

## Ye Chen 3581

### Chapter 3581

He gave it to Lu Haotian, the man who had been ordered by himself to bring more than a hundred coffins to kill the Ye family manor!

This, what kind of heart must one have?

In the eyes of Wan Bajun and the other generals of the Ten Thousand Dragons Hall, I am afraid that the sages spoken of by the ancients are no better than this!

Lu Haotian was even more grateful at this moment, kowtowing his head repeatedly and choking on his words, "Thank you Mr. Ye for your kindness ..... Thank you Mr. Ye for your kindness ....."

To Ye Chen, since he had refined the Peiyuan Pill, a little bit of spiritual energy was no longer a big deal, and he only needed to reach out and use a small portion of his spiritual energy to heal Lu Haotian with just a handful of strokes.

However, he had to choose the Spring Return Pill.

This is because, in the eyes of others, a hand-raising is always an unquantifiable indicator.

The other party would belittle the kindness because it was too easy for them to do so.

Therefore, since one wants to invite people to buy hearts, one has to quantify the favour.

Half a Spring Return Pill is not even a fart to oneself.

But it wouldn't take long for a Spring Return Pill to surely set a record of over ten billion dollars in the auction.

Therefore, even if the generals of the Ten Thousand Dragons Hall did not understand the preciousness of it now, once the auction was over, they would definitely realise the true value of the Spring Return Pill.

Only then would they be able to know how heavy this favour of theirs really was!

At this moment, Ye Chen looked at the crowd and said with a serious expression, "As long as you all serve me wholeheartedly, I will also regard you as friends and brothers, so what if I use billions of spiritual medicines? I will be willing to use it on you all."

After saying that, he gave a slight pause and added, "I know that your Hall of Ten Thousand Dragons must have mastered a relatively high quality martial arts internal skill technique, otherwise your overall strength would not be so high, however, from the strength of your Hall Master, we can see that the internal skill technique you practice is not optimal in the field of martial arts, otherwise he would not have been in the Ming realm and unable to otherwise he wouldn't have remained in the Ming realm, unable to go to the next level."

"When I have some time to spare, I will select a better and more complete internal martial arts method and give it to your Hall Master.

When Wan Bajun heard these words, he was inwardly shocked.

Although he was already an eight-star martial artist, if he really looked at it in the context of the martial path, he was just not even out of primary school.

The Dark Realm, the Realm of Transformation and the Realm of Patriarch that followed were equivalent to middle school, high school and university.

As a primary school student in the martial arts realm, his biggest dream all along, apart from avenging his parents, was to be able to break through the Bright Realm and enter the Dark Realm.

Only, this wish was not only unfulfilled by him, but also by his preaching benefactor.

His benefactor, before travelling the world, once bared his heart to Wan Bajun.

For him, to be able to enter the Dark Realm was the highest pursuit of this life.

He did not hesitate even if it meant that he would have to die at the end of the day.

All he wanted was to enter the higher realm he had always dreamed of.

Since then, Wan Bajun had also regarded the Dark Realm as the ultimate goal of his martial path.

In his opinion, Ye Chen's strength was not only above the Bright Realm, but even above the Dark Realm as well as the Transformation, and even the Patriarch Realm.

Therefore, when Ye Chen said that the internal martial arts techniques they practised were not optimal and that he had never been able to go to the next level, he immediately had a feeling of being ashamed of himself.

And these last words of Ye Chen's caused him to become incomparably frenzied inside all of a sudden.

He did not expect that Ye Chen would be willing to give the Ten Thousand Dragons Hall a better internal martial arts technique to help the Ten Thousand Dragons Hall improve its strength, wouldn't that mean that he would even have a chance to enter the Dark Realm in the future

## **Chapter 3582**

For a martial arts nerd like Wan Bajun, if he could one day enter the Dark Realm in the future, it would simply be the greatest opportunity of his life.

However, he also understood the meaning of Ye Chen's words, whether or not he could get this opportunity would depend on his own performance and that of the other generals of the Ten Thousand Dragon Hall in the future.

So, he immediately knelt down on one knee and said, "Mr. Ye, all of us in the Ten Thousand Dragons Hall will definitely do our best and will never let you down!"

The others also followed him and knelt down on one knee, stating their attitude in unison.

Ye Chen blandly accepted everyone's kneeling and said to Wan Bajun, "From today onwards, you must be stricter than ever with you and your men, and never let anyone be as arrogant and cocky as Lu Hao Tian and Chen Zhong Lei were before."

