

Ye Chen 3031

Chapter 3031

Ye Chen drove to Buckingham Palace and took the internal lift with Gu Qiuyi to the room her team had reserved.

Once inside, Gu Qiuyi took three or two steps to the sofa and got into a standard kurtosis, lamenting, "Oh my god, I'm really tired from getting up early to catch a flight."

Ye Chen laughed: "If you are tired, you can rest for a while, and then we can go eat after you have rested."

Gu Qiuyi asked, "Brother Ye Chen, where are you going to take me to eat?"

Ye Chen then said, "Whatever you want, if you don't mind, we can make do with the catering department at Buckingham Palace, if you don't mind, we can go to Hong Wu's Tian Xiang Fu."

Gu Qiuyi hurriedly waved her hand and said, "Oh, forget the Tian Xiang House, it's too tiring, it's too rich and tiring to eat, and I have to rehearse at the venue at one o'clock, so time is rather tight."

Saying that, Gu Qiuyi daintily asked, "Brother Ye Chen, why don't we have the catering department make some food and send it to the room, and you can accompany me to eat in the room."

Ye Chen nodded and said, "If you're too lazy to move, then I'll have Old Chen arrange for someone to bring some over."

Gu Qiuyi hurriedly said, "That would be perfect!"

Ye Chen called Chen Zekai and asked him to arrange for the catering department to make some of the best dishes and send them to Gu Qiuyi's room at around 11:30 a.m. Chen Zekai hurriedly went to the catering department to keep an eye on them, fearing that he would be late.

At 10.30am, the convoy prepared by Su Zhi Fei was already assembled in front of the venue, ready to go to the airport to meet Gu Qiuyi's arrival.

In order to get a full grasp of Gu Qiuyi's movements, Su Zhi Fei specifically asked someone to enquire about the status of Gu Qiuyi's private jet, such as whether it had already rolled out of the parking space, whether it had started lining up for departure, and what time it was expected to take off.

However, just as he was about to depart for the airport, he received a message from Yanjing, telling him that Gu Qiuyi's private jet had just cancelled its flight today.

Su Zhi Fei didn't react at once and called to ask: "You said Gu Qiuyi's plane had cancelled its flight plan? What happened? Is it because the weather in Yanjing is bad? Was there a thunderstorm or high winds?"

The answer was simple and concise: "There is a light breeze and no clouds."

Su Zhi Fei frowned and asked again, "Is it a traffic control?"

The answer was still simple and straightforward: "The traffic is normal."

"Then what's going on?!" Su Zhi Fei asked in disbelief, "Aren't there only two kinds of flight cancellations? Either the weather is bad, or the traffic is controlled!"

The other party said, "There is another possibility that the people themselves want to cancel. If the other party has some temporary change and can't fly, we can't let the plane finish the trip empty, right?"

Su Zhi Fei was annoyed for a while, then immediately hung up the phone, turned around and went back inside the venue, said to Chen Duoduo who was working, "Duoduo, what time is Miss Gu coming over today?"

Chen Duoduo said in mock surprise, "Qiu Yi's rehearsal starts at 1pm, didn't we tell you that already?"

Su Zhi Fei held back his anger and spoke, "What I asked was when she was flying over, I just heard that her plane had cancelled its flight today."

Chen Duoduo asked with a surprised look on her face, "Ah? Is that so? I didn't even hear about that, she didn't tell me either."

Su Zhi Fei asked her rhetorically, "You are her agent, don't you know when she will arrive in Jinling today?"

Chen Duo Duo nodded seriously and spoke, "You're right, Young Master Su, I really don't know exactly when she's arriving in Jinling today, she didn't ask me to arrange for a pick up, she only said she would be at the venue at one o'clock."

Chapter 3032

Su Zhi Fei raised his wrist, looked at the limited edition Richard Mille watch on his wrist and frowned, "It's already 11 o'clock, if we delay any longer, she definitely won't arrive at the venue on time."

Su Zhi Fei said, "I'll give Miss Gu a call."

Chen Duoduo then said, "Young Master Su, if there's nothing else, I'll go and get busy first."

"Okay." Su Zhi Fei nodded, took out his mobile phone, found Gu Qiuyi's number and dialed it.

However, a prompt came from the other end of the phone, "Sorry, the user you have dialed is switched off, please dial again later."

Seeing that Gu Qiuyi had turned off her phone, Su Zhi Fei was even more baffled.

He didn't know that Gu Qiuyi's phone had been switched on to Do Not Disturb mode. Under this mode, only the few calls that she had whitelisted could get through to her phone, and anyone else would be prompted to switch off their phone.

