

Ye Chen 3491

Chapter 3491

The Queen knew very well in her heart that how long she would live in the future depended on Ye Chen, so at times like this, she naturally had to be obedient to Ye Chen.

As soon as George heard these words, his body was soaked in cold sweat!

He really didn't expect that the Queen would have such an attitude!

If that were the case, then he and his son would probably die here today

Thinking of this, he hurriedly begged, "Mr. Ye, don't be anxious, I'll think of a way to make up the remaining 500 million euros, I'll make it up to you as soon as possible"

Ye Chen nodded: "If you have this attitude, then we can move on to the next conversation."

George was slightly relieved and asked, "Mr. Ye, if the 4.5 billion euros is given to you on time, can you let me and William leave?"

Ye Chen laughed: "Then you might be thinking a little too much, what I can promise you is that if the four and a half billion euros is taken out, I will spare you and William from death, but we have an old saying in China, a deadly crime can be forgiven, but a living crime is hard to forgive, so what punishment you will receive next is all at my disposal."

Saying that, Ye Chen added, "Oh yes, and your wife, her next situation, will be the same as yours."

George said in a panic: "Mr. Ye 4.5 billion euros to you, you still can't set us free?"

Ye Chen nodded and said blandly, "If you continue to dwell on this issue, that four and a half billion euros may have to become nine billion!"

As soon as George heard this, he shut his mouth.

Even though he had ten thousand feelings of resentment and anger in his heart, he did not dare to raise it in front of Ye Chen at this moment.

Once Olivia heard that both George and William's father and son had a chance to live, right now her own future was still uncertain, so she cautiously asked, "Ye Mr. Ye don't know if you can let me and my father live then too"

Ye Chen looked at her and said in a cold voice: "I can give you a chance to live, let your father honestly bring out 500 million euros, at the same time you must also send Helena's mother back intact, do these two things well, I can also spare you from death!"

Olivia hurriedly said, "Helena's mother is being held at a nearby farmhouse, I have arranged for some people to keep an eye on her there, and I can have her sent here at any time!"

When Helena heard this, she asked out of the blue, "Olivia, have you given my mother a hard time?"

Olivia was busy saying, "I didn't give her much trouble other than having her locked up"

Helena was slightly relieved and subconsciously wanted to open her mouth to ask Olivia to send the person back, but once she thought that Ye Chen was around, she didn't say anything more because she knew that Ye Chen would definitely help her bring her mother back safely.

Ye Chen didn't let her down either, and immediately said to Olivia, "You should inform your men now, and have them send the person back immediately!"

"Yes" Olivia hurriedly took out her mobile phone and made a call on speakerphone mode, and said, "Send Helena's mother back to the palace, immediately, immediately!"

The other party immediately said, "Don't worry, Your Highness, we'll be there in twenty minutes!"

Olivia hung up the phone and looked at Ye Chen blearily, saying nervously, "Mr. Ye, the person will be sent back in a moment"

Ye Chen nodded in satisfaction and said indifferently, "How about this, I'll give you an account number, you can arrange for someone to transfer the money first, and when the money arrives, we'll move on to the next step."

A faint light flashed in George's eyes and he said, "Don't worry, Mr. Ye, you give me the account number, I will arrange for someone to transfer 2.5 billion euros first, and the remaining 2 billion can be transferred when the stock market opens tomorrow morning!"

As he said this, what was on George's mind was that if Ye Chen were to bring himself under control, the whereabouts of this money would be the key to his own family's search for his whereabouts.

If the Rothschild's core family could notice this matter, then it would be easy to find Ye Chen's head through the direction of this huge sum of money.

However, to his surprise, Ye Chen made a phone call to Tang Sihai and opened his mouth, "Housekeeper Tang, ask Wan Breaking Jun to give me a collection account, preferably one that can quickly launder the money! Their Wan Long Temple has been in the grey area for so many years, they should still have this ability!"

Chapter 3492

George had never dreamed that Ye Chen intended to let the Ten Thousand Dragons Temple collect this money!

The Ten Thousand Dragons Temple were all outlaws, and were spread all over the war-torn region, so even the Rothschild's core family could not possibly do anything to them.

After all, what rich people fear most is outlaws.

Even if the Rothschilds knew that their family had disappeared and that half of their money had gone into the pockets of the Ten Thousand Dragons, they would never go after the Ten Thousand Dragons in order to help themselves.

