

## Ye Chen 3551

### Chapter 3551

"With so many third world countries and so many infrastructure projects around the world, the demand for international security must also be huge, if this project is carried out, it will solve the transformation of at least another few thousand, if not nearly ten thousand Dragon Hall generals, in this way, within a few years, the Dragon Hall will be able to complete its complete transformation."

"If in these few years, the Hall of Ten Thousand Dragons can accumulate a large number of success stories, such as successfully repelling pirates, successfully repelling thugs and even illegal armed forces, repeatedly defending and saving the lives and property of the people as well as foreign-related enterprises, then the Hall of Ten Thousand Dragons' reputation will definitely become an international security company with a strong mass base as well as a popular reputation! "

If you still need the Dragon Palace to do some unseen things for you, you must remove this group of people from the Dragon Palace in advance, so that there will be no negative impact on you and the Dragon Palace. Who can do anything to you?"

Hearing this, Ye Chen's heart was already a bit overwhelmed.

At the same time, he also realised the huge gap between himself and a veteran entrepreneur like Gu Yanzhong.

Gu Yanzhong's sense of the big picture, control of details, and his sense of worry in times of peace and danger were all accumulated and cultivated through years of practical experience, and were all equally lacking in a young man like himself.

The series of solutions he mentioned can be said to be able to completely solve the problem of the attributes of the Ten Thousand Dragons Hall from the root.

As long as it was managed properly, it would be possible to transform Dragon Palace from a grey-attributed mercenary organisation to a white attribute, and even an international security enterprise that was praised by the outside world.

This, was a complete and utter whitewash!

Thinking of this, Ye Chen said with great gratitude, "Uncle Gu, your suggestion is too good, after Wanbreaker arrives in Jinling, I will tell him about your plan, so that he can follow these steps you mentioned and move forward quickly, in order to complete the transition in a short time!"

Gu Yanzhong smiled, "I am just making some personal comments, as long as they are useful to you!"

Ye Chen sighed, "That's really useful! Thank you Uncle Gu!"

Gu Yanzhong laughed, "Why are you so polite to me? If you need my old bones in the future, just ask."

Ye Chen nodded and sighed, "I was originally worried about these tens of thousands of soldiers of the Ten Thousand Dragon Hall, there are still more than 10,000 captured soldiers of the Ten Thousand Dragon Hall over in the Middle East, when the time comes, we will definitely have to get the other side

to release all these people first, but after they are released, how to settle so many people is also a very tricky problem."

"But your suggestion just now is really good, I can first divide the soldiers of the Hall of Ten Thousand Dragons into three parts, one part will continue to work as mercenaries but reasonably and legally, another part will go to do international security for ocean shipping, first let them cooperate with the Isu shipping, after they have made a name for themselves, naturally many counterparts will come to them, and the remaining part will specialise in specific security for third world projects. "

Gu Yanzhong smiled, "I have quite a few friends who have undertaken infrastructure projects in many third world countries, I think they must be in great need of security personnel, tomorrow I will call one by one to see if their demand is high."

As he said, Gu Yanzhong added, "By the way, if you do this kind of security work, you have to ask Wan Bajun to find a way to solve the problem of local legal gun permits, as an expatriate, you must never carry a gun without a permit, the majority of countries and regions are very sensitive to guns, if not handled properly, when the white ones will turn black!"

## **Chapter 3552**

Hearing Gu Yanzhong's reminder, Ye Chen immediately nodded and said, "Uncle Gu, don't worry, since we have decided to transform, then everything has to be reasonable and legal, I will clearly explain this point to Wanbreaker!"

Saying that, Ye Chen added: "Moreover, from what I know about Wan Long Dian so far, most of their generals are martial artists, even without hot weapons, their combat power is definitely not inferior, and there is definitely no problem in dealing with ordinary armed men."

Gu Yanzhong smiled faintly and said, "That would be perfect, as long as we can ensure that it is reasonable and legal, this matter will definitely be able to operate for a long time, and if we can completely clear our name, then it would be a great thing for the Wanlong Temple!"

Ye Chen nodded, lifted his glass and said respectfully, "Come on, Uncle Gu, I'll drink to you! Thank you for designing a bright path for the Ten Thousand Dragons Hall!"

"Where where where!" Gu Yanzhong lifted his glass and said seriously, "Uncle just hopes that when you lead the Ye family and stand at the top of the world in the future, you won't have countless black histories unlike those who are so rich and those who are on top, there are too few top tycoons these days who can guarantee a clean history!"

