

Ye Chen 2851

Chapter 2851

Hearing that Su Chengfeng had bluntly stated what was in her heart, Su Zhiyu could not help but sigh in her heart, "Talking to wise people is a relief, everyone is a master who can nod in a word, saving a lot of beating around the bush."

So she stopped hiding her true motives and said, "You are right, I do want to get some compensation for me and my mother, and I think we deserve it."

She added, "By the way, it's not just me and my mother, it's also my father's share! I heard that he had disappeared, just like my second uncle, and that he had disappeared because he was working for the Su family, so he deserved some compensation as well."

Su Chengfeng opened his mouth and asked her: "Zhiyu, don't you know anything about your father's disappearance? It was in Jinling that he disappeared, and I think that his disappearance has a very big connection with that benefactor of yours."

Su Zhiyu denied, "I don't know exactly how my father disappeared, I only know that he came to Jinling in order to help the Su family to negotiate with the Japanese for cooperation."

Su Chengfeng sighed and said, "Your father did go to Jinling to talk about cooperation, he was supposed to meet with Ito Yohiko of the Ito family, but even Ito Yohiko's..."

Before even meeting him face to face, he himself had already disappeared, and very closely, before he disappeared, he used his authority to transfer the family's \$100 million to an unknown overseas account, and I suspected that he might have been kidnapped by someone."

Said Su Chengfeng and asked: "Do you really not know about this matter? Did you not ask that benefactor, or did he not tell you at all?"

Su Zhiyu said blandly, "He didn't tell me, but I don't think he has any reason to target my dad, my dad has never offended him, and the danger my mum and I encountered this time has nothing to do with him."

When Su Chengfeng heard this, his face suddenly became ugly.

Zhiyu said that Shoudao had not offended that benefactor of hers because Shoudao had not been involved in the matter of her and her mother being in danger, so isn't that a direct point to me with the words?"

Does that mean that I offended her benefactor by planning the assassination of Du Haiqing? Is he still planning to come against me?"

Su Zhiyu's words carried a vague threatening meaning, causing Su Chengfeng to have a headache.

However, he did not dare to directly offend Su Zhiyu right now.

After all, he still fought

I would like to ease the relationship with Su Zhiyu first, and then try to find out who the benefactor really is.

If he could give Xuan Fengnian some clues and let him use metaphysical means to finish him off, then he could solve this problem once and for all in the future.

So, his tone was immediately full of compromise and he lamented, "Zhiyu, you are indeed right. I'm sorry for you and your mother. And it was for the sake of the Su family that your father met an untimely end, so I do have to make amends

I really have to make it up to you," said Su Chengfeng, "Zhiyu, whatever you want to make up for, just tell me, as long as I can do it, I will do it!

Originally, Su Zhiyu did not want to make any deal with Su Chengfeng.

She didn't care about money, and it wasn't that easy for her to forgive Su Chengfeng for what he had done, not even for the rest of her life.

However, ever since Ye Chen had asked her to become the head of the Su family in three years, she had shifted her thinking.

In the past, she had not argued, grabbed or stood out in the family, but now, she wanted a different approach.

So, she opened her mouth and asked Su Chengfeng: "The reason my father wants to meet with Ito Yohiko must be about the ocean shipping business, right?"

Chapter 2852

"Yes." Su Chengfeng said frankly: "Our ocean shipping business has now been stopped, and our superiors are dissatisfied with the Su family, so they have not let up for some time. Shy

Su Zhiyu spoke up at this time: "How about this, I want the Su family to transfer this piece of business to me,,in the future, all of the Su family's business in terms of ocean shipping will be at my disposal, and all the related resources will also be at my disposal.

"Moreover, I also require that the operations and finances, all of which will be my independent responsibility, and the shareholding will also be mine alone - no subordinate relationship with the Su family!"

Su Chengfeng did not expect that Su Zhiyu's appetite would be so big.

He thought to himself:

"This girl, Zhiyu, wants the entire ocean shipping business of the Su family?"

