

Ye Chen 3421

Chapter 3421

For Ye Chen, it was not that the opportunity was not left for Su Chengfeng, but since he could not grasp it, it was not a good idea for him to show no mercy.

Although the Maldives was not economically developed, it was at least a global holiday destination. As for Madagascar, an African island country that was one of the least developed countries in the world, the conditions were naturally a million times tougher than the Maldives.

As soon as Su Chengfeng heard this, he also became anxious and said offhandedly, "You How can you change your mind when you say So many people listened to you just now clearly talking about the Maldives, how now suddenly become Madagascar again? You Aren't you breaking your word?"

Ye Chen said indifferently, "Don't you understand what a floating price is? It's just like speculating in stocks, the Maldives was the price just now, the current price is Madagascar, I suggest you better hurry up and say yes, otherwise it might turn into Congo or Zimbabwe later."

Su Chengfeng wanted to cry, "Even stocks don't drop this much, right? From up to down, it's at most a 20 percent float, you've shrunk 99.99 percent!"

Ye Chen ignored him and looked at Su Shoudao, asking him, "Is your father usually this poor?"

Su Shoudao was so embarrassed that he hurriedly said, "Mr. Ye, my dad he's not usually like this, he must have been too stimulated today"

After saying that, he hurriedly said to Su Chengfeng, "Dad! You just quickly don't ink, if you don't agree, I'm afraid I really have to go to Zimbabwe!"

Su Chengfeng's heart at this time was a million times more reluctant, but as soon as he thought of the Ten Thousand Dragons Temple, he was immediately abashed.

Even if someone wanted to help him out, he would not be able to move forward once he came to the court of a foreign mercenary group like the Ten Thousand Dragons.

Therefore, he was also clear that the current Ye Chen was definitely not scaring himself, right now he was in Ye Ling Mountain, unable to answer to the call of the day, unable to answer to the call of the ground, apart from accepting all his conditions, it was almost impossible to have any other choice.

Thinking of this, he burst into old tears and spoke, "Good I accept"

Ye Chen nodded and said, "It's good if you accept then, tomorrow I'll have someone from the Ten Thousand Dragons Temple take you to Madagascar, and then leave a few people for you to protect your safety closely, that kind of place is economically underdeveloped and the security is not too good, you know."

Su Chengfeng choked back a sob and asked, "What about my food, clothing and shelter?"

"This is a good idea." Ye Chen said lightly, "You can honestly and painfully pass the family headship to Su Zhiyu, let Su Zhiyu invest some money, buy you a larger piece of land in Madagascar, and build you a manor house, and hire you dozens of family guards. If you have a more competent housekeeper or subordinate, you can also bring them along with you, so that at least you can ensure that your quality of life in Madagascar will not deteriorate too much."

Saying that, Ye Chen reminded very seriously, "You have to remember that this is based on your complete cooperation, if you don't cooperate, then sorry, then a thatched hut will be built for you on the plains of Madagascar, and you will be there to keep the monkeys company. "

As soon as Su Chengfeng heard this, he said offhandedly, almost without hesitation, "I'll cooperate! I'll cooperate! I will absolutely cooperate!"

Ye Chen's words gave Su Chengfeng a ray of hope.

Originally, he thought that Ye Chen would let him go to Madagascar to live a miserable life, but to his surprise, he was even allowed to be a landlord over there.

If that was true, it would simply be a village in the dark.

Chapter 3422

He thought to himself, "Even if Africa is poor, as long as we have a lot of money, we can still live comfortably, so the big deal is to buy everything we need from abroad. With my family's wealth, it would not be so arrogant as to buy Madagascar, but if I were to buy a few hundred hectares of estate in Madagascar, it would just be a matter of sprinkling water. As long as I don't have to suffer and enjoy my old age, I'll be satisfied!"

When Ye Chen saw that Su Chengfeng had finally given in, he looked at Su Zhiyu and said, "Miss Su, come here for a moment."

Su Zhiyu looked at Ye Chen somewhat nervously and was a bit at a loss for a moment.

When Ye Chen directly proposed to Su Chengfeng that he should pass the family headship to Su Zhiyu, Su Zhiyu was inwardly very apprehensive.

For one thing, she didn't know why Ye Chen wanted to help herself so much, and for another, she didn't know whether she had the ability to run a family as large as the Su family well or not.

However, seeing that Ye Chen was now calling herself over, Su Zhiyu walked out obediently despite her nervousness.

She stepped in front of Ye Chen and asked respectfully, "Your Grace You What are your orders"

Ye Chen said indifferently, "Your grandfather is going to pass the family headship to you, from now on you will be the Su family head, so why don't you say thank you to him."

