

Ye Chen 3291

Chapter 3291

Hearing that Ye Feng suddenly wanted to take herself to the airport, Helena looked at Ye Feng with some confusion and asked in surprise, "Going to the airport now? Is there something wrong?"

Ye Feng explained, "It's like this, I have a cousin who has been drifting around for twenty years and is returning to Yanjing for the first time today. Hao Hao and I are going to pick him up at the airport, you are his future sister-in-law, if there is nothing wrong, go with me to pick him up for a while."

As soon as Helena heard this, she nodded without hesitation and said, "No problem, it's the right thing to do."

Ye Zhongquan nodded his head with a smile of relief and spoke, "Alright, in that case. The three of you will go over together."

After saying that, he instructed Tang Sihai, "Sihai, hurry up and prepare the caravan."

"Yes, Master!" Tang Sihai agreed. He hurriedly left the villa first and began to gather the caravan to prepare for departure.

Ye Feng spoke up and said to Ye Zhongquan, "Grandpa, then we will also go out and wait."

"Good!" Ye Zhongquan nodded and instructed, "Remember, make sure you get Chen'er back!"

Ye Feng was busy saying, "Okay grandpa, I know."

After saying that, he gave Ye Hao a wink and said to Helena, "Honey, let's go."

Helena said somewhat apologetically, "Sorry, I didn't know I was going to a public place before, so my makeup was a bit casual, if I go to the airport like this, it doesn't quite meet the family's requirements for our makeup in public, I might have to borrow the restroom to simply fix my makeup, please wait for me for a few minutes."

Ye Feng nodded his head very gentlemanly and said, "No problem, we'll wait for you at the entrance, there's still plenty of time, you don't need to rush."

Helena nodded gently. Then she went alone to the nearest bathroom immediately.

Ye Hao lowered his voice at this time and asked Ye Feng in surprise, "Brother Feng, is this Nordic royal family so much more elaborate? There are still special makeup requirements for going to public places?"

Ye Feng gave a light laugh. He said, "The rules of the European royal family are even more than those in the palace of the Qing dynasty, every set of clothes and accessories has a label from the royal instrument teacher, what clothes correspond to what occasion, what necklace corresponds to what environment, so tedious that it could be a book. It was to be punished within the royal family."

Ye Hao couldn't help but sigh: "This royal family is just different, it takes hundreds of years of noble education to have so much elaboration."

Ye Feng bristled and said with a little disdain, "The imperial families of those small countries. Since the modern era, they have turned into constitutional monarchies, their lives are getting worse and worse, their strength is not strong, but they rely on their poor sophistication, in the old Yanjing language, they are just fucking pretentious!"

Ye Hao laughed heatedly. He agreed, "Brother Feng is right, it's really pretentious!"

Ye Feng hurriedly added, "Eh, I was talking about the royal family who set the system, but not your sister-in-law!"

Ye Hao hurriedly said, "That's right, that's right, I'm also talking about their old rotten gang, nothing to do with sister-in-law."

Ye Feng nodded his head. While chatting with Ye Hao, he walked out of the villa and stood in front of the courtyard waiting for the caravan to gather.

Chapter 3292

The thought of picking up Ye Chen from the airport made Ye Feng feel very upset in his heart. Gritting his back teeth, he cursed: "This Ye Chen is really fucking awesome, he hasn't come back for twenty years and he's coming back to let me personally go pick him up. What the hell is he! He's worthy of being picked up by me too?"

Ye Hao also hurriedly echoed, "Yes, Brother Feng, I really don't understand, do you think Grandpa is senile, why does he attach so much importance to that Ye Chen? If the outside world knew that our Ye family had brought back a direct relative from Jinling who hadn't even finished university, I'm afraid they would laugh their heads off!"

Speaking of this, Ye Hao was furious. Angrily, he said, "Besides, Grandpa was already generous enough to give him an Empire Group before, isn't that enough to send him off? If he had been more sensible, he should have taken the Dihao Group and gotten the hell out of there, or at least never come to the Ye family to attract suspicion!"

Ye Feng said coldly, "Don't mention the Dihao Group to me, I'm fucking angry when I think of the Dihao Group!"

Said. Ye Feng gritted his teeth and said, "Dihao Group isn't worth much, but it's at least two hundred billion market value! For the size of the Ye family's assets, a single Dihao Group already accounts for nearly a tenth of it!"

"We grandchildren can only get a middle management position in the group, our salaries and dividends are not bad, but each of us will only get a few hundred million a year. This is too unfair!"