Without hesitation, Wan Bajun said respectfully, "Please don't worry, Mr. Ye, my subordinate will be strict with himself and the other members of the Ten Thousand Dragon Hall!"

Ye Chen nodded in satisfaction and said, "Alright, it's not too early, you guys should move to the airport now, and hurry up to land the armed escort."

"Good!" Wan Bajun hurriedly replied, and then said to Ye Chen, "Mr. Ye, you asked me to leave a group of people stationed at Jinling, or else let Zhong Lei personally stay at your disposal!"

Ye Chen waved his hand, "No need, after all, he is second only to you in the strength of the Ten Thousand Dragons Hall, so staying in Jinling is too much."

"Good." Wan Xiaojun immediately picked one out of the crowd and spoke, "Li Nan, step forward!"

"Yes!" A young man stepped out from the crowd and spoke, "Please give the Hall Master orders!"

Wan Bajun said, "You select fifteen people and form a squad of sixteen, you will be the captain, the whole squad will be stationed in Jinling, and all will be under Mr. Ye's command!"

"Yes!" The young man called Li Nan said without hesitation, "Mr. Ye, I am Li Nan, a five-star war general of the Ten Thousand Dragons Hall, if you have anything to say, I will do my best!"

Ye Chen nodded and said, "After you have chosen a good man, you will stay at Buckingham Palace, and Chen Zekai will arrange for your food, clothing and accommodation in Jinling."

Li Nan said without hesitation, "My subordinate obeys my orders!"

When Ye Chen looked at the time, he instructed Chen Zekai, "Old Chen, arrange for a vehicle to take Broken Army and the others to the airport."

"Okay Young Master."

Ye Chen then instructed Wan Bajun, "If you have any ideas about the renovation of that ship, sort them out and tell me as soon as possible, I will directly ask He Zhiqiu to arrange for the shipyard to carry out the renovation."

Wan Bajun was busy saying, "Mr. Ye, I have thought about it for a while, the general renovation is just a few directions, the deck renovation, and then converting part of the cargo hold into a living compartment to accommodate more armed personnel, as for the speedboat is simple, it can be procured anytime."

He said, "But now we are in a hurry, so I don't think we need to do too much renovation, we just need to level the deck first, leaving space for at least three helicopters to land. Modify it."

Ye Chen nodded and said, "I'll talk to He Zhiqiu later and have her make arrangements as soon as possible, so that when the cargo ship's deck is finished being remodeled, we'll drive to the Gulf of Aden and deliver it to you guys as soon as possible."

"Good!" Wan Bajun said firmly, "Don't worry Mr. Ye, within a week, I will take care of all the forward bases!"

.....

Afterwards, Wan Broken Jun, with most of the Wan Long Temple generals, hurriedly left Buckingham Palace and headed for the airport.

Ye Chen's Boeing business jet was ready to take off and would fly directly to Sana'a, the capital of Yemen.

Li Nan, who stayed behind, and the other ten or so generals from the Ten Thousand Dragons Palace were unified by Chen Zekai and checked into the Buckingham Palace administration building.

Ye Chen called He Zhiqiu again and told her about Wanbreaker's request for the cargo ship. Although He Zhiqiu did not know exactly what Ye Chen was going to do, she immediately said that she would immediately arrange for that cargo ship to go into the shipyard and be converted in the fastest possible time.

When the communication was finished, it was already noon, so Richard Chen asked Ye Chen, "Young master, do you have any other arrangements for noon?"

Ye Chen shook his head, "There are no more arrangements for now, I plan to meet Wanting this afternoon and touch base on the auction."

### **Chapter 3583**

Richard Chen looked at the time and said, "Young master, why don't you eat at Buckingham Palace at noon, I'll ask them to arrange lunch now."

"Let's go to Tian Xiang House." Ye Chen said indifferently, "No matter how exquisite the food made by a big hotel like yours is, it can't avoid smelling like a big pot of rice."

Chen Zekai was busy saying, "Then I'll prepare the car and say hello to Hong Wu by the way, let's go to Tian Xiang Fu."

Ye Chen instructed, "Right, make a call and call Wei Liang over, I have something to say to him."

"Okay!" Chen Zekai agreed and busily said, "Young master, then please move to the Sky Garden first, I

During this period of time, Ye Chen did not ask much more about the operations of Jiu Xuan Pharmaceutical, leaving everything in Wei Liang's hands, and he himself was more at ease.

However, right now, he wanted to speed up the development of Jiu Xuan Pharmaceutical, so this time, he sought out Wei Liang with the intention of giving him one or two new prescriptions, so that he could hurry up with the preparation of new medicines.

