

Ye Chen 3241

Chapter 3241

Seeing Chen Zhonglei's anger, Ye Chen smiled and said with an emotional expression, "Aiya, I suddenly remembered that someone asked me a similar question more than a year ago, and she asked me at that time whether I was here to celebrate the birthday or to borrow money.

Chen Zhonglei coldly rebuked, "If you can borrow money at someone's birthday party, then you're really fucked up!"

Ye Chen sighed, "Yes, it's quite fucked up, who would want to borrow money on such an occasion unless they had to? But at that time, a life-saving benefactor was seriously ill and needed money urgently, so I had to go out of my way to try it shamelessly."

Chen Zhonglei's expression eased a little and he said in a cold voice, "All right, no one wants to hear your story, let's get straight to the point!"

Ye Chen smiled and spoke, "Okay, let's get straight to the point. As I said earlier, a ceasefire between the two sides and your withdrawal are the prerequisites. On the basis of you meeting this precondition of ours, our second condition is that the Ten Thousand Dragon Hall must all get out of Syria!"

"Fuck!" Chen Zhonglei's entire body burst into a rage.

He stood up, his finger almost next to the tip of Ye Chen's nose, and cursed through clenched teeth, "You're fucking kidding me? Not only did you tell us to withdraw our troops, you also told us to get out of Syria, who the hell gave you the courage to talk to me like that? You don't take my Ten Thousand Dragons Temple too seriously!"

Ye Chen said in a cold voice: "I didn't take your Ten Thousand Dragons Temple into account! I told you to get out of Syria because I didn't want to kill too many of you and give you food to eat! I love you, baby! You've grown up so much, can't you even understand this?"

Saying this, Ye Chen's expression turned cold as he said, "Look at your Ten Thousand Dragons Temple, more than two thousand people died in one day, how else are you going to fight this battle?"

"Your 15,000 people staying here, feeding people and horses every day is a huge expense, how long can you last?"

"And we have enough supplies for 10,000 men to easily last a year! Tightening your belts to last a year and a half isn't a problem!"

"We had enough weapons and ammunition to kill you ten or eight times, and then thanks to your 2,500 man transport, we now have enough weapons and ammunition to kill 15,000 of you eighteen or even twenty-eight times!"

"We have also captured a large number of incendiary grenades from your dead bunch, which will be enough to set your soldiers ablaze in pieces once you launch your charge!"

"By that time you, as the commander, will be at the foot of the mountain and will have witnessed ball after ball of burning fire rolling down the slope, and every single one of them, is a soldier of your Ten Thousand Dragon Hall!"

"So then you will see with your own eyes, your soldiers being burned black and piled up one by one by your own incendiary grenades all over the hillside, all over the foot of the mountain!"

"At that time, the whole valley will be filled with the smell of burnt human flesh, which may smell good, but you will only want to vomit when you smell it, and you may even want to vomit out your entire stomach!"

Speaking of this, Ye Chen sneered and shook his head, "Aiya, how ironic that such inhumane weapons were not prepared by us, but instead prepared and delivered to us by your own hands!"

At this moment, it was as if Chen Zhonglei's soul had been struck by a thunderbolt from heaven, and his entire body had been dumbfounded!

I don't know why, but he, who was used to seeing the storm, was scared to death by Ye Chen's words!

He had even imagined in his mind the scene of countless warriors of the Ten Thousand Dragons Hall, their bodies ablaze with fire, screaming in agony as they tumbled down the mountainside.

Chapter 3242

At this moment, he felt as if he had seen hell.

He looked at Ye Chen with shocked eyes and questioned offhandedly, "What on earth are you you!"

Ye Chen smiled faintly, "My surname is Ye, you can call me Master Ye!"

The government commander at the side was already stunned, he himself was in favour of peace talks, and hearing this content reinforced his opinion.

He then subconsciously blurted out, "Master Ye if we withdraw our troops, can you leave the opposition armed camp and join the government forces? If you can, everything before can be written off and we will give Hamid full autonomy and even allow him to remain neutral in our battles with the other opposition forces, I wonder if Commander Hamid is interested?"

The government forces themselves were very pessimistic about attacking Hamid.

So, they would prefer to take Hamid in.

This was because, they recognised Hamid's ability in war, and if he could join the government army, it would really be the best of both worlds.

When Chen Zhonglei heard this, he immediately said angrily, "What do you mean by that? Don't forget that Hamid is still carrying the blood debt of over 2,500 of our Ten Thousand Dragon Hall's men!"

Ye Chen said indifferently, "You are always welcome to collect this debt, as I have just said, we have enough weapons and ammunition to kill you eight times, or even eighteen times, and the soldiers are

itching to get their hands dirty these days, if you are still a man, you had better launch an attack today, if you are a shrinking violet, then we can also continue to stalemate, we don't care. "

Chen Zhonglei's anger and blood surged, thinking of what the temple lord Wan Bajun had explained to him, he obediently shouted angrily, "Surnamed Ye, go back and tell Hamid that in ten days' time, or five days' time, I, Chen Zhonglei, will definitely lead the troops to fight up and kill all of you!"

