

Ye Chen 2601

Chapter 2601

Xiao Churan's words made Ye Chen's heart surge with a warm current.

Over the years, Xiao Churan had given him too much tolerance, even when he was accused by a thousand people in the previous years, Xiao Churan had never complained about him, let alone had the idea of divorcing him.

Now, when Xiao Churan said such words from her heart, it moved Ye Chen even more.

However, he knew very well that Xiao Churan did not know his identity, nor did he know his current wealth, nor the ocean shipping project he was planning.

He reckoned that Xiao Churan should think that she had started her business to be a small-scale studio and did not know that what she was going to do was a big project with tens of billions as the unit.

Ye Chen also did not want her to worry too much, so he said with a smile, "Okay, just listen to my wife, I don't want to start a business, focus on doing a good job at home!"

Xiao Churan then sighed with relief and smiled, "Fine, my career is taking off now anyway, I'll be responsible for supporting the family in the future."

Ye Chen said seriously, "But wife, you must not work too hard, this project of the Empire Group is too big, if you are too busy to do it, just do a little less and subcontract it out to other companies."

"That won't do." Xiao Churan said seriously, "Vice Chairman Wang Dongxue gave me such a big project, it's a trust in me, how can I let people down, I definitely have to do it well by myself with all my might on this project."

After saying that, she looked at the time and said, "I have to hurry up and go out, you lazy pig, if you still don't remember, just sleep a little longer."

Ye Chen sat up, stretched his back and said, "I'm not going to sleep either."

Xiao Churan nodded and said, "Then go wash up first, I'll change and go to the office."

Ye Chen was busy saying, "Don't forget to have dinner before you leave."

Xiao Churan waved her hand, "I won't eat at home, it's a waste of time, I'll order a meal later and have it delivered directly to the office, when I get there the meal will also have arrived."

Ye Chen sighed helplessly, "Alright then, take care of yourself, don't get tired."

Xiao Churan smiled, "Don't worry, I know."

Ye Chen remembered yesterday's incident of "spiking" Han Meiqing's millet porridge, and suddenly had a bright idea and said, "Right, wife, Dr. Shi has prepared a prescription to relieve fatigue, why don't I go back and prescribe some for you to take?"

Xiao Churan's expression was a bit worried and she said daintily, "Is it Chinese medicine? I am most afraid of drinking Chinese medicine, it is really bitter to death, can you not drink it"

Ye Chen was busy saying, "Don't worry, it's not a soup, it's a honey pill made into small pellets, like the Wuji Baifeng Pill kind."

Xiao Churan breathed a sigh of relief and said with a smile, "That's good as long as it's not boiled into a soup pill."

Ye Chen nodded, "Then I'll go to Dr. Shi's Jishi Hall later and prescribe some for you, then you won't be so tired if you take a little every day."

"Okay." Xiao Churan smiled sweetly, "Thank you, husband, I'll leave now!"

Xiao Churan hurriedly drove away from home, and after Ye Chen briefly washed up, he took out his mobile phone and called Wang Dongxue.

No matter if Wang Dongxue was allowed to do the ocean shipping business or not, he needed Wang Dongxue to give him some advice.

After all, Wang Dongxue was a management professional and had more experience in this area than Ye Chen.

When the call came through, Wang Dongxue's voice came through, "Young master, why are you calling me so early?"

Ye Chen asked her, "Dongxue, are you still in Hong Kong?"

"Yes." Wang Dongxue said, "Things are wrapping up here in Hong Kong, it's almost over, if you have an urgent matter for me, Young Master, I can fly back at noon at the earliest."

Chapter 2602

Ye Chen said, "That's not necessary, I'm calling you because I have a matter I want to ask you for advice."

Wang Dongxue hurriedly said, "You are too polite, young master, if you have any questions, just tell me, I will do my best to answer them for you."

Ye Chen said, "I am interested in trying out the ocean shipping industry, it just so happens that the Ito family in Japan can provide quite a lot of resources and help, and I have more than enough money in my own hands, so I would like to find an opportunity to get this business off the ground."

