

Ye Chen 3731

Chapter 3731

However, this was limited to ordinary people.

Not to mention experts with aura like myself, even for the stronger martial artists like Wan Bajun, such amulets would not be of much use.

Ye Chen made ten talismans in one go, intending to auction off the two and give the rest to his wife and friends.

After he finished refining the talisman, Ye Chen was ready to refine a stronger talisman seal for himself.

Although the previous Thunderstorm Order could summon heavenly thunder, if he encountered an expert, I was afraid that it would be difficult to kill the enemy with a single blow like before.

Therefore, Ye Chen planned to upgrade the Thunderstorm Order.

The original Thunderbolt Order was made by combining the 10,000-year Giant Clams and the Lightning Strike Wood, but because Ye Chen had less spiritual energy at the beginning, he had only added a relatively simple layer of talisman seals to it.

Now that Ye Chen's spiritual energy was much stronger, he could have added many more layers of symbolic seals to the thunderbolt decree to multiply its effectiveness.

So, Ye Chen spent a lot of his spiritual energy to superimpose the lightning-inducing symbols in the Thunderbolt Order to ten layers, and also added the wind and rain-inducing symbols, so that after its completion, the Thunderbolt Order could not only induce stronger heavenly thunder, but also call the wind and rain.

Moreover, with the addition of multiple layers of talisman seals, the Thunderbolt Order can be used as strong or as weak as one wishes.

When using it again, Ye Chen can activate only one layer, or multiple layers, or all the symbols according to his needs.

After the new Thunderbolt Decree was completed, it became even smaller and more transparent, somewhat like an ice-grain floating jade, but seemingly more moist than jade, which made Ye Chen love it.

However, he also knew very well that this kind of Thunderstorm Order should not be used indiscriminately in normal times, and it should not be used at full power until it was absolutely necessary, otherwise it would be too much of a commotion and would not end well.

When he thought of the Thunderstorm Order, even if it was just the most basic layer of the talisman seal, it would still be a thunderstorm on the ground, so Ye Chen began to think again whether he should prepare a silent weapon for himself.

He was not a secret agent, nor a special forces soldier, and he did not know how to use a gun, nor did he like to use a gun. When he fought with people, he either used the Thunderbolt Order or just relied on his fists and feet, and when he thought about it, he always felt that there was a shortcoming of a secure means of attack.

Ye Chen could not help but think back to those ninjas he met in Japan, these ninjas and himself were the two opposite extremes.

These ninjas were the polar opposite of himself. He didn't carry any weapons with him, while the Japanese ninjas wanted to have weapons in their throats.

Apart from the useful shuriken, sleeve arrows, blow arrows and hand swords, there were all kinds of long and short blades, and even two daggers stuffed into the tips of their shoes, so they were armed to the teeth.

Of all these weapons, the one that interested Ye Chen the most was the hand sword.

This kind of thing, similar to the flying daggers of the Little Li Flying Daggers, was a short and compact weapon, easy to conceal, and could be used as a surprise when it was struck.

So Ye Chen followed this line of thought and found a very suitable magic weapon for himself, the Soul Penetrating Blade, in the Nine Mysterious Heavenly Scriptures.

The Soul Piercing Blade and the Order of Stunning Thunder were both types of magic weapons.

The Thunderbolt Order uses spiritual energy to trigger the lightning talisman within it to draw down heavenly thunder from the sky, while the Soul Piercing Blade uses spiritual energy to trigger the flying blade talisman within it to turn it into a silent and invisible flying blade.

What Ye Chen valued most was this silent and invisible blade.

The reason why the Thunderbolt Order did not have a high profile was because this thing was too noisy.

To Ye Chen, if he had refined the Soul Penetrating Blade, if he encountered the Four Battle Kings of the Ten Thousand Dragons Hall again, he would not even need to kick a stone, he would be able to take his head from hundreds of metres away by silently pushing the Soul Penetrating Blade in his mind!

Chapter 3732

But in all magic weapons, the strength of their effectiveness is closely related to three aspects.

One of them is the material used to refine the magic weapon.

The better the material, the stronger the magic weapon will be. This is the same as sword making, the better the steel used, the sharper and harder the sword will be.

Secondly, it is the refiner's own ability.

The stronger the aura and the higher the cultivation level, the stronger the magic weapon will be, just like the gap between an ordinary person and a master swordsmith, which is insurmountable.

As for the third of these, it is naturally the strength of the user himself.

All magic weapons are by no means a perpetual motion machine that can be used indefinitely.

One is that the refiner directly injects spiritual energy into the thunderbolt, so that even a person with no cultivation can use it as long as he knows the recipe.

But in this way, how long and how many times it can be used depends entirely on the amount of spiritual energy contained in the Thunderstruck Order.

