My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1747-“Yeah?”

Byron saw that she had something to say, but he noticed that she was still a little hesitant. So, he did not force her and just looked at her quietly.

The gentler he was, the guiltier Rosalie felt. That was when she was more resolute than ever but unsure how to tell him.

After some deliberation, she cautiously raised her eyes to meet his.” Lucian and Nox, what do you think of them?”

Byron’s eyes darkened slightly, and his face was solemn. “I like them very much from the first moment I saw them.”

From this question alone, he already knew what this little woman was thinking.

Right now, he wanted to hear it from her.

Byron stopped speaking and looked at the person in front of him deeply, with some expectation in his heart.

Rosalie shrank back a little as she saw how serious he was. “That’s good...”

Then, she anxiously went through her speech in her heart once more.

She had been hiding this matter for so long that she didn’t know where to start.

She did feel the timing was slightly abrupt to confess the boys’ identity at this time.

However, after this incident, Rosalie dared not wait any longer.

It was hard for the little ones to have a complete family, and she could no longer deprive them of that.

Rosalie finally regained her courage as she thought of their happy smiling faces. She said softly, “There is one thing that I have kept from you for a long time. Actually, Lucian and Nox are also your children.”

Then, she carefully looked at Byron’s face.

The man looked calm as if he was waiting for her to continue talking.

Seeing that he was not angry, Rosalie continued. "Back then, I found out that I was pregnant after I went abroad. I met my teacher abroad. With his help, I gave birth to three children. However, one of them, a baby girl, died shortly after birth. I was depressed for a long time because of this incident, but I didn't expect..."

She raised her eyes as she spoke and looked toward the door. There was happiness in her eyes. "I didn't expect that she was always by your side."

Heartbroken, Byron held her hand as he listened to everything that happened to her in those six years.

Rosalie lowered her eyes. Her tone was a little emotional. "As for Lucian and Nox... I originally planned to take them abroad and never come back."

This way, Byron would not know their existence, let alone take them away from her.

At that time, Rosalie thought that she had nothing but those two little boys.

"You are afraid that I will take them away from you." Byron's deep voice expressed her worry at that time.

Rosalie pursed her lips and smiled in tacit admission. She looked apologetic. "I'm sorry. My selfishness has kept you separated for so long."

Byron held her hand tighter. "It's my fault. Six years ago, I hurt you so deeply that you couldn't trust me. From now on, I will slowly change your impression of me. You don't need to apologize to me. I think it's a good thing that they have been by your side in my place for all these years."

The two little boys' existence made life less lonely for this little woman.

Moreover, if it were not for the boys' assistance, he probably would not have won this woman back so quickly.

As if written in the stars, everything was fated.

Rosalie breathed a sigh of relief that Byron did not blame her but felt rather strange about it.

"Don't you want to ask me anything? This is such an important matter. Do you just take my word for it?"

Read My Ex-Wife And Kids Came In Like A Wrecking Ball Chapter 1748

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1748-Rosalie looked at him, feeling puzzled.

Before, when she learned who Estie truly was, it shook her to the core, and she could not hide it at all.

However, there was hardly any emotion on Byron's face, not even a trace of doubt.

'Does he trust me that much?

'Or did he already know?'

Rosalie frowned suspiciously.

From the little woman's uneasy look, Byron stroked her head comfortingly." I already knew about this, so it's not surprising to me."

Now, it was Rosalie's turn to be surprised. "When?"

Her mind started jogging through her memories.

'Byron's attitude towards Lucian and Nox didn't seem to have changed much even before I fell into a coma.

'Although Lucian and Nox didn't like the person in front of them very much because of her influence before, Byron treats them the same as he mentioned.

'Whether it's because of himself, or simply because Byron is fond of Lucian and Nox, he cares for them like he did for Estie.

'To protect the boys, he even declared Lucian and Nox his children by announcing to the outside world.'

Rosalie felt at a loss because she could not think of the time when Byron discovered the truth.

"During the time you were in a coma, I went to Yves to find a way to save you."

Byron replied frankly, ' I was really happy when I learned about this, but more than that, I was worried about you."

Now that Rosalie mentioned this again, he had completely accepted this fact, so he did not feel any extra emotions.

“So it was him...” Rosalie felt emotional when Yves was mentioned.

Byron somewhat guessed her thoughts and came clean about Yves’ situation.

“Yves was already remorseful. He also contributed to the efforts to help you wake up this time. I made a decision ahead of your permission and invited him to return to work in the research institute after he was released from prison. If you disagree, I will find another place for him.”

Rosalie was surprised upon hearing this. “If he truly knew he was wrong, of course, I wouldn’t mind, but wouldn’t you...”

Rosalie had worked with Yves for many years and was willing to think that she was just a fad for him. She was happy to be able to work with her old partner again.

‘It’s just that, with Byron’s temperament, wouldn’t he be jealous?’

Byron frowned slightly. “I warned him, if he dares to do something that hurts you and the children again, I won’t let him go as easily as this time.” “I will be careful myself,” Hearing this, Rosalie pursed her lips and smiled.

‘How ridiculous. As a doctor, I’ve been duped by drugs several times.

