence disappearing mean? It meant that his Lord would go crazy and this world would be no more!

Warden Lou said, "A-Are you telling the truth? Lord Hei's soul was stabilized, how can it suddenly disappear!"

"But it really disappeared? I can no longer feel the soul protection Lord Hei left on me!?" said Yun Ming.

While the two are panicking, Ye Xiajie suddenly appears before the two. He teleported in front of them but the thick aura of murder stifled the two gods' breathing. Warden Lou and Yun Ming were stunned to see a cold-faced Ye Xiajie appearing in front of them. They could feel the pressure he was emitting and could barely raise their heads. All other things including humans felt their bodies under pressure the closer they were to Ye Xiajie the more gravity they felt. The sleeping Agent A not far had longed turned to red mist and existed no more.

Warden Lou lowered his head and saluted while Yun Ming was dumbfounded as he stared at the familiar-looking silver crown made of stars and galaxies on Ye Xiajie's head.

"Greets the Lord God!"

"Warden. I will send Yang and Yue here. You with all Gods in this world and transfer the mortals temporarily to the Netherworld. Afterward, you ask An Liang to find them a new world to live in next. You must erase all their memories of this world and us."

"As you command, my lord!"

After saying these words Ye Xiajie once again disappeared making the two feel like a huge rock in their hearts disappeared. It was only a few minutes after that Warden Lou noticed his lover's weird silence. When he checked on him he saw him dazed as if he had seen something he couldn't believe.

Warden Lou asked, "Honey, what's wrong?"

"He... He... Why does he have the Domain of Ruination and the Crown of Carnage? Those are Lord Hei's powers," muttered Yun Ming.

"M-Maybe Lord Hei let Milord borrow it. As we know his soul... His soul is already too weak. Moreover, Milord is Lord Hei's other half. There is no way he would harm Lord Hei!" said Warden Lou.

Yun Ming said, "Other half? Yes! You are right! I heard those in Mo Bloodline can let their other half use their abilities. This is one of the few reasons why a Mo's other half is special. Let's go. We need to make preparations for one large teleportation to the Netherworld. We need to create a world-size Teleportation Circle."

"Do we have enough materials?" asked Warden Lou.

"Can Elemental Stones be used? I always have it from the Fantasy World we had gone through before," said Yun Ming.

Warden Lou said, "The one from when you are a Spirit Lord?"

“Yes. The Ice Spirits at that time made a lot of it and gifted them to Lord Hei. I’ve been holding on to it since then,” said Yun Ming.

Warden Lou grinned and said, “That’s great. Let’s use it all!”

The two busied themselves in building a world-sized teleportation circle. The spell structure for this one had been simplified by the God of Punishment, Lord Hei Sian, who came from the Clan and held absolute control over Space Elements. Because of him, most Gods and Goddesses can use the simplified version of the Teleportation circle. The downside is that they need a lot of spirit or elemental stones to help them convert their own elemental qi to space elements. After all, not all Gods are able to wield space elements. The simplified array is used to convert their current elemental qi to space element regardless of what element it was.

—

Ye Xiajie finally appeared at the place where Zhi Yue and Zhi Yang were trying their best to imprison the World Eater Fragment using the arrays of Heaven and Earth. They now look pale as the energy used to keep it activated requires endless consumption of their qi. Even if they are high-ranked Gods, their qi isn’t infinite.

Zhi Yue said, “A’Yang, I feel dizzy~”

“Just a bit more. Endure it for a bit, Yue’er until Lord Hei and Lord God Ye comes,” said Zhi Yang his qi consumption is greater than Zhi Yue as he was trying to lessen the burden on his other self. His face is bloodless and covered in a cold sweat. When Zhi Yue noticed his appearance he felt afraid that something bad would happen to his other self and almost couldn’t hold back crying.

Wuwuwu~

Zhi Yang said, “Don’t cry, Yue’er. I’m fine.”

“Pfft~ you brats are funny. Don’t deactivate the array~ if you do I will eat you~”

“YOU!?”

Hahahaha~ novel *UsB\c/o\M*

The world eater fragment watches this scene with a sneer. He chooses not to make a move and let these two gods imprison him in an array. Though breaking this array is a bit hard for him, it doesn’t mean he can’t escape. He just didn’t want to waste more energy which would enhance his hunger. So he prefers to be imprisoned while waiting for these two to use up all their energy and eat them afterward.

Unfortunately, this plan of his would fail as a black domain surrounded all three of them. This darkness is not an ordinary dome. It is made from pure energy that only a Supreme Being can wield. Zhi Yue and Zhi Yang recognized this black dome. It is the Domain of Darkness that Lord God Ye owns.

Zhi Yue and Zhi Yang were delighted by his arrival but were stunned that only Ye Xiajie appeared alone. Lord Hei cannot be seen anywhere.

Zhi Yue asked, “Milord, where is Lord Hei? Isn’t he supposed to be with you?”

Ye Xiajie replied with silence. Only the slight pursed of his lips had changed on him. Zhi Yue didn't notice but Zhi Yang did. Only then did the latter notice the silver crown on Lord God Ye's head, which left him shocked that he had forgotten about the array. When the qi was suddenly cut off, the array started to fail, making Zhi Yue panic.

Zhi Yue said, "What's wrong, A'Yang?"