Su Zhiyu froze, she knew very well that all of this was snatched from her grandfather's hand, directly for herself, so she was busy saying, "Your Grace Zhiyu thanks you for your kindness But But I'm really not sure I can manage such a big stall of the Su family"

Ye Chen spoke at this time, "You don't need to doubt yourself, I've come into contact with not a few people in the Su family, and the only one who has a passable character and ability is you."

Speaking of this, Ye Chen looked at Su Ruoli and added, "Even Ruoli had a past of being blinded by the Su family and killing innocents indiscriminately back then, although that was all at the behest of your father and your grandfather, she herself is not absolutely blameless."

Hearing these words, Su Ruoli lowered her head slightly in shame.

In the past, she had indeed done many unspeakable things for the Su family, including killing Ryojin Matsumoto's entire family in Japan, and not even sparing her children.

Therefore, when Ye Chen said that she was not absolutely blameless, she agreed 100% in her heart.

At this point, Ye Chen said to Su Zhiyu again, "The Su family has old foxes like your father and your grandfather who have indeed done too much evil over the years, I have no intention of continuing to rehash old scores here, but if we are to look backwards, the only person who can lead the Su family onto the right path is you."

As he said that, Ye Chen looked at Su Chengfeng and Su Shoudao and said indifferently, "Originally, in my plan, the Su family was going to be destroyed by me sooner or later, because within my previous sight, there was not a single good person in the Su family, the reason why I changed my mind now is because, I believe in your character and your ability to bring the Su family to the right path, only when the Su family is on the right path, will I be able to open my net to the Su family, so there is no one up and down the Su family who is more suitable for this position than you."

At this point, Ye Chen looked at Su Chengfeng and said coldly, "So Su Chengfeng, you should not think that Su Zhiyu has robbed you of your family business, but in fact, she has saved your life! Otherwise, just by your act of wearing mourning on Ye Lingshan today to see a good show, I wouldn't have let you leave Ye Lingshan alive!"

Su Chengfeng couldn't help but shiver at this point.

When he saw that Ye Chen did not speak like he was joking at all, he was so scared that he immediately sweatdropped.

He originally thought that Ye Chen was intentionally screwing himself and taking revenge on him, but now, he realized that Ye Chen was actually letting himself live

Chapter 3423

Ye Chen did not mean to scare Su Chengfeng either.

Before today, he had originally wanted to kill Wan Bajun and Su Chengfeng together.

Only, he had changed his mind after Wan Bajun had gone up Ye Ling Mountain.

He knew that Wan Bajun was too arrogant, but at least he still had a filial heart for his parents and a righteousness towards his comrades.

When he thought of his own future plans to go to Europe and the United States, he had to have a strong enough team, which was why he changed his mind and took Wan Bajun and the entire Wan Long Temple under his wing.

Since he had already taken in Wan Bajun, there was no point in killing Su Chengfeng, an old man, alone, so he might as well force him to give up his position to Su Zhiyu, so as to solve the Su family's big problem once and for all.

Ye Chen believed in Su Zhiyu's character and her ability. He was able to put her in the position of family head, and she would definitely be able to take care of everything inside and outside the Su family.

At that time, the Su family would no longer be the Ye family's enemy, but Ye Chen's ally.

Su Chengfeng also understood what Ye Chen was thinking, his mind completely calmed down, looked at Su Zhiyu and said seriously, "Zhiyu, Mr. Ye is right, there is indeed no one in the entire Su family more suitable than you to sit in this position, I will complete all the formalities as soon as possible and hand over the Su family to you completely, the fate of the Su family will depend on you to lead it from now on!"

Su Zhiyu hesitated for a moment and spoke, "Grandpa I understand."

After saying that, she looked towards Ye Chen and said reverently and firmly, "Please rest assured, my benefactor, I will do my best!"

Ye Chen nodded slightly and said, "In that case, then let's wait until the formalities are signed later today."

After saying that, Ye Chen looked at Su Shoudao again and spoke, "And you, as I said before, this time Qingming asked you to come back, in addition to the confession will be passed in front of my parents, but also to finish all the divorce formalities with Auntie Du, later today I will also have someone prepare the relevant formalities and bring them to you to sign."

Su Shoudao had long known that this marriage between himself and Du Haiqing was no longer possible to salvage.

Moreover, with Ye Chen here to exert pressure, it was simply impossible for him to drag it out if he wanted to.

So, he nodded his head decadently and poured, "Okay I'll sign"

After saying that, he asked Ye Chen with an expectant face, "Mr. Ye, you said at first that you would let me come back as long as Zhiyu sat as the head of the Su family within three years, now that Zhiyu will soon inherit the Su family, it's time to let me come back, right?"

Ye Chen nodded and said, "I did say that at first, and it's fine if you want to come back, but in order to avoid any interference from you in Su Zhiyu's next decision, even if you come back, you must be monitored by people living under my arrangement, and the location must also be decided by me."

