

Ye Chen 2431

Chapter 2431

Hearing Ye Chen's query, Chen Zekai exclaimed, "Young master, then who do you think could be behind this matter?"

Ye Chen thought for a moment and said, "I currently feel that the Su family is the most likely to be behind this."

"The Su family?!" Chen Zekai said, dumbfounded, "Young master, why would the Su family make a move on the two women? There's no reason for that."

Ye Chen said with a serious expression, "To really talk about reasons, I think there are many, this Auntie Du is determined to divorce Su Shoudao, this in itself hurts the face of the Su family, Su Shoudao must have resentment in his heart, and the old man of the Su family must be the same."

Richard Chen nodded and said, "For any respectable family, a wife or daughter-in-law who openly wants a divorce will definitely cause damage to the family's face, but this doesn't have to come down so hard, does it?"

Ye Chen spoke, "After all, it's a big family, sometimes they feel that face is above everything, what's more, Auntie Du and that Su Shoudao, not just wanting a divorce, she came all the way to Jinling for what, you know, I know, and so many people from the big families in Yanjing must also know."

Chen Zekai could not help but nod and sighed, "It is indeed true that back then, this second young lady of the Du family liked your father, it was a matter known to everyone in Yanjing, now she came to Jinling, and also participated in this auction, with a high price of tens of millions of dollars to auction off the old house where your father lived, this is obvious to all, she must still have not forgotten your father in her heart"

Ye Chen gave a somewhat melancholy expression and said, "I'm surprised at her feelings for my father, but the more surprised I am, the more I can't help but look at things from the other direction as well."

Richard Chen hurriedly asked, "Young master, what is the other direction you are talking about? My mind is a bit dull at the moment, I really can't understand it."

Ye Chen said indifferently, "The other direction is naturally Su Shoudao, if Auntie Du has not been able to forget my father for so many years, then does she have true feelings for Su Shoudao in all the years she has been married to him?"

"This," Chen Zekai was silent for a moment.

A moment later, he said with some sudden realization, "I see! The Du family's second young lady openly came to Jinling to remember your father, and also openly participated in this auction and auctioned off the old mansion where your father lived, this is almost like telling others that she has been deeply in love with your father for all these years, in that case, then she must not have loved Su Shoudao for all these years! This is a great shame for Su Shoudao!"

"That's right." Ye Chen sighed, "That's why I suspect that the person behind the scenes driving all this before us is probably Su Shoudao."

Chen Zekai frowned and spoke, "Young master, Su Zhiyu is Su Shoudao's flesh and blood, even if he hates the second Miss of the Du family, he definitely can't even harm Su Zhiyu, right?"

"Yes." Ye Chen spoke, "A tiger's poison does not yet eat its son, Su Shoudao should not have done anything to Su Zhiyu, perhaps Su Zhiyu is just a blindfold."

Chen Zekai said helplessly, "Su's family has always done things with little modesty, what you said might even be the truth."

At this time, Ye Chen said, "If it's really the Su family that wants that Auntie Du to die, then I won't let them have their wish!"

After saying that, Ye Chen immediately said to Chen Zekai, "Old Chen, immediately investigate the exact location of that Rolls Royce, and also have the helicopter ready!"

Upon hearing this, Chen Zekai immediately asked, "Young Master, do you want to go and save the two of them?"

Ye Chen smiled coldly and said, "The enemy of my enemy is my friend, I can even save Su Ruoli, let alone Du Haiqing or Su Zhiyu!"

Chen Zekai immediately said, "Yes, Young Master! I'll have someone track the location of that car, and have the helicopter ready!"

With the rapid development of technology nowadays, most of the cars were equipped with certain remote functions.

The lesser ones can remotely check the car's position, fuel level, and the closing of the doors and windows.

The better ones can remotely open and close the doors, even start the car remotely and start the air conditioning.

Some new energy cars, for example, can even be remotely summoned and operated by mobile phone, allowing the car to drive itself to the driver rather than the driver going to the car.

Chapter 2432

Although the Rolls-Royce did not have the function of remote summoning, other remote functions were all in place, which included the car's location being able to be accessed in real time from the Rolls-Royce Centre's software.

Soon, Richard Chen's men sent him the track of the car's movement.

