

Ye Chen 3161

Chapter 3161

Ten minutes later, Lu's war army had already picked out who would participate in this roundabout strike.

This time, he had decided to lead a thousand elites from the Hall of Ten Thousand Dragons to outflank Hamid's front-sloping fortifications from the valley on the left flank.

He left half an hour for these 1,000 elites to prepare, telling them to carry all their weapons and equipment during this time, in a bid to take out all of Hamid's base in one fell swoop.

At the same time, Suhang, China.

Outside the Su family villa, eight black, extended, bulletproof Rolls-Royces, slowly drove up and parked neatly in front of the villa.

The head car at the front of the line came down with a stout young man in his twenties, with an inch haircut.

When this man arrived at the gate of the Su family's residence, he said with a cold face to the guard outside the gate, "Please inform Master Su that our Palace Master wants to see him."

When the Su family's guards saw so many luxury cars coming, they were immediately wary.

Moreover, the other party did not speak very politely, so they might be looking for trouble, so he hurriedly said, "May I also ask what is the name of your temple master? I would also like to give a notice."

The man said coldly, "You are not worthy of knowing our Hall Master's name. Tell your master to think of our Hall Master's identity, and he will naturally tell him after our Hall Master meets him."

The guard was very unhappy with his attitude, but seeing that the other party was not a small person, he did not dare to provoke them, so he could only speak, "Then wait for a moment, I will go and inform them."

After saying that, he turned around and immediately reported the situation to Su Anshun, the steward of the Su family.

Su Anshun knew all about Master Su's daily activities, including whether he was going out, or whether he had any important guests visiting him today.

Su Anshun knew very well that Master Su had no plans to go out today, nor did he have any plans to meet any guests at home, so it was a bit strange that eight Rolls-Royces came at once and asked to see his own master.

At the same time, he hastily invited Elder He, the strongest expert in the Su family, to accompany him to meet the owner of the eight Rolls-Royces outside.

After hearing this, Elder He also attached great importance to the matter and immediately went outside the door with Su Anshun.

At this moment, outside the gate, the eight Rolls-Royces were parked neatly in a row with their engines running, and apart from the man who had come down to negotiate, none of the other people in the cars had come down either, and each of the cars had a privacy film with a very low light transmission rate.

What's even more ridiculous is that none of the cars had license plates, only a golden metal plate hanging in the place of the license plate, and this metal plate had a dragon engraved on it!

Su Anshun was bewildered and could not understand the origin of these people, so he asked Elder He in a low voice, "Elder He, do you think the dragon plate hanging on the front of their car is gold?"

He Lao mused, "Looking at the colour, it should be pure gold."

Su Anshun whispered, "Fuck, no license plate on the road and a pure gold dragon plate, these people are so fucking arrogant I wonder what their origins are"

He Lao seriously said, "What's the origin, just go up and find out."

After saying that, he stepped forward and asked, "Which one is it that wants to see my master?"

The young man who had stepped down from the Rolls Royce earlier said in a cold voice, "It is our family's temple master who wants to see Master Su."

Chapter 3162

After saying that, he scolded with some dissatisfaction, "Our Hall Master's time is very precious, we have just waited for two minutes, if we don't invite our Hall Master in within three minutes, don't blame our Hall Master for not giving the Su family a chance!"

Su Anshun was irritated and cursed in his heart, "Fuck, where did this bullshit Hall Master appear from, driving eight Rolls Royces and you're not the same? Our Su family is still the number one family in Yanjing, or even in the whole country, so if you're the master of the temple, can you be more powerful than our master?"

Thinking of this, Su Anshun responded in an unkind tone, "There are many people who want to see our master every day, you have to announce yourself first, let me know who exactly wants to see our master, and then our master will decide whether to spare his precious time to see you, otherwise do you still think our master will see everyone?"

"Declare yourself?" The young man sneered, "You're just a subordinate, you're not qualified to know the identity of our Hall Master yet!"

Feeling greatly insulted, Su Anshun said angrily, "I'm a fucking subordinate and you're not a fucking subordinate? We are all subordinates, who are you to speak to me like that?!"

The young man rushed to Su Anshun with great speed, and before Su Anshun could react at all, he directly grabbed him by the neck and lifted him up, sternly saying, "Listen carefully, I am a subordinate of our Hall Master, one of the Four Great Battle Kings, not some subordinate!"

Su Anshun didn't expect that the other party would dare to fight with him outside the Su family's gate, so he was furious and cursed out loud, "Making trouble here, you're fucking looking for death! Come on, grab him!"

At these words, a group of bodyguards and guards around him, even He Yingquan from the He family and other members of the He family, were all ready to strike.