"But the problem now is that I can't find a suitable person to take charge of this piece of project, and would like to ask if you have any good ideas, or if you can bring this piece of business up for the time being;"

"If you can, I will definitely not be stingy with the salary piece, and will definitely give you a satisfactory account."

After listening, Wang Dongxue said with immense seriousness, "Young master, if you need, I can do anything for you"

Speaking of this, Wang Dongxue hesitated for a moment and added: "But a big project like ocean shipping, doing it casually, the start-up capital would cost billions and billions of dollars, it is indeed a big matter"

"And although I'm doing quite well in the Empire Group, I'm mainly responsible for commercial real estate development projects, one is that I don't know much about the ocean shipping industry, and another is that I don't understand the rules of international trade either."

"In particular, I don't understand the import and export trade regulations and tax related policies of other countries overseas, if you let me run this project, I may need a long time to understand all these situations first, and then build up the team, in that case, the preliminary preparation work may take several years"

Hearing this, Ye Chen already understood Wang Dongxue's meaning in his heart, so he asked her, "Then you are more suggesting that I find someone with the right expertise?"

"Yes." Wang Dongxue explained, "An industry like ocean shipping has to buttress the mainstream trading countries around the world."

"The closer ones are Japan and Korea, followed by the oil producing countries in the Middle East as well as Australia, then Europe as well as North America;"

"And that's just me picking up on the highlights, the other second tier countries don't have much demand singularly, but the total combined is still huge;"

"If you want to get this business going, you first have to know the policies of these countries like the back of your hand, and you also have to have some local resources to be able to quickly interface with the local government as well as the ports."

"So it has to be operated by someone who is very professional to make it feasible."

Ye Chen asked her, "Then do you have any talents you can recommend?"

"This" Wang Dongxue thought for a moment and said, "To be honest, I really have a very ideal candidate, only I don't know if he is willing."

Ye Chen was busy saying, "What kind of person is it? If it's really suitable, I can go and talk to him."

Wang Dongxue said seriously, "My professor when I was studying in America, he resigned and came to Jinling some time ago and is teaching at Jinling University of Finance and Economics."

Ye Chen was startled and said offhandedly, "The person you are talking about, is his name He Yuanjiang?!"

Wang Dongxue exclaimed, "Young master, you know Professor He?!"

Ye Chen laughed, "I just met him last night, but I didn't have too much contact with him."

Wang Dongxue was busy saying, "That's great! Professor He is really very impressive!"

"He's a high achiever in Economics and Management himself, and before he went to teach at MIT, he worked in Silicon Valley and then on Wall Street, working for companies that were all big Fortune 500 companies, and in very high positions;"

"He had an impeccable work history of twenty years, and then because his family suffered a bit of a change, he resigned from Wall Street and went to teach at MIT."

Saying that, Wang Dongxue continued, "Young Master, from what I know about Professor He, there shouldn't be a second economic and management talent of his calibre to be found in China!"

"Moreover, he has served in those multinational conglomerates overseas for many years, flying around several continents all year round, he knows the policies of the world's major trading countries like the back of his hand, and has many local resources everywhere;"

"If we can convince him to join us, then this business of yours will definitely be able to start up in the fastest possible time and keep growing by leaps and bounds!"

Chapter 2603

Ye Chen really did not expect that He Yuanjiang, whom he had just met yesterday, was still a bully in the field of economic management. Baidu search: elitenovel.com

While he felt that he had stepped through iron shoes and found it without any effort, he not only pinched a sweat for his old husband.

He naturally knows that, well old man Xiao Changkun's feelings for Aunt Han are from the bottom of his heart,.

But in the end, the old father-in-law is a cowardly character, always deadened by Ma Lan's aura, thinking of renewing his relationship with Han Meiqing while not having the guts to divorce Ma Lan, and if things go on like this, it is simply impossible for him and Han Meiqing to come to fruition.

This is not the case with He Yuanjiang.

This man is not only highly educated and capable, but his appearance and even his habits are far superior to Xiao Changkun's. Moreover, he does not have the shackles and restraints of Ma Lan, so if he really launches a fierce attack on Han Meiqing, Xiao Changkun's chances of winning will definitely be drastically reduced.

