My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1645-Yves stared at Byron for a long time, then confirmed that the gratitude on his face did not seem to be fake. His heart was slightly moved, and he could not help but blurt out his next words.

“What is the relationship between you and Dr. Jacobs now?”

Byron could not help but remember the sarcastic remarks Yves had made to him when he first walked through the door.

He was so worried about the little woman that he had even put those words to the back of his mind.

Now that he heard Yves’ question, it came back to him.

He wrinkled his eyebrows and told the truth, but his words were not tit for tat. ‘As you can imagine, we are together now. I have proposed to her, and when she wakes up, we will get married!’

Rosalie had not yet agreed-she will probably even refuse.

However, Byron would do everything he can to get her to say yes.

He did not want to go through the pain of losing her again!

Hearing these words, a look of shock crossed Yves’ eyes.

When he thought of Byron’s attitude just now, he was slowly relieved, though there was a hint of bitterness on his face. “I should have expected that. Among us, the most likely person to get together with her is you.”

Both he and Xander knew that Rosalie’s mind was not that simple.

Only Byron was special to her.

The man in front of him had enough wealth and power.

His love for Rosalie was the real thing and he wanted nothing else.

Faced with his change of attitude, Byron was a bit puzzled, standing still and looking at him.

Yves lowered his eyes in frustration. "I could feel that all along, Dr. Jacobs cares for you, only she refused to admit it. I, too, chose to deceive myself.

It was you she actually loved all along, six years ago, and even now..."

Six years ago?

Byron initially felt joy, but upon thinking of something, his eyes became slightly narrowed.

If the little woman had always liked him, as Yves claimed, then how would he explain Lucian and Nox?

"Although Dr. Jacobs has been deceiving herself, those two children have always favored you."

Yves then let out a sudden bitter laugh. "Blood ties are truly mind-blowing.

Those two children have never even met you but they are already so dependent on you."

Six years ago, he and Rosalie met at Quentin's research institute. At that time, Rosalie was already pregnant.

Yves naturally knew about Lucian and Nox's birth.

When he returned home and saw how they were getting along, he felt a vague sense of crisis.

Byron's eyebrows got tighter and tighter, and his eyes were full of shock." What are you saying? What blood ties?"

Yves looked up at him and his eyes showed faint surprise. "You don't know?"

Byron shook his head. Lucian and Nox's little faces repeatedly appeared in his mind.

Those two children were actually his and Rosalie's?

Why had she not mentioned it before?

However, if this was false, then why did he feel a sense of closeness whenever he saw them?

He originally thought that it was because the two children had pleasing personalities.

When he remembered the time they followed Rosalie and rejected him, he did not even feel any anger toward them.

It was as if, from the moment he saw them both, he had already regarded them as his own children...

Now that he thought about it, Byron only felt that everything about those two children was suspicious.

Also, they had a father who never appeared and whose name was even forbidden to be mentioned by Rosalie...

Byron forced himself to collect his thoughts and looked at Yves with shock. "Tell me clearly, what exactly is going on?!"

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1646-Suddenly, Yves said in a mocking tone, "Did you think that Lucian and Nox were children that Dr. Jacobs conceived with another man?"

This was the thorn in Byron's side. His face turned cold upon that statement.

Yves frowned and glanced at him. His tone changed as he said, "Sigh, what a shame. Why did Dr. Jacobs agree to be with you? You don't even trust her yet."

In the past six years, no one knew better than Yves how Rosalie rejected other men.

It was so much so that Yves believed that if it was not for medicine's sake, Rosalie would never have excessive contact with men!

However, in Byron's eyes, Rosalie already had two sons with another man.

How ridiculous!

Yves did not say anything, but his silence was telling.

Byron's expression became heavier.

Perhaps because of Yves' reminder, in Byron's mind, Lucian and Nox's faces had somewhat overlapped with his own.

"Those two boys are your and Dr. Jacobs' children. Why else do you think they are so attached to you?" 1

In the end, Yves chose to face the reality and tell the truth.

"However, judging by your reaction, Dr. Jacobs probably hasn't told you yet. As for why she didn't tell you, it's probably the same reason as how you think about her. She doesn't trust you enough either.

"President Lawrence, you are nothing more than that!" Yves gave a sarcastic sneer.

The veins on Byron's temples throbbed. He was taken aback with suspicion. "You claim that Lucian and Nox are my sons, but what proof do you have?"

The little woman had told him that Lucian and Nox were one year older than Estie!

Could it be that... she had been lying since then?

Yves' expression also darkened. "I worked with Dr. Jacobs ever since the first year she went abroad. No one knows better than me when she was pregnant, and whether she had contact with other men during that time! The father of the boys can only be you!"