After reading it, he spoke, "Young master, Liu Zhan drove off towards the mountains."

"The mountains?" Ye Chen frowned, "What's the exact location?"

Chen Zekai hurriedly said, "It's in the direction of the Champsley Hot Spring Hotel."

"Good!" Ye Chen immediately ordered, "Turn to your hotel now and take the helicopter directly to intercept his car in advance!"

Chen Zekai blurted out, "Young master, Liu Zhan is strapped with explosives, are you sure of subduing him?"

Ye Chen sneered and said disdainfully, "If I wanted to, I could make Liu Zhan not even have the ability to blink, let alone press the detonation switch!"

"That's good!" Richard Chen breathed a sigh of relief and hurriedly drove towards the hotel.

At the same time, he also immediately pulled out his mobile phone and instructed the hotel's helicopter pilot to get ready

At this moment, it was Liu Zhan who was already driving the Rolls-Royce, speeding towards the mountains south of Jinling.

This was the route that Master Su's men had arranged for him.

After entering the mountains all the way from here, there were more than thirty kilometres of mountainous roads, which had no exit or entrance, so as long as the car ran fast enough, it was impossible for anyone to catch up.

This is also the reason why Liu Zhan must ask the police to prepare a Rolls Royce.

When an ordinary car ran on a mountainous road, a very obvious drop in power would occur, but for a twelve-cylinder beast like a Rolls-Royce, even if it was a mountainous road, the power was completely sufficient to distance itself from its pursuers.

Moreover, the other side had already arranged a golden escape for Liu Zhan.

When Liu Zhan drove his car into a two-kilometre-long tunnel on the Pan Mountain Road, immediately two cars would have an accident at the entrance of the tunnel and completely block the tunnel, and when Liu Zhan drove his car to the middle of the tunnel, there was a special safety island for emergency parking, where he was required to take out Du Haiqing and Su Zhiyu.

After finishing off the mother and daughter, he would dump the bodies inside the safety island as planned, and then drive onwards.

There would be a container van waiting at the point where he was about to exit the tunnel.

When the time came, he would drive the Rolls-Royce directly into the interior of the container lorry, and the other party would use the prepared cargo to hide the Rolls-Royce in it and transport it away unnoticed.

Moreover, the container van prepared to pick up Liu Zhan had powerful signal shielding equipment installed on it, so even if there were a hundred gps devices installed on the Rolls Royce, it would never be discovered.

When the time comes, the Rolls-Royce Centre will find that the car has never gone out since it entered the tunnel.

I'm afraid the police will also concentrate on searching for him in the tunnel first.

By the time the police realise that he might have got away with it, he would have already escaped!

Chapter 2433

As he got closer and closer to the intended tunnel, Liu Zhan's heart became more and more nervous.

For him, victory or defeat was only a matter of time.

Therefore, he kept praying in his heart, "God, I have never begged anyone in my life, now I beg you to show your spirit and bless me with everything going well today!"

"If it goes well, after I've finished with this bunch of mothers and daughters behind me, God you only need to keep me with one hour to escape!"

"One hour would be enough for the Su family to arrange for me to escape!"

"By this time tomorrow, I will have changed to a new identity and started a new life abroad!"

At the thought of this, Liu Zhan was also excited deep inside.

At this moment, Du Haiqing and Su Zhiyu were sitting in the back row of the Rolls-Royce, both mother and daughter were a little apprehensive deep inside.

Su Zhiyu's heart was always highly tense, and as she watched the car drive into the mountains, she felt an inexplicable panic in her heart, as if something was not quite right, but she could not figure out what was wrong.

Du Haiqing realised that Su Zhiyu was a little uneasy, so in order to prevent her daughter from being overly frightened, Du Haiqing kept holding her hand and gave her a look of encouragement every now and then, telling her to relax as much as possible.

Su Zhiyu, however, could hardly relax and she could not help but ask, "Where are you taking us anyway?"

Liu Zhan did not even turn his head back and said in a cold voice, "Don't worry about where you are going, just sit honestly in the car!"

Su Zhiyu continued to ask, "Then when are you going to let us go?"

