

Ye Chen 3541

Chapter 3541

Ye Feng immediately brightened up and said with unconcealed excitement, "I said I said I'll be honest I really don't want to stay in Ye Lingshan Ye Chen beg you to give me a chance! No matter what you ask me to do, I am willing, as long as you don't ask me to go to Madagascar to cut sugar cane"

Ye Chen nodded and smiled, "How could I possibly let you go to Madagascar, how can you say that you are also surnamed Ye, there is no way I would let a Ye family member go work for the Su family to contribute."

Saying that, Ye Chen faintly smiled, "I want you to go to Northern Europe this time."

As soon as Ye Feng heard the word Northern Europe, he not only sighed with relief, but also said with great excitement, "Go to Northern Europe? I'll go I'll go! What do you want me to do in Northern Europe, just give me an order, I will do my best!"

At this moment, Ye Feng's heart was already extremely excited and he couldn't help but think furiously, "Ye Chen asked me to go to Northern Europe, he must want me to represent the Ye family and strengthen the cooperation with the Northern European royal family! If I can win Helena's heart and marry her, then I will be the link between the Ye family and the Nordic royal family! I could be made a duke too! Not only will I benefit from this, but the Ye family will also benefit greatly! It seems that Ye Chen has really played a good game of chess!"

Thinking of this, Ye Feng already thought of Ye Chen as his new parent, and hastened to make a flattering statement, "Ye Chen Oh no! The family master! You do not worry! I will do my best to win back Helena's heart after I arrive in Northern Europe! I will never let down the hopes you and the Ye family have for me"

Ye Chen froze and couldn't help but laugh, "Then you're probably thinking too much, I didn't send you to Northern Europe for you to woo Helena, besides, she's about to ascend the throne and become the Queen, you know with your toes that she can't possibly look at you."

"Huh?" Ye Feng's heart went cold and he asked, "Then what are you asking me to go to Northern Europe for? Is it to start cooperation with the Nordic royal family as the representative of the Ye family? But didn't you leave this task to Second Aunt before?"

Ye Chen smiled, "Of course it's not for you to be the representative of the Ye family either, the main reason is that there are still three people over there that need to be disposed of as soon as possible, so you'll go to Northern Europe with the Vanguard Dragon Hall generals and send those three people to Syria."

"Ah? To Syria?!" Upon hearing this, Ye Feng's entire body almost collapsed and said offhandedly, "Then I'd rather stay at Ye Lingshan than go to a place like Syria"

The conditions in Ye Lingshan were a bit tough, but at least it was safe.

And you can still stay with your dad and other relatives.

The conditions in Syria are 10,000 times tougher than in Yelingshan, and there is war everywhere, so who wants to go to a place where there is nothing to do? It would be better for him to stay at Ye Ling Mountain and observe mourning for his ancestors.

However, Ye Chen did not give him the chance to give feedback.

He questioned in a cold voice, "Ye Feng, do you think I am discussing with you?!"

Seeing that Ye Chen was moved to anger, Ye Feng cried and pleaded, "Ye Chen oh no family head I really don't know you want me to go to Syria my father only has one son, if I die in Syria, my father will be extinct ah"

Ye Chen said indifferently, "Don't worry, with the generals of the Ten Thousand Dragons Temple around, you can't die, not to mention that I have connections over there and will definitely guarantee your safety."

Saying that, Ye Chen added a warning, "But you better not say any more nonsense, or else I might make you stay in Syria for the rest of your life!"

Seeing this, Ye Feng hurriedly nodded his head like a garlic and said, "I'll go! I'll go! I'll go whenever you say!"

Ye Chen ignored him and turned to a five-star war general from the Hall of Ten Thousand Dragons and said, "Now pick four of your men and take Ye Feng with you on the Concorde to Northern Europe, and send the three people I mentioned to Hamid."

The five-star war general said respectfully, "My subordinate understands!"

Chapter 3542

By the time Ye Chen had finished settling everything, it was already late in the day.

And on the brightly lit Ye Ling Mountain, hundreds of people were kneeling in dense mass.

Ye Chen turned back to look at his parents' tomb not far away and gazed at it for a long time before he let out a soft sigh and said to Ye Zhongquan, "Grandpa, since everything is almost taken care of, I will go back to Jinling tomorrow."

Ye Zhongquan said, "Chen'er, you are now the head of the Ye family, I don't advise you to stay and settle in Yanjing, but this time at least stay for a few more days, I will sort out all the affairs of the Ye family with you, and then introduce the team of managers of the Ye family to you, they will still be responsible to you in the future."

Ye Chen said, "The Ye family has a lot of business, it is not realistic to ask these managers to prepare all the information immediately, and even if they are ready, they will definitely not be able to connect clearly in a while, so you can ask them to prepare the information and materials for the connection from tomorrow, and I will come back in a few days."

