

Ye Chen 3521

Chapter 3521

"Not only that, when the time comes, I can also apply to the court for enforcement, when I will directly seize all their assets for auction, and then get the money back to the Ten Thousand Dragons Hall."

"As the saying goes, there is no harm in being prepared, in this way, we can basically ensure that nothing can go wrong."

The members of the Ye family's side lineage all turned pale, they did not expect that Ye Chen would calculate them in such a way, with these demands of his, he hardly gave the members of the Ye family's side lineage any way to live.

Once they signed this agreement, they would be signing a harsh deed of betrayal, and naturally there was no hope for them to turn over in the future!

Only then did Wan Bajun understand that Ye Chen was much more comprehensive in his considerations than himself, so he said without hesitation, "No problem, let's do as you say."

Ye Chen added: "Since it's a contract, there must be a legal recipient body, in which case, it would be inappropriate for Wan Long Temple to come out on top, so the best way is to use a domestic enterprise as the recipient, and have them pay the money directly into the account of this domestic enterprise."

Saying that, Ye Chen seemed to remember something and added, "Right, it just so happens that I have a Dihao Group in Jinling, so if Hall Master Wan doesn't mind, he can completely use the Dihao Group as this recipient body and have them all pay the money into the Dihao Group account."

Immediately, Wan Bajun understood Ye Chen's meaning.

Thus, he nodded along with the water and spoke, "In that case, then let's use your Dihao Group as the payee, and let the money be paid to the Dihao Group account first, and then pay it to Wan Long Hall through other means."

Ye Chen immediately said, "That's of course!"

Saying that, Ye Chen added: "Since we are using the Dihao Group as the payee, then there must be a debt contract between the Dihao Group and these Ye family side families, that is why I suggested that you have them sign an electronic agreement, to make sure that this is all legal so that when we go to court in the future, we will have enough certainty! "

These side members of the Ye family, at this moment, could not wait to skin Ye Chen alive or dead, because this guy, not only handed Wan Breaking Jun the knife to slaughter his own relatives, but also told him where to strike the knife the fastest, the most accurate and the most ruthless.

For a while, everyone regarded Ye Chen as an unbreakable enemy, and kept thinking in their hearts how to take revenge on him and make him pay a painful price in the future.

At that moment, Ye Chen called Han Meiqing's son, Paul, directly.

During the phone call, Ye Chen told Paul in detail about his needs for the contract, but he didn't mention any more details, not even about the Ye family and the Vanguard Palace, he just asked Paul to produce an electronic version of the contract according to his needs.

Paul himself had been working as a lawyer for many years, and he basically had a very strict model for all kinds of contracts. After he also knew all of Ye Chen's needs, he directly modified one of his installment contract templates to a certain extent, and then sent the contract to Ye Chen.

After Ye Chen had the contract in his hands, he read it over and found that there were no problems or bugs in it before handing it over to Wan Bajun.

When Wan Bajun got the contract, he immediately started to ask all the branches of the Ye family to sign the agreement.

These Ye family branches dared not refuse and signed the agreement electronically, and the first party in the agreement was Ye Chen's Dihao Group.

Ye Chen's Dihao Group immediately had a debt of over 300 billion RMB, which exceeded the market value of the entire Dihao Group.

According to the contract, the 300 billion was divided into five years and 60 instalments, so for every month in the next five years, these members of the Ye family's side line would pay Ye Chen the principal amount of 5 billion RMB, as well as 1.8 billion RMB in instalment fees.

And this money, they would repay for five years without fail!

Chapter 3522

Just as Ye Chen took care of all the instalment agreements for the side branches of the Ye family, the William Rothschild family also smashed the pots and pans to pay the rest of the funds in place.

In just the work of one ancestral ceremony, Ye Chen had grown five billion euros in cash, two hundred billion RMB in cash, and a debt with a principal of over three hundred billion RMB and five years' interest of over two hundred billion.

Ye Chen finally understood why many emperors in history were particularly fond of exploiting the various vassal kings, and even often sacked them, mainly because these vassal kings were mobile vaults, fat and greasy.

If they were loyal to their sovereign, everything would be fine, but if they did not even have the basic idea of loyalty, what else would they have to wait for if their families were not raided?

If we don't raid their homes and cut their strength now, they might be interested in the throne someday.