He said, sighing, "Other than that, let's just say that in China, there are people who sell fake goods and become the richest in the world; there are people who make money from piracy and plagiarism; there are people who become industry leaders from rogue software, and there are people who become billionaires by embezzling public assets, and there are even more people who rely on their wives and fathers-in-law to engage in speculation and even empty-handedness! "

Ye Chen smiled to himself and said, "Uncle Gu, if you put it that way, my history may not really be glorious, the second of the Xiaolin family is still imprisoned in Jinling."

"That's not the same." Gu Yanzhong said offhandedly, "I've heard you talk about the Xiaolin family, if they hadn't coveted your elixir, naturally they wouldn't have caused the big trouble, and since they were at fault in the first place, you were justified in doing all this! So you don't need to have any psychological burden!"

Ye Chen smiled awkwardly and added, "I went to Northern Europe this time and knocked another four and a half billion euros from a side branch of the Rothschild family."

The three members of the Gu family listened with jaws dropped, four and a half billion euros, even to the Gu family, was a huge amount of money, it was unbelievable that Ye Chen could knock out so much money from the Rothschild family.

Gu Yanzhong asked nervously, "Chen'er, how did you get in touch with the Rothschild family so early, this is not a good thing for you, although the Ye family is very strong now, but compared to the Rothschild family, that is still a hundred thousand miles behind ....."

Ye Chen was busy saying, "It's just a side branch family, and I did it in a relatively clean way, I won't leave any clues, as for the money that was all washed into the hands of the Ito family through the overseas channels of the Ten Thousand Dragon Hall, I didn't get my hands on it."

Saying that, Ye Chen then explained the beginning and end of his conflict with William's family at the Nordic Palace to the three mouths.

However, regarding his use of aura to control that lotus officer, Ye Chen did not speak so clearly, only saying that he was proficient in some hypnotic techniques.

After listening to this, Gu Qiuyi exclaimed and said excitedly, "Brother Ye Chen has done a great job in this matter! That William Rothschild still wants to screw my brother Ye Chen out of his money, he's just looking for death! He deserves to be sent to Syria to experience life!"

Gu Yanzhong also sighed in relief and nodded, "Since the incident happened inside the palace and everyone else is under control, there's basically nothing to worry about."

Lin Wanqiu, who was at the side, asked, "Right, Chen'er, that Aman Ramovich, there won't be any risk, will there?"

Ye Chen shook his head and said, "He wasn't there for the bet and the follow-up, so he has no idea what happened."

Lin Wanqiu put her heart down and nodded, "That's good."

At this meal, both Ye Chen and Gu Yanzhong were very happy.

The two drank at the table until midnight, before they ended the drinking game with impatience at the request of Lin Wanqiu and Gu Qiuyi.

Gu Qiuyi sent Ye Chen to the guest room, knowing that he would be returning to Jinling in the morning, and insisted on driving him himself in the morning.

Ye Chen readily agreed to do so.

This night, Ye Chen did not sleep much.

### **Chapter 3553**

All he could think about was himself and the future of the Ye family.

Apart from the Ye family's current industries, he was looking forward to his Isu shipping and Jiu Xuan Pharmaceuticals.

If both of these industries could become bigger and stronger, either one would have the chance to create trillions of dollars in wealth.

The vast majority of the world's logistics relied on shipping, and there would only be more and more room for future development.

As for Jiu Xuan Pharmaceuticals, Ye Chen had a large number of excellent prescriptions, and any one of them from the Jiu Xuan Heavenly Scriptures could become a global best-selling medicine.

What is even more valuable is that other pharmaceutical companies, such as Pfizer, Novartis, France's Mercer, etc., spend billions of dollars on research and development for just one drug, and it takes several years, and the success rate is not high, so most of their sales revenue has to be used to cover the research and development costs, but Ye Chen does not have to spend a single penny on research and development.

What was left was the Ten Thousand Dragons Temple, which he had just taken under his wing.

It became his immediate priority to get this group of people successfully cleared as soon as possible.

Gu Yanzhong's words had given him great inspiration.

An armed organisation like the Ten Thousand Dragons Temple, whether it continued to be a mercenary in the future or diverted part of its efforts to international security, had to have a relatively loose and free core base.

And this base must not only cater for the daily lives and training of the members of the Ten Thousand Dragons Temple, but also be used to store the important equipment and supplies of the Temple.

However, the vast majority of countries and regions are unlikely to allow tens of thousands of armed personnel to be stationed in their own country, so the choice of location becomes a very tricky issue.

At the beginning, the Temple of Ten Thousand Dragons was looking for a stable base, which was why it was willing to serve Syria without any pay, and subsequently suffered heavy losses at the hands of Hamid as well as Ye Chen.

When Ye Chen thought of this, he suddenly brightened up.

Syria, indeed, was a good choice, one could even say that it was the best choice at the moment.