Ye Zhongquan felt that what Ye Chen said was reasonable, not to mention the Ye family's large industry, even for a company with tens of millions of assets, the various operational information could not be prepared in a day or two.

So, he nodded and said, "Okay, then I will instruct them to start preparing later, and you will come back to Yanjing to dock with them when the time comes."

Ye Chen responded and said, "I'll go to Buckingham Palace later to meet Su's family again, and return to Jinling tomorrow morning."

Ye Zhongquan did not continue to stay, so he spoke, "Chen'er, when you go back this time, just leave the private plane that Yan Zhong sent you in Yanjing, from now on that Concorde of the Ye family will be your special plane, that plane is fast and it will be more convenient wherever you go."

Ye Chen waved his hand and said indifferently, "No need, Yanjing is not that far from Jinling in the first place, and an ordinary plane is only two hours, yes. Although the Concorde is fast, it takes an hour to fly this distance, counting the time for take-off and landing, so it is actually not much faster, and more importantly, there is only one Concorde in the country, so if it flies to a small place like Jinling, it would be a bit too conspicuous, so it is better to leave it in Yanjing for the time being."

Hearing this, Ye Zhongquan nodded gently and said, "Grandpa will sit in Yanjing for you for the time being, if there are any matters or requests, you can give orders at any time!"

"Good." Ye Chen withdrew his gaze from his parents' tomb, his eyes slightly closed for a moment, and spoke, "Alright, butler Tang prepare the car, let's go down the mountain this time."

Tang Sihai said respectfully, "Young master wait a moment, I'll go and prepare it now."

Before leaving Ye Ling Mountain, Ye Chen instructed the remaining generals of the Ten Thousand Dragons Hall, "In the next few days, you are to keep a strict guard on Ye Ling Mountain, except for the Ye family members as well as Housekeeper Tang, no one else is allowed to go up Ye Ling Mountain."

One of the five-star war generals immediately said respectfully, "Don't worry, Mr. Ye, my subordinates will guard the mountain strictly and will never let any idle people on the mountain!"

Ye Chen nodded and added, "Also keep a close eye on this group of Ye family members who are kneeling on Ye Ling Mountain to repent, and make sure they kneel for the time I require."

"My subordinate understands!"

Ye Chen nodded in satisfaction and said, "Turn around and tell your Hall Master for me that after he has buried his parents, leave a group of generals to guard the Ye Ling Mountain and the Ye family, and the rest, bring them all to the Buckingham Palace Hotel in Jinling to find Chen Zekai, who will arrange everything, and I will be waiting for him in Jinling at that time."

"Okay Mr. Ye, my subordinates will definitely relay your words word for word to the Palace Master"

.....

A few minutes later.

Ye Chen sat in the Rolls Royce driven by Tang Sihai and sped all the way towards the Buckingham Palace Hotel in Yanjing.

Chapter 3543

And at this time in the Buckingham Palace, Su Chengfeng and Su Shoudao, were each signing the relevant legal documents.

What Su Chengfeng was signing was the transfer of all control, decision making and beneficiary rights of the Su Group to Su Zhiyu.

Su Shoudao, on the other hand, signed the divorce agreement with Du Haiqing, formally dissolving his marriage with Du Haiqing.

When Ye Chen arrived at Buckingham Palace, the father and son had just finished signing all the relevant documents.

Several professional lawyers, at this time, were doing a final check to ensure that there were no loopholes in everything.

After all, he had loved Du Haiqing for so many years, but now it was really the end of the couple's relationship, which made him feel extra sad.

Although Du Haiqing could not look happy, she could tell that her whole body had been relieved.

The previous Du Haiqing always seemed to have a faintly sad look between her eyebrows, sometimes making people feel that she might be a little sickly.

But now that sickly state has been swept away and replaced by an unprecedented sense of relief.

As for Su Chengfeng, while lamenting the handing over of the Su family headship, he could not help but always remind Su Zhiyu: "Zhiyu you must not forget to help me buy more land in Madagascar area The larger the better, the better, the better to dig a moat directly around it, directly isolated from the locals."

Saying that, he recited, "Oh yes, let the whole estate's underlings or servants as well as bodyguards, it's better for me to bring them over from China, their local economic development level is too poor, and the locals definitely can't meet my requirements."

Su Chengfeng, who had lost the opportunity to retire in the Maldives, now only wanted to ensure his safety and living conditions in Madagascar as much as possible. He knew that the local area was poor and that there were many diseases, so from the bottom of his heart he did not want to have any direct contact with the locals.

Su Zhiyu naturally has no problem with this.