Wan Bajun had accompanied Ye Chen for half a day, and seeing that the dust had now settled, he came to Ye Chen and asked in a low voice in his ear, "Mr. Ye, when are you going to tell them the truth?"

Ye Chen said casually, "There's no hurry, it's not over yet, you can tell them all to start at the foot of Ye Ling Mountain and climb up to Ye Ling Mountain in three steps, I'll wait for them on Ye Ling Mountain."

Wan Bajun said, "Mr. Ye, it will take at least half a day to climb up from here, and it will probably be dark by the time they climb up.

Ye Chen shook his head and said indifferently, "No need, I'll wait for them on the mountain, and during the time they are climbing up, I can also spend time with my parents, and after they climb up, I will reveal the mystery."

Saying that, Ye Chen added, "Broken Jun, you should not stay at Ye Ling Mountain either, go and find a good grave for your parents first, so that the two of them can be buried as early as possible, just leave some manpower here."

Although he was convinced and willing, he still felt very guilty about his parents' coffins because they were also on Yeh Ling Mountain.

Originally, he had thought that he could let his parents be buried in peace as soon as possible, but Ye Chen had not given the word, and he did not dare to speak up.

Now that Ye Chen had taken the initiative to say it, he was naturally very grateful in his heart.

So, he was moved and said, "Thank you, Mr. Ye, then I will go down to the mountain to take care of my parents' affairs, if there is anything you need, you can always instruct the generals of the Ten Thousand Dragon Hall or call me directly, I will definitely come as fast as I can!"

Ye Chen smiled faintly and said, "No need, go ahead and go about your business, this time you took the liberty of raising your parents' coffin and disturbed the peace of the two elders, it was indeed too hasty, it would be better to make up for it by taking care of it properly."

Wan Xiaojun nodded his head in shame.

He had long regretted his rashness and unfiliality, and now he only wanted to do his best to make amends. Therefore, when he heard Ye Chen's words, his heart was even more ashamed, and he hurriedly said, "Mr. Ye, you are right.

Ye Chen nodded slightly and said, "You don't have to worry about this side of things, later on, tell the Ye family that I will decide everything on Ye Ling Mountain, and then you can leave first."

Wan Bajun busily said, "My subordinate will do so!"

While Ye Chen and Wan Breaking Jun were whispering, the seven hundred or so members of the Ye family's side line had been apprehensively and quietly gauging the two.

At this moment, what was going through their minds was that Ye Chen must be slandering to the Outer Breaking Army, not knowing what evil he was holding back again.

Chapter 3523

In their view, Ye Chen was already as odious as the traitors back then.

At this time, Wan Bajun came to the crowd and said in a loud voice: "Listen carefully, all of you, all matters here will be left to Ye Chen's discretion, you must listen to his orders and not be disobedient! If not, I will definitely not spare him!"

Once Wan Bajun said this, the Ye family's group of people almost collapsed on the spot.

Originally, they had thought that Ye Chen had merely surrendered to the Ten Thousand Dragons Hall and become its lackey, but to their surprise, Wan Bajun had taken him so seriously.

As they were dumbfounded, Ye Chen walked up to Wan Bajun and said, "You sons of the Ye family, at this critical moment, have disregarded the safety of the family and the ancestors buried in the ancestral tomb. Climb up Ye Ling Mountain! Go and repent personally to the ancestors buried on the mountain!"

As soon as Ye Chen's words were spoken, the seven hundred or so members of the Ye family's side lineage wailed!

They had taken out almost all of their cash and signed an installment agreement that could be called a contract of sale, so it could be said that they had already lost most of their fortune.

But even so, they hadn't been able to get past this hurdle, and now Ye Chen was even asking them to go up to Ye Lingshan in three steps, wasn't he trying to torture them to death?

Although the Ye Ling Mountain had been thoroughly developed by the Ye family and there was a level concrete road from the foot of the mountain to the mausoleum on the mountain, it was still a distance of three to five kilometres to go up the mountain.

If you take three steps, you will have to kowtow one head in less than three metres, so you will have to kowtow at least a thousand heads to get up there.

The three-step process is already tedious, and if one moves nimbly, one can only complete it two or three times in a minute, so it would take at least five or six hours to get up there.

If Wan Bajun had made this request, they wouldn't have dared to say a word and would have started kowtowing all the way up without saying a word.

However, when these words came out of Ye Chen's mouth, the members of the Ye family's side line were all furious.