Soon after, Chen Zekai informed Hong Wu, and then drove the car himself, driving Ye Chen to the Tian Xiang House.

Ye Chen had just gotten into the car when his mobile phone rang, and the caller was Su Zhiyu.

Ye Chen picked up the phone and asked her with a smile, "Why is Miss Su calling me at this time?"

On the other end of the line, Su Zhiyu said in a respectful tone, "Your Excellency, Zhiyu is calling because she wants to report to Your Excellency. Yesterday, Grandpa announced the decision for me to take over as the head of the Su family at the Su family, and this morning, a general meeting of all shareholders was held at the Su Group to announce my appointment as the chairman of the Su Group, so I have now officially taken over the Su family. "

Ye Chen smiled, "Then I really have to congratulate you! You have become the head of the Su family at a young age! It's really congratulatory!"

Su Zhiyu said respectfully, "All thanks to your help, without your help, Zhiyu would have died in Kyoto on that snowy night ....."

Ye Chen said seriously, "Don't go back to those old calendars, you are now the head of the Su family, in charge of a large conglomerate with a market value of over a trillion, if you still always have a grateful heart, it is difficult to sit firmly in this position."

Su Zhiyu also said with the same seriousness, "Your Grace, apart from the kindness of his parents in raising him, Zhiyu is only grateful to you."

Ye Chen smiled faintly and said, "Alright, let's not say so much about polite words. You and I are both first time family heads, let's work together in the future."

"Understood!" Su Zhiyu said firmly, "I will definitely do my best to run the Su Family well, and at the same time, please rest assured that from now on, the Su Family will never compete against you in any field again, and as long as you say the word, no matter what field or industry, the Su Family will quit permanently without any repercussions!"

Ye Chen laughed: "Not so much, there can still be normal healthy competition, of course, if we can turn the competition into a cooperative relationship, that would be even better!"

Saying that, Ye Chen asked with concern, "By the way, Master Su has given you all the major powers, do you feel that there is a lot of pressure on you within the Su family?"

"Great." Su Zhiyu said mockingly, "Everyone looks at me like I'm an invader, they want to eat me alive."

Saying that, Su Zhiyu said seriously, "But I'm sure I can hold them down, don't worry, Your Grace."

"Good." Ye Chen smiled faintly, "If there is anything you need help with, remember to look for me."

"Yes! Thank you, benefactor!"

Ye Chen added: "By the way, I've been studying the transformation of the Ten Thousand Dragon Hall in the past two days, and my initial plan is to have them set up an armed escort company first, and once it's set up, I'll first hand over all the escort work of the Isuzu Shipping Line to them, and when you have time to come to Jinling, we can talk about it face to face."

Su Zhiyu said without hesitation and with a bit of excitement in his voice, "Your Excellency, then I will come and see you tomorrow!"

## Chapter 3584

At this moment, Su Zhiyu could not wait to come to Jinling to meet Ye Chen.

If it wasn't for the news that she would be holding a press conference in the afternoon to officially announce her succession as the head of the Su family and chairman of the Su Group, she would want to fly over right now.

Moreover, she had two very good reasons for coming to Jinling.

One was that her own mother lived in Jinling, and the other was that she was also a shareholder of Isu Shipping, which had invested so much that she naturally had to come over often to keep an eye on the operations.

Ye Chen didn't think too much about it, and it just so happened that he did want to meet up with Su Zhiyu and He Zhiqiu to have a good chat.

Moreover, he didn't just want to talk to them about the matter of the armed escort of the Ten Thousand Dragon Hall, but also about the next direction of development of the Isuzu Shipping Line.

So, he said to Su Zhiyu, "Give me a call after you land tomorrow, I'll make an appointment with Zhiqiu as well, and we'll meet then for a detailed chat."

"Okay." Su Zhiyu was busy saying, "Then I'll leave your Grace alone for now, we'll see you tomorrow."

"See you tomorrow."

When Ye Chen hung up the phone, Chen Zekai, who was driving, couldn't help but ask, "Young master, Miss Su has completely taken over the Su family?"

"Mm." Ye Chen smiled, "A 24 year old girl who has fully inherited a trillion dollar family fortune is probably unique in the world."

"Yes ....." Chen Zekai also could not help but sigh: "After this news is announced, I am afraid that Miss Su will become the woman in this world that men are most eager to marry ....."

Ye Chen laughed: "Whoever marries her, one step will become a winner in life."

As he was talking, Ye Chen's mobile phone suddenly rang again.