But at this moment, He Lao suddenly came forward with a grave face and said politely, "Little brother don't be so angry, An Shun he is a big housekeeper in the Su family and is used to being a bit arrogant in his daily life, please don't cross a servant for the sake of the Su family" "

When Su Anshun heard Elder He say this, he was immediately a bit confused and blurted out, "Elder He, you are turning your elbow to the outside" "

He Lao interrupted him with a stretch of his hand and glared at him again, then said to the young man, "Little brother, since your family's temple master wants to see our master, then please wait a moment, I will go and inform the master right now, what do you think?"

Only when that young man heard this did he let go of Su Anshun and said in a cold voice, "Better hurry up, you only have two minutes left!"

He Lao hurriedly nodded his head and said, "Good! I will do it as soon as possible!"

After saying that, he immediately said to Su Anshun, who had an angry face, "Anshun, you come with me to see His Lordship!"

Su Anshun was naturally a million times more upset when his face was hurt in front of the underlings of the Su family.

He still wanted to argue with the young man, but when he heard Elder He say so, he did not dare to disobey him, so he could only resentfully follow Elder He into the courtyard.

As soon as he entered the courtyard, Su Anshun said in a depressed voice, "Elder He, I don't mean to offend you, but you are really too ungrateful, you just didn't help me in that situation just now, why did you stop me? And you even spoke to that little bastard, that's not very polite, is it?"

He Lao lowered his voice and said to Su Anshun, "I'm not stopping you, I'm saving you! Do you know that just now, that brat is far above me in strength!"

"What?!" Su Anshun's face turned pale with fear and he blurted out, "This" is not possible, He Lao! Just that little palsy-faced kid, can he be stronger than you? If you look around the country, there are not many people who can compare to you. Apart from that old man from the He family who has just made a breakthrough, who can be stronger than you?"

Su Anshun was instinctively unconvinced by He Lao's words.

The other party didn't even know what he was from, just a random junior who came down to deliver a message, and his strength would be above He Lao's? What kind of international joke is that?

However, He Lao said very firmly, "That person's speed, strength and body strength are all above me!"

Saying that, He Lao explained with a grave expression, "Just now, he grabbed you by the collar and lifted you up, the whole process was so fast that I didn't even react!"

"Moreover, his arms were so powerful that he grabbed your entire body up and you struggled so violently to get free, but his entire body didn't move at all!"

"Remember, being able to grab you up is not strong, grabbing you and making you unable to break free is not strong either, but to be able to do that no matter how much you break free, he himself doesn't move at all, not even a millimetre of displacement, this, is very strong!"

"Even if an expert of He Yingquan's calibre were here, even if he were to grab an adult, even if he were to grab an adult dog, he wouldn't be able to stay still while his opponent was violently struggling to free himself! Neither could I!"

"So, that young man's skills are unpredictable and very good!"

Chapter 3163

Elder He's words made Su Anshun's heart, instantly tense up.

He could not think about how to get back face, but hurriedly asked, "Elder He, if this person's strength is really above yours, if they have any evil intentions, then what should we do?"

He Lao said calmly, "If the other party really has bad intentions, then they might have already made their move, you have to know that they have come to a total of eight cars, the only one who came down is stronger than me, those who didn't get down might be even stronger than him, in this case, we can't beat them at all."

Su Anshun's neck craned in fear and he hurriedly asked, "So are we going to let His Lordship make a decision now?"

He Lao said, "I feel that the other party should have no malice, otherwise they wouldn't communicate in this way, it seems that we have to let Master meet that so-called temple master of theirs"

At this moment, Elder Su was unaware of what was happening outside.

He was not in too good a state these days, because he had suffered many losses at the hands of Ye Chen, his reputation was ruined, his two sons had disappeared, and he had given a large chunk of his estate to Su Zhiyu, the successive blows had made him very dejected.

He had always wanted to find a chance to turn things around, but when he thought that the mysterious expert was so powerful that he could not even find out his opponent's identity, he felt deeply frustrated.

At this moment, He Lao and Su Anshun suddenly told him about the situation outside, which made him even more annoyed in his heart.

However, after hearing that the other party was very strong, he did not dare to be lazy.

So then he could only fight his spirits and said to Su Anshun, "Anshun, go and ask that Hall Master of theirs to come in, I'll wait here."

"Good." Su Anshun nodded hastily and turned back to the main gate, saying to the young man, "Our master has promised to see your hall master, please ask your hall master to come with me."

The young man did not say anything, but turned and went to the fifth car.

At that moment, the car window was slightly lowered by a slit, so he bent down and whispered a few words into the slit.

Then, when he heard the person inside command something, he immediately stood up straight, saluted in a hefty manner, and shouted, "As you command, Hall Master!"