The commander of the government troops became furious and blurted out, "Chen Zhonglei! What do you mean by that?"

Ye Chen laughed, "Can't you see this? They are deliberately sabotaging the peace talks between us and you, and do not want us to join the government army!"

Chen Zhonglei did not expect Ye Chen to reveal his fundamental motive at once and hastily covered up, "I didn't mean that! It's you who provokes every step of the way!"

Ye Chen ignored him and turned to that government army commander and said, "We have a fable in Chinese called Snipe and Mussel, the fisherman wins, which roughly means that a water bird with a long beak wanted to eat a fat mussel, but was caught in the mussel's beak by the mussel, and when the two sides were at a standstill with each other, the fisherman who was fishing passed by and took both of them directly into his pocket. "

Speaking of this, Ye Chen added: "Now, you are the water bird, we are the mussel, and the Hall of Ten Thousand Dragons, the fisherman! What they want most is for Syria to be in turmoil forever, for the government forces to never have a day of peace or the ability to defend themselves, so that they can only cede land to the Hall of Ten Thousand Dragons and ask for its help and protection, so that they can maximise their interests in Syria."

Chen Zhonglei said offhandedly, "Don't you talk nonsense here! The terms of our cooperation with the government forces are that only after we purge all opposition forces will the government forces allocate us land to establish a mercenary base! By then, the whole of Syria will be peaceful and tranquil internally, and there will be no such thing as a snipe and a fisherman!"

The government army commander frowned and said seriously, "Our cooperation agreement with the Ten Thousand Dragons Temple is indeed like that, only when we purge all the opposition will we give them land and let them set up bases in Syria, so the kind of situation you are talking about does not exist."

Ye Chen sneered, "Hey, you're really stupid, do you really think they will help you purge the opposition completely?"

"Only if Syria is always in turmoil and always needs their help will they be able to keep asking for all kinds of benefits from you!"

"Think about it carefully, if there is really peace in Syria by then, will your government forces be able to accept, deep down, that there is an armed group as powerful as the Hall of Ten Thousand Dragons in your territory?"

"At that time, even if the Ten Thousand Dragons Temple does not break the contract, you will definitely break it, because as our old Chinese ancestors have long said, there is no room for others to sleep in peace under the couch!"

"So, I can guarantee you that even if the Ten Thousand Dragons Palace clears out your opposition on the surface, after they get a hundred square kilometres of your land, they will definitely cultivate new opposition in secret and jump out to continue fighting against you! They will continue to drag you into the mire of war!"

"In that case, you will again be caught up in a scorching civil war, but that no longer has anything to do with the Ten Thousand Dragons Hall."

"By that time, the Temple of the Ten Thousand Dragons might find you again and propose that you give them another hundred square kilometres of land, and they will help you purge all opposition!"

"And so on, you will be like wounded soldiers with wounds that repeatedly fester and heal and heal and fester, and under this inhuman torture you will never be a healthy and strong man, but will live forever in their shadow!"

Chapter 3243

With these words, Ye Chen had shocked the government commander to the point of horror!

He had never thought about what Ye Chen had said before this.

But now, he suddenly felt that what Ye Chen said seemed to make sense.

At this time, Ye Chen's eyes stared intently at him as he said seriously, "The Hall of Ten Thousand Dragons is, to you, gauze used to bandage wounds!"

"When your wounds keep bleeding, you especially need the gauze to help you stop the bleeding and heal your wounds;"

"But if the wound heals, you yourselves will not let the bloody gauze stay on you, and you will think of removing it!"

"And the gauze itself, if it wants to remain on you, must keep your wounds from healing and bleeding forever!"

"And if the gauze wants to occupy a larger area on you, it will have to find a way to cut more wounds on you! Until your bodies are covered in this gauze!"

With these words, Ye Chen completely stunned the government army commander.

He could already imagine the future of Syria under the covert manipulation of the Ten Thousand Dragons Temple, with war after war, a lot of holes and never any peace.

Ye Chen was still continuing to kill and kill at this time.

He looked at the other party and warned word for word: "Think about the United States of America, Comrade Commander! You Middle East has been suffering from the United States for a long time, the United States of America has brought your Middle East into chaos under the banner of humanity and

even sent troops to invade several countries, do you think he is really looking out for your peace and tranquility?"

"You must understand that they only covet your rich oil resources and want to keep you under their control for a long time!"

"They are the source of your suffering!"