Although she had many grievances against her grandfather, in the end, blood was thicker than water.

Moreover, since her grandfather had left, she was afraid that it would be difficult for him to return in the future, so she naturally wanted to ensure his living conditions in Madagascar.

So, she nodded and said, "Don't worry, grandpa, don't you want to bring housekeeper Su over? I will give them a satisfactory salary and also pay them a settlement fee."

Su Zhiyu said, "As for your comment about the bigger the better, I will try my best to do it for you as long as your Excellency allows me to do so, but the amount of work is really too huge and it will take at least two to three years to complete.

Su Chengfeng said, "Zhiyu, Grandpa has already thought about it. It is definitely not practical to build it all from scratch, we can go to the local area first and buy the best manor house they can buy, and then expand around this manor house.

Su Zhiyu hesitated for a moment and spoke, "I personally have no problem with it, but I still have to ask my benefactor for permission, if it's okay with him, it's okay with me too."

Su Chengfeng was so anxious that he slapped his thigh and blurted out, "Oops! Ye Chen is just asking me to go to Madagascar and won't let me come back, he won't ask about other things, just arrange for someone to go there as soon as possible and do it for me, in a place like Madagascar, getting an estate of a few hundred hectares is probably not even worth US\$100 million."

Su Zhiyu still insisted, "Then I also have to say hello to my benefactor, I can't make a decision directly."

Ye Chen walked into the room at this time and said lightly, "Miss Su, let's do everything according to Master Su's request, after all, Madagascar will be his second homeland in the future, the material conditions cannot be too bad."

Saying this, Ye Chen added: "What's more, I might send some labourers to him regularly in the future, the bigger the place, the more convenient it is."

Chapter 3544

Ye Chen's appearance caused Su Zhiyu's eyes to brighten up at once.

She looked at Ye Chen in surprise and said offhandedly, "You're here, benefactor"

Ye Chen nodded, and Su Chengfeng, who was beside her, also said with immense excitement, "Mr. Ye thank you for your generosity"

Ye Chen waved his hand indifferently.

He was not being magnanimous towards Su Chengfeng, it was just that Su Chengfeng had already honestly handed over the position of the Su family's head and would no longer pose any threat to himself from now on, and after Su Zhiyu inherited the Su family, his old and new grudges with the Su family would also be wiped out, so there was no need for him to continue to make things difficult for Su Chengfeng in this matter.

He then said to Su Chengfeng, "After Master Su arrives in Madagascar, I will not interfere in any way with what you do there, and as long as you don't do anything wrong, I won't disturb your life there."

Su Chengfeng was like being pardoned and bowed, "Thank you, Mr. Ye! Thank you, Mr. Ye!"

Ye Chen looked at Su Zhiyu and said, "Miss Su, in the next two days, you should hurry to choose the person who will follow Master to Madagascar, and at the same time, send two real estate agents to Madagascar to buy the estate that meets Master's requirements.

Su Zhiyu said without a second thought, "Okay Your Excellency, I will start on these two things this evening."

Ye Chen nodded gently, then said to Su Chengfeng, "Old master, you are going to such a faraway place alone, it must be rather painful without a family member around you, your second son Su Shoude is still being held by me in Jinling, once your side is all ready, bring your second son along with you, I have the same requirements for him as you, he must not leave Madagascar without my permission, let alone No return to the country."

Once Su Chengfeng heard that Ye Chen was going to release Su Shoude to go with him, he was in a much better mood all of a sudden.

As Ye Chen had said, it must also be a painful feeling to go to Madagascar alone, with no family other than his subordinates, and if his second son could go with him, it would be a good thing for him and for himself.

So, he said with immense gratitude, "Thank you, Mr Ye, for your generosity, I thank you for Shou De!"

Ye Chen nodded and said to Shoudao, "He's family is still waiting for you, tonight you'll stay in the same room as Master He, early tomorrow morning, you'll drive back to Jinling with them."

Previously when the He family escorted Su Shoudao and Chen Zhonglei to Beijing in secret, they had driven all the way here, and Su Ruoli, because of her special status, had also chosen to drive with her mother He Yingxiu to Yanjing overnight, so they would also be driving back this time, so Ye Chen planned to also let Su Shoudao go with them.

Su Shoudao had nothing against the He family, on the contrary, he was truly relieved when he knew that he would have to live under the surveillance of the He family in the future, so there was even less dissatisfaction at this time and said honestly, "Okay Mr. Ye, I understand."

Ye Chen turned to have Hong Wu greeted and had Hong Wu bring Su Shoudao to Elder He's room.

