

## Ye Chen 2591

### Chapter 2591

Ye Chen now had a relatively sufficient amount of capital in his hands, and he still had Jiu Xuan Pharmaceutical, a money printing machine that was constantly making money, so starting up ocean shipping was really not a difficult task for him.

Whether it was setting up a company, docking a dock or leasing a cargo ship, there was no problem with the funds.

However, the most crucial problem was that if one was to start such a large piece of new business, one must have someone who was capable enough to help him take care of it.

The first person Ye Chen thought of was Wang Dongxue.

It went without saying that Wang Dongxue's ability and character was absolutely trustworthy.

However, the only problem was that Wang Dongxue also had to manage the Dihao Group, so if she was to take on the responsibility of ocean shipping, I was afraid that she would be too busy to do it.

After thinking about it for a moment, Ye Chen decided to wait for Wang Dongxue to return from Hong Kong and talk to her first to see if she had any good ideas or if she knew any other talents who were good at management.

He then said to the crowd, "Thank you all for your suggestions, I will give the matter of ocean shipping some careful consideration."

Ito Yohiko hurriedly said, "If Mr Ye wants to do it, I will definitely give my full support!"

Song Wanting also said without hesitation, "Master Ye, Wanting is also willing to support you unconditionally!"

Qin Gang hurriedly said, "Master Ye, and me too! When we return tonight, I will give Li Tailai a call, he has deep roots in Haicheng and also seems to have a stake in its port, if you choose Haicheng as your main pier and base, with his assistance you will be able to get twice the result with half the effort!"

Ye Chen nodded and said, "It's good, you can ask Li Tailai about the situation for me, I'll give it a comprehensive consideration after I go back."

Qin Gang hurriedly agreed, "Okay Master Ye!"

Just as Ye Chen was at the dinner table, having his heart set on ocean shipping, Master Su, who was also eating at his lakeside villa in Suhang, suddenly received a tip-off.

Immediately after listening to the tip, he said to Su Shoudao with a dark face, "Shoudao, I just got word that Ito Yohiko of the Ito family has gone to Jinling!"

"What?!" Su Shoudao exclaimed, "Dad, how could Ito Yohiko go to Jinling? The Ito family doesn't seem to have any business in Jinling."

The old man, Su Chengfeng, said with a grave expression on his face, "Although I don't know exactly what business the Ito family has in Jinling, I think this time it's not simple because a bear-like and his sister, as well as his loyal subordinate, have chosen to stay at the Buckingham Palace in Jinling!"

"Buckingham Palace?!" Su Shoudao blurted out, "Isn't that the Ye family's property?"

Chapter 2592

"Right!" Su Chengfeng gritted his teeth and said, "Jinling was already in the Ye family's sphere of influence, it belongs to the Ye family's territory, Ito Yohiko suddenly going to Jinling is strange enough in itself, and choosing to stay at the Ye family's hotel, this is even more a bit dangerous."

Su Shoudao was busy asking, "Dad, are you worried that the Ito family will cooperate with the Ye family?"

"Yes." Su Chengfeng said seriously, "At present, our ocean shipping industry is suspended across the board, and for a while the whole industry is in turmoil, on the one hand because we have stopped sailing, there is a big gap in demand for international shipping that is not being met, and freight rates are not considered to be rising, on the other hand, all these chartered ships in our hands are going to be released to ship owners, and once they are released to ship owners, these ships will become other Once they are released to the shipowners, these ships will become the object of competition among other families and enterprises, the most threatening of which is the Ye family!"

Su Shoudao pondered for a moment and said, "Dad, if the Ye family really hooks up with the Ito family, that would be too bad for us! It's possible that the Ye family will completely overtake the Su family because of this opportunity!"

Su Chengfeng hmmed and said grimly, "So right now there are several tasks that urgently need to be solved by you."

Su Shoudao hurriedly stood up and said, "Dad, if there is anything I need to do, just give me an order."

Su Chengfeng said, "I want you to go to Jinling, first find out what Ito Yohiko's motive is for going to Jinling, then find a way to establish contact with Ito Yohiko, then try to get cooperation with the Ito family, then the conditions can also be higher, first make the Ito family give up cooperation with the Ye family, then slowly build up cooperation with them, this time the top still I don't know how long the top will punish us, we have to be prepared for both!"

Su Shoudao was busy saying, "Dad, if I also go to Jinling, then you will have no one to take care of you in Suhang, Zhi Fei is now in Jinling and can't get away for a while."

