

Ye Chen 3721

Chapter 3721

“Oh yes, Mr. Ye also said that he might come to Northern Europe in the future and join hands with our Nordic royal family to hold an auction for the Spring Return Pill!”

The old Queen was instantly ecstatic and said with unbearable excitement, “That’s great, that’s really great! Even those tycoons worth hundreds of billions of dollars don’t have the chance to get a VIP status, but if Ye Chen can give me a VIP status, then our Nordic royal family will definitely impress many people this time! If we can join forces to hold an auction for the Spring Return Pill in the future, then our Nordic Royal Family’s reputation will skyrocket by a tier all over the world!”

After saying this, she couldn’t help but sigh with emotion, “Aiya! Mr. Ye is really giving me, an old woman, too much face

As soon as the words left her mouth, she hastily changed her tone again and said, “No! Mr. Ye must not be doing me any favours, he must be doing you any favours! Helena, Mr. Ye must have you in his heart! Otherwise, how could he have given us so many green lights!”

Hearing this, Helena’s heart sweetened, and then very seriously instructed the Old Queen, “Grandma, although Mr Ye has given you a VIP seat, you have to know that we don’t have the strength to compete for the Spring Return Pill, so when the time comes, you should mainly go and show your face, and don’t follow the Spring Return Pill auction.”

The old queen nodded and said, “Don’t worry, I know in my heart that with the little money we have, I’m afraid it may not even be enough for the starting price, I won’t go to the auction to embarrass myself then, I’ll just go to see the world and expand my network again by the way.”

“That’s good” Helena nodded and then said with excitement, “The auction is less than 20 days away, I need to prepare a gift for Mr. Ye, please help me bring it to him. hand it to him!”

.....

Meanwhile, inside the presidential suite of Buckingham Palace in Jinling.

Fei Ke Xin had already gotten the information that Chen Ying Shan had found.

As the head of the Buckingham Palace in Jinling, although Chen Zekai rarely showed up in public, he had been in Jinling for so long that he would inevitably leave behind some visual materials.

What Chen Ying Shan found was a live photo of Richard Chen, on behalf of Buckingham Palace in Jinling, making a donation to the Red Cross Society in Jinling.

When Fei Ke Xin saw the photo of Richard Chen, she immediately confirmed that one of the two men who had passed by in the lobby today was Richard Chen.

Fei Ke Xin could not help but mutter, “Buckingham Palace, is the property of the Ye family in Yanjing, generally speaking, every local Buckingham Palace, should be the Ye family’s local bridgehead, or even base, so this Chen Zekai, must be the Ye family’s spokesman in Jinling

Speaking of this, Fei Ke Xin added, "The Ye family is still very strong in China, this Chen Zekai, as the spokesman of the Ye family in Jinling, should have a very high social status in Jinling, why would he be so respectful to a so-called 'master'?"

Chen Yinshan said, "Miss, the Ye family in Yanjing was sought revenge by the Wondrous Dragon Temple of the mercenary world some time ago, and it was said that they took out half of their family fortune to get the Temple to let them off the hook. The feng shui master that he found when he was sick."

Fei Ke Xin nodded and said seriously, "I thought the same thing in my heart when I heard the name Master Ye, but there is a very strange thing about this matter, that Master Ye, why would he meet with Chen Zekai and Song Wanting? Combined with my previous speculation that the Buckingham Palace is most likely the location of the Spring Return Pill auction, could it be that the Jinling Song family has collaborated with the Yanjing Ye family?"

Chen Yinshan said approvingly, "I think it's very possible, although the Song family is very strong in Jinling, they are only one to two hundred billion RMB in size, although the Ye family has had half of their family assets divided by the Ten Thousand Dragon Palace, they are also much stronger than the Song family, the cooperation between the Song family and the Ye family will be beneficial to both sides, the Song family can enhance their status to a certain extent, while the Ye family can also recover their status to a certain extent."

"Hmm makes sense, " Fei Ke Xin nodded slightly, but her willow-like eyebrows were still adorably piled up.

Whirlwind, she remembered something and said to Chen Ying Shan, "Right, I heard them also talk about a person called Hong Wu, but I don't know how to spell the word Hong Wu, you help me ask around to see what this Hong Wu is!"

Chapter 3722

Inquiring about Hong Wu in Jinling was like inquiring about the Xiang brothers in Hong Kong, one could ask a random person on the street and find out four, five, six.