Not only because of the volatile situation there, but also because there was still a Hamid on the ground, and the Ten Thousand Dragons Temple and Hamid, to a certain extent, were able to complement each other.

As for the official side, it should not be too difficult to push for it.

After all, if the Hall of Ten Thousand Dragons cooperated with the officials, it could bring them a lot of benefits.

On the one hand, the Hall of Ten Thousand Dragons has a strong fighting force and can help the official maintain stability.

On the other hand, it could also help the official train its soldiers.

Even, it could pay the official a considerable amount of money for renting the land.

Anyway, the Ten Thousand Dragons Temple is not short of money.

Moreover, Syria's location is good.

It is on the eastern shore of the Mediterranean itself, just a few hundred kilometres from the Suez Canal, the choke point of shipping.

And across the Suez Canal, and through the Red Sea, is the pirate-infested Gulf of Aden.

The Suez Canal is the essential route for shipping from Asia to Western Europe, so if there is to be any future security work for shipping, the main battleground will be in the Gulf of Aden.

If Dragon Palace were to prepare a headquarters base in Syria, the straight-line distance to the Gulf of Aden could be reduced to more than 2,000 kilometres, which may sound a bit far, but is close enough in the context of a shipping route that can easily be tens of thousands of kilometres.

If we could rely on this headquarters base and then go and establish a forward position around the Gulf of Aden, then it would be more convenient to provide escort services to merchant ships on the way through this forward position.

Therefore, Ye Chen felt that the most important thing at the moment was how to induce the Hall of Ten Thousand Dragons to reach cooperation with Syria!

## **Chapter 3554**

The next morning, Ye Chen said goodbye to Gu Yanzhong and Lin Wanqiu, and Gu Qiuyi drove him to the airport.

The roads in Yanjing were very clear in the early morning, but Gu Qiuyi drove slowly and deliberately, letting car after car pass in front of her without caring.

The main reason why she drove so slowly was that Gu Qiuyi could not bear to see Ye Chen leave.

Ye Chen also guessed what she was thinking, so he didn't rush her.

While driving absentmindedly, Gu Qiuyi said to Ye Chen, "Right brother Ye Chen, will you still come to Yanjing some time later?"

Ye Chen thought about it and replied, "After the team of professional managers on the Ye family's side have prepared their reporting materials, I will meet with them, but I am not sure if they will still come to Yanjing, or maybe I will ask them to report to me in Jinling."

Gu Qiuyi said quietly, "I may be very busy in April, I have several concerts to push through domestically, and then from next month I will be starting an overseas tour for concerts, I may not be in the country for a long time ....."

Ye Chen asked her, "How many shows are there on the tour?"

Gu Qiuyi said, "At the moment it's fifteen shows, but it's still growing."

Ye Chen asked in disbelief, "How is it still increasing?"

Gu Qiuyi spat out her tongue and helplessly said, "There are still a lot of overseas fans, because it is the final farewell concert, many fans are jointly requesting for more cities to be held, the agency discussed with me and said that everything depends on me, I can't refuse the request of so many fans, so I added a few more stops to the tour in Europe and America."

Saying that, Gu Qiuyi added, "By the way, there's also a show in Northern Europe, it's going to be in June."

Ye Chen laughed, "Then we'll have to get Helena to support you then!"

Gu Qiuyi said, "No, no, it's not appropriate to go to a concert when she's about to be crowned queen."

"What's inappropriate about that." Ye Chen laughed, "Don't the princes of Britain often take their wives and children to watch football matches? Helena is young to succeed the throne, if she puts up the Queen's stance so early, it is not conducive to strengthening the mass base at the bottom, the best way is to reach out to the people and gain as much positive exposure as possible, so that when she is in her fifties or sixties, she can be an empress that the people will love and embrace."

Hearing this, Gu Qiuyi couldn't help but laugh, "Brother Ye Chen, when I hear you say this, why do I feel like you're not asking Helena to support me, but rather asking Helena to rub my nose in the heat ....."

said, Gu Qiuyi hurriedly explained again, "I was joking oh, you must not take it seriously, I am not the kind of person who is calculating."

Ye Chen laughed, "That's what it was meant to be, just like the prince of Britain, although he is also loved by most of the people, but nowhere near as much as football and the ball players, who are fanatically followed by the fans, he went to the game to actually win the goodwill of these fanatic fans, and to put it bluntly, to rub it in."

Gu Qiuyi nodded and asked him, "Brother Ye Chen, that Helena, she should like you a lot, right?"

Ye Chen was surprised and asked, "Why do you say that?"

Gu Qiuyi said seriously, "You saved her life, you also saved her mother, and you even helped her take back the throne, which is the same as fetching her up from the Mariana Trench and sending her to Mount Everest, as long as she is a normal woman, I'm afraid she will fall in love with you ....."