Ye Hao was also furious when he thought about it. He said indignantly, "At the New Year this year, the group gave out year-end dividends, and I only got a share of over 87 million, not even 100 million! But Ye Chen has a two hundred billion dollar group in his hands, and I seem to remember that Grandpa even had Tang Sihai give Ye Chen a ten billion dollar bank card?"

"Yes!" Ye Feng said with a fierce gaze, "Ten billion in cash, plus two hundred billion for the Dihao Group. How dare this brat Ye Chen not be satisfied and still want to come back and grab the family fortune from me!"

Ye Hao gritted his teeth and said, "Grandpa is also possessed by a ghost and attaches such importance to this Ye Chen! If we really keep him in the Ye family. I'm afraid that your position will be greatly affected in the future, Brother Feng!"

Ye Feng's greatest taboo was when someone tried to steal the position of the heir of the Ye family from himself.

Hearing these words from Ye Hao. The annoyance in his heart towards Ye Chen then intensified by a few points.

He clenched his fist and said in a stern voice, "This time, I can't let that fellow Ye Chen stay in the Ye family no matter what I say! The Ye family has him without me, and I without him!"

Ye Hao hurriedly asked, "Brother Feng, what are your plans?"

Ye Feng said coldly, "First, give him a good show, so that he knows who is the master of the Ye Family! Then find a chance to stink him up, so that the old man will be completely disappointed with him!"

Ye Hao said excitedly, "That's great! As long as grandpa no longer protects him, there will definitely be no place for him in the Ye Family!"

"Not only that!" Ye Feng sneered and said with a sinister face, "When the time is right, I will definitely take the Dihao Group back from his hands! And the ten billion, he will also have to spit it all out for me with interest!"

Ye Hao immediately gave a thumbs up and said excitedly, "Brother Feng, I believe in your ability, you'll definitely have no problem dealing with him!"

Ye Feng's expression was incomparably gloomy as he said in a cold voice, "If we don't get rid of him, both your interests and mine in the Ye family will be affected by him! Hao Hao, in this matter, you must join hands with me, the two of us brothers working together and in unison, do you understand?"

Ye Hao said with a very firm expression, "Brother Feng, don't worry, I will always stand by your side, I will do whatever you tell me to do!"

Chapter 3293

"Good!" Ye Feng nodded and said with satisfaction, "I won't treat you badly in the future."

Ye Hao couldn't help but ask him with a puzzled face at this moment, "Right, Brother Feng, you're already giving him face by going to pick up that Ye Chen, why did you call your sister-in-law as well? Sister-in-law is at least the princess of the Nordic royal family, going to pick up that yakuza Ye Chen is too much to give him face, right?"

Ye Feng sneered and spoke, "I just want him to meet Helena with his own eyes so that he can understand the difference between him and me! That Gu Qiu Yi of the Gu family is not bad. But when it comes to looks and temperament, it's still a bit inferior to Helena!"

"That's natural!" Ye Hao couldn't help but say with an exclamatory expression, "Other than that, sister-in-law's figure is enough to crush Gu Qiuyi. To be honest, European women really have an innate advantage in terms of figure, not only are they tall, but their legs are also thin, straight and long, like sister-in-law's pair of long legs, they simply grow out according to the golden point!"

Speaking of this, Ye Hao looked at Ye Feng with incomparable envy and said seriously, "Brother Feng. You'll be blessed in the future"

When Ye Feng heard Ye Hao praise Helena so much, his heart was also overwhelmed with joy.

Every man was vain in this aspect, and seeing his fiancée being praised so much by Ye Hao, Ye Feng's heart was also bursting with accomplishment.

Helena was indeed the most beautiful woman on earth. Even a top-notch second generation rich man like Ye Feng, who had seen countless women, immediately surrendered with both hands and sank down at the first sight of Helena.

It was precisely for this reason that Ye Feng wanted to bring Helena up with him to pick up Ye Chen.

This would allow Ye Chen to realize the omnipresent gap between him and himself as soon as he landed in Yanjing!

.....

Soon after, Tang Sihai had organised a luxurious convoy of eight Rolls-Royces.

Among them, there was also an extra-long custom-made courtesy limousine.

This stretch limousine, which was specially customised by the Ye family from Rolls-Royce, was almost eight metres long.

And the space inside it was like a mini nightclub, with not only extra-long sofas, top-of-the-line sound comparable to a nightclub, but also a bar dedicated to wine tasting.

At this moment, Helena also came out of the villa, so Ye Feng stepped forward and said in a very gentlemanly manner, "Helena, let's take the middle stretch car together, it's more comfortable inside."