When he thought of this, George was at his wits' end.

It seemed that today, he was really going to be pinched to death by Ye Chen.

However, what shocked him even more was still to come.

On the phone, Tang Sihai spoke, "Young master, should I give the phone to Wan Bajun, it would be easier for you to ask him directly, I'm afraid that I might have missed something in the middle of the transmission."

Ye Chen said with a bland expression and casual tone, "Well, then you can give the phone to him."

When the surrounding people heard the tone of Ye Chen's speech, they all had a question in their hearts, hadn't the Ye family just been half eaten by the Ten Thousand Dragons Hall? Even if the Ten Thousand Dragons Hall was going to rely on the Ye Family to make money in the future, there was no way they would allow Ye Chen to treat them so casually, right?

Just as they were puzzled, Ye Chen faintly smiled and directly turned on the speaker of his mobile phone.

At that moment, Wan Bajun picked up the phone and said respectfully, "Mr. Ye, what are your orders?"

The moment these words came out, everyone at the scene was struck by lightning!

No one had expected that Wan Bajun, the famous Master of the Ten Thousand Dragon Hall, would treat Ye Chen with such respect.

George exclaimed in his heart, "This is the Wan Long Hall annexing the Ye Family or the Ye Family annexing the Wan Long Hall? Why is Wan Bajun treating Ye Chen so respectfully and politely?"

Olivia was also baffled and thought to himself, "Didn't Wan Bu Jun have a deep hatred for the Ye family? Even if the Ye family lost half of its assets to him, he shouldn't be so lowly to the Ye family, right?"

Just as everyone was astonished, Ye Chen spoke indifferently, "I have a sum of money that I need to find a reliable channel to wash out, the money belongs to a third-ranking family in Rothschild, the demand is for the money to be credited from their accounts to your Wan Long Temple's accounts, and then for your Wan Long Temple to wash it and take it out to me, can you do it?"

Wan Bajun then replied "We have opened a large number of secure accounts in Switzerland and many other offshore countries and regions, which are theoretically not monitored by any country or individual. We can disperse the money to tens of thousands of bank accounts in dozens of countries around the world within a few dozen seconds, and within a minute we can make the money go around the world before flowing into our dollar accounts, it can be absolutely untraceable!"

After hearing this, Ye Chen said with satisfaction, "That's great, you tell your men to send me all these account numbers immediately, I'll have people transfer money into them one after another."

"Okay Mr. Ye!" Wan Bajun asked again, "Right Mr. Ye, what is the approximate size of this fund that you want to wash?"

Ye Chen casually said, "Five billion euros."

When Wan Bajun heard this, his entire body froze.

Although he was also a person worth over ten billion dollars, the moment he heard that Ye Chen had a sum of five billion euros in cash to be credited, it still took him by surprise.

He knew that it had not been more than 24 hours since Ye Chen left China for Northern Europe, so to have 5 billion euros in cash in such a short period of time was even more incredible than a robbery.

However, Wan Xiaojun did not know that Ye Chen had robbed this money.

When Ye Chen saw that he didn't say anything, he opened his mouth and asked, "What's wrong, do you have difficulty in getting 5 billion euros?"

Chapter 3493

"No difficulty!" Wan Bajun said without hesitation, "Don't worry, Mr. Ye, I will launder every cent of this money for you, just tell me what currency you want."

Ye Chen laughed, "Of course I want dollars! I want to use this money to buy a ship!"

Wan Bajun was busy saying, "No problem, Mr. Ye, don't forget to give me a collection account, when the time comes, I will convert all this money into US dollars and remit it to this account."

Ye Chen said with a smile, "Don't give me this money, I will ask the Ito family for a collection account later, you can launder the money and pay it directly to the Ito family, my ocean shipping company is operated by the Ito family and Su Zhiyu together, this money will be given to the Ito family, so I can directly ask the Ito family to help me remit it to the Isu shipping group's account."

Wan Bajun said, "No problem! You ask the Ito family for an account number, and I'll take care of the rest!"

Ye Chen gave a hint, and then hung up the phone.

By this time, George and William, father and son, as well as Richard and Olivia, father and daughter, were already frozen on the spot as if they had been struck by lightning.

Hearing the conversation between Ye Chen and Wan Bajun, they had all penetrated a shocking secret: the Ten Thousand Dragon Temple had definitely submitted to Ye Chen, and Wan Bajun was definitely one of Ye Chen's men now! Otherwise, there was no way Wan Bajun would have treated Ye Chen with such respect!