"Don't worry about me." Su Chengfeng said indifferently, "No one knows I'm in Suhang now, so even if the outside world scolds me, there's nothing they can do about it, so just hurry up and get the Ito family's business done! Even if there's no way to reach a partnership with the Ito family, we must never let them get involved with the Ye family, once they get involved with the Ye family, then we'll be in big trouble!"

In Su Chengfeng's eyes, the Ye family had always been his sworn enemy.

The Su family and the Ye family were like two bullies in the village. In terms of fighting power, the Su family was slightly stronger than the Ye family, but if these two sides really fought, the Su family would not be able to win easily. Therefore, there has not been any major conflict between the two sides in the real sense.

Now, the Su family has accidentally broken their foot and cannot recover from the injury for a while, so their fighting power is weaker than the Ye family's. The two sides have swapped situations, but neither side dares to fight the other to the death.

However, at this time, the bully from the next village had gone to the Ye family as a guest, and the Su family's greatest fear was that the Ye family and the bully from the next village would join forces against him, and if that were the case, the Su family would hardly be able to fight.

Su Shoudao spoke up at this time, "Dad, if they both reach a consensus, then it's a nail in the coffin for them to start cooperation next, it's hard for us to sway their choice!"

Su Chengfeng said indifferently, "It doesn't matter if we can't influence their choice, the big deal is to find a way to kill Ito Yohiko in Jinling, and then dump the blame on the Ye family. Didn't they just try to get Zhi Fei and Zhi Yu killed and then dump the pot on the Ito family?"

Su Shoudao said with some hesitation, "Dad, we are already encountering a lot of problems now, Ruoli, Zhiyu, and Du Haiqing, these are all places where the outside world is targeting the Su family, if we continue to make such moves, in case it really comes out, the consequences would be unthinkable!"

Su Chengfeng said in a cold voice: "Unthinkable? I'll tell you what's unthinkable! Once the Ye family and the Ito family have reached a partnership, they will definitely take advantage of this opportunity to expand rapidly in the field of ocean shipping, and will probably destroy all our roots in a few months' time. If we lose this business, our strength will be shorter than that of the Ye family, and if we lose this business and it is picked up by the Ye family, then this is the opposite and we will be even more inferior to the Ye family! "

Said Su Chengfeng with a cold expression, "No matter what, we can't lose this big piece of pie of ocean shipping! Even if I can't eat this bowl of rice, I will still smash the Ye family's rice bowl! If I can't eat this bowl of rice, anyone else can eat it, but not the Ye family!"

#### Chapter 2593

When Ye Chen finished his dinner and left from the Song family, Su Shoudao had already started moving and was on his way to Jinling in a hurry.

In order to get in touch with Ito Yohiko as soon as possible, he had specially arranged for his men to use other identities and booked a hotel room at Buckingham Palace.

He also knew very well that Buckingham Palace was the property of the Ye family, so not only could he not let the Ye family know that he would be staying at Buckingham Palace, he could not even let them know that he would be in Jinling.

According to his plan, after his men had booked the rooms, checked in and got their room cards, they would stand by near the Buckingham Palace Hotel and give him his room card when he arrived, so that he could skip the check-in process and enter the hotel room directly.

At the moment, although hotels clearly require real names, the real name system can only be carried through to the person who opens the room.

And the more high-end the hotel, the more attention is paid to the user's feelings and privacy, as long as the guest entering and leaving is decently dressed, basically there will be no staff to verify his identity.

Ye Chen also did not know that Su Shoudao was on his way to Jinling. on his way to Jinling.

He drove away from the Song family and called his old man Xiao Changkun on the way, and when the call came through, he asked: "Dad, I'm done here, where are you? I'll go pick you up if you're done too.

Xiao Changkun was panting and said: Ye Chen

I'm exhausted, so hurry up and come to the rescue.

Ye Chen was surprised and asked: "Dad, what happened to you?"

Xiao Changkun's voice was disheveled as he said: "Don't mention it, I was dragged out for a run by your Auntie Han and my legs were almost broken".

When Ye Chen heard this, he couldn't help but laugh dumbly.

Han Meiqing, a sick person, suddenly dragged Xiao Changkun out for a run, which seemed to be the result of excessive physical strength and energy.

In that case, it seemed that the dose of his own Spring Return Pill was still a bit too large.