The future of Xiao Changkun has always been in his own hands, and if he never dares to take a step forward, then he can't blame anyone else for passing by happiness.

Now, the most important thing is to find a way to have a good chat with He Yuanjiang and see if he can be taken into his own use.

Immediately afterwards, he sent a WeChat to Wang Dongxue, instructing, "Dongxue, please make an appointment with Professor He for me, and tell him that I really want to see him, and see when it's convenient for him."

Wang Dongxue quickly replied, "Young master, should I tell Professor He your real identity or should I tell him your current public identity"

Ye Chen considered for a moment and said, "Just tell him directly that your boss wants to meet him."

Wang Dongxue replied, "Okay young master, I know."

Ye Chen waited for about ten minutes, Wang Dongxue side back to the message: "Young master, Professor He side said he 9:30 to 10 o'clock this time period can, if you want to see him, can go directly to his office."

Good" Ye Chen smiled: "Then I will go there at 9:30 sharp"

Just as Ye Chen was preparing to go to Jinling University of Finance and Economics, Mai Chengxing and his great-grandson, Mike, had already arrived at the entrance of Jinling University of Finance and Economics by taxi.

The taxi driver said, "You two, this is the Jinling University of Finance and Economics, but taxis are not allowed inside, so if you need to go in, you can go in first, and I will wait here by the side."

Good.

McDonald smiled faintly and spoke

He said, "Mike, let's go in and have a look around."

Mike nodded and got out of the car first to open the door for the old man, then helped him out of the car.

Mike then said to the driver, "Master, leave a phone number so that you can contact him if anything happens."

The driver said, "Boss, don't bother, I'll wait for you here, you must enter and exit through this door anyway."

When Mike thought about it, he nodded and stepped into the gate of Jinling University of Finance and Economics together with his grandfather.

No sooner had he entered than he heard the sound of an engine revving at high speed behind him, and even heard the sound of tyres skidding as the car got off to a fast start.

He subconsciously turned his head and saw that the taxi he had paid \$2,000 for was already gone in a flash.

He was so angry that he yelled, "Hey, you bastard, stop!"

Mike Chengxing laughed, patted his shoulder and said in a serious voice: "It's a good omen to avoid disaster by breaking the bank, don't get so angry."

Chapter 2604

Mike some indignant said: "Grandpa, this guy is also too bad I gave him two thousand dollars, he only sent us here to run, just such a stretch of road, the normal taxi must not be fifty dollars, let him just run"

away, then he does not know how many people will be pitted in the future No, I have to call the police
Baidu search: elite novel network

Mc Chengxing nodded and said: "That guy is indeed very excessive, but you do not have to see eye to eye with him, and you remember, people in this life, the most valuable is time, the more successful people, the more valuable time, and the more failed people, the more time does not matter.

said, Mai Chengxing asked him again: that you now call the police, then we have to wait here for the police officers to come, or take the initiative to go to the police station, then also explain the whole story, but also recall the characteristics of the man and the license plate number, and after the police officers caught him, but also to find us again to identify, and make a statement, this back and forth at least half a day of our time. "

"Other than that, in the United States, a random person looking for me to read feng shui or divination, an hour will have to pay me \$50,000, but the two of us for two thousand dollars, to spend most of the day in this kind of person, it is not asking for trouble."

Mike could not help but say: "Grandpa Tai, I want to call the police to arrest him, not for two thousand dollars, just want to give this man a lesson, so that he knows that this society is to speak of honesty, the rule of law so as to be able to prevent him from continuing to do evil to the greatest extent.

The company's main goal is to make sure that the company's products and services are not too expensive:

Mai

Gram, since you are interested in the secret art of feng shui, and also hope to go deeper into this field, then you should keep one thing in mind."

Mike hurriedly asked: "Grandpa, you said, I need to remember which point

Mike Chengxing said seriously: "You have to remember, don't be nosy, remember the saying: each family clean up their own snow, don't care about others on the frost

Mike said, dumbfounded: "Grandpa, is not this a sarcastic remark?"