Ye Chen said awkwardly, "That's her freedom ....."

Gu Qiuyi glanced at him and said quietly, "This time, at the Ye family's ancestral festival, those confidantes of yours have come quite a lot ....."

Ye Chen said vaguely, "They are all friends ..... ordinary friends ....."

Gu Qiuyi had a I believe you ghost expression and beamed, "I declare in advance, I'm not jealous, whoever wants to be your woman in the future and turns out to be a jealous person, then sooner or later they will sour themselves to death."

Ye Chen sweatdropped for a moment and hurriedly changed the subject to ask her, "Right Nui Nui, when are you going overseas?"

### **Chapter 3555**

Seeing that he had changed the subject, Gu Qiuyi didn't continue to be aggressive, so she followed his words and said, "Starting early next month, I'll go to Canada first, with one show each in Vancouver, Montreal, Toronto and Ottawa, and then head south from Canada to the United States, with New York as the first stop, and then west from the east coast to Chicago, Houston, and then to Los Angeles and San Francisco on the west coast. Probably tour North America for a month or so and then go to Europe after that."

After saying that, Gu Qiuyi looked at Ye Chen with bewildered eyes and said with a resigned expression, "Brother Ye Chen, once I start my overseas tour, I might not be able to see you for two or three months ....."

Ye Chen comforted, "Isn't it important for you to work, besides it's another farewell concert, after you're done with this tour, you'll be able to stay in Yanjing in a practical manner."

Gu Qiuyi nodded and said, "After I officially quit the entertainment industry, I'll have to take over at Gu's Group."

After saying that, she looked at Ye Chen and said with a smile, "Brother Ye Chen, I have already thought about it, after I take over, I will first invest in a few projects in Jinling, then I will run to Jinling for three days, will you welcome me then?"

Ye Chen smiled, "Sure, as long as you are willing, I will definitely welcome you!"

Gu Qiuyi was busy saying, "Then let's make a deal, when the time comes, you don't dislike me because I'm getting old, and you're not allowed to avoid seeing me."

"Okay ....." Ye Chen only had to agree.

Satisfied, Gu Qiuyi drove the car all the way to the airport hangar, where the private plane given to Ye Chen by Gu Yanzhong was parked, and the Concorde next door had already taken off again for Northern Europe.

This time, apart from Du Haiqing who wanted to go back with Ye Chen's plane, Hong Wu and Chen Zekai also came over to rub shoulders with the plane.

When Ye Chen arrived at the airport, they had been there for half a day. Du Haiqing was standing next to the boarding car with a small suitcase, while Hong Wu and Chen Zekai were standing at the door of the hangar quietly smoking.

A staff member kindly reminded, "Both of you, smoke and fire are strictly forbidden in the hangar's main area ....."

Hong Wu waved his hand dismissively: "Aren't those two big engines on the plane just going by ignition? It's fine, what could be wrong with these two broken cigarette butts of ours?"

The staff said awkwardly, "Sir, this is not the same nature ah ....."

Hong Wu smacked his lips and said, "Tsk ..... I said why are you a stick in the mud? Just turn your face away and pretend you didn't see it?"

Chen Zekai stuffed the cigarette into his half-drunk mineral water bottle, patted Hong Wu's shoulder, and spoke, "All right, don't make it difficult for others, put out the cigarette."

Although Hong Wu was a bit unhappy, he didn't say anything and threw the cigarette butt in as well.

At this time, Ye Chen arrived at the door of the hangar by car, and as soon as the two men saw Ye Chen coming, they hurriedly stood up straight and waited respectfully.

As soon as the car listened steadily, Hong Wu hurriedly went forward, pulled open the passenger door and respectfully said to Ye Chen, "Young master, you're here!"

Ye Chen frowned and said, "Hong Wu, don't you always call me Master Ye? Why have you changed your title?"

Hong Wu said, "Young master, you are now the master of the Ye family and the new master of the Ten Thousand Dragons Hall, if you look around the world, who can compete with you? With your current distinguished status, how can I call you Master Ye anymore ....."

Ye Chen waved his hand, "Don't, what honorable or not, you should still call me Master Ye, I still prefer this title to 'Master of the Ye Family' or 'Young Master of the Ye Family'."

Hong Wu was still a bit embarrassed, he always felt that this would be neglecting Ye Chen, but Chen Zekai was much smarter than Hong Wu and said respectfully, "Master Ye, the plane is all ready to take off at any time, in addition Ms. Du has also arrived, I just asked her to get on the plane to rest first, but she said nothing, she insisted on waiting for you to come before getting on the plane."