Su Shoudao cried out, "Mr. Ye, you You are a bit inappropriate, right It was clearly stated before that as long as Zhiyu became the head of the family, I would be set free"

Ye Chen said in a cold voice: "Don't you forget who made this matter of Su Zhiyu becoming the head of the family possible."

After saying that, he added, "Since you want to bite the bullet with me, it doesn't matter."

Ye Chen then looked at Su Chengfeng and said indifferently, "When Elder Su signs the relevant documents this time, he will change the overall system of the Su family by the way, so that in the future Su Zhiyu is not the head of any Su family, but the chairman of the Su Group."

How dare Su Chengfeng disobey Ye Chen, he hurriedly said, "No problem! No problem! Anyway, on a legal level, the title of family head doesn't stand up, what really stands up is the position of chairman and how much voting power it has in the board of directors."

Ye Chen nodded, looked at Su Shoudao and spoke, "Then I'm sorry, your daughter is the chairman of the Su Group this time, not the head of any Su family, so it will only be hard for you to go back to Syria for a few more years, but don't worry, I will say hello to Hamid and ask him to give you some more special care."

Su Shoudao trembled in fear and hurriedly said, "Mr. Ye, I was wrong! I am willing to be put under residential surveillance! Even putting me under house arrest is fine with me, but don't ever let me go back to Syria again, I'm really fed up with that place"

Ye Chen had expected him to give in and said indifferently, "Since you are willing to accept it, then after the Ancestral Ceremony is over, you will come back to Jinling with me and I will arrange for you to be taken care of."

As soon as Su Shoudao heard this, he immediately knelt down on the ground, crying and begging, "Mr. Ye, please don't send me to the dog farm"

Chapter 3424

Ye Chen didn't say anything, but casually glanced at He Yingxiu, who was standing with Su Ruoli, with his afterglow.

Seeing that He Yingxiu's expression was very tense at this moment, Ye Chen knew that she must still be concerned about Su Shoudao.

After all, if she could sacrifice an arm for Su Shoudao and give birth to a daughter for him, she must have true love for him in her heart.

Thinking of this, Ye Chen let out a light sigh and said to Su Shoudao, "Alright, I won't send you to the dog breeding farm."

After saying that, he looked at He Hongsheng and spoke, "Old Mr. He, after Su Shoudao goes to Jinling, let the He family arrange for someone to keep a watchful eye on him."

He Hongsheng did not expect that Ye Chen had handed Su Shoudao over to himself and hurriedly asked him, "Mr. Ye, I wonder what all your requirements are?"

Ye Chen said indifferently, "He is after all Su Zhiyu and Su Ruoli's real father, and seeing as he has a good attitude in admitting his mistakes, I will not deliberately torture him or send him to a dog farm."

When Su Shoudao heard Ye Chen say this, the whole person let out a long breath, and his eyes were almost strained with tears.

Ye Chen continued at this point, "Just put him in the villa where you live! Just vacate a room on the ground floor for him, and your He family will be responsible for his food and clothing, but I have a few red lines that must never be touched."

He Hongsheng hurriedly arched his hand and said, "Mr. Ye, just give me your orders, I will definitely abide by them absolutely!"

Ye Chen said, "Firstly, he must never be allowed to leave the villa; secondly, he must never be allowed to have any contact with outsiders other than the He family, including Su Zhiyu and Su Ruoli."

He Hongsheng immediately said respectfully, "Please don't worry, Mr. Ye, I guarantee on my head that I will never let him leave the villa, nor will I let him have any contact with the outside world!"

Su Shoudao was also completely relieved at this point.

His relationship with the He family had actually been quite good all along.

It was needless to say that the affair with He Yingxiu at the beginning was also initiated by He Yingxiu, so Su Shoudao could not talk about being a negative person.

In addition, he was Su Ruoli's father and had taken care of the He family in the past, so his relationship with the He family was actually quite good.

Ye Chen did not simply want to give Su Shoudao a sweet deal when he handed him over to the He family.

The main reason was that he felt in his heart that this person, He Yingxiu, was indeed pitiful and had given a lot to Su Shoudao throughout his life.

She had been Su Shoudao's personal bodyguard when she was still a teenager, and had later disabled herself for him, given birth to his daughter, and raised his flesh and blood alone, so this kind of dedication had long exceeded that of ordinary people.

Therefore, Ye Chen had the intention to create an opportunity for her.

In the future, Su Shoudao could only be supervised by He's family, then He Yingxiu would definitely take good care of him.

If Su Shoudao was really a man of virtue, after divorcing Du Haiqing and going to Jinling under house arrest, he should treat He Yingxiu well.

If he figured it out one day and decided to marry He Yingxiu and have a good life for the two of them, then he himself would definitely set him free.

