

## Ye Chen 2531

### Chapter 2531

In Ye Chen's view, the Su family was now at a critical crisis point, plus they were being spurned by the whole country at the moment, so they were bound to be in desperate need of adding a new booster to their camp.

Moreover, it just so happened that Su Chengfeng had now gone to Suhang, so Ye Chen speculated that he would most likely take the initiative to enlist Wu Donghai and turn him into a dog of the Su family.

Even if Wu Donghai personally went to Yanjing and begged, Su Chengfeng would not give him a chance to meet him.

However, the times were different now.

The Su family was now isolated and had to enlist as many new teammates as possible, both in Yanjing and in Suhang.

Therefore, Ye Chen wanted Wu Donghai to be his undercover agent to see what other tricks Su Chengfeng had up his sleeve.

When Wu Donghai heard this, he also immediately understood Ye Chen's meaning.

However, his heart was quite worried about this.

"Ye Chen asked me to go undercover beside the Su family, isn't this sending me to be cannon fodder?"

"In case the Su Family finds out about it, they will still screw my Wu Family to death?"

"The Wu family's strength was already a great deal less than the Su family's, and after surrendering to Ye Chen and paying for a lot of shares, the Wu family's strength is now almost decimated, how can it withstand the Su family's tossing and turning?"

Ye Chen could also see his worries and said indifferently, "Wu Donghai, I have always been clear in my rewards and punishments, if you do a good job this time, I will definitely not treat you badly in the future, and don't worry, with me around, the Su family will definitely not be able to do anything to you."

Wu Donghai was still a little torn in his heart.

After all, he didn't know exactly what benefits Ye Chen could give him for his so-called not treating him badly.

Moreover, he didn't know whether Ye Chen would ask if he would live or die once the Su Family really wanted to deal with him.

Seeing that he was still hesitant, Ye Chen said lightly, "Wu Donghai, how about this, if you help me get this done, then I will help you cure your son's illness, what do you think?"

Wu Donghai subconsciously said, "Mr. Ye, my two sons ..... On their bodies ..... more or less have some hidden illnesses that are difficult to talk about, can you ..... can you really cure them?"

Wu Qi was under the psychological implication of Ye Chen, and the fact that he had to add meals every hour was almost unknown to the people of the country, while Wu Xin, on the other hand, had previously had his leg broken, and although he was now healed to a fault, he had become a cripple and would not be able to fully recover for the rest of his life.

Ye Chen sneered and said: "What is your son's condition worth? When Hong Wu almost died at the hands of Zhang Zizhou, didn't I still bring him back to life in the end?"

Yes. Wu Donghai's spirit was instantly lifted.

He knew that Zhang Zizhou had gone to the Heavenly Fragrance Mansion to kill Hong Wu and Ye Chen's old husband, Xiao Changkun, and saw that Hong Wu was about to die in his hands, but he was still saved by a Spring Return Pill from Ye Chen, which was simply incredible.

Therefore, he also could not help but think: "If Ye Chen is really willing to help, whether it is Xiao Xin's leg or Xiao Qi's hidden illness of having to eat that kind of stuff every hour, I am afraid that it can be cured ....."

So, he asked excitedly, "Mr Ye, are you ..... You are serious about this?"

Ye Chen nodded and smiled, "Of course."

Wu Donghai was busy saying, "My eldest son, who has been lame in his leg, and my youngest son who has a psychological problem ..... Can you cure both?"

#### Chapter 2532

At this moment, Wu Xin, who had been standing by his side and didn't dare to speak, couldn't help but get excited.

Ye Chen smiled and said, "It can be cured, but I have to say something in advance, if you help me get this done, I can help you cure one of the problems on your two sons."

As soon as these words came out, Wu Donghai's expression immediately became somewhat disappointed and he thought to himself, "Only one can be cured? This fellow Ye Chen is clearly trying to hang on to me with the matter of his son!"

However, it was better to be able to cure one than to be unable to cure any of them.

He was really too distressed about his little son, and if he really had the chance to cure him, it would really make up for a huge regret he had.

So, he immediately agreed and said, "Don't worry, Sir Ye, I will do my best to complete the task you have given me!"

Ye Chen smiled faintly, looked at the time and said, "Alright, you two hurry back, once the Su family finds you, tell me at the first opportunity."

Wu Donghai busily said, "Yes Sir Ye!"

Ye Chen looked at Chen Zekai and commanded, "Old Chen, send the guests away."

Chen Zekai immediately pointed to the door and made an inviting gesture, smiling, "General Wu, please."