Someone directly cursed angrily, "Ye Chen! Don't you fucking bully people too much! You don't even take a piss to see what you are! You are no different from a traitor in front of Hall Master Wan!"

There were others who had bad intentions and deliberately wanted to cause conflict between Ye Chen and Wan Bajun, so they accused, "Ye Chen! Your father, Ye Chang Ying, was responsible for the death of Hall Master Wan's parents back then! Even if Hall Master Wan raised a hundred thousand dogs, it would not be your turn to bark here!"

Someone even shamelessly blurted out, "That's right! Master Wan! You can't listen to this despicable man's slanderous words! The Ye family is your father's enemy! How dare he ask us to kneel down and worship the ancestors of the Ye family in front of you!"

As Wan Bajun listened to these people's words, he was shocked and wondered, "I had a vague feeling that Mr. Ye was a bit too cruel to these people, but now I realize that these people deserve what they get! If I were in their place, I would have killed them when I saw their faces like this!"

Thinking of this, Wan Bajun became furious and immediately shouted coldly, "How dare you! I have just said that I will leave everything here to Mr. Ye's discretion! How dare you defy orders?"

The Ye family members trembled in fear.

Wan Bajun turned to some of his generals and ordered, "Take out those who insulted Mr. Ye, and slap them a hundred times! No! Five hundred slaps!"

Chapter 2524

This was also the key to the success of the Dragon Hall.

He had already been grateful to Ye Chen for being sympathetic to his parents' need to be buried in peace, and when he saw the shameless faces of the members of the Ye family, he was already furious.

It was because of his anger that he inadvertently blurted out the words "Mr. Ye" and said them twice in a row.

This made these members of the Ye family's side lineage sense something extraordinary.

If the Ye family had completely given up resistance and surrendered to the Ten Thousand Dragons Hall, it would not be incomprehensible for Wan Bajun to take Ye Chencheng as his lapdog.

However, for Wan Bajun to suddenly address Ye Chen as Mr. Ye, this seemed a bit off.

However, before they could be too surprised, a number of generals from the Ten Thousand Dragons Hall rushed into the crowd and dragged out those guys who had just spoken shamelessly.

Immediately afterwards, there was the sound of firecrackers being slapped one after another throughout the valley.

All the generals of the Ten Thousand Dragons Hall were martial arts masters, and their arm strength was almost as strong as, or even stronger than, a full-grown tiger.

If a slap didn't catch them, I was afraid that the other party might die.

Although Ye Chen was very unhappy with these members of the Ye family's side lineage, he had not yet thought of taking their lives.

So, he spoke to stop them, "Alright, there is no need to fight."

Ye Chen only spoke these six words indifferently, and one by one, those generals of the Ten Thousand Dragons Hall immediately stopped the movements of their hands.

This scene even more surprised the members of this group of Ye family's side lineage.

If it was said that the respectful way Wan Bajun had called out "Mr. Ye" to Ye Chen just now made them wonder, then the way those few generals of the Ten Thousand Dragons Hall had obeyed Ye Chen was enough to make their eyes drop.

Almost every member of the Ye Family's side lineage asked themselves a question that struck straight to their souls deep inside: Why did Wan Bu Jun, as well as the Wan Long Hall generals, treat Ye Chen with such respect?

Was it just because the Ye Family had surrendered half of its assets to the Ten Thousand Dragons Hall?

That didn't seem very realistic.

I had never heard of any aggressor who, after having succeeded in his invasion, had treated his victim with respect.

Generally speaking, but all aggressors are bottomless and have no credibility.

They will first make a first step request to the victim, and if the victim complies, they are unlikely to rest in peace, only to possibly intensify and make a second and third step request until they have drained all the value out of the victim.

Even if he, the Ten Thousand Dragons Palace, had a high reputation and had done what he said he would do after the Ye Family had taken out half of its assets and would no longer make things difficult for the Ye Family, it definitely did not rise to the level of treating the Ye Family with such respect.

Therefore, they all wanted to know, behind this, what kind of hidden secrets were hidden from the public?

At this time, Ye Chen looked at these jaw-dropping Ye Family members, cleared his throat and spoke, "What I had originally thought was to wait until you had climbed all the way to the top of the mountain on your knees before letting you know the truth, but since each and every one of you has become suspicious, then I will simply stop pretending and show my cards."