These words were like a thunderbolt, exploding in Byron's ears.

'Are those two boys really mine?'

For a moment, he did not know whether to be happy or sad.

He was glad that Rosalie had never been with other men, and that those two children were his.

However, he was sad that she had been hiding it from him...

'Was I really that unreliable to her?'

'Otherwise, why would she hide the true identity of our children?'

'It was fine to hide it when we weren't together.

'But now that our relationship has developed to this point, why did she still hide it from me?'

Yves saw that the man stopped responding for a long time, and thought that he still did not believe him. His tone became colder. "President Lawrence, you can go for a paternity test if you still don't believe it. I have no reason to lie to you-there's nothing in it for me!

"You're so suspicious about everything, it's no wonder that Dr. Jacobs refuses to tell you the truth!" Yves dropped another sarcastic remark.

Byron came back to his senses and held back the indescribably complex emotions in his heart, but his voice was still uncontrollably tense. 'Don't worry, Dr. Graham. I will confirm this with Rosalie myself. You should focus on Rosalie's current condition. None of us knows how long it will take.'

Yves' eyes flickered. He was no longer in the mood to argue when reminded of Rosalie's current situation. He bowed his head and fell silent.

Byron glanced at him one more time, turned around, and strode away.

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1647-Someone I Can't Have

Byron sat in the car with a heavy heart after he exited the prison grounds.

Rosalie's condition weighed on him so heavily that he could hardly breathe.

Yves' disclosure just now shocked Byron even more.

He calmed down and thought about it. The little woman alienated him several times because he got too close to those two boys.

'Did she fear that I would find out the truth about their identity?

'Was she afraid that I'll be with Wendy and take away her custody of the two children? Or '

Byron's mind was in so much chaos that he could not figure out what Rosalie was thinking at that time.

After a while, Byron could only give up-he had absolutely no clue.

'If I want to know what she thinks, I'll ask her after she wakes up!

The most important thing now was for her to wake up!

Lancer Corporation.

Xander ordered the old man to be sent away and then he returned to the company.

The threat against Byron in the morning seemed to have some effect.

Although Xander did not show it on the surface, he asked his assistant to sort out the subsidiaries under Lawrence Corporation after returning to the company.

Compared with pharmaceuticals and research institutes, it is obvious that Lawrence Corporation subsidiaries have more room for development.

Xander's ultimate goal was nothing other than money.

There were nearly a hundred subsidiaries under the Lawrence Corporation. The assistant not only sorted out the list but also listed the details of each company.

Xander was meticulous in making his selections.

He combed through the list for nearly three hours and finally selected a few companies that satisfied him. He looked at the assistant very proudly." Look, what about these ten companies?"

The assistant could barely believe his ears upon hearing the number his boss mentioned.

He took a look at the document and counted the companies outlined above. True enough, the boss picked ten companies!

Also, those were the most profitable companies under the Lawrence Corporation!

Just one company would have been enough to support Lancer Corporation's expenses!

Xander Lancer wanted ten companies in one shot!

The assistant's hands trembled while holding the document. "Mr. Lancer... Mr. Lancer, isn't this a bit too much? President Lawrence is not a pushover, he would never agree to such an exorbitant request from us."

On the contrary, the unreasonable demands might offend them.

If that happened, the plans might backfire on Lancer Corporation...

Xander glanced at him with displeasure. "You're so short-sighted! You're still young, so why do you think like that old geezer?"

The assistant felt even more frightened hearing him address Old Master Lancer like that. He lowered his head and kept silent.

“In order for our corporation to expand, having lots of money is essential. Right now, Rosalie’s life is in my hands. As long as I promise to save her, no price would be too great for Byron Lawrence! What does a mere ten subsidiaries mean to Lawrence Corporation?”

Xander narrowed his eyes, wild with ambition.

The assistant was still a little apprehensive.

‘My boss is trying to play tricks with Byron Lawrence...

‘Byron was able to develop the Lawrence Corporation to its present glory because of his unfathomable acumen. Can my boss even stand against him?

Xander still felt dissatisfied. “Not only these ten subsidiaries, but the research institute under Rosalie, and the medicines developed by the research institute in the future are all mine! As for Rosalie herself...”

The assistant’s heart trembled again.

“I can’t have her. So why should I let someone else have her so easily?”

Xander’s face turned cold when Rosalie was mentioned. “I want them to know what will happen if they go against me!”

An unspeakable thought crossed his mind and there was a nasty sneer on his face.

The assistant lowered his head. He dared not even look at him from the corner of his eye.
