

Ye Chen 3321

Chapter 3321

When Ye Feng heard this, his body jolted and he blurted out, "Grandpa, do you want me to send her back myself? I still have to attend the ancestral ritual!"

Ye Zhongquan blurted out, "After such a big incident, if we in the Ye family just let the doctor send Helena back, it will definitely fall into disrepute, you are the eldest son and grandson of the Ye family and her fiancé, you can fully represent the Ye family!"

"Besides, by taking the Concorde, you can arrive in Northern Europe in four hours, you can return immediately after handing her over to the Nordic royal family, and you will be back this evening or at the latest in the early hours of tomorrow morning, without delaying your participation in the ancestral ritual."

Speaking of this, Ye Zhongquan added, "Helena is your fiancée, if you don't send her back, the Nordic royal family will definitely pick on you, and word of this will have a great impact on your reputation! You're young, you can't just carry the label of a transnational negative-hearted man!"

At the same time, Ye Changkong said, "Yes, Little Feng! You have to come forward in this matter! Otherwise, you will be cursed to death by the world!"

Ye Feng couldn't help but curse in a low voice, "What a fucking bad luck!"

After saying that, he realised that he had said the wrong thing and hurriedly said, "Sorry grandpa, sorry dad, I was a bit anxious just now, don't mind."

Ye Zhongquan waved his hand and said, "It's alright, you hurry up and take Helena to the airport, remember to coax her on the way, don't let her get emotional again, make sure she gets back to Northern Europe alive, understand?"

"Understand understand" Ye Feng nodded his head in a hurry.

At this moment, Director Zhao returned to the resuscitation room in a hurry.

Ye Zhongquan looked at Ye Feng and said offhandedly, "Little Feng, you go in with me and calm Helena down!"

Ye Feng could only nod and went into the resuscitation room with Elder Ye.

As soon as they entered the resuscitation room, Director Zhao said offhandedly to several doctors, "All of you hurry up and prepare emergency drugs, first aid equipment as well as oxygen machines and oxygen cylinders, we will leave for the airport in fifteen minutes and then fly to Northern Europe without stopping!"

As soon as they heard this, they immediately scattered and went to prepare.

Helena was lying weakly on the hospital bed, looking at Ye Zhongquan and Ye Feng, and asked with a bitter smile, "Are you sending me back?"

Ye Feng nodded and said stiffly, "Helena, we have an old Chinese saying about returning leaves to their roots, you are in such a bad condition, we have to send you back to Northern Europe before your condition deteriorates even further."

Helena let out a miserable smile and said, "Good Thank you for your kind words But I'm afraid I won't last until the plane lands in Northern Europe"

As soon as Ye Feng heard this, his face turned green, the most fucked up thing about this kind of thing was that as long as Helena couldn't last until Northern Europe, even if she was short of breath a second before the plane landed, this matter was still the Ye family's responsibility.

Ye Zhongquan also knew this well.

If Helena was just a member of a large Nordic family, this would be fine, after all, it was a private matter between two families, but Helena was a Nordic royal princess, even if the royal family has long since lost its political rights, but after all, it is also a Nordic political symbol, it is impossible to completely circumvent the political factors.

Once the political dimension is raised, the matter cannot be easily resolved in private!

Ye Zhongquan was in a dilemma all of a sudden.

However, looking at Helena's current situation, he was afraid that she might not be able to make it back to Northern Europe.

Just when he didn't know what to do, Helena spoke weakly, "How about Why don't you take a video of me with your phone I'll I will make it clear in the video that my death was due to a congenital disease I had as a child, and that it had nothing to do with your Ye family This way you don't have to No need to be in such a hurry send me to the airport"

Chapter 3322

Ye Feng, who was most afraid of being known as a heartless man in the future, was delighted but said, "Oh Helena, that's not what we meant, we simply want you to be able to return to the country you love, so that you don't have any regrets."

Although Ye Feng said so, his hand had already reached into his pocket and pulled out his mobile phone, turned on the video recording again and said to Helena, "But your idea is indeed quite good, in order to avoid misunderstandings among the public about this matter in the future, it would be hard for you to explain the situation to everyone."

Helena was not surprised that Ye Feng would do such a thing, so she turned to the camera and spoke with difficulty, "Hello everyone I am Helena I have been suffering from congenital Tetralogy of Fallot since I was a child, and now that my symptoms have flared up, it may be hard to get through this I hope that people who see this video will not blame anyone for my death."

Hearing this, Ye Feng and Elder Ye breathed a sigh of relief at the same time.

And at that moment, Helena's eyes were red and she seriously said, "In addition to that, I would like to plead with everyone to save my mother, who is now under house arrest by Princess Olivia of the Nordic Royal Family!"