Liu Zhan held the steering wheel in one hand and kept shaking the gun around in the other, and said with some impatience, "When to let you go, or whether to let you go, all depends on my mood, if you sit honestly and don't talk so much, I may still keep you alive, but if you keep asking questions here, I'll fucking kill you now! "

Du Haiqing knew that Liu Zhan would kill without blinking an eye, so he immediately scolded Su Zhiyu and said, "Zhiyu! Keep your mouth shut and stop talking!"

Su Zhiyu had to obediently do as she was told and shut her mouth.

However, her heart grew more and more apprehensive, and the feeling that something was wrong became stronger and stronger.

She searched her mind carefully for all the details, hoping to find a clue that she had overlooked.

After a few minutes, a detail suddenly came to her mind.

It occurred to her that while she was at the Jumbo Pavilion, Liu Zhan's mobile phone had received a call!

Moreover, it seemed that he had also pulled out his mobile phone and sent a message to someone.

This detail made her tense up all of a sudden!

"A wanted criminal who has been on the run for a long time across the country, why would he still have the energy to call and send messages to others when he is alone and being rounded up, and he took that call for quite a long time"

"Even if the people calling and messaging him were all his family, that would be hard to explain away, because a normal person at a time like this would have told his family he was busy in the quickest way possible and then rushed to hang up the phone, there's no way he would have talked straight away."

"Because, since he has a mobile phone and can contact his family at any time, he can communicate anytime and anywhere. If there is no important matter, there is absolutely no need to distract himself from communicating with his family at such a critical moment, that will easily distract himself and affect the main business, especially the important matter that concerns his life and safety."

"It's like a doctor who is focused on performing surgery on a patient, it's absolutely impossible to bring his mobile phone with him to call and text with his family, it would be very disruptive to his work and the slightest inattention could have serious consequences."

"It would be understandable if Liu Zhan had only just embarked on a criminal path and was inexperienced, but he is, after all, a wanted criminal who has been on the run for a long time and should have a strong sense of anti-surveillance of all kinds, this kind of person, should not make such a low-level mistake."

"So, regardless of whether the person who called or texted with him is his family or not, what the other party communicated with him must be something very important!"

Chapter 2434

"It's even, most likely, something closely related to his storming into the Treasure Pavilion today!"

Thinking of this, Su Zhiyu came to a conclusion in her mind, "Behind Liu Zhan, there must be someone else! If that's the case, then his rushing into the Treasure Pavilion today is not a coincidental event!"

"If this is not even a coincidence, then it is equally not a coincidence that he kidnapped me and my mother!"

"Could it be that MoFei is coming for me and mum?!"

Su Zhiyu's heart instantly became even more panicked!

"If Liu Zhan was really in the process of being chased and rushed into the Treasure Pavilion by chance, then as long as my mother and I cooperate with Liu Zhan in his escape, when Liu Zhan is safe, the chances of my mother and I surviving will be more or less greater, after all, he has already been exposed to the police, there is absolutely no need to kill me and my mother to anger the police and to create social opinion, that will only be more detrimental to him subsequently"

"However, if Liu Zhan was instructed by someone to escape from the police and kidnap me and my mother, then we are really in a bad situation."

At this thought, Su Zhiyu suddenly said, "Brother Liu, if you release me and my mother, I can give you \$50 million as a reward, I'll do what I say!"

"Fifty million?!" Liu Zhan froze for a moment.

The figure of fifty million was indeed not small, and to him, it was already enough to move him.

Moreover, he did not doubt Su Zhiyu's ability in the slightest.

After all, it was someone from the Su family, and it was easy to take out five hundred million dollars, let alone fifty million.

However, Su Zhiyu dared to give it, but he did not dare to ask for it.

Because, in his heart, he knew that the one who offered money for him to have to take out this mother and daughter was actually the Su family.

"Moreover, this matter is more complicated than I imagined before!"

"At first, someone approached me and asked me to take out that Du Haiqing, and today, someone gave me 20 million dollars at home, asking me to take out that Su Zhiyu along with it"

"Why is the Su family so cruel? It's fine to kill Du Haiqing, he's an outsider after all, but why do they want to kill Su Zhiyu?"

"A family that won't even spare their own people can't be described as ruthless. If I follow their arrangement honestly, I can still get a chance to live abroad, but if I play smart behind their back, or even secretly take Su Zhiyu's money again, then the chances are they won't let me go."