Wu Donghai hurriedly said to Ye Chen respectfully, "Sir Ye, I will go back first then!"

Saying so, he took Wu Xin with him and carefully exited the room.

Chen Zekai sent the father and son duo to the tarmac on the roof of the building, and once they got on the plane, Wu Xin hurriedly said, "Dad! If this is done, you must let Ye Chen cure my leg!"

Wu Donghai said without thinking, "Your leg is basically fine now except for a slight limp, but your brother is still suffering every day, so of course he must be cured first!"

Wu Xin became anxious and blurted out, "Dad! I am the eldest son and grandson of the Wu family! If I remain crippled for the rest of my life, how can the Wu family lose face?"

Wu Donghai said sternly, "Have you ever thought about your brother? Have you ever thought about how he has survived step by step for so long to get to where he is now?"

Wu Xin was also a bit anxious and said in a hurry, "My brother has gotten used to it for such a long time, I went to his room to see him yesterday and happened to see the servants serving him that, he didn't show any pain at all, the whole time was normal, just like a chronic patient taking medicine, numb."

Saying that, Wu Xin couldn't help but say again, "Moreover, I should not say anything, the face that my brother should have lost has been lost long ago, even if he is cured, it is impossible to restore the damage he has done to the Wu family's reputation!"

"Are you going to let your younger brother come out and take over the family's affairs when he is cured? If that's the case, as soon as he appears in the outside world's view, outsiders will point fingers at him and say that he's the psycho who ate that thing that was on fire all over the country before!"

"In that case, our Wu family's reputation would take a second hit!"

"But I'm different dad!"

"I'm the future heir to the Wu family, the future calling card of the Wu family!"

"If every time I appear in front of the public eye, I am a cripple walking with a limp, then the Wu family's face will also be tarnished;"

"But if I am able to recover and become a normal person, then I will be able to appear in front of the public with a perfect image that is innocent enough and without any black history!"

"When we work together as father and son, we will definitely be able to bring the Wu family back to its former glory!"

Chapter 2533

Wu Xin's words made Wu Donghai completely heartbroken.

As a father, he felt more pity for his second son, Wu Qi, though.

But as the head of the family, he also finally realised that if there was a chance to cure either of the two brothers, but choosing to have only his eldest son Wu Xin would be a more cost-effective thing to do.

"As Xiao Xin said, Xiao Qi has left an extremely deep impression on the nation before, an impression that is engraved in the bones."

"Therefore, even if we take this opportunity to return Xiao Qi to normal, as long as he appears in the public eye, it will awaken that engraved memory of him in the public's mind ....."

"After all, he can't go around explaining that he'll never have to eat that kind of stuff again after he's healed."

Thinking about this layer, Wu Donghai also accepted Wu Xin's proposal.

He then spoke, "Xiao Xin, this is something we can do to Ye Chen's satisfaction, then turn around and let him cure your leg first, and if there is a chance in the future, perhaps we can also beg him to cure Xiao Qi as well."

Wu Xin couldn't hide his excitement and said, "Yes dad! As long as we obey Ye Chen and do more for him in the future, it's possible that Ye Chen will even give us a chance to cure Xiaoqi."

Wu Donghai nodded and instructed, "Xiao Xin, this matter, you must keep it a secret from everyone, and absolutely not say anything, otherwise if your brother finds out, he will definitely hate me to death."

Wu Xin said, "Dad, don't worry! I won't even say a word to the public if I'm beaten to death!"

Wu Donghai sighed, "Ai! In the future, if your brother doesn't have a chance to heal, you, as an older brother, must take good care of him."

Wu Xin said firmly, "Dad, you can rest assured! In fact, I've already thought about it, when we get through this difficult period in front of us, and also when Xiao Qi's whole mood is a little more stable, we can put consideration into sending him abroad!"

"Once abroad, he can change his identity and start afresh, so there won't be so much psychological pressure, and it's best if he can go to a country with fewer Chinese. That would be better for him."

Wu Donghai was silent for a moment and nodded gently.

He also knew that Wu Xin was doing this to send his younger brother out so that he could dominate the whole Wu family alone.

Although he had some disappointment and loss in his heart, he did not show it.

He had grown up in a powerful family, so he understood too well the open and dark fights between brothers in a powerful family.

Among the gentry, there was rarely any real brotherly affection.

In contrast, tens or even hundreds of billions of dollars in assets is what they value most.

Wu Xin's desire to send his younger brother Wu Qi abroad was in no way out of concern for his younger brother.