The seven hundred or so members of the Ye family's side lineage were all awe-struck, staring at Ye Chen with unblinking eyes, waiting for his next words.

However, before Ye Chen could say anything, Wan Bajun, who was at the side, knelt down on one knee with a face of shame, and said in a self-condemned manner, "My subordinate was impulsive and did not control his mouth, so please punish Mr. Ye!"

"Crap!"

"What the hell?!"

"Wan Bajun actually knelt down for Ye Chen?!"

Chapter 3525

"Did he just call himself a subordinate?! What does that mean?! Did the Ten Thousand Dragon Hall submit to Ye Chen?!"

The people of the Ye family below exploded in a flash.

None of them had expected that things would go in this direction now.

This was simply a direction of development that they had least expected.

It was like dropping a brick from a hundred-metre high building. You had thought that it might hit a person, a car, a small animal or a flower or plant, but you dared to think that instead of falling, the brick would fly upwards and out of the atmosphere upside down, overturning gravity?

This was how the members of the Ye family felt at this moment.

Shock had long been inadequate to describe their state of mind, and they had begun to feel that the world was absurd, so absurd that it was already full of magic.

Everyone had fled in haste because they were afraid of Wan Bajun, who the hell would have thought that Wan Bajun would become Ye Chen's henchman?

At this time, Ye Chen waved his hand at Wan Bajun without a care, and said indifferently, "It's alright, there's always a showdown, it's just a matter of sooner or later."

After saying this, Ye Chen looked at the seven hundred or so members of the Ye family's side lineage and questioned in a cold voice, "Do you all think that the Ye family is bound to fail before the Ten Thousand Dragons Hall?"

No one dared to respond from the seven hundred or so people below.

Ye Chen asked again, "Do you all feel that the Ye Family is doomed this time, and that's why you can't wait to clear yourselves of the Ye Family?"

More than seven hundred people looked panicked, and no one dared to speak up.

Ye Chen asked again, "Do you think that even if the Ye Family is completely finished this time, it will not affect your future?"

Among the seven hundred people, many of them had already started to wipe the cold sweat from their foreheads in a panic.

Ye Chen sneered at this time, his expression carrying complete contempt as he sternly said, "You short-sighted, rat-eyed verticals, have you ever thought that I, Ye Chen, can not only save the Ye Family from distress, but can even take the Ten Thousand Dragons Hall under my command?!"

The crowd trembled with fear at this rebuke from Ye Chen.

It was then that they realised what they had missed.

If they had not run away and held on to Ye Ling Mountain with the Ye family, then every one of them would have been a meritorious servant.

But none of them looked after the Ye family, and none of them had any regard for their fellow clansmen and the Ye family's kindness, so they all ran away one by one with their heads in their hands.

Now, it was time for Ye Chen to settle scores after the autumn!

When Ye Chen saw that all these people were terrified, but did not dare to say a word, he said with a face full of contempt: "Now, I am the head of the Ye family, and you, my fellow clansmen, have made me realise what it means to have people's hearts in their bellies! When the Ye Family helped you and supported you in the beginning, they were completely feeding the tiger for the trouble!"

When the crowd heard that Ye Chen was already the head of the Ye family, they were all even more shocked and speechless.

In their hearts, many of them had already started to berate themselves for being a complete and utter fool.

They thought that they had avoided a monstrous catastrophe, but they had never thought that what they had avoided was a great fortune!

At this moment, Ye Chen continued: "As the saying goes, a vertical son is not enough to plan with! I should have used other people's hands to kill you all! But I was so naive as to think about my clan and wanted to save your lives and your family's chance of survival.

At this moment, Wan Bajun immediately clasped his fist and said, "Mr. Ye! If you say one word, I, Wan Bajun, guarantee with my life that none of these 700 people will walk out of Ye Ling Mountain alive! And for this crime, Wan Long Hall is willing to take all the blame for you!"

Chapter 3526

When Ye Chen said that he was a woman of mercy, these members of the Ye family's side lineage still felt that Ye Chen was simply shameless to the extreme.

However, after Wan Bajun sang along with Ye Chen, they all almost fell to the ground in fear.

Wan Bajun's words made them understand one basic truth, that is, if Ye Chen was ruthless enough to take their lives, Wan Bajun would definitely do so.

Moreover, for a mercenary organisation like the Ten Thousand Dragons Temple, which had its roots overseas, they had no concept of law at all, so the big deal was to run away to a war-torn region, and no one could do anything to them.