Speaking at this point, Ye Chen pointed his hand at Chen Zhonglei and said in a cold voice, "This group of people is no different from the United States of America, if you still can't recognize this point by now, then you will definitely be tortured by this group of parasites until you are worse than dead!"

The commander of the government troops had turned pale.

He had completely believed Ye Chen's words at this moment.

Believed that the Hall of Ten Thousand Dragons had not come to help them, but had come with a sword to slaughter them.

Chen Zhonglei, who was beside him, could not help but tremble as he listened at this moment.

His heart was appalled beyond belief as he thought, "This guy, how could he know the plans of the Hall Master? It is true that he had planned long ago that after the Hall of Ten Thousand Dragons had established a base in Syria, he would immediately secretly support a new opposition, so that Syria would continue to be mired in a civil war, and that way, the Hall of Ten Thousand Dragons would always be needed and relied on by the government forces, and would naturally be able to use it to demand more resources from the government forces"

"But how does a Hamid's military advisor know all this?!"

"The master of the temple's plan for Syria is parasitism!"

"The All Dragons Temple will first use helping Syria purge the opposition as a lure to make Syria willingly open its doors and let the All Dragons Temple put down roots."

"Once the roots are established, then the Hall of Dragons will be parasitic and expand wildly within Syria!"

"But if Syria recognises the situation now, then they will never continue with their cooperation, and then all of the plans of the Hall of Dragons will be in vain!"

Chapter 3244

At the thought of this, Chen Zhonglei was so nervous that his entire scalp tingled, not knowing what to do.

At this moment, the government army commander subconsciously moved his body to keep a certain distance from Chen Zhonglei and spoke, "The matter is now beyond my personal ability, I need to report to my superiors, please wait for a moment."

With these words, this man stood up and took out his satellite phone and prepared to walk out.

Chen Zhonglei made a quick judgement in his head.

If we let this guy go out and let this guy make a phone call to the top, then all of the plans of the Ten Thousand Dragons Temple would definitely be revealed in advance.

And once it was revealed, the Ten Thousand Dragons Temple had no choice but to get the hell out of Syria.

In that case, more than 2,500 lives would be lost and all the money spent over the past few days would be lost.

But if the Dragon Palace refuses to withdraw, it will have to tear itself apart from Syria.

But if the Temple of Ten Thousand Dragons and Syria went toe to toe, it would be like the Temple of Ten Thousand Dragons invading a sovereign country.

The entire international community would not allow such a thing to happen, and the Hall of Ten Thousand Dragons would become a target!

Thinking of this, deep inside Chen Zhonglei thought of a solution!

He thought, "The words this surnamed Ye just said are only known to the three people who are here, and there is no recording device in this room, so as long as I kill both of them, I will be able to ensure that the true purpose of the Ten Thousand Dragons Hall is not exposed!"

"As for how to explain to the government army after killing these two, we can then completely dump the blame on this Ye, and say that he was the assassin sent by Hamid to assassinate, and that he was the one who first killed the government army commander, and then prepared to kill me, and was finally taken out by me!"

"Right! Just do it! This is the only way to solve the problem!"

At this thought, Chen Zhonglei quickly stood up, stared at the government commander, and said in a cold voice, "Don't go out!"

The government commander took a few steps back and asked in a cold voice, "Chen Zhonglei, what do you mean?"

"What do you mean?" Chen Zhonglei gave a fierce laugh and said through clenched teeth, "I want your life!"

After saying this, he suddenly launched himself at the other side, his body rushing forward with great speed, his movements so fast that ordinary people could hardly see it with their naked eyes.

The government commander, who was just an ordinary man, didn't realise that Chen Zhonglei would suddenly attack him!

Before he could make a move to dodge, Chen Zhonglei punched him in the heart, instantly causing a serious blow to his heart!

He stared at Chen Zhonglei and whimpered, "Chen Zhonglei, you..."

Before he could finish the rest of his words, his eyes rolled back and he passed out.

As Ye Chen watched Chen Zhonglei's ruthless strike kill him, his brows knitted slightly while his heart despised martial arts masters a little bit more.

This was because even a six-star martial artist like Chen Zhonglei relied on the strength and speed of his body to strike the enemy on a physical level.

Chen Zhonglei did have very strong internal energy in his body, but there was no sign of the presence of aura.

From this level, he was still worlds apart from himself.

After killing the government commander, Chen Zhonglei immediately turned to look at Ye Chen and was a little surprised to see that Ye Chen was not even the least bit scared.

However, he quickly put his surprise behind him and quickly flashed his body in front of Ye Chen, saying in a cold voice: "Surnamed Ye! Have you ever thought before that you would one day die from talking too much?!"

Ye Chen did not put the other party in his eyes in the slightest, the corners of his mouth rose slightly and he said with a smile, "Sorry, I can tell fortunes, my fortune shows that I will not die from talking too much."