He simply wished to put an end to his problems forever.

Wu Donghai did not point it out, but said softly with immense emotion, "Xiao Xin, your brother, he is not easy, you, as a brother, must take care of him a little more, not to mention anything else, at least make sure that he is clothed and fed for the rest of his life."

When Wu Xin heard this, he immediately knew in his heart that his father understood his intentions.

So, without hesitation, he stated, "Dad, don't worry, I will take care of Xiaoqi for the rest of his life."

.....

When Wu Donghai and his father and son returned to Suhang, Su Chengfeng also woke up from his sleep.

After waking up, he immediately called his housekeeper over to ask about the progress of things at the moment.

#### Chapter 2534

The butler answered truthfully, "Master, the influence of the video is still expanding, and now it has gradually spread from the country, to overseas, the whole public opinion situation is extremely unfavorable to our Su family."

"In addition to that, Du Zhenhua of the Du family has already made no less than 10 calls, I didn't dare to answer ....."

"Several leaders from Yanjing also had people call over to question them, they were very shocked about this matter and demanded that the Su family must give a clear solution, I put it off for the time being on the pretext that you were physically ill, but they told us that we must give a clear statement within 24 hours ....."

Su Chengfeng couldn't help but sigh and grit his teeth, "The short video platform is in the hands of the Ye family, it's impossible for me to engage in this PR, as for the Du family, we don't need to care about him, whatever Du Zhenhua wants is up to him, anyway, I won't see him, big deal, I won't see him for the rest of my life."

The butler hurriedly asked, "Master, then the leader's side ....."

Su Chengfeng sighed, "That's what I'm most worried about ....." That Liu Zhan, to bundle explosives to hold hostages, the impact of this kind of thing is really too bad, now that it's all exposed, all the pot will have to be taken by me ....."

said, Su Chengfeng calmed down and spoke, "You give feedback to the leaders on my behalf, say that I am abroad to recuperate, after my health has improved a little, I will immediately go to apologize to them!"

"Yes Master ....."

Su Chengfeng rubbed his temples, somewhat decrepit and powerless, and asked, "By the way, which is the strongest family in terms of overall strength over here in Suhang?"

The housekeeper said seriously, "The strongest should be the Wu family, but the Wu family had a lot of incidents some time ago and their strength has been lost by nearly half, originally they were the number one family in Jiangnan, but now they are no longer ranked in the top three."

Su Chengfeng nodded and said, "The Su family has been focusing on the overseas market for the past few years, and has not ploughed deep into the domestic market, now is the time to hurry up and regain control of the domestic market as well as the network resources. It would be better."

As he said that, he asked, "By the way, when will Shoudao land?"

The butler looked at the time and said, "Young Master should land around two or three o'clock in the afternoon."

Su Chengfeng gave a hint and instructed, "In this way, go and meet the Wu family on my behalf and tell them that the Su family would like to invite them over for dinner in the evening, but don't reveal my identity and don't let anyone know that I am in Suhang, got it?"

The butler immediately nodded and said, "Understood, Master! I'll go and contact the Wu family right now!"

.....

Meanwhile, Su Shoudao was flying over the Western Pacific Ocean in his private jet.

Although he hadn't closed his eyes all night, his entire body was somewhat exhilarated.

Su Zhi Fei, on the other hand, was lying in his car in a complicated mood, his mind full of three images that kept spinning.

The first image was of his mother, Du Haiqing, who was in the car accident.

The second image was of his sister, Su Zhiyu, who was also in the accident.

The third image was of himself after he became the head of the Su family.

Originally, these three images were evenly matched as they rose and fell.

However, as time passes, the first two images gradually become somewhat faded, and the third image begins to firmly occupy the main position.

After speaking to his father, Su Shoudao, on the phone, Su Zhi Fei realised that the lure of the Su family's headship, and the immense wealth that this position could manipulate, was too great for him.

To be able to command a super family with assets of over a trillion dollars with a wave of his hand, this feeling of being able to command a kingdom was simply the ultimate power that all businessmen craved the most!

After carefully analysing the current situation, he could not help but feel even more exhilarated, as he felt in his heart, "Second Uncle has disappeared, and Grandpa's reputation has completely stunk up the street, so this makes it much more likely for Dad to inherit the Su family, and Dad only has me as his only son, which means that my chances of becoming the head of the Su family in the future, are also much greater! "

#### Chapter 2535

In order to draw Wu Donghai in, Su Chengfeng asked his own butler to bring gifts directly to the Wu family to pay a visit.