Zhi Yang ignored his other self and asked Lord God Ye, "Where is my master?"

"Went to the final world ahead of time. Don't worry. He should be safe even if... He no longer has the strength as a God," answered Ye Xiajie with a trembling and hoarse voice.

Zhi Yue couldn't understand their conversation but he could feel that Zhi Yang was not in a good mood and his lord was in an even worse mood.

Ye Xiajie said, "Help Warden Lou and the rest. Afterward, you two can also head to the world where Jing'er had left for."

"Eh? What's happening?" asked Zhi Yue in bewilderment. Sadly, no one answered his question.

Zhi Yang saluted in silence before teleporting next to Zhi Yue who still couldn't understand anything.

"Protect Jing'er with all you got," ordered Ye Xiajie.

Zhi Yang responded, "Affirmative!"

Only when the two systems left the domain did Ye Xiajie fully activate his domain, preventing anything from escaping. The World Eater Fragment immediately recognized Ye Xiajie. Though not the current Ye Xiajie but him from the ancient past.

"It's you... Why would the owner of Abyss now be able to leave his dominion?" asked the World Eater Fragment.

Ye Xiajie, who doesn't have his full memories, was bewildered. The former Xia Jieye was unable to leave the Abyss where he is born too but had existed as long as Shen Siwang since they were born. In the ancient past that everyone no longer know, the World Eater Race was hunted by both Shen Siwang and Xia Jieye before. This was even before Vearth had been made. Abyss was Xia Jieye's birthplace, the whole realm is his but the downside is that he couldn't leave it unattended. It was only with the help of someone that he was able to take his leave by letting a substitute take his place as the Sovereign and live in Abyss for him.

"Abyss. Are you talking about that little dragon of mine? It is still here?" said Ye Xiajie as a huge black dragon made from darkness appeared behind Ye Xiajie and was now encircling him. After Abyss had merged with Roi, its strength had doubled including the size. Now he is a true dragon with divinity.

The world eater fragment's vessel raised an eyebrow as if he was stunned. Not because of the huge black dragon but of something else. Then as if understanding something this being sneered and gave Ye Xiajie a provocative gaze.

"Heh~ this is unexpected. The Sovereign that rules the Abyss didn't have its realm with him plus... You've gotten too weak, God of Void. Hahaha~ this is hilarious!!!"

Chapter 698: 12.100 – Unknown Star – Modern ABO World: Second Case – End of the World and the World Seed [End]

The world eater fragment laughs as if seeing something funny before him. He obviously knows Ye Xiajie but the one he knows is the version of him who was the Supreme Sovereign that controls the realm of Abyss. To see that dangerous being ended up in such a state, he finally remembered what happened. He couldn't stop himself from laughing. He was so delighted to see that arrogant man degrade into this state.

“No memories of the past. Incomplete Realm, that dragon of yours is not even a quarter of your original strength, with your soul core missing how will you be able to fight me? You are only a bit more powerful than that pair of first-generation systems you made yourself.”

“Is that so?”

Suddenly, Ye Xiajie's whole demeanor turned cold and murderous. Darkness surrounds him as if paying respect to their king and within that black world only the silver crown on his head was glowing like a lone star. It glows like moonlight in the evening sky.

The world eater fragment lost his smile and arrogance when he felt the familiar aura coming from the crown. All of the fragments share their memories regardless of the world or universe. Even those who perished under someone's hand would send their memories to the remaining alive fragments of their race. This is to ensure that the main body would possess all knowledge of all worlds in all realms.

The current world eater fragment doesn't have any memories of that silver crown made of stars. But only an instinctive fear and hatred spread in his body when he saw that silver crown.

‘What is this? I'm trembling?! But I don't even know what I'm afraid of! Is it this incomplete God of Void? Impossible! We are not afraid of him even in his full power. But this instinctive terror I feel coming from him, I'm sure this is a memory only a body could feel but it wasn't originally mine. Another fragment's fear? But why would it transfer this kind of knowledge!?’ Thoughts of the world eater fragment.

.....

Looking at his uncontrollable shaking hands, the fake Datura couldn't help but frown. He stares at the incomplete soul that calls himself the God of Void. The only thing that caught his eye was that exquisite crown on his head glowing brightly like a crescent moon.

‘What the hell is that crown? The God of Void doesn't wear a silver crown but a crimson crown as if made of blood. Where the hell does he get it?’

While the fake Datura is in confusion, he tries his best to control the unknown fear in him.

Only then did he hear Ye Xiajie and said, “If my incomplete strength isn't enough then... How about the domain that my wife owns? In all realms, there is no other God who had a stronger destructive power than my wife.”

‘Destructive Power? I know only one God who can use it!?’

The world eater fragment panicked and said, “Impossible! That child... That child is supposed to be dead. He died to revive you!!!”

Ye Xiajie was stunned and looked at the being in front of him like he couldn’t believe what he had just heard.

“Died? Who the hell did you say died for me!?” shouted Ye Xiajie.

The world eater fragment sneered, “You don’t remember? Ah right, you don’t have your memories as the God of Void. Of course, you wouldn’t remember. The trial of revival needs two main requirements. First is the soul fragment of the person being revived (Ye Xiajie) and the soul of the person reviving the former (Hei Anjing). The Origin would strip everything the latter have as nourishment for the one to be revived.”