Chen Zhonglei stared deadly at Ye Chen and asked in a cold voice, "Aren't you afraid at all that I will kill you?"

Ye Chen laughed, "That is only if you can kill me, do you think you can kill me with this level?"

Chen Zhonglei said in a stern voice, "Kid! You really don't know how to repent even at the end of your life! I am one of the Four Great Battle Kings of the Ten Thousand Dragons Hall and a six-star martial artist! I am second only to the Hall Master in the Hall of Ten Thousand Dragons! Killing a trash like you is as easy as a hand!"

Ye Chen couldn't help but sneer, "Damn, a six-star martial artist, you're fucking awesome!"

Chapter 3245

Chen Zhonglei could see the disdain and sarcasm in Ye Chen's expression and coldly said, "It seems that you don't know anything about martial arts! There are not even ten six-star martial artists in the entire mercenary world! Killing you is as easy as a hand!"

"Oh?" Ye Chen laughed, "Many people have tried to kill me, but none of them have succeeded so far, how come you are so confident that you can kill me?"

Chen Zhonglei said sternly, "Just a piece of trash like you, not to mention killing one, even if a hundred like that came, I could still kill them all! My strength is something that trash like you can't possibly understand!"

Ye Chen nodded and said somewhat perfunctorily, "I know, I know, that six-star martial artist of yours, isn't it just that six of the eight channels of the Qi meridians have been opened? I see that your

seventh meridian also seems to show signs of opening, so when your seventh one also opens, will you have to change your name to Seven Star Ladybug?"

Ye Chen's teasing words caused Chen Zhonglei's entire expression to freeze instantly!

He looked at Ye Chen with an incredulous expression, and his voice stuttered a little as he spoke, "How did you see that? Could it be that you are also a Martial Daoist?! Why can't I see your cultivation level?!"

Ye Chen laughed, "Do you believe me when I say that I have the Golden Eye of Fire?"

Chen Zhonglei's heart was suddenly tense, while he was also thinking over and over in his mind.

"I don't know just how capable this surname Ye is, but at times like this, there's no way to turn back! If I don't take him out today, then my taking out of the government commander will be revealed, and then the plans of the Ten Thousand Dragons Temple in Syria will be completely aborted!"

Thinking of this, Chen Zhonglei clenched his teeth and stared at Ye Chen with a deadly stare as he said in a cold voice, "To be able to see my true strength, you do have something! But it's no use just having good eyes! A good fist is the most fundamental thing! Prepare to die!"

After Chen Zhonglei said that, he let out a low roar and quickly threw a full power punch at Ye Chen.

This punch was extremely fast and powerful, and the fist even carried a gust of wind, which whistled to Ye Chen's face in the blink of an eye.

If an ordinary person were to receive this punch, I am afraid that his entire skull would be shattered.

However, Ye Chen did not show the slightest sign of dodging.

Instead of dodging, he gathered his body's spiritual energy into his right hand, ready to take Chen Zhonglei's heavy punch at any time.

When Chen Zhonglei saw that Ye Chen was not dodging, a fierce smile was already on his face.

He had already used all his strength in this punch, and even Wan Bajun, whose strength had reached that of an eight-star martial artist, would not dare to resist it.

Between an eight-star martial artist, and a six-star martial artist, there was a world of difference in strength, but this difference was mainly in speed, strength and overall attack power.

As for the body's defensive capabilities, there was no qualitative leap.

Therefore, Chen Zhonglei felt that with this punch, he was determined to kill Ye Chen completely!

However, something strange happened very quickly!

Chen Zhonglei found that the moment his heavy fist was almost infinitely close to Ye Chen's face, a black shadow suddenly appeared in front of his eyes.

Immediately afterwards, his own right fist suddenly seemed to be slammed over as if by a few tons of iron balls.

With a loud boom, the tremendous force caused Chen Zhonglei's entire fist surface to instantly shatter, and even the bones in his arm were broken!

Chen Zhonglei felt the extreme pain coming from his arm and discovered with despair that the black shadow he had just gotten in front of him was actually Ye Chen's fist!

It turned out that Ye Chen had slammed his own fist directly into Chen Zhonglei's heavy fist.

Who would have thought that it would at least be a gruesome sight like Mars hitting the earth, but who would have thought that the result would be as easy as a hammer hitting a walnut!

Ye Chen's fist was the hammer, while Chen Zhonglei's fist was like a walnut smashed by a hammer!

Chapter 3246

Ye Chen had eaten a lot of Spring Return Pills as if they were mai lisu. Although the Spring Return Pills could not replenish his aura, they had greatly improved his body, and it would not be an exaggeration to say that it was like a bronze wall, plus his right fist was aided by his aura, it was even more indestructible.

Chen Zhonglei was scared out of his wits, he knew that this kind of strength was far from being a martial artist! Even Wan Bajun, who had all eight meridians open, did not possess such great strength!