"Irony," said Mike Chengxing with a smile, "is the real wisdom of the old ancestors

"Sweeping the snow in front of your own door is natural and unjustifiable, no one can accuse you for sweeping the snow in front of your own home."

"But if you do bother about other people, then I ask you, who are you going to bother about

"If you kindly help your next-door neighbor, then your next-door neighbor will ask you why you don't care about him"

If you manage him too in a moment of weakness, then his next door will also feel that you shouldn't leave him out.

"In that case, then is it not the case that once it snows, you will have to clean the snow in front of the whole community and all the homes in order to

Mike was speechless for a moment.

Mc Chengxing continued: "We, who are in control of feng shui fortune, should not be overwhelmed with sympathy

Said, Mc Chengxing said: "Like my grandfather, he was the best at reading, if he walked in the streets of the capital, people coming and going, he could tell at a glance who would suffer a bloodbath in the near future, or even the death of his family;"

Sometimes, some people, if he pulls the other side to nudge a word, it can save his life."

However, he can not sympathy flooded one by one to manage, billions of people under the universal sky, you just start to manage, will instinctively feel as if they are responsible for anyone, then how can you manage

"It's like we go out to people to see feng shui, to the employer's home on the way, you may see dozens of hundreds of murderous houses, if we go one by one, can say over it and, even if you say, others appreciate your feelings?"

Chapter 2605

Mike is young and vigorous, and has a strong sense of justice in his bones, so he was instinctively a little unable to accept it when Mai Chengxing said this.

But when he really sank down to think about it, he felt that Grandpa Tai's words were indeed very reasonable.

The biggest difference between feng shui masters and ordinary people is that they are able to predict a person's future fortune through face reading, through feng shui, and through divination.

This is definitely an ability that can be described as counter-intuitive to ordinary people.

And the more people who master this skill, in fact, the more resolutely to eliminate the saintly heart, because once the opening of sympathy for others, you will drag yourself into the mire.

He finally figured out why those professional killers in domestic and foreign films and dramas must be paid to do things for people.

Even if he really sympathizes with the other party, really willing to risk his life to avenge the other party, but also to symbolically charge the other party a dollar, a penny.

This, is their professional ethics, unshakeable professional ethics.

As for the underlying reason, is the grandfather said so, they have only employers in their eyes, but also only for the employer's service, the death of others, and they have nothing to do.

The dollar, or a penny, is the key to distinguish between ordinary people and employers.

Without this dollar, or a penny, there are too many poor people under the sky, there are too many poor people who have been forced into a desperate situation, and who can help over

Thinking through this layer, he said to Mai Chengxing with a pious face: "Grandpa, I understand your words, I will certainly remember your teachings in the future"

Mai Chengxing nodded his head and said incomparably serious: "It's good that you understand this truth.

He said, he could not help but sigh: "The Mai family has been in the feng shui art for thousands of years, and has been ranked among the top five feng shui families, but since my father decided to move the family to the United States, your grandfather and your father were born in the United States, and were seriously corrupted by Western culture, so that they both have little in-depth study of the feng shui art, and simply do not have the potential to become masters. If you are not enlightened before I die, then our family will definitely disappear from the five feng shui families in the future!

Mike hurriedly said: "Grandpa, don't worry, I will do my best to preserve the reputation of the Mai family."

Mike Chengxing nodded slightly, sighed softly and said, "Hey, it's just, let's not talk about this first, let's take a good look around this school and see if there are any special gains."

Jinling University of Finance and Economics, is a relatively small university, the whole school teachers and students together is only 10,000, compared to the comprehensive university of 30,000 to 40,000 people, from the scale of the number. The number of people is indeed much worse.

However, despite the small number of people, but the area is really not small.

Moreover, although Jinling University of Finance and Economics is not as good as Jinling University in terms of overall ranking, its economic management discipline has always been ranked among the best in the country and is considered the most outstanding professional discipline.

Therefore, many rich people will send their children here, so that they can learn economic management, to be able to better take over the family industry in the future.

In fact, before Wu Qi's accident, I think his brother Wu Xin, Wu Donghai still likes him a little more.

Although Wu Xin is the eldest son, but belongs to the kind of all aspects are relatively general, nothing outstanding.