He then smiled and asked Xiao Changkun, "Dad, where are you running? Send me a location, I'll come and pick you up."

Xiao Changkun said, "Wait a minute, I'll send you the location.

After saying that, Xiao Changkun hung up the phone in a panic and sent a location to Ye Chen on WeChat.

Immediately afterwards, he sent a text message: "Good son-in-law, come quickly, my legs are about to break"

Ye Chen replied with a yes and drove to Xiao Changkun's location.

At this moment, Xiao Changkun was sitting on the roadside road, his body was already drenched in sweat.

He had really never dreamed today that he would take advantage of Han Meiqing's illness to brew up a good atmosphere and come to a tao, but who would have thought that he would come and be dragged by Han Meiqing to run around the riverside all night.

The stamina of Han Meiqing is surprisingly good, and it seems that she never gets tired of running, but this old body of his has no such base, and after running for half an hour he was so tired that he almost lost half his life.

He wanted to give up, but because he didn't want Han Meiqing to look down on him, he had to grit his teeth and persevere, but even with all his efforts, he was still far behind Han Meiqing, so Han Meiqing could only run out for a while, then turn back, accompany Xiao Changkun to jog for a while, then run out again, and so on.

Xiao Changkun had long been running without tears.

Now, even if Han Meiqing took the initiative to ask him to do so, he would not be able to do so and would only want to go home and lie down.

Chapter 2594

When he saw Xiao Changkun, Han Meiqing was standing beside him, waving at him and gesturing for him to keep running, while Xiao Changkun was sitting on the road, waving his hands in pain.

Ye Chen pulled over and stopped the car. When Xiao Changkun saw him, it was as if he had seen a saviour and his eyes were shining brightly.

However, he still deliberately did not speak to Ye Chen immediately.

It was Han Meiqing who saw Ye Chen and smiled first, "Ye Chen is here!"

When Ye Chen saw Han Meiqing wearing a tight-fitting sportswear, he secretly marvelled in his heart: "This Auntie Han is really an idol for middle-aged and elderly men, with this figure, this look and this temperament, she doesn't look like a 50-year-old person

I believe.

Say she was thirty, I'm afraid most people would

With that, Ye Chen nodded at Han Meiqing and said, "Hello, Auntie Han.

After saying that, Ye Chen, with bad intentions in his heart, deliberately asked her: "Auntie Han, I heard Dad say that you were sick, why are you still out for a walk and you look very good, you don't look sick at all.

Han Meiqing said with a smile: "I did have a high fever at first, but your father brought me a bowl of millet porridge, I drank it and I got better"

Ye Chen pretended to be surprised and asked, "Is millet porridge that amazing?"

Han Meiqing laughed: "To be honest, I can't figure out how it works, but I did get completely better, and my body feels like it has inexhaustible strength."

Ye Chen nodded and looked at Xiao Changkun, who was sitting on the floor with a red face and sweaty head, and teased, "Dad, why don't you have a bowl of millet porridge"

Xiao Changkun said resentfully, "If I had known that millet porridge had this effect, I would have bought more bowls at that time."

After saying that, he deliberately changed the topic and pretended to look helpless as he asked him, "Aiya Ye Chen, why did you arrive so soon? Didn't I tell you to wait for half an hour before picking me up? I still have to accompany your Aunt Han for a run here."

Hearing his old husband's words, Ye Chen was a little stunned at first, but quickly came back to his senses.

He guessed that his old husband was afraid of losing face in front of Han Meiqing, so he had deliberately said that to act as if he wasn't in a hurry to escape.

So Ye Chen said with a smile: "I finished early on my side, so I came over first, if you haven't had enough running, just keep running for a while, I'll wait for you."

When Xiao Changkun heard this, he hurriedly waved his hand: "No, I'm not running, it's so late, I'm embarrassed to keep you waiting."

The actual fact is that you'll be able to get a lot more than just a few of these.

Xiao Changkun gave Ye Chen a sly white glance and said, "Thanks to me calling you your son-in-law every day, you don't know how to find a step for me at times like this, and you're deliberately tearing me down, you're really bad."

As he thought about it, he sighed and said, "Oh, I just remembered that I have an appointment with an old buddy to pick up something from his house in the evening, and it's quite late, so why don't we go there first."

After saying that, he looked at Han Meiqing and said apologetically, "Meiqing, why don't we stop here for today and I'll run with you when the sky comes down some other time?"

The company's main business is to provide a wide range of services and services to the public.