Helena took a look at the extended Rolls Royce, frowned slightly and spoke, "Sorry, I haven't been resting well these days because of jet lag, I might need to be alone for a while, if you don't mind, please take this car with Ye Hao, I'll take the one at the back myself."

Ye Feng didn't expect Helena to be so ungrateful. It was fine if she didn't take this stretch car, at least don't sit by yourself, right? What was wrong with letting himself accompany her in a car?

However, Helena had already said this, and Ye Feng had no way to refuse.

So. He could only send Helena to the car behind him before he resentfully joined Ye Hao and got into the elongated Rolls Royce.

.....

The caravan drove neatly and smoothly towards the airport, and in the stretch Rolls-Royce, Ye Feng said to Ye Hao with some annoyance, "Go open a bottle of red wine and pour me a glass."

Seeing Ye Feng's slightly unhappy expression, Ye Hao took a bottle of high-grade red wine from the mini bar while cautiously asking him, "That brother Feng ah. Isn't this future sister-in-law of mine a little too cold?"

Ye Feng didn't expect that Ye Hao's sentence had just hit his heart.

Chapter 3294

He said with a depressed look, "Helena, as a person, is indeed a bit cold, and it is said that she is usually not very good at coming to terms with the Nordic royal family. That's why she wasn't so well received, so much so that she was even stripped of the title of Crown Prince."

Ye Hao nodded obediently and spoke, "Harm, in fact, this is good, if sister-in-law was still the Crown Prince, she wouldn't have joined with our Ye family in marriage, you don't need to be too anxious, after all, you can't eat hot tofu in a hurry."

Ye Feng gave a cold snort of disdain. He said with a face full of fire, "What's the point of eating hot bean curd in a hurry, that's just bullshit."

After saying that, he impatiently urged, "Where is the wine, hurry up and pour it for me."

Ye Hao said, "Brother Feng, the wine is not yet awake, why don't you wait for a while?"

Ye Feng said impatiently, "What's the point of waking up? If you wake up again, you'll be at the fucking place, just pour me a glass."

"Okay, Brother Feng." Ye Hao didn't dare to be slow and hurriedly poured a glass of red wine for Ye Feng.

Ye Feng took the glass and first smothered a large sip. Then he opened the bow tie of his tie, a pair of vulture-like eyes, staring silently out of the window, a hint of coldness that was hard to detect for ordinary people flashed in his gaze.

He was well aware of it. Although he was infatuated with Helena's appearance and body, Helena and himself actually had no emotional basis, both parties had only come together under a marriage of interest.

Helena wouldn't let herself be touched now, and she might not be resigned to her fate after the marriage.

Perhaps, after the marriage, she would still be flinging this cold and stinky face with herself.

Thinking of this, he suddenly changed his mind.

Originally, he had wanted to wait until after the wedding before he married Helena, but now he planned to cook the rice immediately after the engagement.

Who cares, let's do it first!

The first thing you need to do is to take a look at the website.

.....

Yanjing Airport.

The Boeing business jet Ye Chen was on had already started to align with the runway.

With a light tremor of the fuselage. The plane's landing gear had opened in the air and the flaps on both sides had been opened to their maximum.

A beautiful and attractive flight attendant walked in from the front cabin and said respectfully, "Young Master Ye, our plane is about to land, and Miss Gu has just called to say that she is already waiting for you at the hangar."

This stewardess, as well as the crew members in the cockpit, had all been sent by Gu Yanzhong when he sent Ye Chen this plane. It had been arranged for Ye Chen, and they all knew Ye Chen's identity, but were also very aware of the need to keep it a secret.

Ye Chen nodded slightly, "I understand, thank you."

"You're welcome."

The flight attendant turned around and returned to the front cabin, so Chen Zekai asked Ye Chen, "Young master, are you really not going to the Ye family later?"

"No." Ye Chen said casually, "I have already promised Uncle Gu that I will go directly to the Gu family later, besides I don't want to have too much contact with the Ye family, you can go to the Ye family yourself later and tell them by the way that I will go there tomorrow."

Chen Zekai wanted to say something, but thought better of it and held back. Then he nodded gently and said, "Alright then, I'll talk to Master after I get to the Ye family."

Soon, the plane landed smoothly on the airport runway, and after a further counter-thrust to slow down, the plane pulled off the runway and headed for Hangar 6, which had already been scheduled.

As the plane slowly came to a stop inside the hangar, Ye Chen could already see inside the hangar. The old Volvo sedan that Gu Qiuyi loved to drive the most.

