

## **Ye Chen 2931**

### **Chapter 2931**

For He Lao, who was also a martial artist, he was incomparably enthralled deep down after hearing that He Hongsheng had become a four-star martial artist.

However, there were countless hardships and difficulties on the path of the martial arts, and it was simply impossible for an ordinary person to make any great achievements.

To become a two-star martial artist, one needed to be extremely gifted and supported by huge resources.

As for three-star martial artists, there are only a handful of them.

As for four-star martial artists, there was only one known person, He Hongsheng.

Therefore, Elder He knew very well in his heart that He Hongsheng must have met some great opportunity.

The greatest possibility was that he had found a better internal martial arts technique.

So, he was looking forward to this.

However, he also knew very well that even a fragmented internal martial art, not to mention a better internal martial art, was an untold secret of many families, and it was impossible for him to pry into it.

But right now there was a good opportunity, Master Su had found Xuan Fengnian, a master of compulsion. Although he himself was not strong, he had already played a hand of compulsion so well that it was completely invisible to kill.

It was precisely because of this that he asked Elder Su to ask Xuan Fengnian to find a way to force his cultivation method out of He Hongsheng's mouth.

Su Chengfeng, however, said with some concern at this time, "I don't know now, whether Xuan Fengnian's compulsion technique can kill a four-star martial artist or not, after all, the strength of a four-star martial artist is unfathomable, so it's possible that Xuan Fengnian is really no match."

He Lao hurriedly said, "Master, you don't know, in the eyes of our martial arts people, this kind of thing is like a submachine gun, it belongs to the kind that doesn't talk about martial virtue at all, even a strong martial arts expert can't withstand a bullet from a submachine gun at close range, Xuan Fengnian's compulsion, when really used, its power is no less than that of a submachine gun!"

### **Chapter 2932**

"Oh?" Su Chengfeng said with surprise, "According to you, Xuan Fengnian does have a chance to get He Hongsheng's cultivation method, so when the time comes, can my Su family also use this cultivation method to start a sect and directly create a martial arts sect?"

He Lao said excitedly, "Absolutely!"

Saying that, he continued excitedly, "Nowadays, martial dao families are all imprisoned by their bloodlines, and their own cultivation methods will never be passed on to outsiders, which limits the maximum size that a martial dao family can reach."

"Moreover, there are still many scattered martial daoists who are bent on obtaining a profound cultivation method to improve their strength, if the Su family obtains a better cultivation method, they can completely use it to attract disciples, I dare not guarantee more, but it is still very easy to take in a few thousand disciples."

Su Chengfeng nodded with a smile and said seriously, "At that time, this sect will be managed by you, Elder He, and at that time, all disciples will also be your disciples, as for me, there is only one requirement, and that is that this sect must serve my Su family for generations."

Upon hearing this, He Lao immediately took two steps back, knelt down on one knee and solemnly promised, "Don't worry, Master, I will serve the Su Family with all my heart and soul, and if I have the opportunity to start a sect on behalf of the Su Family in the future, I will definitely make the five words "serve the Su Family" the sole purpose of the entire sect!"

Su Chengfeng was very satisfied with his statement.

Spending a blood-loss price to hire half of the He family over this time had always made his heart very unhappy.

Therefore, he also longed to be able to have a force that was truly his own.

That way, not only would he be able to save greatly on costs, but he would also no longer have to be subject to the constraints of others.

## **Chapter 2933**

---

Thinking of this, he picked up the phone and said with a smile, "I'll call Xuan Fengnian now, if he can get He Hongsheng's cultivation method, then I'll add another fifty million to him."

After saying that, he immediately called Xuan Fengnian.

However, the prompt on the other end of the line was, "Sorry, the user you are calling is not in the service area, please dial again later!"

Su Chengfeng couldn't help but frown and spoke, "This Xuan Fengnian, he's too out of touch on a regular basis, in the past few days since he went to Jinling, he's said to be resting at the cemetery every day, making it impossible to get through on the phone."

He Lao echoed at the side, "Master, this kind of person is usually very withdrawn, moreover, Xuan Fengnian's native parasite, which is said to live by eating human brains, is very evil, so I guess it is possible that he can live a healthier life in that kind of environment in the cemetery."

As he was talking, his butler Su Anshun ran over with a panting face and said nervously, "Master, it's not good!"

Su Chengfeng couldn't help but ask after him, "What's wrong? Such a big fuss."