Immediately afterwards, Helena's emotions were very emotional as she angrily denounced, "Olivia has deliberately placed my mother under house arrest in order to force me into a marriage with the Ye family of China and force me to help the Nordic Royal Family attract funds from the Ye family, and is using her life and safety as blackmail to force me to give in!"

"I hope that Olivia, after seeing this video, can be pressured to restore my mother's personal freedom, and at the same time, I implore the Nordic government to please ensure my mother's safety"

At this point, Helena became even more emotional and sternly said, "I also hope that after my death, the Nordic government will thoroughly investigate Olivia's crime! A snake-hearted, evil person like her must not go unpunished, let alone become the next Nordic Queen! She should be sent to prison and become a criminal reviled by the people of the world!"

Seeing that Helena was so agitated that her body could not help but tremble violently, Ye Feng hurriedly stepped forward and said soothingly, "Helena, don't get excited, your body is still the most important thing now!"

Helena looked at Ye Feng, smiled sadly and spoke, "That's fine, that's all! When I die, please publish the whole video, that would be a big favor to me."

Ye Feng coughed awkwardly twice and said, "Cough cough, I should, I should, it's just a hand up, by the way, how are you feeling?"

Helena smiled with difficulty, "I feel like a stalled plane that is falling fast, the moment it hits the ground, everything will be relieved"

The other side of Ye Zhongquan was busy saying, "Helena, you'd better try to hold on as long as you can, if you can make it to Northern Europe, it would be best, when you get to Northern Europe, you might still have a chance to see your mother again."

Helena shook her head gently and said weakly, "I may not be able to hold on, but you guys don't have to worry, with the video I just recorded, even if I die now, you guys don't have to take any responsibility."

Hearing these words, Ye Zhongquan's nervousness instantly relaxed a lot.

At this moment, the monitor next to Helena emitted an ear-piercing warning sound, and Helena's blood pressure, heart rate and blood oxygen indicators were all dropping drastically.

At the sight of this, Director Zhao hurriedly shouted to the few doctors who were packing up their things, "The patient is in critical condition, prepare for first aid!"

Helena waved her hand with difficulty and whispered, "Don't bother, please leave me this last bit of decency"

Director Zhao looked at Ye Zhongquan and opened his mouth to ask, "Master, what do you mean?"

Ye Zhongquan sighed and said, "Follow Princess Helena's wishes!"

After saying this, he did not want to stay in this depressing atmosphere of the resuscitation room, so he turned around and walked out.

An old man of his age was most afraid of such occasions, even if it was not himself who was lying there being resuscitated, it would always make them unconsciously associate themselves with him.

Seeing that Ye Zhongquan had gone out, Ye Feng hesitated for a moment and said offhandedly to Director Zhao, "Director Zhao! I think we should definitely salvage it! Otherwise, in case someone from the Nordic royal family does an autopsy later on and finds out that we didn't resuscitate with care at the last moment, they might use this as a handle to attack us and say that we didn't save well"

Speaking of this, Ye Feng choked out, "In that case, wouldn't we have to take another f*cking fall?!"

Chapter 3323

Hearing that Ye Feng's instructions were very different from those of the old master, Director Zhao asked, "Young master, should I ask the old master for instructions then?"

"No need!" Ye Feng said offhandedly, "Hurry up and resuscitate, make sure you do all the resuscitation measures, if grandpa blames me, I'll take the blame!"

As soon as Director Zhao heard this, he thought about what Ye Feng had just said, that if he didn't resuscitate the patient, he was afraid that it would fall into the hands of others. After weighing the matter, he immediately said, "Yes Young Master, we will immediately carry out resuscitation!"

Helena's bleak eyes stared straight at Ye Feng, wanting to open her mouth to condemn him, but swallowed back the words as they came to her lips.

She knew that at this moment, Ye Feng only wanted to clear himself of any involvement in his impending death and did not want to take any responsibility.

Although she had some contempt for Ye Feng's humanity, she could understand it to a certain extent, as she had deliberately concealed the matter in the first place.

Thinking of this, she sighed miserably in her heart, "I have myself to blame, if it wasn't for that brother of Ye Feng's, Ye Chen, pointing out all this, I might still be continuing to deceive Ye Feng as well as the rest of the Ye family, so I deserve to be in this situation today"

So she gave up her last struggle and thought, "If these people want to pretend to resuscitate me, just let them go The sins that I will suffer in the rescue will be considered as my atonement to the Ye family."

Seeing Helena's miserable and desperate eyes, Ye Feng felt a little weak, so he hurriedly said to Director Zhao, "That, you guys are resuscitating the patient, so I won't add to the mess here as an amateur, I'll go wait at the door."