The seniority and status of the Su family's first butler is comparable to that of Tang Sihai, if not more so. Moreover, the first butler represents not only himself outside, but also Su Chengfeng, the head of the family, so having the butler pay a personal visit to the Wu family is definitely giving the Wu family face.

Su Chengfeng attached great importance to the matter of bringing the Wu family together, which is why he had his butler come to pay a personal visit on his behalf.

Su Chengfeng knew very well in his heart that he had become a rat in the street and it would be impossible for him to return to Yanjing in a short time.

Therefore, he must be prepared to stay in Suhang for a long time.

This incident gave him the feeling that it was very much like the history of 1860 when the British and French allied forces invaded Yanjing and the Qing Emperor Xianfeng fled to Jehol in a hurry.

At the beginning, when the British and French forces invaded Yanjing, the Xianfeng Emperor also fled in the same haste as he did.

However, the fate of the Xianfeng Emperor was a bit tragic.

After waiting for a year in Jehol, he did not have the chance to return to the capital and died the year after he fled to Jehol at the age of 31.

Su Chengfeng, in order not to repeat the latter of Xianfeng, had already made a full plan for himself from the moment he fled Yanjing.

He came to Suhang because he wanted to quietly gain a foothold in Suhang, not only to enlist all the top local families in Suhang, but also to transfer the Su family's industries across the country, quickly to Suhang, to consolidate the Su family's foundation in Suhang.

He wanted to make Suhang the second main base of the Su family.

In addition to this, he also wanted to promote his eldest son Su Shoudao again and make him the acting chairman of the entire Su Group.

Once Su Shoudao became acting chairman, it would mean that he had been formally established as the "crown prince" of the Su family, which would not only keep Su Shoudao honestly attached to him, but would also reduce the level of attention on him from the outside world to a certain extent.

What he wanted was to bring Su Shoudao in and let him act as his puppet, appearing in public while he hid in Suhang and listened to the government, thus ensuring that his power would not be undermined by Su Shoudao.

The entire Su family has been in Su Chengfeng's hands for so many years, whether it is the shares of the group, or the voting power and veto power of the board of directors, as well as the management of the family trust fund and so on and so forth, a series of manipulative powers are all in Su Chengfeng's hands alone.

Therefore, as long as he did not give up these rights, even if Su Shoudao took the position of acting chairman, he could not have any real power, let alone take the opportunity to usurp the throne.

Moreover, Su Chengfeng was an extremely exquisite person, and he had already made a will long ago that once he died, all the property of the entire Su family would be automatically handed over to a trust fund set up by a Swiss bank to manage, and none of the heirs of the Su family would have the right to call on the family assets, which exceeded a trillion dollars.

As for the standard of living expenses, Su Chengfeng also set the standard long ago. His own sons and daughters are each entitled to receive \$10 million per month and their spouses \$5 million per month; his own grandchildren are each entitled to receive \$6 million per month and their spouses \$3 million per month, and if his grandchildren have children, each of them can receive \$2 million per month until they turn 18.

By calculation, if Su Chengfeng did not change his will before he died, after his death, these descendants of the entire Su family would collect a combined total of two to three hundred million dollars a month to live on.

However, the Su family's assets exceeded a trillion, and the net profit every month exceeded ten billion, so the rest of this money, which no one was qualified to take out, could only be put in the trust fund to roll over with interest.

It seemed very unfair to Su Shoudao's children and grandchildren, because even if they kept receiving living expenses until they died, the Su family's money would still grow more and more.

However, Su Chengfeng had his own plans for this decision.

First of all, this will was laid out as a talisman for Su Chengfeng.

For, no heir of the Su family would ever have the intention of plotting against Su Chengfeng.

The reason is that once Su Chengfeng dies, not only will none of them be able to inherit the position of family head, but even their income will be greatly reduced.

Originally, the family could earn billions or tens of billions of dollars a year, and they could also get a lot of other resources from the family to support them, but once the old man died and everyone was

lying on dead wages, it would be a big deal for the family to receive a few hundred million dollars a year, and it would shrink by more than ten times, or even tens or hundreds of times in one go.

#### Chapter 2536

The will, in addition to being a talisman, was also the equivalent of a family insurance policy.

In ancient times, emperors feared that their heirs would be so dim-witted that they would lose their kingdoms and their children and grandchildren would not be blessed.

In modern times, the rich and powerful are also worried about their sons and daughters losing their family fortunes.