“Blood and flesh to keep the former’s body alive. In short, the latter would be his source of strength. Its existence is not much different from fertilizer and the former is the plant. The soul of the latter would be ripped apart into fragments and the strongest would remain but the side of the former keeping your soul fragment and body stable.”

“Of course, the latter can cultivate no he must continue cultivating this while looking for your soul fragments planted by the Origin in different worlds. Those soul fragments of yours live a new life and only after you died naturally in that world that the world energy would be yours to take. But a soul fragment of your caliber is pretty a heavenly relic. Any Gods or Demons who can eat your soul would become a high-tier god. That’s how delicious I mean... Powerful your soul fragments are.”

“So the latter would always be there protecting you. In the first trial, he can never appear on your side. He cannot prevent your death whether it was a natural death or intentional. Not only that... All the injuries and wounds you would suffer in all those lives will be transferred to him. Then the latter would transfer his cultivation or world energy he got in each worlds into your body. Leaving his soul battered and no way to heal. He cannot be healed. He is only a soul fragment himself and his cultivation would decrease as time passes until the last stage of the second trial.”

“Hahaha~ do you want to know what the final stage of the second trial is? I’m sure the one trying to revive you didn’t tell you. But I can assure you... Hehehe~ the final stage of the second phase of the trial is something so much more than despair that you would hardly be able to bear it haha~”

Ye Xiajie shouted, “Shut up! Tell me!!!?”

“Tell you? Sure~~ but... You let me go.”

“Let me leave this world unharmed and I will tell you what you want. How about it?”

Ye Xiajie was silent but one could see him hesitating. He wanted to kill this annoying bug in front of him but he wanted to know what is the final stage that he is talking about and why would his wife not tell him about it.

“I... Ag—!!!”

Before he could respond a scream came from the world eater fragment. When he turned his head to look he saw golden red chains binding the world eater fragment with its vessel it couldn't even escape with just his soul alone. Light pierced through his domain and countless holes appeared made with light.

When his domain was forcefully destroyed he saw the gentle smile of a holy-like existence of a man with golden eyes and long aureate hair. This man is the embodiment of light itself.

Ye Xiajie murmured instinctively, "Brother?"

Then he frowned as if he couldn't believe what he had just said. He had no memories of this man at all. How could he call him brother? But he knew the identity of this holy being.

The Supreme Ruler of Light, Sovereign God Shen Siwang.

Out of nowhere, someone took away the silver crown on his head and a voice as if it came from thousands of years of glaciers reached his ears with a mocking tone.

"My nephew lends his authority to you but as useless as you are... You couldn't even use it properly. Tsk!"

The man who appeared behind Ye Xiajie all of the sudden and took away his wife's crown is none other than the other Supreme ruler of Vearth.

The Supreme Ruler of Life and Death, Sovereign Tyrant God Mo Baojun.

Ye Xiajie said, "Return that to me! That's my wife's..."

"Your wife? Please do not forget you are still missing one more important marriage you haven't fulfilled yet. Without the completion of the Trial of Marriage, even if you marry my nephew countless times in all those worlds you cannot be considered his official other half. You are just a named husband at most," said Mo Baojun.

Ye Xiajie wanted to refute but couldn't. He knew that this annoying person before him can be considered his elder since he is his wife's biological uncle. Plus, the Mo Clan is strict when it comes to officiating marriage in their family. Every couple in the Mo Clan had to complete the three trials of marriage. The soulmate marriage, soul marriage, and Dao marriage. He and Jing'er had completed the two marriages.

The marriage of soulmates in the Beast world and the marriage of souls in the Supernatural World. The last marriage is Dao. It can only be completed in a Cultivation World but the one to complete that wasn't him but his soul core, Xia Jieye. That's the promise they both made.

So he could only shut his mouth when Mo Baojun spoke in such a way toward him. He couldn't harm anyone from Jing'er's family.

Shen Siwang flew toward his wife, Mo Baojun, and noticed that he was able to shut up his brother with a few words if it was before these two would have fought to the death on the spot already.

"He changed. He is much calmer now," said Shen Siwang.

Mo Baojun glanced at Ye Xiajie coldly and snorted, "He is pretending. Why would a lunatic change after one reincarnation? Anyway, I'm eliminating that world eater fragment first."

"Go ahead, Wifey. I caught it for you~" said Shen Siwang with a smile as he gave his wife a kiss on his cheeks.

Mo Baojun kissed his lips in return and walked forward towards the bound being and wore the silver crown on his head. Paired with his long white hair, the silver crown looked like it was a part of him.

The world eater fragment panicked when he felt the aura of light coming from the two new people who had just arrived. He would never forget them even if they turned to ashes. Especially the burning pain in his skin which was bound by the golden chains.

"Agh!!! Siwang!! You madman! You married this Tyrant in the end!! You are crazy! The craziest man in all realms!! You even made him an apostle of the Origin! He is a Mo. They are born from the light yet at the same time darkness. They are beings of Yin like your brother!"

"So noisy. After this deity was reborn my whole structure had been changed to light. I may be a Mo but my main element is Light." said Mo Baojun.

Suddenly with the movements of Mo Baojun's fingers a string made of light gold created from light and ice wrapped around the body of Datura. With the soul of the world eater fragment imprisoned in the vessel, as long as the body dies the soul also perishes for eternity.