He looked at Ye Chen dumbfounded, asking in pain and horror, "What on earth are you?"

Ye Chen smiled faintly and spoke, "I've already told you, call me Master Ye!"

Chen Zhonglei forced himself to endure the severe pain and asked through clenched teeth, "How can your strength be so strong?"

Ye Chen sneered, "Harm, mainly because you are too weak!"

After saying that, Ye Chen suddenly stretched out his hand, his tiger's mouth like an iron pincer stuck deadly around Chen Zhonglei's neck, and his expression changed from a cold smile, to an intimidating indifference.

Chen Zhonglei was strangled and hurriedly tried to break Ye Chen's tiger mouth with his left hand, but even with all his strength, he could not get Ye Chen's fingers to part even a millimeter.

He looked at Ye Chen in despair and found that in Ye Chen's eyes, he had already been treated like grass by him, and his life and death had fallen completely into his hands.

At this moment, Chen Zhonglei clenched his teeth desperately and said with all his might, "You you kill me! If you kill me, the Ten Thousand Dragons Temple will never spare you or Hamid! This government army commander's account will also be on Hamid's head you you can't possibly protect everyone even if you are strong!"

Ye Chen laughed, "Aiya, you're scaring me, aren't you? I'm a person who is not afraid of scaring the most."

Saying that, Ye Chen put away his smile and said in a cold voice, "You want me to kill you, I won't let you get what you want so easily, I will let you feel what it means to be worse than death."

As soon as the words left his mouth, Ye Chen's aura surged into Chen Zhonglei's body. The powerful aura, like the indestructible shield machine used in the construction of the underground, rampaged through his eight meridians, destroying all of his meridians in an instant!

For a martial artist who had practiced martial arts for many years, the destruction of his meridians was tantamount to becoming an instant invalid.

Chen Zhonglei felt that his meridians had been severed and his whole body was on the verge of collapse.

He had been practising martial arts for so many years that he had long considered it to be his greatest pursuit in life.

Originally, he was on the verge of breaking through his seventh meridian and was about to become the second talent in the Ten Thousand Dragons Hall to break through all seven meridians.

But who would have thought that all his hard work and pride would be reduced to nothing in this instant!

He looked at Ye Chen with a face full of indignation and asked through clenched teeth, "What did you do to me?!"

Ye Chen looked at the desperate Chen Zhonglei and said indifferently, "I destroyed all your meridians, congratulations, from now on, you are an honourable martial arts invalid."

Chen Zhonglei only felt his anger attacking his heart, his brain was dizzy with a lack of oxygen and he almost fainted on the spot.

It was only after a long time that he came back to his senses, his eyes staring deadly at Ye Chen, his voice hoarse as he shouted, "You are so poisonous!"

Ye Chen laughed coldly, "I just ruined your cultivation, and that's poisonous? Then what about the fact that you tried to kill me with a single punch just now?"

Chen Zhonglei was slightly stunned, then he knew that he could not escape death today, so he said with an expressionless face, "Cut the crap, kill me!"

Ye Chen laughed lightly, "Killing you is impossible, at least not yet."

Saying that, Ye Chen looked towards the government army commander who had already died for a few minutes due to a heavy blow to his heart and asked him with a smile, "Do you think that if this buddy comes back to life and tells the highest level of the government army what happened, how will they settle accounts with you? What would they do to settle the score with you, the Hall of Ten Thousand Dragons?"

Chapter 3247

When Chen Zhonglei heard Ye Chen's words, he was first stunned, then he said with a cold smile, "You think very well, but there's no way he'll survive!"

After saying that, Chen Zhonglei added, "Even if you tell the highest level of the government army about this now they won't believe your enemy's side of the story!"

"The only one who can make the highest level of the government army believe this matter is him!"

"But he's dead! A dead man can never tell!"

Ye Chen skimmed his lips and said indifferently, "Fortunately, it's only a few minutes, it's not cold yet, it's still salvageable."

"Impossible!" Chen Zhonglei couldn't hide his shock as he blurted out, "Even though I didn't use my full strength, his heart has already suffered a heavy blow, even the Da Luo Golden Immortal can't save him!"

Ye Chen smiled and asked him, "The reason you didn't use your full strength just now was because you wanted to frame me, right?"

As he said that, Ye Chen muttered to himself, "Just now I was wondering, you old dog are a six-star martial artist, if you really used all your strength to punch out, I'm afraid you could have directly punched a bloody hole in his heart, and the reason why you deliberately used less strength in your hand was definitely to reduce other people's suspicion of you and to facilitate framing me, right? "

Chen Zhonglei said stiffly, "That's right, I'm going to frame you! Let you and Hamid take the blame! If you kill me, this black pot will be carried by you even more solidly!"

