

## **Ye Chen 2921**

### **Chapter 2921**

Early sent Xiao Churan to the construction site of the Dihao Hotel and drove himself to the Dihao Group.

Wang Dongxue had been waiting here for a long time.

He Zhiqiu was the first to arrive at Dihao Group, and after identifying herself, she was immediately invited to Wang Dongxue's office.

Wang Dongxue did not know He Zhiqiu, but she knew that she was Ye Chen's right-hand man and was also the only daughter of Professor He from Jinling University of Finance and Economics.

Therefore, as soon as she saw He Zhiqiu, she showed full enthusiasm.

After all, both of them would be working for Ye Chen in the future, although they did not distinguish any subordinates from each other, and in the future, they would each be responsible for a stall of business, but Wang Dongxue still hoped to have a good relationship with her and strive to be Ye Chen's right-hand man together with her.

Although He Zhiqiu graduated from one of the world's top academic institutions, in the end she was still not too experienced in practical work, and when she saw a strong woman like Wang Dongxue, who had become the boss of a hundred billion market capitalisation enterprise step by step purely on her own strength, she also carried full respect, and she really did not expect that Wang Dongxue would be so young

Wang Dongxue was also surprised by He Zhiqiu's youthful beauty, and after inviting her into her office, she asked her with a smile, "When did you return to China, Miss He?"

He Zhiqiu said, "I have just returned a few days ago.

Wang Dongxue asked curiously, "Miss He has been in the United States before?"

"Yes." He Zhiqiu nodded and explained, "I was born and raised in the United States, so I have lived there for most of my life.

Wang Dongxue asked again, "So, do you feel comfortable in Jinling just now?"

It's quite good." He Zhiqiu smiled and said: 'Actually, I feel much better at home than in the US, one is that I have a greater sense of belonging, and another very important reason is that I feel very safe at home.

"That's true." Wang Dongxue sighed, "I have spent some time in the United States, and the security there is indeed much worse than in China. After ten o'clock at night, except for downtown areas, you simply dare not go anywhere else, and there are often armed robberies in the streets, which is especially dangerous for women."

He Zhiqiu nodded in agreement and said reluctantly: "The security problem in the United States has always been a persistent problem, when I was in the United States, I usually did not go out after 9pm.

Wang Dongxue said with a smile: "But in China you can feel at ease, you can go out at any time.

He Zhiqiu nodded and cautiously asked Wang Dongxue: "Wang Dong, .....

## Chapter 2922

---

This person, Mr. Ye, is he good to get along with at work?"

Wang Dongxue smiled faintly and spoke: This person, the young master, is still quite good to get along with in life, but at work, it's not good at all.

"Is that so?" He Zhiqiu was a bit nervous and hurriedly asked: "Then the reason he doesn't get along well is because he is too strict with his work?"

Wang Dongxue pursed her lips and smiled, saying, "No, on the contrary, the reason why the young master is not easy to get along with at work is because he is a complete handful at work, after dumping the work to the people below, basically he does not show up once in a few months, and does not give you the opportunity to get along with him at work. This is the reason why I said he is not good at work.

He Zhiqiu originally felt relieved, but once he heard the meaning of these words, he was a bit disappointed and thought to himself, "If I don't see Ye Chen for a few months, and Ye Chen doesn't care about my work, won't it be difficult for me to see him?"

As He Zhiqiu was thinking, there was a knock on the door and a woman said, "Mr. Ye is here, Mr. Wang Dongxue.

The person who spoke was Wang Dongxue's secretary.

Wang Dongxue's secretary did not know Ye Chen's real identity, she only knew that Ye Chen was Wang Dongxue's valued guest, and every time he came to Dihao Group, Wang Dongxue always attached great importance to him, so when Ye Chen arrived, she immediately brought him here personally.

As soon as she heard that Ye Chen had arrived, .....

Wang Dongxue hurriedly stood up, quickly walked to the door and opened the office door, looked at Ye Chen and said very respectfully: "Mr. Ye, you are here, please come in.

Ye Chen nodded slightly and stepped in.

Wang Dongxue hurriedly told his secretary: "From now on, I will not receive any visitors, all meetings and visits will be postponed, but if Miss Song from the Song family comes, bring her directly to my office.

The secretary immediately nodded: "Okay Wang Dong, I know."