When he looked down, the person who called was, surprisingly, Helena, who was far away in Northern Europe.

Ye Chen recalled that when he was in Northern Europe, the empress had promised to let Helena succeed to the throne in three days' time.

So, Ye Chen picked up the phone and asked her with a smile, "Helena, has your coronation ceremony finished?"

Helena said in a very gentle voice, "Mr. Ye, my coronation ceremony will be held in four hours at the capital cathedral ....."

"Four hours later?" Ye Chen asked subconsciously, "Is such a grand ceremony going to be held in the afternoon?"

Helena was busy saying, "No, it's at ten o'clock in the morning exactly."

"Oh ....." Ye Chen then remembered about the time difference and laughed to himself, "I'm so sorry, I forgot about the time difference, so it's just six o'clock in the morning in your place? "

"Yes ....." Helena said softly, "I got up at four o'clock to put on my makeup and change my dress to get ready, it took me two hours to just get changed into my dress, it feels much more troublesome than getting married. "

"That's for sure." Ye Chen laughed, "Marriage is a matter for two people, at best, two families, but you succeeding the Queen's throne, this is a feast for your whole royal family, even the whole country."

Saying that, Ye Chen added, "Then I will congratulate you in advance on your successful succession to the throne!"

Helena said gratefully, "Thank you Mr Ye ....."

Saying that, she hesitated for a moment and asked somewhat nervously, "Mr. Ye ..... you ..... can you come to my coronation ceremony?"

Ye Chen said apologetically, "Sorry Helena, I'm in Jinling now, I can't go over to your coronation ceremony, and besides, your European royal family's coronation ceremony, I think it would be rather conspicuous for an Asian face to appear there."

## **Chapter 3585**

"I understand ....." Helena said in a voice that could not hide her loss, "I just ..... wanted you to show up so badly that I couldn't help but ask, even though I knew it might be difficult for you to get away, and with your personality, you might not like this kind of occasion ....."

Ye Chen hummed and asked her, "It's still a few hours away, are you nervous now?"

"Nervous ....." Helena leaned in, "Because this coronation ceremony is not only public, but it's being simulcast worldwide, so I'm especially nervous right now ....."

Ye Chen asked curiously, "Such a solemn event that has to be broadcast live worldwide?"

"Yes ....." Helena said helplessly, "Because back in the 1950s, before her coronation, the Queen of Britain had allowed the nation's radio and television to broadcast her coronation ceremony live at the request of her nationals, so this time when I succeeded to the throne, the Nordic people also petitioned online to have my coronation process broadcast live, and after consultation between the royal family and the Nordic government, they also felt that this was a good opportunity to enhance the influence of the royal family and bring the royal family closer to the people, so they authorized many television stations, online video websites and the media to broadcast it live for free ....."

Ye Chen then said comfortingly, "Don't be nervous, the global live broadcast is also really a good opportunity for the world to see you, there are not many royal families left in the world itself now, and there are even fewer queens, not to mention a young and beautiful queen like you, I believe that after

this coronation ceremony, you will become one of the most well-known women in the world, this is a hundred benefits for you, but no harm It will not only bring you and the whole royal family more influence as well as potential benefits, but it will also further increase the solidity of your royal power."

Helena asked, "Mr. Ye ..... will you be watching my coronation then?"

"Will!" Ye Chen said seriously, "I only know such a serious royal as you in the whole world, and soon to succeed the throne as empress, this cowl is really enough for me to blow for more than ten years, so such a major coronation ceremony, I will definitely watch it live on the internet."

Helena said gratefully, "That would be perfect ..... Mr. Ye, you must not lie to me ....."

Ye Chen laughed: "Don't worry, I will definitely watch the whole live broadcast, and then we will also let our short video platform do a broadcast to raise your influence in China a little."

Helena said with delight, "I don't care if other people watch it or not, as long as you are willing to watch it, I will be satisfied."

Ye Chen said with relief, "Don't worry, I will cheer for you in China."

Helena was touched and said, "Thank you Mr Ye, at eight o'clock which is two hours later, I will take the royal carriage and travel from the palace to the cathedral, at that time I will wear the brooch I have carefully prepared for you on my chest, you must remember to watch it!"

Ye Chen was surprised and asked, "A brooch for me? What does this mean?"

Helena said shyly, "You'll know when you see it then ....."

Ye Chen knew that Helena was trying to keep a suspense, so he did not pursue the question any further.

However, he did suddenly remember about the auction and said to Helena, "Right, there is something that I have to trouble you to pass on to your grandmother for me."