So, the gang didn't know who started first, and they all knelt on the ground while kowtowing and begging.

"Ye Chen is that we are worse than pigs and dogs, please give us another chance, from now on we will definitely be loyal to the Ye family, even if the sky falls down, we will not run away again"

"Ye Chen you can set us off, we are willing to admit our guilt and admit the punishment, just please, for the sake of our fellow clansmen, leave us a dog's life, so that we can redeem ourselves for the Ye family in the future!"

"Yes, Ye Chen is the same clan after all, we are all born from the same root, why are we so anxious? We have never wanted to harm the Ye family, and we beg you to spare us this time."

Seeing the tearful faces of this crowd, Ye Chen said with a cold expression, "Since you are all from the same clan, it is not impossible to spare your lives, but you must first climb up Ye Ling Mountain from here, kowtowing three steps at a time, and repent to the ancestors of the Ye family before I consider whether to give you a break!"

As he said that, Ye Chen added, "Listen carefully, the 50% who go up first, I won't punish them any more for now, but the 50% who are in the back of the line, after you go up, kneel for 24 hours!"

At these words, a member of the Ye family's side line said excitedly, "I'll climb! I'll crawl right now!"

After saying this, he immediately kowtowed in the direction of Ye Lingshan, then stood up, took three big steps, flung himself on his knees and kowtowed again.

Seeing this, the others, one by one, also scrambled to be the first to say.

"I'll kowtow too!"

"I'll do it too!"

In a flash, everyone went crazy, kneeling all the way towards Ye Lingshan with three steps and a kowtow.

Ye Chen told the generals of the Ten Thousand Dragons Hall to keep an eye on the group to prevent them from being sneaky, so he himself ignored the group and stepped up to Ye Ling Mountain alone.

At this moment, on Ye Ling Mountain, the Ye family's gang was still kneeling honestly.

When they saw Ye Chen return, they all had fear and awe in their eyes.

Old Master Ye he had slept again. Where had they all gone? At this moment, he was also on the mountain, and when he saw Ye Chen coming, he hurriedly greeted him and opened his mouth to ask him: "Chen'er, things are still going well over in Northern Europe, right? I've seen the news, the Nordic Queen has officially announced that she has abolished that Olivia's right to inherit the throne, and at the same time announced that she is going to pass the throne to Helena in three days."

Ye Chen nodded and said indifferently, "The Nordic side has been taken care of, after Helena has ascended to the throne, the Ye family will officially start business cooperation with the Nordic royal family, at that time, I will send a business team all the way over to meet with Helena."

Master Ye said with a look of admiration, "Chen'er, I am afraid that you are the only one in the world who can change the Nordic throne and the entire Nordic royal family in such a short period of time!"

Chapter 3527

Ye Chen did not take the old man's flattery seriously, but said with a bland expression, "The Nordic royal family will be the bridgehead for the Ye family to enter Europe in the future, so the relevant cooperation must be promoted quickly and implemented urgently, there must not be any mistakes. We need to choose a suitable person to go there."

Master Ye nodded his head: "Naturally! Chen'er, do you think you should go there personally or should I go on your behalf?"

Ye Chen thought for a moment and spoke, "Helena is a young girl after all, I'm afraid there will be a bit of a generation gap in communication with you."

Ye Changmin, who was kneeling in the crowd, hastily volunteered, "Chen'er! Why don't you let me go? I'm familiar with Helena, and you've asked me to kneel here for three days, but I'll be done in two days!"

Ye Chen looked at the fawning Ye Changmin and frowned slightly.

He naturally knew Ye Changmin's intentions, which were nothing more than grasping for time to please himself, in addition to also grasping for time to have a place in the Ye family where he was the master.

However, he really couldn't have any good feelings towards Ye Changmin.

Although she had behaved quite well this time, Ye Chen did not intend to give her a chance so early.

Just at this moment, he saw his youngest aunt Ye Changxiu beside Elder Ye, so he spoke up, "Youngest aunt, why don't we work hard for you to lead a trip, you and Helena should know each other as well. "

"Me?" Ye Changxiu said with some uncertainty, "Chen'er, I have spent most of my time for so many years raising my husband and children, rarely involved in business activities, for such a big event, I'm afraid I will drag my feet"

The actual details of the cooperation will be completed by our professional manager team when the time comes, and the royal side will certainly have their professional manager team to interface with our side, although Helena is the Nordic Queen, but the real business it may just shoot the board, the details are not involved, so when the time comes , you will be responsible for exchanging feelings with Helena, and the rest will just be left to the professional manager team of both sides to complete."