Like the principle of a bared water gun, the amount of water that can be bared is not determined by who uses it, but by how much water is actually stored in it.

There was another kind, where the refiner used spiritual qi to refine the Thunderstorm Rune into the inside of the Thunderstorm Order, and each time it was used, spiritual qi had to be injected into it in order to stimulate it.

Right now, Ye Chen's body was already quite pure in terms of spiritual energy, so he planned to use the second way to refine the Soul Penetrating Blade.

In this way, this Soul Penetrating Blade could only be used by himself, and no one else could inspire it.

However, the best material Ye Chen had at the moment for refining was the remaining giant clams.

Apart from that, there was no other choice.

So, Ye Chen used some of the remaining giant clams to refine a soul piercing blade for himself.

Ye Chen added ten layers of flying blade talismans to the soul piercing blade, so that the power of the soul piercing blade was relatively more controllable.

After the Soul Piercing Blade was refined, the whole was almost the same length as Xiao Churan's lipstick, and it looked, like a flying blade carved out of a seashell, the whole body was the colourful pearlescent colour of a giant clam, extremely exquisite.

No matter who saw it, they would think it was just a small craft, and no one would ever consider it a weapon.

In order to test how powerful this soul piercing blade really was, Ye Chen drove alone to the Champs Elysees Spa, directly from the mid-mountain villa around to the back, and after going over several mountains, he arrived at a leafy uninhabited valley.

In the middle of this valley, Ye Chen merely inspired a layer of the Flying Blade Talisman, and felt an invisible sharp blade made of aura whistle out from the tip of his finger, instantly cutting off a cypress tree as thick as a face basin in front of him!

As he watched, a dense tree was suddenly cut off diagonally, and then the upper half of the trunk with its dense branches collapsed with a crash.

Ye Chen himself was astonished by the power of the blow, but that was not all!

After cutting the first cypress tree, the blade continued backwards, cutting through three more trees in quick succession, and when it reached the fifth tree, the power of the soul piercing blade lessened, cutting the trunk of this tree in half, before it finally dissipated!

And in front of Ye Chen, four large trees collapsed with a bang, leaving a large area of the dense woods empty in an instant!

Ye Chen looked at the scene in front of him, and then at the harmless giant clamshell knife in his hand, and muttered, "This thing, just one layer is so powerful, if it were ten layers, wouldn't it cut down dozens of big trees in one breath?!"

Ye Chen also wondered what effect the force of cutting down dozens of big trees in one breath would have if it was used on metals and rocks.

So, he immediately sought out a boulder as large as an adult elephant, spaced it out a few dozen metres away, and violently used the Ten Layers Soul Penetrating Blade.

In this instant, he only felt as if thirty percent of the spiritual energy in his body had been drained away at once, followed by an incomparably powerful blast of spiritual energy in front of him!

A moment later, the boulder was detonated like a mountain-opening explosive, and with a loud boom, it completely shattered into countless rubble flying in the sky!

In an instant, the crumbling rocks and dust filled the surroundings, literally blocking the sky!

Ye Chen stood still and endured a shower of debris that lasted for several seconds, each piece of debris carried a great force and cut Ye Chen's clothes into rags!

Fortunately, his body had been strengthened by his aura and a large amount of Spring Return Pills, and was already as strong as steel, or else he would have been smashed by the blow he had just delivered!

After the shower of debris had passed, Ye Chen looked at the original location of the boulder with some dumbfounded eyes, which was still a huge situation before, but now, it was empty.

And the mountain behind the boulder had also been smashed into a big hole about one metre wide and three or four metres deep!

Ye Chen was greatly shocked, but also overjoyed!

He could not help but secretly sigh: "That kid Wan Bajun is really lucky, fortunately I did not think of refining such a soul piercing blade before I went up to Ye Ling Mountain, otherwise if I had given them such a blow on Ye Ling Mountain, I was afraid that I could have directly taken away Wan Bajun, his four battle kings and more than a hundred battle generals in one wave. "

Chapter 3733

Immediately, he also gave up the idea of continuing to try the Ten Layers of Frightening Thunder Order.

With the effect of the ten layers of soul piercing blades just now, the heavenly thunder induced down by the ten layers of frightening thunder order would probably scare the entire Jinling.

With this thought in mind, he hurriedly put away the two spirit talismans and then quickly left the scene of the crime.

When he returned to the Champs-Elysees Spa Villa, Ye Chen changed the clothes that had turned into rotten cloths and asked Chen Zekai to arrange for someone to send him a new outfit before he left the Champs-Elysees and drove back to the city.

On the way, he received a phone call from Hong Wu, who said, "Master Ye, that Smith from America last time, came to me again, saying that he wanted to spend another five million dollars, begging to meet with Wei Liang and you."