"My grandmother?" Helena asked in surprise, "What is it that you need me to convey to her?"

Ye Chen smiled, "There should be many European royalty and nobles as well as high class people attending your coronation ceremony today, right?"

"Yes ....." Helena said, "Almost all the European royal families have sent representatives, even the Middle Eastern royal families have come some."

Ye Chen then said, "I have to trouble your grandmother to help me promote the Spring Return Pill in front of these people!"

## **Chapter 3586**

"Promote the Spring Return Pill?!"

Hearing Ye Chen's words, Helena asked in surprise, "Mr. Ye, are you planning to sell the Spring Return Pill to the public?"

"That's right." Ye Chen smiled, "I plan to hold an auction at the end of the month in Jinling, and I will take out a small amount of the Spring Return Pill to be auctioned off live at that time."

Helena couldn't help but exclaim, "Then I'm afraid it will fetch a sky-high price by then ....."

Ye Chen laughed, "It's naturally best if it can fetch a sky-high price."

Saying that, he added, "European royalty, nobles and the great rich are all my potential customers, so I have to ask your grandmother to help me promote it properly, as for the exact time and rules of the auction, I will officially release it to the public through the Ye family in a few days."

Helena immediately said, "No problem, I'll talk to grandma in a minute!"

"Good." Ye Chen smiled faintly, "Then I won't delay your preparations, I will follow your coronation ceremony online throughout then!"

Helena said softly, "Okay Mr. Ye, in these recent twenty to thirty years, the development of China as well as the United States has been leading the world, coupled with Japan's perennial reign as the third in the world, so much so that these old empires in Europe, one by one, have looked a bit weak in recent years.

However, the difference between Europe and the United States, China and Japan is that most of the wealthy people in the latter three countries are emerging families and business owners, whereas in Europe, there are truly a large number of royal families and great nobles with centuries of history.

The ancestors of these people, who have made their fortunes since the first industrial revolution, and whose families have grown over the centuries, have long since acquired untold wealth, which is what is known to the outside world as OldMoney.

Although these people have not been very visible over the years, in fact, each one of them is rich.

The owner of a new type of listed company in China is worth more than a billion dollars at once, but this group of OldMoney can get hundreds of millions of dollars for a painting from the wall of their own castle.

Therefore, if Ye Chen wants to make a big push for the "Spring Return Economy", the European tycoons will be an integral part of it.

And if the soon-to-be abdicated Nordic Queen came out to speak, it would definitely have a great impact on the European tycoons.

After ending the call with Helena, Ye Chen remembered the feng shui master Lai Qing Hua who was far away in the United States, so he asked Richard Chen, "Old Chen, what time is it in Los Angeles?"

Chen Zekai was busy saying, "Young master, Los Angeles is on the west coast, fifteen hours different from us, it's almost a little after eight o'clock at night and not even nine o'clock!"

"Good." Ye Chen nodded, "That's not too late."

After saying that, he called Old Mr. Lai.

Soon, a cheerful voice of Lai Qing Hua came from the other end of the phone, "Young Master Ye, I was thinking of calling you when you were done with these two days, but I didn't expect you to be so busy and call me first!"

Ye Chen smiled faintly and asked respectfully, "How did Old Mr. Lai know that I was busy?"

Lai Qinghua smiled, "I heard about the matter of the Ten Thousand Dragon Hall bringing a coffin to kill the Ye family in the United States, so I dared to divine a fortune for you, and found that the fortune was surprisingly the superior sign of a dragon entering the sea, and I knew that the Ten Thousand Dragon Hall was definitely not your opponent."

At this point, Lai Qinghua added, "According to my speculation, the Ten Thousand Dragon Hall is not only not your opponent, but is also the key to sending you, the dragon, from the shallow talk into the sea! If old me is correct, you should have already become the Ye family head, right?"

Ye Chen couldn't help but ask in awe, "Has Old Master Lai's skill in divination and fortune-telling become so profound? To be able to tell that I have become the Ye family head just by using the trigrams, this is really remarkable!"

### **Chapter 3587**

"No, no, no. ...." Lai Qinghua said humbly, "I am far from being as magical as you say, Young Master Ye, the trigrams can only reveal the general trend, but the specific information contained in them needs to be logically analyzed in the context of the actual The situation needs to be analyzed logically."

After saying that, Lai Qinghua added: "At the beginning, I had told you on Mount Ye Ling that your fall to Jinling was a dragon trapped in the shallows, but after the Great Dragon Trapping Formation was broken, you had lost the bondage of the shallow talk, and at that time I suggested that you return to Yanjing so that only then would you be a dragon entering the sea. "

"Yes." Ye Chen smiled, "I've been living in Jinling for a longer time, so I'm kind of used to it and don't want to move to change easily."