This girl had always kept a low profile and never drove any luxury cars out on a regular basis, driving this kind of car was not only low profile, but it also allowed her to avoid the paparazzi's tracking.

At this moment. Gu Qiuyi, who was wearing a mask and sunglasses, also stepped down from the car and ran ahead to the bottom of the plane hatch, waiting for Ye Chen with anticipation.

After the boarding ladder docking was completed. The cabin door opened and Ye Chen stepped out of the cabin.

Gu Qiuyi looked up at him and jumped in place while waving her hand at him, excitedly shouting, "Brother Ye Chen!"

Chapter 3295

Seeing Gu Qiuyi, Ye Chen was also in an extraordinarily good mood, so he took a few quick steps to her and asked with a smile, "How long have you been here?"

Gu Qiuyi stepped forward to take his arm and gently shook it while saying with a smile, "Not long, I've only seen half of a movie."

With that, she hurriedly pulled Ye Chen towards the car, chanting, "My father and mother have cooked a big table at home, waiting for you to receive them! Let's hurry back!"

Ye Chen laughed, "Don't rush, Old Chen is still behind, I'll say hello to him."

Only then did Gu Qiuyi see Chen Zekai, who had just stepped down from the boarding ladder, and said with some embarrassment, "Sorry, Mr. Chen, I didn't notice you just now!"

Chen Zekai said, "Miss Gu, you are too kind, how can you have anyone else in your eyes at this time?"

Hearing this, Gu Qiuyi's face burnt, but she still gave Chen Zekai a thumbs up and praised him, "As expected of you, Mr. Chen, you are really good at talking!"

After saying that, she added, "Mr. Chen, my parents are waiting for brother Ye Chen at home, so we'll leave first!"

Chen Zekai nodded and smiled, "Miss Gu, drive safely on the road."

Just as he finished speaking, eight black Rolls-Royces drove into the hangar one after another.

The eight cars were parked horizontally in a row, each with the classic Rolls-Royce temple-shaped grille on the front, as well as the flying goddess made of pure gold.

Immediately afterwards, the doors of the eight cars opened, and in addition to the Ye family bodyguards dressed in black, Tang Sihai, Ye Feng, Ye Hao and Helena, all stepped out of the cars.

When Tang Sihai saw Ye Chen, he stepped forward and greeted him respectfully, "Young Master Chen, you've had a hard journey!"

As soon as Tang Sihai finished speaking, Ye Feng stepped forward and blocked him aside with his hand, looked at Ye Chen with a smile and said, "You must be my poor cousin, Ye Chen, who has been wandering around for twenty years and has no home to return to, right?"

Ye Chen frowned at him and asked expressionlessly, "Which one are you?"

Ye Feng smiled and spoke, "Older brother, you've been away from home for so long that you don't even remember me? I'm your cousin, Ye Feng!"

After saying that, he took a big step towards Ye Chen, stretched out his arms and hugged him hard, and said with a smile, "Good brother, you've finally come back! You don't know how much we've worried about you all these years! You've suffered for so many years! But don't worry, after that big brother will definitely take care of you more and make up for the suffering you've suffered for so many years!"

Ye Chen said indifferently, "Then I'm really grateful to you guys for thinking of me."

Ye Feng waved his hand, "Hey, family, don't say anything about family! We are all very happy that you are back! So as soon as we heard you were coming today, Hao Hao and I rushed over to pick you up."

Saying that, he pulled Ye Hao over and said with a smile, "This is your younger brother, the son of Third Uncle's family, Ye Hao, he was still in kindergarten when you left back then."

Ye Hao looked at Ye Chen and said with a smile, "Second brother, I always thought I would never have the chance to see you in this life, but I never thought we would see each other again one day."

Ye Feng laughed, "What kind of words are you saying, other people's Ye Chen has fallen into exile, not died in another country."

"Yes, yes, yes!" Ye Hao hurriedly nodded and said, "Big brother is still right, don't be offended, second brother, I'm a fun-loving person, I studied a master's degree in business administration in the United States and came back, I didn't study for a doctorate, I'm not highly educated, if I say something wrong, you should bear with me a little more."

Ye Chen smiled and nodded his head.

He knew that these two brothers had no good intentions in coming to pick him up today, one ridiculed him for wandering around for twenty years, and the other ridiculed him for not having studied much.

Chapter 3296

However, these were nothing to Ye Chen, even if the old man of both of them were standing here today, Ye Chen would not give them a second glance, so naturally he would not put these two clown-like fops in his eyes.