"What's more, my family is still in China, if they really anger the Su family, they won't even spare their own family, how can they spare my family?"

Su Zhiyu looked through the rear-view mirror of the car and saw that Liu Zhan's expression was full of entanglement, so she realized that the situation was even worse, so she hurriedly added: "Brother Liu, you must know my situation, not to mention \$50 million, even if it's \$60 million or even \$80 million, as long as you nod, I can also give it to you! As long as you nod, I can make a phone call and have the money credited to your account immediately!"

Saying that, Su Zhiyu hurriedly said, "I won't talk to you for 50 or 80 million either, I'll round it up for you, 100 million, as long as you nod, I'll have someone credit your account with 100 million cash within ten minutes!"

As soon as Liu Zhan heard that he could have 100 million in his account as long as he nodded, he instantly had the feeling of a starving man who was looking at a table full of mountains and seafood but did not dare to open his mouth.

This made him feel very irritable and he subconsciously blurted out, "Don't fucking bullshit me! This is not about money at all!"

As soon as Liu Zhan's words came out, Su Zhiyu's heart thudded and he immediately looked at Du Haiqing beside him.

Du Haiqing had also realized that her daughter was deliberately setting up Liu Zhan's words, and when she heard Liu Zhan's reply, she also instantly realized the root of the problem.

Therefore, she also looked up at Su Zhiyu at this moment.

Mother and daughter looked at each other in unison, and each could see in the other's eyes the other's deep shock!

Chapter 2435

Su Zhiyu used money to bribe Liu Zhan for no more than two purposes.

First, if spending money had an effect, it would be best to spend money directly to buy peace.

Secondly, if spending money had no effect, at least she could determine Liu Zhan's situation through the conversation.

Now, through a set of words he had devised, Su Zhiyu had extracted a few key clues from Liu Zhan's mouth.

"Firstly, when people hear a girl in her early twenties open her mouth and shut up about tens of millions or a hundred million dollars, they will not believe her and will only think she is talking out of her ass, but Liu Zhan does not doubt that I can get 50 million, 80 million or even 100 million!"

"This means that he knows who I am! Knowing that for me, a hundred million is easy, so he doesn't doubt what I say at all!"

"From this, combined with Liu Zhan's previous actions of talking to people on the same phone and sending text messages, we can see that Liu Zhan must have been instructed by someone to kidnap me and my mother!"

"Secondly, there is no way that a person like Liu Zhan is any kind of good man or woman who abides by the agreement, if I say that I am willing to give him 100 million, he can choose to take my money, betray his original employer, or even choose to take my money and then turn against me, with a tough bandit like him, there is no way that he would not consider these two ways that he can get the money."

"However, these two ways, Liu Zhan unexpectedly did not consider them at all, which proves that the original employer behind him is someone he would never dare to offend!"

"So, what kind of person bribed him and made him put on such a big show, just to kidnap me and my mother?"

Thinking about this, Su Zhiyu's heart had no answer at all.

She had also thought about whether it could be that grandpa was discontented with mum, so he wanted to clean up the mess.

However, from what she knew about Master Su, she didn't think he would have murderous intentions towards himself as well.

She also thought about whether it could be that her father had a dislike for her mother, but it was the same as what she had just speculated, both her father and her grandfather had reasons to kill her mother, but neither of them, for that matter, had the possibility to kill her.

So, Su Zhiyu had also wound herself into a dead end.

Immediately afterwards, she thought, "Could it be that Dad or Grandpa was behind this, allowing Liu Zhan to kidnap me and Mum, but actually preparing to do it only to Mum alone?"

Thinking of this, Su Zhiyu became incredibly nervous and secretly thought, "If this is really the case, then when Liu Zhan reveals his true colours, I must fight to the death to protect mum!"

As Su Zhiyu made the decision to protect Du Haiqing to the death, deep inside her heart was filled with anger and despair towards the Su family.

How could she not understand why the Su family would be so heartless towards her mother?

What she couldn't understand was that it was clear that her father was at fault for the incident, so why did she have to kill her mother?

Was it just because mum came to Jinling this time?

At this moment, Du Haiqing had guessed the whole story.