So, Chen Ying Shan quickly found out some information about Hong Wu, and then immediately fed back to Fei Ke Xin: "Miss, I have inquired about that Hong Wu, he is the head of the underground forces in Jinling, he is very famous in Jinling, and also has a lot of industries, one of them is a restaurant called Tian Xiang Fu, which is one of the top-class restaurants in Jinling, and has a great reputation. "

Fei Ke Xin nodded and analyzed, "That Master Ye, with Chen Zekai casually just a sentence to send people to Hong Wu, although I do not know what kind of people he is going to send, but from the tone he took for granted when he said this, can be seen, Hong Wu should also listen to his orders."

Speaking of this, Fei Ke Xin couldn't help but feel, "If that Master Ye, is just a feng shui master, then isn't it a bit strange that both Chen Zekai and Hong Wu treat him with such respect?"

Chen Ying Shan said, "It's alright, Miss, have you forgotten how much respect the master has for that old Mr. Lai? Every time he sees him, he is always respectful."

Fei Ke Xin said seriously, "Grandpa Lai's situation is different, he is a top feng shui master in Chinese circles, highly respected! He's been in the family for dozens of generations, so even the An family are respectful when they see him, not to mention my grandfather."

Saying that, she added: "But that Master Ye, he looks like he's only in his twenties, and he doesn't come from any feng shui family, how could he have such a big face?"

Chen Ying Shan shrugged her shoulders, "Maybe it's because he's young and talented."

Speaking of this, Chen Ying Shan thought of something and busily said, "Miss, that Master Ye, could he be from the Ye family?"

"I have also considered this possibility you mentioned." Fei Ke Xin spoke up, "But I don't think it's too likely, if he's from the Ye family, Chen Zekai shouldn't call him such a strange title as Master Ye, it's like you can't call me Master Fei in a nonsensical way."

Saying that, she also felt that she couldn't be so absolute, so she said, "Shanshan, you'd better look up the Ye family's information, find out all the information on the younger generation of the Ye family and show it to me, see if it can correspond."

Chen Ying Shan immediately said, "Then I'll go do it right now!"

The information on the members of the Ye family was not easy to find, but it was not a difficult task for the Fei family.

Soon, Chen Ying Shan had all the information on the younger generation of the Ye Family in her hands and handed it to Fei Ke Xin.

Fei Ke Xin looked through the multiple profiles, including Ye Feng and Ye Hao, and there was indeed no connection to the Master Ye she had seen, so she put the profiles aside and said indifferently, "It seems that he is indeed not a member of the Ye family, he just happens to have the same surname of Ye."

After a moment of silence, she then frowned and said, "I'm now wondering if this Master Ye, could have something to do with the Spring Return Pill, and if the commissioner of the Spring Return Pill, could be him."

Chen Yinshan was surprised and said, "Miss, this should not be very likely that young man is only in his twenties a person in his twenties, it is unlikely that he can afford to manipulate such a large plate and attract hundreds of top tycoons Come over, not to mention, something like the Spring Return Dan, it's not like a young man would have it."

Fei Ke Xin agreed with Chen Ying Shan's words and nodded, "I think the same as you, I always think that the person behind the Spring Return Dan should not be a young person."

Saying that, she added, "However, that Master Ye can make Chen Zekai and Hong Wu treat him with such respect, so he must be somewhat capable, have you inquired about this person?"

"Inquired." Chen Ying Shan was busy saying, "Unlike Hong Wu, Hong Wu's name is known to the whole world in Jinling, but Master Ye's name, no one seems to know."

“No one knows?” Fei Ke Xin was even more surprised and blurted out, “Chen Zekai even respects him, such a person, no one knows about him in Jinling?”

“Indeed.” Chen Ying Shan said seriously, “The people we consulted to said that they had not heard of Master Ye.”

In fact, Ye Chen had always acted in a very low profile.

Although there were many people in Jinling who knew his name as Master Ye, those people were basically his own people.

The only time Ye Chen had ever shown his face was at the XuanXue Conference when he had caused the lightning to strike Yu Zhenhai to death.

Chapter 3723

What’s more, the strength Ye Chen displayed that time was so strong that those people kept their mouths shut about Ye Chen’s deeds.

As for people like Hong Wu, Wei Liang, Chen Zekai and Qin Gang, if someone approached them to inquire about Ye Chen’s deeds, they would not even spill half a word.

Therefore, although Jinling was Ye Chen’s home turf, there were really not many people in Jinling who knew about him or “Master Ye”.

This made Fei Ke Xin even more puzzled.

Originally, he thought that Ye Chen should be a famous local feng shui master, so some local dignitaries would have to give him some face.

But now it seemed that he was hardly known in the local community, which was really strange.