Originally Wu Donghai gave him high hopes, sent him to the United States to study, but who would have thought that after Wu Xin arrived in the United States, every day and the gang of Chinese rich generation mixed together, every day to drive sports cars, parties, drinking and picking up girls, all day drunk.

Later Wu Donghai came to understand that not every child sent abroad to study can be successful.

In fact, a large proportion of these children, after leaving the country without parental control is completely ruined.

Only a very few self-disciplined children are able to maintain themselves and improve in the tempting environment overseas.

Therefore, in order to let the gifted Wu Qi not to take a detour, he did not let Wu Qi take the old path of Wu Xin, but let him through his own efforts to participate in the college entrance examination, into the Jinling College of Finance and Economics.

Chapter 2606

Wu Qi this kid is also really smart, otherwise it is not possible to give the little girl brainwashing means of practicing the fire, only unfortunately, smart so that he eventually took a detour, was Ye Chen turned into a shit-swallowing beast.

Grandfather and grandson walked around the campus, Mike then opened his mouth and asked: "Grandfather Tai, do you think that the expert who gave Wu Donghai's son a psychological suggestion, is in this school

The first thing that I can't say for sure is that Wu Donghai's son was in this school when the accident happened.

After saying that, McDonald instructed: "Mike, you are young, wait a while between classes, find some students to inquire about Wu Qi, especially what he had contact with before the accident, must first find out

"Okay, Grandpa

At this moment, a BMW 530, passed slowly by the ancestors and grandchildren.

Sitting in the driver's seat was Ye Chen.

He had already asked Wang Dongxue to make an appointment with He Yuanjiang in advance, so he drove directly into the school. Once he heard that it was an appointment with Professor He, the security guard did not stop him, but also enthusiastically told Ye Chen the route.

At this time, Ye Chen happened to drive past the artificial lake of Jinling University of Finance and Economics.

This was also the second time Ye Chen came to Jinling University of Finance and Economics.

Last time, at the request of Qin Aoxue, he came to persuade her female classmate who wanted to commit suicide.

It was also that time that he learned that there were still trash in the university campus that specialized in brainwashing girls and making them hurt themselves and commit suicide.

So, he slightly gave Wu Qi to a little psychological implication, then let Wu Qi's life became a gray.

Ye Chen was feeling in his heart, his eyes were attracted by an old man and a young man walking on the roadside.

The young man is not very old, looking at the early twenties, but the old man beside him is full of white hair, looks like at least eighty, ninety years old.

Ye Chen felt that although the old man was very old, but it seems that the body and spirit are more robust, walking gait four and steady, and even a little relaxed.

And his side of the young man, it seems to be supporting, in fact, just to make a look, the old man does not need to be supported from the side.

What makes Ye Chen feel a little strange is that he feels that this old man, there is a familiar aura, this feeling, very much like the one he saw in the Ye Ling mountain Lai Qing Hua.

But Ye Chen did not think much about it, so he drove directly past the two.

What he cares more about now is the meeting with He Yuanjiang later on.

This was the first time that Ye Chen came out to meet with people in his capacity as the chairman of the Dihao Group.

Even when he first met Wang Dongxue, the identity he used was the young master of the Ye family, not the chairman of the Dihao Group.

Therefore, he was more or less worried in his heart.

If you can convince He Yuanjiang to cooperate with you, then everything is okay, but in case you can't convince him, then you are the chairman of the Empire Group's identity, is not the same as being exposed!

He Yuanjiang is not one of his own men, then he is an uncontrollable factor, once the secret is grasped by uncontrollable people, the possibility of spreading the word will be geometrically increased.

Whether He Yuanjiang would tell Han Meiqing, and whether Han Meiqing would tell his old man, this, Ye Chen also has no bottom in his heart.

However, the project at hand is of great importance, so he can only go all out to talk to He Yuanjiang and try to take this bull down!

Chapter 2607

Ye Chen drove his car to the administrative building of Jinling University of Finance and Economics, and according to the room number informed by the security guard, he arrived at the door of the office of the vice dean of the School of Economics and Management.

After a moment of hesitation, Ye Chen knocked on the door.