Thinking of this, several people were terrified to the core!

Only now did they realise that Ye Chen had been pretending to be a pig and eating a tiger all along!

When he came, everyone thought that the Ye family had been bitten off half its life by the Ten Thousand Dragons Hall, and that its glory was no longer there.

But who would have thought that things would have turned out to be so superbly reversed!

Not only did the Ye Family not lose any of its family assets, but on the contrary, Ye Chen even took the entire Ten Thousand Dragons Hall into his pocket!

This was like a tiger with wings for the Ye family!

At this moment, William wanted to smack himself to death.

He had to mess with Ye Chen instead of anyone else!

With Ye Chen's current strength, even if there were ten of him, or a hundred of him, there was no way he would be a match for him

Even if one's own clan is just a small piece of trash in front of the Ye family!

At this point, Ye Chen ignored the shock of the gang and called Ito Nana-chan again.

On the other end of the line, Ito Nana-chan said excitedly and with respect, "Ye Chen-kun, are you in Northern Europe right now? Why are you calling me all of a sudden?"

Ye Chen smiled and said, "Nana-chan, I have a sum of money that I want to inject into Isuzu Shipping, it would be hard for you to give me a bank account number of the Ito family, I will transfer this money to you, and you will then help me inject it into Isuzu Shipping."

Nana-chan said without hesitation, "No problem, Ye Chen-kun wait a moment, I will send you the account information."

"Good." Ye Chen said, "I still have to call Miss Su, I'll talk to you later."

"Good!"

At this time, everyone in front of them was even more shocked and speechless.

Who would have thought that even the famous Ito family in Japan would treat Ye Chen with respect and obedience!

And at this time, Ye Chen called Su Zhiyu on the phone again.

Su Zhiyu picked up the phone and said with the same respect, "Your Excellency, do you have any orders for me at this time?"

Ye Chen gave a hint and said, "Zhiyu, I want to inject capital to expand the Isu shipping company.

Su Zhiyu said without thinking, "If your Excellency asks me to inject capital, then I will do so!"

Chapter 3494

Right now, Su Chengfeng was still kneeling on Mount Ye Ling, so for the time being, he had not officially handed over the Su family headship to Su Zhiyu either.

However, this matter was already a nail in the coffin, so when Su Zhiyu heard that Ye Chen wanted to inject capital into Isu Shipping, he immediately decided to do so with him.

When he heard Su Zhiyu's agreement, Ye Chen said, "In this way, I will first inject 5.1 billion euros into Isu Shipping through the Ito family, and it just so happens that my shareholding ratio is also 51%, as for your side, you will inject 4.9 billion euros, so that our shareholding ratio does not need to be adjusted."

"No problem!" Su Zhiyu agreed without hesitation and said respectfully, "Your Excellency, if Iso Shipping comes in with another 10 billion euros of capital injection, it will definitely be able to become the world's top shipping company!"

Ye Chen gave a hint and said, "When the money arrives, you have to spend it on the blade, you should communicate with Zhiqiu and see how this money will actually be used when the time comes."

"Good!" Su Zhiyu was busy saying, "After I sign the relevant documents with grandpa tomorrow, I will immediately rush back to Jinling to touch base with Zhiqiu on this matter."

"Mm." Ye Chen said lightly, "After you officially inherit the Su family, you must pull out the thorns within the Su family one by one, especially your uncles and aunts, and their children, they must be very dissatisfied with your sudden ascension to the throne, you must make them accept it honestly in the shortest possible time, anyone who dares to sing against you, they should be from the Su family! "

Su Zhiyu said respectfully, "Don't worry, my benefactor, Zhiyu understands!"

Ye Chen then said, "Let's leave it like this for now, we'll talk about the details in person when I return."

When Ye Chen hung up Su Zhiyu's phone, these people around him were already in a state of admiration.

From Ye Chen's conversation, they could also hear that this Su Zhiyu would soon inherit and become the head of the Su family.

And her attitude towards Ye Chen was surprisingly so respectful.

This showed that Ye Chen's strength right now was already terrifying!

Only now did William and Olivia realise what kind of a character they had provoked.

Ye Chen might not have any roots in the West, but in the East, with his strength and connections, I'm afraid he had few rivals!