Fei Ke Xin frowned and said, “I always feel that something is wrong with this matter, and that Master Ye, surnamed Ye, is not quite right either, but I can’t figure out what the problem is for a while.”

Chen Yinshan hurriedly said, “Don’t worry too much, maybe that Master Ye doesn’t have any real ability, and there may be no direct connection with the Spring Return Pill.”

Fei Ke Xin said very firmly, “Shan Shan, remember, the old ancestors said that when something goes wrong, there will be a demon, and these seven words are one of the gold standards for judging problems.

This is a lesson that Fei Ke Xin drew from when she was very young.

When she was a child, she watched magicians perform magic tricks, and every trick looked so wonderfully mysterious that she could not figure out the reason for it at all.

If she had been a child, she would have transformed this mystery into admiration for the magician, thinking that he could really do magic.

However, Fei Ke Xin always believed that the reason why she could not understand all the magic was not that the magician could really do magic, but that she had not yet seen the subtleties of it.

So, she asked her family to bring in a number of magicians to decipher the mystery of each trick for her on the spot.

As the mechanism and mystery behind each of the many seemingly unimaginable, if not impossible, tricks was revealed to her, she immediately found that all her doubts and shock were dispelled at that moment.

These childhood experiences had reinforced her basic direction and logic in judging things.

Now Ye Chen was a magic trick in front of her, a magic trick that she had not yet understood the logic behind, so she could not wait to reveal the mystery behind this "magic trick".

Chen Ying Shan thought for a moment and said, "Miss, if you can't, I'll arrange for the bodyguard accompanying her to follow Master Ye quietly and see if we can find anything."

"No way." Fei Ke Xin immediately refused, "We can't take any chances before we know how much weight the other party has."

After saying that, Fei Ke Xin added, "We have just arrived in Jinling, there are still nearly twenty days before the Spring Return Pill Auction starts, it is better to play it safe and not to rush, I will first try to find out what the name of that Grandmaster Ye is."

Chen Ying Shan said with some worry, "Miss, you have only met that Master Ye once, so I'm afraid it's not easy to find out who his name is without letting anyone follow him."

Fei Ke Xin nodded her head and said, "That's something I thought of."

Saying that, she smiled slightly and added, "But the good thing is that there are still two clues, Chen Zekai and Hong Wu."

Speaking of this, Fei Ke Xin then said, "You go to that Hong Wu's Tian Xiang House, ask him what the highest spending there is like, and then give me a month's package according to the highest standard, from then on, every day at noon and evening, we will go to the Tian Xiang House for dinner, I believe we will definitely get something."

"Good!" Chen Ying Shan immediately said, "Don't worry, Miss, I'll go and do it right now."

Fei Ke Xin instructed again, "By the way, investigate whether there are any famous and top-notch local doctors in Jinling, especially Chinese doctors! I always feel that in this insignificant place of Jinling, it's already a big deal to produce a Jiu Xuan Zai Zai Pill, but it's really weird that they can still produce a Spring Return Pill!"

Chen Ying Shan immediately nodded and said, "Yes Miss, I will have someone find out as soon as possible!"

Chapter 3724

Hong Wu had a very leisurely time recently. After going out on his daily rounds, he would return to the top floor of Tian Xiang House, drinking tea and listening to music, in a dashing and relaxed manner.

However, in the evening, Richard Chan suddenly called him and said in a serious tone as soon as he came up, "Hong Wu, your dog farm has to hurry up and get ready, it's going to receive a new shipment tonight."

Hong Wu was lying on a recliner, drinking tea from a purple sand pot in his hand, when he heard this, he sat up straight and asked, "Mr. Chen, how many goods are coming tonight?"

Chen Zekai laughed, "Seven or eight if there are no surprises, if there are any more arrivals, I guess it will be an even number!"

"Holy sh*t" Hong Wu exclaimed, "How come there are so many"

Chen Zekai said helplessly, "Hey, don't mention it, these two days the West sent agents to spy on Jiu Xuan Pharmaceuticals is one wave after another, these seven or eight are still caught inside Jiu Xuan Pharmaceuticals, there are dozens of day and night around Jiu Xuan Pharmaceuticals, still haven't done it yet."

Said Chen Zekai and said, "This batch of goods for you, you must be careful, these people are all agents, well-trained, do not let them run away!"

"Run?" Hong Wu heatedly smiled and immediately said, "Mr. Chen, don't worry, no one who can run away from my Hong Wu dog farm has been born yet!"

As he said that, he hurriedly added, "When the people are delivered, I will first have my men break both of their legs, and then send each of them a big thirty pound pure iron dog chain, and then three big one pound locks, so that they can't even run away!"