Deep inside her heart, she had the same question: "Su Shoudao could have given birth to an illegitimate daughter behind my back, and even be so reckless as to bring her around, while I have been married for so many years, never betrayed him, and now I just want to divorce him, so is he right and I am wrong?"

He only hoped that the tunnel on the map would arrive sooner, so that he could solve all this before him.

Chapter 2436

At the same time, a helicopter had left the city and was speeding towards the mountains outside of Jinling.

On the plane, Chen Zekai was reporting to Ye Chen: "Young master, the target is still ten kilometres away from us in a straight line, given that their car can only take curves in the mountains, so we should be able to catch up soon."

Ye Chen nodded and spoke, "I still have one more question I can't figure out."

Chen Zekai hurriedly asked, "Young master, what is the problem?"

Ye Chen spoke, "I don't understand what exactly is the back way that Liu Zhan left for himself, he made such a big commotion, I believe that although there are no police people coming after him now, but there should already be police ambushes at every intersection in front of him, the Rolls Royce he drove, even if it is more expensive, is just a car, in this case it is hard for him to escape even if he has wings. "

"Yes." Chen Zekai nodded and agreed, "Maybe this Liu Zhan didn't want to escape at all, he was already a Class A wanted criminal, if he was caught, it would be hard to escape death, so he might as well live out his old life and earn a settlement for his wife and children from the Su family."

Ye Chen smacked his lips, "What you mean is that this Liu Zhan has already reported his determination to die and has no intention of escaping alive, right?"

"Right!" Chen Zekai said, "I think this is the most likely possibility."

Ye Chen shook his head and said, "If he was really prepared to die, then he wouldn't have gone to such great lengths to put on such a show, he could have just found a random excuse and reason to kill Du Haiqing as a hostage at the Treasure Pavilion, so why would he need a Rolls Royce to come here non-stop?"

Richard Chen thought about it, "Could it be that he is preparing to do a full set of drama?"

"There's no need for that, is there?" Ye Chen said indifferently, "What's the point of putting on so much drama even before you die? If he just wanted to confuse people so that they wouldn't suspect the Su family, then he would have killed so many hostages at the Treasure Pavilion, and the gun could have killed Du Haiqing with a slight deviation, and people wouldn't have suspected it."

Chen Zekai then asked, "Young master, then you mean that Liu Zhan has a way to escape?"

Ye Chen sneered, "Whether Liu Zhan really has a way to escape, I can't be sure yet, but what I can be sure of is that if it was the Su family who gave him the promise and helped him escape, then the Su family will definitely not leave him alive."

Chen Zekai hurriedly asked, "Young master, if you say so, then the Su family must already be ready to take Liu Zhan's life!"

"Right." Ye Chen nodded gently and said, "I think that given the Su Family's style of action, they will definitely avoid dreaming too long into the night, so they will definitely settle Liu Zhan within reason and as soon as possible."

Chen Zekai thought for a moment and spoke, "Then the place the Su family would choose would be on this section of the mountain road with no exit."

Ye Chen gave a hmph and ordered, "Speed up and lock them down as soon as possible!"

"Yes Young Master!"

After the helicopter had flown for a few more minutes, Chen Zekai pointed at a black car on the road diagonally ahead and said, "Young master, we've locked on to that car! It's that black stretch limousine down there!"

Ye Chen glanced down and indeed spotted Chen Zekai's Rolls Royce.

However, due to the high altitude of the plane, that Rolls-Royce looked not even as big as a fingernail cap.

At this point, Richard Chen asked him, "Young master, should we drop in altitude to catch up?"

Ye Chen waved his hand, "No, so as not to alert the snake, first follow him from afar and observe!"

Chapter 2437

At this moment, Liu Zhan was oblivious to the fact that Ye Chen had locked him in a deadlock from the sky.

As he drove intently, he stared at the navigation every now and then.

The navigation showed the distance, to the intended tunnel, was less than 5km.

The current speed was around 180 kilometres per hour, and it would only take two minutes to arrive!

Thinking of this, Liu Zhan's entire body was already a little too excited to hold back.

As the tunnel got closer and closer, his heart became more and more excited, and he couldn't help but press the accelerator deeper and drive a little bit faster.

At this moment, Liu Zhan had been driving his Rolls-Royce on the overtaking lane.