It was Gu Qiuyi who couldn't stand it, so she raised her hand to take off her mask and sunglasses and looked at Ye Feng and Ye Hao, saying with an unkind face, "Ye Feng, Ye Hao! What the hell are you two up to? Brother Ye Chen has just returned to Yanjing, and you two are like clowns singing a double act, popping out to sing in unison.

Only then did Ye Feng and Ye Hao realise that the woman standing beside Ye Chen, whose face was covered with a mask and sunglasses, was Gu Qiuyi, who had taken the country, or even the world, by storm.

Even Helena, who was with the gang, could not help but be a little surprised to see Gu Qiuyi.

Although she could not say that she was a fan of Gu Qiuyi, she had heard Gu Qiuyi's songs and admired her, and had a feeling of being a roadie fan, so she was naturally a bit surprised to see her suddenly here today.

When Ye Hao saw Gu Qiuyi's angry face in defence of Ye Chen, he was really jealous to the extreme.

Originally, his elder brother Ye Feng had found a Nordic royal princess, and Ye Hao did not say anything on the surface, but he had long been jealous in his heart.

However, he knew in his heart that Ye Feng was the eldest son and grandson of the Ye family after all, and could be said to be the one with the highest gold content among the younger generations of the Ye family, so he was definitely no match for him.

But now, seeing that a superstar like Gu Qiuyi had not only come to pick up Ye Chen personally, but even defended Ye Chen to the fullest, Ye Hao was a bit indignant in his heart, feeling that even if he was not as good as Ye Feng, he should not be as good as Ye Chen.

At this time, Ye Feng opened his mouth and explained, "Aiya Nui Nui, don't misunderstand, we knew that Ye Chen was coming back today and were excited in our hearts, that's why we came all the way here to personally greet him, there was no other meaning."

Gu Qiuyi knew that he was trying to muddle through here, and did not buy his argument in the slightest, saying in a cold voice, "What inan, is inan what you call it?"

After saying that, Gu Qiuyi raised her body a few points and said in a righteous manner, "I'm telling you Ye Feng! Don't think I can't hear the nasty meaning in your words, I'm putting it here today, no one in your Ye family will ever think of bullying my brother Ye Chen! Whoever dares to give my brother Ye Chen a blank stare, I, Gu Qiuyi, won't even want him!"

Ye Feng didn't expect that Gu Qiuyi would be aggressive and not give an inch when he wanted to find a step down, but he was at a disadvantage, so he couldn't turn his back on her and said with a stiff smile, "Qiuyi, you really misunderstand, Ye Chen and I are cousins of the same grandmother, blood is thicker than water, how can we bully him?"

Gu Qiuyi hugged her shoulders and said coldly, "Don't play sloppy with me here! If I can't, I'll go to the Ye family to seek justice from Grandpa Ye! Repeat what you have said to Grandpa Ye and see what he says!"

Ye Feng was in a bit of a dilemma, he really didn't expect Gu Qiuyi to seize on this point and didn't know what to do for a while.

It was Ye Chen who spoke up and said to Gu Qiuyi: "Come on, Nui Nui, it's a small matter, so don't hold on to it."

Hearing Ye Chen speak, Gu Qiuyi immediately nodded obediently and then said to Ye Feng, "I'll listen to brother Ye Chen this time, so I won't bother with you! But there better not be a next time!"

Ye Feng was depressed, who would have thought that sneering at Ye Chen a few times would make this aunt Gu catch a rebuke, but the key was that he was at a disadvantage and really didn't dare to fight her head-on.

So, he hurriedly changed the subject, pointed to Helena beside him and said with a smile, "Come, come, Ye Chen, let me introduce to you, this is your future sister-in-law, the eldest princess of the Nordic royal family, Helena Iliad!"

Having said that, he then hurriedly said to Helena, "Helena, this is my cousin, my second uncle's son, Ye Chen!"

Helena politely gave Ye Chen a slight nod, then took the initiative to extend her hand and spoke, "Hello Ye Chen, I'm Helena, nice to meet you."

Ye Chen similarly politely reached out to shake her hand gently, and said in a light-hearted manner, "You are not doing well, so you should pay more attention in the near future."

Chapter 3297

When Ye Chen first saw Helena, he was not surprised, as other men were, by her stunning and exotic face, but by the excessive whiteness of her complexion.

It was normal for white people to have fairer skin, but Helena was a little too white.

Her complexion gave the impression that she was very much like the Elven princess in the movie *The Lord of the Rings*, not only white, but much whiter than the average white person.

Therefore, Ye Chen paid more attention to her body condition, and at a glance, he could see that her body was much weaker compared to normal people, typically suffering from a serious lack of Qi and blood all year round.