After saying that, he immediately shouted, "All of you, gather!"

At these words, the four doors of the other seven vehicles all opened at the same time, and at once another two dozen men in black came down.

These men then each walked three metres outwards, surrounding the eight cars in a rectangular circle, guarding the fifth car.

At that moment, the door of the fifth car's Rolls Royce was pushed open.

A young man wearing a black trench coat and tactical leather boots stepped down.

The man was handsome and cold, with dark eyes full of murderous aura, bringing a strong sense of oppression to the people around him in an instant.

When this man stood outside the car, a group of people immediately said respectfully, "Greetings, Hall Master!"

The man did not respond, but walked straight towards the Su family villa gate, while walking, he said with a bit of playfulness, "The head of the titled Su family, hiding from Yanjing to Suhang, it seems that the Su family is in a lot of trouble this time!"

Hearing these words, Su Anshun was very upset in his heart, but at this moment, he did not dare to say a fart more, and could only say respectfully, "The master is already waiting in the living room, please follow me."

Chapter 3164

The man didn't even look at him and walked straight into the villa gate.

Crossing the courtyard and arriving at the front door, Su Anshun ran a few steps ahead and opened the door respectfully.

The man stomped on his hard tactical leather boots all the way through the entrance hall and saw Master Su sitting in the living room.

Elder Su's side, Elder He, just took one look at the man and was filled with horror!

He felt that the aura on this man was definitely the only one he had ever seen in his life!

Perhaps even a four-star martial artist might not be a match for him!

Then, he could not help but exclaim in his heart, "What the hell is this guy's origin? So young, why does he have such great strength?!"

Elder Su also did not expect that the so-called Hall Master that the other party was talking about was a young man of twenty-seven or twenty-eight, so he frowned and asked, "This young friend, I wonder why he wants to see me?"

The man looked at Elder Su, smiled and spoke, "Grandpa Su, you don't remember me?"

Su Chengfeng could not help but frown, thinking, "Could this fellow be some kind of an old friend?"

However, no matter how he looked at it, he could not recall any interactions between this young man and himself.

So, he spoke, "Forgive my clumsy eyes, I really can't remember"

The man smiled faintly and said, "More than twenty years ago, my father was very close to Uncle Su, and at that time, Uncle Su led the Anti-Yeh Alliance, and it was my father who was the first to respond."

Speaking of this, he said with a somewhat dark expression, "It's just a pity that he didn't listen to Uncle Su's advice back then and had to fight with Ye Changye of the Ye family in the futures market, and as a result, because he was too adventurous, he fell into Ye Changye's carefully laid trap and lost his entire family fortune"

"Then later, he took a leap from the roof of the headquarters building of the Wanlong Group, the Wanlong Group has been destroyed since then, seven days later, my mother took a whole bottle of sleeping pills on the day of his first seven days and died with him, I have been orphaned since then and was taken overseas by a relative"

When Su Chengfeng heard this, his eyes suddenly widened and he blurted out, "Wan Long Group You Your father is Wan Lian Cheng?!"

"Yes!" The man's eyes suddenly burst out with two sharp auras as he said in a stern voice, "I am Wan Lian Cheng's son! And also his only bloodline in this world, Wan Broken Jun!"

Su Chengfeng was completely relieved when he heard this.

He didn't know much about Wan Bu Jun, he only had some impression of his father, Wan Lian Cheng.

He thought to himself, "Thirty years ago, when Wan Liancheng was saddling up beside Shoudao every day, I concluded that that guy Wan Liancheng would hardly become a great man."

"This man was not capable enough, not thoughtful enough, not thorough enough, and lacked a big picture view. If Shoudao had not felt that he was loyal, he would not have been able to bring him up all the way."

"Wan Lian Cheng was able to build up a ten billion dollar Wan's Group thanks to Shoudao's help."

"It's just that this guy, who still hasn't made much progress, after the Su family and the Ye family ripped each other apart, he dared to fight with Ye Chang Ying in the futures market all by himself to show his loyalty, and ended up losing everything."

"At that time, Wan Lian Cheng's funeral was still presided over by Shou Dao, but what I didn't expect was that Wan Lian Cheng's wife actually took medicine to commit suicide on the day of his first seven days."

"At that time, Shoudao did feel very guilty and also talked to me about wanting to adopt Wan Liancheng's only son, which is this Wan Breaking Jun in front of him."

"It's just a pity that Wan Breaking Jun evaporated straight away after that, and no one knows where the boy went."

"But who would have thought that twenty years later, this kid would take the initiative to find me!"