Only when Ye Changxiu heard this did he finally put his mind at ease and nodded, "OK! Then I'll take the team of managers for a trip."

Ye Chen smiled faintly and said, "Then it will be hard on little aunt."

Ye Changmin had a lost look on her face at this moment, originally thinking that she was the most suitable candidate, after all, she had not been idle even though she had been married for many years, and had almost always participated in various business activities, and had not been involved in the affairs of the Ye family, so she could be considered experienced, but she did not expect that Ye Chen would give this opportunity to her sister, who had little business experience.

The expression of Ye Feng, who was kneeling next to Ye Changmin, was even more ugly.

In his heart at the moment, he was simply depressed to death: "Damn it! Helena was originally my fiancée! Now she's about to become the Nordic Queen! If I was still married to her, wouldn't I be the Duke of the Nordic Kingdom now? Damn it if I had known that Ye Chen was so capable, I would have grabbed my fucking head and licked him on my knees, how could I have sneered at him right off the bat really blinded my dog's eyes!"

Ye Feng's father Ye Changkong is even more depressed to the extreme, his heart secretly thinking: "originally almost married the Nordic empress as daughter-in-law, the result is now the daughter-in-law ran away not to mention, I have to fucking mourning here for three years, this is not the day of the dog this is not!"

Chapter 3528

The Ye family members who regretted were far from just Ye Changkong and Ye Feng.

Every single member of the Ye family kneeling here had regrets in their hearts by now.

If they had known that Ye Chen was so capable, they would not have offended him even if they had died, let alone quietly bought mourning clothes and plotted to surrender to Wan Breaking Army.

Now, they were like those traitors after the victory of the war. Apart from regretting, they were more at a loss as to what to do and what to do.

At this moment, behind the Ye family, there were two more people kneeling.

These two people were Su Chengfeng and Su Shoudao, the father and son of the Su family.

Originally, when they had knelt for a full day and night at the Hall of Ten Thousand Dragons to depart from the mountain, they had already reached the time, but Su Chengfeng had to drag Su Shoudao to continue kneeling, and had to kneel until Ye Chen arrived.

At this moment, both of them were shocked to hear for themselves that Ye Chen had even called Helena to the throne of the Nordic Queen.

Ye Chen's eyes also glanced at the two of them and asked, "Su Chengfeng, Su Shoudao, why are you two still here?"

Su Chengfeng hurriedly said, "Back to Young Master Ye you didn't come, how dare we just leave"

Ye Chen smiled and casually said, "Alright, both of you don't need to act here, hurry back to prepare and go your separate ways."

Saying that, Ye Chen thought of Olivia and spoke, "Right Su Chengfeng, I have found a group of long term workers for your future estate in Madagascar, among them are the three members of Princess Olivia's family from the Nordic royal family, when the time comes, treat them as former black slaves, plant cotton and cut sugar cane and other things, just leave it all to them."

Su Chengfeng couldn't help but shiver and thought to himself, "This Olivia is not only the princess of the Nordic royal family, but also the previous heir to the throne, and her father is also the prince of the Nordic royal family, so to get them all to work as long term workers in my future estate? This guy Ye Chen is also a bit too careless of the Nordic royal family's dignity"

Although he thought so in his heart, Su Chengfeng's mouth still promised down repeatedly and said gratefully, "It's hard for Young Master Ye, everything still has to be done for my sake"

Ye Chen said indifferently, "When you go to Madagascar, you must give me a good operation, I may still have people to send to you in the future."

Su Chengfeng panicked in his heart and couldn't help but ask himself, "Am I going to Madagascar this time, am I going to be the landlord or am I going to be the warden for Ye Chen"

In his panic, he said without hesitation, "Don't worry, Young Master Ye, I will definitely run the Madagascar property well. Yes, I will communicate with Zhiyu again before I leave, and set the details properly."

Ye Chen said casually, "Hurry up, I have a large number of people over in Northern Europe waiting to be arranged."

Su Chengfeng hurriedly said respectfully, "Yes, Young Master Ye! I will definitely hurry up!"