He then said to Su Chengfeng, "Old master, you have a good attitude today, since that's the case, then I will give you more freedom, you can go back to the Su family tonight, tomorrow it's the right time to hold a family meeting to make an official announcement to the outside world about Miss Su becoming the head of the Su family, in the period before you depart, you can move freely in Yanjing, but you can't leave Yanjing, you can't play missing. You can't play missing, do you understand?"

Once Su Chengfeng heard Ye Chen say that he could go home and rest for two days, his heart was immediately grateful and he choked up and said, "Mr. Ye, thank you for being so generous to my old bones Su is grateful"

Chapter 3545

Su Chengfeng had been oppressed by Ye Chen's strong aura for two days and had knelt on Ye Ling Mountain all night, his whole body had already known how many times he had broken down, now that Ye Chen had been a little lenient with him, he couldn't help but start to be grateful in his heart.

Ye Chen waved his hand and said to him, "All right, there is no need to say words of gratitude, just keep it in your heart, you should hurry back, it is just the right time to gather the manpower that will go to Madagascar with you in the future in these two days."

"Good, good" Su Chengfeng nodded his head like a garlic and said offhandedly, "Then I will go back first! If you have any orders, Mr. Ye, directly have Zhiyu convey them to me, I will definitely do so!"

Ye Chen nodded his head and said to Tang Sihai, "Housekeeper Tang, you should drive it."

Tang Sihai immediately said respectfully, "Yes young master."

After saying that, he made a gesture of invitation to Su Chengfeng, "Master Su, this way please."

Su Chengfeng thanked him profusely and followed Tang Sihai out of the hotel room.

In the room, only Du Haiqing and Su Zhiyu's mother and daughter were left at this time.

Ye Chen was about to talk to Su Zhiyu about the capital increase for Isu Shipping, and by the way, about the next idea of Isu Shipping's development into Europe, but Du Haiqing spoke up at this time, "Ye Chen, you're going back to Jinling tomorrow morning, right?"

Ye Chen nodded: "Yes, Auntie Du, first thing in the morning."

Du Haiqing asked, somewhat unkindly, "Then can auntie go back with your plane?"

At this time, Du Haiqing had already made Jinling her first choice for her future life, and the small house where Ye Chen's parents had once lived had been refurbished by her, so to her, living there was the best place to stay.

Ye Chen knew of Du Haiqing's feelings for her own father and admired her long-standing love and courage to love and hate, so he said without hesitation, "No problem, you can stay at the hotel with Zhiyu at night, and I'll have someone send you to the airport first thing tomorrow morning."

Du Haiqing smiled faintly and said, "I won't stay here, I'm going home to see my parents, I'll go to the airport myself tomorrow morning."

Su Zhiyu asked, "Mom, you're going to Grandpa's house? Then I'll go too."

Du Haiqing smiled, "You don't have to go with me, isn't your grandfather going to hold a family meeting tomorrow, you as the new family head will definitely have to attend then, it will be hard for Ye Chen to take you back to the Su family first."

After saying that, she looked at Ye Chen again and requested, "Ye Chen, it will be hard for you to give Zhiyu a ride in a while."

Ye Chen nodded and said, "No problem Auntie Du, I still have some business to discuss with Miss Su, I will send her back to Su's house safely after we finish talking, don't worry."

Du Haiqing nodded and smiled, "That's good, then I'll leave Zhiyu to you."

Ye Chen then said, "Then tomorrow morning at eight o'clock, I'll see you at the airport."

Du Haiqing smiled and said, "Okay, see you at the airport."

Seeing that her mother had left, Su Zhiyu then looked a little uneasy.

When there were many people, she was not uncomfortable in front of Ye Chen, but now that she was alone in a room with Ye Chen, she only felt her heartbeat speeding up, and the sound of her heart beating could even be heard clearly.

Yesterday, when Ye Chen was on Ye Ling Mountain, conquering the entire Ten Thousand Dragons Hall by himself, Su Zhiyu watched it all from the sidelines.

Originally, she had already fallen deeply in love with Ye Chen, but to her surprise, after yesterday, her love for Ye Chen had long since penetrated to the marrow of her bones, and her heart and mind were almost full of him.

At this moment, she was alone with Ye Chen again, so naturally her heart was racing and she could not help herself.

So, she blushingly looked at Ye Chen and softly asked, "Your Grace you what else do you want to see me about?"

Ye Chen smoothly said: "Oh, is the matter of the Isu shipping, after your side of the capital injection is completed, I plan to expand the fleet in addition to invest in several ports in Europe, it happens that Helena will soon ascend the throne, after she ascends the throne, we will be her first project to attract investment to Northern Europe, directly from Northern Europe to do the cut, to the whole of Europe radiation, you see how? "

Su Zhiyu blushed and pursed her lips, looking at Ye Chen's angular face, she said shyly, "I I'll do whatever my benefactor says"

Chapter 3546

Ye Chen did not realise that Su Zhiyu's entire being had been completely taken over by the love and shyness in her heart.