Of course, this was something Ye Chen would never say, otherwise Su Shoudao would probably agree to it immediately for the sake of freedom.

This was a matter that he should take his own time to understand.

When he had understood it, when he would be free!

Chapter 3425

Naturally, Su Shoudao could not figure out now what Ye Chen's intentions were deep inside.

All he knew now was that he could basically be relieved.

Even if he was being watched by He's family living in Jinling, it would definitely be 18,000 times better than Syria.

Therefore, he was now so ecstatic that he could not hurry to Jinling.

Deep inside, Su Zhiyu was incomparably grateful to Ye Chen at this time.

In his heart, he sighed, "I really didn't expect that my benefactor would, today, repay his grievances with virtue and give the Su family a good outcome that far exceeded my expectations"

"Grandpa can leave Ye Lingshan safely, dad can also return to the country to live out his old age in secret, and I, too, can officially take over the Su family and become the head of the Su family"

"Just when Your Eminence killed the two Battle Kings of the Ten Thousand Dragon Hall with a snap of his fingers, I was still thinking that I was afraid that Grandpa would die here today"

"But to my surprise, Your Grace would even leave him alive! This is indeed an example of repaying grievances with virtue"

But Su Zhiyu also knew very well that Ye Chen should have left his grandfather alive for his own betterment in taking over the Su family.

After all, the majority of the Su family's equity was in the old man, and all the voting rights were also in him, he was the head of the Su family, and moreover the actual controller of all the Su family's properties.

If he died today, then the next step for the Su family would inevitably be to distribute the inheritance according to the order of succession.

Although his father was the eldest son, he was also restricted in his freedom by Ye Chen, and the second uncle was in the same situation at the moment.

Under such circumstances, the Su family, without its main backbone, would inevitably be torn apart.

Once divided, it would be difficult for anyone to bring the Su family back together.

However, Ye Chen used the condition of sparing the old man's life in exchange for the old man willingly and legally handing over all his shares and control, so that Su Zhiyu would be able to take over the Su family with ease.

Once Su Zhiyu is in control, no one will be able to threaten her position as the head of the family.

If anyone in the Su family dared to disobey, Su Zhiyu could even directly drive him out of the Su family and the Su Group's business system.

When she thought of how much Ye Chen had helped her, the gratitude within Su Zhiyu's heart had long been beyond anything she could add.

At this moment, there was a pair of eyes in the crowd that were looking at Ye Chen with hot eyes.

This person was Helena, who had been standing in the crowd behind Ye Chen.

She did not expect that Ye Chen would be so powerful, and even more so, she did not expect that Ye Chen would be able to make Su Zhiyu sit on the Su family's throne smoothly with a few words.

This made her think of what Ye Chen had said before, and she not only sighed, "Ye Chen said that he could make me sit as the Nordic Queen, originally I still had some uncertainty in my heart, but now, I am already sure that Ye Chen will be able to do it!"

At this moment, her heart was filled with the urge for revenge, and she was already looking forward to the moment when she would become empress and trample Olivia back under her feet.

However, at this moment, Ye Chen did not focus on Helena's body.

He said to Su Shoudao and Su Chengfeng, "The two of you, one of you organised the Anti-Yeh Alliance back then, and the other of you rushed up to Ye Ling Mountain today wearing mourning, can be spared from a deadly crime but cannot escape from a living one, so now both of you go and kneel in front of my parents' spirit! Kneel until this time tomorrow morning!"

Su Chengfeng's heart only trembled slightly, but once he thought that he would only be kneeling for one day and one night and that there would be no other additional punishment, he felt a lot more at ease.

He also knew very well that Ye Chen could not send himself to Madagascar so painfully, and this punishment seemed acceptable to him.

Su Shoudao was the same.

He had been prepared to kneel and repent in front of Ye Chang Ying and his wife's spirit before he came, and Ye Chen had let himself kneel for a day and a night, but it was not beyond expectation.

At this moment, Ye Chen looked at Wan Bajun and the other soldiers of the Ten Thousand Dragons Hall and said indifferently, "You have disturbed the ancestral ritual of the Ye family and the peace of the ancestors of the Ye family today, so you are also exempted from the crime of death but not from the crime of life.

Wan Bajun said respectfully, "My subordinates obey!"

With the word "subordinate", it was like Wan Bajun had re-defined himself.

The other generals of the Ten Thousand Dragon Hall also immediately said in their voices, "My subordinates obey orders!"

Ye Chen nodded his head, looked at Wan Bajun and spoke, "Remember, after the kneeling is over, I will give you three days off, you use these three days to choose a feng shui site in Yanjing and re-hide

your parents' scenery in a big way, then after the funeral is over, bring your people along to meet me in Jinling!"