Mo Baojun muttered, "Domain of Ruination, Activate."

Suddenly, a small white void domain similar to Ye Xiajie's domain of darkness appeared. Inside of it is Mo Baojun who was controlling the domain and his target, the world eater fragment.

Mo Baojun only glanced at his husband who immediately removed the golden chain around the vessel of Datura. Inside the white domain, all beings aside from the owner of the domain and those he chooses not to harm.

Inside the White domain, no one is more absolute than the wearer of the silver crown. The world eater fragment becomes a stringless puppet and falls on the White domain devoid of anything. He no longer has any senses whether it was sight, hearing, etc. Like a living dead he had no control of anything on his own.

Ye Xiajie was stunned by what was happening standing beside him was Shen Siwang who was friendly to him as always.

"First time seeing your wife's domain of destruction. For a domain that rules ruination, it was too quiet, right? But every time your wife used this domain, that white space would be dyed by blood. Even though the world eater fragment looks like he is a living dead that thing is still alive though he had lost all of his senses and authority in himself. That is the domain of absolute carnage only for the one who wears the crown. Xiao Jing'er lent it to you because he knew that your current strength would be enough to kill it. But with his domain, you would still be able to kill it. For me and my Baobei, it is quite hard for us to kill a world eater race. This is because this world eater was born with only a pure instinct to eat. Only the power of your side (Darkness) is able to harm it. Our side excels in healing and resurrection instead but not in the killing." explained Ye Xiajie. *novelupdates.com*

“But right now, you can’t wield the pure energy of darkness. He is right, you don’t even have half of your real strength because your soul core hasn’t merged with you yet.”

Ye Xiajie ignored this man’s words calling him weak. But asked instead, “Why are you here?”

“We came to pick you up. You do know that only your soul core is allowed to enter the Cultivation World. You must stay with us in the Netherworld and wait for Xiao Jing’er to return. You’ll come back with us right?” said Shen Siwang.

He was smiling like a kind brother next door but Ye Xiajie knew that if he said otherwise this man would have bound him in chains and dragged him back to the Netherworld regardless of his disagreement.

“Tsk! Like I have another choice,” said Ye Xiajie.

Mo Baojun was about to eliminate the World Eater Fragment when suddenly it was able to break through and regain one of his senses back. Mo Baojun isn’t Hei Anjing. He doesn’t have full authority in the Domain of Ruination.

“Xia Jieye! You help me escape. I will tell you what will happen in the final stage of the second trial of revival!”

“You do not need to tell me. I already know,” said Ye Xiajie.

“Heh~ why are you lying? Your reaction just now was too strong and you obviously don’t know.”

“I know... I just don’t want to believe it. I don’t want to accept it and keep denying it. Hei Jue told me indirectly. I rejected it in my heart. Jing’er prevents me from knowing the past because he doesn’t want me to realize it. Now your words were the last straw...”

“Why... Why do I have to kill Jing’er to complete this damn trial!?”

This shout from Ye Xiajie made his aura spread in the whole world. In just a short moment the whole world was engulfed by darkness except for the small white domain and the Gods in it, the whole world was eaten by the darkness. In a split second, a world no longer exists. Only a small glowing purple seed remains in the field of stars and universe.

At this scene, Mo Baojun and Shen Siwang were dumbfounded. The power Ye Xiajie released just now is almost the same as his original strength.

Shen Siwang looked at his brother in disbelief, “You... You took back the Authority of Abyss from your soul core?”

Cough. Cough.

A trace of blood trickles from the corner of Ye Xiajie’s mouth and wipes it nonchalantly. Shen Siwang and Mo Baojun frowned when they saw that.

“Stop using Authority over Abyss. Your current soul couldn’t bear the backlash,” said Shen Siwang.

But Ye Xiajie ignores him. Instead, he looked at the silver crown on Mo Baojun’s head and commanded.

“Eat it and return it to your owner.” Ye Xiajie said to the crown.

“AAH! NO!!!”

Munch. Munches~

Then as if following his command the silver crown floated away from Mo Baojun. The White domain as if it became alive ate the world eater fragment alive and only the sound of crunching can be heard. It even burped like a child.

“Jing’er, stop hiding,” said Ye Xiajie.

Once the white domain disappeared the silver crown floated towards Ye Xiajie and it morphed into a small white fairy that looks exactly like Hei Anjing. It flew towards Ye Xiajie’s and kissed the corner of his eyes and his lips.

With a smile they heard Hei Anjing’s voice from it, “I will be back soon. Prepare yourself okay?~”

.....

Obviously, this crown was made of Hei Anjing’s soul fragment as well. He didn’t wholly fade just now but transformed part of his soul to temporarily give Ye Xiajie control over himself. As expected, Ye Xiajie just stared at Hei Anjing but didn’t voice his agreement.

Sigh~ “Forget it, just act as if I didn’t say that just now,”

Hei Anjing could only sigh and kiss his husband’s nose.

“I love you, my love,~”

“I love you too, Jing’er,” responded Ye Xiajie.

Only then did the crown fly away to return to its owner. Hei Anjing’s soul imprint in that crown also disappeared as he finished saying his farewell to his beloved.

The three looked at the streak of light within the countless universe. As if a moving star moving through the galaxies alive.