At this moment, Ye Chen looked at the panicked crowd and turned to the Queen and said, "Inform the Royal Guards that these two people should be controlled and not allowed to contact the outside world, and at the same time, you should personally announce to the public that these two people have been arrested for attempting to commit regicide and plot rebellion, so tomorrow's wedding is cancelled."

Without thinking, the Queen said, "Yes, Mr. Ye, I'll do it!"

Helena was busy saying, "Then I'll go and inform the Royal Guard!"

At this time, William's father George asked nervously, "Mr. Ye I can arrange for someone to start transferring the money here, and I will definitely transfer the 4.5 billion euros tomorrow morning, please be magnanimous and spare us"

Ye Chen said indifferently, "I said, I can spare you from death, but I can't let you go free, your family will depart for Syria tomorrow after you finish transferring the money, I have friends who have some power there, I can definitely take good care of you."

When George heard this, he almost collapsed and cried, "Mr. Ye, I'd rather serve my time in a prison in Northern Europe than go to a place like Syria! I beg you, please give me a higher hand!"

Ye Chen said in a cold voice: "I'm giving you a single choice now, and there's only one option, if you talk any more nonsense, I'll break your legs before sending you there!"

Chapter 3495

George dared not say more at once, but was completely broken inside, wiping tears from his eyes as he whimpered alone.

Richard asked in a panic, "Ye Mr. Ye can you let us stay in Northern Europe for the sake of us being royalty at least"

"Impossible." Ye Chen said blandly, "In two days Helena will inherit the throne, until then, you will be stripped of your royal status then exiled overseas, in this life and in the next, you will not be allowed to return to Northern Europe!"

When Olivia heard that Helena was going to inherit the throne, she was angry and hated, so she hurriedly said to the Queen, "Grandma, we can't give the throne to Helena under any circumstances! She has a serious heart condition! I'm afraid she won't live long enough to die! And if she has no children, the throne will probably be inherited by one of the nephews in the next line!"

The Queen said in a cold voice: "Mr. Ye can even save me, let alone Helena. With Mr. Ye, Helena will live a long life! In the future, her children and grandchildren will inherit the throne!"

After saying that, the Queen coldly snorted, "Olivia, you should care about yourself! Mr. Ye has just said that you will be stripped of your royal status and exiled overseas! As for where you will be exiled to, it's up to Mr. Ye to decide!"

Olivia looked at Ye Chen and pleaded, "Mr. Ye I don't want anything else, I just want to stay in Northern Europe please be merciful"

Ye Chen laughed: "Originally, I did intend to let you stay in Northern Europe, sentenced you to a life sentence without parole, so that you can spend the rest of your life in prison, I heard that you have high welfare in Northern Europe, living in prison is similar to living in a hotel, I think you will not be too painful"

At this point, Ye Chen turned his words and said in a cold voice: "But you are really a bit self-conscious, to even try to kill me, so now the arrangement for you will also have to be properly adjusted."

Olivia choked, "Mr. Ye in Northern Europe, life imprisonment is already the most severe sentence before there was a sociopathic gunman who killed dozens of people by himself, but he was only sentenced to life imprisonment Could it be that sentencing me to life imprisonment is not enough to satisfy Mr. Ye?"

Ye Chen smiled faintly: "Compared to life imprisonment, I prefer to let you leave Northern Europe."

Saying that, Ye Chen added, "By the way, there is a term called reform through labour, I wonder if you have heard of it?"

Olivia shook her head in fear.

She had not heard of the words labour reformation, but she vaguely felt very bad.

Ye Chen laughed at this time, "Your Nordic welfare is too high, a bit illogical, why should a criminal not only be able to eat, drink and live well in prison, but also not have to create any value, isn't that just a waste of taxpayers' money? Therefore, it is the most reasonable and fair way to let guilty people like you to create value with your labour, and then use the value you create to satisfy your food, drink and shelter."

Saying that, Ye Chen thought for a moment and added: "Right, the old family head of the Chinese Su family will soon go to Madagascar to be the landlord, when the time comes, I will ask him to buy several hundred acres of sugar cane land and several hundred acres of cotton land, so you and your parents, and these people who work for you, will go together to Madagascar to cut sugar cane and pick cotton!"

"Cut sugar cane?!" Olivia was so dizzy at the sound of that that she almost fainted on the spot.