And as he approached the tunnel, he saw a number of relatively slow lorries in succession, driving one behind the other, in the traffic lane ahead on the right.

He took a glance at the number plates and was instantly more reassured.

The two lorries at the front were the lorries arranged by the Su family.

These two vehicles had been driving at a low speed on the road, just to take the time to reach the tunnel according to Liu Zhan's location.

This was because according to the Su family's planning, after Liu Zhan's vehicle entered the tunnel, these two vehicles would tailgate behind him, at the entrance of the tunnel.

In this way, the two lorries tailgating and colliding could directly block this two-lane road completely, and it would be impossible for the vehicles behind to get through for a while.

This also gave Liu Zhan a long enough time.

The vehicle Liu Zhan drove soon overtook the two lorries, and at this point, only the last kilometre of the tunnel entrance remained.

Liu Zhan did not care about the lorries behind him, because he knew that no matter how many lorries were behind him, the two vehicles in the lead would stop them behind once they collided.

By then, the highway would be completely cut off.

However, just when Liu Zhan had already driven his car into the tunnel, the two lorries that were in the lead behind him, did not have the intention to create an accident, instead, they both started to speed up in an instant, accelerating towards the tunnel and rushing in.

As the two lorries drove into the tunnel, several cars behind these two lorries however suddenly crashed together at the entrance of the tunnel and the whole road was immediately blocked by the crashed cars.

The Su family was ready to kill and destroy!

The two lorries were accelerating, each loaded with dozens of tonnes of cargo, and their own inertia was great enough to completely destroy any family car.

And at the exit of this tunnel, there were two more lorries blocking the way.

In this way, Liu Zhan's Rolls-Royce became a human meat can surrounded by four lorries.

With no way in and no way out, the Rolls-Royce could only end up being smashed into a pile of scrap metal by the two heavily loaded lorries!

At that time, there was no way the people in the car could survive.

Liu Zhan would die, and so would Du Haiqing and Su Zhiyu!

Chapter 2438

Meanwhile, from the helicopter, Ye Chen witnessed Liu Station's car enter the tunnel, and also witnessed the two lorries behind it follow it, and immediately afterwards, he saw several cars crashing together at the entrance of the tunnel.

At a glance, Ye Chen could see that the cars had crashed together completely intentionally.

So, he immediately said to Richard Chen, "These trucks should be closing the road, I think they are going to do it in this tunnel! Go to the other end of the tunnel immediately!"

Chen Zekai did not dare to hesitate and said, "Yes, young master! We'll descend and dive straight through!"

At this moment, Liu Zhan inside the tunnel suddenly noticed that the road ahead was blocked by two container trucks parked side by side, and he immediately realised that the time to make a move had come.

According to the plan, he was going to kill Du Haiqing and Su Zhiyu inside the car, and then the Su family would disguise the two as if they had fallen to their deaths by pushing open the door from inside the speeding car.

Liu Zhan himself, on the other hand, would escape with all his men and the car in the container truck.

In this way, the outside world would think that the mother and daughter had fallen to their deaths while jumping out of the car to escape, while Liu Zhan himself continued to flee.

So, while slowing the vehicle to a stop, Liu Zhan turned around with his pistol raised and said to the mother and daughter duo, Du Haiqing and Su Zhiyu, who were sitting in the back of the vehicle, "Excuse me, two beauties, I'll have to send you on your way together!"

"What?!" Du Haiqing immediately panicked and said, "Su's family is coming for me, it has nothing to do with my daughter, please let my daughter go!"

Su Zhiyu also panicked and blurted out, "If you want to kill, kill me and let my mother go!"

Liu Zhan couldn't help but frown in dismay as he looked at Du Haiqing and asked, "How do you know it's Su's family? Did you get some information in advance?"

Su Zhiyu said hurriedly, "There must be some misunderstanding here, my surname is Su I am a member of the Su family, the current head of the Su family is my grandfather, the Su family cannot possibly want my life, there must be some misunderstanding here, I beg you to call and confirm with them!"

Liu Zhan sneered, "I've confirmed it long ago, what I want is both of your lives, one is missing, so you don't need to plead for each other, things have come to this point, neither of you can get away!"

He said, pointing at the two container trucks blocking the way in front of him, and said with a smile, "And there's no need for you to try to open the doors to escape, these people have long been prepared to be foolproof, they are planning to kill you both!"