Su Anshun handed his mobile phone to Su Chengfeng and said, "Master, look at this missing person notice!"

Su Chengfeng glanced at it and saw that there was a picture of Xuan Fengnian and his name on the search notice.

Su Anshun hurriedly went forward to hold him up, and only after pinching him repeatedly did he recover slightly.

Su Chengfeng's voice trembled a little as he said, "Xuan Fengnian has disappeared too?!"

"Yes ....." Su Anshun said with an incomparably depressed expression, "The police found his rented car, which had been damaged by lightning, but he was nowhere to be found, and now the police are collecting clues everywhere!"

## **Chapter 2934**

---

He Lao, who was on the side, thudded in his heart and hurriedly came up to take a closer look, and his heart instantly went cold to the bottom.

"Just now I was hoping that Xuan Fengnian would be able to kill He Hongsheng and get his cultivation method, but before I could finish my dream, Xuan Fengnian disappeared in Jinling?"

Su Chengfeng was already a bit overwhelmed at this point, and he murmured in a despondent manner, "Jinling is not even a city ....." It's a black hole! Even Xuan Fengnian was able to bend into it, what exactly is hidden inside ....."

Su Anshun said with concern while helping him smooth his back, "Old master you don't get anxious and angry first, now Xuan Fengnian just can't be contacted, the exact situation, we don't know now, it's better to wait for more accurate news, what do you think?"

Su Chengfeng waved his hand and said with dismay, "There is no point in waiting any longer, we have been expecting a miracle since Shoude, but there are no clues so far, followed by Shoudao who also disappeared like a human being, and now it is Xuan Fengnian ....." The people I sent to Jinling are now the only ones left, Mai Chengxing!"

Su Anshun was busy saying, "Master, then why don't you call Mai Chengxing and ask him to help tell the fortune to see what is going on, he is an old man with little attack power and usually acts cautiously, he is unlikely to be in trouble with anyone."

"Right." Su Chengfeng immediately nodded and said, "Mai Chengxing has never wanted to get into trouble and wants to avoid all risks at all times, with his style of acting like this, he definitely won't encounter any danger."

With that, he continued to make a phone call to Mai Chengxing with a trembling hand.

But to his surprise, on the other end of the line, a system beep also rang out.

"Sorry, the number you have dialed is switched off, please dial again later ....."

## Chapter 2935

---

The moment I heard that the phone was turned off, Su Chengfeng almost collapsed to the ground in fear.

Xuan Fengnian kill innocent people everywhere, he disappeared just, who would have thought that Mc Chengxing, a 100-year-old man who never kills people, also disappeared.

He could not help but tremble: "Could ..... could that guy. Even a hundred-year-old man does not spare?!"

Su Anshun wiped a handful of cold sweat and blurted out, "Master, Xuan Fengnian's car was struck by lightning into that ghostly state, he himself certainly could not be spared, as for this Mai Chengxing, I think there are only two possibilities for him, either he died or he ran away."

"Ran away?" Su Chengfeng frowned and stared for a moment. Nodded and said, "This old guy can pinch, maybe he calculated that he would encounter danger, so it is possible to run away in advance ....."

Said, he sighed deeply, said: "Whether this old guy is dead or alive, according to my view is no longer possible for me to use. Xuan Fengnian is probably also finished, I have no cards available in my hand ....."

Su Anshun hurriedly asked, "Master, then what do we do next?"

Su Chengfeng shook his head and muttered, "I don't know ....."

.....

Meanwhile, Su Zhiyu arrived at Buckingham Palace on the pretext of paying a visit to Ito Yohiko.

Ito Yohiko's sister, Ito Emi, personally came to the hotel lobby to greet her, and then brought her to Ito Yohiko's room.

Only, at this time, Ito Yohiko, was enjoying a massage at the SPA center, and the one waiting to meet Su Zhiyu in his room was no other than Ye Chen.

Ito Emi pressed the doorbell outside the door. Only then did she push the door in and respectfully said to Ye Chen, "Mr. Ye, Miss Su is here."

Ye Chen nodded: "Thank you Ms. Ito."

Emi Ito said hurriedly, "You are very kind, Mr. Ye! If there is nothing, I will leave first, you and Miss Su can talk."

After saying that, she flashed back and withdrew, sending Su Zhiyu .....

Come in.

Su Zhiyu's heartbeat had been accelerating from the moment she followed Ito Emi into the guest room department.