Xiao Changkun's heart wanted to cry, but his mouth smilingly said: "This is a small thing, why don't you also come with us, and let Ye Chen send you home."

Han Meiqing thought about it and nodded, "Okay, it's not much fun to run alone, so I'll just trouble Ye Chen to give me a ride."

Ye Chen laughed: "Auntie Han, you are too polite, get in the car."

Xiao Changkun immediately opened the back door for Han Meiqing, and as Han Meiqing was about to get into the car, someone suddenly shouted out with surprise: "Meiqing, why are you here?"

## Chapter 2595

The three of them looked at the sound and found a middle-aged man wearing sports shorts and short sleeves with a strong body, who was jogging all the way to the front.

Ye Chen couldn't help but look at this middle-aged man. The other party was almost 5'8" tall, with a very well-proportioned body and a muscular body, and he only looked like he was in his early forties.

Moreover, the other man was running in such a cold day, wearing so little, so at a glance, he knew that he was in very good physical condition.

What was even rarer was that this man was handsome and had short, luxuriant hair, which was indeed very impressive.

As soon as Xiao Changkun saw this man, he instantly became wary and looked the other man up and down while he could not help but feel a little inferior.

Compared to this man, Xiao Changkun is just an ordinary 50-year-old middle-aged man who does not exercise, let alone work out, and does not have a systematic diet or exercise habits, so his energy is much worse than others.

Han Meiqing also said with a surprised face at this time: "Aiya, Lao He, why are you here?"

The middle-aged man called Lao He smiled slightly and said, "I was out for a run, but I didn't expect to run into you here."

The more Xiao Changkun looked at the other man's spirit, the more jealous he became, and he couldn't help but ask, "Meiqing, who is this?"

Han Meiqing hurriedly introduced, "Changkun, this is my colleague at the senior citizen university, Lao He, He Yuanjiang, Lao He used to be a professor of economics and management at mit, also recently returned to China not long ago, he is the vice dean of the School of Economics and Management at Jinling University of Finance and Economics, and is also a visiting professor at the senior citizen university."

When Ye Chen heard about Jinling University of Finance and Economics, she thought to herself, "Isn't this the school that Qin Ao Xue attended?"

After saying that, she then said to He Yuanjiang, "Old He, this is my former university classmate Xiao Changkun, and next to him is his son-in-law Ye Chen."

Xiao Changkun subconsciously asked, "mit what mit?"

At this point, He Yuanjiang took the initiative to explain to Xiao Changkun: "This gentleman, mit is the abbreviation for Massachusetts Institute of Technology, MIT is a university in the United States.

Awkward.

Xiao Changkun's expression immediately became incomparably embarrassed

MIT was one of the top three universities in the world, and Xiao Changkun was also someone who had studied at university, so of course he had heard of it.

However, he didn't know the abbreviation of MIT is mit, so he showed his fear at once.

When he looked at this man, Xiao Changkun felt even more inferior: "He's a professor at MIT, and if he can be a professor at MIT, he must have at least a PhD. It's like I'm his second uncle!"

He Yuanjiang saw that Xiao Changkun didn't say anything for a long time, so he took the initiative to smile and asked: "Hello Mr. Xiao, I wonder where Mr. Xiao is now."

Han Meiqing introduced: "Changkun is the executive director of the calligraphy and painting association, our senior college calligraphy hobby group often interacts with them.

He Yuanjiang nodded and smiled: "I didn't expect Mr. Xiao to be a calligrapher and painter, I actually like calligraphy too, I used to practice it some days, but now I'm busy with work, so I don't have time to take care of it, if I have the chance, I will definitely learn more from Mr. Xiao.

Xiao Changkun didn't expect this guy's education and background to be impressive, but he was still so humble, so he felt that he was not as good as he should be.

After saying that, he deliberately looked down at the Rolex on his wrist and said, "Elder brother He, it's a bit late today, we have to go first, sorry."

Chapter 2596

He Yuanjiang smiled faintly: "It's alright, Mr. Xiao is busy first if you have something to do."

Saying that, he jokingly said, "By the way, Mr. Xiao looks like he should be around fifty years old"

"Yes, fifty." Xiao Changkun nodded his head.

He Yuanjiang laughed, "Then you can't call me old brother, I'm a few years older than you, and I'm already fifty-five this year." Baidu search: elite novels.com

What," Xiao Changkun asked, dumbfounded, "you are fifty-five years old

"Right." He Yuanjiang laughed: "Just passed my fifty-fifth birthday in January this year, the imaginary age is considered fifty-six."

