

Ye Chen 3611

Chapter 3611

Fei Jianzhong, on the other hand, was able to go through so many organ transplants and still live into his nineties, and this laboratory deserves a lot of credit.

At the same time, he has invested in a brain research programme similar to that of the richest man, Chen, in the hope of preserving the human brain and the human consciousness when the physical body is irretrievable, so that it can achieve conscious immortality

In addition to this, he has invested no less than US\$1 billion in the scientific research technology of human cryopreservation.

In order to freeze his body on the eve of the death of the human body, when several other paths have not been followed, and then thaw it out and resurrect it in the future when the technology of immortality is mature.

In short, he had planned several directions for himself, hoping that one of them would succeed.

It was a pity that, although these researches he had invested in had some scientific results, they were still far, far away from the immortality he wanted.

This is why he was so eager for Lai's "chance".

Because of Lai's tight-lipped attitude, he had not had any communication with him for several months.

When he suddenly received a call from Lai, he was a bit stunned by the ageing man.

Originally not intending to answer the call, he thought for a moment and pressed the answer button, saying in a nonchalant tone, "Hello, what is it?"

Lai Qinghua was not surprised at all by this attitude of his and said with a smile, "Old Fei, how are you doing lately?"

"Not too good." Fei Jianzhong grunted twice through his nose and said dissatisfiedly, "I'm dying, the doctor said that my bodily functions have almost reached their end, even if I don't have any illnesses, I might die naturally sometime, unlike you, who found a way to be twenty years younger at once, but are unwilling to share it with your sixty-year old friend!"

Lai Qing Hua said awkwardly, "Old Fei, I know you resent me in your heart, this matter, the reason I didn't tell you is also because I have to keep my promise!"

"Your promise?" Fei Jianzhong asked in exasperation, "Is your promise more important than your old friend of sixty years? If I were you, I'd rather let myself bear the scorn of breaking my word than pull my old friend's strings!"

Lai Qinghua said helplessly, "Old Fei, you must understand that this chance is of no use even if I tell you, if it is your turn to not get it, then no matter how hard you try, it is useless."

Fei Jianzhong snorted coldly, "Don't think I don't know the situation, didn't you just go back to China for four years? That whatever chance you're talking about must be in China! If you still consider me a friend, then just tell me the name of someone! If you tell me who made you twenty years younger, I'll go and find him immediately! I just don't believe I don't have the power to make him loose his tongue!"

The reason why Fei Jianzhong is so confident is that he is indeed too rich.

The richest Chinese on the Forbes list didn't have more than half of his assets.

Even the Ye and Su families, the most powerful in China, could not match his assets.

So, he took it for granted that if he was shown who the chance was in, he would be able to get the other party to give the same chance to himself.

Lai Qing Hua lamented, "Old Fei, there are some people whose destiny is far above yours, and in the presence of such people, your confidence will no longer be confidence, but arrogance"

At this point, he sighed lightly and said helplessly, "That's all, let's not talk about that, lest you have to scold me again. Then I'll give you a glimpse."

On the other end of the phone, Fei Jianzhong was just about to curse, when he heard this, he immediately took a deep breath, and then asked in an excited manner, "Are you really willing to tell me?!"

Lai Qing Hua gave a hmp and said seriously, "I'm calling to tell you that the chance I got at the beginning was a divine medicine called Spring Return Pill, just one of it increased my life expectancy by at least ten years, if you have a chance with it, you might be able to meet it too."