Three times later, He Yuanjiang's voice came from inside: "Please come in!"

Ye Chen pushed the door and saw He Yuanjiang, who was wearing a decent suit, sitting in front of his desk reading information with his glasses on.

A few seconds later, he put down the document in his hand, looked up at Ye Chen, and was a bit stunned.

Then, he asked in surprise: "Ye Chen, how did you get here?"

Seeing his surprised face, Ye Chen knew that he did not associate himself with the identity of the chairman of Dihao Group.

So, he smiled slightly and said seriously: "Hello Professor He, I asked Dong Xue, on my behalf, to make an appointment with you.

Ah He Yuanjiang stood up all of a sudden, shocked, said: "is the chairman of the Empire Group"

Ye Chen nodded his head and said frankly: "That's right Professor He, I am indeed the chairman of the Empire Group."

My He Yuanjiang could not help but marvel: "Yesterday when I ran with your Aunt Han, she also told me that you are a feng shui first this good, the identity of the group chairman seems to be a bit of a difference ah

Ye Chen laughed: "The so-called Mr. Feng Shui, but it is just a rumor among some friends in Jinling, I have studied a little feng shui, but the overall is still relatively business, not enough to hang."

He said, he also explained: "As for the identity of the chairman of the Empire Group, I also hope that Professor He can help me to keep it a secret, my identity even my wife and my parents-in-law do not know, so please do not tell others, especially Auntie Han.

He Yuanjiang couldn't help but ask: "I have one thing not quite clear, such a big identity, how on earth did you hide it from your wife and your in-laws did they know nothing about the whole process of you founding the Empire Group

Ye Chen explained: "Although the Empire Group is now mine, but not my founding, the Empire Group has been established for nearly 10 years, and I only took over last summer, as for the family side, mainly because of some personal reasons, it is not quite convenient to tell them.

He Yuanjiang was silent for a moment, nodded gently and said: "Okay, I promise you not to tell anyone else about this matter, but I'm not quite sure, what is the purpose of your search for me today

Ye Chen said seriously: "Recently, ocean shipping has been gaining momentum, I personally also want to invest in this business, but have been suffering from the lack of a suitable management-type personnel.

Saying that, Ye Chen looked at He Yuanjiang and continued: "Dongxue introduced you to me, saying that your ability is very strong and also very respected by her, so I just want to ask, Professor He if you are interested in cooperating with me."

After hearing this, He Yuanjiang gently shook his head and said sincerely, "Sorry Mr. Ye, from the day I went to teach at MIT, I have decided to give up social work."

Ye Chen did not expect that He Yuanjiang had directly rejected himself as soon as he came up, so he pursued: "Professor He, if it is a matter of money, in fact, everything is very good to negotiate, you only need to say a number, I can meet the must meet.

He Yuanjiang shook his head and said, "No, it's not a matter of money, it's my personal decision, I've been working in several Fortune 500 groups for 20 years, and I've been racking my brain for the past

20 years thinking about how to help companies make more profits, which makes me feel especially meaningless and pointless, that's why I decided to teach, to prove my own value."

Ye Chen asked incomprehensibly: "Helping companies earn more profits, why would it make you feel meaningless?"

He Yuanjiang smiled faintly and said seriously: "To be honest, I'm actually not a very money-loving person."

Chapter 2608

Said, He Yuanjiang said with some emotion: "In fact, after the money reaches a certain level, it is meaningless to me. My state of life, from the time I earned half a million dollars a year must have been fixed, until I can earn ten million dollars a year, my standard of living and state of life is the same as when I earn half a million dollars a year."

Although I am not considered rich, but I work so many years, but also have several tens of millions of dollars of savings, plus I did some stock investment, in the hands of a part of Apple shares as well as Tesla shares, all discounted, it may have to be like two to three hundred million dollars, although these money and Mr. Ye's empire group can not be compared, but I simply do not know where to spend."

"The house I live in now is not expensive, all the inputs are added up, converted into dollars is only about one million, expensive house I can not afford, just think that living up too much trouble, and there is no need for that."

"I drive a Tesla, which is the most common one, affordable and environmentally friendly, all the inputs add up to less than 60,000 U.S. dollars."