So, he hurriedly asked someone to check the information of the Jinling Airport, but he did not find any information about Gu Qiuyi's entry into the airport.

He instinctively thought that Gu Qiuyi had not yet arrived in Jinling, perhaps she had been delayed in Yanjing due to some accident, and would probably change to another plane to come to Jinling soon, so he hurriedly instructed his men to drive to Jinling airport to keep a lookout for her, and at the same time called his friends at the railway to ask them to help check whether Gu Qiuyi had purchased a high-speed train ticket within the railway system.

In his opinion, Gu Qiuyi could not have any other choice but to fly and take the high-speed train from Yanjing to Jinling, and as long as he seized these two channels, he could definitely wait for Gu Qiuyi.

As a result, what he never dreamed of was that he waited until almost twelve o'clock, but he still had no sign of Gu Qiuyi, and his friends at the airport and the railway had not made any progress either.

He felt that Gu Qiuyi was very serious about the show, which was to start tomorrow, and she had to finish the rehearsals today, so she should not be absent at this time.

However, he was a little anxious as he could not contact anyone and could not find any clues.

Seeing that the time was only two to three minutes before 12 o'clock, Su Zhi Fei thought about it and decided to give up his plan of picking up the plane and go back to the venue first, in case Gu Qiuyi quietly went to the venue for rehearsals on time and he was still waiting at the airport to pick her up, that would be really funny.

With this in mind, he hurriedly led his men to the Olympic Centre.

Just as his car was already driving into the gates of the Olympic Centre, Ye Chen drove Gu Qiuyi to the VIP lane at the back entrance of the Olympic Centre arena.

Chen Duo Duo had already arranged for the staff to seal the entrances and exits in advance so that fans would not mix in.

After Ye Chen parked the car, Gu Qiuyi said to Ye Chen, "Thank you, brother Ye Chen, for driving me here, I'll go first!"

Ye Chen asked Gu Qiuyi, "Nui Nui, do you want me to accompany you to the rehearsal?"

Gu Qiuyi hurriedly said, "No, no! My rehearsal is confidential to you, so I can't let you see it, otherwise there will be no surprise when the performance comes tomorrow.

Ye Chen had no choice but to nod and say, "Okay, then I'll leave first, call me if you need anything."

Gu Qiuyi said playfully, "Brother Ye Chen, don't forget to pick up my parents together tomorrow!"

"Okay!" Ye Chen agreed and spoke, "You hurry up and get busy, I'm leaving."

"Bye brother Ye Chen!"

At the same time, Su Zhi Fei also drove into the VIP lane.

As he himself was a partner of the organiser, he had been using the VIP lane these days, so the staff let him through directly when they saw his car.

Su Zhi Fei had just pulled into the VIP lane when he saw Gu Qiuyi walking down from an ordinary BMW 520 in front of him, and waved at the person in the cab with a happy face as she got down.

Su Zhi Fei could not see the driver's appearance from the back, but through the back glass, he could see the back of Ye Chen's head, who had a short inch haircut, and whoever looked at it from the back, could tell that it was male.

In this instant, Su Zhi Fei's heart burned with anger and he cursed through clenched teeth, "Damn it! I've been waiting for you all day, but I didn't think you'd let another man send you over! There's no information about you at the airport or the high-speed train, yet you've already arrived in Jinling, it seems that you're deliberately avoiding me!"

With that, he took a closer look at Ye Chen's license plate number, took out his mobile phone and made a call.

"Hey! Help me look up a license plate information! I want all the information of this car owner! It has to be fast!"

Chapter 3033

Su Zhi Fei was not considered a local snake in Jinling.

Therefore, although he was able to use a lot of connections, the reliability of such connections was not very high. Basically, his men had to go around several layers of connections before they could get hold of key people.

Normally, if he wanted to check the information of a certain person in Jinling, he would make a phone call to his men, who would then mobilise their contacts and look for local connections in Jinling, which was a little more troublesome but not too difficult.

However, what he did not know was that the BMW he wanted to check this time was registered in the name of Ye Chen's wife Xiao Churan.

As the spokesman of the Ye family in Jinling, and as Ye Chen's right-hand man, Chen Zekai had long since tied up the top and bottom, and all the personal information related to Ye Chen, as well as Ye Chen's wife Xiao Churan, his old husband Xiao Changkun and his mother-in-law Ma Lan, had very timely warning alerts.