Lai Qinghua smiled, "This time, the outside world is all abuzz with rumours that the Ye family is about to suffer a great calamity, if the Ye family really fell in this way, then your trigram would be that of a tiger falling into the sun, a dragon trapped in the shallows, or even a heavenly dragon falling, but your trigram shows a great auspicious illumination of a dragon entering the sea, so I presumed that this time, the Ten Thousand Dragons Hall killing on the Ye family must have sent you a once-in-a-lifetime good opportunity. "

At this point, Lai Qing Hua added: "I thought that although Young Master Ye has the destiny of the Dragon Grid, it is by no means easy for him to take charge of the Ye Family without any external interference! As the saying goes, it takes more than one day to freeze three feet of ice. The Ye family has accumulated so many years of family business, so many years to build up the power and management structure, even if a person is strong enough, if he wants to hold on to power, he needs to figure it out slowly, and the only chance for you to ascend to the top is when a strong enemy comes. "

Ye Chen said with admiration, "Old Mr. Lai is not only an extraordinary diviner, but his ability to analyse logically is even more admirable!"

Lai Qing Hua said, "Young Master Ye, you have praised me! I have only eaten a few bowls of rice more than others, so I dare not show off my skills in front of you!"

Ye Chen laughed: "Old Mr. Lai you must not say that, I am just a junior in front of you ....."

Lai Qing Hua laughed: "Young Master Ye, there is no need for you and I to boast about each other here.

Ye Chen said, "Mr. Lai, I can't say I have any orders, I just have a favor to ask you."

Lai Qinghua said, "Young Master Ye, you gave me this ten years of my life, so if you need anything, just give me an order and I will do my best to do it!"

Ye Chen smiled and said, "I am planning to hold an auction in Jinling at the end of the month, so I will take out one or two Spring Return Pills and auction them off at the auction."

When Lai Qing Hua heard the words Spring Return Pills, he was shocked beyond belief and said, "Young Master Ye ..... you ..... have just inherited the Ye family, you could never be short of money, why would you want to auction such a precious Spring Return Pills ah! "

At the beginning, Lai Qing Hua spent four years building the Ye Ling Mountain for the Ye family in order to find the birth gate of his destiny, which led to the gift of a Spring Return Pill from Ye Chen, so not many people knew better than him how high the value of the Spring Return Pill really was.

Once he heard Ye Chen say that he wanted to auction the Spring Return Pill, he couldn't understand it at all, Ye Chen would never be short of money, so how could he take out such a precious immortal medicine for some kind of auction?

Ye Chen then laughed: "Auctioning the Spring Return Pill is not because of a lack of money, mainly because Jinling is a place you know, although it is the ancient capital of the six dynasties and full of heritage, but the economic development over the years is really a bit behind, not too strong presence in the country, and even less known internationally ....."

"So, through this auction, I want to give Jinling some more exposure overseas, and by the way, attract some top tycoons to invest and buy property in Jinling!"

Speaking of this, Ye Chen said seriously, "Nowadays, it's not popular to talk about bending and overtaking, so I also want to let Jinling take a bend and see the effect!"

## **Chapter 3588**

After hearing Ye Chen's explanation, Lai Qinghua instantly fully comprehended Ye Chen's intentions, and even the deeper intentions that Ye Chen had not said, he was able to fully appreciate.

He knew that Ye Chen's use of the Spring Return Pill for the auction was by no means just to give Jinling more exposure, there must be a deeper intention in this.

Ye Chen, too, had always had a thought hidden in his heart that he had not told anyone about.

He wanted to hold this auction because he wanted to use the perfect bait, the Spring Return Pill, to attract step by step the richest and most powerful group of people in this world.

To him, the Spring Return Pill was like a top-notch nesting material sprinkled in the water when fishing.

With the nest made with this top-notch nesting material, not only would the unusual fish, as well as the normally rare big fish, be attracted to him, but even those behemoths that were normally hidden deep in the deepest and darkest places would definitely be attracted to him.

These behemoths were much more cunning than ordinary fish, and it was likely that one nesting session would not be enough to attract them over.

It was for this reason that Ye Chen had to keep the auction going on and on.

If they didn't come after hitting the nest once, or twice, by the third time, they might not be able to hold back.

These behemoths were the ones who knew and mastered the rules of how this world worked best.