Mo Baojun and Shen Siwang didn’t converse with the souk imprint left behind by Hei Anjing as the imprint would only respond to its receiver and that was Ye Xiajie. On the other hand, Mo Baojun carefully hid the World Seed left behind by the destroyed world.

“Let’s go back to Vearth. Things are done here,” said Mo Baojun. With a wave of his hand, a portal connected to Netherworld opened.

Shen Siwang looked at Ye Xiajie and it was only when the latter entered the portal that he and his wife followed. They aren’t going to let him go to the Cultivation World Hei Anjing went to. As it wasn’t his mission to do so, his currency task is to wait. Wait for his other half to come back to him with his last missing soul core.

Chapter 699: 13.0 Prologue – In the System Space before the Missed World

A/n: This is the Futuristic World that was missed by Hei Anjing and Ye Xiajie because of Ye Mo’s sudden interference and they ended up falling into the world of Hei Yuhua and Ye Yuyan instead. Well~ I will just

add this here as an extra special ARC. Just think of this as a bonus ARC before the Cultivation world. It is no longer connected to the Main Plot, just an extra ARC World which I decided to replace with the last world's Omegaverse.

This is supposed to be the new ARC if Ye Mo didn't appear in the Horror Game World.

—

Once Hei Anjing opened his eyes, he knew that he finally returned to Yue's Space. Seeing the five stars hovering around his moon-shaped system, Yue. There are currently only blue and green stars as he already completed the task of that second violet star he has just gone to. In that last world, he spent millions of years with his husband and waited for the world's lifespan to end.

As they were both immortals unless the world's lifespan is spent, they can never really die. This is why Hei Anjing spends the longest time in that Game world with his husband. After they ascended Hei Anjing and his husband worked together as the Gods of that Infinite Horror World.

Hei Anjing said, "Sigh~ that was a bit tiring. Yue, I'm back!"

[Welcome Back, Host! Do you wish to choose the next world or rest for a while?]

.....

"I will not rest. After all, I can only meet my husband within those worlds. Yue, please show me the rest of the world's plots." Said Hei Anjing while slightly stretching his body.

[Understood, Host! Please choose one star among the rest.

C Rank Stars World Plots:

2nd Green Star: Futuristic World

World Plot: Survival Game setting, in the future where technology is at its peak. Money can be earned through Games. Broadcasted globally the Transmigrated Shou wandered in the era of Survival Games. Watching him grow from being a rabbit to a ferocious leopard with the pampering Gong keeping him safe in the shadows.

B -> SS Rank Star World Plot:

1st Violet Star: Cultivation World

World Plot: ??? [Hidden]

Please make your choice Host.]

Once again reading through the world plots. Hei Anjing is looking for something that makes him take a rest while doing his task. His soul is too weak right now but the choice made him want to curse out loud. This is the first time he saw a world plot in gibberish and the world rank even upgraded to such a ridiculous level.

Hei Anjing, "What the hell is this? Have you finally been infected with a virus!?"

[Lord Hei can choose the Green Star instead. Please don't blame me. It is all the fault of the author.]

“Do I even have a choice? What happened to that Cultivation World?” asked Hei Anjing.

[Answering to the Lord. This Arc is just a special case. It was originally removed and was added back because there is something weird going on with the author’s head.]

Hei Anjing sneered and said, “Just be honest and say that the author hasn’t thought about what kind of plot the Cultivation world should have and was using this Arc to buy some time.”

[Lord Hei~ you shouldn’t expose the author like this. If we were to anger her, it wouldn’t end as DP this time. She might throw you in a harem world where the Lord God would split into more than two.]

Hei Anjing remembers the Fantasy World where his husband had split into two bodies and he was DP for a whole lifetime. He felt the imaginary pain coming from his bottom and decided to shut up as he might end up in a harem if he angered his Mommy Author.

Cough!

“Fine. Let’s just say I have a choice. Pick the second green star~” said Hei Anjing, acting like he wasn’t the one complaining all this time.

[Lord Hei, you have chosen the second green star. This world is a C Rank World. Before the transfer, please choose one skill before entering. I have listed the following available skills.

Skill List:

Communication

Hacking

Modern Weapon Specialist

Close Combat Techniques

Art of Seduction

Please choose one skill.]

After seeing the list, Anjing said, “What the hell?! Is this seduction skill permanent in this list? Yue, I chose the Modern Weapon Specialist.” Replied Anjing who received the skill set and learned it through it by training in a separate space.

A few years later, Anjing returned back from his training. This time the skill he got made him master all types of weapons. Guns and knives of all classes. Even bombs and grenades he mastered how to use under that hellish training.

A mechanical voice of the system resounds in his head telling him that he successfully transferred into the Green Star World. As Hei Anjing opened his eyes a pair of scarlet irises looked around to see a minimalistic room of black and red design. He was currently seated on a soft couch with a holographic screen showing a video of a silver-haired young man being bullied. Cruelly tormented. The child’s silvery

hair is currently dyed in blood and a group of men holding diverse kinds of guns in their hands is now stomping on the young child who is now curling his body covering his head as he was beaten up. The group of men was dressed in uniform survival clothes of tight suits and slick pants not to hinder their movements on their waist hanging different sizes of pouches which held bullets on their thighs. A single danger was hidden.

Hei Anjing thoughts, 'Yue. This body's memories and current timeline.'