And her father Richard was about to collapse, crying, "Mr. Ye cutting sugar cane and picking cotton, that's the kind of work black slaves did back then you can't torture us like that"

"Bullsh*t!" Ye Chen questioned in a cold voice: "Your God also says that all beings are equal, are black slaves not human? Wasn't the inhumane black slave trade back then also the work of your old ancestors, the Vikings? Think of it as paying your ancestors' debts!"

Chapter 3496

Madagascar, in Ye Chen's opinion, was an excellent country to carry out labour rehabilitation.

Firstly, that place was extremely underdeveloped economically and the conditions were extremely poor, so it had a good disciplinary significance for Olivia's gang, in itself.

Secondly, the more economically underdeveloped the place is, the more human labour is needed, and the labour is mostly agricultural work, sugar cane and cotton, all of which are African specialties, all of which require a lot of human labour to pick, and the amount of work involved is enough for these people to experience the joy of labour.

When the time comes, let Su Zhiyu give Su Chengfeng a large estate in Madagascar, buy more land to grow sugar cane and cotton, and leave all the farming work to these people.

Olivia was already on the verge of a breakdown.

She had been so proud of herself that she thought she was going to be the queen soon.

But she had never dreamed that Ye Chen would send him to Madagascar to cut sugar cane and pick cotton there!

This is something that only the poor people would do in the local African region, and for her, a princess, to go and do this, how could she accept it

So she broke down and cried, begging and pleading, "Mr. Ye, I really don't want to go to Madagascar Please sell me to Aman Ramovich, he will be willing to pay you a sum of money, it's much more cost-effective than sending me to Madagascar in any case"

Olivia, who had never thought much of Amanramovic, a dirtbag, now saw him as a hot commodity.

She thought to herself, "Amanramovich has always wanted to marry a woman of royal birth, since he is willing to marry Helena, he must also be willing to marry me He is even willing to pay hundreds of millions of euros for Helena, so he must also be willing to pay the same price for me, in that case, I can at least go to Russia and become a rich wife"

Just when Olivia thought that Ye Chen would definitely agree to her proposal, Ye Chen asked her with a sneer, "I seem to remember that you despise that Aman Ramovich, why are you now taking the initiative to rush to marry him?"

Olivia hurriedly explained, "I am also trying to generate more income for you, Mr. Ye If you want, you can totally earn several hundred million euros from Amanramovic!"

Ye Chen laughed: "I think you are thinking too much, how can I possibly let you follow Aman Ramovich to Russia to enjoy your happiness? Since I said I would let you work and reform, I must put you where you are most needed, and I see no place that needs you more than Madagascar right now!"

Olivia cried out in pain and pleaded, "Mr. Ye a weak woman like me, even if I go to Madagascar, I won't be of much use, you might as well let me earn a good income for you, please"

Ye Chen turned a deaf ear to her plea, he had already made up his mind to make Olivia's gang unable to leave Madagascar for the rest of their lives.

At that moment, Helena swarmed in with dozens of royal guards.

The Royal Guards were all on high alert as they knew that someone was trying to kill the Queen, and they rushed all the way up with their guns loaded.

Seeing that the Queen had awakened, the head of the Royal Guard said with surprise, "Your Majesty, you have awakened!"

The Queen nodded slightly and said, "Bruno, get all these people under control and guard, don't let any of them go!"

The white male called Bruno immediately said in a loud voice, "Don't worry, Your Majesty, I will not let any of them escape!"

"Good." The Queen nodded with a tired look on her face and waved her hand, "All right, take all these people down! Lock them up in the underground wine cellar!"

"Yes, sir!"

The loaded royal guards immediately arrested William's family as well as Olivia's family, along with those men in black who had been invalidated by Ye Chen.

Chapter 3497

Even William, who had already gone back to his room to rest, and Olivia's mother were also arrested separately by the Royal Guards and escorted to the underground wine cellar for detention together.

Soon after, Olivia's men returned Helena's mother.

As soon as they entered the palace with Helena's mother, she was immediately arrested by the Royal Guard.

When Helena saw her mother, who had lost a lot of weight, she ran over to her and hugged her in agony.

Seeing this, the Queen let out a soft sigh and respectfully asked Ye Chen, "Mr. Ye, these people who have just been arrested, are they also disposed of like Olivia and the others?"

"Right." Ye Chen nodded and said indifferently, "Put them in the wine cellar first, and in a few days, they will depart for Madagascar with their masters."