"The Su family's total assets in this business alone are over 300 billion! It accounts for at least 20% of the Su family's assets!"

"Wanting to take away so much in one breath, this girl's appetite is indeed not small!

Su Chengfeng is power-hungry, to him, he is ten thousand times more unwilling to let others take away from his own

The division of power in his own hands.

Therefore, at such an old age, he still has to firmly control the position of the head of the Su family, and he also controls every section of the Su family's business, as well as the overall financial power.

It is not that his seven children had never mentioned the idea of splitting up the family before, but each time they were firmly rejected by him.

Later on, the seven children came up with another argument, saying that it was fine not to divide the family, or at least to divide the business piece by piece and give different people full responsibility.

But Su Chengfeng still did not agree.

He was like an ancient emperor, not only did he disagree with the idea of dividing the world among his sons, but he also disagreed with the idea of his children becoming vassal kings who would be in charge of one side of the family.

In short, the Su family was his, and so no part of it could be split up.

Because of this, his first thought when he heard this request from Su Zhiyu was one of great anger.

If in the past, not to mention Su Zhiyu, even if any of his own sons and daughters dared to make such a big personal request to him, he would have slapped him across the face and driven him overseas directly.

But now, the various crises had forced him to consider Su Zhiyu's request carefully.

He thought to himself: "If I don't agree, if she holds a press conference tonight, my reputation will be forever tarnished;"

"And what if that benefactor of hers is bent on sticking up for her and then goes after me?"

"Until Xuan Fengnian gets rid of that benefactor of hers, I can only promise her first."

What's more, now that the Su family's ocean shipping business has basically come to a halt, even if I give it to her for the time being, she won't be able to make any waves or reap any benefits!"

"When I solve the threat behind her, I can naturally still easily get these businesses back again.

Thinking of this, Su Chengfeng gritted his teeth and spoke, "Good! Grandpa promises you! The Su family's ocean shipping business will be yours from now on. If it's convenient, you can come to Suhang to find grandpa, and grandpa will make all the relevant documents and contracts and hand them over to you personally!

Su Zhiyu said: 'Grandpa, to be honest, I still have a grudge against you, so I may not be able to face you for the time being, as for the contract, I will ask a lawyer to help me.

Su Chengfeng hesitated for only three seconds and said quickly: " No problem! In that case, I will have Su Anshun go to Suhang, and you can find a lawyer to match with him, and after the match is completed, the Su family's ocean shipping group will be yours!

Chapter 2853

Su Chengfeng's painful cut made Su Zhiyu on the other end of the phone breathe a sigh of relief in her heart.

The so-called launch, the so-called outcome justice, procedural justice, for the previous her, absolutely no water was allowed to be mixed with it.

But for her now, the main thing is to be able to achieve the result she wants, she can compromise and give in.

And the result she really wanted was the Su family's ocean shipping business.

Although this business was now in trouble because of what Su Chengfeng had done, Su Zhiyu was confident that she could bring this business back to life.

The ocean shipping business is highly profitable and has great potential, and is definitely the most promising sunrise industry at the moment.

Moreover, now that the Su family's business had been hit hard and could not be revived, the old man could still accept it if he asked him for it now.

However, if one were to ask him for those industries that were running smoothly and making high profits at the moment, he might not be able to agree.

So Su Zhiyu then said to Su Chengfeng: "Grandpa, since we have reached a consensus, then please arrange for Su Anshun to come over before dark

Let's make a trip, and try to get the contract signed before the launch.

Su Chengfeng didn't have second thoughts and immediately said, "I'll have Su Anshun take the helicopter over now, it'll take more than an hour to get there if it's quick!"

Home.

Su Zhiyu said: "Good, then I'll wait for Su Guan

Su Chengfeng hung up the phone, a face that had long since darkened to the extreme.