Ye Chen snorted and said, "You're thinking too much, no one has been able to make me, Ye Chen, take the black pot!"

After saying that, Ye Chen added, "Don't worry, I won't kill you either, because you are still of great use to me!"

Chen Zhonglei sneered, "Humph! You are just trying to hold me hostage and escape from here, in the end, you are also a gutless rat!"

Ye Chen stretched out a finger and shook it a few times, laughing, "You guessed wrong, originally I really thought so, but I really didn't expect that you, a fool, would jump to the wall and take the initiative to strike at the government commander, aren't you just giving up all the initiative to me?"

Speaking of this, Ye Chen raised his eyebrows and laughed, "So instead of holding you hostage and escaping, I now intend to lend you a hand and finish off all 15,000 of your Ten Thousand Dragon Hall's men in the Middle East!"

Chen Zhonglei chided out, "Lend my hand? Stop dreaming! I would rather die! I would never betray my brothers!"

Ye Chen sneered and said, "Whether you will betray or not is no longer up to you!"

After saying that, Ye Chen stared into his eyes and sternly shouted, "Kneel down for me!"

As soon as these four words were uttered, Chen Zhonglei felt an inexplicable surge of power into his brain, and immediately afterwards, his legs involuntarily went limp.

Ye Chen had sent spiritual energy into his brain, but as he hadn't replenished it well for days, so much so that the spiritual energy in his body wasn't really abundant, the constant output had left him in an almost overdrawn state.

Luckily for Chen Zhonglei at this point, he had already turned into a ruined man, so it was not too difficult for Ye Chen.

But even so, Ye Chen was thinking in his heart that he would have to put the refining of the Peiyuan Pill on his agenda when he returned, and it would be best to refine it as soon as possible, otherwise if he encountered such a six-star martial artist or seven-star martial artist again, he would have no choice but to fight hard without the help of spiritual qi.

At this moment, Chen Zhonglei felt that the mysterious power entering his brain was getting stronger and stronger, and his heart was desperate, because for some reason, his knees, seemingly uncontrollably, fell directly to the ground.

He was almost on the verge of tears as he asked in despair, "What is this? What have you done to me?"

Ye Chen said in a cold voice, "I am going to use my aura to give you a brainwash."

Saying that, Ye Chen elaborated, "I will seal all of your personal consciousness, but don't worry, after the seal, you will still retain all of your memories, except that your body will be completely disconnected from your consciousness, and everything in your body will obey my command;"

"At that point, although your own consciousness is aware of everything, there is nothing you can do about it."

"In other words, your consciousness will be completely sealed in your brain, and as long as I don't stop, you will never be able to free yourself."

Chapter 3248

Chen Zhonglei's entire being was instantly desperate to the extreme, his eyes filled with endless panic as he cried out and asked, "How do you have aura?! Isn't that a power that only exists in legends?! What the hell are you you?!"

Ye Chen shook his head and sneered, "I'm your father!"

Chen Zhonglei was completely panicked as he cried, "No, please don't seal my consciousness, I don't want to become a living death, please spare me, as long as you're willing to spare me, I'll do whatever you want! I can have all the soldiers of the Ten Thousand Dragons Hall outside surrender their weapons and be at your mercy immediately, please spare me, please"

Ye Chen smiled and asked him, "Are you really willing to listen to me on everything?"

Without hesitation, Chen Zhonglei nodded his head repeatedly and promised, "I swear to God, I will listen to you on everything, I will do whatever you tell me to do!"

Ye Chen smiled and said seriously, "To be honest, I don't quite trust you, how can a person like you, who can even kill his own partner at the drop of a hat, keep his promise?"

Chen Zhonglei broke down and begged, "I swear to God, I really do everything you tell me, please do believe me I really don't want to be stuck in my own body forever please"

Ye Chen grunted and said, "Sorry, I still don't quite believe you."

After saying that, Ye Chen's fingertips once again fed more aura into Chen Zhonglei's brain.

Chen Zhonglei's expression went from being extremely frightened, and soon gradually calmed down, before turning into a face of mute and bewilderment.

Ye Chen let go of his hand at this time, pointed at the government commander lying on the ground, and instructed Chen Zhonglei, "Go carry him over and place him on the conference table."

At this moment, Chen Zhonglei's own consciousness could hear what Ye Chen said and receive the vision his eyes saw, but he was unable to control his body at all.

He could only watch as his body, under Ye Chen's name, immediately stood up, walked over to that commander, strained to pick him up, and placed him on the conference table in front of Ye Chen.

His self-consciousness had been terrified to the extreme, and desperate at the same time.

But there was nothing he could do to change this now, he could only stay honestly in his own body like an unrelated passenger.

His body had also been destroyed, and his entire body was barely a normal human being.

As for the government commander, his complexion was already a little dark and purple.