It could be said that the whole person was in a stormy state and could collapse at any time at once.

The moment he gently shook hands with her just now, Ye Chen used his spiritual qi to silently look around inside her body, and at the same time discovered the actual foci of her illness.

In his opinion, Helena's heart, as well as the arterial blood vessels in her heart, brain and lungs, all had very obvious congenital deficiencies.

On the one hand, because of a defect in the septum between the ventricles of the heart, which caused a large amount of blood to return to the heart, thus increasing the load on the heart.

On the other hand, it was because her pulmonary arteries were too narrow, resulting in much poorer than normal cardiopulmonary function throughout.

On top of that, her symptoms were accompanied by ventricular hypertrophy as well as displaced aorta.

Ye Chen did not know Western medicine, so he was not sure what kind of condition her heart problem actually belonged to in modern medicine.

However, with his aura perception, he could conclude that Helena was not in a good state.

Not only was her heart not good, but her body was also very weak, and if things continued like this, she would probably only have a few months left to live at most.

If there are any other external factors, or if she is too tired or in a dull and painful mood, she will probably die of illness.

Just now, Ye Chen's sudden remark startled Helena.

She looked at Ye Chen with an unbelievable face, really unable to understand how on earth Ye Chen could tell that she was not in a good condition.

And at this moment, her heart was also extraordinarily nervous, fearing that this matter would be known by the rest of the Ye family.

So, she hurriedly said to Ye Chen, "Mr. Ye may have misunderstood, I am in good health, I just haven't been jet lagged recently."

Ye Chen was about to say something else when Ye Feng said with an unhappy face, "Ye Chen, I know you know a bit of feng shui and fortune telling and other charlatanism, but don't talk nonsense in front of your sister-in-law!"

Ye Chen shrugged his shoulders and said to Helena, "If you feel that your heart hurts too much to bear, bite your right middle finger harder."

Saying that, Ye Chen stretched out his hand and squeezed her right middle finger with one hand, and with the other hand, he gently clicked on her fingertip and spoke, "Here, this is the one, remember, only this finger can save your life."

No one knew that when Ye Chen spoke just now, the light tap on Helena's right middle finger was actually a trace of spiritual energy that he had quietly left at the tip of her right middle finger.

This trace of spiritual energy was cleverly sealed in Helena's fingertip, so that once it was vigorously squeezed, it could immediately flow into her body and save her life at a critical moment.

If it was two days ago, Ye Chen would not have had such a strong ability to control the aura so skillfully.

It was because after taking the Peiyuan Pill, not only had the spiritual energy in his body multiplied several times, but even his ability to control it had also been enhanced.

Only, no one knew that Ye Chen had just left a life-preserving talisman for Helena, instead, both Ye Feng and Ye Hao thought that he was making it up.

Ye Feng even thought that Ye Chen had grabbed Helena's finger in order to take advantage of her on purpose!

Chapter 3298

Thus, he stepped forward with some sulking anger, blocked Helena behind him, and said to Ye Chen with an annoyed face, "Ye Chen, although you are my younger brother, if you dare to have any unpleasant thoughts towards your sister-in-law, don't blame me for being unkind to you!"

After saying that, he then looked at Gu Qiuyi and Tang Sihai and said offhandedly in anger, "Miss Qiuyi and Steward Tang, you must have seen what Ye Chen did just now, have I wronged him?"

Ye Feng was not a reckless man, and the reason why he had to say that was to let Gu Qiuyi, and even Tang Sihai, hear his words.

Ye Feng felt that Ye Chen had indeed taken the initiative to touch Helena's finger just now, and he had to take this shit if he put it on him himself!

Tang Sihai was more or less embarrassed, and he didn't know exactly why Ye Chen had done that, but Gu Qiuyi said with a firm face, "Ye Feng, don't you dog bite Lü Dongbin! You don't even know what my brother Ye Chen is capable of! Since he said to let Miss Helena bite her right middle finger at a critical moment, then he must have his reasoning!"

"There's no reasoning!" Ye Feng coldly snorted, "I think you've been haunted by him! I advise you to wipe your eyes early!"

Gu Qiuyi puffed up and said, "Cut the crap, you don't have to care about my business!"

Ye Chen didn't feel the least bit angry at Ye Feng's performance, he just said indifferently, "All right, don't shout like a shrew here, I've finished what I need to say, it's your freedom to think what you want, if there's nothing else, I'll leave first."

Ye Feng shouted sternly, "Stop right there! You still haven't given me a reasonable explanation for this matter!"