Director Zhao nodded and hurriedly said, "Then please move outside and wait for a moment, young master."

"Good!" Ye Feng answered, turned his head and headed out.

With Ye Feng gone, the other doctors had already rushed over and were ready to perform the final resuscitation on Helena.

Helena didn't say a word, her eyes staring deadly at the ceiling, her heart already beginning to expect death to come soon.

She knew that terminally ill patients who were resuscitated usually suffered a great deal of pain and suffering, so she could only pray that the process would be as quick as possible and give her a dry run.

At this moment, in Helena's mind, for some reason, she suddenly recalled the scene from that day when she met with Ye Chen.

She thought of the way he looked at her, of the way he grabbed her hand and said those words.

At that moment, a sudden jolt went through her head!

She remembered the instructions Ye Chen had given herself at that time, the instructions that sounded so absurd that they didn't even have any semblance of scientific basis.

"He said that if my heart pain is too much to bear, just bite my right middle finger hard Is this method, really going to work?"

Seeing that the doctor had already prepared the defibrillator, prepared the epinephrine and various equipment for emergency intubation, Helena knew that even if Ye Chen's words were ridiculous, as long as there was still a one in ten thousand, or even a million chance, it was her last straw at this point!

So, with great difficulty, she lifted her right hand and put the middle finger of her right hand into her mouth!

With the intention of making one last desperate attempt, Helena bit down hard on her right middle finger!

In an instant, the pain was so intense that she was frowning.

A doctor saw it and blurted out, "Director Zhao, the patient is biting her own finger!"

Director Zhao, who was preparing to give her first aid, saw that Helena was biting her finger, and hurriedly said to the other doctors, "The patient is probably having a deathbed hallucination, so she can bite if she wants to, as long as she doesn't bite her tongue, just leave her alone and rush to resuscitate her!"

As she was saying this, Helena felt a warm energy break through the chains of her right middle finger and flow at a great speed towards her heart!

The speed of this energy was unbelievable, like drinking a bottle of cold Coke on the hottest day, when you are almost dehydrated, just one sip and the feeling of survival would instantly penetrate your soul!

Immediately afterwards, she felt her heart, which had already been depleted to the point of stopping, quickly come to life, like an electric car that had run out of power and was about to stop working, suddenly being replaced with a fully charged battery! It was instantly revived!

The feeling was like a new lease of life for Helena! Her whole state of being had changed forever!

A female doctor was holding an adrenaline shot and was about to give Helena another injection into her heart.

But as she was about to give the injection, the syringe was suddenly snatched away by Helena!

Chapter 3324

The female doctor was startled, she did not expect that a dying patient would have such speed and strength.

As she was wondering, she suddenly glanced at the monitor next to her and blurted out in utter shock, "Director! The patient's blood pressure, heart rate and blood pressure indicators have all recovered!"

As soon as everyone heard this, they almost all subconsciously looked at the monitor.

On the monitor, Helena's blood pressure had recovered from 45/30 a moment ago to 120/70 at breakneck speed!

Heart rate, from less than 20 beats per minute, had leapt straight to 72 beats per minute!

The blood oxygen indicator had shot up from less than 60% before to 95%!

Director Zhao's entire body was frozen as he looked at the monitor and muttered, "This This stupid machine is bullsh*tting with us, right? Is it broken? Check to see if there is anything wrong with the connection between the machine and the patient! It's f*cking amazing!"

The doctor went up to check, shook his head and said, "There's no problem, every part is connected properly!"

Director Zhao's face was full of disbelief as he went forward and patted the machine hard, saying out of the blue, "I suspect this thing is broken, so why don't one of you go next door to the resuscitation room and push another one over here!"

But at that very moment, Helena sat up all of a sudden!

All the doctors froze on the spot.

They were all experts in the field of cardiovascular and cerebrovascular medicine, and each of them had at least ten to twenty years of experience in the field, but they had never encountered such a thing before.

This was a complete reversal of the medical common sense and medical experience they had gained through so many years of study and accumulation.

It was like an atheist who had been steadfastly believing all his life that there were no ghosts in this world, only to suddenly find at some point in time that the ghosts of his dead relatives had appeared in front of him and even conversed with him, such a strong sense of reality and unreality crossed each other, making their world view become magically realistic.

Helena was at this point just as shocked beyond belief as Director Zhao was and the other doctors.

However, unlike the other doctors who were confused, she clearly knew exactly what was happening to her.

"It was Ye Chen!"

"It was Ye Chen who saved me!"

"He wasn't wrong at all, biting the middle finger of my right hand in a moment of crisis would have saved my life!"