[World Plot: Ye Qiuji. The villain of this world. He is the elder brother of the cannon fodder, Ye Wusheng which led to his hate toward the Protagonist Shou, Tu Zise. Tu Zise is a white lotus who used to be Ye Wusheng's closest friend. In order to protect Tu Zise, Ye Wusheng tried to escape the group of people who wanted to steal their guns but when they saw that the pair looked like a soft persimmon to squeeze, they bullied the pair of young men.

The Original Ye Qiuji blamed Tu Zise for this event and left him to fend off alone during the audition for Moonlight Recruitment. During the audition, Tu Zise who was left alone in the field met the Protagonist Gong. Seeing the purity and innocence that is completely opposite to the deadly battlefield they are in, the gong felt attracted to the little rabbit and protected him.

He taught the little rabbit how to handle a gun, teach him some techniques, and eventually fell for him. After learning from the shou about why he was alone in the first place, the protagonist gong decided to hunt Ye Qiuji who is said to be the mastermind. During the global competition to give the Protagonist Shou his justice, The Protagonist Gong completely wastes Ye Qiuji and his team. That even when they got out of the life capsule, they were already traumatized for life.]

'Traumatized? What did the Protagonist Gong do to the original?'

The Protagonist Gong ordered his team to torture the original Ye Qiuji. They've humiliated him. Gang rape him and cut him to limbs by limbs. Inside the game field, unless one was shot in the heart or head for instant death, death caused by blood loss will only take effect after half an hour. So, during the torture, they made sure Ye Qiuji and his team will not die of blood loss and extended his punishment for 3 hours. The original Ye Qiuji died because of suicide.

Hei Anjing's reply to his system Yue: 'Gang rape then tortured. Hm~ not bad the protagonist gong of this world is cruel enough for me to enjoy destroying him. Yue, what is the current Timeline?'

[Lord Hei is currently watching the video of the abuse of your little brother Ye Wusheng and the Protagonist Shou, Tu Zise. 3 months from now will be the Moonlight recruitment Audition Competition. Ye Wusheng and Tu Zise were planning on joining the audition as well. Your task for this world is simple. First is to stop the bad ending of Ye Qiuji and second, he wanted to change his future where he lives happily in the end.] *novE!uSb/c/o\m*

Starting now, Hei Anjing will be called Ye Qiuji. After talking to his system Ye Qiuji resumed his role. With indifference and coldness glinting within those scarlet orbs, his close friend and confidant, Tang Ruan couldn't help but sighed seeing his friend's expression.

He knew that this group of men would never have a good ending. Tang Ruan is a black-skinned handsome young man who grew up with Ye Qiuji. He knew that behind Ye Qiuji's exquisite beauty is a

little devil that loves blood and destruction which is why within the circle of aristocrats' clans, Ye Qiuji was known as the Smiling Devil.

At the young age of 20, he has already cleaned his whole clan. Those who doesn't wish to serve him were all dead and those who tried to go against him were stripped of humanity and sold as slaves on the black market.

Tang Ruan asked, "What do you wish to do now, Qiuji?"

Ye Qiuji showed a playful smile as he closed the holographic video before him. "Ruru told me everything about that group of rats. Send the best doctor to Wu'er and his little lover to treat them."

"Affirmative! Anything else, Autumn?" asked Tang Ruan. Note: Qiuji means Autumn in English. This is Qiuji's nickname.

Ye Qiuji opened his mind terminal and searched for Snowflakes Recruitment on a Survival Game called Tartarus Field. "In this Tartarus Field. I've heard that it's a virtual reality show of live battle royale."

Tang Ruan answered in confusion, "Yes. It's a Virtual Game: Battle Royale. They use guns and knives as weapons."

"That means it's legal to kill in this game. If I accidentally kill someone in this game it will not be my fault, right?" asked Hei Anjing nonchalantly.

"Well~ there's a life capsule. Unless a player was killed mentally it's not possible to physically kill one. But Killing inside the game is the top requisite." Replied Tang Ruan but there was a frown on his face already as he felt something is wrong with this lunatic friend of his. "Autumn. You...!"

"I feel very stressed lately. Maybe... because it's too peaceful."

"No!"

"I feel like I wanted to end someone. Since I couldn't do it in reality. Ruru, let's join this Virtual Reality Show~"

"What about work? Autumn Cosmos?" asked Tang Ruan.

The Autumn Cosmos is a piece of huge land that Ye Qiuji owns under his name. A small cosmos that is well known for its gourmet cuisine and serene scenery of ancient earth. It's an extremely valuable little star that is full of minerals and resources.

This place is heavily guarded by the crown and that is why Ye Qiuji is famed to be a crowned King. The Autumn King. Among the world, the only thing that is able to rival this cosmos is the special type of cosmos called the Dragon Empire.

The Dragon Empire is a land rule by strength. Military protected this land and only the strongest person can be called the emperor. The current emperor is called Long Huangdi.

Hei Anjing waves his hand and hugs a pillow beside him. "Leave it to your brothers. It's not like I cannot do the work after playing. Anyway, it decides. You will play it with me. Make us fake identities. While we're at it, let's destroy those groups of arrogant rats that dared to touch this King's little brother."

Tang Ruan, seeing that he couldn't change the mind of his little devil king, could only sigh. "Sigh~ I will make the preparations." Said before taking his leave.