"Don't." Chen Zekai was busy saying, "Young master has said that these people's identity is sensitive, so it's definitely not appropriate or safe to stay with you for a long time, so we plan to send them all to Syria by boat when the time is right, these people will have other uses in Syria."

"Ah?" Hong Wu asked in surprise, "Sending to Syria? These people have special status, how can we send them?"

Chen Zekai laughed, "It just so happens that the young master will be sending ships to Syria to deliver food some time later, so he will send all these people there in one package. If you break their legs, then they won't be able to do anything but eat, drink and sh*t."

Hearing this, Hong Wu hurriedly said, "Mr. Chen, if you can't break their legs, then I'm really under a lot of pressure for security! It's not just one or two agents, it's seven or eight or even dozens of agents, I'm afraid that the people under my hands simply can't defend against them"

Said Hong Wu and said, "Those agents on the movies, what James Bond, what Tom Cruise, they are all very capable, nothing can protect them from anything"

The real agents are also human, do you really think they can do anything?"

The most important thing is to make sure that they are not hiding any tools, and then put them inside. I don't believe they can still chew open the cage you welded shut?"

Then, Richard Chan said, "Don't be so stressed out, all the villains in the movie are retarded, so the decent characters can escape."

Hearing this, Hong Wu breathed a sigh of relief and said, "That's a good idea! I'll be able to do it now! Master Ye instructed me to upgrade the dog farm last time, and the new cages I'm replacing are made of 30mm thick rebar, and are arranged in two layers, inside and outside, in a tic-tac-toe pattern."

"That's good." Chen Zekai was busy asking him, "Where are you?"

Hong Wu said, "I'm at Tian Xiang Fu, I'm rushing to the dog farm!"

"Good!" Chen Zekai said, "Then I'll go there too, I'll see you at the dog farm."

"Okay!"

Hong Wu hung up Chen Zekai's phone and immediately stood up, grabbed his car keys and prepared to go to the dog farm.

At this time, the manager of Tian Xiang House ran up quickly, panting and saying, "Master Five, a big customer has come downstairs,!"

Hong Wu frowned and asked, "What big patron?"

Chapter 3725

The manager was busy saying, "Someone wants to charter our diamond box for a month!"

"What kind of person" Hong Wu asked in amazement, "Coming to the Tian Xiang House to eat even for a month, sick, right?"

The manager was also puzzled and said, "I don't get it either, that person came and asked how much our most expensive cla*s was, so I quoted her the price of a diamond box for 200,000 for a meal without drinks, and without saying a word, she booked a month, and it was two meals at noon and at night, that's 60 meals! Twelve million!"

Hong Wu frowned and said, "Are you nuts? It couldn't be a deliberate trick on you, could it?"

"No" the manager said hurriedly, "That b*tch is so f*cking cool, I said the minimum is twelve million, if you really want it, I'll give her a discount, she directly gave us fifteen million to our Tian Xiang House collection account on the spot, saying that we should raise the grade of the dishes to a higher level"

After saying that, the manager said with an inviting face, "Master Wu, this is 15 million! We have never received such a large order since the opening of Tian Xiang House!"

Hong Wu immediately said in annoyance, "Who the hell told you to take money? I usually have to use this diamond box to entertain Master Ye, you're the manager here, don't you have a clue?"

Only then did the manager realize that he had done something wrong and said with shame, "I'm sorry, Master Wu, I was so focused on the big deal that I forgot you were going to entertain Master Ye, I'll go down and talk to her and have the finance department refund the money back the way it was. the money back the way it was."

Hong Wu snorted coldly and said, "Remember, from now on, the diamond box will only be reserved for Grandmaster Ye, if Grandmaster Ye doesn't come, it will remain empty."

The manager immediately nodded his head in fear and said, "I understand, Master Wu! Don't worry, there won't be a next time!"

Only then did Hong Wu's expression ease a few points and said in a cold voice, "I have to go out, so hurry up and take care of things."

After saying that, he directly pushed the door and took the lift downstairs.

When Hong Wu left Tian Xiang House, he happened to pass by the front desk and saw a woman in professional attire standing next to the front desk. Thinking of what his little brother had just said, he subconsciously gave the other party an extra look.

And this woman was none other than Fei Ke Xin's personal assistant, Chen Ying Shan.

Chen Ying Shan also saw Hong Wu at this moment, because she had just checked Hong Wu's profile, she immediately recognised this middle-aged man of about fifty, wearing a Tang suit and topped with a big bald head.

At this time, the receptionist said respectfully, "You're going out, Master Five?"