Ye Chen entered the office at this time and saw that He Zhiqiu was standing somewhat restrained by the sofa in the meeting area, so he was a little surprised and asked, "Zhiqiu, why don't you sit down?"

He Zhiqiu said with a bit of a blush, "Mr. Ye, you sit first and then I will sit.

Ye Chen waved his hand: "There is no need to be so formal in front of me, just be natural, sit down.

Only then did He Zhiqiu nodded and carefully sat down again on the sofa.

Wang Dongxue also closed the door and came over, saying respectfully: "Young master, would you like something to drink?"

Just some plain water." He said.

Ye Chen casually said Wang Dongxue hurriedly poured Ye Chen a glass of water before sitting opposite Ye Chen and smiled: "Young master, before you came, I just talked to Miss He about you.

"Oh? Is that so?" Ye Chen smiled and asked, "What were you talking about me?"

### **Chapter 2923**

When she heard Ye Chen's question, He Zhiqiu was a bit bashful, she didn't want Ye Chen to know that she was just asking Wang Dongxue about whether he was a good person to get along with.

Wang Dongxue also belonged to the kind of woman with extremely high emotional intelligence, so she smiled slightly and then said to Ye Chen: "The two of us were just talking about our future work, after all, we are all going to be in your company here together in the future, so we can still exchange ideas on many things."

She said, she looked at He Zhiqiu, and said: 'Young master, Miss He has just returned to China, and is ready to accept a brand new business from scratch, so you must give her some guidance at that time, to help her get into shape early.

Ye Chen didn't think much of it, nodded gently and said seriously: "That's for sure, I personally attach a lot of importance to this business, so once this business starts, I will definitely put more - more energy into it.

He Zhiqiu's heart felt a little sweet again.

According to Ye Chen, there would be many opportunities to meet with him in the future.

Wang Dongxue then asked: "Young master, do you have any specific ideas about the ocean shipping business? For example, where should we start first?"

Ye Chen said, "I hope we can start our core business directly as soon as possible, and not put too much effort into familiarising ourselves with the industry as well as integrating resources, our first goal in starting this business now is to get our own cargo ships to set sail as soon as possible."

He Zhiqiu hurriedly spoke up, "Mr. Ye, this side .....

I have carefully considered the face, the preliminary preparations to do is to register an ocean shipping company as soon as possible, and then obtain the relevant operating qualifications and shipping permits, as long as these solutions, our ship theoretically can be reasonable and legal passage.

Said, she said: "But because we are all starting from scratch, now there is no ship in hand committed to port resources, so we have to do the preliminary preparations when the synchronization of some ship and port-related resources, the port is good, when I go to facilitate relations, but the ship piece, you

must pay attention to it as soon as possible, because now the major shipyards The orders are very large, whether it is container ships, or bulk carriers, crude oil or LNG liquefied natural gas vessels, from the order to the delivery of the ship, at least a year or more.

Ye Chen nodded and said: "In this regard, I intend to make two preparations, the first is to seize the time to place orders with major shipyards at home and abroad, so that they can start scheduling production for us; the second preparation is to dock the resources of some ship leasing companies and use the leasing method to build up a primary shipping fleet for us.

He Zhiqiu busy said: "I have already started to do preparations for this, the largest domestic ship leasing companies, I have begun to do in-depth understanding, and can touch with them at any time related to the leasing plan, I think the initial preparation of five cargo ships, the first five cargo ships as the basis, run through the world's major routes and port docking process.

Ye Chen agreed and said: "No problem, you can now start leasing this thing, in a .....

## **Chapter 2924**

---

It is imperative that the issue of the five cargo ships is resolved within a month, and we can then start the business as soon as the ships arrive.

He added: "In a few minutes, Wanting and Nana-chan will also come over, so we can talk to them about the transport business, and many of the Ito family's port resources can also be dovetailed with us.

"Great." He Zhiqiu was busy saying, "This way we have already negotiated business in advance before our company is even registered, and as soon as the qualification comes down and the ship is settled, we can start running the actual business immediately."

After saying that, He Zhiqiu asked, "By the way, Mr. Ye, I would like to take the liberty of asking you how much start-up capital you have actually prepared for this business of ocean shipping?"

He Zhiqiu was well aware of the basic logic of most businessmen.

As long as they were out in business, they almost all had a few common characteristics.