Wan Bajun, who was kneeling in front of Ye Chen, was even more grateful to Ye Chen when he heard these words.

In his heart, he had never known what Ye Chen would do next with his parents' coffins.

Although Ye Chen had explicitly said that he would not bury his parents in ashes, Ye Chen had spared his own life after all, so whether he would still let himself put his parents in the ground became the biggest worry in his heart.

Chapter 3426

Right now, hearing these words from Ye Chen, the last stone in his heart fell to the ground, and he was naturally incomparably grateful.

Unknowingly, all his pride, confidence and anti-bone had been completely smoothed out by Ye Chen.

Now he already saw Ye Chen as the god who had saved himself, as well as the entire Wan family bloodline.

Only, inwardly ashamed beyond measure, he said to Ye Chen, "Mr. Ye, your great kindness and benevolence, my subordinate will definitely spend the rest of his life repaying it with all his might"

At this point, Wan Bajun could not help but sigh and said in a self-condemned manner, "Unfortunately, I am now an invalid with all my meridians broken, so I am afraid that even if I do my best in many things, I may not be able to do them all, so if I really cannot satisfy you in the future, please forgive me!"

Hearing this, Ye Chen said indifferently, "So what if my meridians are broken, I can just fix them."

When Ye Chen said this, everyone was shocked.

So what if all the meridians were broken?

There was a basic consensus among martial artists that damaged meridians could be repaired slowly, but once a meridian was broken, it was absolutely impossible to repair it again.

However, Ye Chen made all this sound so easy.

This, to all the martial artists on the scene, was like a nightmare from heaven.

Even Wan Bajun himself did not believe it.

He looked at Ye Chen and asked incredulously, "Mr. Ye, my meridians can really be restored?"

Ye Chen said indifferently, "Wan Bajun, as my subordinate, you have to remember that from now on, you don't have to doubt every word I say! Even if I say something that completely overturns your experience, your perception, you don't have to doubt it, because as long as I say it, I will be able to do it!"

Wan Bajun hurriedly said with fear and trepidation, "My subordinate deserves to die! I should not have doubted what Mr. Ye said, please condemn Mr. Ye!"

At this moment, Wan Bajun already had immense respect for Ye Chen in his heart.

Ye Chen only smiled faintly, then he stretched out his hand and gently pressed his palm on top of the kneeling Wan Bajun's head, saying with a domineering aura, "Since all eight of your meridians are broken, then I will help you reshape all eight of them back!"

With that, he sent powerful spiritual qi, in a flash, from the Baihui acupoint on top of Wan Bajun's head into his body, swimming rapidly along the location of Wan Bajun's meridians!

The first place where the spiritual qi entered was the Ren meridian, one of Wan Bajun's eight Qi meridians.

The way the spirit qi entered the Ren meridian was like a fast-forward version of a river nourishing the cracked land, rejuvenating a dry riverbed and dead plants!

At this moment, Wan Bajun could clearly feel the whole process of the Ren Chakra being reshaped!

At this moment, his entire worldview was turned upside down and changed dramatically!

At this moment, he saw Ye Chen as a god and himself as an ant!

Because in his mind, to have recovered all his meridians so easily, such strength was no different from that of a god!

He felt that he was like a foolish man who moved mountains, while Ye Chen was a god who could carry two mountains on his back with ease.

A height that was impossible to reach in several lifetimes for himself, was as easy as a flick of the wrist with Ye Chen!

The martial artists in the audience were all stunned as well.

They could not tell what the cultivation level of those whose strength was higher than their own was, but they could tell that those whose strength was lower than their own.

Since the moment Wan Bajun broke his own meridians, they could all tell that Wan Bajun had become a ruined man.

Now, they could also see that Wan Bajun had gone from being a wastrel to a one-star martial artist who had opened up his meridians!

The crowd burst into awe, with some exclaiming.

"Wan Bajun's cultivation level is now that of a one-star martial artist!"

"Yes! I never thought The broken meridians can really be repaired!"

"Oh my, Mr. Ye's strength is too powerful too!"

"Look guys, Hall Master, he's already a two-star martial artist!"

"Holy shit! It's only been ten seconds or so of work, and Wan Bajun's Governor's Veins have been repaired too!"

"More than that! Grandmaster Ye has now begun to repair his third meridian!"

"The third meridian has been repaired too! This This is simply a miracle!"

Chapter 3427

When Ye Chen had repaired Wan Bajun's fourth meridian, He Hongsheng could no longer see Wan Bajun's cultivation.

The only ones who could still tell Wan Breaking Army's cultivation level were the few five-star battle generals of the Ten Thousand Dragon Hall.

As for Lu Haotian and Chen Zhonglei, the two iron wastes, they had already completely rested.