"Moreover, listening to that meaning of He Lao, this guy seems to have come from a lot of people, and one of his men is far above He Lao in strength!"

"Murphy Murphy, this Wan Breaking Jun, is doing very well now?"

Chapter 3165

At this thought, Su Chengfeng's heart suddenly became excited.

"It seems that this Wan Bajun is not an enemy, but even a friend!"

"This, is simply like a village in the dark!"

"Other than that, just saying that this kid has experts under his hand who are even stronger than Elder He might be able to help me a great deal!"

He then suppressed his inner joy and said with incomparable emotion, "So you're Lian Cheng's son! I couldn't have imagined, I couldn't have imagined! You've actually grown so big!"

When he said this, his expression darkened and he sighed, "I still remember when your Uncle Su was bent on adopting you after your mother's accident, but at that time, you had already disappeared, and he searched for you for a long time, but there was no news, and he blamed himself for this for a long time."

"Yes." Wan Bajun nodded and said indifferently, "A relative of my family picked me up overseas at that time I was too young and did not know how to contact Uncle Su."

Su Chengfeng nodded slightly and sighed, "Shoudao must be very happy if he knew you were still alive!"

After saying that, he hurriedly asked again, "Broken Jun, what have you been doing overseas all these years?"

Wan Bajun spoke, "I lived in Colombia for many years, and then I ran all over the world."

"Colombia?" Su Chengfeng asked in surprise, "Are you starting a business in Colombia now?"

"No." Wan Bajun said with his head held high, "When I was fourteen, I joined a mercenary army in Colombia and served the big drug lords in Colombia in the early years, then I came out and set up my own business."

Su Chengfeng asked in surprise, "You're in that kind of business too?"

Wan Bajun shook his head and said in a cold voice, "I will never touch that kind of thing in my life, what I said about setting up my own business is that I set up my own mercenary organisation."

Saying that, he said with a look of complete pride, "Eight years ago, I set up my own mercenary organisation, borrowing the name of my father's Wan Long Group, changing the rung in it to the dragon in Teng Long, and then naming my mercenary organisation Wan Long Hall, as a way of remembering my parents, and also as a constant reminder that I must avenge my parents! "

As soon as these words came out, He Lao was stunned and dumbfounded!

He looked at Wan Bajun and asked, his voice even trembling a little, "Wan Wan Long Hall is yours?!"

"That's right!" Wan Bajun said in a cold voice, "I founded the Ten Thousand Dragons Hall, and in eight years' time, the elites under my command have reached tens of thousands! And the Ten Thousand Dragon Hall is also ranked as one of the top five mercenary organizations in the world!"

After saying this, he said in a loud voice with a bit of emotion, "I have never been back to China for so many years, and I have come back this time to avenge my dead parents and seek justice for them!"

Su Chengfeng did not know about the Hall of Ten Thousand Dragons.

This was because although the rich and powerful in China were very rich, they would not have anything to do with mercenary organisations at all.

The mercenary organisations were all mixed up in regions that were always at war, and many of them were from the Third World, so they were completely different from rich people like Su Chengfeng, so he did not know how powerful the Hall of Ten Thousand Dragons really was.

However, since the Hall of Ten Thousand Dragons had an expert who was even more powerful than He Lao, and was still one of the top five in the world, then he didn't need to think about it to know that it was definitely not an idle person!

Moreover, what excited him the most was that this Wan Bajun had come to seek revenge!

Who was he seeking revenge from? Naturally, it was the Ye family!

He had become the leader of one of the top five mercenary organisations in the world, so there was no way he wouldn't know about Ye Changye's death.

Chapter 3166

He knows that Ye Chang Ying is dead, but he still wants to come to the country to seek revenge, looking at this, he intends to make the Ye family pay!

Since they are here to mess with the Ye family, isn't this like giving themselves a favor?

Therefore, Su Chengfeng was surprised and said, "Great! This is great! Lian Cheng's spirit in heaven will be smiling when he finds out that you came back to avenge his death! He'll be smiling in his memory!"

Wan Bajun's eyes were a little red, he held back his tears, looked at Su Chengfeng and asked, "Grandpa Su, where is my Uncle Su at this moment? For so many years, I have wanted to apologise to him in person, he was so kind to our family, but when I left, I failed to say hello to him, and I have not taken the initiative to contact him for so many years. I must apologise to him in person!"

Su Chengfeng froze, then let out a long sigh and said with a sigh of relief, "Ai! Shoudao he has been missing for a long time!"

"What?! Disappeared?" Wan Breaking Jun asked offhandedly, "How did Uncle Su his disappearance?!"