Saying that, Ye Chen also instructed the empress, "Before they depart for Madagascar, make sure to seize the opportunity to get the rest of Olivia's men who have not yet been arrested from Olivia and her men's mouths, so as to ensure the safety of the future royal family."

The Queen said respectfully, "Thank you, Mr. Ye, for reminding me, I will have the Royal Guard investigate closely at every level!"

"Mm." Ye Chen nodded, looked at the time again and spoke, "It's not too early, you'd better release the news to the outside world as soon as possible, on the one hand, make the crimes of Olivia and the others public, on the other hand, also announce the re-designation of Helena as the heir to the throne, and also announce the time of your abdication, it's better early than late at this time, you should arrange it as soon as possible. "

The Queen did not hesitate to say: "Mr. Ye don't worry, I will record a video later and officially announce it to the public through the Nordic news media, as well as the various platforms of the internet!"

Speaking here, the Queen added: "By the way Mr. Ye, the coronation of the new emperor, according to the Nordic regulations, has to be held by the archbishop in the church, due to the tedious and complicated process of the ceremony, so it will take at least two or three days to prepare, so the earliest time for the abdication, I'm afraid, will be three days later"

Ye Chen nodded and said indifferently, "Then let's set it for three days later!"

Half an hour later.

When the people of Northern Europe were ready to go to sleep, all the mainstream media in Northern Europe temporarily broadcasted an important news item.

The news was a video that the Queen had just recorded inside the palace.

In the video, the Queen is looking much better and in better shape, and has changed into her official dress.

At the beginning of the video, the Queen herself tells the story of how she was murdered by Olivia and William's family, including how Olivia and William's family tried to kill the Queen tonight, leaving out Ye Chen.

When the video reached this point, all the people in front of the television sets and mobile phone screens were extremely angry.

For they could never have imagined that Princess Olivia, the originally dignified-looking heir to the throne, would be so treacherous!

Immediately afterwards, the Queen publicly announced in the video that she would permanently abolish Olivia's status as the heir to the throne and expel her family from the royal family.

In addition, the Queen announced that the heir to the throne of the Nordic Kingdom had changed from Olivia to Princess Helena.

At the same time, the Queen announced that she would abdicate in three days' time, and that her abdication and the crowning of Helena's new King would take place in the largest church in the Nordic capital!

Since then, the dust has settled in the Nordic Kingdom!

Chapter 3498

Once the Queen officially announced to the public that she would pass the throne to Helena, Ye Chen had already moved to return.

The purpose of his visit to Northern Europe this time was to put Helena on the throne, and now that this purpose had been successfully achieved, in addition to that, he would also receive an additional five billion euros in cash, which could be said to have far exceeded his original expectations.

Therefore, he felt that there was no need for him to remain in Northern Europe at this moment, so he might as well return to China overnight.

However, at this moment, Helena was with her mother in the infirmary, because when they met, Helena's mother was a little too emotional and cried several times until she lost control of her emotions, so the royal doctors immediately took her to the medical room for a detailed examination.

After the examination, the doctor determined that Helena's mother's health was not only malnourished but also suffering from a severe nervous breakdown.

The doctor speculated that the main cause of the nervous breakdown was the fears and fears of the past few days.

Helena's mother had originally been worried about Helena's situation, and later, after she herself was imprisoned by Olivia, she was also worried that she would never have the chance to meet her daughter again in the future, so she was mentally tortured.

After Ye Chen decided to leave, he said to the Queen, "Since everything has been settled, then I will not continue to stay in Northern Europe, please also ask the Queen to keep a close watch on William as well as Olivia, the two families, and I will arrange for someone to come to Northern Europe to pick them up tomorrow."

The Queen hurriedly said, "Mr. Ye, it is already late at night, so you might as well rest at the palace for the night and leave tomorrow."

Ye Chen waved his hand and said, "I can take a short rest on the way back, I won't waste time here, there are still many things waiting for me to deal with in Huaxia."

The Queen said regretfully, "Mr. Ye, I actually want to keep you at the palace for a few more days, when you attend Helena's coronation ceremony, I'm sure she is looking forward to you being there to witness her ascend to the throne"

Ye Chen smiled faintly and said, "I will not attend your royal coronation ceremony as an outsider, not to mention that as an Asian face, if I appear at the Nordic royal coronation ceremony, it will itself attract speculation, and in the future I also hope to have more business cooperation with the royal family, if the Nordic people find out the end in advance, I am afraid there will be many negative comments at that time, won't If the Nordic public finds out about this in advance, I am afraid that there will be many negative comments.