When Wan Bajun's fifth meridian was also repaired, no one at the scene, except for Ye Chen, could tell his current true cultivation level.

Immediately afterwards, the remaining meridians of Wan Bajun were also restored one by one.

It felt like the eight meridians that he had just broken had been completely restored as before.

What was even more unimaginable to Wan Bajun was that his eight meridians, having been blessed by the disaster, had all reached a state of great perfection after being restored one by one.

Now Wan Bajun was no longer an eight-star martial artist, he had already entered the realm of the Great Perfection of the Ming Realm.

His benefactor, who had gone from an eight-star martial artist to the Great Perfection of the Ming Realm, had taken more than ten years.

However, with Ye Chen's help, it had only taken him a few minutes!

Such a huge improvement in an instant caused him to be incomparably shocked inwardly, and he even had a feeling that it was like a lifetime ago.

If this event had not actually happened to him, he would never have believed that there was such a powerful ability in this world.

He could feel that what Ye Chen was using was an energy that was much more powerful and magical than internal energy.

This reminded him of what his benefactor had said back then, when he said that in this world, martial artists were only the lowest level of power above ordinary people.

Above martial artists, there were many systems of power that far surpassed martial dao, which for martial daoists, they would most likely never have the chance to touch in their lifetime.

Seeing that Ye Chen had such a divine ability, he was immediately certain that Ye Chen's power system was definitely not that of a martial artist, but a great divine ability that was a layer higher than martial dao, or even several layers higher.

As if reborn, he once again kowtowed heavily to Ye Chen and said with immense gratitude, "Mr. Ye, thank you for your rejuvenating grace! Now that my subordinate has reached the full completion of the Ming realm, I will definitely do everything I can for you for the rest of my life, and I will not hesitate to die!"

Wan Bajun's words struck all the martial artists present like a thunderbolt.

Who would have dared to believe that Ye Chen had not only restored Wan Bajun's meridians, but also allowed him to ascend to the heavens in one step and become a Ming realm master!

Who would have dared to believe that he would have the chance to see a top martial artist of the Ming Realm at full completion in his own life!

I thought that just now, Ye Chen's restoration of Wan Bajun's meridian was already a miracle, but I never thought that the real miracle was here!

To break and then stand, to stand to perfection, this was simply a great miraculous ability that turned decay into magic!

For a while, countless people looked up to Ye Chen even more, while also being envious of Wan Bajun, feeling that Wan Bajun had simply met the most precious chance in the world.

In fact, Ye Chen did not want to help Wan Bajun raise his cultivation level, it was just that although his meridians had originally opened up to eight, they had basically not been able to enter the Great Perfection realm where they were completely unblocked.

This time, when he broke and established himself, he directly allowed all his meridians to be completely unblocked after the reconstruction of his true qi.

With all eight meridians unblocked, it was only natural that Wan Bajun became a top martial artist in the Ming realm of great perfection.

Chapter 3428

However, Ye Chen was not taking advantage of Wan Bajun for nothing.

For from today onwards, Wan Bajun no longer had his own life.

For all of his time and energy for the rest of his life would be spent on serving Ye Chen.

Therefore, Ye Chen looked at him, nodded slightly and said indifferently, "Just remember this about yourself, otherwise, I can send you a chance and also beat you back to your original form!"

Wan Bajun incomparably piously blurted out, "Don't worry, Mr. Ye! If my subordinate breaks the oath in the future, I will definitely die without a burial place!"

Ye Chen nodded and looked at Lu Haotian, who had been ruined, and Chen Zhonglei, who had been imprisoned, and said indifferently, "You two should reflect on yourselves in the next few days, and when you arrive at Jinling, I will give you a chance to reform yourselves, so that you can all be restored to your former selves. !"

When Lu Haotian heard this, he burst into tears and choked up, "Please don't worry, Mr. Ye! My subordinates will definitely go through fire and water for you in the future"

Chen Zhonglei's consciousness had long since been closed up again, and he stood mute for a while.

But his consciousness trapped in his body was also excited beyond measure by now!

To him, as long as this life begging and death begging could end, he would have no complaints whatsoever about what he was told to do.

Wan Bajun did not expect that Ye Chen would spare his two comrades who had deep feelings for him, so he said gratefully, "Mr. Ye, they will definitely not forget your great kindness!"

Ye Chen nodded slightly and said, "Listen, about today's incident, Wan Long Hall and the Ye family will later release the news together, saying that the misunderstanding between the two families has been completely lifted, and in the future, Wan Long Hall and the Ye family will clear their differences and will no longer have any old or new grudges.

Wan Bajun immediately said, "My subordinates will announce it to the public later!"

Ye Chen nodded and said, "At that time, the outside world will definitely speculate on how the Ye family escaped this calamity, so Wan Long Hall will then release the news to the public, saying that the Ye family gave half of the Ye Group's equity to Wan Long Hall in exchange for Wan Long Hall's understanding!"