"Again?" Ye Chen smiled and said casually, "Don't pay any attention to him, let him go back to wherever he came from."

Hong Wu immediately said, "Okay, then I'll have someone kick him out."

To Ye Chen, meeting Smith for the first time was to whet his appetite, or even the appetite of the entire United States.

Since his appetite had already been whetted, there was naturally no need for him to take care of him himself.

.....

At this moment, Jinling Tianxiang House.

The company has already been eating in the golden box of the Tian Xiang House for two days and four meals.

The four meals, she did not wait for that master Ye who she had met once to appear.

Waiting for two days had not consumed her patience, but her appetite was just a bit unbearable when she ate this kind of full banquet for four days.

In order to keep her figure and to ensure her health, Fei Ke Xin is very conscious of her diet on a regular basis.

Although she is not a vegetarian, she has a very clear control over meat. She rarely eats red meat or raw seafood, and what she usually eats on a regular basis is usually chicken which is lower in calories.

However, in a place like Tian Xiang House, chicken is one of the most unappealing ingredients, so the only thing on the dining table is the soup made from chicken, but this soup is usually used to cook those very expensive ingredients.

For example, shark's fin, abalone and mushroom are some of the most prized ingredients in Chinese cuisine.

But this was too much for Fei Ke Xin to swallow. A few hundred thousand dollars a table for the highest level of the Tian Xiang House banquet was, in her opinion, a large table of poor quality protein, as well as a proper gout package.

She felt that if she continued to eat like this, she would sooner or later get anorexia.

So she greeted the waitress in and asked her, "Hello, could you ask the back room to make me a chicken salad? Just some salad greens and a white cooked chicken breast with a little less salad dressing will do."

The waiter said respectfully, "Sorry ma'am, we don't have chicken salad, we have bluefin tuna with caviar salad, Australian lobster sashimi salad, foie gras and black truffle salad and blowfish sashimi salad, do you want to choose one from these?"

Fei Ke Xin just felt her head was as big as a bucket, the names of these ingredients made her feel sick to her stomach just hearing them.

So, she said helplessly to the waiter, "Forget it, you go and get busy."

After saying that, she stood up and said to Chen Yinshan and the others, "You guys take your time, I'll go out and see if there are any local snacks in Jinling nearby."

Chen Yinshan said, "Miss, I'll accompany you!"

Several female bodyguards also stood up and said in unison, "Miss, we will accompany you!"

Fei Ke Xin waved her hand and said, "If we all leave before this table is even touched, how can we come back tomorrow? The people here will definitely think it's strange if they see it."

After saying that, Fei Ke Xin added, "You don't need to follow me, I'll just go out on my own, Jinling is so safe and secure, it will be fine."

The others knew Fei Ke Xin's temperament of saying one thing and when they heard this, they didn't say much and could only agree to it.

Fei Ke Xin left the box and walked all the way to the entrance of the Tian Xiang House, where she ran into some waiters stopping an American.

The American was begging and pleading, "Please, please tell Master Wu for me, I came all the way from America with full sincerity. If not, even if I can get a meeting with Mr. Ye from last time!"

When Fei Ke Xin heard the words Mr. Ye, she couldn't help but frown slightly, muttering in her heart, "Mr. Ye, I wonder if there's any relation to that Master Ye."

"This man came all the way from the United States to ask for 10 million dollars to beg to meet someone, this is also really unbelievable"

"Even to meet Warren Buffet, it wouldn't take as much as US\$10 million, that Mr. Wei and Mr. Ye, who the hell are they?"

As she was thinking, she couldn't help but have an extra look at Smith.

In this instant, she suddenly felt that Smith looked somewhat familiar.

Smith was, after all, the head of the FDA, the overall head of food and drug safety in the United States, and was indeed well-known in the United States, so Fei Ke Xin quickly recognised him.

Fei Ke Xin instantly guessed his intention of coming to China and thought, "Since he is the head of the FDA, he must be here for the Jiu Xuan Zhen Zhen Pills that have become a big hit recently."

Thinking of this, she couldn't help but mutter in her heart, "Jiu Xuan Zai Zai Pills Returning Spring Pills Master Ye Mr. Ye could there be any connection between this?"

Chapter 3734

At this moment, the desperate Smith, still begging the waiter of Tian Xiang House, did not notice that Fei Ke Xin was standing not far away looking at him.

All Smith wanted to do was to meet the people from Jiu Xuan Pharmaceuticals and find a way to get some Jiu Xuan Rejuvenation Pills, otherwise, his son would soon be out of medicine.

However, the attendant of the Heavenly Fragrance House did not relent at all, and even put out the word, saying, "This gentleman, if you continue to be so nonsensical, we will have to call the police to deal with you!"