Ye Chen nodded slightly, then said, "Alright, from now on, the rest of Ye Lingshan is the Ye family's business, so you guys go."

After saying that, he greeted a few Wan Long Hall generals and spoke, "You two escort them to Buckingham Palace to find Su Zhiyu, so that they can do all the things they promised to do before."

Several generals of the Ten Thousand Dragons Hall immediately arched their hands and said, "Yes Mr. Ye, my subordinates will definitely do as they are told!"

Seeing that both Su Chengfeng and Su Shoudao were taken away, Ye Chen looked at the Ye family kneeling in front of him, then he turned to Ye Zhongquan and said, "I'm going to stay in front of my parents' spirit for a while, so when the gang at the bottom of the mountain kowtows all the way up, let them kneel here first."

Ye Zhongquan said without hesitation, "No problem Chen'er, you go ahead, teach me here."

Ye Chen nodded and walked alone through several rows of tombstones, stepped in front of his parents' mausoleum and slowly knelt down.

Gazing at his parents' photos, Ye Chen felt a lot of emotions in his heart, he couldn't help but say softly, "Dad, my son is now the head of the Ye family, back then if grandpa had passed the headship to you earlier, I think you and mum wouldn't have left your hometown for Jinling, let alone incur the scourge of killing yourself"

"Mom and Dad, please don't worry, my son will definitely find the murderer who killed you two back then and avenge you both!"

Chapter 3529

At this point, Ye Chen looked at his father's handsome face in the portrait and choked up, "Dad I know that you always wanted to carry the Ye family forward and make the Ye family stand at the top of the world, now, my son has decided to carry your banner back then, and one day, I will definitely make the Ye family the top of this world! One day, I will make the Ye family the best family in the world."

After saying that, Ye Chen looked at his mother's portrait again and said in shame, "Mom they all advised me that I should go and meet my grandparents, I'm sure you also want me to go and see them, but it's just that I really have little contact with my grandparents, and now that you are also gone, I really don't know how to face them both, so this matter may not be possible for the time being, so please can you forgive me"

Subsequently, Ye Chen bent down and kowtowed three times in front of his parents' tombstone.

Immediately afterwards, he said, "Dad, mum, my son will keep you two company today, tomorrow I may have to return to Jinling, right now my son is not ready to disclose his identity, so it is not advisable to stay in Yanjing for a long time, but I will make time to come over to see you guys from now on"

After saying this, Ye Chen added, "When my son officially opens his identity to the world in the future, I will definitely bring your daughters-in-law with me, so that you can see my son's other half and feel more at ease."

At this point, Ye Chen's heart was filled with melancholy, and tears slipped silently from his eyes.

For the next few hours, Ye Chen did not speak again, but knelt long and silently in front of his parents' spirit, not saying a word.

The Ye family could only see a shadow of his back from below, and no one knew that this man, who had just subdued the Ten Thousand Dragons Hall and, with his own strength, completely changed the pattern of the Nordic royal family, was already in tears in front of his parents' grave.

Several hours later, most of the members of the Ye family's side lineage had knelt all the way to the bottom of the pagoda on the hill.

Seeing a host of Ye family first cousins also kneeling here, each one was a little dumbfounded.

Before they could figure out why the full members of the Ye family were also kneeling on the ground, they were chided by the generals of the Ten Thousand Dragons Hall to kneel down again one after another.

As more and more people came up, the bottom of the Ye Lingshan pagoda was almost full of people kneeling.

At this time, the sky was getting late and the golden sunset was spreading over the whole Ye Ling Mountain, making the Chinese white jade carved tombstones on Ye Ling Mountain look particularly eye-catching.

As the setting sun reflected on Ye Chen's back in the sky, everyone watched with rapt attention, waiting for his next instruction.

Only, this back was kneeling there, motionless for hours, as if it were a carving.

Just as the sky was reflecting fiery red clouds of fire, Ye Chen slowly got up and looked back, watching as the Ye family knelt and slowly walked down from the mausoleum.

The core members of the Ye family, as well as the members of the side lines, all turned their eyes towards him, the vast majority of them acting very apprehensive, except for Ye Zhongquan and Ye Changxiu whose expressions carried full anticipation.

Ye Chen came to stand in front of the crowd, looked around and said in a cold voice, "From today onwards, the Ye Family Ancestral Ritual will be changed from once every twelve years to once a year! All forms can be kept simple, but everyone must come to Ye Ling Mountain to pay respect to their ancestors in person on the day of the Qingming Festival, and no one may be absent!"