Now, seeing Ye Chen sitting on the sofa, her heart rate had accelerated to the extreme.

She bowed to Ye Chen nervously and excitedly, and shouted under her breath, "En Gong ....."

Ye Chen smiled faintly, after inviting her to sit down on the sofa, he opened his mouth and asked her, "How do you feel these two days?"

Su Zhiyu said busily, "Pretty good, thank you for your concern ....."

Ye Chen nodded and asked her, "I heard that you got it from your grandfather. Have you brought Ocean Shipping Group over?"

"Yes." Su Zhiyu said, "You asked me to become the head of the Su family within three years, I don't know if I can do it, but finally, I have to take the first step first."

Ye Chen said approvingly, "You've made a good move. For you, it's already considered maximizing the benefits."

Su Zhiyu said with difficulty hiding her shyness, "Thank you for the praise of your benefactor ....."

## **Chapter 2936**

---

Ye Chen asked her: "Then what is your next plan? Su family's ocean shipping group is currently completely banned, if you don't find a way out quickly. This stall business might be smashed in your hands."

"Yes." Su Zhiyu spoke, "I had wanted to meet and chat with your Excellency, but I didn't expect you to contact me first, in fact, I was planning to sell the entire ocean shipping group directly to liquidate it, and then use the liquidated funds to do other businesses ....."

"But then I thought about it, if I sell the Su family's ocean shipping group, then my grandfather will definitely hate me to the bone, and the entire Su family will also see me as an enemy, in that case, I may not have a chance to become the Su family head in this life ....."

Ye Chen nodded his head. Said: "You're right, if you directly sell the entire Ocean Shipping Group, it's the same as taking a huge amount of compensation. Then break up with the Su family."

Su Zhiyu was busy asking, "Then does Your Grace have any good suggestions?"

Ye Chen opened his mouth and said, "I am preparing to start the ocean shipping business, at present I have enough funds in hand, what is lacking is ready-made resources, if you are interested, we can set up a joint venture company together, you bring all the resources of the Su family ocean shipping group into the stock."

Su Zhiyu was overjoyed and asked, "Is it a direct cooperation with you?"

"Yes." Ye Chen nodded his head. Said: "But I don't want to announce myself yet .....

My own identity, so this ocean shipping company, should be set up as a new company shell separately. And my own information will not appear in this company."

Knowing that Ye Chen had always kept a low profile, Su Zhiyu said, "Just one word from your Excellency, Zhiyu will immediately integrate all the resources that can be integrated and serve your Excellency wholeheartedly!"

Ye Chen said seriously: "I don't want you to cooperate with me because I saved you, since it's a partnership. It must take what you need, and never let the other party purely devote."

Saying that, Ye Chen added: "The terms of my cooperation are. I will invest ten billion dollars in cash and use all the resources I can integrate to make equity, while on your side, you will integrate the entire Su family's ocean shipping group and set up a new company with 51% for me and 49% for you, if you are sure you are willing to cooperate with me, then I will start making the next arrangements now."

Su Zhiyu said without hesitation, "I am willing!"

Ye Chen nodded and said seriously, "In that case, then I will also help you get more resources and initiative next."

Saying that, he picked up his phone. He gave a call to Chen Zekai and opened his mouth and said, "Old Chen, send Mai Chengxing's cell phone here."

Chen Zekai quickly rushed over with a phone that was turned off.

Ye Chen took the phone. Turned the power on directly and found Su Chengfeng's contact information, said to Su Zhiyu: "I'll call your grandfather now."

Su Zhiyu was surprised and asked, "En Gong. Why do you ..... you want to call him?"

Ye Chen laughed: "Hasn't he always wanted to find me, then I will do as he wishes."

So, just when Su Chengfeng was scratching his head over the situation in front of him, Ye Chen directly pressed the dial out button in front of Su Zhiyu and Chen Zekai.

Su Chengfeng, who was anxious, suddenly saw that Mai Chengxing had called him, and his heart burst with joy!

He subconsciously said, "I thought that Mai Chengxing should not be in trouble, he is such a shrewd person, as long as he smells a little danger, he will immediately run away!"

After saying that, he immediately picked up the phone and asked: "Uncle Mai, where the hell have you been? I searched for you all morning but did not find!"

Ye Chen snickered at the other end of the phone, mockingly said, "No need to look, he has been controlled by me."