Therefore, almost every great tycoon would set up a trust fund to manage all the family's assets in the event that their children and grandchildren did not strive for success, thus ensuring that the heirs of the Su family would always have money to spend in the long run and that the family's assets would not be lost.

Moreover, this rule of living off the heads of people is particularly likely to stimulate the desire of these children and grandchildren to reproduce their offspring.

For, as soon as they produced an heir, it was tantamount to giving birth to a meal ticket.

What the head of a family worries about most is the continuation of the incense. If this allows the offspring to have more children, and if it is paired with sufficient trust fund assets, it will be more likely to ensure the continuation and development of the family.

For Su Chengfeng, if there is no one among his children and grandchildren who satisfies him, he will not change this will until he dies.

But if there is someone who is highly capable and who can command his trust, then it is not too late to change the will when he is on his deathbed.

In this way, the old fox will be able to hold the power of the entire Su family, as well as all the initiative, in his own hands, and no one of his children or grandchildren can threaten his rule over the Su family.

.....

On this side, Wu Donghai and Wu Xin had just returned home, and before the two of them had even warmed up their butts, Su Chengfeng's butler came to the door.

When he heard that the Su family's first housekeeper had come to visit, Wu Donghai's first thought was: "This guy Ye Chen, he's really good at anticipating things! I've just returned and this Su family is already looking for me!"

Thinking of this, he hurriedly said to Wu Xin, "Xiao Xin, in order to highlight the importance, you personally go outside to greet and invite the Su family's grand steward to my study!"

Wu Xin nodded hastily and walked out quickly.

Wu Donghai straightened his collar and went to his study first.

A moment later, Wu Xin walked in with a middle-aged man of about fifty years old.

As soon as this man entered, Wu Donghai immediately greeted him.

Wu Xin hurriedly introduced him, "Dad, this is the great butler of the Yanjing Su family, Mr. Su Anshun Su!"

Wu Donghai immediately said enthusiastically, "Mr. Su, I've heard so much about you! Please have a seat, please have a seat!"

Su Anshun nodded slightly and said with a smile, "Mr. Wu, I'm here today to invite you to dinner at my residence on behalf of my master!"

Although Wu Donghai had already guessed the other party's intention, he still pretended to be flattered and said excitedly, "Old Mr. Su wants to invite me for dinner? This ..... Is this true?"

"Of course!" Su Anshun smiled faintly and said, "I wonder if Mr. Wu has time in the evening?"

Wu Donghai did not hesitate to say, "Yes! Of course I do! Are you going to Yanjing? If so, I'll hurry and have the crew prepare for the flight!"

Su Anshun shook his head and smiled, "My family's master is in Suhang, and he wants to host a banquet at his home in Suhang in the evening."

After saying that, he reminded with a very serious expression, "Mr. Wu, the news of my family's master's visit to Suhang is currently known only to you, father and son, so bear in mind that this matter must not be leaked to anyone!"

#### Chapter 2537

At four o'clock in the afternoon, the private plane Su Shoudao was on, began to drop in altitude over the suburbs of Suhang.

Seeing that it was about to land at the Suhang airport, he you mobile phone to call his son, Su Zhi Fei.

Su Zhi Fei, who was in this matter, had already driven his car to the Suhang airport, where he parked it in the car park and stayed in the car himself to wait for news from his father.

When he saw his father calling, he hurriedly picked up and asked, "Dad, where have you arrived?"

Su Shoudao said, "I should be landing in about twenty minutes, are you there yet?"

"I'm here." Su Zhifei said, "Tell me when you leave customs and I'll come and pick you up."

"Okay!" Su Shoudao instructed him, "Don't forget to wear a mask and sunglasses, our Su family is really overly sensitive now, don't let anyone notice that we're in Suhang."

"I know dad."

After hanging up the phone, Su Zhi Fei hurriedly put on his mask and sunglasses, then drove the car to the main entrance of the airport arrival lane, and waited for about twenty more minutes before Su Shoudao's figure appeared at the exit of the airport arrival hall.

Like Su Zhifei, Su Shoudao was also wearing a pair of black sunglasses and a disposable black mask.

However, Su Zhi Fei recognised him at once and hurriedly got out of the car, waved to him and shouted, "Dad, over here!"

When Su Shoudao saw Su Zhifei, his spirit shook and he immediately ran two steps faster to rush over.

Su Zhi Fei had accumulated a lot of negative energy in the past two days, and when he saw that his father had finally returned, he had a feeling of having found something to rely on.