Ye Chen nodded and pointed at Chen Zekai and said to Hong Wu, "See, Old Chen is much more up to date than you."

Hong Wu smiled awkwardly, "Master Ye is right, I am a big old man, how can I compare with Mr. Chen, his brain is faster than a plane engine!"

## Chapter 3556

When Ye Chen saw Hong Wu ridiculing Chen Zekai, he couldn't help but smile, remembering Gu Yanzhong's advice about the Ten Thousand Dragons Temple, he said with a feeling, "Hong Wu, you also need to take some time to do more self-improvement, in the future, I think you should stop taking care of those matters in the Dao, and distribute them all to the Four Heavenly Kings under you, so that they can be fully responsible."

Hong Wu agreed without hesitation and said, "Master Ye, I'll do whatever you say, I'll meet with them when I get back and leave all those matters to them."

Only after saying that, Hong Wu asked with some embarrassment, "Right Master Ye ..... I've handed over all the matters, what will I do afterwards?"

The reason why Ye Chen kept Hong Wu around was because of this loyalty that Hong Wu had for himself.

Even if he didn't know what he was going to do next or what he could do, he first agreed to what he wanted, which was far more sincere than an ordinary person.

In the same situation, if it were anyone else, the other party would probably have asked what he or she was going to do next and then weighed the benefits and losses before finally making a decision.

But Hong Wu was truly obedient.

Whatever he was told to do, he would do it, and as for the rest, he would do it first.

So, Ye Chen seriously said to Hong Wu, "Next I plan to let the Ye family increase some investment in Jinling, and build Jinling into the Ye family's second home base, by then there will definitely be many big projects starting in Jinling one after another, at that time I will find an errand for you, and you are guaranteed to earn more than before, and also earn more cleanly!"

As soon as Hong Wu heard this, he said with immense gratitude, "Master Ye ..... thanks for your promotion! Hong Wu is grateful!"

Ye Chen waved his hand and instructed, "There is no need to always hang on to words of gratitude, just do your job properly."

"Yes! Master Ye!"

Ye Chen looked at Chen Zekai again, and saw that Chen Zekai's face was not half unhappy or jealous after hearing that he had given Hong Wu a promise, and in his heart, he had a little more recognition of Chen Zekai's temperament.

He then said to Chen Zekai, "Old Chen, in the future, the Ye family's business in Jinling will be largely handed over to you, and you should also expand the team in your hands.

Chen Zekai nodded his head very calmly and said, "Master Ye don't worry, I will definitely expand the size of the team and upgrade the level of the team as soon as possible."

Ye Chen nodded gently, and then said to Gu Qiuyi, "Nui Nui, you can see me off here, go back and tell Uncle Gu and Auntie Lin on my behalf that I will visit them at home next time I come to Yanjing."

Gu Qiuyi said with a reluctant face, "Brother Ye Chen, why don't you board the plane first and I will wait for your plane to take off before leaving."

Ye Chen laughed, "Maybe we'll see each other again in a few days, don't make it sound like we're parting from each other, I'll feel more at ease if I see you drive away with my own eyes."

Gu Qiuyi nodded gently, "Alright then, Brother Ye Chen, have a safe trip, and give me a heads up when you arrive."

"Good." Ye Chen smiled faintly, "Go back quickly."

Only then did Gu Qiuyi reluctantly leave.

If Hong Wu and Chen Zekai weren't here, she would have had to spend some time with Ye Chen, kissing and hugging him before she could let him go back.

Ye Chen watched Gu Qiuyi drive away from the hangar before he turned around and went to the front of the boarding stairs, where Du Haiqing stood with his hands on his trolley case, smiling at Ye Chen and smiling, "The ride back to Jinling wasn't too much trouble for you, was it?"

Ye Chen said, "Why not, Auntie Du, come, let me help you carry your luggage."

Saying that, Ye Chen had already taken the luggage from her hand, and then made an invitation gesture to Du Haiqing and said respectfully, "Please go ahead, Auntie Du."

## **Chapter 3557**

Du Haiqing still wanted to push back, but seeing Ye Chen's sincere attitude, she could not afford to be polite anymore, so she said softly, "Thank you!"

With that, he went on the plane first.

Ye Chen followed closely with his suitcase, and Hong Wu and Chen Zekai also followed behind him on the plane.

The flight attendant closed the cabin door after asking Ye Chen whether to take off immediately and receiving an affirmative answer.

Ye Chen invited Du Haiqing to sit on the sofa in the meeting area of the business jet, while Hong Wu and Chen Zekai sat on the seats at the side.