Ye Chen's words made Su Chengfeng's heart thump, and his phone almost fell to the ground without holding it.

A moment later, he forced himself to calm down and asked tentatively, "Who the hell are you .....?!"

Ye Chen laughed: "Master Su, you have gone to so much trouble and sent so many people to Jinling to find my whereabouts, so I am really flattered, so I took the initiative to call over to say hello to you.

### **Chapter 2937**

4-4 minutes

---

Su Chengfeng originally thought that the Mai Chengxing may be insight into the danger in advance, so escape, but he never dreamed that the caller is the mysterious person that he has been looking for a long time!

It's one thing to try to find the other side and kill them, but it's another thing to suddenly be known by the other side, to be called by the other side.

At this moment, Su Chengfeng incomparably nervous question: "You ..... in the end have what intention?"

Ye Chen laughed: "What are my intentions? I have saved your own grandson and your own granddaughter, and also saved your daughter-in-law, definitely can be considered your Su family's benefactor, what bad intention can I have? It's just that I've heard a lot about Master Su, and I want to find an opportunity to have a drink with him and talk about it."

"You ....." Su Chengfeng's heart was panicking and he couldn't help but ask: "I've never met you, I have no enemies, what do you want before you will stop?"

Ye Chen laughed: "Elder Su, it is impossible to stop, I call here, not to talk peace with you, but to tell you that before today, it is you who has been taking the initiative to oppose me, deliberately ....."

Trying to get me out."

"But after today, the rules of the game have changed!"

"Now, it's my turn to find you!"

"I hope you hide well in Suhang and don't get found by me too easily, because then, the game would be meaningless."

After saying that, Ye Chen directly hung up the phone, and then he turned off Mai Chengxing's phone again.

Ye Chen had just turned off the phone when Su Zhiyu, who was on the side, was already shocked and unable to speak.

And Chen Zekai couldn't help but ask: "Young master, are you planning to take the initiative and go to Su Chengfeng to settle the score?"

"How could ....." Ye Chen laughed and said playfully, "If I go to settle accounts with Su Chengfeng now, won't it be a waste of time for his remaining sons and daughters and the Ye family?"

Said, Ye Chen added: "If I kill Su Chengfeng now, then I will not only not get any substantial benefits, but instead become the Su family those who are dreaming of waiting for the division of the family Su family, the Ye family can then also sit and reap the benefits, biased I have to everything to, I will not be stupid to do such a thing."

Chen Zekai some puzzled .....

Asked, "Then why did you just say so to Su Chengfeng?"

Ye Chen said with a smile, "Just scare him, this old dog day and night behind the manipulation of the puppet, the puppet out of order, he thought to cut the thread can shield the risk, this good thing from now on no longer exists."

Said, Ye Chen playfully smiled: "Do you believe it or not, the probability that this old guy is now scared dumb."

"I believe it!" Chen Zekai laughed: "Xuan Fengnian and Mai Chengxing have all disappeared, and you said you would take the initiative, he must be scared to death!"

Ye Chen laughed: "I called him because I wanted to knock him around and give him some pressure."

Chen Zekai nodded and laughed: "I guess he will flee Suhang with his tail between his legs today."

Ye Chen said blandly: "I think his biggest problem now, should not know where to escape, stay in the country, no matter where it is easy to be found, to go abroad to avoid the wind although safer, but he absolutely dare not go."

Richard Chen asked incomprehensibly, "Why?"

Ye Chen asked him rhetorically: "If you are the emperor in ancient times, you dare to leave your country

## **Chapter 2938**

4-6 minutes

---

Chen Zekai immediately figured out the meaning of Ye Chen's words and said with a sudden realization, "Young master, I understand what you mean, Su Chengfeng, the position of family head, there must be many people eyeing it, now in this situation, Su Chengfeng definitely does not dare to leave Huaxia."

"Right." Ye Chen nodded and said with a smile, "Su Chengfeng seems to have five sons, the oldest and the second are in my hands, there are still three left, these three, each must be looking forward to inherit the throne."

Said, Ye Chen said: "Originally, these three people may not have had such thoughts, but with the disappearance of the oldest and the second, must have made each of their hearts, there is an illusion that they also have the opportunity to inherit the throne, and this is not counting Su Chengfeng's grandchildren, those younger generation must also be looking forward to be able to take charge of the Su family. "

"Therefore, Su Chengfeng as a last resort, will never leave China, because once he left, it is likely that this life can not come back."