If someone inquired about the four members of their family within the system, the moment he entered his name or car registration number and clicked on the enquiry, an early warning would be sent to Richard Chen in the first instance.

At the same time, no matter whether he is inquiring about Ye Chen's family's name, or their car license plate, address, or ID number, the system will immediately trigger the protection rules, first giving a feedback of "System information is under maintenance, please wait, Try again later" prompted the other party.

Therefore, when the key person found by Su Zhi Fei's men entered Xiao Churan's license plate number into the system, Richard Chen immediately received the message.

When that person found out that the system message was being maintained, he didn't think much of it and planned to wait for a few minutes before trying again.

And during the time he waited, Richard Chen immediately contacted the head of Jinling's traffic department and conducted a counter-check directly in the internal system, and in less than a minute, he counter-checked the person who searched for Xiao Churan's car number.

He had just received a commission from a friend a few minutes ago to help him check the registration number of a local car. The other party only said he wanted the registration information of the car, so he didn't think much of it and was ready to give the other party feedback after checking.

But what he didn't expect was that it took Richard Chan less than a minute to lock him in.

Afterwards, he was suddenly called to the leader's office.

How could he know that it was his own search just now that had caused the big trouble? On this side, he pushed the door in and asked with a flattering face, "Bureau Zhang, what are your orders for me?"

The person called Bureau Zhang immediately questioned him, "Did you just check the information of a BMW car in the system?"

"Uh, " the man nervously said, "No ah Zhang Bureau, is this some kind of misunderstanding?"

"Misunderstanding?" Zhang Bureau said in a cold voice: "Don't forget that there are behavioural statistics within the system, the login account that just queried that car was yours, and the IP address that sent the query request came from your workstation, how do you explain that?"

The man was startled, he usually had a good relationship with Bureau Zhang and was considered to be one of the other party's inner circle, by definition, he shouldn't have suddenly become so serious, he must have really gotten into trouble himself.

So, he hurriedly said in a low and flattering voice: "Zhang Bureau, we are doing the work of the traffic system, I check a license plate number, there is no problem of principle, right? Why are you so angry? Don't let me ruin your health again."

Zhang said in a stern voice: "Normally, I would just turn a blind eye to it, but this time you have stirred up a big mess! I can't save you either!"

The man asked nervously, "Zhang Zhang Bureau what the hell is going on here? Can you give me a rough idea? I'm panicking like crazy"

Zhang Bureau glared at him and said in a cold voice: "Because of your matter, the Buckingham Palace's General Manager Chen Zekai Chen has come to me, you know his origin, to make him come up so quickly, it must not be a small matter!"

Chapter 3034

The man exclaimed, "Chen Chen Zekai? Zhang Bureau, so what should I do now, I beg you to show me the way!"

Bureau Zhang spoke, "There is a way to make up for your mistakes, it depends on whether you cooperate or not."

The man hurriedly said, "Cooperate, I will cooperate!"

.....

After solving all the problems in the fastest time possible, Richard Chen immediately called Ye Chen, who had only just driven a short distance away from the Olympic Centre at that moment.

When he answered the phone, Richard Chen said to Ye Chen, "Young master, someone just looked up the information of your wife's car in the traffic data system."

Ye Chen frowned and asked, "What kind of person did that?"

Chen Zekai busily said, "It's a middle-level manager from the relevant department."

Saying that, he then gave Ye Chen a report of what had happened.

After listening, Ye Chen spoke, "Old Chen, you have done a good job in this matter, preventing problems before they occur."

"This is all my job."

Ye Chen asked again, "Have you checked back to see who actually tried to check my wife's license plate number?"

Richard Chen was busy saying, "Counter-checked information, it was an old classmate of the person in question in Yanjing, and the unit the other party worked for was a business under the Su family's name."

"The Su family?" Ye Chen suddenly realized something and said, "Then I reckon the person who wants to check up on me should be Su Zhi Fei of the Su family, I just drove Nui Nui to the performance venue, so I reckon he should have seen it."

I heard that he organized a luxury caravan to pick up Miss Gu from the airport today, but he was disappointed."

Although Jinling is not the Su family's territory, if the Su family wanted to, they could have found connections in Yanjing, and I guess it won't take long for him to find you! You must be on guard!"

"Well" Ye Chen said with a somewhat cold face, "Su Zhi Fei should not have seen my appearance yet, but since he came to the door himself, this matter will have to be initiated!"

After saying that, Ye Chen added: "Tomorrow night I'm going to attend Nui Nui's concert, if I don't make a move on Su Zhi Fei, I definitely won't be able to avoid meeting him at the concert venue then, so Why don't we just get rid of this trouble before the concert starts!"