Watch.

Xiao Changkun's expression instantly became a little difficult

It was not that he was angry, but mainly because he was too inferior.

He thought that He Yuanjiang should be around forty-five years old, but he didn't expect this guy to be five years older than himself

He Yuanjiang then looked at Han Meiqing and asked her, "Right, Meiqing, Mr. Xiao has to leave first, are you in a hurry to go back?" If not, we can both run a little longer.

Han Meiqing hadn't run enough, she felt that her strength and energy seemed to be very full, once she heard He Yuanjiang's proposal, she agreed almost without hesitation and smiled, "Yes, I just haven't run enough either, let's run a little longer.

After saying that, she looked at Xiao Changkun and Ye Chen and smiled, "Changkun, Ye Chen, then I will not go back with you, Ye Chen, you will drive back later on the road. Take your time."

Xiao Changkun was so depressed that he wanted to stop, but he didn't know where to cut in.

Ye Chen, on the other hand, smoothly agreed and said to Han Meiqing, "Auntie Han, then we'll leave first."

After saying that, Ye Chen pulled Xiao Changkun: "Dad, let's go.

Xiao Changkun was so bored that when he followed Ye Chen back to the car, Han Meiqing had already joined He Yuanjiang and continued to run ahead.

He looked at their backs and said in exasperation, "Ye Chen, that grandson said he was fifty-five years old, how can a man of fifty-five be so young?"

Ye Chen laughed, "People like to exercise, just like Auntie Han, the vast majority of the credit for keeping so well comes from long and relentless exercise."

Xiao Changkun smacked his lips and said with a black face, "I think this grandson has a crush on your Auntie Han

Ye Chen said casually, "Auntie Han is so good, there must be many men interested in her, right?"

Xiao Changkun said anxiously: "The point is, this grandson seems to be quite outstanding too, a professor at MIT, this title alone is already very scary, maybe he will become my biggest competitor

He said, he could not help but grit his teeth and cursed: "Damn, you say that these grandsons who have left the country, since they have gone out, they can honestly stay abroad can not come back blindly what"

Ye Chen did not think, said with a smile: "Young people leave home, the oldest back, Chinese people still hope to return to their roots in the future, and moreover people back home as a professor, is also a contribution to the country, at least for the motherland to cultivate talent.

Xiao Changkun said in exasperation: "Then one less of him is not much loss to the country, especially this guy is still from the United States, your aunt Han also lived in the United States for many years, there must be a lot of common language, and I'm I have not even seen what the United States is like!

Chapter 2597

When he thought of the fact that he had never been to America, Xiao Changkun unconsciously hated Ma Lan in his heart.

If it wasn't for her, I would have been a high achiever in the United States by now, maybe I would have been a professor at MIT or Harvard.

He complained indignantly, "What happened was that I had just graduated from college and was completely trapped by this rubbish stock of Ma Lan, and I still haven't been able to get out of it."

Ye Chen couldn't help but comfort him, "Come on dad, there are things you can't just think of in the most optimistic way, look at you now, although you are not too happy in your marriage, at least you are healthy, think about it from another perspective, if you are destined to be in a car accident when you arrive in the US, or to die in a shooting when you arrive in the US, mum trapping you in the country is tantamount to saving your s life."

Xiao Changkun said with a depressed expression, "Don't fool me here, when we were young we were educated in materialism and Marxist theory, we didn't believe in fate, a Soviet revolutionary song

sang back then 'There is never a savior, nor do we rely on the gods and emperors, my life was ruined by the hands of Ma Lan

Ye Chen smiled helplessly and said:

"Dad, how about

Let's talk about that He Yuanjiang."

Xiao Changkun hugged his arms and asked angrily, "What's so great about him? He's just a bit more educated, what's so great about him?"

Ye Chen said awkwardly, "That's all there is to it, isn't it?"

Xiao Changkun rubbed his temples: what a headache, hey Ye Chen, do you think he has a wife and children?

Ye Chen thought about it, seriously said: "big night out running alone, I think he should not have; wife, but he is 55 years old, I think the children must have, according to this analysis, should have had more than a previous marriage history, but at the moment should be in a single state."

The two of them are single, they are colleagues at the senior college, they both have many years of experience in the United States, and they both like sports and exercise, according to this analysis, it is most suitable for them to live together. I have nothing to do with it!