At this moment, Su Zhi Fei could not help but choke up and whispered: "Dad ..... You've finally come back ....."

Su Shoudao patted his back and sighed, "Ai! Zhi Fei, dad is sorry to you, to your mother and Zhiyu, when you needed me the most, I was not able to be by your side to protect you instead."

Su Zhi Fei said sadly, "Dad ..... Mum and Zhiyu, there is still no whereabouts, you must find a way to find them ah ....."

Su Shoudao nodded solemnly, "Don't worry, I will do my best to find your mother and your sister."

After saying that, he looked around and busily said, "Let's just get in the car first, there are too many people here, so as not to attract attention."

"Okay ....." Su Zhi Fei hurriedly nodded and turned to help Su Shou Dao open the passenger car door, allowing Su Shou Dao to get in first.

Once Su Zhifei returned to the car, Su Shoudao instructed him, "Drive straight to West Lake, your grandfather has a villa on the West Lake, he is living there now."

Su Zhi Fei nodded and said, "Then I will navigate to West Lake first, you can give me directions when we are almost at West Lake."

The Su family had too many properties all over the country and even all over the world, almost any slightly bigger city would have a Su family property in it, how many villas the old man actually had, even the old man himself was not sure, and this villa in Suhang, even Su Zhi Fei had never been there.

Driving into the airport highway, Su Shoudao said to Su Zhi Fei who was beside him, "When you meet your grandfather later, never wait for your grandfather to take the initiative to apologize to you, you must take the initiative to apologize to him, it is better to be solemn and kneel down to apologize, do you understand?"

Su Zhi Fei knew that this time his father's return from Australia was the key to his father as well as himself regaining the right to inheritance, he could not mess it up no matter what, so he said solemnly, "I know dad, don't worry, when I see grandpa I will immediately apologize to him on my knees ....."

Originally, Su Zhi Fei was also considered a person with a backbone, but in front of the huge benefits, his bones unconsciously became much softer.

Su Shoudao urged him again, "Your grandfather has met the biggest Waterloo in his life this time, judging from the influence of that video of yours, your grandfather will never be able to turn over in his life, so this time is a good opportunity for our grandparents, if we can seize this opportunity, on the one hand, let your grandfather see our ability, and on the other hand, let your grandfather see our absolute obedience, then we will have a chance to inherit the entire Su family."

Su Shoudao turned his words and added, "However, if we fail to do so, your grandfather will definitely hand over the entire Su family's property to an overseas trust fund to take care of before he dies."

Su Zhi Fei was busy asking, "Dad, how do you think we can get grandpa to recognise our abilities?"

Chapter 2538

Su Shoudao said seriously, "What happened to your mother and Zhiyu this time is an excellent opportunity. Anyone with a clear eye can see that this is clearly someone who wants to make a move against our Su family, and the other party is extremely capable and has probably been planning for a long time, if we can assist your grandfather, catch the person behind the curtain and solve all the threats to the Su family, then we will definitely make your grandfather impressed!"

Immediately afterwards, Su Shoudao added, "You have to know that your grandfather is now nailed to the pillar of shame, and it will be impossible to clear his name again until he dies!"

"So we just need to satisfy him and, in the time before he dies, keep obeying him and giving him respect while never challenging his majesty as the head of the family!"

"Then, before he dies, he will definitely pass on the headship of the Su family to me! And as long as we survive until he breathes his last, the entire Su family will be ours to decide!"

Su Zhi Fei nodded his head in a rush and said, "Dad, I'll listen to you on everything!"

At five o'clock in the afternoon, Su Zhiyu, under the guidance of Su Shoudao, drove the car into a huge estate on the edge of the West Lake.

West Lake was originally a nationally renowned tourist destination, and more than half of the area was open to all the people, so there were very few lake-front villas here, and they were extremely expensive.

It is rumoured that a famous domestic e-commerce tycoon, a boss surnamed Ma, has a luxurious villa here, which is said to be worth several hundred million dollars.

However, his villa is slightly inferior to Su Chengfeng's set.

Su Chengfeng's estate cost him 800 million when he bought it ten years ago, and another 500 million to renovate and rebuild it.

Su Zhi Fei drove into the manor and his butler, Su Anshun, was already waiting at the entrance of the main hall.

As soon as he saw the father and son get out of the car, he hurriedly greeted them and said respectfully, "Grand Duke and Young Master! I didn't expect you two to come together!"

Su Shoudao hurriedly asked, "Housekeeper, where is my father now?"