Wan Bajun and all the generals of the Ten Thousand Dragon Hall were extremely puzzled, no one understood why Ye Chen, who had clearly won a great victory over the Ten Thousand Dragon Hall, had to declare to the public that it was the Ye family that had given in to the Ten Thousand Dragon Hall.

But Wan Bajun understood that Ye Chen must have his reasons for doing so, and all he had to do was to carry out any orders he gave 100% and not to ask more questions.

Thus, he immediately said respectfully, "Don't worry, Mr Ye, my subordinate will definitely announce it to the public as you said!"

Ye Zhongquan sounded puzzled and asked, "Chen'er, this is the best opportunity for you to officially return to the Ye family, if you announce to the public that the Ten Thousand Dragons Hall has pledged its allegiance to you, then the Ye family's popularity will be absolutely unmatched in the country, such a good opportunity, why do you instead want others to think that our Ye family has gone soft?"

Ye Chen said indifferently, "The Ten Thousand Dragons Temple will be a surprise army in my hands in the future, if the news of subjugating the Ten Thousand Dragons Temple is just released directly, it will only add some false fame in vain, other than that, there will not be any benefit, on the contrary, it is likely to be noticed or targeted by other forces!"

"Rather than that, it would be better to keep a low profile and hide deeper! Let the outside world think that the Ye family has bowed down to the Ten Thousand Dragons Hall and is greatly wounded, so that not only will the hidden enemies be relaxed, but in case there is any big battle in the future that

requires the Ten Thousand Dragons Hall to step in, it will also be able to attack them unawares and take them by surprise!"

Ye Zhongquan understood Ye Chen's intention and hurriedly asked, "Chen'er, aren't you going to announce your official return to the Ye family this time?"

Ye Chen said, "For the time being, it's not time to announce it to the public. I want to find out the truth about my parents' murder first, and I also want to find a chance to find out the bottom of the Rothschild family.

Ye Zhongquan nodded gently and asked him, "Chen'er, how am I going to announce the change of the Ye family head to the public?"

Ye Chen said, "There is no need to deliberately announce this matter to the public, from now on, I will actually be in charge of the Ye Family's big and small affairs, but on the surface, you will still be the Ye Family's head."

Ye Zhongquan agreed and said, "Good! Then I will not announce it for now."

Ye Chen looked at the crowd behind himself again, arched his hand and said seriously, "Gentlemen! Thank you all very much for coming to Ye Lingshan today for me, Ye Chen, but I also ask you all to do me a favour and not divulge everything that has happened on Ye Lingshan today!"

Chapter 3429

When the crowd heard this, they naturally agreed to do so.

They all knew Ye Chen very well and knew his low profile, so since Ye Chen did not allow it to be revealed, the crowd naturally would not disobey.

Ye Chen looked at Su Chengfeng and added, "The matter of giving up the throne to Su Zhiyu should still be announced to the public, otherwise I am worried that she will not be able to establish her authority in the Su family."

Su Chengfeng hurriedly nodded and said, "That's right, that's right! Today I am repenting in front of Mr. Ye's parents' spirit, and tomorrow I will officially announce this matter to the public! Let Zhiyu take over smoothly!"

"Good." Ye Chen nodded in satisfaction and said, "After the agreement is signed, the news is announced, and the handover of rights is all completed, I will arrange for someone to send you to Madagascar, as long as you cooperate well, I will not interfere with what you need to bring to Madagascar or what people you need to bring, as long as it is not too exaggerated, you can seize the time to have someone prepare."

Su Chengfeng said with unbridled excitement, "Thank you, Mr. Ye! Thank you Mr. Ye! I'm going to take my butler Su Anshun with me and have him prepare the supplies and team for Madagascar"

At this time, Su Anshun, who was waiting for Su Chengfeng's triumph at Su's home, never dreamed that his master, who had already made up his mind, would take him with him to Madagascar.

And at this time, Ye Chen said to Ye Zhongquan again, "The people of the Ten Thousand Dragons Hall and the Su Family will just kneel like this for now, while our ancestral sacrifice ceremony will proceed as usual later."

Ye Zhongquan hurriedly said, "Then I'll have everyone prepare and get ready!"

Ye Chen nodded, and when he saw Helena in the crowd, who had some difficulty blending in with her surroundings, he said to Ye Zhongquan, "By the way, don't forget to arrange for a Concorde to send Helena back to China this afternoon."

Ye Zhongquan immediately said, "Don't worry Chen'er, I've already arranged for the plane, it can take off anytime."

At this time, Helena mustered up the courage to walk up to Ye Chen and said in a respectful tone, "It's hard for you to worry about my affairs, Mr. Ye!"