They abide by the laws of the dark forest as described in the science fiction novel "Three Bodies", and are the hunters with guns who stalk through this dark forest.

Moreover, they always carry guns to hide in the shadows, conceal themselves and build up their energy, and never reveal themselves even when they shoot to kill.

But with a miracle pill like the Spring Return Pill as bait, they would never be able to hide forever!

In addition, Ye Chen had set the rule that the Spring Return Pill had to be auctioned and taken on the spot, so once all of the big and powerful were interested in the Spring Return Pill, they would have to show themselves and come to Jinling in person!

And once they couldn't control the temptation to come out of the darkness, they would have violated the great taboo of the Dark Forest Law and would be exposed to Ye Chen's field of vision, or even to Ye Chen's sniper range!

What Ye Chen wanted to do was to make these behemoths hidden in the Dark Forest reveal themselves, and replace them as the strongest hunters hidden in the Dark Forest!

If there were any hidden enemies among these behemoths, Ye Chen could also hide in the shadows and launch a fatal strike directly.

At this moment, Lai Qinghua also smacked out this intention of Ye Chen.

But he didn't say anything, instead he said with a smile, "Young Master Ye, your idea to overtake the world is really brilliant. By attracting them to Jinling, I'm afraid that it won't take long for Jinling's economy to achieve a huge explosion!"

Ye Chen laughed, "That is indeed my plan, that is why I need you, Mr. Lai, to help me promote the place in the United States, besides Europe, I am afraid that the place with the most hidden wealth in the world is the United States."

I'm not going to lie, Young Master Ye, but many people in the US have asked me how I came back from four years in China at the end of my life, but I'm getting younger and younger, including Mai Chengxing, who has asked me to explain more than once. It would be great if I could tell you!"

After that, he added, "Since Young Master Ye is prepared to use the Spring Return Pill to add to the Golden Tomb, then I should do my part too! Don't worry, from today onwards, I will tell all the rich people I know about the Spring Return Pill. With this actual case of me speaking out, and with my lifelong divination and fortune-telling skills as my backing, I believe they will be rushing to the Spring Return Pill!"

### **Chapter 3589**

Ye Chen laughed, "That couldn't be better!"

He said, Ye Chen added: "Right, Mr. Lai, when you tell the public about the Spring Return Pill, don't mention my identity, just say that you found the Spring Return Pill in China, and this time, I heard that a mysterious person is going to put the Spring Return Pill up for auction in Jinling. This news will be officially announced."

"Good!" Lai Qinghua said without hesitation, "I will take care of this matter, don't worry, Young Master Ye!"

Ye Chen thanked him, "Then I thank Old Mr. Lai, I will reserve a VIP seat for Old Mr. Lai at the auction, so please come over and guide my junior's work!"

I'm afraid that the world auction record will be set, although I have not made much money in my life, but compared to the richest group of people in the world, it's just a drop in the bucket. ...."

The first thing you need to do is to come to the auction. You can just come and support the auction at that time, and my junior will definitely have a generous gift to give at that time!"

When Lai Qing Hua heard this, he said nervously, "Young Master Ye ..... Lao Fu ..... Lao Fu did not mean that ..... you need Lao Fu to support the venue. I'll be happy to die! When the time comes, I will definitely go to harass you, but I would never dare to accept your big gift ....."

Ye Chen didn't explain much and smiled slightly, "Old man, we are also considered forgetful friends, so I won't be so formal with you, I will send you an invitation at that time, if you have time, it will be hard for you to make a trip!"

"Good!" Lai Qing Hua said without hesitation, "Young Master Qing Ye, don't worry, I will be there! I guarantee that in less than two days, all the wealthy people in America will be desperate to find out what the Spring Return Pill is!"

Lai Qing Hua's words made Ye Chen vaguely excited.

Moreover, to this old gentleman, Ye Chen was also very grateful in his heart.

Although he and he, himself, had only met on one side, but fate had allowed Lai Qinghua to spend four years to help himself out of his predicament.

Although he was also looking for his own birthright, it was an established fact that others had helped him, so Ye Chen was naturally grateful to him.

A rejuvenation pill can make a healthy old man twenty years younger and increase his life expectancy by twenty years, but for a hundred-year-old man like Lai Qing Hua, there were too many accumulated illnesses in his body, and when that rejuvenation pill was taken last time, almost half of the medicinal power was used to treat those old illnesses, so at most, he could only live for ten more years.

If he were to be given another Spring Return Pill, he would be able to live at least another ten to twenty years.