Hong Wu gave a hint and nodded, and met the two of them with Chen Ying Shan, feeling that the woman was looking at herself in a slightly strange way.

However, Hong Wu didn't think much of it, after all, he was in a hurry and Chen Zekai was still waiting for him, so he went straight out of the Tian Xiang Mansion, drove his car and went straight to the dog farm.

At that moment, the manager of Tian Xiang House also hurriedly ran down from the stairs and came directly to Chen Ying Shan, saying apologetically, "Miss, sorry, our boss said that the diamond box is not available for booking, I will let the finance department refund your money back!"

Chen Ying Shan was surprised and asked, "Why? You opened your doors for business and I paid you a month's fee in advance in one breath, why don't you agree?"

The manager said helplessly, "It's our boss's wish, I'm really sorry!"

Chen Ying Shan asked, "Do you think the money is not enough? If not, I can add a little more to your bill!"

The manager said, "Miss, it's not about the money, it's our boss's rule that we don't accept reservations for diamond boxes."

Chen Ying Shan was a bit angry and questioned, "Then I can book a different box, right? Don't you have any gold boxes?"

When the manager heard this, he said, "No problem!"

Chen Ying Shan could only say with a puff of anger, "Fine! Then I'll book a gold box! You don't have to refund the money either, but prepare our meals at the level of the diamond box!"

Chapter 3726

After Chen Ying Shan returned to Buckingham Palace, she reported to Fei Ke Xin exactly what she had encountered at the Tian Xiang Mansion.

After hearing this, Fei Kexin immediately said with certainty, "I guess their diamond box is reserved for an important guest, and it could be that Master Ye."

Saying that, Fei Ke Xin smiled faintly and her whole body relaxed as she said, "This is better, maybe we will be able to meet that Master Ye in a few days."

Chen Ying Shan spat out her tongue and sighed, "For the sake of that Master Ye, he can even refuse a single order of more than ten million, this Master Ye's face with Hong Wu is too big!"

Fei Ke Xin nodded gently, pursed her lips and said with interest, "I'm really getting curious about that Master Ye!"

Immediately, Fei Ke Xin's eyes suddenly lit up and she said, "Shan Shan, see if there are any villas in Jinling that are located near the mountains and water, and buy one if you have one."

Chen Ying Shan was surprised and asked, "Miss, why do you suddenly want to buy a villa in Jinling?"

Fei Ke Xin laughed, "I'll ask Master Ye to come over and check my feng shui!"

Chen Yinshan suddenly understood and asked, "Miss, what kind of villa do you want to buy? Do you want me to compile some information so that you can choose first?"

Fei Ke Xin waved her hand, "It's just a villa, no need to go through all this trouble, just go and look at it and buy it if you like.

To Fei Kexin, buying a villa in a place like Jinling could not cost more than US\$30 million, so such a small project was of no importance to her and was not worth her time.

Chen Yinshan also knew that the style of this young lady was always to take care of the big things and let the small ones go, and she didn't bother with any small matters, so she just let her people take charge.

So, she spoke up, "Yes Miss, I will go and do this first thing tomorrow morning."

.....

It was already night time.

Inside Hong Wu's dog farm, it was a busy time.

During the expansion of the dog farm, Hong Wu adopted the method of sealing the top and digging the bottom, laying a steel roof on top of the entire dog farm, and also making a comprehensive layer of coverage with photovoltaic power panels, while the interior was unobtrusively dug out two whole layers downwards.

In this way, the size of the dog farm has been multiplied, the risk of exposure has been minimised, and the entire farm has been made more secure.

If you were locked in here, it would be very difficult to escape.

Soon, two vans arrived at the dog farm, followed by a number of Dragon Palace soldiers, who escorted eleven agents from the first van.

These, all the agents, were captured by the soldiers of the Ten Thousand Dragons Hall when they were sneaking into Jiu Xuan Pharmaceutical and trying to find out the secrets of the Jiu Xuan Rejuvenation Pill from Jiu Xuan Pharmaceutical.

They thought they were well trained and could be unnoticed, but in front of these masters of the Ten Thousand Dragons Hall, they had nowhere to hide.

When they were taken off the bus, they had no idea where they had arrived because they all had impermeable black cloth bags over their heads.

Moreover, the hands of these agents were all tied together very professionally with widened and thickened nylon ties.

To prevent them from escaping, their hands were folded together and not only were they secured with nylon ties at their wrists and small arms, but the five fingers of each hand were also tied together with the five fingers of the other hand by the ties.

Under such circumstances, it was impossible for them to pick up the blades even if they were placed in front of them, not to mention finding the curved pins or blades to escape on their own.