At this moment, she did not have the mental state to talk about business cooperation with Ye Chen, because even if Ye Chen asked her to give up the entire Su family to him now, she would not hesitate to agree.

Therefore, at this time, she did not have any opinion of her own, so she naturally did whatever Ye Chen wanted.

Ye Chen didn't know this, and laughed helplessly, "You have to understand, the two of us are in partnership, we have to take the idea together, we can't listen to me on everything, because I'm not a professional in management, and I don't know anything about specific business, I can only propose ideas, and then you and Zhiqiu will discuss the feasibility and the way to land together."

Su Zhiyu said shamefacedly, "It doesn't matter I believe in the ability of my benefactor, as long as the direction set by my benefactor will never be wrong"

Ye Chen had a big headache and spoke, "Don't you have any comments to make? After all, you have 49% of the shares in this company, so you can't just say whatever I say, right?"

Su Zhiyu didn't hesitate to answer: "Well whatever your benefactor says is what you want"

Ye Chen was speechless for a long time, helplessly said, "How about this, you first go back and think about it, if you really have no opinion, turn around and touch base with Zhiqiu as well, see what she means, if everyone is fine with it, then we will move forward that way."

Su Zhiyu nodded, her big eyes shining brightly and said, "All listen to your benefactor's"

Ye Chen had nothing to say, smiled and said, "Okay, that's the initial decision, I'll send you back to the Su family first, in the next two days, you first smooth out the various businesses of the Su family, to ensure a smooth handover with your grandfather, the matter of Isu shipping, when you are busy with this period of time, we can talk."

Su Zhiyu was delighted and said, "Then I'll go to Jinling in a few days!"

"Good." Ye Chen didn't think much about it and said, "Then we'll meet in Jinling then."

Su Zhiyu nodded and asked Ye Chen curiously, "Your Grace, now that you have taken over the Ye family and become the head of the Ye family, don't you have any plans to return to Yanjing to develop?"

Ye Chen said blandly, "For the time being, I have no such plans."

Su Zhiyu's expression was somewhat disappointed, but she quickly recovered and said with a smile, "Actually, it's quite good to be in Jinling, it's not far from Yanjing, it's close to Zhonghai, it's in the middle of two super cities, and there's also a direct high-speed railway, so even if you live and work in Jinling, it won't affect your business promotion."

As she said this, Su Zhiyu couldn't help but lament, "My mother wants to settle in Jinling in the future, so I think I will have to live in Jinling half of the time in the future, so I can spend more time with her."

When Su Zhiyu said this, she somewhat sheepishly sneaked a glance at Ye Chen.

In fact, what she really had in mind was not all about spending time with her mother.

It was more that she wanted to be able to be closer to Ye Chen.

Otherwise, if she was in Yanjing for a long time and Ye Chen was in Jinling for a long time, and the two of them didn't have much chance to meet, with that infatuation she had for Ye Chen, she would definitely go crazy.

Therefore, the excuse of accompanying her mother and spending half of her time in Jinling was the best solution for her at the moment.

When Ye Chen heard that she wanted to spend more time with her mother, he naturally didn't have any half-hearted doubts, but only said with a little sigh, "Yanjing to Jinling, it's not far to say, it's not close to say, so commuting once in a while doesn't really feel like much, but if you have to commute once or twice a week, then it might really be exhausting."

Su Zhiyu said with a smile, "It's fine, after I officially become the head of the Su family, it's reasonable for me to have a private plane for myself. It won't be a traffic jam to Jinling at night, and you can get to mum's place in half an hour or so by car."

Chapter 3547

After saying that, Su Zhiyu said seriously, "In this way, I can stay in Jinling from Thursday night until early Monday morning, and if I work hard and get up earlier on Monday, I can take off at five o'clock and go back to Yanjing at six o'clock, and after landing at eight o'clock, I can take a helicopter and go directly to Su's Group, so I won't miss my work at nine o'clock."

Ye Chen couldn't help but stammer after hearing this and sighed, "Your schedule is a bit too full."

"Never mind." Su Zhiyu said firmly, "I'm in particularly good health now, so this little thing doesn't matter."

After saying that, she looked at Ye Chen bashfully and said in a pleading tone, "Your Excellency, apart from my mother, you are the only friend I have in Jinling, so if I come to you for fun, you can't refuse me."

Ye Chen nodded and casually agreed, smiling, "As long as time allows, there is definitely no problem."

"That's good!"

After receiving the answer she wanted most, Su Zhiyu finally breathed a sigh of relief.