"But I didn't even take his advice seriously I even thought he was just talking out of his ass If I had thought of him earlier, I wouldn't have had to suffer so much"

"However, although I have just suffered a lot, I have also seen the true nature of many people, including the maids around me, and everyone in the Ye family"

"And just now, that mysterious energy that suddenly gushed out of my right hand must have been left there by Ye Chen!"

"What kind of person is he and what kind of divine ability does he have to be able to do all this?!"

Thinking of this, Helena had only one thought in her mind: she must go and find Ye Chen!

"Only he can help me, only he can save my life, save me and my mother from being manipulated by the royal family and by Olivia!"

With this in mind, Helena ripped off the oxygen mask, the blood oxygen meter on her fingers, and the blood pressure meter on her wrist, and said offhandedly, "Thank you, but I don't need your resuscitation now!"

"This This" Director Zhao was baffled.

A patient who was dying suddenly sat up from the bed and said that he didn't need to be resuscitated

This is simply outrageous!

So, he subconsciously said, "Princess Helena, your current situation is very dangerous, you may die at any time, we have to conduct a full examination on you, otherwise your life may be in danger at any time!"

But Helena didn't give him a chance to look back, she jumped out of the bed and walked out!

Chapter 3325

Outside the resuscitation room at this time, the immediate family of the Ye family, as well as Helena's two maids, were still waiting anxiously.

Everyone had already decided that Helena was certain to die, so everyone was waiting for a clear message from inside.

Ye Zhongquan had even instructed Ye Feng to immediately send that video from earlier to the Nordic royal family's butler as soon as Helena's death was confirmed, and then clear the connection.

However, Ye Feng also felt more or less regretful in his heart.

After all, an exotic, earthly beauty like Helena was simply the object of all men's dreams.

But he had never been able to find a chance to kiss her, so it was a complete waste.

Ye Changmin thought of something and quietly asked Ye Zhongquan, "Dad, should we ask Chen's son to come over? He said at the time that Gu Yanzhong was cured by him, and it was also him who noticed the abnormality in Helena's body at first glance, perhaps he can have a way to save her, or even a way to cure her!"

Ye Zhongquan waved his hand, "No!"

Ye Changmin asked in confusion, "Why dad, if Chen'er had a way, wouldn't that make everyone happy?"

Ye Zhongquan shook his head firmly and lowered his voice, saying seriously, "Absolutely not! No matter what method Chen'er has, his method of bringing people back to life must be invaluable! It is definitely not worth wasting on a mere Helena's body!"

Saying this, Ye Zhongquan added, "This woman has been hiding her illness from our Ye family, which in itself is not a bad intention, so why should our Ye family use such a precious method to save her? To repay a grudge with virtue? I, Ye Zhongquan, am not that great!"

Ye Changmin immediately understood Ye Zhongquan's meaning and hurriedly said, "It's still you, Dad, who is thoughtful!"

In fact, Ye Zhongquan had only said half of what he had in mind.

The other half of what he did not say was that Ye Chen's method of bringing people back from the dead and returning them to old age was something he had not even had the chance to experience for himself until now, so how could he give such an opportunity to a mere Helena?

Just as the Ye family was waiting for Helena's dust to settle, the door to the resuscitation room suddenly opened.

Ye Feng was fiddling with his mobile phone, and when he heard the door open, he thought it was the doctor coming out, so without raising his head, he hurriedly asked, "Is the person dead?"

Just as the words left his mouth, he happened to look up and saw the person coming out of the door.

What he, as well as all the Ye family members, including the two maids, did not expect was that the person who came out of the resuscitation room was Helena, who had already been declared dead by the doctors and had at most an hour or two to live.

When they found out that it was Helena, everyone was struck by lightning, and they were unable to react for a long time.

Ye Zhongquan looked at Helena with a horrified face and asked out of the blue, "Helena? You How did you"

Helena looked at the Ye family in front of her and was also disappointed in her heart, because she had completely seen the Ye family's face just now.

However, she also knew very well in her heart that she was in the wrong and could not blame the Ye family for being overly realistic.

And there was no way she could flip out with the Ye family now, because she knew in her heart that the only one who could save herself now was Ye Chen.

It could even be said that the only person who could save her mother right now was also Ye Chen.

Therefore, she looked at Ye Zhongquan, bowed respectfully, and spoke, "Thank you for your concern, Old Mr. Ye, I am already fine."

Ye Zhongquan was already completely dumbfounded, just now he was about to die, and now he suddenly came out and bowed to himself saying that he was fine, this was too magical, right?

Chapter 3326

As he was wondering, he suddenly saw a row of bloody teeth marks on Helena's right middle finger, which made him realize in an instant!