"If you two fall into my hands, I can at least give you a pain, but if you fall into their hands, I guess they will use you directly as human bowling balls and make you fall to your death with your brains bursting out and your faces disfigured!"

As soon as Su Zhiyu heard this, she cried out in pain, "Mum! Why would Dad and Grandpa do this?"

Du Haiqing took Su Zhiyu into her arms, holding back her tears, and choked out, "Zhiyu, I'm sorry, it's my mother who dragged you into this."

Liu Zhan aimed his gun at Du Haiqing and said indifferently, "I shouldn't have let the white-haired send the black-haired to the black-haired, so I'll give you a break and go first!"

Du Haiqing knew that she was definitely doomed this time, she was just incomparably heartbroken for her daughter, and at the same time, she was also full of guilt towards her.

At this moment, she had already resigned herself to her fate, and while rubbing Su Zhiyu's head, she cried and said, "Zhiyu, I'm sorry, I'm sorry, don't blame me."

Su Zhiyu also sobbed with grief and said, "I don't blame you, Mom."

Liu Zhan could not help but sigh, "Aiya, such beautiful two big beauties, what a pity to kill them, but I can't help it, for my own survival, I can only let you two die!"

With that, he was ready to pull the trigger and kill Du Haiqing first.

But at that moment, turning back to look at the back seat, he suddenly saw through the rear glass, two black shadows coming fast from behind!

When he fixed his eyes on them, he couldn't help but exclaim, "Damn it! What the fuck is going on here? Don't they know they're blocking the road behind them? Why are they both rushing in?"

Chapter 2439

Liu Zhan clearly saw that the two black shadows coming fast directly behind the Rolls-Royce were the lorries that were scheduled to cause a crash at the tunnel entrance and block the intersection!

These two vehicles were travelling very fast and side by side, taking up the whole road completely, and now, seeing that they were getting closer and closer to the Rolls Royce he was driving, they had no intention of stopping at all.

This startled Liu Zhan!

After all, he was a man with a strong sense of anti-surveillance, so he instantly realised that something had gone terribly wrong!

He thought nervously and secretly in his heart, "Before this, the whole thing was moving forward exactly according to the plan I had worked out with Su's family."

"Including me being discovered by the police, including me being chased into the Treasure Pavilion, including me holding Du Haiqing and Su Zhiyu as hostages, and even including me escaping with the two of them, everything had not gone beyond the original plan!"

"However, the only thing that has deviated significantly from the original plan is these two trucks in front of me!"

"The two of them, they shouldn't be here!"

"These two vehicles are now barreling towards themselves at such a fast speed, and at first glance, they are not good comers!"

Liu Zhan was not a fool.

He hadn't watched much news and videos of major car accidents on TV.

He knew that a high speed truck was simply the most deadly vehicle on the ground.

The force of the impact of a truck of several tens of tonnes, hurtling at over a hundred kilometres per hour, might not be able to be carried even by a tank.

If it was a small car, it would have been knocked out straight away!

What's even more frightening is that there is no fucking way out in front of you!

If the front was clear, with the power and acceleration of the Rolls Royce, these two big lorries would only be able to eat shit behind them!

But the road ahead was blocked by two other lorries, so there was nowhere to run!

Seeing the two big lorries getting closer and closer, Liu Zhan was so furious that he could not help but grit his teeth and cursed, "Damn it! I never thought the Su family would be so untrustworthy! They told me to kill you two, but they wanted to kill me as well! The Su family has really played a good trick to kill the donkey!"

Su Zhiyu had thought that Liu Zhan would just shoot her and her mother and kill them both.

But she didn't expect that Liu Zhan would suddenly look at the rear windscreen and curse the Su family with an indignant face.

So she subconsciously turned around and instantly saw the two large lorries that were getting closer and closer.

With her intelligence, she understood the situation in front of her almost immediately, and with a bitter laugh, she said to Liu Zhan, "You should have known that the Su family would kill even their own people, and you should have thought that there was no way they would let you leave alive!"

Liu Zhan's expression was incomparably desperate as he muttered, "You're right I've been completely fucking used as a gun by the Su family"

After saying that, Liu Zhan suddenly became very angry and cried out, "What a bunch of people you stupid clans are! Since you are out to be a gangster, you should at least talk about the righteousness of the jianghu, right?"