‘If Professor Luke knew about this, I’m afraid he would tell me that I didn’t learn my lesson well.’

This time, Rosalie secretly decided that after being discharged from the hospital, she must devote herself to medicine to further improve her medical skills.

In this way, more people can be treated, and she could better protect herself too.

Byron could sense her self-mockery and calmly changed the subject.

“Although I have accepted Lucian and Nox’s true identities, I’m uncomfortable when I think of other men who knew this before me.” ‘In particular, Yves was with her for the whole duration of her pregnancy.’

Byron could not help but blame himself for this. He even felt a little jealous.

Read My Ex-Wife And Kids Came In Like A Wrecking Ball Chapter 1749

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1749-Rosalie came to her senses upon hearing the jealousy in the man's tone.

Perhaps Rosalie already knew that he would not be angry with her about concealment, she arrogantly blamed him instead.

"The boys looked just like you. I thought you would've figured it out when you saw them. Otherwise, I wouldn't have taken them to hide abroad."

Byron had the tables turned on him. He was dumbfounded when he saw this little woman's righteous and reproachful eyes.

'Looking back now, those two little boys' faces indeed looked somewhat similar to mine.

'But.

"Well, I have been having headaches trying to get you back to me at that time. I did not pay attention to them."

Speaking of this, Byron recalled his thoughts before and felt a little apologetic. "I thought the boys were children you had with someone else. I thought that if that man dared to look for you, I would not let him go. Unexpectedly, I was that irresponsible man."

After learning about Lucian and Nox's true identity, Byron's previous hatred towards their biological father turned into self-blame.

"These six years have been hard on you. I will make amends with you and the kids. I would never let you all suffer anymore."

Rosalie looked at him, pretending to complain. "It was hard for me. If I knew you wouldn't figure it out, I wouldn't have to spend so much effort to hide their existence."

Byron begged for mercy. "It's my fault. If I knew about them earlier, I wouldn't have let you hide from me for so long."

If he could have discovered those two little boys' identities earlier, they would not have experienced so much suffering.

Thinking of this, Byron's self-blame grew stronger.

The atmosphere in the ward unknowingly became heavy.

A smile gradually appeared in Rosalie's eyes. She teased him. "I should have realized earlier, how could such a busy person like President Lawrence have the time to pay attention to his appearance? I'm afraid, you don't even know what you look like now!"

With that, a trace of confusion flashed across the eyes of the man in front of her.

Truthfully, Byron never paid attention to this matter...

Rosalie paused and then laughed amusedly, i "Estie looks a lot like you too."

Byron frowned and retorted back as she laughed at him.

Rosalie stopped laughing, shook her head, and denied, "Estie only has my eyes, but she still looks like you in many ways."

Then, she added. "Besides, Wendy was by your side at that time, and your mother kept saying that Estie's mother was someone else. Would I dare to think otherwise?" "What's more, at that time, she always thought that her daughter was dead.

So, how could she have thought that Estie was that child?'

This reason was too heavy. Rosalie just thought about it but did not say it out.

Two of the reasons mentioned were enough to make Byron feel guilty.

"It's my fault, I should have told you the truth sooner."

Byron was silent for a long time. Finally, he could only apologize.

Rosalie smiled lightly. "It doesn't matter now. Even though we don't know the children's identity, we are together now. Our children are very happy, and this is all that matters."

The last gap between the two disappeared after they confessed their thoughts to each other. Their eyes met with love and adoration.

They chatted until late at night. Byron took Rosalie's condition into consideration and urged her to go to sleep while he got up and sent everyone away.

Read My Ex-Wife And Kids Came In Like A Wrecking Ball Chapter 1750

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1750-Early the next morning, the Lancer Corporation scandal had completely unfolded.

When Rosalie woke up, she saw overwhelming public opinion about the Lancer family on the Internet.

After what happened last night, many people pulled away from the Lancers in time and relentlessly bit back at them.

Some internal employees revealed that after Xander took over, the Lancer Corporation underwent earth-shaking changes.

Under Xander's leadership, there were many illegal operations within the Lancer Corporation.

Many of the drugs produced were rushed to the market for temporary benefits and have not even undergone a complete test. Under Lancer Corporation's branding, the price was much higher than the market price, disregarding the patient's life and death!

During this period, Xander did not even hesitate to enlist uncertified small factories without trademarks to make profits. This business strategy made it difficult to guarantee the quality of medicines.

Xander also bribed some private hospitals to purchase medicines and maliciously raised the prices of medicines.

After insiders broke the news, some patients even disclosed a list of medical treatments offered by the Lancer Corporation, accusing them of disregarding human life.

"Xander is a jerk. I trusted the Lancer Corporation facility for treatment, but I was duped by an unscrupulous doctor. I spent a lot of money, but I didn't get better, and my small problems became big illnesses!" "In recent years, many of Lancer's free clinics have been merely superficial, even exaggerating the old man's condition, duping us into going to the hospital for treatment, and even selling us expensive medicines!" "Lancers advertised in violation of regulations, packaging ordinary supplements as drugs that can effectively treat cancer. We chose to believe the Lancer's advertisement, but we did not expect it to affect us so badly that it cost our lives! Now there's nowhere to ask for justice! They even bribed the media to suppress public opinion!" "It's all retribution for what happened to the Lancer family!"