Su Chengfeng lamented, "I don't know, I only know that he disappeared in Jinling, I have investigated for a long time without finding any valuable clues, and the mastermind behind this matter is still a top expert with superb strength, I have thought of many ways to find out the truth, but nothing has come out"

Speaking of this, Su Chengfeng let out a long sigh, his face full of sorrow!

Without hesitation, Wan Bajun said offhandedly, "Leave this matter to me, I will definitely find out Uncle Su's whereabouts and save him back!"

To Wan Bajun, he was only grateful to Su Shoudao alone.

This was because he had heard from his father when he was young that the old man of the Su family had actually always despised his father.

However, Su Shoudao had always been very good to his father.

It was because of Su Shoudao's promotion and help that the Wan family was able to increase its assets more than tenfold in just a few years.

It could be said that Su Shoudao was the benefactor of his father, Wan Liancheng, and indeed the entire Wan family.

Therefore, when Wan Bajun came, he was not polite to Su Chengfeng, nor did he want to be polite to him.

Moreover, he had been following the Su family's situation overseas before.

Knowing that Su Shoudao had, before, been forced to cover for Su Chengfeng because of Su Ruoli's affair, and had even been sent to Australia by Su Chengfeng, he had a very poor opinion of Su Chengfeng.

When he heard that Su Shoudao had disappeared, he was naturally anxious from the bottom of his heart, and almost immediately wanted to order his men to go to Jinling to find out what had happened.

However, once he thought of another important matter that he had to do, he temporarily resisted his impulse.

Then, he looked at Elder Su and suddenly knelt down on one knee and said in shame, "Grandpa Su, Uncle Su treated my family with great kindness back then, and now that he has disappeared, I should have spared no effort to find out his whereabouts"

"It's just that right now I have something to do that I've been waiting twenty years to do"

"So also please give me some time, when the Qingming is over, I will definitely mobilize all the experts of the Ten Thousand Dragon Hall to search for Uncle Su with all my might!"

Su Chengfeng asked in confusion, "Broken Jun, what is the important thing you are talking about?"

Wan Bajun said with sharp eyes and a grim tone, "Avenge my parents! Avenge the hatred of my parents!"

After saying that, he said in a stern voice, "I heard that the Ye family had just rebuilt their ancestral tomb some time ago, and even developed a mountain directly for the feng shui of the ancestral tomb, named Ye Ling Mountain, and they are going to hold some kind of ancestor worship ceremony there this Ching Ming!"

"That's right." When Su Chengfeng heard this, his eyelids instantly jumped wildly and he blurted out, "This matter of the Ye family spending huge sums of money to build Ye Ling Mountain has long been a sensation in all of Yanjing, and it is said that a top feng shui master was even found to sit on Ye Ling Mountain for three years, which is really high-profile!"

Wan Bajun gritted his teeth and said, "But after my father's fall, his ashes could only be buried in a cemetery on the outskirts of Beijing I remember, that cemetery, or Uncle Su paid for my father's purchase"

Su Chengfeng nodded and said with emotion, "After your mother died from taking medicine, it was also your Uncle Su who took care of her afterlife, her ashes, buried with your father, your Uncle Su spent a lot of money, bought a big place in the cemetery and rebuilt the grave mound for both of them."

When Wan Bajun heard this, his whole body was already filled with tears, and he clenched his teeth and fists tightly, his whole body trembling violently.

A few moments later, Wan Bajun said with an overwhelming sense of hatred, "My parents died one after another, and the culprit, Ye Changyang, is now lying on Ye Ling Mountain, a feng shui treasure! I, Wan Bajun, do not accept this! And I won't allow it! Therefore, on the day of Ching Ming, I will lead my men to kill Ye Ling Mountain!"

"I will strip Ye Chang Ying's coffin out of the Ye family's ancestral tomb in front of the Ye family!"

"I will strip the entire Ye family's ancestral tomb! Then I will make the Ye family give up Ye Ling Mountain and change its name to Wan Ling Mountain!"

"I want everyone in the Ye family to wear mourning and kneel on the ground! I want everyone in the Ye family to wear mourning and kneel on the ground to welcome my parents' coffins into Mount Wanling and give them a beautiful burial!"

Chapter 3167

Wan Breaking Jun's ambition immediately made Su Chengfeng extremely excited.

Even he would not dare to do something so outrageous to the Ye family.

Thinking about it, if someone in this circle of top-level gentry stripped another family of their ancestral graves, and also raised their ashes and ended up hijacking their ancestral graves, was there any fucking law in this?

And if such a vicious thing is really done, how can one still get along in this circle in the future? Who would work with such a person?

After all, this is the kind of animal that wants to dig up people's ancestral graves at every turn.