Su Zhiyu laughed coldly, "You are a murderer who takes other people's lives after receiving money from them, what kind of moral righteousness is there to talk about?"

Liu Zhan immediately cursed angrily, "Damn it, if you keep talking nonsense to me, do you believe I will shoot you dead?"

Su Zhiyu smiled miserably and said without giving in, "Just shoot me and give me a good time! It's better to be shot by you than to be hit by a truck and then die a painful death!"

When Liu Zhan heard this, his face turned pale with fear!

Although he was a tough bandit with many lives, he was also afraid of death and pain. If he really wanted to die slowly after being hit like the victims in a major car accident, then he would rather die in a more clean way.

Su Zhiyu saw that he had completely panicked, and with a look of utter contempt in his expression, he said in a cold voice: "What, you usually kill people like hell, and now you're afraid of death too?"

At this moment, Liu Zhan could not care less about Su Zhiyu's mockery and asked out of turn, "Aren't you afraid of death?"

Chapter 2440

Su Zhiyu said in a cold voice, "If it's certain death, what's the use of being afraid? Can you escape if you're afraid?"

Liu Zhan fell silent for a moment.

What Su Zhiyu said was true.

In this situation right now, there was no chance of escape.

The car couldn't drive through, and it would be even worse if they got off.

If the human body was directly run over by a heavy-duty truck, it would basically turn into mush!

At this time, Su Zhiyu said, "Don't you have a bomb on you? Why don't you just detonate it? That way you can die with a little less pain!"

Liu Zhan laughed bitterly, "I don't have any fucking bombs, they're all fucking fake."

As he said that, he picked up the detonator and pressed it several times, saying with a bitter face, "Look, nothing is happening."

Su Zhiyu did not expect that this Liu Zhan was just a piece of trash who was strong from the outside, and when she thought that she and her mother would be buried in this tunnel because of this man, she had ten thousand resentments in her heart.

However, at this moment, she also realised that she and her mother no longer had any chance of escaping, leaving herself with a window of life of a few dozen seconds at most.

At this moment, she could already feel the strong vibrations caused by the two heavy-duty trucks travelling at high speed.

At the same time, the helicopter Ye Chen was in, had swooped down and appeared at the other end of the mountain.

The helicopter kept lowering its altitude over the tunnel entrance at this end, but because it was getting closer to the ground, the pilot's descent speed became more and more cautious.

Just now, watching the Rolls Royce go in and the two large trucks follow, Ye Chen realised the other party's ploy.

The Su family must have wanted to create a serious traffic accident to take care of Du Haiqing, Su Zhiyu and Liu Zhan all at once.

In the tunnel, there was no way that these three people would have any chance of escaping either.

Therefore, Ye Chen kept urging the pilot, "Go down faster! If you're slow, I'm afraid it will be too late to save them!"

The pilot blurted out, "Young master! There is radar at the bottom of the plane, which detects the distance between the fuselage and the ground in real time, once the distance is within twenty metres, it will force the descent speed to maintain a safe range, I can't go faster even if I want to"

Ye Chen looked at the ground, the current height was almost a dozen meters, not to say more, it was at least five stories high.

If he followed this rate of descent, he would have to wait at least twenty to thirty seconds before he could land, so he immediately unfastened his seat belt, pulled open the cabin door and said to Chen Zekai, "Bring someone to set up guns to guard the tunnel entrance, anyone who dares to come to support, fire directly!"

Chen Zekai hurriedly asked, "Young master, you are still not going to jump"

Before he finished his sentence, Ye Chen had already leapt from the helicopter!

To Ye Chen, although she had never jumped from such a high place before, he had taken many rejuvenation pills one after another to improve his physique, and he still had his aura as support.

Therefore, he could be sure that with his current body strength, there would be no problem jumping from such a height.

Sure enough!

Ye Chen leapt and landed heavily on the ground in the blink of an eye. Although his legs took a huge impact in an instant, it was completely within the bearable range of his body.

The moment he landed, he did not dare to delay and quickly ran wildly in towards the tunnel entrance.

At that moment, only a loud crashing sound was suddenly heard from inside!

"Boom!"