When the generals of the Ten Thousand Dragons Palace brought them all into the second level of the Dog Breeding Grounds, the group did not know what kind of situation awaited them.

Chapter 3727

As the men were led to the solid cage, Hong Wu pulled the black cloth bags covering their heads off one by one. Looking at the ten or so males with different skin tones, he said in a cold voice, "Since you are all agents, I guess you should all be proficient in Chinese. In this mu of land, I've never been afraid of anyone except Master Ye, and once you're here, you're the same as the dogs I've raised, so you must obey me, or else I'll make your lives worse than death!"

The ten or so agents all tensed up when they saw that they were in front of a huge iron cage.

One of them shouted out of the blue, "We demand humanitarian treatment!"

Hong Wu went up to him and slapped him across the face, cursing, "f*ck you, you've come into our territory as a f*cking thief, trying to steal our f*cking stuff, and you have the f*cking nerve to ask me for humanitarian treatment? I'm only keeping your lives because you'll be of some use in the future, so why don't you get down on your knees and thank Master Ye for sparing your lives and still have the nerve to talk to me about this?"

After saying that, Hong Wu immediately said to his men, "Go, have the welder weld a hood for him, just like the one we made for the Tibetan mastiff before, and lock his pig head inside the hood. If he dares to say one more word, I'll sew his mouth shut!"

Hong Wu's fierceness immediately made the group of well-trained agents feel a little chill down their backs.

So all of them kept their mouths shut and waited anxiously for Hong Wu's sentence.

In their hearts, they knew very well that their infiltration into Jiu Xuan Pharmaceuticals to steal core secrets was illegal, plus their special status would not be recognised by the West if anything happened to them, so now they could only let themselves be slaughtered, while hoping that their home country would come back to rescue them.

In no time at all, Hong Wu's welders used thin steel bars to weld a mask for the unlucky man, which, when placed over his head, would have looked like an imitation of a fencer.

Hong Wu used an extremely common three-ring lock to lock the hood in place and said in a cold voice to the man, "Listen carefully, if you dare to open this hood yourself, I will have someone weld an iron coffin and weld you in it! Do you understand?"

Upon hearing this, the man humbled himself and said, "I understand, I understand!"

In a cold voice, Hong Wu ordered his men around him, "Take off all their clothes, leaving only one pair of trousers for each of them, and then put them all in the cage!"

Several of his men immediately stripped the men of their clothes, cut the nylon ties from their hands and pushed them into the cage one by one.

Since there were soldiers from the Dragon Palace standing next to them, none of the agents dared to resist and could only get into the cage honestly.

As soon as they entered the cage, the group felt a wave of despair.

The cage was as solid as gold for a human being, thirty millimetres of rebar cross-welded, leaving only a square gap of ten centimetres on each side, just enough space to stretch their arms out.

Once the men were all stuffed into the cage one by one, all their hopes rested on the iron door.

Most of these men were expert lock pickers, and as long as the lock was of normal mechanical construction, it was not too difficult in their eyes, and as long as the time was right to open it quietly, they would have a chance of escaping.

However, just as they were imagining how to crack the cell door, they saw several of Hong Wu's men running over, dragging power cords and welding machines, crouching at the cell door and crackling at the iron door.

All at once, the fire from the welding was shooting out in all directions.

The men's faces were instantly ashen, their hearts already desperate to the core.

The iron door was welded shut, so if they wanted to escape from here, there was hardly any possibility except to chop themselves up first!

Chapter 3728

Hong Wu has a strong reckless aura about him, and this reckless aura of his is normally not frightening in front of people who have really gone through life and death and great storms, and even makes people feel a bit ridiculous.

However, once he is in an environment that suits him, this reckless aura in him will explode into a very powerful deterrent.

At this moment, Hong Wu is standing in front of the iron cage in the dog farm, like an African hyena standing in the endless African savannah!

This is its home turf, and on its home turf, even the lion, the king of all beasts, would have its jugular tightened when it saw his ferocious appearance.

For this thing looks inconspicuous, but it really hits hard.

So what if it's a lion, so what if it's a hippopotamus, the African hyena is not afraid of anyone when it really gets tough, and it can play straight into the most ruthless and cruel tactics in the animal world like no one else.

The agents were not always in danger, or even captured, but this was a time of peace, when agents were usually caught in private political manoeuvres between countries, and those who were captured were not only not tortured, but also enjoyed better humanitarian treatment than ordinary prisoners.

However, they are now facing Hong Wu, what humanitarian treatment, what basic personality, bullsh*t will not be guaranteed to them.