His heart had suffered damage and thus arrested, causing his brain to be deprived of oxygen, and generally speaking, the best time in such a situation is just four to six minutes.

If four to six minutes is enough to get the heart beating again, there is a certain chance that he will come back to life.

However, at the moment, his heart is severely damaged and his body organs are extremely oxygen deprived, and he is on the verge of biological death.

Normally, this situation no longer had the possibility of being saved.

But to Ye Chen, this was not a big problem.

Ye Chen felt that if he didn't save him, he could still let Chen Zhonglei take himself out of here easily, or he could even let Chen Zhonglei order the Ten Thousand Dragon Hall to withdraw its defences, or let Chen Zhonglei personally escort himself to take Su Shoudao away.

However, after thinking about it, Ye Chen felt that he could not let the Ten Thousand Dragons Hall go so cheaply.

Right now, only this government commander knew the true nature of the Ten Thousand Dragons Temple best.

If he were to save him, then the government army would definitely turn over completely with the Ten Thousand Dragons Temple.

And he, himself, just happened to control Chen Zhonglei again.

If he did it right, he could send all 15,000 soldiers of the Ten Thousand Dragons Hall to the government army as a package!

Chapter 3249

The losses suffered by the Ten Thousand Dragons Hall in the Middle East were already extremely heavy.

But if these 15,000 people were captured again, the loss would be unprecedented.

It would definitely make the Ten Thousand Dragons Hall even more passive and miserable.

Although Ye Chen had no direct grudge against the Ten Thousand Dragons Hall, his intuition always made him feel that this Ten Thousand Dragons Hall would definitely become his enemy in the future.

Therefore, he was more willing to seize this opportunity to wipe out the Ten Thousand Dragons Hall in the Middle East than to retreat with his own body!

And the price for achieving this goal would only be a Spring Return Pill at most.

The Spring Return Pill was certainly precious, but one Spring Return Pill might be able to wipe out all 15,000 men of the Ten Thousand Dragons Hall, so it was still very much worth it to Ye Chen.

So, without hesitation, he took out a Spring Return Pill, intending to stuff it directly into this person's mouth to bring him back to life.

But after taking stock of the potency of this Spring Return Pill, it was estimated that there would still be left over after saving him.

Just like when Hong Wu was on the verge of death, after taking a rejuvenation pill, not only did he save his life and heal his injuries, but his body functions were even greatly improved and he was much younger.

Hong Wu was one of his own, so Ye Chen did not care about the Spring Return Pill.

But this was the first time he had seen this government army buddy today, so he thought there was no need to give him extra benefit.

So he broke off half of the Spring Return Pill and stuffed the other half into the man's mouth.

Soon, the effects of the medicine began to take effect in his body, his damaged heart was repaired and his oxygen-deprived organs were recovering rapidly.

However, when the effects of the medicine had finished, the other man did not wake up immediately.

Ye Chen carefully checked and realised that the other man's brain seemed to have not been fully repaired, so he gingerly broke off another third from the remaining half of the rejuvenation pills and stuffed it into his mouth.

Soon after, this government commander woke up in a quiet way.

The first time he woke up, he felt pain all over his body, especially in his heart, which was like being stabbed with a knife.

On top of that, his brain was deprived of oxygen for several minutes, so he felt a strong sense of pain and dizziness, and even a very strong urge to vomit.

His body was also so weak that it felt like he had just climbed out of the ghost gate and the back half was still hanging there.

If Ye Chen had given him the remaining half of the rejuvenation pills, he would probably be alive and well right now.

However, Ye Chen did not intend to do so, but silently put away the rest of the rejuvenation pills, because he felt that.

Firstly, he was not a relative, not an enemy, not a friend to this fellow, so there was absolutely no need to give him so much face.

Secondly, he had to make this guy hate Chen Zhonglei, and if he was blessed by the disaster, he might somehow have to thank Chen Zhonglei for giving him this opportunity.

So, this is the most appropriate level that will bring him back to life and make him feel all the pain.

This is exactly in line with the four-word proverb left behind by the old ancestors: "Save as much as you can."

The first thing the man did when he woke up was to struggle to get up, while looking angrily at Chen Zhonglei and cursing, "Chen Zhonglei! You son of a bitch, how dare you try to kill me!"

Chen Zhonglei was unable to make any reaction at this point, but deep inside he was already horrified to the core!

Chapter 3250

How could he have imagined that Ye Chen, with more than half an unknown pill, would have saved the life of this guy who had already been killed by himself!

How could this this be possible?!

It was also at this moment that he realised that this person, Ye Chen, was no longer just as simple as being divine, he really didn't understand how Hamid could have such a powerful military commander, this person was far more capable than the Hall Master of the Ten Thousand Dragons Hall, even stronger than that ancestor behind the Ten Thousand Dragons Hall!