However, although Su Chengfeng also felt in his heart that Wan Bajun's revenge plan was really a bit shocking, he was so excited that he almost shouted out loud when he thought that the target of his revenge was the Ye family.

"Now someone is going to dig up the ancestral grave of the Ye family and then force that old dog Ye Zhongquan to wear sackcloth and mourning to bury Wan Liancheng, is there anything more exciting in this world than that?"

"No more, absolutely no more!"

"If this can really become a reality, then the Ye family will be completely finished, what qualification does a family that can't even guard its ancestral grave have to come out and make a fool of itself?"

"What other people would put them in their eyes in the future?"

When he thought of this, Su Chengfeng stepped forward and helped Wan Bajun, who was kneeling on one knee, and said in an excited voice, "Bajun! If you really want to take care of this matter, Su will do his best to help you and seek justice for your parents!"

Wan Bajun shook his head and said seriously, "I want to personally avenge my parents' death, Grandpa Su doesn't need to interfere!"

When Su Chengfeng heard this, he was even more pleased with himself.

He actually did not want to get involved in such matters, because once he did, he would have to take the blame along with Wan Breaking Jun.

Wan Bajun himself was a mercenary and did not mix with the rich and powerful circles in the country, so people did not have to care, what people in the circle thought of him.

What's more important is that Wan Bajun is at least famous, after all, he wants to avenge his parents' death.

However, if the Su family was also involved in this matter, then it would be a case of the master having no name.

Since it was a case of "no name", it would naturally fall into the hands of others, and Su Chengfeng did not want to get involved in such trouble.

So, he waved his hand and said readily, "You want to avenge your parents' death on your own. I understand this very well, but, after all, your Pantheon is a mercenary organisation outside of China, if there are any problems that are not easy to handle at home, feel free to contact me!"

"Good." Wan Bajun replied and said with a steely gaze, "Please don't worry, Grandpa Su, after I have eliminated the Ye family, I will do my utmost to find Uncle Su's whereabouts! Back then, my parents' funeral was organized thanks to Uncle Su, and when my parents' tomb was later moved to Ye Ling Mountain, I also hoped that Uncle Su could be present to be a witness!"

"Good! Good! Good!" Su Chengfeng said with great emotion, "If Shoudao knew that you had achieved what you have today, and that you could return to your country to avenge your parents' death, he would be overjoyed! You don't know that for years, Shoudao has been upset about the death of your parents and has recited it in front of me many times"

Chapter 3168

Wan Bajun clenched his fist, "I will definitely not let Uncle Su down!"

After saying that, Wan Bajun stood up and said with an arch of his hand, "Grandpa Su, please forgive me for disturbing you today, I have just returned to China and still have a lot of things to take care of, so I won't bother you much!"

Su Chengfeng hurriedly said, "Broken Jun! You've just returned to China after such a long time, so I must give you a chance to receive me after all, so how about this, you and your men wait for a while, I'll arrange for the back kitchen to prepare a banquet, let's have a drink and catch up.

Hearing this, since the elder had already extended an invitation, and since this elder was also Uncle Su's father, he also felt that it would be unjustified in terms of etiquette if he did not stay for a meal before leaving.

So, he immediately cupped his fist and said, "In that case, then I'll respectfully do as I'm told!"

Su Chengfeng was overjoyed and hurriedly ordered Su Anshun, "Anshun! If you don't have enough staff, go to the best restaurant in Suhang and invite the entire back kitchen over, make sure to prepare the best dishes and the best wine, if there is even a hint that the food is not up to the top standard, I will make sure you are punished!"

Su Anshun hurriedly said respectfully, "Don't worry, Master, I'll get right on it!"

Su Chengfeng nodded and said to Wan Bajun, "Bajun, first let your men come in for a rest and a cup of tea, and if you need anything, just tell the servants, they will serve you well. I'm getting old and not in good health, so I need to take some medicine and oxygen at this time to build up a bit of energy, so I can have a few more drinks with you at the wine table later!"

Su Chengfeng's warm and hospitable attitude also raised Wan Bajun's impression of him by a few points, and he nodded with some respect in his words, "Grandpa Su, you go first, I'll just sit here."

Su Chengfeng smiled and nodded, and then said to Elder He, who was beside him, "Aiya, Elder He, why don't you accompany me to my room?"

He Lao hurriedly said, "Yes, Master, I'll help you!"

In fact, Su Chengfeng did not need to take any medicine at all, nor did he need to take oxygen.

The main reason why he had to find an excuse to leave at this time was that he couldn't wait to find out from Elder He what kind of organisation this Ten Thousand Dragons Temple was and what kind of strength it had.

Su Chengfeng took Elder He all the way to his room and closed the door before lowering his voice and asking Elder He, "What exactly is the origin of that Ten Thousand Dragons Hall? Why have I never heard of it?"