As the plane slowly rolled out, Ye Chen said to Du Haiqing, "Auntie Du, these two people next to me are my friends, the older one is Hong Wu and the younger one is Chen Zekai, they both have strong connections and relationships in Jinling, if you need any help in Jinling, you can contact them directly, or of course, you can contact me directly, just don't let my wife know. "

Hong Wu hurriedly said, "Madam Du, I am Hong Wu, if you need anything in Jinling in the future, just say the word!"

Chen Zekai also hurriedly said, "Ms Du, I am Chen Zekai, anything you need in Jinling in the future just ask."

Du Haiqing nodded gratefully and said, "Thank you!"

After saying that, she looked at Ye Chen with curiosity and asked, "You still don't plan to confess your identity to Churan when you go back this time?"

Because of the renovation of Ye Chen's parents' old mansion, Du Haiqing had become Xiao Churan's client, and she knew that Xiao Churan knew nothing about Ye Chen's true identity.

Hearing Du Haiqing ask about his wife Xiao Churan, Ye Chen said awkwardly, "I haven't thought of where to start, after all, she doesn't know anything about these things, so I'm afraid that if I were to confess my identity, I wouldn't be able to say it clearly for three days and nights."

In fact, what came to Ye Chen's mind was something Xiao Churan had inadvertently said at the time.

At that time, she jokingly said that if she was really the young master of some top family, then she would divorce herself at the first opportunity.

Ye Chen knew Xiao Churan's character, although she said she was joking, she would usually do what she said, not to mention her soft nature, but her bones were stubborn.

Ye Chen has been married to her for four years and still knows her character very well.

Furthermore, confessing this to Xiao Churan now would only add to his worries, he had just taken over the Ye family and still had a lot of things to sort out slowly, and the Wondrous Dragon Palace was still in dire need of transformation, so he could not say anything at this time to start another fire in the backyard.

Du Haiqing smiled faintly and said, "There are times when the more you delay, the bigger the lies become. If you had told Churan your identity in the first place, it shouldn't have been too difficult for her to accept it."

Ye Chen nodded and said with emotion, "Before the Ye family came to me, I hadn't confessed my life to anyone, and after the Ye family came to me, I felt that the death of my parents had not yet come to light, and there were still many dangers hidden in the dark, so I kept it from her."

When he said this, Ye Chen added, "In fact, I don't know who killed my mum and dad back then, and I don't know if I can still find their killers in my lifetime, let alone if I am their opponent, so if I can keep it hidden from Chu Ran and not let her know, I think it would be easier instead."

Hearing Ye Chen mention his parents, Du Haiqing's expression could not help but look a little darker, and she was silent for a long time before she spoke, "Ye Chen, make sure you do your best to avenge your parents! If there is anything I can do, let me know and I will definitely do my best!"

## **Chapter 3558**

The flight from Yanjing to Jinling takes just under two hours.

When the plane landed in Jinling, the time was only ten o'clock in the morning.

Knowing that Xiao Churan was definitely not at home, Ye Chen had no intention of going home immediately. Instead, he had Chen Zekai's men send Du Haiqing back to the old mansion where Ye Chen's parents had lived, and then went to Buckingham Palace with Chen Zekai and Hong Wu.

Today's Buckingham Palace seemed to be much colder than before, which was a great contrast to the always crowded scene at Buckingham Palace.

Ye Chen came to Richard Chen's office, sat down and asked him, "Right, Old Chen, why is Buckingham Palace not as busy as before today? I've been here so many times, and today is the coldest."

Chen Zekai said helplessly, "I heard from the people underneath me yesterday, not just today, in fact, in the past few days, the business of Buckingham Palace has dropped drastically, many enterprises in Jinling used to sign hospitality agreements with us, using our hotel as their regular business hospitality hotel, but before that, Wan Long Temple released the word to kill up Ye Ling Mountain, since then, they have all have terminated their cooperation."

Saying that, Richard Chen added: "After you subjugated the Ten Thousand Dragons Temple, it was declared to the public that the Ye Family had compromised with the Ten Thousand Dragons Temple, and the news that the Ye Family had been subjugated by the Ten Thousand Dragons Temple was all over the market these two days, so the business of Buckingham Palace had plummeted quite a bit."

After a pause, Richard Chen explained, "In fact, more than half of the business of our five-star hotels relies on public cooperation, some travel agencies with cooperation agreements are on the one hand, those companies with business hospitality and conference needs are also on the other hand, as for the casual customers who stay in five-star hotels when they go out, in fact, there are still not that many, these companies have now drawn a line with the Buckingham Palace. Now that these companies have drawn the line with Buckingham Palace, their clientele has been cut by more than half at once, so naturally it seems very cold."

Hearing this, Ye Chen could not help but laugh: "These companies are really realistic. .... Even such a small cooperation has to break the contract, the contract spirit of these people is really too lacking."