The first was that almost all of them would exaggerate their investment as well as their capital reserves.

A person who has invested 500,000 to open a shop, when people ask him about his design investment, he will definitely float a certain percentage upwards from that.

This is partly to save face, and partly to raise the threshold of entry into the business.

The second is that for almost all businessmen, their biggest dream is to make an empty-handed profit. For a businessman, an empty-handed profit is the pinnacle of business achievement because only an empty-handed profit can achieve an absolute net profit.

Therefore, she was not sure how much money Ye Chen could actually come up with to run this business.

At this time, Ye Chen thought for a moment and said, "In the first stage, I will first take out five billion dollars as the start-up capital, and later on, we may invest additional tens of billions of dollars, but it depends on how effective our first stage is.

He then asked He Zhiqiu, "In your opinion, is US\$5 billion enough for the first phase?"

He Zhiqiu did not hesitate to say, "Yes, definitely enough! In that case, I can expand the scale a little more on top of what was originally envisaged, we can place orders for ten new cargo ships from shipbuilding enterprises at once, so that next year then, our capacity will be greatly increased.

Ye Chen nodded and said, "I'll leave all this to you to decide."

At this time, there was another knock at the door and the voice of Wang Dongxue's secretary: "Wang Dongxue, Miss Song and Miss Ito are here.

Wang Dongxue hurriedly said, "Please come in.

Ye Chen said to her and He Zhiqiu at this time: "Wanting and .....

## **Chapter 2925**

Nana-chan doesn't know much about my situation in the Ye family yet, so she should pay attention later and never let anything slip.

The two of them nodded their heads in agreement.

At that moment, the door of the office was pushed open by the secretary, and the beautiful Song Wanting, together with Ito Nana-chan, who was as quiet as a virgin, walked in.

Seeing Ye Chen, Song Wanting said respectfully, "Master Ye!

Iten Nana-chan also said, unable to hide her excitement, "Ye Chen-kun!

He Zhiqiu was in awe as she saw the incomparably stunning beauty of the two.

She had truly never expected that Ye Chen would be surrounded by so many beautiful women.

Just one Wang Dongxue had already amazed her, but she had never expected that the two beauties at hand were no worse than Wang Dongxue.

Moreover, He Zhiqiu thought confidently that if she were to add herself, these four women could be described as the Four Heavenly Immortals.

She could not help but be amazed in her heart as to why so many beautiful women, to Ye Chen's .....

The titles were all different, for example, she called herself Mr. Ye Chen Ye, Wang Dongxue called him Young Master Ye Chen, while Song Wanting called him Master Ye Chen, and Ito Nanaeko called him Ye Chen Jun.

Somehow, she always felt that there was really an indefinable ambiguity in this title that Ito Nanaiko used for Ye Chen, which sounded much more intimate than Mr. Ye, Master Ye or Young Master, and so on.

At this moment, Ye Chen said to the two of them: " You two came just in time, I was talking to Zhiqiu and Dongxue about ocean shipping.

With that, he made a short introduction for them to each other.

After that, Ito Nana-chan spoke up, "Right Ye Chenjun, I received news that the Su family's ocean shipping group, has completed the change of shareholders, now all the shares are under the name of that Su family's Su Zhiyu, this group has a very large ocean shipping fleet in their hands, but they are still in a blocked state, the whole group cannot be revived, Ye Chenjun if you can find a breakthrough from Su Zhiyu, Ye Chenjun would be able to find a breakthrough from Su Zhiyu and get half the result.

## Chapter 2926

---

Ye Chen only knew that Su Zhiyu must have reached some kind of agreement with Su Chengfeng as she did not voice her accusations against him during the live broadcast of the conference.

However, he was also unclear as to what exactly Su Zhiyu had gotten in exchange from Su Chengfeng.

Now when he heard that Su Zhiyu had actually gotten the Su family's ocean shipping group, Ye Chen was surprised.

He really did not expect that Su Zhiyu, this girl, would be so powerful that she could bite off such a piece of meat from Su Chengfeng with a single opening of her mouth.

Or rather, it was no longer as simple as a piece of flesh under his foot, it was almost like cutting off one of Su Shunfeng's legs!

However, Ye Chen was also a little surprised and asked Nana-chan, "Now that this business of the Su family is completely blocked, is there any way that Su Zhiyu can bring this business to life?"