Richard Chen hurriedly asked, "Young master, what is your plan?"

Ye Chen sneered and said, "This way, you first have that party feed Su Zhi Fei a false message, the specific information will be as I said"

After saying that, Ye Chen informed Chen Zekai of his plan, in detail, and told him to strictly follow the requirements.

Ye Chen knew very well that he had saved Su Zhiyu and Su Zhifei back in Japan, so if he really came face to face with Su Zhifei, he would definitely recognize him.

Therefore, instead of waiting for him to recognise himself at the concert tomorrow, he should take the initiative and finish him off.

Originally, I didn't want to lay hands on him, after all, everyone had the right to pursue the object of their desire, and I couldn't lay hands on him simply because he liked Gu Qiuyi, after all, he wasn't as arrogant and domineering as Zhong Tianyu was and got over himself.

But this time the situation was completely different.

This Su Zhi Fei had the audacity to dare to have someone check his wife's license plate number!

He had clearly crossed the line with this one act alone!

Since he had crossed the line, don't blame yourself for not being polite!

Chapter 3035

Due to his extremely bad mood, Su Zhi Fei sat in his Rolls Royce and did not get out of the car.

Even when the sound of Gu Qiuyi's rehearsal song soon came from inside the venue, he still sat motionless in the car.

At this moment, he was in an extremely unhappy mood.

The reason for his displeasure was, on the one hand, Gu Qiuyi's intentional avoidance of him, and on the other hand, the BMW driver, whose identity he did not know.

Moreover, he could not understand why Gu Qiuyi would condescend to come to the venue in a cheap BMW car.

After all, a brand like BMW was simply untouched trash in Yanjing's second-generation circles.

For the top rich second generation like them, a premium bespoke version of a Rolls Royce was basically the standard for travel.

And a classy car like BMW was not even a fart in front of a premium customised Rolls-Royce.

Seeing that ten to twenty minutes had passed and his men still hadn't returned the information about the BMW, he couldn't help but be a little annoyed and was about to call and scold them when he suddenly received a call from his men.

Su Zhi Fei immediately picked up the phone and cursed, "I told you to check the f*cking license plate, where the f*ck did you go? Where the f*ck have you been? It's been so long and you still haven't replied!"

The person on the other end hurriedly said, "Young master, don't be angry, just now the person over there said that there was a problem with the system and it has just been taken care of.

Su Zhi Fei hurriedly asked, "What is the result? Who is the owner of that car?"

The other party replied, "Young master, the BMW you asked me to look into is a car registered to the Jinling Dihao Group."

"Dihao Group?" Su Zhi Fei couldn't help but frown.

He had been in Jinling for this period of time, and he did have some understanding of the situation in Jinling.

The largest local enterprise in Jinling was the Dihao Group, but the identity of the owner of this group was mysterious, and Su Zhi Fei did not know, who actually owned this enterprise.

Therefore, he was a bit surprised all of a sudden and asked offhandedly, "Is the information true?"

The other party replied, "Definitely true, he also told me that the vehicles registered under the name of the Empire Group, large and small, add up to more than five hundred units, this BMW is one of them, and there is also a small detail, the car you are talking about, is not a BMW 520, it is actually a BMW 760."

"No way!" Su Zhi Fei blurted out, "I saw with my own eyes that the tail tag of that car said 520! Was it a wrong check?"

"No." The other party seriously said, "I have repeatedly confirmed with the other side that the car registered with this number plate is indeed a BMW 760." As for your claim that the tail tag is 520, I guess it might have been tampered with."

The BMW 5 Series and the BMW 7 Series are actually very different, at a glance they seem to be similar, but on closer inspection there are many differences that people who don't know about them can't see, just like the Mercedes E Class and the Mercedes S Class, people who don't know about cars basically can't tell the difference. If there is a mistake, then I will immediately ask that person again."

Su Zhi Fei naturally didn't want anything to go wrong, so he immediately said, "I'll take a look at the video of the car recorder, and you can find me a detailed picture of the rear of the BMW 760 and 520 and send it to my WeChat, so I can confirm it first."

"OK!"

Chapter 3036

Su Zhi Fei hurriedly opened the video of the Rolls Royce's built-in car recorder and found the clip he had just taken. After playing it back, he could clearly see that the rear of the car was indeed affixed to a BMW 520.

The reason why he wanted to find out whether it was a 520 or a 760 was mainly because he wanted to use it to determine whether this car was an Imperial Group car or not.