And so, within the three months before the audition started, Ye Qiuji pulled his little brother Ye Wusheng and his little lover, Tu Zise, and trained them on how to properly use the gun and how to fight close combat. Ye Wusheng and Tu Zise knew that this elder brother was training them for the Recruitment Audition.

#### Chapter 700: 13.1 Missed Star – General Autumn

Today is the last day of the training these two young men will have under Ye Qiuji. They are currently testing for their accuracy. Both emotional shooting and stagnant shooting. Gun fires resound in the firing field.

Ye Qiuji is observing while Tang Ruan is facilitating Mock Test.

"Time's up!" yelled Ye Qiuji and the holographic system turned off at his voice command.

All systems shut down and the former greenery's huge forest turned into a huge empty white room. "Let's see the results. Ruru, give me the summary scores of these two."

Tang Ruan, "Yes, yes. Can't you wait for a moment?"

When Tang Ruan saw the latest results of the Mock Test Regime these two youngsters had just finished, he couldn't help but show shock on his face. Just by undergoing a Training Regime his friend made on the spot let these two youngsters' skills upgrade in such huge leaps in just 3 months.

Tang Ruan was stunned, "Wow~ Not bad. You both did your best this time. With this result, unless you meet a certified full A Class Soldier, there should be no problem."

Ye Wusheng and Tu Zise were delighted when they heard Tang Ruan's comment, but they were still waiting for the verdict of their trainer, Ye Qiuji.

Ye Qiuji looked at the two boys and smiled. "Acceptable." This is his only comment but this much made the two celebrate after all their past results were so unacceptable that when Ye Qiuji saw it his last comment ended with one word 'Catastrophic.'

Ye Wusheng asked, "Really? Ge!"

"At least that last time you were both treated as a rabbit to be roasted will not happen." Replied Ye Qiuji.

The two boys blushed when they heard what their elder brother said just now. So, it seems that the reason Ye Qiuji trained them these whole 3 months is that he had watched that video during their last audition where they were bullied by a group of players and beaten up badly before getting killed.

Tu Zise asked politely, "Gege, what should we do next?"

"Last part of training is just simple. Don't worry. You both only need to feel. Ruru will show you the presence of an A and S Class fighter. Well, you should run if you really feel this kind of presence. Ruru shows them Class A presence then next is S." said Ye Qiuji.

Tang Ruan sighed. "Fine. A'Wu, A'Zi, get ready!" he said after seeing the two youngster's faces turn serious.

Tang Ruan is a certified S Class soldier. He was tested properly at Long Empire Testing Center and officially got his license a few years ago. He could downgrade his aura to A and hide most of his presence if he wanted.

Right now, he showed the two how it would feel to be in the presence of an A-Class Soldier. The moment Tang Ruan released his aura, Ye Wusheng and Tu Zise immediately jumped away after feeling the danger coming from Tang Ruan.

They can feel pressure trying to hold them in place, but they could still endure and are able to stand their ground. Seeing the reaction of the two boys who are still able to stand their ground in his presence, Tang Ruan couldn't help but feel excited.

Tang Ruan smiles. "Good! You are able to bear the aura of an A-Class Soldier. If you can stand that means you can still escape! I will increase my aura and show you the presence of an S Class Soldier. Be careful now!"

After saying those words Tang Ruan releases his natural aura as a real S Class Soldier. When his aura was felt by the two children, they felt that they were being pulled to the ground by a heavy gravity forcing them to kneel on the ground while unable to control their bodies.

They were motionless under the presence of an S Class soldier. Once Tang Ruan saw the children fall to their knees, he instantly held back his aura, allowing the two to be able to breathe once more.

"Are you both fine?" asked Tang Ruan worriedly and saw the youngsters panting as they caught their breath. Breathing heavily. "Calm down. Take deep breaths."

"Ruan-ge... W-We're fine." Replied Ye Wusheng beside him Tu Zise nodded his head in agreement.

Ye Qiuji who was observing in the corner finally spoke, "Wu'er – Physique: A-. Zi'er – Physique: B-."

"Wow~ for real!? Not bad you two." Said Tang Ruan.

Tu Zise asked, "How about you Ru-ge? What's your Physique level?"

"I'm S+ Physique." Replied Tang Ruan with a timid smile. "I need to be at least Top Tier S Physique to be able to serve Autumn you know."

Upon hearing Tang Ruan's words, Ye Wusheng and Tu Zise dazedly looked at Ye Qiuji mischievously smiling at them. Tang Ruan seeing the question in their eyes could only honestly answer to clear their curiosity.

Tu Zise asked, "Then what about Gege?"

Tang Ruan, "Don't look at him like that. He might look playful and lazy most of the time, but Autumn's Physique is only one of the two within the whole realm. Autumn has 3S Physique and he is a certified General with Full 3S qualifications like Long Huangdi."

Hearing that their elder brother is one of the mysterious Generals of their Empire, they were stunned silly as they looked at Ye Qiuji. After all, Ye Qiuji doesn't look different from other young aristocrats of the Elite Clans except for the fact he has divine beauty that enchants both genders.

Ye Qiuji gave the two stunned youngsters an enchanting mischievous smile. "Do you wish to feel what it's like to be in the presence of a 3S rank Soldier? Hm~" he asked teasingly, but when Qiuji asked such a question, Tang Ruan jumped in fright as he stopped his little devil boss from playing around.