"I can't believe I forgot what Little Feng said when he came to tell me that day, Tatsuo had told Helena to bite her right middle finger when she encountered an unexpected situation so that it would save her life, so it seems that Tatsuo wasn't just talking out of his ass!"

"It's just that It's just that it's so divine! Why did Helena only need to bite her middle finger hard enough to cure her heart condition which was so severe that she was almost on the verge of death?"

"If this is some kind of physical therapy, then I definitely don't believe it! A sudden heart attack of that severity, not to mention a bite on the middle finger, even if the whole middle finger was chopped off, there's no way it would have any curative effect on a heart attack!"

"The only possibility here is that Tenzin must have used some kind of method to leave some kind of medicine, or some kind of energy, in the tip of her right middle finger!"

"My goodness How on earth did Chen'er master such an extraordinary skill at such a young age?"

At this moment, Helena, noticing that Ye Zhongquan was actually staring at her right middle finger, hurriedly clenched her right hand into a fist and covered up the injury on her middle finger.

At this moment, Ye Feng also ran over, surprised and with a bit of surprise, and asked, "Helena, are you really alright?"

"I am indeed fine." Helena smiled faintly and spoke, "It's probably because the doctor here is so skilled in medicine that he saved me."

Ye Feng still looked incredulous and asked after him, "So you are healed now?"

Helena said, "I can't be sure if I'm cured, but I feel much better now, so I shouldn't be in any danger."

At this time, Director Zhao also ran out with a few doctors, and Ye Feng hurriedly pulled him over and asked him, "Director Zhao, is Helena really alright?"

Director Zhao nodded his head repeatedly and said, "Her Highness' body-related indicators have all returned to normal, and it seems that her physical strength and spirit are also very good, so she should be out of danger, but as for how the actual situation is, further in-depth examinations may be needed."

At this time, Ye Zhongquan said, "Then hurry up and arrange the most comprehensive examination for Helena!"

At this time, Helena said, "Old Mr. Ye, it is already late, and since I am out of danger, it would be better to focus on the important matters of the Ye Family Ancestral Ceremony first, otherwise I would really feel bad if I delayed the main event because of me."

I know you must be very unhappy with me for hiding my illness, and I know it's all my fault, but the Ye family's Ancestral Ceremony is a matter that cannot be compromised, so I am willing to continue to accompany Ye Feng as his fiancée after the Ancestral Ceremony!

"As for whether or not we should continue to honour the marriage contract, after the Ancestral Ceremony, everything will be decided by you, I will not say anything!"

Hearing this, Ye Zhongquan could not help but secretly sigh that this Helena was indeed no ordinary girl.

She was able to find her pain point at once and give a set of words that she could not refuse at all.

Now that Helena's life was not in danger, if she had not joined the direct Ye family members in greeting the collateral relatives today, those relatives would have been talking and thinking about it.

After all, many of the relatives were thinking of using this ancestral ceremony to catch a glimpse of the Nordic royal princess.

If she doesn't attend the official ancestral ceremony tomorrow, not only will the relatives talk about it, but there will be speculation about it too.

So, instead of that, it would really be better to let Helena follow the Ye family and finish the most important ancestral ceremony successfully.

As for the matter of whether or not to continue to honour the marriage contract, it was perfectly fine to wait until the mentorship meeting to talk about it.

Taking a step back, when the time came, the Ye family would at least be able to publicly withdraw from the Nordic royal family on the grounds that Helena was concealing a physical defect.

So, he didn't wait for the others to take a position, he immediately nodded and said, "Helena, it's really impressive that you have this kind of commitment, in that case, then you should hurry back to the hotel to get ready and change your clothes, and make sure to arrive at the Ye family manor before 9:30!"

Chapter 3327

Seeing Ye Zhongquan's agreement, Helena was overjoyed and spoke almost without hesitation, "Thank you, Mr. Ye, I'll go back and prepare now!"

After saying that, she looked at the two dumbfounded maids and said, "Hurry up and follow me back!"

Only then did the two of them come back to their senses, not having time to think about what had actually happened, they hurriedly nodded and said, "Yes, Your Highness!"

When Ye Feng saw that Helena seemed to be fine, the lewd thoughts in his heart regained the high ground, just now he felt sorry that he had not been able to kiss her, but he did not expect that the opportunity would come again now.

So, he said hastily and attentively, "Darling, let me give you a lift."

Helena smiled faintly at him and said seriously, "You have more important things to do, so don't see me off, hurry up and go back to the Ye family with Old Mr. Ye, I'll go back to the hotel and pack up and come over!"