Su Anshun said, "His Lordship has been looking forward to you two, so he instructed me to wait here early, and said that he would take you to him as soon as you arrived."

Su Shoudao was busy saying, "Then hurry up and take us there!"

"Good!"

Su Anshun led the father and son to the main hall in the manor.

At this moment, in the main hall, Su Chengfeng, who was in a somewhat decrepit state of mind, was sitting in front of the burning fireplace, resting. Upon seeing his father and son coming, he hurriedly stood up from his recliner and took three or two steps to walk in front of them, saying with tears in his eyes, "Shoudao ..... Zhi Fei ..... I ..... I'm sorry for your family!"

When Su Zhi Fei heard this, he recalled his father's explanation and without saying a word, he kneeled down in front of Su Chengfeng and confessed, "Grandpa ..... It's because I didn't know the rules and rushed you, so please punish you heavily!"

Su Chengfeng's expression flashed with a hint of satisfaction, he hurriedly reached out to help Su Zhi Fei up and choked up, "Good boy, you are right, it is grandpa who is wrong ....."

"It's grandpa who is old and confused, that's why he made such an impulsive decision for the sake of the family's face ....."

"And, again, the miscreants took advantage of the opportunity to assassinate him, carrying many trumped up charges ....."

Su Shoudao hurriedly stepped forward, holding Su Chengfeng, and said seriously, "Dad, you must not say that, Zhi Fei and I both know very well that everything you do is for the sake of the family!"

Su Chengfeng nodded with relief, "If you two can understand my pain, I can die in peace!"

Su Shoudao nodded solemnly, "Dad, don't worry, Zhi Fei and I can understand you very well ....."

With tears in his eyes, Su Chengfeng said solemnly, "Shoudao, I promise you that I will do my utmost to find Haiqing and Zhiyu, and if Haiqing is still alive, I will definitely apologize to her in person, even if she wants my old life, I will willingly pay for it!"

Su Shoudao hurriedly said, "Dad, our priority now is not to find Haiqing and Zhiyu, nor to find Shoude, but to work together to uncover the enemy hiding in the shadows!"

Chapter 2539

Su Shoudao's words spoke to Su Chengfeng's heart.

Although Su Chengfeng had taken the initiative to apologise to Su Shoudao and Su Zhihui for the matter of Du Haiqing and Su Zhiyu, deep down, he did not want Su Shoudao, father and son, to dwell on this issue with him.

So Su Shoudao now took the initiative to change the subject, just in time to meet Su Chengfeng's innermost thoughts.

So, he hurriedly spoke up, "Shoudao you are right, we must work together to find out who is really behind this!"

Saying that, he asked Su Shoudao, "Who do you think, in the end, could be behind this against us?"

Su Shoudao subconsciously said, "Dad, I think this matter is inseparable from the Ye family, but I don't have any evidence to prove that this matter is the work of the Ye family, I can only speculate through the short video platform, the Ye family should be involved to some extent, and Jinling is also the Ye family's sphere of influence, which is considered their home turf."

Su Chengfeng nodded and said seriously, "My previous thoughts, were similar to yours, but I now feel that it seems unlikely that the Ye family possesses such strength, otherwise, they wouldn't have waited until today to strike at us."

Su Shoudao fell into deep thought.

He had also considered his father's point of view and couldn't figure it out.

Just at this time, Su Chengfeng looked at Su Zhifei, who was at the side, and opened his mouth pretending to be casual and asked, "Right Zhifei, do you have any ideas? In your mind, is there any clue that fits better?"

Su Zhi Fei busily said, "Grandpa ..... I ..... I really can't think of any clues."

Su Chengfeng nodded, then pretended to suddenly remember something and said, "Hey right! Didn't you and Zhiyu meet a master back in Japan? Who exactly was that person, and did you find any clues?"

"No." Su Zhifei said seriously, "Zhiyu has been especially trying to find your grandfather, but we have tried many ways without any substantial progress."

Su Chengfeng's heart tightened and he asked, "You had met him at that time, can you describe his characteristics to me, including his looks and temperament?"

Su Zhi Fei thought about it and said, "En Gong must be about my age, very young, and he must be Chinese or of Japanese Chinese descent, as for his looks, to be honest he is still very handsome, his features and face are all very hard, still very distinctive."

Su Chengfeng asked him, "Can you find a professional in criminal investigation to help you get a character portrait?"