Ye Chen looked at the time and spoke, "It's getting late, I'll send you back to Su's house first."

Su Zhiyu was busy asking, "Is your Grace going back to Ye's house at night?"

"No." Ye Chen said lightly, "I'll go back to my uncle's house, I feel more at home there."

Su Zhiyu recalled Gu Qiuyi and Ye Chen's engagement to Gu Qiuyi, and nodded with a sudden understanding.

Ye Chen asked Chen Zekai to prepare a car for himself, and then drove alone, driving Su Zhiyu to the Su family villa.

On the way, Su Zhiyu quietly surveyed the side of Ye Chen's face and wanted to say something several times, but finally held back.

It was only when Ye Chen drove the car to a stop outside the Su family villa that Su Zhiyu opened her mouth and said, "Thank you for what happened between my parents. If it wasn't for you, my dad would definitely not have agreed to divorce my mum... .."

Ye Chen asked her, "You want your parents to get a divorce?"

"Mm." Su Zhiyu nodded and said, "Both of them are living a less than happy life, and this kind of marriage that exists in name only, it is better to end it while it lasts."

She said, she couldn't help but sigh: My father must have lived a particularly stifling life for so many years, his own wife and himself in the same bed, always in love with another person, this if any other man, I'm afraid it would be very difficult to accept

The fact is that if you were to evaluate the marriage between Su Zhiyu's parents from a completely objective point of view, he would also feel that it was her mother who was at fault for the marriage.

But the man her mother loved dearly was her own father, so this left Ye Chen at a loss as to what to say.

At this time, Su Zhiyu looked at Ye Chen and saw that Ye Chen had also turned his face sideways, at the moment when the four eyes met, she hurriedly turned her head and looked at the front of the car, and said softly: "In fact, it was not easy for my mother to spend the year like this, after all, the other half who was with her was not the one she really loved, even if there was no resentment in her heart, it must have been inevitable that she was disappointed."

Said, she plucked up the courage to look at Ye Chen, seriously said: "In fact, in the past, I could not quite understand what my mother did, the heart would also feel that it was she who had failed my father, even if the two of them had words before they got married, I also felt that my mother should not have been so stingy with my father in love

At this point in the conversation, Su Zhiyu gently lowered her eyelids and said quietly, "But ever since I met you, my benefactor, I've been able to understand my mum more and more

She must have been just like me now back then, falling in love uncontrollably with a man who was begging for more... .."

Ye Chen coughed twice: "Ahem

isn't it a bit hasty to say such things now"

Su Zhiyu shook her head, looked at Ye Chen and said seriously, "Things are indeed like that, but I won't be the same as my mother, if I were in her shoes, I would rather not get married for the rest of my life than marry a man I don't love."

After saying that, she stared at Ye Chen, the small cheeks on either side of her face puffed out slightly, and said seriously, "Ye Chen! If I become a big old leftover girl in the future, or even end up alone, don't doubt it, it will be because of you!"

Chapter 3548

After Su Zhiyu said this, she didn't wait for any response from Ye Chen, so she hurriedly pushed open the car door and grabbed it to get out.

The words she had just said had already depleted all her courage.

So she did not dare to stay by Ye Chen's side, because she was afraid that she would not be able to control herself and would hug him and cry bitterly, questioning him why he had to get married so early and at the same time questioning why he had to appear in her life so late.

So, she left Ye Chen like a fugitive, without saying goodbye, and rushed straight into the Su family villa without looking back.

Ye Chen looked at her slender back and felt more or less uncomfortable in his heart.

The more he saw the unhappiness of Du Haiqing's life, the more Ye Chen did not want Su Zhiyu to follow in her footsteps.

Fate should not have played such a trick on this mother and daughter, making them both fall into an almost identical circle.

However, fate was a joking thing sometimes.

Not only did he give both mother and daughter similar trajectories in life, but he even made them fall in love with a father and son respectively.

As he watched Su Zhiyu's back disappear, Ye Chen sighed despondently.

He did not know how he should deal with Su Zhiyu's feelings for him.

But Ye Chen really did not want Su Zhiyu to choose to die alone, as she had just said.

Although it was still too early to say this, this girl, Su Zhiyu, had a strong determination and energy within her slim and thin body.

Since she had said so, it was very likely that she would do so.

However, there was nothing Ye Chen could do to change her decision at the moment, so he could only console himself that Su Zhiyu was still very young after all, and might change her mind in the future as her life experience increased.

At the same time, Su Zhiyu did not think so.

In her heart, she was firmly convinced that even if she lived to be a hundred years old, she would never meet another man who was better and more attractive than Ye Chen.

This man appeared in her life at the age when she was in the beginning of her love life, and his appearance was the pinnacle, and it was impossible for anyone to surpass him in this lifetime.