He Lao said, "Master, it is normal that you have never heard of the Ten Thousand Dragons Hall, but I must say that the strength of the Hall is very strong, especially in these few years, they have almost no defeat in the mercenary field, I have heard some overseas martial arts peers talk about it, it is said that the Hall is full of experts, the strength of the Hall is above me, at least a dozen, at most a few dozens! "

"Damn it!" Su Chengfeng blurted out, "This is bullshit, right? How can the Ten Thousand Dragons Hall be so strong? In a huge China, I'm afraid there aren't even five people who want to find someone stronger than you, so how can he have so many experts in one Wan Long Temple?"

He Lao said, "Master, there is no room for martial arts masters to play in the country's long-lasting peace and prosperity, just like the old dart boards, which were indispensable in ancient times of chaos, but nowadays, except for those war-torn places, where is there anyone left to eat this bowl of rice? If you want to eat this bowl of rice in the country now, I'm afraid you can't even eat shit"

"So most martial arts masters can't make money at home and have gone overseas to gain a foothold long ago, other than that, just in the 'Big Circle Gang', the number one overseas Chinese gang, there are at least several strengths above my top masters, most of these masters have gone overseas to develop in recent decades, and their strength is far stronger than whatever double-flowered red stick they say out there!"

After a pause, He Lao continued, "In addition to that, the drug lords in Colombia and Mexico, the mafia in Italy and the United States, and the Yamaguchi-gumi in Japan all have top masters sitting behind them, only that they are all big figures that these organizations worship and generally don't go out easily."

Speaking of this, Elder He remembered something and added: "By the way, there are still many masters in China who have set up their own gangs or organisations overseas in earlier years, they all have their own gangs or organisations, the scale may not be as big as the Ten Thousand Dragon Temple, some may only have a dozen or so people, but even so, they are definitely not to be underestimated, a dozen or so top masters who have been cooperating for ten years or even decades, once they unite to carry out a beheading operation, even the Ten Thousand Broken Armies would have to weigh in!"

Hearing this, Su Chengfeng could not help but marvel, "In that case, this overseas water is really unfathomable!"

Chapter 3169

Hearing Su Chengfeng's exclamation, Elder He also said in agreement, "Master, there are simply too many dark sides to the overseas world that are not known to man, hiding dirt and fish and dragons!"

"Moreover, the more troubled a place is, the easier it is to breed a powerful organisation like the Ten Thousand Dragons Hall!"

"It's just that I really didn't expect it. The Hall Master of the Ten Thousand Dragons Hall is surprisingly young, and I really can't think of what kind of encounter this Wan Bajun has had to create a superbly powerful Ten Thousand Dragons Hall in such a short period of time! It is impossible for an ordinary person to do that no matter what!"

Su Chengfeng couldn't help but ask, "By the way, how is the financial strength of the Ten Thousand Dragons Hall?"

"It's also very strong!" He Lao said seriously, "This kind of mercenary organization has a very strong profitability!"

After a pause, Elder He continued, "The revenue of the Hall of Ten Thousand Dragons is estimated to be at least a hundred billion dollars a year."

"What?!" Su Chengfeng asked, dumbfounded, "Hundreds of billions of dollars a year. This is running a money printing machine!"

Elder He explained, "Master, a hundred billion dollars may seem like a lot, but you must not forget. There are tens of thousands of mercenaries in the Hall of Ten Thousand Dragons, and these mercenaries are all masters of licking blood at the mouth of the sword, and their average salary is very high."

"Even for the most ordinary big-headed soldier, no one would do such a life-saving job without a hundred thousand dollars a year;"

"And counting the top officers in those mercenaries, I think the average salary must be at least three or four hundred thousand dollars a year;"

"With 50,000 men, just the payroll would be ten or twenty billion dollars a year."

"And that's just the cost of salaries, not including the cost of bases, the cost of training, the cost of food, the cost of transport and the cost of maintaining weapons and equipment;"

"And the bigger cost is weapons and ammunition; a bullet costs a few dollars, a grenade a few hundred, a shell thousands, and when you go to war, money is spent faster than it is printed."

"Moreover, for these top-ranked mercenary organisations, reputation is very important, and in the event of casualties on the battlefield, they must be held responsible to the end. When someone is injured, a full set of medical treatment must be provided; when someone is killed, a substantial pension must be paid;"

Speaking of this. He Lao concluded, "I estimate that the annual net profit of the Ten Thousand Dragon Temple should be around ten billion dollars."

Su Chengfeng sighed with emotion, "Ten billion dollars is also very impressive! They are a group of people who spend years mingling outside the law, and they don't have to pay taxes, so whatever they earn is their own."