Therefore, Ye Chen had already made up his mind that when Lai Qing Hua came to Jinling this time, he would give him another Spring Return Pill.

After all, it was nothing to him.

In the past, the Spring Return Pill was more or less precious to Ye Chen, and by relying on it, his body had also improved tremendously.

But ever since he had refined the Peiyuan Dan, the Spring Return Pill had become too ordinary for him, so ordinary that the Spring Return Pill was no longer worth taking at all for himself.

As for refining more Spring Return Pills, it was not a difficult task for him either.

Now that his body was exceptionally full of spiritual energy, refining the Spring Return Pill was just a piece of cake.

And although the herbs needed for the Spring Return Pill were rare and precious, they weren't so rare that they couldn't be found even with money.

If he gave a quarter of the money he made from the auction of the Spring Return Pill to Qin Gang, he could buy back enough raw materials from all over the world to make thousands of Spring Return Pills!

## **Chapter 3590**

After Ye Chen and Lai Qinghua had said goodbye to each other over the phone, Chen Zekai also drove his car to the entrance of Tian Xiang House.

Along with Hong Wu Yi, the general manager of Jiu Xuan Pharmaceuticals, Wei Liang, came out to greet him.

Upon seeing Ye Chen, Wei Liang hurriedly and respectfully stepped forward and said, "Master Ye!"

Ye Chen did not expect Wei Liang to come so quickly and could not help but smile, "How did you get here so quickly?"

Wei Liang hurriedly said, "Mr. Chen said that you were looking for me for something, so I rushed over."

Ye Chen nodded and smiled, "I'm looking for you to talk about the new medicine, go in and talk."

Hong Wu hurriedly said, "Master Ye, the diamond box is ready, please go in!"

Ye Chen then said, "Let's all join together."

After they were seated, Ye Chen went straight to the point and asked Wei Liang, "How is Jiu Xuan Pharmaceutical doing recently?"

Wei Liang couldn't hide his excitement and said, "Master Ye, our Jiu Xuan Stomach San is selling very well, and has successfully entered the markets of some developed countries in Europe and America.

Ye Chen didn't feel much when he heard this figure, instead it was Chen Zekai who was shocked and asked, "The global sales of Jiu Xuan Stomach San alone have exceeded two billion RMB in one month?"

Wei Liang laughed, "Mr. Chen, this is only half of the sales in developed countries in Europe and the United States, we should know that the actual pricing of Jiu Xuan Stomach San in overseas, no matter which country's currency, is about one hundred US dollars, which is about six hundred RMB. The net profit is about forty to fifty percent, after deducting production costs, tariffs and corporate income tax, as well as channel costs, publicity costs and logistics costs."

Richard Chen could not help but exclaim, "If all the European and American countries were taken, wouldn't that probably double?"

"Yes." Wei Liang explained, "Many countries in Europe and the United States are more stringent in approving overseas drug imports, requiring us to produce relatively complete pharmacological experiments as well as clinical trial data, and even pharmacokinetics which also require us to give detailed data, and the most headache is that they need us to publish the prescriptions, and this we are still mediating with the relevant local agencies. "

Ye Chen said indifferently, "The prescription of Jiu Xuan Pharmaceutical is absolutely impossible to be leaked out, they don't even need to think about it."

Wei Liang said with more or less difficulty, "But Master Ye ..... if the other side insists, if we don't agree, the other side will not approve our medicine to be marketed in their country."

Ye Chen asked rhetorically, "Isn't there any special exception to this kind of policy?"

"There are ....." Wei Liang explained, "If it is a major disease-related special drug with a high mortality rate, in some cases it is able to get special approval, but that is basically something for cancer, cardiovascular diseases Serious illnesses with high mortality rates like these, or for chronic diseases like diabetes that require long-term medication, if there is a potent drug in these areas, they will generally open an opening to let the drug in first."

Speaking of this, Wei Liang said awkwardly, "But our Jiu Xuan Stomach San will not reach this level of urgency, after all, we are a regulating type of stomach medicine, more to address these symptoms of long-term or sudden stomach discomfort and indigestion in patients, these are not considered major diseases."

Ye Chen nodded and asked him, "Which countries are not in yet?"

Wei Liang said, "The biggest unentered market is the United States, the US FDA's requirements are really too strict and the process is cumbersome, so it's a bit tricky, but his two neighbours, Canada and Mexico, we have both entered smoothly, as for the European side, the biggest unentered markets are Germany and the UK."

Speaking here, Wei Liang sighed, "In fact, these three countries, the US, the UK and Germany, have very high potential!"