And my monthly expenses, but also only a few thousand dollars is completely enough, and this expense, just my current salary can all cover, as for the rest of that money, can only exist in the bank account, has completely lost circulation, earn more money, the future is also a handful of all donated to charity um, so for me, I feel like I might as well just be here dedicated to teaching."

Ye Chen asked in amazement: "Are you not prepared to leave a generous amount of money for your own children?"

He Yuanjiang laughed: "This I really have no idea, my daughter is about the same age as you, her state of life and I'm similar, will make money, but simply will not spend money, but also completely no incentive to spend money."

Engage.

Ye Chen heard this, can not help but feel a little difficult

He Yuanjiang obviously not interested in money, only want to teach and educate people, in this case, what he took to impress him, so that he is willing to do with himself

Ye Chen thought about it, but he did not think of a good way.

However, a black-and-white sketch on the wall of He Yuanjiang's office attracted his attention.

That sketch sketch, only the shape of a tree, does not look peculiar, and even the majority of people are difficult to distinguish the tree's species through the shape of the tree.

However, Ye Chen still looked at the painting and said with interest: "Professor He, this sketch sketch, did you draw it yourself?"

He Yuanjiang asked curiously: "How do you know I didn't put my name on it either."

Ah.

Ye Chen laughed: "Because I know this tree"

"Oh" He Yuanjiang hurriedly asked him: "Since you know this tree, can you tell me about it?"

Ye Chen nodded and smiled, "Professor He, the tree you drew is actually a redwood tree in California."

He Yuanjiang was slightly stunned, and then Ye Chen continued: "In fact, this sketch of yours should be taken out of the Stanford University emblem. If I remember correctly, the design in the middle of the Stanford University emblem is such a redwood tree."

He Yuanjiang asked with surprise, "Is Mr. Ye also a Stanford graduate?"

Chapter 2609

Ye Chen saw He Yuanjiang's excited face and hurriedly explained: "Sorry, Professor He, I am not a Stanford graduate."

He Yuanjiang asked, "Then how do you know that the redwood tree that I drew is the one in the Stanford University logo?"

Ye Chen didn't hide it, and said seriously: "My mother did go to Stanford when I was a child. She visited Stanford."

"So that's it." He Yuanjiang nodded slightly: "I think you are only twenty-seven this year. Your mother's age should be similar to mine."

Ye Chen nodded his head when I was born, my mother was twenty-six years old, I think this year is also fifty-four."

He Yuanjiang pondered for a moment and said: "Fifty-four years old, that is, one year younger than me, that is likely to be in the same class as me, or just before or after me, can I take the liberty of asking, what is your mother's name?"

Ye Chen hesitated for a moment, can not help but some sadness said: "My mother has died many years, or not to mention her name."

Ye Chen's words just fell, He Yuanjiang whole person has been dumbfounded

He looked at Ye Chen, so shocked that his voice was a little shaky, opened his mouth to ask: "Ye Chen your surname that your mother, is not the surname An"

Ye Chen also could not help but be stunned, exclaimed: "Professor know my mother"

He

He Yuanjiang suddenly became excited and said: "You are really Chengqi's child!

At first hearing the word "Chengqi", Ye Chen's eyes were filled with tears.

An Chengqi, is his mother's name.

This name, in his heart for many years, but for so many years, Ye Chen is almost the first time to hear someone mention.

An.

His mother's surname is An, is peace and prosperity

And the word Chengqi in the name was taken from Sima Qian's Historical Records. General Li's biography in a sentence: "Peach and plum do not say, under the grove.

The literal meaning is that peach and plum trees do not speak, but because they produce beautiful flowers and sweet fruits, people will spontaneously take the initiative to walk in front of them and tread a path underneath them.

Its true meaning is used as a metaphor for a person who is sincere enough to be self-disciplined and has a flawless character, so naturally he will touch others, attract others, and be loved and admired by people.

Because Ye Chen's mother, his grandfather's eldest daughter, is also the most favored one, the old man gave her high hopes, so she gave her An Chengqi, such a meaningful name.