Seeing that Ye Chen's mind was already made up, the Queen could only say respectfully, "Since Mr. Ye has already made up his mind, then I can't force myself, I will arrange for a royal convoy to escort Mr. Ye to the airport."

Ye Chen nodded and said, "Then I will trouble you."

The Queen hurriedly greeted the head of the Royal Guard over and ordered, "Hurry up and have the convoy ready, and also go and inform Princess Helena that Mr. Ye is leaving, and tell her to come and see him off quickly."

Ye Chen did not want to disturb Helena's reunion with her mother, but after all, she was leaving, so it would be unkind not to greet her in person, so he did not say much.

Soon, Helena walked in with a pale woman on her arm, and as soon as she saw Ye Chen, she said anxiously, "Mr. Ye Why are you leaving so soon? You just landed in Northern Europe just a few hours ago, at least take a rest before you leave"

Ye Chen smiled faintly and said, "You have seen with your own eyes what happened in Ye Lingshan, there are still many things waiting for me to wrap up."

When Helena thought of the fact that at this moment in front of Ye Lingshan, not only were there nearly a hundred generals of the Ten Thousand Dragon Hall kneeling as well as those direct relatives of the Ye family, but even those branches of the Ye family's side lines might have rushed back as well, thinking that all these matters must have had Ye Chen going back to preside over the big picture.

Chapter 3499

Thinking of this, even though she had a million reluctances in her heart, she could only say softly, "Mr. Ye has many affairs, Helena will not stay much longer"

After saying that, she hurriedly took the woman beside her and said to Ye Chen, "Mr. Ye, my mother is very grateful to you, and when she heard that you were leaving, she had to come to thank you personally"

At this moment, the woman beside Helena, with a respectful face, bowed deeply to Ye Chen and said gratefully, "Mr. Ye, thank you for saving my life and the lives of Helena's mother and daughter also thank you for giving Helena a chance to inherit the throne"

Although Helena's throne was given by the empress, in the eyes of Helena's mother and daughter, the throne was actually given by Ye Chen.

If it wasn't for Ye Chen, the empress would not have been able to give the throne to Helena even if she wasn't on the verge of death.

When the Queen heard this, although she was somewhat dissatisfied in her heart, she knew very well at this time that she would soon be handing over all power, and from now on, her goal in life was not to pursue any consolidation of royal power, nor any majesty of the Queen, but to actually pursue to live a few more years.

Therefore, she quickly put her dissatisfaction behind her and all she could think about was Ye Chen's magical Oriental secret medicine.

Ye Chen was not being polite at this time, although he had not said so all along, he did need to keep in mind in Helena's mind that this throne was given by him to Helena.

So, Ye Chen said to Helena's mother, "Lady Iliad, there is no need to be polite, helping Helena inherit the throne is a promise I made to Helena, so naturally I must honour it to the fullest."

Helena then said, "Mr. Ye, do you have time to come to the coronation ceremony in three days?"

Ye Chen smiled, "I have already spoken to the Queen about this just now, and I personally don't want to be too high-profile, so I won't be coming to your coronation ceremony."

Saying that, Ye Chen took out the quarter of the Spring Return Pill and handed it to Helena in front of the Queen, smiling, "This part of the Spring Return Pill is considered as my congratulatory gift to you, congratulating you in advance on your succession to the throne."

Seeing Ye Chen's quarter of this Spring Return Pill, the Queen's eyes had sunk in and could not be pulled out.

She had just experienced the miracle of this elixir for herself, so she couldn't wait to take another part of it to further enhance her physical condition.

However, she did not expect that Ye Chen would give this elixir to Helena.

However, she couldn't help but feel a little excited in her heart, because if this medicine was in Ye Chen's hands, if Ye Chen didn't give his nod, it would be impossible for her to get it, but if this medicine was in Helena's hands, there would naturally be a lot more possibilities for her to get her hands on it.