.....

At this time, the Gu family was brightly lit.

Gu Yanzhong knew that Ye Chen had returned from Scandinavia and also knew that he would definitely come to his home after dealing with the matters above Ye Lingshan.

Therefore, he had someone prepare a sumptuous dinner table early on, and then ordered someone to put all the dishes in a high-end warming drawer, waiting for Ye Chen's return.

By the time Ye Chen drove back to the Gu family, it was already after 10pm.

When Gu Qiuyi heard a car drive into the courtyard, she excitedly ran out of the house first, with Gu Yanzhong and Lin Wanqiu following closely behind.

Ye Chen heard the car and was hugged by Gu Qiuyi just as he got out, she said excitedly, "Brother Ye Chen, you're finally back!"

Gu Yanzhong also smiled; "Chen'er, the matters on Ye Ling Mountain should all be almost taken care of, right?"

Ye Chen nodded and said respectfully, "Uncle Gu, several things have been handled mostly."

Gu Yanzhong smiled and said, "The Ye family need not be mentioned, I don't need to go to Ye Lingshan to guess that those side branches must have been tidied up by you, the Su family's affairs have also been settled for a long time, the matter of Northern Europe has been reported on the news, the Nordic empress suddenly went from being critically ill to being cured, which has caused a huge buzz in the western countries, I knew it must be your handiwork as soon as I saw it! Only you have this uncanny ability to bring the dead back to life!"

Ye Chen laughed: "It was just a little bit of rejuvenation pills."

Gu Yanzhong laughed: "I have a deep understanding of how miraculous that Spring Return Pill of yours is, the more people who have died once, the more they fear death, the more they can understand the preciousness of life, before life, what assets, power, status, titles, are all false."

Saying that, Gu Yanzhong was busy asking, "How did you deal with Wan Bajun over at the Ten Thousand Dragon Hall?"

Ye Chen then said, "I've asked Wan Breaking Jun to go and bury his parents first, and when he's done with his family affairs, he will come to me in Jinling."

Chapter 3549

"Good!" Gu Yanzhong nodded and sighed, "The Ten Thousand Dragon Hall is a sharp sword, if you can take this sword under your command, you will definitely be a great addition to the flower and a tiger in the future!"

After that, Gu Yanzhong reminded, "But Chen'er, how to use the Ten Thousand Dragons Hall well is a big problem, after all, their identity is special, and they have tens of thousands of people under their command, a little careless handling may bring you unnecessary trouble, so do you have any specific plans for your next step, Chen'er?"

Ye Chen replied, "The vast majority of the mercenaries of the Ten Thousand Dragons Hall are overseas, and I don't intend to let them come to the country in the future, so my plan is to first let them have a safe and reliable place to land overseas, so that they don't roam around in various war-torn places like they did before."

Saying that, Ye Chen added, "It would be best to choose a base for them to put down roots, and also change their business strategy, in the past they were purely mercenaries, working for whoever you paid more money to, without any sense of right and wrong, so they have done good things and bad things."

"In the future, I want to set a tone for them, a tone that at least cannot go against any sovereign country in the world, that is to say, they can only accept legal employment from sovereign countries in the future, and at the same time, they must not be enemies of any sovereign country, that is to say, if a country hires them to attack another country, such a thing can never be agreed to. Unless it is a country

that hires them to clear out illegal armed forces, in which case they can also have good relations with the mainstream world."

Gu Yanzhong nodded his head very seriously and said, "That's right! Although this is a world of the weak and the strong, the basic logic still follows the law, and cooperating with a sovereign country will stand up in legal terms."

Saying that, Gu Yanzhong added, "But Chen'er, I think you'd better transform the Hall of Ten Thousand Dragons a little more thoroughly."

Ye Chen was busy asking, "Uncle Gu, what good advice do you have?"

Gu Yanzhong was just about to speak when Lin Wanqiu, who was at the side, couldn't help but say, "Aiya, you two masters shouldn't just chat in the courtyard, the meal has already been set up, let's go in and talk while we eat!"

Gu Qiuyi was still clinging to Ye Chen's arm and said in a delicate voice, "Yes, Dad! I've been hungry for a long time, I'm waiting for brother Ye Chen to come back and eat together."

"Yes, yes, yes!" Gu Yanzhong laughed, "Chen'er, let's go in and talk while we eat!"

With that, the four of them moved to the villa dining room and took their seats at the dining table.

As soon as Ye Chen sat down, he asked Gu Yanzhong impatiently, "Uncle Gu, what good ideas and suggestions do you have regarding the Ten Thousand Dragons Hall?"