For a while, the Internet was full of condemnation and abuse against Lancer Corporation.

What used to be a respected, centuries-old medical family has now become a pariah that everyone cursed.

Rosalie was shocked as she looked at the revelations on the Internet.

She could not figure out how Xander could have influenced the Lancer Corporation with a century-old legacy. How could he become such a mercenary and unscrupulous villain?

As a doctor, he put the patient's life at risk!

Xander wanted to price the previous batch of new medicines at three hundred dollars, which was still within a reasonable range.

According to the revelations on the Internet, Rosalie could easily imagine what would happen if her research institute partnered with the Lancer Corporation. How the drugs developed by the research institute would be priced, and how the reputation of the research institute would plummet!

Byron came in from the outside to see her frightened expression.

Concerned, he stepped forward. "What's wrong?"

Rosalie came back to her senses and said worriedly, "I saw the news about Lancer Corporation, but I didn't expect Xander would do such things in secret. The Lancer Corporation is well-known, and I don't know how many patients were affected by this."

Byron's eyes also darkened. "Now this matter has become a big deal, and no one will be fooled anymore. Xander would also be punished as he should." "I hope so."

Rosalie sighed inwardly, thinking of the collapse of the Lancer Corporation, which had deep roots in the medical world. She felt a little desolate in her heart.

'After all that was said and done by Xander, Old Master Lancer must have been kept in the dark.

'I don't know if the old man can bear it now that things have blown up...'

Read My Ex-Wife And Kids Came In Like A Wrecking Ball Chapter 1751

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 1751- Did You Instigate Him?

Within half a day, Lancer Corporation's incident spread throughout Coast City and even alerted the authorities.

After the police sealed off the Lancer family's warehouse, investigators visited Lancer Corporation. The entire corporation's business activity was forced to stop.

Meanwhile, Old Master Lancer was in the countryside villa.

He leaned against the headrest of the bed as he read through the comments online. His hand clutched his chest as he gasped for breath.

"What should we do now, Old Master Lancer?"

Xander's assistant stood by the bed, asking Old Master Lancer for a solution.

Last night, when Old Master Lancer passed out, he was the one who sent Old Master Lancer to the hospital.

Fortunately, it was just Old Master Lancer's illness being triggered again, and he was better after taking his medication.

The assistant thought the matter might get worse. Thus, instead of taking Old Master Lancer back to the Lancers' ancestral residence, he took Old Master Lancer to the villa in the countryside.

The only way for Lancer Corporation to not perish was if Old Master Lancer was willing to help.

Hearing the assistant's question spiked Old Master Lancer's anger. His face was ashen as he said, "Why are you asking me? You should ask yourself! Why didn't you tell me what that bastard had done earlier?"

Recalling what Xander had been doing behind his back, which caused the reputation of the Lancer family to crash, made Old Master Lancer's anger surge within him. His chest heaved as he tried to catch his breath.

Over the past century, the Lancer family had always prioritized their patients and built their reputation on that.

However, because of what Xander did, the Lancer family's years of reputation were ruined just like that.

It pissed him off more since Xander was the heir he chose personally.

He felt he had disappointed his ancestors by making this decision and was ashamed to face them in his afterlife.

'That bastard! It's too late now even if I kowtow to the patients! The Lancer family's reputation is ruined, and it's impossible to turn the tables now!'

Old Master Lancer slammed the table in frustration. “He’s forgotten everything I’ve taught him since he was young! How did he turn out into such a hypocritical person?”

The assistant wanted to hand Old Master Lancer a cup of tea to soothe his anger. “Old Master Lancer, please calm down. Your health is important. If you fall ill, the Lancer family will be doomed!”

Old Master Lancer smashed the teacup the assistant handed him. He glared at the person before him and said, ‘You’re also involved in this matter!’

Still frustrated, Old Master Lancer stood up with the support of the walking cane. He walked toward the assistant shakily.

‘You joined the company at the same time as that bastard, and you’ve been by his side all these years. Do you dare say you didn’t know what he did?’

Facing Old Master Lancer’s question, the assistant lowered his head guiltily.

Old Master Lancer’s hands trembled as he held the walking cane. Then, he lifted his other hand and slapped the assistant!

“Be honest! Did you instigate him to do these?”

Otherwise, it was impossible for Xander, who had been brought up by him, to do something like that unless someone instigated him.

Old Master Lancer could not convince himself that, Xander, someone from the Lancer family, would do something like that. He did not want to believe that the person he taught would be so unscrupulous!

The assistant frowned upon hearing Old Master Lancer’s accusation. He quickly spoke up for himself.

“Old Master Lancer, you know Mr. Lancer’s temperament. He’s always been arrogant. How can he listen to the advice of a man like me? I did know what he was doing, and I tried to persuade him, but Mr. Lancer wouldn’t listen. There was nothing I could do.”

If Xander had listened to him and stopped provoking Byron, Lancer Corporation might not have ended up like this!