Ye Zhongquan also spoke up, "Little Feng, Helena is right, don't follow and add to the mess, we still have to hurry back, I'll change the time of my relatives' visit to 9:30, it's not good to make another delay."

He then asked Tang Sihai, "Sihai, have you told Chen'er about the postponement?"

Tang Sihai busily said, "Back to your Lordship, I have already spoken to Young Master Chen."

"Good." Ye Zhongquan nodded in satisfaction and sighed, "Today and tomorrow will be the once-in-twelve-year event of my Ye family, and the prelude to my Ye family's return to the number one family in the country, now that the Su family has fallen and another member of my Ye family has returned as a tiger, I believe it won't be long before the Ye family returns to the top of the country!"

Hearing these words, Ye Changkong, Ye Feng and even Ye Hao at the side were all a little unhappy in their hearts.

This was because they knew very well that this so-called member of the tiger generals that Ye Zhongquan was talking about was Ye Chen.

It seemed that Elder Ye really regarded Ye Chen as a great help to the future Ye family!

Yesterday, his fiancée Helena was taken advantage of by Ye Chen, and not only did the old man not take it out for himself, he even defended Ye Chen, something that had kept him up all night.

Ye Zhongquan looked at the time, it was still twenty minutes short of nine o'clock, so he said to Tang Sihai, "Sihai, hurry up and organise a caravan to pick up Chen'er from the Gu family, Chen'er is the direct son and grandson of our Ye family, it is imperative that he arrives before half past nine to receive these foreign relatives with us."

"Yes Master." Tang Sihai busily said, "I'll prepare and set off immediately."

Ye Feng's heart was even harder to bear: "What the f*ck? A mere Ye Chen, and you have to go and pick him up repeatedly? Is he worthy of it?"

But although Ye Feng was unhappy in his heart, he didn't dare to say anything on the surface.

Tang Sihai hurriedly called for a convoy at this moment, and a few minutes later, a convoy of ten Les Raises had arrived at the hospital gate, and after picking up Tang Sihai, they drove to the Gu family in great haste.

.....

At this time, Helena had already returned to the hotel.

As she walked quickly towards her room, she asked the two maids around her, "Have you reported to Olivia about my heart attack?"

The two looked at each other and neither said anything.

Because they knew they had been exposed, they didn't dare to blurt out any information related to Princess Olivia at this time.

When Helena saw that they didn't say anything, she said lightly, "I know you are both Olivia's people, and I don't mean anything else, I just think that that incident just now was just a false alarm, so if you haven't had the time to report it to Olivia, you don't need to do so for now."

With that, she continued, "Next, I will try to regain the Ye family's trust in me and continue to promote the marriage with the Ye family, but if Olivia intervenes at this time, it will probably have a negative impact."

Chapter 3328

"Moreover, I believe that she has asked you two to follow me around not only to spy on me, but also to save me immediately and avoid being seen by the Ye family in case I suddenly have an attack, so if she knows about this, she will also blame you for not helping me to cover it up, and when the blame comes down, you will also be held responsible. "

"So, why don't all three of us pretend that this never happened, so that the two of you don't have to take responsibility and I can have a chance to fight again, what do you think?"

The two girls exchanged a look and the Chinese girl spoke up, "Princess Helena, we haven't bothered to talk back to Princess Olivia just now, we'll delete the video from our phones later and pretend that it didn't happen!"

"Good!" Helena breathed a sigh of relief and nodded, "Time is short, you guys come and help me with my make-up."

.....

At this time, Ye Chen had already changed his shirt and suit, and with the help of Gu Qiuyi, he had tied his tie, and after he had cleaned up overall, he sat in the living room of the Gu family villa, waiting for Tang Sihai to arrive.

The suit Lin Wanqiu had prepared for him was just the right size, like a tailor-made suit.

The material, shape and style of the suit were all top notch.

A suit of this quality could not be achieved by any good brand of ready-to-wear, except for those handmade by top masters.

Ye Chen's entire aura was also enhanced after he changed into such a suit.

Even Gu Yanzhong couldn't help but sigh when he looked at it, "Chen'er, this suit is a perfect match on you!"

Not only was it tall, handsome and heroic, but it also had the air of a successful gentleman, which was a sight to behold.

Ye Chen smiled, "The main thing is that the size fits perfectly, just like a tailor-made suit."

Gu Qiuyi said, "You don't know, when people get their suits made by this master, they have to fly to London to have the master measure them personally. In order to size you, my mother and I went to pick a dummy model with a similar figure to yours.

Ye Chen was busy saying, "Thank you Nui Nui, and Auntie Lin, I usually lead a rather rough life, if it wasn't for you guys thinking about it, I wouldn't have this string at all."