The two of them would be perfect for each other, so there would be nothing for me to do," said Xiao Changkun, annoyed, "You said, he is a professor at MIT, but he came to teach at Jinling University of Finance and Economics.

Ye Chen nodded and laughed: "Or a professor of economic management at MIT, the gold content is very high.

Xiao Changkun asked curiously: "Do you know MIT

"A little.

Ye Chen said seriously: "Massachusetts

After all, it is the world's first in these two years, but the strongest Massachusetts is not economic management disciplines, but science and technology, electronic engineering, aerospace these, economic management of the best should be Stanford and Harvard.

Xiao Changkun asked curiously: "How do you know so well, I remember you only studied one year in college ah.

Ye Chen said casually, "If you've never eaten pork, you've never seen a pig run.

In fact, when Ye Chen was very young, he knew the universities in the United States like the back of his hand.

It wasn't that he wanted to go to America himself, but his mother had grown up in America and was a Stanford graduate.

Moreover, Stanford University is located next to Silicon Valley, the famous high-tech industrial base of the United States.

Many of the biggest Internet leaders in Silicon Valley studied at Stanford University and then graduated to start their own businesses in Silicon Valley.

Most of the first generation of Silicon Valley entrepreneurs who graduated from Stanford in the early 90s and worked in Silicon Valley were classmates of Ye Chen's mother back then.

When Ye Chen was young, he would often hear his mother talk about the characteristics of American universities, especially Stanford, and he often heard her talk about it.

Ye Chen remembers that when he was five or six years old and followed his mother to visit her family in the United States, she even took him on a tour of Stanford University.

#### Chapter 2598

At that time, he and his mother were accompanied by many familiar figures from Silicon Valley, but at that time, they were not well known, but now, any mention of any of them would be internationally known.

If it wasn't for his parents' accident, Ye Chen's life path would have been to study in the US first, and after his MBA at Stanford, he would have stayed in Silicon Valley to start his own business, or returned to China to help his father.

Unfortunately, the car accident when he was eight years old completely changed his life trajectory and prevented him from even finishing his undergraduate studies.

Thinking of this, Ye Chen could not help but feel a bit melancholy and emotional.

Xiao Changkun, who was unaware of this, saw Ye Chen's melancholy face and asked, "Ye Chen, what's wrong with you?"

The company's main business is to provide a wide range of products and services to the market.

Xiao Changkun froze for a moment, shook his head and said: "I didn't see that you were quite humorous.

Ye Chen smiled lightly and didn't say any more.

In the early hours of this night, Su Shoudao arrived at the Jinling Buckingham Palace.

Although the journey from the hotel lobby to the room was very smooth, Su Shoudao was still a bit dissatisfied.

The reason for his dissatisfaction was that his luxury suite, which was far away from the presidential suite reserved by Yohiko Ito, was not even on the same floor.

The Presidential Suite at Buckingham Palace is on the top floor of the entire hotel. The top floor is divided into two zones, East and West, with the East Zone being the Presidential Suite, and several rooms allotted to the Presidential Suite, and the West Zone, the Executive Zone.

Yohiko Ito and his entourage had chartered the entire East Zone, while the entire West Zone was isolated by Richard Chen, where Su Ruoli, Su Zhiyu and Du Haiqing, all lived.

Su Shoudao's men, who had no way to book a room on the top floor, really had no choice but to book a luxury suite for him.

This luxury suite was on the second top floor, which was the highest room that could be booked, and the closest to Ito Yohiko.

What Su Shoudao was unaware of was that his wife, and his two daughters, were living above him at the moment.

But he couldn't be bothered to think about the whereabouts of his wife and children right now, because he couldn't wait to take down the Ito family and thus further lay the foundation for his future succession to the Su family.

So, after he arrived at the room, he immediately held a conference call, pulling in all his men in Yanjing and Jinling, and said in a cold voice: "Listen up, I have two tasks for you now. The first task is that those of you in Yanjing must closely monitor the recent movements of the Ye family, to see if any Ye family members have left Yanjing or gone to Jinling recently, or whether any Ye family members have ever been to Jinling."

Su Shoudao felt that in order to find out whether Ito Yohiko had come to Jinling to discuss cooperation with the Ye family or not, the most important thing was to find out whether any Ye family members had come to Jinling to meet with Ito Yohiko.