He Lao nodded, "As far as I know, they are now expanding wildly in the war-torn countries of the Third World. The overall investment cost is estimated to be very high, but after they have successfully established their roots in all the war-torn regions. Their strength can definitely go up another notch."

Su Chengfeng frowned and said offhandedly, "I really didn't expect that this Wan Breaking Army would be so capable! In a place outside the law, where no one guarantees even the most basic personal safety, it's really not simple for him to be able to build a mercenary organisation of enormous strength in such a place! Compared to his simple-minded and reckless straw man father. I don't know how much better it is!"

He Lao said approvingly, "This man is indeed not simple, and I can see that he is very grateful for the kindness the youngest master showed to their family back then, and if you can make good use of this, Master, it might bring us even more help!"

Su Chengfeng nodded in excitement and said, "Yes, this is definitely a once-in-a-lifetime opportunity for the Su family!"

Chapter 3170

Half an hour later. While Lu Zhanjun, the five-star war general of the Ten Thousand Dragon Hall, was leading a thousand soldiers to meander back towards the western flank of Hamid's base, the Su family's underlings had already prepared several tables of incomparably rich wine.

Su Chengfeng kindly invited Wan Bajun and his men to take their seats at the banquet. He took Wan Bajun's hand and sat him down beside him, while he continued to build up his relationship with him, exclaiming, "Bajun. If your father knew what you have achieved today, his spirit in heaven would be extremely relieved"

Wan Bajun was naturally very moved when he thought of his late father, and said seriously, "I came back this time not only to avenge my parents, but also to tell them about my experiences over the years in front of their graves, in order to console their spirits in heaven."

"I should, I should!" Su Chengfeng nodded his head repeatedly. He asked, "Right, Broken Jun, what are your specific plans for seeking revenge on the Ye family?"

Wan Breaking Jun spoke, "I have already asked my men to use another identity to buy back our Wan Family's old mansion, I will leave for Yanjing this afternoon and return to the old mansion for a few days first. Also wait for my three War Kings of the Ten Thousand Dragon Hall to finish the task at hand and meet me in Yanjing."

As he said that, a strong murderous aura burst out from Wan Xiaojun's eyes as he said in a cold voice, "At that time, the four War Kings of the Ten Thousand Dragons Hall will gather in Yanjing, and other experts of the Ten Thousand Dragons Hall will also arrive in Yanjing one after another from all over the world, and on the day of the Qingming Festival, I will bring them, as well as the sixteen War Generals of the Ten Thousand Dragons Hall, and hundreds of elites. Kill up Ye Ling Mountain!"

Hearing these words, Su Chengfeng's dried arteries had already been boiling with fervour, and he was busy asking, "Broken Jun, those three war lords of yours, where are they all at this moment?"

Wan Xiaojun said blandly, "One is in Palestine, another is in Yemen. And one is in Syria."

Su Chengfeng nodded gently and thought to himself, "It is true that they are all places that are always at war."

So. He then said complimentingly, "These places are constantly at war, your men have been training in such places for years, their actual combat level must be very good! They must be better than the famous Blackwater. I'm afraid it's not far behind!"

Wan Bajun said without any modesty, "In terms of actual combat level, I am no less than a company like Blackwater in the United States, and it is only natural for me to be ranked number one in a large scale mercenary organisation."

Speaking of this, Wan Bajun said disdainfully, "The only reason why companies like Blackwater are famous worldwide is because of their human tactics and White House support."

Su Chengfeng laughed and said offhandedly, "I'm sure you'll be fine!"

Wan Bajun nodded and said with an arrogant face, "The American company Blackwater was hired by Syria some time ago to clear out the opposition forces in the country, but it took Blackwater a year to achieve any results, while I have just cooperated with Syria for a month or so, and I have already broken through and conquered several cities in a row! I believe that in half a month's time, we will be able to completely wipe out our opponents and win!"

"At that time, the Dragon Palace will beat Blackwater's face in front of the world's mercenary organisations!"

After the victory, we will build a mercenary base in Syria covering an area of more than 100 square kilometres, and by that time, Ten Thousand Dragon Palace will be on top of the world mercenaries!

Su Chengfeng was dumbfounded and said, "A hundred square kilometres? How could they give such a large area of land to the Ten Thousand Dragons Temple?"

Wan Bajun said indifferently, "This is the condition I agreed with them, I help them to pacify the opposition forces, and they provide me with the land and all the facilities I need. 100 square kilometres of land use is indeed impossible in developed areas, but in such a shitty place, doubling it ten times is nothing. Each takes what they need, mutual assistance and win-win!"