Gu Yanzhong said seriously, "I am thinking that if it is just a Ten Thousand Dragons Hall alone, then he would naturally do the mercenary set, because that set is the most profitable and can grow and develop the most."

Saying that, Gu Yanzhong turned his words and said seriously, "But Chen'er you should know that your current low profile and hibernation is only temporary, since you want to carry the Ye family forward, one day you are going to have to personally go from behind the curtain to the front of the stage!"

"When that day comes, everyone's eyes around the world will be focused on you, and there will definitely be a large group of people who can't wait to dig up your so-called black history, especially your enemies, who will definitely not miss any opportunity to frame and attack you in front of the world!"

"If the Ten Thousand Dragons Temple remains a mercenary organisation at that time, and you as the true master of the Ten Thousand Dragons Temple, you will be responsible for all the blood debts of the Ten Thousand Dragons Temple, and once others know about this relationship, you will definitely be rejected by mainstream society as well."

"And once you are ostracised by mainstream society, it will affect not only your own reputation, but likewise the Ye family's reputation."

"Therefore, my advice is that you should make the Ten Thousand Dragons Hall achieve a complete bleaching and transformation as soon as possible, and make sure that the Ten Thousand Dragons Hall is sensible and legal all over the world!"

"Otherwise, if you take in the Ten Thousand Dragons Hall today, you'll be planting a mine for yourself!"

Chapter 3550

Gu Yanzhong's words made Ye Chen instantly alerted.

The identity and situation of the Ten Thousand Dragon Hall was indeed special, in the mainstream world, mercenary organisations like this would always be given a grey tone, if the people had to choose a label between good and bad, then every mercenary organisation would undoubtedly be bad in the minds of the masses.

Right now, the outside world did not know about his own incorporation of the Ten Thousand Dragons Temple, but this matter could not remain a secret forever, and there would definitely be a day when it would be known.

At that time, people's disgust towards the mercenary organisation would be imposed on him as well.

Thus, Ye Chen hurriedly asked Gu Yanzhong for advice, "Uncle Gu, do you have any good advice regarding the Ten Thousand Dragons Hall?"

Gu Yanzhong smiled faintly and said seriously, "I have an idea, it may not be good or mature, and it will require certain sacrifices if it is really to be landed, whether it is feasible or not will depend on your trade-off, if you don't mind, then I will probably talk to you about it."

Ye Chen nodded and said humbly, "Your life experience and personal ability are both much better than mine, I'm sure your solution is also much better than what I can think of!"

Gu Yanzhong laughed, "No need to pat your back, I'll talk to you about my ideas."

In my opinion, the greatest value of the Dragon Temple lies in its combat power, if the combat power is used in the field of mercenaries, naturally the income is higher, but it also faces the problem I just mentioned, that is, the social reaction and the public's reputation is poor, since this is the case, then it is better to change the future business strategy of the Dragon Temple, so that it still relies on its own. But on the one hand, as you said yourself, let them only cooperate with sovereign countries in the future and stand for justice and legalism enough, on the other hand, I think we can try to explore the field of international security, which has developed rapidly over the years and has a very positive reputation in the hearts of the people!"

"International security?" Ye Chen was busy asking, "What is the main field of international security you are talking about, Uncle Gu?"

Gu Yanzhong smiled, "You are now going to vigorously develop ocean shipping, ocean shipping is one of the main areas of international security!"

"Pirates are now rampant in areas such as Somalia, although many countries have escort fleets, but after all, the demand for international logistics is so great that it is impossible to secure every ship in place, so international security is very much in demand in this field;"

"Generally, merchant ships passing through pirate areas will hire several international security personnel, these international security personnel are responsible for protecting the ship safely through pirate areas, and can also counterattack when pirates board the ship, for ship owners and shipping companies, has gradually become a fresh demand industry;"

"The Dragon Palace is strong, if you deploy a few thousand people to specialise in this field, you will certainly have no problem in terms of your own strength, and now that you have the Isu shipping, you can also satisfy your own related needs to a large extent in the future."

Speaking of this, Gu Yanzhong added: "I will reveal to you one more point, the countries that are now at the forefront of global economic development are actively cooperating with third world countries, especially in infrastructure construction;"

"Companies that have gone to some backward regions in Asia, Africa and Latin America to undertake infrastructure construction are already numerous now and will become more and more numerous in the future!"

"They basically rely on overseas companies for the construction of roads, railways, communications, power transmission grids and even water conservancy, and with poor economic development and poor security in their own countries, the safety of the employees of these overseas companies is hardly guaranteed there."

"At such times, international security personnel are also needed for effective protection, not only to safeguard the safety of overseas employees, but also to guarantee the progress of local projects, and the people on both sides are very favourable to this kind of international security, which, in our words, means that the masses have a solid foundation!"