In ancient times, many members of the royal family were permanently exiled, and the reason for this is that the person in power does not want this person to come back to threaten his rule.

Even in modern times, foreign countries have also been some of the events of the usurpation of the dynasty, usually the president's first foot out of the country to visit, the domestic foot launched a coup d'état, while strictly guarded, never let the former president back home.

Thus, the former president could only go into exile.

So, the day Su Chengfeng left China, it was bound to be the beginning of his deposition!

Su Zhiyu had not spoken, and looked at Ye Chen from the side for a long time, before he opened his mouth and asked, "Your Grace, are you making this call to my grandfather to force him to come and beg for my help?"

"That's right." Ye Chen nodded and said with a smile, "Your grandfather must be particularly insecure now, he does not have powerful experts around to protect him, whether in Suhang or in Yanjing, or in other cities in the country, it is difficult to guarantee his safety, and he has been holding the Su family power is unwilling to let go, so more afraid to leave the country, the only option is to say peace. "

After a pause, Ye Chen shook his hand has been turned off the phone, laughing: "But I have just put the harsh words out, and this phone has been turned off, he wants to talk and, also simply can not find any of my contact information, the only way is to find you."

Said, Ye Chen said: "If he really look for you to make peace, then you will be quick to agree with him, but you must not say the words too dead, you just tell him that you will try, but you are not sure that you can persuade me."

Su Zhiyu hesitated for a moment and asked him, "Your Excellency, you are worried about our cooperation in ocean shipping .....

After losing, he will step in to obstruct?"

"That's right." Ye Chen said seriously: "Su family's ocean shipping business, under normal circumstances the market value of at least three to four hundred billion yuan, even if now facing difficulties, but the actual total amount of fixed assets is at least two hundred billion, your grandfather put such a large

piece of cake into your hands, he only wants you to take care of it for him, rather than directly pick up the knife and fork to eat. "

"Once you take the whole ocean shipping group to cooperate with me, this in his eyes, it is the same as the pup selling the master's field, absolutely touched his scales, he will then do his best to block, even at the expense of turning against you again."

Speaking here, Ye Chen turned his words and said with a smile, "But you can rest assured that after you promised him that you would intercede for him, you don't have to worry about him turning his back."

"Because I don't have time to bother with him for a while, calling him and threatening him that I'm going to find him is just a bluff."

"So he's still safe for a short time, at least I won't touch him."

"And he will definitely attribute this safety, all to you, and feel that it is entirely with your help."

"At that time, he sees you as his talisman, and how dare he obstruct you from taking out the Su family's ocean shipping group and engaging in restructuring with me

## **Chapter 2939**

---

Only then did Su Zhiyu understand that it turned out that Ye Chen had just called his grandfather with a threat, actually to make him scare of himself.

It had to be said that this action of Ye Chen's had touched her heart beyond measure.

She was originally worried that she wouldn't be able to hold such a large ocean shipping group, and that after the wind had passed, grandpa would try the same trick again and find a way to snatch back this big piece of cake.

However, with Ye Chen's call just now, she believed that for quite a long time to come, she no longer had to worry about any danger.

So, she stood up, bowed slightly towards Ye Chen and said respectfully, "Your Grace ..... Oh no, Mr. Ye ..... is really thankful to you... .."

Ye Chen gently waved his hand and said indifferently, "I am also helping myself by helping you, and the Ocean Shipping Group in your hands has very high assets, while my side is almost equal to an empty shell, although I will inject \$10 billion as promised, but the relative .....

Compared to that, I have more or less taken advantage of you."

Su Zhiyu hurriedly said, "It's not like that ..... this ocean shipping group, I can hardly revitalize it myself, at most, I can sell it at a low price, if I cooperate with you, Mr. Ye, this asset can not only be revitalized, but also has more space and possibilities for development, so we are considered mutually beneficial. "

Ye Chen smiled slightly: "You are right, to do business in partnership is to benefit each other."

Your grandfather has always wanted to get in touch with the Ito family, so let him think that you have already done so, this way, it will also make him recognize your ability. "

Su Zhiyu nodded and said gratefully, "Zhiyu understands, I will listen to your arrangements for everything!"

Ye Chen looked at the time, smiling, "I reckon it won't be long before your grandfather calls you, so you'll have to think of all the words to say later."

.....

Meanwhile.

Su Han Su family villa.

Su Chengfeng was by now frightened and pale.