Helena was also a bit puzzled at this point, and she thought to herself, "Why did Mr Ye give me this quarter of a pill? Right now I have almost no roots in the royal family, there is no one I can trust around me except my mother, if this elixir is given to me, I'm afraid I won't be able to keep it at all What should I do in case my grandmother has a bad idea" "

Just when Helena was at a loss for words, Ye Chen said with a smile, "Ms. Iliad's physical condition is indeed very poor, I think she should be less than fifty years old, her hair is already half white, her mental state is also much worse than her peers, if it all relies on slow conditioning, I'm afraid it will be difficult to recover in a year and a half."

"And you, in three days' time, will be officially crowned Queen, and at the coronation ceremony, if your mother's state is too bad, it will also arouse suspicion from the outside world."

"So, this part of the Spring Return Pill, give it to your mother to use for toning up her body!"

Chapter 3500

The empress, who had already started to hit on this Spring Return Pill, heard Ye Chen's words and her entire body was instantly stunned as a strong loss surged within her heart.

She had not expected that although Ye Chen had given Helena the Spring Return Pill, he had directly specified that she should give it to her mother to take.

In that case, I was afraid that she would have no destiny with this part of the Spring Return Pill.

Ye Chen naturally took the Queen's shift in mood in his eyes.

The reason he had bluffed was to see if the empress coveted this part of the Spring Return Pill, and if so, to give the empress a warning in the meantime.

He wanted to let the Queen know that the Elixir of Spring Return was something that he would only take out for Helena's sake.

Therefore, if she wanted to continue to get the Spring Return Pill, she must do a good job of transferring power honestly and must not be clever enough to leave any backhand.

Otherwise, if the old woman changed her mind or was unwilling to release her power after Helena's accession to the throne, then Helena would be nothing more than a puppet even if she became empress.

The reason he had worked so hard to put Helena on the throne was to give Helena real power over the royal family and to use the influence of the royal family to help him expand his business in Europe.

If Helena was hollowed out by the current Queen, then she would not be able to play any substantial role even in this position.

Apart from using this part of the Spring Return Pill to give the current Queen a wake-up call, Ye Chen also wanted to make Helena more grateful to himself.

He had not only cured her illness, but also saved her mother, and even helped her clear the hurdles to succeed the Queen's throne, and on top of that, he had even taken out the precious Spring Return Pill to help her mother tune up her body.

With so many favours on the table, I believe Helena will definitely bear this in mind in the future.

And Ye Chen had indeed guessed Helena's heart correctly. At this moment, her gratitude to Ye Chen could no longer be described in words.

There was only one thing on her mind at this moment, and that was to do her best to repay Ye Chen for his kindness to her.

She would not hesitate to do so, even if it meant that she would have to sacrifice her liver and brain.

The extremely moved Helena's blue eyes stared at Ye Chen without blinking and her voice choked with sobs, "Mr. Ye you have been as kind to me as a mountain, in this life and in this life, Helena's heart will always hold you in high esteem!"

Ye Chen nodded slightly and smiled blandly, "Give the medicine to your mother."

"Yes!" Helena dried her tears and immediately put the quarter of the rejuvenation pill into her mother's hand and said excitedly, "Mom, take this medicine quickly, it's a divine medicine brought by Mr. Ye, Grandma woke up from her deep coma with it!"

Helena's mother looked incredulous and asked her out of the blue, "Is this medicine really that miraculous?"

Helena nodded her head repeatedly and said excitedly, "I've seen it with my own eyes, and it's really amazing! Just hurry and eat it!"

The Queen's heart was dripping with blood at this moment.

She was even praying deep inside, praying that Helena's mother would not eat this part of the Spring Return Pill so that she could still find a way to get her hands on this part of the pill when Ye Chen left.

But at that very moment, Helena's mother took the Spring Return Pill and without hesitation, she put it into her mouth!

In this instant, the Queen's heart immediately became extremely lost.

Helena's mother, on the other hand, immediately underwent a dramatic change that was visible to the naked eye!

Firstly, her complexion quickly changed from its original pallor and weakness to fullness of spirit and a rosy glow.

Secondly, her half-white hair had turned back into shiny brown hair at a speed visible to the naked eye.

What was even more incredible was that even some of the wrinkles at the corners of her eyes and on her face had rapidly faded within a short period of time, and a large portion of them had even disappeared outright!

The Queen's entire body looked dumbfounded!

She really didn't expect that Ye Chen's rejuvenation pills could not only save lives, but could even return a person to youth!

Seeing Helena's mother as if she was more than ten years younger, she was envious to the core.