Su Zhifei hesitated for a moment and said, "Grandpa, the matter of a character portrait is something that Zhiyu and I have considered before, but to be honest, we only knew our benefactor from one side, and the events that we encountered that day were just too intense, so if we really had to recall our benefactor's appearance, it would be somewhat vague instead ..... Unless we meet again, we can recognize him at a glance ....."

When speaking of this, Su Zhi Fei couldn't help but ask, "Grandpa, why are you suddenly asking about Eunuch? Could it be that you suspect that it is En-Gong who is behind this time?"

Su Chengfeng sighed and said with mock emotion, "I'm not suspecting, I'm hoping! I hope that this benefactor is behind everything this time, in that case, I believe Zhiyu and your mother will have a better chance of surviving."

Su Zhi Fei nodded gently and said from the bottom of his heart, "Your Grace is someone with great magical powers, if it's really like you say, I believe that the chances of Mom and Zhiyu surviving will be much higher, but we've searched for your Grace for so long and haven't found him, the chances of him happening to appear in Jinling are very low."

Su Chengfeng smiled faintly, "Even if the possibility is very low, there is still a possibility, we have to look on the bright side of everything, if it is really him, then this incident is actually a misunderstanding, as long as the misunderstanding is cleared, this person might still be possible for our Su family to use!"

After saying that, Su Chengfeng immediately ordered, "Zhi Fei, apart from Zhi Yu, you are the only one who has seen that benefactor. See if you can lure that benefactor out!"

#### Chapter 2540

As soon as Su Shoudao heard this, he subconsciously said, "Dad, this place in Jinling is very evil! Shoude has just disappeared there, if Zhi Fei also goes there in a high profile, I am afraid ....."

Su Chengfeng waved his hand: "Don't be afraid! My guesses are usually not wrong! What we need to do now is to lure the snake out of the hole."

Su Shoudao's expression could not help but be somewhat torn.

Su Zhiyu's whereabouts were still unknown and his fate uncertain, so he really didn't want to let Su Zhifei go to Jinling and take a big risk.

Su Shoude was kidnapped just as he arrived in Jinling because he was too high-profile.

If Su Zhi Fei was also high-profile, he would probably have to repeat Su Shou De's mistake.

The only possibility of exemption was that the old man had bet on the fact that the mysterious man behind Jinling, who turned his hand into clouds and his hand into rain, was the benefactor who had saved his son and daughter in Japan.

Just as he was hesitating, Su Zhi Fei was plucking up courage and said seriously, "Grandpa, I am willing to go to Jinling!"

Su Chengfeng nodded in satisfaction and smiled, "Worthy of being the eldest grandson of my Su family! His courage is extraordinary!"

Saying that, he asked, "Right Zhi Fei, I heard that you sponsored a concert before, and it seems that it is going to be held in Jinling, right?"

Su Zhi Fei nodded, "Yes grandpa, I sponsored Miss Gu Qiuyi Gu's global concert tour, Jinling is her first stop for this year's concert."

Su Chengfeng smiled, "So it's that Gu family girl! That girl's popularity is also very high now, so when you go to Jinling this time, you can appear in the public eye in the name of sponsoring a concert in a big way."

Su Zhi Fei was busy saying, "Okay grandpa, I understand!"

At this moment, a thought suddenly surged in Su Chengfeng's mind, "This kid, Zhi Fei, is definitely not idle anymore, let alone a fop who is not doing his job, why would he want to engage in something as frivolous as sponsoring a concert?"

"Things in the entertainment industry are indeed high profile to ordinary people, but to a super class family, it's not even a fart."

"How many of the top stars in the entertainment industry would like to marry into these super class families, but the sons and daughters of these top families, who have a little bit of class, won't even look at them."

"Zhi Fei is the grandson of the Su family, if he beckoned in the entertainment industry, there's no telling how many top female stars would jump at him regardless, but he went to sponsor that Gu family girl's concert, this is obviously a bit drunken!"

Thinking of this, Su Chengfeng's eyes twinkled, so he planned to give Su Zhi Fei a pitch.

So, he deliberately pretended to be very sincere and sighed, "Aiya, I'll say it from the bottom of my heart, that Gu family girl, as a whole, is still very good, although the strength of the family is a little bit worse, but it's better that this little girl has a good image and is dignified!"

After saying that, he looked at Su Zhi Fei and said in a serious manner, "Zhi Fei, you are now at the age of marrying, if you can get the Gu family's girl, it will be a good thing for our Su family!"

When Su Zhi Fei heard this, his whole body suddenly got excited and asked, "Grandpa ..... You ..... You support my pursuit of Gu Qiuyi?"