Ye Chen laughed and ignored him, but looked at Helena and asked her, "Miss Helena, do you think I need to explain in detail?"

As soon as Helena heard this, she shook her head a little nervously and said, "No need no need."

After saying that, she turned to look at Ye Feng and said firmly, "I believe that Ye Chen has good intentions, he is definitely not what you think."

"I" Ye Feng was so angry that he almost lost a breath.

He had never dreamed that Helena would speak for Ye Chen.

Although he couldn't figure out the reason, but since Helena had said so, if he still seized on it, it would look like he was playing on the issue, and if he went to his grandfather to complain then, he wouldn't be 100% justified.

So, he could only nod and said in a cold voice, "Fine! I'll let this matter go for now!"

After saying that, he looked at Ye Chen and said in an unkind tone, "Ye Chen, grandpa said that you have been wandering around for so many years, you just returned to Yanjing today, you must return to the Ye family first, the caravan is already here, come back with me!"

Ye Chen hummed and laughed: "Heh" Sorry, go back and tell him that I will go back to the Ye family tomorrow."

After saying this, he looked at Tang Sihai again and said with a bit of respect, "Housekeeper Tang, take the trouble to bring a message for me as well, I'm going to Uncle Gu's house today, I'll make an appearance first thing tomorrow morning."

Tang Sihai didn't dare to say more, nodded respectfully and said, "Okay Young Master Chen, I will return the message to Master."

"Mm." Ye Chen nodded slightly and said to Gu Qiuyi who was beside him, "Nui Nui, let's go."

Gu Qiuyi immediately agreed, "Okay Brother Ye Chen!"

After saying that, she immediately pulled Ye Chen and turned towards her Volvo.

Ye Feng shouted behind him with a black face, "Ye Chen! You have to get it straight, if you don't go back with me, it's grandpa who is disobedient!"

Ye Chen said without turning his head back, "Who cares!"

After saying that, he pulled open the passenger side of the Volvo and directly sat in it.

Gu Qiuyi started the car and with a kick of the accelerator, the car drove out through the gap between the two Rolls-Royces

Chapter 3299

Ye Feng looked at the back of that Volvo, his heart was both angry and yet he couldn't help a burst of secret joy.

He was angry because this guy, Ye Chen, really didn't give himself any face at all.

"Not giving me face is all secondary, the key is that this guy even touched my fiancée's delicate hand!"

"Simply fucking outrageous!"

However, what he was secretly happy about was, "Ye Chen has played a bit big this time, I don't even need to add fuel to the fire by going back and explaining this situation to grandpa directly, he will definitely be furious too."

"What I was most afraid of before was that the old master was biased towards Ye Chen, but Ye Chen not only did not act in a proper manner this time, he didn't even put the old master in his eyes, so the old master shouldn't be able to be biased towards him this time, right?"

"Once the old master is displeased with Ye Chen, won't I win straight away?"

However, Ye Hao, who was beside him, hadn't yet penetrated this layer and said with some annoyance, "Brother Feng, this fellow Ye Chen is too uncaring! How dare he not even give you face!"

Ye Feng sneered and said, "A bumpkin from the countryside, who has never studied and has little upbringing, since he loves to act so much, let him be."

After saying that, he waved his hand and spoke, "Let's go back, grandpa is still waiting!"

Ye Hao nodded and couldn't help but spit and cursed, "Damn, why did such a relative appear from the old man, what a fucking bad luck!"

Ye Feng turned his head to look at Helena, seeing that her expression was a bit lost in thought, he hurriedly asked gently, "Helena, are you alright?"

Helena had been a bit lost in thought, and only when she heard Ye Feng's words did she come back to her senses, she hurriedly waved her hand and said, "No, I'm just a bit tired, please take me back to the hotel."

Ye Feng asked, "It's almost noon, you have to eat at the hotel, why don't you go home to eat?"

"No." Helena spoke, "I'm really sorry, I do feel a bit uncomfortable, I want to go back and rest first."

Seeing this, Ye Feng didn't insist any further, but said in a gentlemanly manner, "Okay, then I'll send you to the hotel, you take a good rest, and if you feel better in the afternoon, I'll go out with you again."

"Okay."

Helena answered, and then she went straight into the car she came in.

Ye Feng was a bit depressed, but he couldn't say much, so he reentered the extended Rolls Royce with Ye Hao.

On the way out of the airport, Helena sat alone in the back of that Rolls-Royce, her whole body was a bit lost in thought.

What came back to her mind at that moment was her own difficult life.