Lin Wanqiu smiled faintly and said seriously, "When you return to the Ye family this time, you must not let anyone look down on you, let them know that you are Ye Changye's son, and that you are green!"

Ye Chen nodded solemnly and said, "I know Auntie Lin!"

And next to her, Gu Qiuyi said in a soft voice, "Brother Ye Chen, Dad has had a caravan prepared, I'll send you to the Ye family later!"

Ye Chen was surprised and asked, "Why is there a caravan prepared? Didn't Butler Tang say he was coming to pick me up?"

Lin Wanqiu said with a smile, "Your Uncle Gu said, "You are the first son and grandson of the Ye family, the only son of the famous Ye Changyang, so when you return to the Ye family, you must do so in style! So, we in the Gu family have to add to your glory! We must help you put up a show!"

Gu Yanzhong immediately nodded and smiled, "That's right! Your return to the Ye family this time is of great significance, and I am afraid that the rest of the Ye family will deliberately use your twenty years of wandering in Jinling to humiliate you, so we must let them know the moment you arrive at the Ye family that you are not only the first son and grandson of the Ye family, but also the future son-in-law of my Gu family, and anyone who dares to humiliate you will have to weigh up their qualifications first!"

Ye Chen did not know what to say for a moment.

He naturally understood Gu Yanzhong's good intentions, but he was more or less ashamed in his heart.

At that moment, a servant from the Gu family came to announce, "Master and Madam, Butler Tang from the Ye family has arrived!"

Hearing that Tang Sihai had arrived, Gu Yanzhong immediately said, "You all sit down, I'll go and fetch Sihai!"

Chapter 3329

Gu Yanzhong didn't let the others follow, he got up by himself and went out the door.

As soon as he saw Tang Sihai, he quickly stepped forward to shake his hand and said with a smile, "Sihai! I haven't seen you for a while! You're in Yanjing together, but you don't come to see me often!"

Tang Sihai said respectfully, "Mr. Gu! I've been very busy lately, I haven't visited you for a few days, you're looking better and better!"

Gu Yanzhong nodded and laughed, "Thanks to Chen'er, otherwise you'd have to visit me at my grave."

"Yes!" Tang Sihai nodded heavily and spoke, "To this day, Young Master Chen's skills have become unfathomable!"

Gu Yanzhong sighed, still holding Tang Sihai's hand, and said earnestly, "Sihai, thanks to you quietly protecting Chen'er for so many years, this kindness, I, Gu Yanzhong, will never forget!"

Tang Sihai bowed with trepidation and said, "Mr. Gu, you are too kind Young Master Chang Ying has shown me a great deal of gratitude, so even if I had to give my life to the ground, I would still be obliged to do so!"

Gu Yanzhong said, "Four Seas, you have love and righteousness, Brother Ye is right about you!"

Tang Sihai smiled faintly and said respectfully, "Mr. Gu, if you want to say that you have love and righteousness, you are more than me!"

Gu Yanzhong sighed, "Ai! Sihai! It is because you and I are both affectionate and righteous that you have to come and see me more often! You and I were both by Brother Ye's side and benefited from his kindness back then, we have common experiences and common topics, so we should always have a drink together and reminisce about the past."

As he said this, Gu Yanzhong said, "Sihai, to be honest, you've always been a friend in my heart, and I believe you're the same in Brother Ye's eyes!"

Hearing these words, Tang Sihai was inwardly moved and his eyes flushed red.

Back then, although he had always followed Ye Chang Ying around and would often come into contact with Gu Yanzhong, he always felt that he was Ye Chang Ying's subordinate, while Gu Yanzhong, on the other hand, was Ye Chang Ying's brother.

Therefore, his own status was much lower than Gu Yanzhong's.

Therefore, after Ye Changye's death, it was not good for him to take the initiative to contact Gu Yanzhong and appear to be a bit high up.

However, seeing that Gu Yanzhong's words came from the bottom of his heart, he said seriously, "Yes, Mr. Gu! You can rest assured! As long as you don't mind me bothering you, I will definitely come to you for a drink from now on!"

Gu Yanzhong nodded repeatedly, "As long as I'm in Yanjing, you can come anytime!"

"Good!" Tang Sihai agreed and asked, "By the way, Mr. Gu, is Young Master Chen ready? He has to arrive at the Ye family before half past nine, after half past nine, the representatives of the foreign relatives arrive one after another, today is crucial for the young master."

Hearing this, Gu Yanzhong raised his eyebrows slightly, looked at Tang Sihai and asked seriously, "Sihai, you've been secretly protecting Chen'er for so many years, you've been waiting for this day, right?"

"Yes!" Tang Sihai said firmly, "Mr. Gu, I'm not going to lie to you, after personally confining Young Master Chang Ying back then, I, Tang Sihai, only lived for two things!"