If, as his men said, the car was a BMW 760, then all the clues matched up and it would be certain that the car belonged to the Empire Group.

But if the car was not a 760, but just an ordinary 520, then that would prove that the information his men had fed back was incorrect.

In that case, either there was something wrong with his men, or there was something wrong with this BMW 520, or it could be a stolen car.

Just then, Su Zhi Fei received a few official detail pictures about the BMW 520 and BMW 760 from his men.

Su Zhi Fei could tell at a glance that the official BMW detail picture about the 760 was exactly the same as the car he had just photographed.

This also meant that the car just now, was indeed a BMW 760 with a changed tail mark.

At the same time, it also meant that that car was indeed from the Dihao Group.

Su Zhi Fei frowned and called over to ask after him, "Do you know who the boss behind the Jinling Dihao Group is?"

"Not really." The other party replied, "The legal representative of the Dihao Group is called Wang Dongxue, who is the vice chairman of the Dihao Group, but the shares of the Dihao Group are not under her name."

Saying that, the other party further introduced, "Although this company is registered in Jinling, the shareholding structure model of the Dihao Group in Jinling is the same as that of the domestic internet giant companies, and there is an offshore parent company in the upper structure."

"What's even more fucked up is that this offshore parent company of it is an offshore company registered in the Cayman Islands, and this offshore company has 100% control of the Jinling Dihao Group, so one has to find out who exactly the owner of the offshore company is to know who the real owner of the Dihao Group is."

"So much trouble" Su Zhi Fei pursued, "Can you find out the information of the shareholders of this offshore company outside the country?"

"I can't find out." The other party said truthfully, "The Cayman Islands has long enacted judicial regulations to provide comprehensive privacy protection for all enterprises registered in the Cayman Islands, and the information related to directors and shareholders is completely confidential, which is exactly the same as the strategy of Swiss banks, so we can't find out any information either."

"Fuck!" Su Zhi Fei cursed unhappily, "I don't believe that no one knows whether the owner of this huge company in Jinling is a man or a woman, or how old he is?"

The other party immediately said, "The person who gave me the information told me that this boss of theirs is very powerful, young, rich and handsome, and also said that the rumours are that he is the mysterious tycoon who became very famous in Jinling last year!"

"What mysterious tycoon?" When Su Zhi Fei heard the other party say that the owner of Dihao Group was young, rich and handsome, he was immediately a bit offended and questioned in a cold voice, "Is this mysterious tycoon very famous?"

The other party replied, "According to my source, he is quite famous. He once used tens of millions of cash to bash a salesman who despised him at an emerald shop, and the rumors were all over Jinling at that time."

Su Zhi Fei was a little annoyed in his heart.

He felt that if he followed what his men had said, this owner of the Dihao Group was really a strong competitor.

Combined with the fact that Gu Qiuyi had deliberately bypassed himself and came to the scene with him, and even waved goodbye to him so intimately, it was possible that this guy had already won Gu Qiuyi's favour one step ahead of himself!

Thinking of this, he was so angry and anxious that he asked, "Do you have Wang Dongxue's personal information?"

"Yes!" The other party said, "Wang Dongxue's information is more transparent, she is a native of Jinling, all her past is well documented, she was a top student when she was in school, then she joined the previous Dihao Group, and within a short period of time, she helped the Dihao Group to grow and develop, she also rose to the position of vice chairman of the Dihao Group, until now, she is the top leader of the Dihao Group in the open. ."

Su Zhi Fei nodded and said, "So it seems that if we want to know who the boss of the Dihao Group is, we have to find this Wang Dongxue and have a good chat."

Saying that, Su Zhi Fei immediately instructed, "You contact this Wang Dongxue for me, say that I want to take some time to visit her at the Dihao Group and talk to her about business cooperation."

Su Zhi Fei thought that as the eldest son and grandson of the Su family, if he announced his name to visit, who would not treat him as a guest of honour?

When he met that Wang Dongxue, he would try to find a way to get her boss's identity out of her.

If she didn't say anything, then he would throw out a cooperation offer as bait, and I believe that the owner of the Empire Group would be eager to meet with him after hearing the news that the Su family was going to cooperate with him.

After hearing this, his men hurriedly asked him, "Young master, when do you want to meet that Wang Dongxue?"

Su Zhi Fei said without hesitation, "Right now!"

Chapter 3037

Su Zhi Fei would never have dreamed that all the information he had inquired about through his men was actually a trap that Ye Chen had deliberately asked Chen Zekai to lay.