Chen Zekai nodded and said, "You don't know anything about Master Ye ....."

Ye Chen interrupted him with a stretch of his hand and said seriously, "Old Chen, when you call me Master Ye, I always make a scene, just like Hong Wu calling me Young Master, why don't you call me Young Master, you've been calling me that for so long since I've known you, I'm used to it."

Chen Zekai he laughed: "To be honest young master, I do call you Master Ye is also a bit awkward ....."

After saying that, he hurriedly returned to the main topic and seriously said, "You don't know, young master, before many of our local enterprises in Jinling, they all want to get close to me, that's why they signed a hospitality agreement with us."

"But in fact, the consumption level of our hotel is still very high, and many enterprises are sort of gritting their teeth to reach upwards to barely reach it."

"You take a company for example, if they use a fast business hotel for hospitality, it's only a hundred or two hundred thousand a year, but when you replace it with our five-star hotel, it's at least six or seven hundred thousand a year to hit the bottom, which is still quite a lot of pressure for them."

"Now that they feel that the Ye family is in decline, they definitely don't feel the need to spend so much extra money to please me."

Ye Chen nodded and said indifferently, "Since that's the case, then why not take half of the hotel's rooms off the sales end?"

Saying that, Ye Chen added, "From now on, stop selling all of the executive wing of Buckingham Palace and leave the whole building behind, I have other uses for it."

"Good." Richard Chen nodded his head without hesitation and said, "Then I will inform the management in a moment and immediately take down these rooms in all channels."

Ye Chen gave a hmp and said, "When Wan Breaking Army arrives, let the people from Wan Long Hall stay there first, and also leave a suite for Su Ruoli, and vacate twenty more rooms for me to do business hospitality, and let those professional managers from the Ye Family come to Jin Ling to report to me regularly in the future."

"Okay Young Master." Chen Zekai busily said, "I will immediately coordinate to replace all the staff in the administration building with my cronies, and at the same time strengthen the security management to strictly prevent outsiders from entering."

## **Chapter 3559**

"Mhm." Ye Chen nodded and added, "When Wan Breaking Jun arrives, I will have him draw a five-star battle general from the Wan Long Hall and another thirty well-trained men over, then have them form a flexible and mobile security team in Jin Ling under your command, the group of people under you, their loyalty is enough, their combat power is still a bit weak, with their supplement, the overall strength will have a qualitative improvement."

Chen Zekai said respectfully, "Yes young master! When the time comes, I will also take this opportunity to ask the people of the Ten Thousand Dragons Hall to help us cultivate some more talents out!"

At this time, there was a knock at the door as well as a young woman's voice: "General Manager Chen, General Manager Qin of the Qin family and General Manager Wang of the Wang family want to see you."

Richard Chen said with some surprise, "How come Qin Gang and Wang Zhenggang are looking for you at this time?"

After saying that, he looked at Ye Chen and opened his mouth to ask, "Young master, do you think you want to meet them?"

"Sure." Ye Chen nodded and said, "People have come looking for us, how can we avoid seeing them."

Chen Zekai was busy saying to the female secretary at the door, "Bring the people over."

"Yes, Mr Chen."

A few moments later, the female secretary went and returned, and together with her, there were two other people, Qin Gang and Wang Zhenggang.

As soon as they entered, they saw both Ye Chen and Hong Wu sitting on the sofa and were surprised for a moment.

Qin Gang was busy asking, "Master Ye, why are you here too?"

Ye Chen smiled and said, "It's not that I heard that something had happened to Mr Chen's old boss, so as soon as he came back, I rushed over to take a look too."

Qin Gang and Wang Zhenggang were suddenly enlightened.

In fact, the two of them were also here for this purpose.

They had heard long ago that something big had happened to the Ye family, and since Chen Zekai was not in Jinling, they thought they knew that he must have gone to Yanjing.

Just now Qin had heard from his own sources that Chen Zekai had returned to Buckingham Palace, so he hurriedly asked Wang Zhenggang to come over to take a look.

When the two of them first entered Buckingham Palace, they could see that the hotel's business was much worse than before, and they knew the general situation well, so Wang Zhenggang said, "Mr. Chen, the reason we came here is to strengthen our cooperation with Buckingham Palace."

He said, "I've developed two properties in the suburbs, and they've sold well at the opening.

Qin Gang also said with a smile, "This year, thanks to Master Ye's blessing, our Qin family has a record supply of medicinal herbs, in the past we used to rush to various medicinal herb origins across the country to collect herbs, this year I plan to hold a medicinal herb exchange meeting directly in Jinling, let these medicinal herb suppliers come to Jinling with samples and prices to exchange on the spot, if they are suitable, we will sign on the spot, if not, I will reimburse them for the return trip. I will reimburse their return travel expenses and provide them with food and accommodation.