He couldn't help but mutter under his breath, "Zhiyu, Zhiyu, I wanted you to be able to know the joy of fish, but I didn't expect you to be the only one who didn't know enough! Grabbing a little hold of me, you want to bite off such a big piece of my flesh, this good granddaughter of yours, you really impress me!"

He gritted his teeth, picked up the landline phone on his desk, pressed the speed dial and said, "Anshun, come to my study!

Half a minute later, Su Anshun knocked on the door, pushed it in and asked respectfully, "Master, are you looking for me?"

Su Chengfeng ordered in a cold voice: "You take my legal director with you, then take all the shareholding information of our shipping company, the company's articles of association and the official seal and make an urgent trip to Jinling."

Su Anshun did not understand .

He asked, "Master, what do you want me and him to do in Jinling with this information?"

Su Chengfeng gritted his teeth and said, "I want you to go to Jinling and change the shipping company to Su Zhiyu, so that the shipping company will be hers alone."

What? ! Su Anshun's jaw dropped as he blurted out, "Master, you're not kidding, are you? ! Such a large shipping company, and you're just going to give it to her? !

Su Chengfeng asked in return, "What else? This girl, Zhiyu, has made a fortune now! My reputation is in her hands, and if she really asks me to turn myself in in front of the whole country, how can I settle the matter? I can't even think about turning over a new leaf in the future!"

Moreover, there was a mysterious expert behind this girl, and I wasn't sure now if I could finish him off before he turned on me or not!

Su Anshun was busy asking, "Master, that British Xuan Fengnian has arrived in Jinling, right? Has there been any progress on his end?"

"Not yet." Su Chengfeng said, "Jinling is not a big city, but it has a population of nearly ten million, it's hard to find someone out, so we should give him a - bit of time!"

Chapter 2854

Su Anshun said, "Master! In my opinion, why don't you call He Hongsheng yourself? This old man is now a four-star martial artist, if you can convince him to come and protect you, your safety will be better protected and you won't have to worry about that expert coming to trouble you!"

Su Chengfeng sighed: "He Hongsheng didn't leave a trace of leeway before, I think he's already determined to draw a line in the sand with us, the odds are it's useless to go beg him now."

The company's main business is to provide a wide range of services and services to the public.

Su Anshun had to nod his head and said respectfully, "Yes Master, I'll get ready to go now!"

Meanwhile.

Ye Chen had already received a call from He Yingxiu.

The He family had already selected ten family members with the highest strength, talent and loyalty this time, and were ready to depart for Jinling to report to him immediately.

According to He Yingxiu, Master He Hongsheng, who had just broken through the fourth meridian and become a four-star martial artist, was also one of the ten.

Ye Chen is interested in what people come from the He family, its

He didn't really feel anything, after all, he didn't really need the He family to sell their lives for him either.

However, hearing that the He family's old man was personally dressed for the battle did make Ye Chen feel the sincerity of the He family.

Since the He family was arriving tonight, Ye Chen deliberately came to Buckingham Palace and told Su Ruoli the news.

When Su Ruoli heard that both her mother and grandfather would be coming over, she was naturally extremely excited.

After hearing that Grandpa had broken through four meridians and become a four-star martial artist, she was even more excited to the point that her eyes were wet with tears.

She looked at Ye Chen and choked up as she said, "Breaking through four meridians and becoming a four-star martial artist is Grandpa's greatest wish in his life, and after he turned 60, he knew that he would definitely have no hope of breaking through in his life, so he had always treated this as his greatest regret in his life!

Speaking of this, she said with a face full of gratitude: "Sir Ye, all of this is thanks to the chance you gave, if it wasn't for your pills, Grandpa he definitely wouldn't have had such a chance, thank you!

Ye Chen smiled faintly: "You don't have to thank me for everything, the cooperation with your He family, although it is true that it is for your sake, but this cooperation is also equal, it is not a unilateral handout from me."

"Moreover, in the future I may have very...There are many places that need to use the He family's people, and as long as the He family can cooperate with me with one heart and one mind, I will definitely give the He family more opportunities to rise as well."