When he said he would weld a hood to a person, he immediately welded a hood and locked his head in, which left no doubt that if they continued to provoke him, they were afraid that they would really be welded into his coffin.

Moreover, they had never been in a cell like this before in their lives.

Once in the cell, the cell door was welded shut directly from the outside

This is simply not even a f*cking thought.

At this moment, Hong Wu, coldly watching the iron door being completely welded shut, sneered and instructed the people around him, "Listen to me carefully, from now on, only give them one meal a day, the meal should be as low as possible in fat and carbohydrates, and every hour, give them a cold shower, torture them to the point of exhaustion, so that not only do they not have the physical strength to escape, but also the brain power to escape! not even the brain power to escape!"

The little brother immediately agreed in a loud voice, only for the group of agents to suddenly fall into the ice.

A cold shower every hour, now in April weather, would not kill anyone, but it was clearly designed to sap their strength and will, and at the same time interrupt the consistency of their rest.

In this way, even a man of iron would collapse if he could not even secure a basic sleep.

Chen Zekai spoke up at this time, "Hong Wu, you should follow Zhou Xingchi's example and add some laxatives to the water for them."

Hong Wu smiled heatedly, "Good idea, Mr. Chen!"

After saying that, he immediately turned to the little brother beside him and said, "You all heard what Mr. Chen said, get the laxative ready for me!"

The little brother nodded his head in a hurry, "Yes Master Five!"

Only then did Hong Wu ask Chen Zekai again, "Mr. Chen, are there more goods to be delivered later?"

"Yes." Chen Zekai nodded, "I guess those people won't stop there, they'll definitely poke around in Jiu Xuan Pharmaceuticals to find out what's going on, so we'll catch as many as we can."

Hong Wu smiled, "Good! Earlier I was afraid that the gang would not be able to manage too many people, but now it seems that there is no big problem in managing them."

Hong Wu said with some concern, "Mr. Chen, what I'm worried about now is whether there will be any mistakes when we transport them out when there are more people, even if the cages are welded strong, they will have to be cut open when they are released."

Chapter 3729

Chen Zekai laughed, "That's better, I'll prepare some anesthetic needles for you to use on the bears, give them a shot through the cage, put them all down and load them into containers, pull them by the truckload to the dock and load them onto the ship, it won't take long to get them to Hamid."

Hong Wu sighed with relief and smiled, "That's much better!"

.....

At this very moment.

It was early morning in Washington, United States of America.

In the military's research and development base, the two of them, Rogers and Smith, were sitting in their offices smoking, while in front of them, there were executives from the military as well as the CIA.

Early this morning, the heads of their four departments had an emergency meeting, with the CIA reporting to the others on the successive disappearances of agents, and Rogers reporting to the others on the lack of progress in reverse drug development and the fact that the drugs sent back by Junpei Nakamura were still ineffective.

Smith also informed the group of the bad news that he had contacted Jiu Xuan Pharmaceuticals several times on behalf of the FDA and even raised the price of the drug several times, but Jiu Xuan Pharmaceuticals was unwilling to give them even one more box of Jiu Xuan Zhen Zhen Pills.

At this rate, within a few days, the five patients would have to stop taking the medicine.

The CIA executive was also at a loss, and he spoke with some annoyance, "All of our agents who entered Jiu Xuan Pharmaceuticals have disappeared without exception, all of them are highly trained and top-notch, but I didn't expect that they would be unaccounted for in a private pharmaceutical company. It seems that it will not be possible to obtain confidential information related to the Jiu Xuan Zai Zai Pills anytime soon."

The military representative was surprised by this and said, "Those agents of yours are all very strong, so it's fine if they didn't escape, didn't any of them give us any useful information?"

"No." The CIA executive said at a loss, "It feels like that Jiu Xuan Pharmaceutical is like a black hole, once people go in, they will be completely lost, several European agents are said to have disappeared as well, no information has been transmitted."

The military representative hurriedly asked, "So what's your next plan?"

The CIA executive spoke up, "We still need to find a chance to find out what's going on inside Jiu Xuan Pharmaceutical, not to mention whether we can find the confidential information about the Jiu Xuan Recycle Pill, but at least we need to find out the exact whereabouts of our agents and then find a way to get them back."

The military representative said with some concern, "I think this matter will be very tricky, you sent agents to infiltrate a private company to steal secrets, this matter is not on the table in the first place, if the other party refuses to release them, then you can only eat this dumb loss."

The CIA executive sighed and spoke, "If it's really not possible, then we can only send a representative to negotiate a release condition with the head of Jiu Xuan Pharmaceutical, privately, as long as both sides can reach a consensus, then our people will still have a chance to go home."