Ito Nana-chan was busy saying, "To be honest, I'm not really sure exactly what solution Su Zhiyu has, but I think there are only two ways to go, one is to move all the relevant business overseas, but this has extremely high requirements for their overseas resources, the Su family has never been able to do it before either, and I think it's unlikely that Su Zhiyu will be able to do it either. "

The best way in my opinion is to break up the entire Su family's ocean shipping group and turn it into a whole, and then scatter and integrate all these resources into the hands of other companies, which means that the Su family can avoid all the blockade on the Su family by taking a stake in the resources and retreating into the background. "

At this point, He Zhiqiu couldn't help but say, "Miss Ito's analysis is correct, but I think the second path will be more costly to the Su family, which is the same as if he originally ran a Wal-Mart by himself, but now all of his own shops can no longer be sold to the public, so they can only channel all of their goods to other supermarkets to seek cooperation with other supermarkets, such as Carrefour, RT-Mart and even Wing Fai Supermarket, so these competitors will definitely try their best to lower prices and frantically squeeze Su's profit margin."

Ye Chen nodded gently.

For the Su family as well as Su Zhiyu, the first path was not capable of going through, while the second path, going was good, but the sacrifice was indeed a bit more.

Ito Nanaeko hurriedly said at this time, "Ye Chenjun, I think you can contact Su Zhiyu, you have saved her life, perhaps she will agree to consolidate all the resources in her hands to you, that way you will save yourself the long preparation, starting and incubation stages."

When He Zhiqiu, Song Wanting and Wang Dongxue heard this, they all looked shocked, none of them had expected that Ye Chen would have saved Su Zhiyu's life.

## Chapter 2927

---

He Zhiqiu couldn't help but ask him, "Mr. Ye, you saved Su Zhiyu?"

Ye Chen nodded, stretched out two fingers and said blandly, "Saved twice."

"My God ....." He Zhiqiu exclaimed, thinking in her heart, "Ye Chen only saved me once, and I feel as if I have been completely captured by him, all I can think about is his Yingzi, that Su Zhiyu was even saved by him saved twice ....." In that case, I'm afraid Su Zhiyu's feelings for Ye Chen are much deeper than mine!"

Song Wanting spoke up at this time, "Master Ye, since you have saved Su Zhiyu twice, then you might as well talk to her about cooperation, after all, she can only put her resources out for others to cooperate for a win-win situation now, and cooperating with other enterprises is certainly not as suitable as cooperating with you."

Ye Chen was also a bit moved.

His own ocean shipping business had not really taken off yet, but the Su family's ocean shipping group had long since taken on a very large scale, so if he could integrate the resources over, this part of his business would certainly be able to start up quickly.

However, the only problem is that once Su Zhiyu cooperates with him, then his identity will definitely be exposed to the Su family.

Exposure at the Su family, Ye Chen was not worried about himself, after all, Su Shoudao and Su Shoude were in his hands, Xuan Fengnian was also taken out by himself, if the Su family wanted to deal with him, there was nothing at all to kill him, and he did not have to worry at all.

And what he was really worried about was Su Zhiyu.

Once she cooperated with himself, Su Chengfeng would definitely be furious and might turn his anger on Su Zhiyu at that time.

After all, the Su family and the Ye family had a long-standing feud and were each other's biggest rivals. If Su Zhiyu cooperated with himself, then in Su Chengfeng's eyes, it would be tantamount to betraying the Su family completely and joining the enemy's camp.

Although Ye Chen wanted to find a shortcut for his own business, this shortcut should not be based on putting Su Zhiyu in danger.

To put it bluntly, in that case, he would probably harm her.

So, he waved his hand and said to Song Wanting, who did not know the truth: "Although I know Su Zhiyu, my business has not yet taken off in any substantial way, so to seek her cooperation at this time would be tantamount to giving her a free hand. This is a bit of a moral kidnapping."

After hearing this, Song Wanting nodded gently with understanding.

She knew how Ye Chen was and would never use this as a bargaining chip to negotiate with the other party just because he had saved someone's life.

To let Ye Chen do such a thing was indeed not in line with his character.

However, Wang Dongxue knew Ye Chen's identity as the young master of the Ye family, and therefore guessed Ye Chen's true thoughts.