"This opportunity is not just money and pills, it might even include complete internal martial arts as well as other internal martial arts.

When Ye Chen said this, he gave a slight beating and opened his mouth to ask: "According to my observation, the internal martial arts that your He family cultivates should be a remnant scroll, I wonder if I'm wrong?"

Su Ruoli hastily said: "Duke Ye is really a godly man, he can even see this"

After saying that, she explained truthfully: "In fact, the internal martial art that has been passed down by the He family for hundreds of years was not created by the ancestors of the He family themselves, but was obtained by chance by the ancestors of the He family by coincidence."

In fact, when it was first obtained, it was a fragmented scroll, the content of which was missing most of its contents

"So when the He family was practising this internal martial art, there were many restrictions, and it could easily lead to internal disorders and life-threatening injuries."

"It was also because of this that the He family settled in the coldest place in the whole of China, because the colder it was, the less chance of internal force disorder would be one"

Ye Chen nodded his head.

In fact, the path of martial arts had long since declined much since its development in ancient times.

Chapter 2855

In fact, it was from the Song Dynasty until the end of the Ming Dynasty and the beginning of the Qing Dynasty that the development of martial arts was at its relative peak.

After all, in an era dominated by cold weapons, kung fu was of great use, not only to defend the country but also to earn a living, so back then, apart from the scholars, the rest of the population wanted to become martial arts masters.

However, in the Qing Dynasty, foreign powers opened the gates of the country with guns and cannons, and all of a sudden, countless martial arts practitioners discovered that the skills they had trained hard all their lives were no match for even a gun or a cannon in the hands of foreigners.

At the time, many patriotic martial artists had a heart to serve their country, but their strength was not worth mentioning in the face of hot weapons.

One of the most lamentable incidents was when thousands of Boxers besieged a few hundred foreigners in Dongjiaominxiang Alley, but after 56 days of attack, they failed to enter.

After that, a large number of martial arts practitioners went from being obsessed with martial arts to being the biggest opponents of it, because they saw the huge difference and realised that a lifetime of hard work was no match for a single bullet.

Since then, the country has been in constant war and internal and external troubles, while the speed of weapons development has increased, widening the gap between martial arts and weapons.

So, since the Qing Dynasty, martial arts has been on a downward spiral and has not really re-emerged until now.

Originally, there were millions or even tens of millions of people practising martial arts in China with a population of 200-300 million, but now, with over a billion people, there are no more than a few hundred thousand martial artists in total.

Many internal martial arts techniques have been gradually lost during this period of time, to the extent that many martial artists now do not have a complete internal martial art to practise, which is a great sadness for the decline of martial arts.

However, the enthusiasm of martial artists nowadays is no less than that of their forefathers back then.

Take the He family for example, in fact, the He family had always longed to be able to fill in the missing set of internal martial arts of their own family, but unfortunately, they had never found any relevant clues.

To Ye Chen, the internal martial art was nothing remarkable.

There were many internal martial arts techniques recorded in The Nine Xuan Heavenly Scriptures, and he did not even bother to practice these, as he had already completely exceeded the level of a martial artist, and such internal martial arts techniques were worthless to him.

However, if he were to take out just one of the internal martial arts from the Jiu Xuan Tian Jing, I am afraid that it would make all the martial arts families in the world grab for it

The head is broken.

Interestingly, nowadays, the only one among the nation's martial artists who had mastered a complete internal martial art was instead Qin Aoxue, a young peeper who had just entered the profession and had no discipline or sect.

The Four Elephant Palm that she was now quietly practising was the one complete internal martial art that Ye Chen had retrieved from the Jiu Xuan Tian Jing.

Thus, Ye Chen opened his mouth and said to Su Ruoli, "In the future, if the time is ripe, I can provide the He Family with a complete internal martial art, and at that time, it might be able to help the He Family go to the next level!

When Su Ruoli heard this, her entire body was shocked and equally excited.