"In addition to this, all members of the Ye family's side line must come to Yanjing every three months for a debriefing meeting to report in detail to the main family on their operations over the past three months, again no one is allowed to be absent! Do you all understand?!"

In Ye Chen's opinion, these side clan kings of the Ye family only came over to pay their respects once every twelve years, this frequency was too low, and because of this, they could not talk about any loyalty to the Ye family at all, and the Ye family had no real control over them.

However, from now on, this must all be changed completely.

By making them come to pay homage to their ancestors every year and report every three months, it is to strengthen the Ye family's control over them as the main family.

If the Ye family was compared to a feudal dynasty, what Ye Chen was trying to do now was to strengthen centralised power and weaken local decentralisation, and to hold these scattered vassal kings in his hands to the death!

Chapter 3530

No one expected that Ye Chen would change the Ancestral Ritual, which was held once every 12 years, directly to once a year.

One must know that although the ancestor worship ceremony is of great significance, it is also a laborious and costly event in itself.

So, an older member of the side branch in the crowd said, "Ye Chen 's ancestral ceremony is once every twelve years, it is a rule set by the old ancestors, you want to change it to once a year, it is too frequent, right? I personally think that it may not be a good thing for us to disturb the ancestors' peace so frequently! In case the old ancestor is displeased, then this is a great disrespect to the ancestor!"

Ye Chen looked at him and said in a cold voice, "It's because it used to be once every twelve years, so all of you surnamed Ye have long forgotten the old ancestors to the ninth heaven! When people said they were coming to dig up your old ancestors' graves, you all fled Yanjing in the night! Is that how you respect your ancestors?"

The old man was suddenly red in the face and hurriedly shut his mouth.

Seeing that he was silent, Ye Chen questioned, "Why aren't you speaking? Weren't you quite capable of speaking just now?"

After saying that, Ye Chen pointed towards the ancestral tomb of the Ye family behind him and asked him in a cold voice, "Come, in front of the old ancestor, explain properly to the old ancestor, how exactly did you respect the old ancestor?"

The old man was ashamed and said, "I I was wrong"

Ye Chen said in a cold voice: "Don't tell me! Come out and tell the old ancestor yourself!"

The old man could only walk out from the crowd and face the more than a hundred graves of the ancestors of the Ye family and said in shame, "In the presence of the ancestors of the Ye family, the unworthy grandson Ye Weiming was wrong! I hope the ancestors will forgive me!"

Ye Chen snorted coldly and ignored the old man, continuing to address the seven hundred or so Ye Family side branches in front of him and said in a stern voice, "You should not think that you are Ye

Family side branches and that I, the head of the main family, am bullying you by making demands of you!"

After saying this, he pointed at Ye Changkong and Ye Changyun, as well as Ye Feng and Ye Hao, who were kneeling on one side, and said in a cold voice, "Open your eyes and take a good look at these kneeling around you! All of them are members of the Ye family! Here are my own eldest uncle, my own uncle, my own aunt, and my cousins, who have made mistakes and still have to kneel here for three days and nights for me!"

With those words, Ye Changkong and the other members of the Ye family's original family, all bowed their heads in shame, while the seven hundred or so members of the side branches, all of them were dumbfounded!

Only then did they realise that Ye Chen's iron blood was not just directed at them, the outsiders.

He had dealt more ruthlessly with his own family than he had with them!

Ye Chen continued to speak shockingly at this point, "And I might as well tell you that most of them, from now on, will have to stay at Ye Ling Mountain for the next three years to observe mourning for their old ancestor!"

"For the next three years, even if a sword falls from the sky, they are not allowed to leave even half a step!"

"Even if anyone gets seriously ill and has to stay in the ICU, I will build the ICU for him to come to Ye Lingshan!"

When this group of Ye family side members heard this, the whole group had already started to be a bit terrified, just now they thought that Ye Chen making their family members kneel here for three days and nights was already cruel, but they didn't expect that there was something even more ruthless!

At this moment, Ye Chen looked at them with cold eyes and continued, "So listen carefully, from now on, if any of you dare to betray the Ye Family or cause the Ye Family to suffer losses, then one of you will be counted as one, and you will definitely end up worse than them!"

Seeing this, no one dared to raise any objections to the ancestral ritual.