Thus, she said with some emotion, "I heard that Su Chengfeng, that family head of the Su family, is sinister and despicable, and for the sake of the so-called family honor, he can personally plan and kill his own daughter-in-law and granddaughter, that Su Zhiyu wants such a large piece of business from him this time, I think Su Chengfeng will never sit back and wait for death, it is possible that when the wind of this matter of Su Zhiyu passes, he will make a move on Su Zhi I think that Su Chengfeng will not sit still and wait for this to happen.

I don't think she can hold on to this, and she might even be affected by it. "

## **Chapter 2928**

---

Wang Dongxue's words caused Ye Chen to feel a little worried.

He knew that Wang Dongxue's words were true, and that the current Su Chengfeng was only constrained by Su Zhiyu, so he chose to sacrifice his leg to put things right.

However, as the storm over this matter gradually passes, Su Chengfeng, who has lost his leg to Ocean Shipping, will only suffer more and more, and it is more and more likely that this leg will grow back.

At that time, Su Zhiyu will definitely be in great danger.

If you look at it this way, cooperating with Su Zhiyu may not necessarily be harming her, but to some extent, it may still be protecting her.

Thinking of this, he said very seriously, "In this way, Zhiqiu's side will still move forward according to the original plan, after all, whether we cooperate with Su Zhiyu or not, we must first do a good job in registering the company, applying for permits and integrating resources, otherwise, even if we get Su Zhiyu's resources, we won't be able to use them."

"As for whether Su Zhiyu's side can cooperate or not, I will find the opportunity to talk to her!"

At this moment, Su Zhiyu is also worried about the next ocean shipping business.

Although this piece of cake is huge, it is currently in a state where it is held in the hand but cannot be eaten in the stomach.

After all, this whole business of the Su family was blocked, and there was no way to run these resources on her own for the time being.

She actually wanted to meet with Ye Chen, tell him about this matter, and then try to cooperate with him and revitalise these resources.

However, she was also worried that Ye Chen might feel disgusted with himself, and with the Su family; after all, her own father, and even her own family, had long been against the Ye family, and might even have been involved in the death of his parents.

So, she hadn't thought about her next step at the moment.

But the good news was that the Ocean Shipping Group had just changed to her name, so Su Zhiyu felt that she at least had some time to think about it in the long run.

At this very moment, Su Chengfeng had given an order to her brother, Su Zhifei, to find a way to probe her and find out how she planned to run the Su family's ocean shipping group.

What Su Chengfeng feared most was that Su Zhiyu would strike while the iron was hot and sell the entire Ocean Shipping Group's assets directly.

If that was the case, then he would really be powerless to turn back the clock.

After all, the group was now under Su Zhiyu's name, and all resources and property were at her disposal. If she broke up the group and sold it, no one would be qualified to stop her.

## **Chapter 2929**

---

And although the Su family was restricted from continuing this business, they were not restricted from selling their assets, so once Su Zhiyue had turned the Ocean Shipping Group into money and deposited it into her own account, even if Su Chengfeng had great ability, it would be impossible to get that money back and then redeem the entire Ocean Shipping Group that had been sold.

It was because Su Zhi Fei had received orders from the old man that he surrounded Su Zhiyu early in the morning, trying every possible way and corner to inquire about Su Zhiyu's next plans.

He even suggested that he could temporarily stop the few pieces of business he was holding and then do his best to help Su Zhiyu run the Ocean Shipping Group properly.

In his words, Su Zhiyu was his sister, and since this business had been brought to him, no matter whether it was a blessing or a curse, he, as a brother, had to step forward to help his sister bear the burden.

Grandpa and his family were very appreciative of Su Zhi Fei's attitude, thinking that he was going to stand behind his sister and support her regardless of everything.

Her own brother's deliberate intentions have made her deeply resentful and anxious.

Now she is afraid that she will not be able to protect the business she has managed to get back.

Therefore, there was an even greater urgency to see Ye Chen.

She wanted to have a chat with Ye Chen and ask him if he had any good advice.

However, she didn't know whether Ye Chen was willing to see her or not.

After thinking about it, she still plucked up the courage and asked Ye Chen on WeChat, "Your Grace, I wonder if you have time to meet with me?"

Although he did not know why Su Zhiyu wanted to meet with him, he felt that it should be related to the Ocean Shipping Group.