When Ye Chen saw that she seemed to have something to say, he spoke, "Helena, don't worry, since I said I would help you take back the throne, I will definitely honour my promise."

Helena immediately sighed with relief and nodded her head gratefully, "Thank you, Mr. Ye!"

Saying that, Helena hesitated again and again, but still spoke, "Mr. Ye I just received a message from Northern Europe, things may have changed a bit over there"

Ye Chen frowned and asked, "What news?"

Helena said, "It is said that yesterday Olivia and the representative of the Rothschild family talked late into the night, they have reached a preliminary agreement on the marriage union and are ready to officially announce to the public today at 10 am local time that Olivia will marry a member of the Rothschild family, and the wedding is scheduled for tomorrow night!"

Ye Chen was surprised and asked, "The Rothschild family? Is that Olivia in a relationship with someone from the Rothschild family?"

Helena spoke, "As far as I know, Olivia doesn't have a boyfriend at all and the Nordic royal family and the Rothschild family haven't had any previous dealings so this matter is a bit sudden. "

Ye Chen couldn't help but frown when he heard about the Rothschild family.

Although he had always known that the Rothschild family was a sworn enemy of his father back then, and also believed that the Rothschild family was probably behind the murder of his parents, he had never had the opportunity to have any direct contact with the Rothschilds.

Chapter 3430

The only one with a slight connection to the Rothschilds is still the same Walter Horowitz and his dad, Steve Hogwitz, who were locked up in the dog farm themselves.

The Horgwitz family, it is said, are distant relatives of the Rothschilds.

This distant kinship is so far removed that the Rothschilds have not come looking for these two grandfathers after they have been missing in Golden for so long.

This shows that a family like Hogwarts is simply a poor relative to be avoided in the eyes of the Rothschilds.

However, this time, that Olivia was actually going to marry someone from the Rothschild family, which made Ye Chen a little bit interested.

So, he asked, "Why did Olivia suddenly decide to get married at this time? Isn't the Queen not going to last for a few days? Isn't it a bit inappropriate for her to get married at this time?"

Helena was busy saying, "If Olivia wants to get married in the near future, now is the most appropriate time, once her grandmother dies, she won't be able to get married for a long time."

Ye Chen was surprised and asked, "What? Your royal family in Northern Europe also has the saying that you can't get married for a period of time after the death of an elder?"

Helena shook her head and said, "Although we don't have this saying, Olivia's status is special, she is the first in line to the throne, so once her grandmother passes away, she must put all her personal matters aside and put the enthronement ceremony first."

Saying this, Helena added, "According to royal tradition, a new emperor may not marry or divorce within three years of ascending the throne, because the first three years of ascending the throne are a crucial stage in building up one's personal as well as royal image, and personal matters are not allowed to interfere at such times, so Olivia will either have to hold her wedding as empress three years after ascending the throne, or she must first, before her grandmother dies get the wedding done."

Ye Chen asked suspiciously, "According to what you said, she didn't even have a boyfriend before, and now she suddenly announces that she wants to marry a member of the Rothschild family, so it should be an exchange of interests, right?"

Helena nodded her head and said, "I guess so! Olivia will always put her interests first, without strong interests to back her up, there is no way she would suddenly announce that she wants to get married at this time."

Ye Chen nodded and laughed, "The Rothschild family, for sure, has their eyes on the Queen's status that she will soon be able to get her hands on."

Speaking of this, Ye Chen couldn't help but sneer, "I just didn't expect that the Rothschild family, who have their hands in the sky in Europe and the United States, were also fame seekers, this is a bit different from their usual low-key style of acting."

At this moment, Wan Bajun respectfully spoke up, "Mr. Ye! I know a bit about the Rothschild family, their family structure is extremely large, leaving aside their foreign relatives, there are dozens of branches with the surname Rothschild alone, all over Europe and America."

Saying that, Wan Breaking Jun added: "Within the huge Rothschild family, they are divided into a total of three levels of ladders, which, the first level of the Rothschild family's real core, these core layers are basically in the United States, a small amount in the United Kingdom, the next level of the second ladder is generally in Canada, France and Germany, and the third level of the third ladder, again, is in other European countries. "

"I reckon this one who wants to marry Princess Olivia is a branch of the Rothschild family's third order ladder."

Ye Chen nodded gently and said with interest, "In that case, this is a good opportunity to make direct contact with the Rothschild family."

As soon as Ye Zhongquan heard this, he exclaimed, "Chen'er you are not thinking of going to Northern Europe, are you?"

Ye Chen smiled, "Originally, I didn't want to go personally, but since the Rothschild family is also there, then I really want to go and see it."

After saying that, he then turned his head to Helena and said, "Helena, after the ancestral ceremony is over, I will go to Northern Europe with you!"