He deliberately revealed his identity as "Chairman of the Empire Group" to Su Zhi Fei in order to give him a sense of urgency, thus completely diverting his attention.

Otherwise, if Su Zhi Fei had been working on his wife's BMW, he would have gotten his wife's true identity very quickly.

So he deliberately had someone feed a fake message over to inform the other party that the car belonged to the Dihao Group, and at the same time, in order to strengthen Su Zhi Fei's trust, he deliberately exposed the details that the BMW was actually a BMW 760, in this way, he was naturally able to convince Su Zhi Fei.

Once Su Zhi Fei believed that the car belonged to the Dihao Group, Su Zhi Fei's attention was completely carried away by himself.

He then unleashed the possibility that the chairman of the Dihao Group was a handsome, young and brilliant young man, and was related to the godly rich man that was rumoured to be on the internet in the first place, then he would be even more convinced of it all.

As Ye Chen had expected, all of Su Zhi Fei's attention was now focused on the chairman of the Dihao Group.

While he asked someone to make an appointment with Wang Dongxue of the Dihao Group, he took out his mobile phone and searched for the man who was initially in Jinling, The short video of the God-ranked tycoon that was all the rage was indeed found by him, and he found the video of Ye Chen being filmed at Cui Ge Xuan back then.

However, it was a pity that the angle of that video was not good and the distance was far, so he could not see Ye Chen's appearance, but he could make out a clearer outline of Ye Chen's body, which was 1.85m tall and weighed less than 140kg.

Although he is already 5'5", which is an average height for a male, and even slightly taller than the popular national husband, he is still a bit dissatisfied because he is only considered rich and handsome in the three words "tall and handsome", and he must be at least 5'8" to be tall.

Therefore, when he saw that Ye Chen's height in the video was around 5'8", which was 10cm taller than his own, Su Zhi Fei was quite upset.

At this time, Su Zhi Fei's assistant ran out from the arena and knocked on Su Zhi Fei's car window.

Su Zhi Fei opened the central lock and the assistant hurriedly pulled open the door and sat on the passenger side, asking, "Young master, Miss Gu has already started rehearsals, don't you want to go in and take a look?"

"Not going!" Su Zhi Fei annoyingly waved his hand and said, "Hurry up and make an appointment for me with that Wang Dongxue, I'm going to meet her!"

"Good." The assistant nodded and said, "I've just asked someone to ask for Wang Dongxue's contact information, I guess I'll be able to give a reply in a while."

Just after he finished speaking, his phone immediately received a text message.

In the text message, there was a string of mobile phone numbers starting with 139.

The assistant busily said, "Young master, the phone number has been sent over, I'll call her now!"

Su Zhi Fei hummed absentmindedly, his eyes still staring at the phone screen, Ye Chen's figure in the short video.

Meanwhile, his assistant had already placed the call to Wang Dongxue's phone.

Without beating around the bush, this person directly introduced himself to Wang Dongxue on the phone and said, "Hello, Vice Director Wang of the Dihao Group, right? I am the assistant of Mr. Su Zhi Fei, the young master of the Yanjing Su family. Our young master wants to talk to the Dihao Group about cooperation, I wonder if Vice Dong Wang has time to meet with our young master?"

"What? The Yanjing Su family?" Wang Dongxue exclaimed in mock surprise, then she pretended to be flattered and said in a flattering tone, "Aiya! I never thought in my wildest dreams that Young Master Su would even look at our Dihao Group! What a privilege! I wonder when Young Master Su will be available? I'll come and pay a visit anytime!"

Chapter 3038

Su Zhi Fei, who was sitting next to him, as well as Su Zhi Fei's assistant, were both very satisfied with the excitement Wang Dong Xue was showing, and Su Zhi Fei's expression had slightly eased.

Su Zhi Fei's assistant spoke up at this point, "Our young master is in Jinling right now, so if it's okay with your side, Vice Director Wang, our young master can go over and meet with you right now."

"That's great!" Wang Dongxue's voice was very excited as she blurted out, "Then I'll immediately put off all my arrangements for the afternoon and wait here for Young Master Su!"

Su Zhi Fei's assistant gave a hint and asked tentatively, "By the way, our young master would like to meet the boss of your Dihao Group by the way, I wonder if he has time this afternoon?"

Wang Dongxue was busy saying, "I'm really sorry, our boss has always acted in a very low-key style, and is also a hands-off boss, basically he doesn't come to the company two or three times a year, and never attends any business activities, nor does he meet with any industry insiders, even I don't know where he is, so please forgive me, Young Master Su."