"The first thing was to witness Young Master Chen take over the Ye family!"

"The second thing is to witness Young Master Chen avenge Young Master Chang Ying and Young Lady!"

Hearing this, Gu Yanzhong once again clasped his hands with Tang Sihai and said with unparalleled determination, "Sihai! I think exactly the same as you do!"

Tang Sihai was slightly stunned, then he couldn't help but sigh and said, "Mr. Gu, the only thing I'm worried about is that Young Master Chen has always wanted to draw a clear line with the Ye family. If he had always thought that way, he would probably not have bothered to take over the Ye family."

Gu Yanzhong laughed harshly, "Don't worry Sihai! I drank with Chen'er for a few hours yesterday and told him all about Brother Ye's situation back then, he has thoroughly understood Brother Ye's legacy back then, and he has also decided that he must become the head of the Ye family!"

Tang Sihai was incomparably surprised and said, "Really?! Then That's really great!!! With Young Master Chen's strength, given time, he will definitely be able to become the head of the Ye Family!"

Chapter 3330

Gu Yanzhong nodded solemnly, "As you said, Chen'er becoming the head of the Ye family is only the first step, avenging Brother Ye and Sister Ye and leading the Ye family to the top of the world is the ultimate goal! At that time, I, Gu Yanzhong, will also devote everything of my Gu family to carry the palanquin for Chen'er!"

Hearing these words, Tang Sihai immediately knelt down on one knee and said with gratitude, "Mr Gu, you are righteous to Young Master Chang Ying, please accept Sihai's obeisance!"

Gu Yanzhong hurriedly helped him up and said seriously, "Sihai, you don't have to make such a big bow to me, from now on you and I are comrades and comrades in arms! We must work together and cooperate from the inside and outside to clear all obstacles for Chen's succession to the Ye family!"

Tang Sihai nodded heavily, "Sihai understands! I have been waiting for this day for the past twenty years!"

Gu Yanzhong nodded and smiled, saying, "Good! With this word from you, I am relieved!"

After saying that, he added, "Chen'er is ready, you can follow me in first."

"Okay!" Tang Sihai followed Gu Yanzhong and stepped into the Gu family villa.

When he saw Ye Chen, Tang Sihai said with a surprised look on his face, "Young master, you look really spirited today!"

Ye Chen smiled slightly, "Right, housekeeper Tang, didn't you say that the foreign relatives would be at the door before nine o'clock, but why did you just change it to half past nine?"

Tang Sihai said awkwardly, "There was an unexpected situation, so Master postponed the time by half an hour."

After saying that, Tang Sihai added, "It was Princess Helena who had a sudden heart attack and was sent to the hospital, and it was only with great difficulty that she was out of danger."

Gu Qiuyi exclaimed, "Ah? That Helena really had a heart attack?"

Tang Sihai nodded, "Yes, and the situation was very dangerous at first, the doctor originally said she wouldn't survive for more than a few hours, but later she recovered."

Gu Qiuyi looked at Ye Chen and said with surprise, "Brother Ye Chen, you're too good! That Helena must have bitten her right middle finger to get better, right?"

Ye Chen laughed, "It's no fun to see through it and keep saying it so bluntly."

Tang Sihai said with a smile at the side, "I also noticed just now, Princess Helena's right finger did have bite marks, still young master is great, a wonderful hand!"

Gu Yanzhong and Lin Wanqiu were confused as they listened, Lin Wanqiu couldn't help but ask, "What are you guys talking about here, why didn't I understand?"

Gu Qiuyi laughed, "Mom, it's a long story, I'll tell you after I return from seeing brother Ye Chen off!"

Tang Sihai also spoke up at this time, "Young master, it's already nine o'clock, we need to leave quickly."

"Good." Ye Chen nodded and said to Gu Qiuyi, "Nui Nui, since Housekeeper Tang is here, you don't have to see me off, so as not to toss and turn."

Gu Qiuyi immediately refused, "No! Then I'll go too! It's not that far anyway!"

Gu Yanzhong said, "Nui Nui, today is the Ye family's reception for their foreign relatives, and they are not open to the public, nor are they receiving other guests, so you should not go and join in the fun."

Gu Qiuyi pouted and said, "Then I won't get out of the car when I get there, so I'll drop brother Ye Chen off at the Ye family's house and I'll follow the family's caravan directly back."

Gu Yanzhong laughed helplessly, "Fine, since you're willing to toss yourself around, then go ahead."

"Hee hee." Gu Qiuyi spat out her tongue and hurriedly took Ye Chen's arm, saying, "Brother Ye Chen, let's go!"