Seeing these two people's attitudes, Ye Chen's heart grew a little more appreciative.

Everyone else was avoiding Buckingham Palace at the moment, but they were rushing to deliver business, so it could be seen that they really considered Chen Zekai as a friend.

So, Ye Chen smiled slightly and spoke, "Mr Chen, since everyone is so supportive of you, let me also help out! Reserve your banquet hall for me for two days as well, I want to hold an auction!"

Chen Zekai was busy asking, "Master Ye ..... what are you planning to auction off?"

Ye Chen laughed: "I'll say hello to Wanting later and ask their Song Family Jiqing Hall to bring out part of their collection to support the show, as for myself ....."

Ye Chen said here, smiled self-deprecatingly and said, "I don't have anything of value on me, I'm afraid the only thing I can take out is the Spring Return Pill, at most, I'll refine a few amulets with my hands when the time comes, let's see who's willing to be that ingrate!"

## Chapter 3560

As soon as they heard that Ye Chen was going to auction the Spring Return Pill, everyone present took a breath backwards in shock.

Chen Zekai subconsciously said, "Master Ye, the last time you auctioned that Spring Return Pill at the Song family, the sale price went to a high price of two billion, and that time you did it on the spur of the moment, those really big tycoons outside didn't even know about it, that's why it was auctioned by Li Tai Lai for two billion ....."

The actual auction was held in advance, and if you do a good job of advertising and attracting all the top tycoons, then even if it's five billion, it's not a problem!"

Qin Gang, who was at the side, also said, "Yes, Master Ye! Your Spring Return Pill has long been famous among the rich and powerful in the south, and since Li Tailai took the Pill, he has become almost twenty years younger, and a man in his fifties looks as if he is in his thirties. People also say that he has been involved with men and women a lot during this period of time, and that he has had his hands on seven or eight female celebrities alone. .... Now there are many rich people who are dreaming of getting their hands on the Pill of Revitalization! If news of this spreads out, it is estimated that all the rich people in the country will come to Jinling!"

The first thing I want is for many people to think that Jinling can't be on the stage, so I'll make these top tycoons rush to Jinling! Many people now want to draw a line in the sand with the Ye family, so I will make them come to Buckingham Palace to attend this auction!"

Saying that, Ye Chen added: "This auction, the core lots are just three, the grand finale is a Spring Return Pill, followed by a Spring Return Pill divided into four portions, each of which will be auctioned separately, then three amulets, and for the rest, just let Wanting choose some random items from Jiqing Hall's collection to come in and hold up the show."

When Wang Zhenggang heard this, he said with regret, "Aiya ..... Last time when the Spring Return Pill was auctioned at the Song family, I didn't have that strength to compete with Mr. Li, and at this auction, I think I won't be able to get the Spring Return Pill even if I smash the pots and pans... .."

Saying that, he hurriedly asked Ye Chen again, "Master Ye, what are the effects of the amulet you have refined? If it's suitable, I will go to the auction and bid for one even if it's my family's money!"

Ye Chen laughed: "The talisman is only to ward off evil spirits and disasters, and to change feng shui fortune, it certainly cannot be as beneficial as the Spring Return Pill."

Wang Zhenggang slapped his thigh: "It can ward off evil and change feng shui fortune, buy one and wear it every day, maybe business will become more and more prosperous! I will definitely find a way to get one back!"

Ye Chen waved his hand: "The purpose of holding an auction is to earn money from outsiders, you don't need to participate, the amulet is simple, I will make a few more and give one to each of you when the time comes.

As soon as Qin Gang and Wang Zhenggang heard this, they were both incredibly grateful.

Both of them were fortunate enough to have been given the Blood Dispersing Heart Saving Pill by Ye Chen, and that effect had already benefited them immensely, and they were even more excited about the Spring Return Pill.

However, they also knew their actual situation, both of them were barely at the level of tens of billions of dollars family in Jinling, and most of their capital was pressed into various real estate and businesses, so if they really wanted to take out billions of cash to buy the Spring Return Pill, they simply did not have the strength to do so.

Now although Ye Chen did not say that he would definitely give it to them if he died, but since Ye Chen had made this statement, it proved that the chances were high.

So they all knew very well that going forward, they only needed to behave well in front of Ye Chen and do their best for him, then Ye Chen would definitely not treat them badly.

At this moment, Chen Zekai hurriedly asked, "Young master, then when do you want to set this auction to start?"

Ye Chen asked him, "How long will it take to prepare for the preliminary publicity?"