She did not doubt that Ye Chen had a complete internal martial art, but she did not expect that Ye Chen would be willing to take it out and give it to the He Family.

Although Ye Chen had not said that he would give it immediately or definitely, Ye Chen had also said that he would give it when the time was right, which meant that as long as the time was right, Ye Chen was willing to take it out and give it to the He family.

Su Ruoli was very clear about how significant a complete internal martial art really was.

So when she heard this, she couldn't wait for the He family to become Ye's beloved and at the same time, to receive the internal martial arts from Ye as soon as possible.

Chapter 2856

While Ye Chen and Su Ruoli were chatting idly, he suddenly received a call from Tang Sihai on his mobile phone.

This made Ye Chen a little curious.

Generally speaking, Tang Sihai did not contact himself too often, but whenever he did, it was usually a very important matter.

So, he hurriedly picked up the phone and opened his mouth to ask, "Housekeeper Tang, you wouldn't be looking for me for something important, right?"

Tang Sihai smiled faintly and said, "Young master, there is nothing urgent that I am looking for you, it is just that there is a matter that may require you to come and make an idea."

Ye Chen then asked, "What is it?"

Tang Sihai said, "It's like this, Miss Su Zhiyu, the eldest Miss of the Su family, is going to broadcast the launch live on the whole internet tonight, and she has also contacted the short video platform you asked the Ye family to buy, hoping that we can also participate in the online broadcast of this launch, and also hoping that we can give certain recommended resources, so I want to ask you to make an idea and see if you agree to her. "

Ye Chen hadn't paid much attention to the news today, so he still didn't know about Su Zhiyu's upcoming launch until now.

When he suddenly heard Tang Sihai say this, he asked with great curiosity, "Why is Su Zhiyu suddenly going to have a launch party? And she's even making such a big show Did she reveal in advance what the conference would be about?"

Tang Sihai hurriedly explained, "It is said that the content of this conference is related to the experience of the two of them during this period of time, after all, the matter that the two of them were involved in a car accident and disappeared has been given great attention by the people of the country, and now that she has returned safely to the public eye, she should give an explanation to everyone."

When she said this, Tang Sihai gave a slight beating and said, "Moreover, I think that she must have a big trick up her sleeve by staging this launch, and maybe she wants to take advantage of this opportunity to take on his grandfather Su Chengfeng in front of the whole nation! That's why I'm calling to ask you if we should get involved in this matter?"

Ye Chen hesitated for a moment, his mind combined with Su Zhiyu's character, pondered this matter over, and spoke, "Housekeeper Tang, just go ahead and let our short video platform broadcast live to her."

Tang Sihai said, "Young master, if she really turns on Su Chengfeng at the launch event, it will be more or less embarrassing for us, after all, all of Yanjing knows that the short video platform is in the hands of our Ye family, so if we step in to help Su Zhiyu live at this time, it might be rejected by the circle."

High society had rules of high society.

Generally speaking, the upper class didn't like the underhanded act of making small moves behind the scenes.

In the past, many rich people manipulated their water forces by looking for people who were completely unrelated to them, and even if the whole world felt that they did it, there was no direct evidence that could prove it.

But the Ye family was different this time, the whole country knew that the short video platform was owned by the Ye family, if the Ye family deliberately disgusted the Su family on their own platform, it was bound to be somewhat less than honorable in the eyes of outsiders.

Ye Chen said with a smile at this time, "In my opinion, Su Zhiyu shouldn't be able to lash out at her grandfather at this launch, so you let the short video platform feel free to give her a live broadcast."

Tang Sihai was surprised and asked, "Young master, how are you so sure?"

Ye Chen laughed: "It would be a long story if I had to explain the reason, but you just have to trust me."

Tang Sihai said, "Okay, Young Master, then I'll tell the other side."

"Good." Ye Chen smiled and asked, "Butler Tang, is there anything else?"

Tang Sihai said, "There is nothing else."