Su Zhi Fei's assistant was also very helpless when he heard this. But the good thing is that at least the young master can meet this Wang Dongxue first, so he said: "Since your boss is not in the company, then let's wait until we have the opportunity to talk about it, I will accompany our young master to your Dihao Group first, your side make a good greeting and security work in advance."

Wang Dongxue said without hesitation, "Don't worry, I'll arrange for the people under me to make preparations, when Young Master Su arrives, just take the special lift from the underground garage to the top floor!"

"Good." Su Zhi Fei's assistant then said, "In that case, we'll be there in twenty minutes."

After hanging up the phone, Su Zhi Fei's assistant said to Su Zhi Fei, "Young master, I will have the bodyguard prepare the vehicle, so you don't have to drive yourself."

Su Zhi Fei nodded, the reason why he drove himself was that he wanted to pick up Gu Qiuyi so that he could have a private space with her, but he never thought that his elaborate preparations would end up in vain, it really pissed him off just thinking about it!

Su Zhi Fei's bodyguards and men quickly organized the motorcade, Su Zhi Fei's assistant personally opened the car door for him and escorted him to the back of a Rolls-Royce, the convoy then immediately set off for the Dihao Group.

However, Su Zhi Fei never dreamed that at this moment, Ye Chen was already in Wang Dongxue's office, waiting for him to throw himself into the net.

Wang Dongxue, on the other hand, stood respectfully in front of Ye Chen and asked, "Young master, what should I do when that Su Zhifei arrives?"

Ye Chen smiled faintly and pointed to the back door of Wang Dongxue's office, saying, "When he comes, I will go to your lounge to rest for a while, you can talk to him for a while, I will come out when the time is right."

Wang Dongxue nodded and could not help but ask again, "Young master, what are you going to do with this Su Zhifei? He is the grandson of the Su family, and if you were to lay hands on him, the Su family would definitely not take kindly to it."

"Moreover, he disappeared from the Dihao Group, when the time comes, the Su Family will definitely try everything to find out everything about the Dihao Group, won't your identity be exposed by then?"

Ye Chen laughed: "It's alright, you don't have to worry about that, I have my own way!"

Twenty minutes later.

Su Zhi Fei's motorcade, drove into the underground garage of the Empire Group.

Wang Dongxue had already arranged in advance for her secretary and the head of the security department of the Empire Group to wait in the underground garage.

As soon as the motorcade arrived, they immediately greeted him respectfully and then led Su Zhi Fei and his entourage from the special lift in the underground garage to the top floor of the Imperial Mansion.

Su Zhi Fei enjoyed the feeling of the stars holding the moon. In his opinion, a hundred billion dollar company like the Empire Group should be treated with respect from top to bottom when facing himself, the young master of the Su family, just like this.

Wang Dongxue's female secretary led the way, saying as she walked, "Young Master Su, our Vice Director Wang is waiting for your presence in her office, but her office is not too big, so these members of your entourage will have a hard time and go to the adjacent meeting room to rest temporarily, I will have someone arrange tea for them.

Su Zhi Fei nodded gently.

He also did not want to bring a large group of people and go into the other party's office to talk about things.

Moreover, he did not feel that it would be dangerous for him to come to a group with a market value of a hundred billion dollars in a dignified manner So, he said to his assistant:" You guys go to the meeting room first and wait for me.

The assistant immediately nodded and said:" Okay Young Master!

Su Zhi Fei's assistant and bodyguard were introduced into the conference room, and Wang Dong Xue's female secretary then led Su Zhi Fei to Wang Dong Xue's office alone

After the secretary knocked on the door, Wang Dongxue personally opened the office door, and when she saw Su Zhifei, she said respectfully, "Hello young master Su, I am Wang Dongxue, the vice chairman of Dihao Group, welcome to our office and make our Dihao Group shine!

Su Zhi Fei didn't expect that Wang Dongxue of the Empire Group was such a beautiful and charming imperial beauty, seeing her in a professional suit with a knee-length skirt and her long, slightly curly wavy hair, he was a bit dumbfounded for a while.

Originally in his vision, this Wang Dongxue since she was able to pass Through her own efforts, she has made it step by step to the vice chairman of the Empire Group, then she must be at least thirty-five, or even forty years old.

After all, promotion in the workplace requires time and experience, and no one would believe that a woman less than thirty years old could become the second-in-command of a hundred billion dollar enterprise by strength.

It was because he had this fixed mindset in his mind that he felt stunning the moment he saw Wang Dongxue.