Originally, what he had planned was for Xuan Fengnian and Mai Chengxing to find the mysterious man and then take him out while he was unprepared.

But even in his wildest dreams, he had never expected that these two people would now be cold, not to mention that they had betrayed themselves as the mastermind behind the scene.

How could he not be scared when the other side called and said they wanted to change the rules of the game?

Especially when the other party also accurately said that he was in Suhang.

It was very close to Suhang from Jinling, and it was possible that the other party would wipe his neck at night while he was sleeping.

Su Anshun, who was at the side, asked worriedly, "Master, what are your next plans?"

## **Chapter 2940**

---

Su Chengfeng could not hide his nervousness and said, "You just heard it, Xuan Fengnian and Mai Chengxing both folded in that kid's hands, this guy is really completely unmartial, even a hundred year old man won't let go, let alone me ....."

Said Su Chengfeng sighed and said with some six minds, "And this guy now knows I'm in Suhang, that's what's most dangerous ....."

Su Anshun hurriedly said, "Master, in my humble opinion, the most urgent thing for us now is to leave Suhang! Suhang is really too close to Jinling ..... In case he comes looking for us, it's only a three or four hour drive ....."

Su Chengfeng nodded his head and murmured with a sigh, "Ai! It's easy to leave Suhang, but where do we go after we leave?"

Su Anshun was busy saying, "Master, why don't we just go back to Yanjing!"

Su Chengfeng said somewhat sullenly, "Going back to Yanjing may not be really safe, after all, his strength is really inscrutable, he could kidnap Shoude silently under He Lao's nose before, God knows if he will do the same thing again and kidnap me too?"

Even if I escaped to the South China Sea, it would only be a three-hour flight for him to find me."

At this moment, He Lao, who had not spoken for a long time, said, "Master, why don't you go to the Maldives first to take shelter and relax for a few days in the meantime! Suhang hasn't really warmed up these days, the Maldives has suitable weather, and it's far away and a separate island, so we can also lay out the security work!"

Said He added: "The Maldives is an archipelago type country, the local government except for the capital city and a few large islands, the rest can be sold and rented, for this kind of rented islands, the local government, not to mention the national army, even the national police will not be sent over, basically let us do our own thing, there is more room for maneuvering. "

"If you are willing to go there, I can ask my brother to help me by hiring some mercenaries from the Middle East and the West. The American company Blackwater has a large number of highly trained mercenaries. "

Although the Su family has not been able to take their business all over the world, their own properties are located all over the world.

Basically all developed countries have Su family properties, so Su family members have a home everywhere they go.

As for holiday destinations like the Maldives, Phuket, Bali and Tahiti, there is even less to say.

The Su family has long since bought several islands in the Maldives, several of which have been developed into high-end luxury island hotels, while one island has been developed but not put into commercial use, instead being reserved for the Su family's own holiday needs.

At this time, the weather in Suhang is still a little cold and damp before the first month, but the Maldives, which is on the equator, is very comfortable even now and is indeed suitable for short to medium term holidays.

And, as He said, in an island nation like the Maldives, the government doesn't have the energy to control so many walks around the islands .....

The island is basically sold to whoever he wants, even if some local laws do not allow it, as long as a little money is paid, it can be accommodated, and there is a lot of room for maneuvering.

Therefore, once you go to Maldave, you can definitely build a very strong defense system in a short period of time. It is not an exaggeration to say that once you deploy high-end mercenaries from Blackwater in the way that He Lao said, the island's defense capability will be so strong that even the local army may not be able to fight in.

However, although He Lao had thought through the security very carefully, he had overlooked Su Chengfeng's character and his position in the family.

Unless the downfall of not leaving was certain death, he would never be willing to leave.

Leaving the country to escape the storm was Su Chengfeng's last resort, and he would only consider it as a last resort.

Because he knew very well that once he left China, the control of the Su family would be out of his hands, and even the whole Su family might be torn apart.

Moreover, if he left, he might never come back.

Even if that mysterious man no longer pursued him, his own children would never want him to come back once they had profited from it.

By then, he would have been attacked at his back!

Thinking of this, Su Chengfeng gritted his teeth and said to Su Anshun and He Lao, "I must not leave China until it is absolutely necessary!"

Su Anshun asked nervously, "Master, that guy is so strong, how are we going to deal with him next?"

Su Chengfeng pondered for a moment and said seriously, "Right now, only Zhiyu can save me!"