Ye Chen looked at that commander at this time and spoke indifferently, "You don't need to accuse him here, his consciousness has already been controlled by me."

The man asked in surprise, "Controlled by you? What does this mean?"

Ye Chen said indifferently, "He almost killed you just now, I was the one who saved you, aren't you going to thank me first for saving your life?"

This government army commander was not a fool, he knew exactly what had happened to him just now.

The moment Chen Zhonglei struck out at him, he knew that he would definitely not survive.

Unexpectedly, he was now saved by this Chinese man in front of him.

Moreover, even Chen Zhonglei, who was exceedingly strong, had been controlled by him.

This showed that this man's strength was far above Chen Zhonglei's.

Thinking of this layer, he hurriedly said to Ye Chen gratefully, "Master Ye Ye, thank you for saving his life!"

Ye Chen nodded with a bit of condescension and opened his mouth to ask, "I still don't know what your name is?"

The other party busily said, "My name is Sayid."

Ye Chen gave a hmp and said, "Sai Yide, you should be able to see from what just happened that Chen Zhonglei has already moved to kill you, he is one of the Four Great Battle Kings of the Ten Thousand Dragons Hall, the fact that he dares to kill you proves that the senior management of the Ten Thousand Dragons Hall has long reached a consensus that they will make a move against you sooner or later."

"So your immediate priority now is to hurry up and lift the threat of the Ten Thousand Dragons Temple and save your country, if you can handle this matter cleanly, you will become a national hero of your country in the history books!"

After hearing this, Said nodded his head without hesitation and said, "Master Ye is right! I've seen their true colours once and for all! I'll call our senior management to inform them, so that they can make a decision immediately!"

Ye Chen spoke, "Report the situation clearly to them, and then tell them that you have a way to capture all 15,000 generals of the Ten Thousand Dragon Hall without bloodshed."

Sayid exclaimed, "Master Ye, you really have a solution?"

Ye Chen nodded, pointed to the bewildered Chen Zhonglei next to him and said indifferently, "With him around, there is definitely no problem."

Sayid said excitedly, "That's really great!"

Saying this, he immediately went to a corner of the conference room and used the war phone here to call directly to the highest level.

When the call was answered, Said reported all the situation here to the leader over the phone, using his own language.

Ye Chen couldn't understand what he was saying, but he could hear that he was getting more and more emotional, and a few times he even choked up.

A few minutes later, Said hung up the phone, looked at Ye Chen and said with red eyes, "Master Ye, I have communicated with the top brass, who are grateful for your help and have promised that if you can help us with the soldiers from the Hall of Ten Thousand Dragons, we are willing to make a permanent truce with Hamid!"

Ye Chen nodded and said blandly, "In that case, you immediately ask for support from your top brass, send all the soldiers you can, here!"

"Good!" Seyi's was so excited that he immediately made another call.

Soon, the government troops dispatched over 20,000 soldiers from all directions and flew in.

During this time, Ye Chen continued to pretend to negotiate with Seyi and Chen Zhonglei, and Xu Yingdong, the three-star war general who had been responsible for picking up Ye Chen before, knocked on the door several times to ask questions, but Ye Chen had Chen Zhonglei send him away, so he did not alert the rest of the Ten Thousand Dragon Hall.

A few hours later, Xu Yingdong knocked on the door again and said somewhat nervously, "Commander, the government army has sent many soldiers over again, are you clear about what's going on?"

Under Ye Chen's instructions, Chen Zhonglei said, "Master Ye has some doubts about our strength, so we have decided to invite Master Ye to review our team with the government army, so pass the order down and have all the soldiers of the Hall of Ten Thousand Dragons gather in front of the camp immediately. Anyone who fails to do so will be locked up for a month and fined two months' pay.

Xu Yingdong thought that Chen Zhonglei wanted to show Ye Chen his muscles, this kind of behavior of showing muscles by inviting parades could often be seen in the international arena, saying that it was a parade, but in fact it was just a deterrent to let the other party see their strength, and then go back and weigh it properly.

Therefore, this kind of parade to show off muscles and ensure that the weapons are not loaded with ammunition also belongs to international practice, so Xu Yingdong did not think much about it and immediately said, "Yes Commander, I will inform it down now!"

At this moment, Chen Zhonglei's own consciousness was on the verge of collapse.

He naturally knew what Ye Chen was going to do, once his 15,000 generals had unloaded their ammunition, wouldn't they be lambs to the slaughter?

But he could not do anything at this moment, he could only worry and fear in his own consciousness.

At this point, Ye Chen for Said: "Are you ready?"

Said spoke, "Master Ye, I have communicated with all the commanders, in a moment we will make a full arrest of the 15,000 mercenaries of the Ten Thousand Dragons Temple, when the time comes heavy machine guns and armoured vehicles will stand guard, anyone who dares to resist will be killed on sight!"