So, he also nodded his head very gentlemanly and said: "I didn't expect Wang Dongxue to be so young, so young to become the second in command of a company, I think Wang Dongxue's personal ability must be very remarkable.

Wang Dongxue smiled faintly and said modestly: "You are too flattering, Young Master Su.

After saying that, she hurriedly turned sideways and said: "Young Master Su, please come in!

Good!

Su Zhi Fei nodded his head and strided into Wang Dong Xue's office.

Wang Dongxue said to her secretary, "Go prepare the best tea for Young Master Su and bring it over.

Chapter 3040

The secretary hurriedly said, "Okay Vice Director Wang!

After the secretary left, Wang Dongxue then invited Su Zhifei into his office and invited him to sit down on the sofa, before asking politely, "I wonder what brings Young Master Su to our Dihao Group?"

Su Zhi Fei smiled and said, "I've been in Jinling for a while and I'm interested in making some investments in Jinling, and I've heard that your Dihao Group is the largest enterprise in Jinling, so I want to do some cooperation with you.

The 'a little' cooperation I'm talking about is at least 50 billion or more in size.

"Oh? Is that so? !" Wang Dongxue immediately showed strong interest and could not hide her excitement as she asked, "I wonder what kind of cooperation Young Master Su wants to do?"

Su Zhi Fei smiled slightly, raised his hand and pointed vaguely at the skyscrapers outside, smiling, "Real estate, hotels, energy, automobiles, you can think of any field, our Su family has basically dabbled in it, so there are so many areas we can cooperate in."

Saying that, Su Zhi Fei added: "Isn't new energy vehicles very hot recently! Several cities across the country have R&D and production bases for new energy batteries and cars, but Jinling doesn't seem to have one yet, does it? I think we can set up a new energy battery production enterprise in Jinling, specializing in the production of supporting power batteries for new energy vehicles, it just so happens that our Su family still has two traditional car brands in hand, and they are also preparing to transform into new energy models.

The new energy car brand may be made together.

The Su family does have two traditional car brands and is indeed making a new energy transition, but in terms of business logic, even if they were to find someone to cooperate with, they would only find a professional company in the relevant field, and it is impossible for them to come and cooperate with a company like the Dihao Group, which has nothing to do with them.

However, Su feels that new energy is now a windfall and all companies want to come in and get a piece of the pie, and this is certainly the case for companies of Dihao Group's size.

Many companies are seeing the new energy industry getting hotter and hotter, but they just can't find an entry point, so now that he is giving Dihao Group an opportunity to enter the new energy field for free, I think Dihao Group will never refuse.

Of course, he is not a money spinner who comes to give away opportunities. The reason why he drew such a big pie is just to take the opportunity to lure the chairman of Dihao Group out.

Sure enough.

As soon as he said this, Wang Dongxue's eyes flashed brightly and she couldn't hide her excitement as she said, "I'm not going to lie to you, Young Master Su, our boss has always wanted to get involved in the field of new energy vehicles, but our group has always been mainly engaged in real estate development and commercial real estate business, developing properties, shopping malls and hotels is our specialty, but researching and developing new energy vehicles is not our specialty. If the Su family is really interested in cooperating with us, it would be a real gift

Charcoal!

Su Zhi Fei was very satisfied with Wang Dong Xue's performance, smiled slightly and said seriously: "Vice Director Wang, I, Su Zhi Fei, have always kept my word, since I have taken the initiative to come over, I naturally very much hope to cooperate with your Dihao Group.

The company's main business is in Yanjing and around Yanjing, and it has no business roots in Jinling, nor does it have a network of connections.

"If we want to set up a production base for new energy batteries as well as cars in Jinling, we definitely need to cooperate deeply with local enterprises in Jinling."

"In that case, it will be easier to approve, acquire land, build a factory as well as apply for government subsidies.

"Your Dihao Group is also the largest enterprise in Jinling, so cooperating with you would be a strong partnership and mutually beneficial!

"That's really great!" Wang Dongxue said excitedly, "Since Young Master Su looks up to us, then we will definitely give our best in the cooperation!

"Mm!" Su Zhi Fei nodded in satisfaction, then the conversation turned and suddenly said, "Hey right, Vice Director Wang, I estimate that this cooperation project, the total investment is at least 60 to 70 billion, maybe even up to 100 billion, such a big cooperation, I still want to meet and chat with your boss face to face, I wonder if you can help me make an appointment with him?"

"This Wang Dongxue hesitated for a moment and said: "Mr. Su, I'm not going to lie to you, the chairman of our board has never been too interested in the affairs of the Dihao Group.