Releasing a 3S rank aura will not only be felt by them here. The whole star will have to shake upon his presence and the crown might have thought someone had happened in the empire and released an order for threat.

Tang Ruan holding Ye Qiuji's arms while panicking, "No. no. no! Stop this kind of joke. It will definitely not be a joke if you release your aura. Autumn, don't do it!"

Ye Qiuji shrugged his shoulders and silently agreed. "Well, ~ seems I can't. You should both rest early and prepare for the audition tomorrow. Since I have time, we'll send you off. Ruru sends them up."

As he returns his eyes to the mechanism before him and decides to continue his work.

Tang Ruan understood what his boss intended to do after checking the time. "Autumn is the time for the conference." He said as he escorted the two out of the floor.

Ye Qiuji just waved his hands. "Go. Make me some tea and snacks on your way." He said to Ruru his actions are as light-hearted and languid as always.

The children took a last peek behind them and saw a few live stream video calls and all the people shown were wearing uniforms with imperial emblems. They seem to be royalties.

The scene was cut off as the metal door closed upon their exit, but they saw their elder brother's haughty figure as he sat reclined on his seat showing no fear but an intimidating presence in such a high-class conference.

On their way up while currently inside the elevator, Ye Wusheng broke the silence in such a limited room.

Ye Wusheng, "Ruan-ge is that the current Ruling Imperial Emperor and the Royal court?"

Tang Ruan answered. "Yes." But there are no changes in his black expression unlike before.

"Why are they calling Ge?" asked Ye Wusheng.

Tang Ruan looked at the two youngsters looking at him with worry. They seem to be worried that Ye Qiuji will be bullied. "Sigh~ don't think too much. Those old men were just being greedy, and the Old Emperor is there to hold them back. Lest they accidentally anger Autumn. After all, the last time they angered autumn, those Greedy fools lost a whole generation of descendants."

Silence and Tension once again filled the limited area.

Tu Zise reluctantly spoke, "What are they being greedy about? Aren't their noble bloodlines already? What do they want that Gege owns?"

Enquiring about this Ye Wusheng and Tang Ruan's expressions turned bleak as they knew what those group of old men wanted but they decided to both not answer. They finally reached the surfaced ground floor of the Ye Palace. Once the Elevator door opens, they go out while Tang Ruan is preparing to head to the kitchen.

Tang Ruan, "Rest. Tomorrow will send you off." he walked away after saying those words.

Since his question is not answered Tu Zise looks at his sweetheart. "...???"

Sighing Ye Wusheng whispered the answer to Tu Zise's ears which left the latter dazed. Seeing this Ye Wusheng had to hold his hand and pull him over back to his floor. Ye Wusheng whispered two words to Tu Zise. The words are Autumn Cosmos.

As morning arrives, I ride a personal silver hover car owned by Ye Qiuji. Ye Wusheng and Tu Zise were sent to the venue of the audition. As soon as the Silver Hover car stopped in front of the building many people instantly recognized the car.

The reporters and press waiting hidden outside the Snowflakes Entertainment Company all stood frozen while looking afar at the familiar-looking car. A commotion close to chaos happened in front of the building.

“A Silver Hover Car with Maple Leaf!?”

“Isn’t that Ye Clan’s motif!”

“A Silver Hover Car. Don’t tell me General Autumn is inside!?”

“Fuck! Am I really that damn lucky!? To see General Autumn here!?”

“Look! Someone is going out of the car...”

.....

“Hey! This pair looks familiar!”

“A-Aren’t they the pair that got bullied in that video!?”

“Damn! Are they someone from Ye!?”

“This is scary!!!”

“I think I remember General Autumn having a younger brother... you don’t think that!!”

“Shit! This is crazy!!!”

At first, Ye Wusheng and Tu Zise went down from the car but they didn’t head inside yet as they are still bidding farewell to their elder brothers and listening to Tang Ruan’s nagging.

Tang Ruan nagging, “Remember to call if something happens. I’ve already saved my private number in your terminals. –”

“Stop nagging at them Ruru. They’ll be late.” Said Ye Qiuji.

“Don’t worry. We’ll remember Ru-ge!” said Tu Zise smiling innocently as always while beside him Ye Wusheng is as silent and cold as before.

Ye Wusheng. “Ge. We’ll go ahead.”

Ye Qiuji smiled and replied. “Um. Have fun.”

Ye Wusheng and Tu Zise said at the time. “Yes!”

“Go inside and register. We’re going as soon as we’ve seen you enter.” Said Tang Ruan.

Finally, after bidding farewell the pair entered the venue by hand. Of course! All eyes move to follow the pair in, but none dared to follow them after all the silver car where the general might be inside is still there. There is no way they could bother the two children in the presence of the adults.

Not a while after everyone saw the silver hovercar lift off as the children had gone inside to do what they came for. The reporters could only sigh as they themselves are forbidden from entering the building because the media are only allowed outside to wait or to ask for an appointment for interviews.

There's clamoring chaos outside Snowflakes Entertainment Building wanting to know the identity of the two children and their connection to the Ye Clan and General Autumn.

But Snowflakes should have no indication of answering their question remaining silent from the start as if they've already known that this commotion will happen for a reason.