Although Helena came from a royal family, she had an unhappy fate.

Her grandmother was the Queen of the Nordic countries and her father, who had been crowned Crown Prince since he was a child, died at the age of forty because of a congenital heart problem.

In Helena's family, congenital heart disease was relatively common, but there were different people with different degrees of severity.

This is largely due to the fact that intermarriage between close relatives has been common in the royal houses of Europe over the past few hundred years.

This has given rise to a number of genetic defects, including the famous haemophilia, as well as various other inherited congenital diseases.

Helena's father, knowing from a young age that he was in poor health and knowing that his mother was in her prime and that he might not live to inherit the throne, had pinned his hopes on his children.

But to his despair, Helena was born with an inherited congenital heart defect that was even worse than his own.

Helena's disease, a congenital tetralogy of Fallot.

This disease, which represents her heart system, was born with four huge defects from birth.

The mortality rate for people with this disease is about 50% within three years of age, and 90% of patients do not live to adulthood.

Chapter 3300

Helena was born when her father was 25 years old and her grandmother, the Nordic Queen, was 60.

Her father was the Crown Prince and first in line of succession, so it was only natural that she was made second in line of succession.

Later, Helena's father discovered Helena's congenital disease, but in order to allow Helena to inherit the throne someday, he did not tell the royal family about it, but privately found the best doctors to treat Helena in the best way possible, so that she could live longer.

Helena's father believed that although his own chances of succeeding to the throne were slim, as long as he hid Helena's birth defect and did everything he could to keep Helena alive until she was 25, then Helena would have a chance of succeeding to the throne before she died.

For he himself and Helena's grandmother, were only thirty years apart, but Helena was sixty years apart from her grandmother.

Normally, the current Queen would have lived until she was in her eighties and that would have been about it.

If Helena would have lived to be twenty-five, then her grandmother would have been eighty-five.

As long as Helena can make it to her grandmother's death, then she will be well on her way to the throne.

And as a member of the royal family, the only pinnacle in life is to inherit the throne.

So, as far as her father was concerned, as long as Helena made it to the throne, even if she was only queen for a year or even a month, her life would be considered complete.

For the first ten years or so, Helena's health was kept very well hidden, but when Helena's father died, Helena was so distraught that she suddenly suffered a heart attack at the funeral, and was taken to hospital for emergency treatment before she recovered.

Realising that she had been deceived, Helena's grandmother, the current Queen of the Nordic Kingdoms, took the decision to disinherit Helena and instead made Helena's uncle's daughter, Helena's cousin, first in line of succession.

Deprived of her father's protection and disqualified from the succession, Helena was immediately marginalised within the royal family.

Even though she was seriously ill, Helena could not escape the fate of exchanging her interests for the royal family and was forced to join the Ye family in marriage.

Even though the royal doctors concluded that she had at most three to five years to live, the royal family was still unwilling to give her freedom.

From the royal family's point of view, three to five more years was enough, and they intended to make good use of the three to five years to try to get some resources and financial support from the Ye family, which could surely benefit them greatly.

The reason why Helena agreed to all this was also because the royal family was holding her mother's future old age hostage.

If she did not agree, then after her death, her mother would be expelled from the royal family and lose all royal treatment, which would mean that her mother would not even have a pension in the future.

Helena did not want her mother to be left alone and without support after her death, so she was forced to agree.

All this time recently, she had been walking on thin ice.

On the one hand, she was worried that the Ye family would find out about her body, and on the other hand, she was also afraid that after she married Ye Feng, a man without any emotional foundation, she would only hasten her own death.

In that case, she wouldn't even have the chance to spend a good amount of time with her mother again before she died.

Thinking of this, Helena could not help but shed two lines of tears.

It was too painful to be alone in a foreign country, this feeling of being manipulated by fate, unable to resist and unable to do anything about it.

At the same time, she could not help but think of Ye Chen.

Then, she couldn't help but sigh in her heart, "Could that Ye Chen really have seen my illness?"

"I've heard others say that Chinese medicine has the saying 'look, smell, ask, cut', and it is said that one can tell a person's physical condition just by looking, so could it be that he is some kind of Chinese medicine expert?"

Thinking about this, deep inside Helena couldn't help but sigh, thinking, "What use is a Chinese medicine expert? Even if he could see my illness, he could not possibly cure me."

"My illness was diagnosed when I was born, and after more than twenty years, doctors all over the world have seen what I have, but none have been able to cure it"

"I have a huge defect in my heart as well as my cardiovascular and cardiopulmonary vessels, even a heart transplant is not going to cure it"