After all, Ito Yohiko was the head of the entire Ito family, and even though he had started to let Ito Nanae take over the family business, his position in the family was still the highest.

If the Ye family really wanted to talk to him about cooperation, at least it would have to be the oldest, Ye Changkong, who would come over and meet with Ito Yohiko.

For such an important collaboration, even if the old man, Ye Zhongquan, came over personally, there was nothing wrong with that.

Immediately afterwards, he issued a second task: "People in Jinling must keep a close eye on Ito Yohiko, find out his activities in Jinling, including where he has been, who he has met and what he has talked to, and find out as much as possible!"

Chapter 2599

Early the next morning.

The earliest high speed train from Suhang slowly docked at Jinling Railway Station.

In the business cabin, an old man and a young grandfather and grandson came out, these two people are the American feng shui master Mai Chengxing, and his great-grandson Mike.

Mike got out of the car, while reaching out to help McShing, while asking: "Grandpa, this time we came to Jinling, did you divine a fortune in advance, calculate whether this time is good or bad

Mike knows his grandfather very well, he has been seeking stability for so many years, so has long developed a habit: as long as it is out of town, before going out will definitely divine a fortune to calculate the good and bad.

Mai Chengxing mused: "Today at three o'clock, I started a trigram, but this time the trigram chaos and disorder, good and bad just about half of each.

Each half of the fruit, full of surprise.

Mike heard this knot

He grew up with an ear for feng shui fortune has also studied, in fact, feng shui fortune, the most afraid to calculate the results of half of each, because this result is almost the same as no result, can not play any reference significance.

The reason why feng shui fortune is sought after is because it can calculate the focus of each thing in the future development of the situation.

Because of the world, the vast majority of things are not really half-good and half-bad, between good and bad, there must be a gap, only some gap is large, some gap is small.

For example, a businessman wants to invest in a property in the next year, a truly capable feng shui master will be in the field after the survey, for him to measure the project's degree of good and bad.

If you can figure out that the feng shui is lucky, the success rate is higher, so that the boss can continue to move forward with confidence;

If you can calculate the feng shui deviation, the success rate is low, it can also let him act carefully, or even let him avoid a big hole.

However, people are looking for you to ask the good and bad, you can not tell him that the good and bad half of each, then people find you to do what is the point of it!

Therefore, the general divination divination out of the lucky half of this result, most of the strength is not, the level is limited.

Divination is equal to no divination.

However, he knew very well the skills of his grandfather, decades may not come out of such a result, so he hurriedly asked: "Grandpa, if it is really half of the good and bad, then does it mean that everything in Jinling is still unknown

The reason for the unknown is that you can't see through it, so now I feel more and more firmly that this place is not ordinary, there must be very good people living here

"For us, this time to Jinling, may not see the true face of Mount Lu, no success and return; may also get a great opportunity; there may also accidentally break a catastrophe

"As the saying goes, misfortune is the blessing, blessing is the misfortune, since we can not see through the trend behind, then we want to get a good result, we can only do our best to do their own

Mike nodded solemnly and said, "Don't worry, Grandpa, I will follow your orders."

"Yes." Mac Chengxing nodded his head slightly.

He still knew this great-grandson of his very well. Although he was born in the United States, he was brought up with a national education and was a low-key and humble person who never caused any trouble.

While talking, the grandfather and grandson had already left the train station, and Mike opened his mouth and asked: "Grandpa, where are we going at the first stop"

Mac Chengxing said firmly: "To Jinling University of Finance and Economics Wu Donghai's son was in an accident there, we start looking for clues from there.

In fact, he is not stingy, nor is he unable to afford two thousand dollars, but this feeling of others obviously slaughtering themselves makes him a bit unacceptable.

However, once he thought of what his grandfather had said, that he should argue less with people, he immediately came back to his senses and then willingly paid out the money.

The driver happily took the money, counted it carefully, and said: two of you please get in the car

Mike helped McChrystal into the car, he went around to the other side and sat up.

While driving towards the exit, the driver asked: "You two must be from abroad, right?"

Mike asked curiously: "How do you know

The driver laughed and said: "Who has nothing to bring thousands of dollars in cash out of the country, we are electronic payment, safe and save things.

Mike nodded and said: "This is true, the domestic electronic payment is really very good, much more advanced than abroad.

The driver proudly said: "Of course, a cashless society, look after we implement electronic payment, thieves are much less than before.

The first stop for the two of you is to go where".