He Yuanjiang immediately confirmed his suspicions when he saw Ye Chen with tears in his eyes. He came forward and held Ye Chen's hand, saying with red eyes: "Ye Chen, we met more than 20 years ago when you were still very young, your mother took you to Stanford, to Silicon Valley, my lover and I had been accompanying you, but there were many others accompanying us at that time, you may not remember much about me. You may not remember me.

As he said, he suddenly thought of something and excitedly said, "Do you still have an impression of my lover who even hugged you at the time?"

Ye Chen shook his head and said apologetically, "Sorry, Professor He, it's been too long, I really don't remember much."

Saying that, he asked: "Professor He, you and my mother were classmates."

It was He Yuanjiang who nodded and said with emotion: "We went to school together for several years, and we had a good relationship with each other, when I was pursuing my lover, it was your mother who delivered the love letter for me."

Ye Chen asked curiously: "Professor He, can you tell me about my mother I know nothing about her experience before she married my father."

Chapter 2610

He Yuanjiang sighs: "Your mother was a big celebrity at Stanford not only was she the best Chinese female student ever at Stanford, but she was also the president of the Chinese Alumni Association at Stanford, the initiator of the Stanford Internet Venture Fund, and many of the top high-tech companies now in Silicon Valley are taking your mother's money and doing it step by step. The...".

Speaking of this, He Yuanjiang could not help but sigh, with a bit of melancholy and regret said: "Your mother was really the entire Stanford and Silicon Valley reigning female powerhouse ah"

"Not only is beautiful, atmospheric, knowledgeable, and personal ability is very strong, the family's strength is also said to be rich

The key is, the family is so rich, but also can work so hard, and create a huge achievement, I have only seen your mother a life

All of our Chinese classmates, including those pretentious white classmates, paled in front of your mother.

Speaking of which, He Yuanjiang sighed: "Back then, Stanford circulated a saying that of all the entrepreneurial elites in Silicon Valley, at least one-third of the men were your mother's admirers, which sounds like an exaggeration, but at that time, your mother's great name, almost no one in Silicon Valley, no one knew, everyone respected her and admired her.

These things about his mother, in fact, Ye Chen are still the first time to hear.

When his mother was studying at Stanford and making investments in Silicon Valley, Ye Chen was not yet born.

And after Ye Chen was born, his mother gradually became his father's sage, so, in Ye Chen's memory, his mother was not an image of a business elite.

Moreover, Ye Chen knew very little about his mother before he was born, and his mother was low-key and never talked about this with herself.

Now when he heard what He Yuanjiang said, Ye Chen's heart suddenly became very interested and asked: "Professor He, do you still know anything about my mother?"

He Yuanjiang said seriously: "That is really too much for three days and three nights. I can't even finish it."

He Yuanjiang said this, he could not help but look gloomy down, lamented: "After your mother's accident in Jinling, dozens of people from our classmates chartered a plane overnight to rush back to Jinling to find you, I was among them, along with many of your mother's classmates at Stanford, although I was born and raised in Jinling, but I launched all the relationships I could launch in Jinling at that time, were unable to I was unable to find your whereabouts.

Later, we Stanford reunion of more than 300 people, and Silicon Valley venture capital field of your mother nearly 100 friends, together with the efforts to find your whereabouts around the world, a full decade, but without any results, you so many years in the end where to go!

Ye Chen did not expect, after the accident of his parents, his mother's classmates and friends, but also to find their own ten years.

He was moved, but also could not help but say with emotion: "Professor He, in fact, I have been in Jinling for so many years."

After saying that, Ye Chen explained to He Yuanjiang about Tang Sihai hiding himself in the orphanage.

He Yuanjiang couldn't help but sigh: "I really didn't expect that you would be in Jinling all this time."

Ye Chen asked him, "Professor He, do you know my father?"

He Yuanjiang shook his head and said, "When your father was in love with your mother, he never contacted us, we only know that your father is the young master of the Ye family in Yanjing, but more details are not very clear, when your parents held a wedding in Yanjing, my wife and I were going to come over to attend, but something happened in the United States, so we had to change our plans temporarily. ."

The last time, she took you to Stanford."