Ye Chen then said, "Alright then, that's it for now, we'll be in touch if there's anything else."

Chapter 2857

After hanging up the phone, Su Ruoli, who was beside Ye Chen, hurriedly asked, "Mr. Ye, Sister Zhiyu, she's going to hold a launch party?!"

"Right." Ye Chen laughed, "Not only is she going to hold a launch party, but she's also going to have a live broadcast on the whole network, when the time comes, so many platforms will simulcast it, I estimate that at least tens of millions of people will watch it online."

Su Ruoli asked in disbelief, "Then why do you think she won't turn on Su Chengfeng? This is a good opportunity to make Su Chengfeng lose his reputation!"

Ye Chen smiled faintly, "It seems your sister is a little smarter than you."

Su Ruoli spat out her tongue in shame and pouted, "How can I compare to Sister Zhiyu, who has received an elite education since she was young and is a high achiever from a top university, compared to me, I only received 9 years of compulsory education and didn't even go to high school"

Ye Chen shook his head and laughed, "It doesn't have much to do with how much schooling you go to, the main thing is that Su Zhiyu clearly knows what she wants."

Su Ruoli asked curiously, "Mr. Ye, can you be specific?"

Ye Chen explained, "Everyone thinks that your sister's launch is the perfect opportunity to take on Su Chengfeng, and everyone thinks that if your sister seizes this opportunity, she will definitely be able to make Su Chengfeng lose his reputation and never be able to turn over a new leaf.

Su Ruoli was even more puzzled and looked at Ye Chen blankly as she said seriously, "At least you can take revenge! Isn't launching an attack on the enemy just revenge for yourself?"

Ye Chen looked at her, shook his head and said, "If Su Zhiyu does this, it will just pull some hatred for Su Chengfeng, it won't be any more effective, and it won't even cost Su Chengfeng a dime, there's no point."

Saying that, Ye Chen added: "This is different from when I exposed Su Chengfeng's conspiracy, before I exposed Su Chengfeng, Su Chengfeng's persona was very top notch and could be said to be an object of worship and admiration for countless people, after being exposed, it instantly brought him down to the altar and also caused the Su family to suffer a big blow."

"Including the suspension of his ocean shipping business was also a punishment given to him from above."

"However, Su Chengfeng has already been dropped this once, even if Su Zhiyu stood up and scolded Su Chengfeng today, he would only be throwing a pot of cold water on the fallen Su Chengfeng, it is impossible to make him fall hard again."

"Instead of throwing a basin of dispensable cold water, we should take this opportunity to ask Su Chengfeng for some favours."

Su Ruoli exclaimed, "Sir Ye, you're saying that sister wants to talk peace with Su Chengfeng?!"

Ye Chen waved his hand and said, "On the surface, it's a peace talk, but in reality, it's cutting Su Chengfeng's flesh with a dull knife."

After saying that, Ye Chen added, "This time Su Chengfeng is definitely going to be cut fiercely by Su Zhiyu, after this cut, the two of them seem to have reached some kind of reconciliation terms, but in reality, the love between them as grandparents and grandchildren is even completely exhausted, after the peace talks, they are enemies in the real sense."

Su Ruoli couldn't help but ask, "In that case, Sister Zhiyu will be in great danger in the future, right?"

Ye Chen shook his head and laughed: "No, Su Chengfeng wouldn't dare to provoke anyone to provoke her, don't forget, behind Su Zhiyu, there is still a me, Su Chengfeng would never dare to lay a hand on Su Zhiyu before he finds me and takes me out."

Saying that, Ye Chen added: "Your sister is really going to fight for the position of Su family head this time, this is a good thing, if she really becomes the Su family head in the future, the feud between the Su family and the Ye family over these decades can be drawn to a close!"

"Moreover, your future, and even the future of your mother and the entire He family, will also have a better home!"

"When that time comes, you can change your identity and assist your sister around her!"

"If she has the full support of you and the He family, her future is bound to be unlimited!"