Saying that, he looked at Smith and asked offhandedly, "By the way Smith, aren't you planning to make another trip to China to talk to the head of Jiu Xuan Pharmaceuticals again?"

"Yes." Smith nodded and said, "I do plan to make another trip and buy some more medicine back from them."

The CIA executive was busy saying, "Then I'll go with you, and when I do, I'll claim to be your assistant and make contact with the head of Jiu Xuan Pharmaceuticals first to get a feel for it."

Smith said awkwardly, "I'm not sure if they're willing to meet me yet, and if they're not, I might have to go and broker a meeting with that middleman of theirs to see if I can get a meeting, and if I can't, then I'll have to go home without any success."

"That's fine." The CIA executive spoke up, "If we can meet, let's go to China first!"

Chapter 3730

The registration for the Spring Return Pill Auction closed quickly.

Nearly 1,000 tycoons from around the world applied, but in the end only two hundred were able to make the cut.

After the deadline, Song Wanting began to arrange for her team to start the capital verification process. If a tycoon was ranked in Forbes, the latest value published in Forbes' list would be used directly, but if a tycoon did not appear in Forbes' list, a series of tedious and elaborate capital verification processes would be required.

As for Ye Chen's side, he also began to prepare for the auction. There was no need to prepare for the Spring Return Pill, as it was ready-made after all.

The amulets are not difficult to make, but their functions are relatively homogeneous.

Some can ward off evil spirits, some can be used for transit, and some can protect from disasters, but there is hardly any all-purpose amulet.

Moreover, according to the Nine Mystical Scriptures, the effectiveness of amulets varies greatly depending on the material used and the ability of the maker.

If one is a beginner who knows a bit of Qi Men Dun Jia and Runic Seal, the talisman made will often have only a very weak effect.

For example, if the amulet for transit is of average level, if one could originally win five dollars by buying a lottery ticket, with the blessing of the amulet, one would only win ten dollars at most.

However, if the person who made the amulet is very strong, then a lottery ticket that would have won two dollars might win five million dollars.

Moreover, the effectiveness of this thing is not stacked layer by layer like a pile of data.

To put it more plainly, lottery prizes span a wide range of levels, from a minimum of five dollars, then ten, two hundred, three thousand, hundreds of thousands, and even five million.

This amulet, which can make someone who wins five dollars win ten dollars, is because its greatest ability is to add five dollars to the original, not to add a notch to the original.

If a person is already very lucky in his own right and can win a \$300,000 prize by himself, it is unlikely that he will win five million even if he wears the amulet, because the difference is so great that it far exceeds the ability of the amulet itself.

Therefore, if such a person wears a low-level amulet, then at most, he will first win the \$300,000 prize by his own luck, and after cashing out the prize, he will pick up five dollars at the entrance of the lottery centre with the help of the amulet.

That's all.

The same is true of the amulet for protection from disasters.

According to the Jiu Xuan Tian Jing, precious jade can indeed protect its owner from disasters, as folklore says, so it is not an empty claim that many folk legends say that precious jade will break after it has protected its owner from disasters.

This is because when a jade reaches a certain level of quality and is worn by its owner for a certain number of years, it naturally becomes a talisman that can ward off disasters.

However, the kind of disaster such an amulet can ward off depends on the effectiveness of the amulet itself.

If the amulet is of low efficacy, it may be able to ward off a little bit of bloodshed after going out, but it may not be effective at all in the event of a car accident.

However, if the efficacy is high enough, it can theoretically save one's life in critical moments.

The main reason why Ye Chen rarely made amulets before was that making them required the consumption of spiritual energy, and at that time his own spiritual energy was already insufficient and difficult to replenish, so he did not dare to waste too much spiritual energy on them.

The only times he had made amulets were when he used the giant clams he had snatched from Yu Jinghai at the auction to make a thunderbolt, a thunderbolt talisman and a string of sea spirit beads that could calm the spirit and replenish the qi.

I kept the thunderbolt, and gave the talisman to Qin Gang, and the string of sea spirit pearls to my wife Xiao Churan.

The giant clam, which was huge and advanced, still had a lot left, and Ye Chen had kept it properly.

Now, with the help of the Peiyuan Dan, his spiritual energy was more than a hundred times stronger than it was back then, so he also took this opportunity to properly refine a few protective talismans, as well as talismans that would be of greater use to him.

Ye Chen first used a portion of the Giant Clams to refine a few medium-level disaster-blocking talismans, with this kind of talisman augmentation, ordinary people could at least be spared from death.