So Ye Chen replied, "How was your afternoon?"

Su Zhiyu said, "No problem! I wonder where it would be more convenient for Your Excellency to choose to meet?"

After thinking about it, Ye Chen said, "Let's go to Buckingham Palace, I'll give you a contact, you can contact Ito Yohiko of the Ito family and say that you are visiting him at Buckingham Palace, then you can go directly to his suite and I will meet you there."

Ye Chen felt that Su Zhiyu, who was now under the close surveillance of the Su family, must be under the close surveillance of the Su family, if he met with her outside, the odds were that he would not be able to hide from Su Chengfeng's eyes and ears.

Therefore, it would be better to let Su Zhiyu come directly to Buckingham Palace.

If it were not for the fact that Ito Yohiko happened to be staying at Buckingham Palace, Su Zhiyu's visit to Buckingham Palace, a Ye family property, would certainly have raised Su Chengfeng's alarm as well.

However, precisely because Ito Yohiko was here, it made perfect sense for Su Zhiyu to come to see Ito Yohiko, and Su Chengfeng would certainly not have been suspicious.

## **Chapter 2930**

---

After all, Su Zhiyu is now trying to find an outlet for her ocean shipping group, and it is only natural and logical to go to Ito Yohiko to talk about cooperation.

The more logical it is, the easier it is for Su Chengfeng to let his guard down.

The time soon arrived at noon.

The car that was struck by lightning at the Phoenix Hill Cemetery is still sparking many rumors in the community.

However, no one connected this matter with Xuan Fengnian.

Even Su Chengfeng simply did not know that Xuan Fengnian, on whom he had placed so much hope, would have been reduced to pieces by now.

However, by noon, the police did issue a missing person notice.

According to the car that was struck by lightning on Phoenix Hill yesterday, they found the registration information of the vehicle.

As the car was under the name of a car rental company, the police then followed the trail to find the information of the car's renter.

Thanks to the country's strong real-name measures, Xuan Fengnian was not able to hide his identity when he rented the car, and the document he provided to the rental company was his own British passport.

The car that was struck by lightning last night had been rented by a British man named Xuan Fengnian.

However, only the wreckage of the car was found at the scene, but there was no sign of Xuan Fengnian.

The car had been struck by lightning, and the man had to be found somehow.

So, the Jinling police spent the morning looking for clues about Xuan Fengnian.

The police searched the CCTV footage and found that Xuan Fengnian had indeed driven the car all the way out of Jinling City to Phoenix Mountain last night.

This clue made the police pay more attention to Xuan Fengnian's whereabouts.

After all, the line of events in this case was that Xuan Fengnian drove to Phoenix Mountain, followed by the car being struck by lightning and burnt to a hollow shell, and then Xuan Fengnian also disappeared.

They seriously doubted that Xuan Fengnian could have died as tragically and strangely as the previous security guard at the cemetery, so it was imperative that his whereabouts be found.

So, while the police organised a carpet search around Phoenix Hill, they also followed the usual procedure of handling the case and issued a search notice, releasing Xuan Fengnian's personal information and collecting valuable clues from the public.

This call for clues did not attract too much attention from the public.

After all, Xuan Fengnian was a completely unheard of person to the general public, and people were not concerned about his death.

However, the news soon came to the attention of the Su family's eyes.

At this moment, Su Chengfeng was having a secret talk with Elder He in his study.

He Lao, was currently the strongest expert in the Su Family.

He was also Su Chengfeng's last trump card.

If Elder He also broke, then basically Su Chengfeng would have no one to rely on.

This time, Elder He took the initiative to come over, just to talk to him about Xuan Fengnian.

He said to Su Chengfeng, "Master, are you planning to let Xuan Fengnian kill He Hongsheng after he has finished off that mysterious man?"

"That's right." Su Chengfeng had nothing to hide in front of Elder He and spoke, "He Hongsheng has now broken through to a four-star martial artist, if he can't be used for me, he will definitely be a big trouble in the future, I can't keep him as a hidden danger!"

He Lao clasped his fist and spoke, "Master, I have a request to make!"

Su Chengfeng nodded his head and said, "There is no need to be so polite."

He said seriously, "Since He Hongsheng was able to break through to a four-star martial artist, he must have some kind of chance, maybe he has even mastered some new internal martial arts technique."  
"