Seeing the other party's firm attitude, Smith knew that it was hopeless to stalk here today, so he had no choice but to say, "Please tell Mr. Hong that I'll go back to the hotel today and come back to pay him a visit tomorrow"

After saying that, Smith turned around ashely and left the Tian Xiang House on foot.

At this moment, Smith's heart was in turmoil, and instead of immediately taking a taxi back to the hotel where he was staying, he walked slowly along the road, in the direction of the hotel.

Smith was in no mood to see Hong Wu, let alone Wei Liang and Ye Chen, and was as lost as a person's soul.

The executives from the CIA were still waiting for his news at the hotel, but if he couldn't get a meeting with Jiu Xuan Pharmaceuticals, then the CIA matter would be aborted and the two of them would have to return to Washington in disgrace.

Just when he was at a loss, he suddenly heard someone say behind him, "Mr. Smith!"

When Smith heard this, he subconsciously looked back and saw a beautiful Oriental woman, standing behind him.

Smith recognised her at once and said in astonishment, "Miss Fei, what are you doing here?"

Smith naturally knew Fei Kexin.

Although the Fei family acted in a very low-key manner in the United States, like many Jewish families, Fei's grandfather, Fei Jianzhong, had invested wildly in research and development teams in the medical and pharmaceutical fields over the years, and was extremely famous in the pharmaceutical system.

There are many wealthy entrepreneurs in the US, but very few are able to invest as much money in the medical and pharmaceutical sector as Fei Jianzhong.

Therefore, Fei Jianzhong has a very oriental nickname in the field of medicine, the God of Wealth.

He is so well known in the pharmaceutical field that almost no one knows about him.

And Smith happens to be the head of the pharmaceutical field in the whole of the United States, so he knows a lot of the projects Fei Jianzhong has invested in, and has even had a lot of contact with Fei Jianzhong, and has met Fei Kexin several times.

Now, suddenly meeting Fei Kexin in Jinling, this made Smith extraordinarily surprised, not expecting that the eldest lady of a several hundred billion dollar family like Fei Kexin would come to such a place.

Fei Ke Xin smiled and said to Smith, "I came to Jinling to do some business, I didn't expect Mr. Smith to be here, I wonder what business Mr. Smith came to Jinling for?"

Smith did not cover up and said frankly, "I am here in China to meet the head of Jiu Xuan Pharmaceuticals and talk about the introduction of medicines."

Fei Ke Xin was surprised and asked, "You want to meet the head of Jiu Xuan Pharmaceuticals, why are you looking for that Hong Wu? If my information is correct, Hong Wu is just a leader in the underground world, so he should have nothing to do with Jiu Xuan Pharmaceuticals, right?"

Smith said truthfully, "Miss Fei does not know, Wei Liang of Jiu Xuan Pharmaceuticals once brought the Jiu Xuan Rejuvenation Pills to the United States and took the initiative to seek me out. A PR fee of five million dollars is charged for one meeting."

Chapter 3735

Fei Ke Xin thought back to the conversation she had just heard and asked him, "I see that you were blocked by Hong Wu's people, could it be that the other party is unwilling to see you?"

"Yes....." Smith let out a long sigh and said, "Hong Wu said that the people from Jiu Xuan Pharmaceutical did not want to meet with me."

Fei Ke Xin nodded and asked him again, "Right Mr. Smith, just now you said you wanted to meet a Mr. Ye, can you ask, who is this Mr. Ye again?"

Smith said, "Mr. Ye is the head of operations of Jiu Xuan Pharmaceutical, he is the one who makes all the decisions regarding the sales of medicines, last time he was the one who gave us twenty boxes of Jiu Xuan Zai Zai Pills."

Fei Ke Xin asked him again, "This Mr. Ye you are talking about, what is his name?"

Smith thought for a moment and said with a frown, "I've only met him once, I don't think I mentioned his name last time we met, and when Wei Liang introduced him to me, he just said his name was Mr. Ye."

Fei Ke Xin asked again, "What does this Mr. Ye look like? How old is he?"

Smith pondered for a moment and spoke, "He's probably in his twenties, taller and has good looks, but if you ask me to describe him specifically, I can't quite remember, after all, I've only met him once."

Speaking of this, Smith remembered something and added, "By the way, this man was very strong, very young, but the sense of oppression was very strong when you were talking about things with him."

Fei Ke Xin nodded, and was basically sure in her heart that this Mr. Ye was, in all probability, the same Master Ye that she had met.

Thinking of this, she asked Smith again, “Mr. Smith, are you here this time just for the Jiu Xuan Zai Zai Pills?”

Smith did not know what Fei Ke Xin meant, but thinking that the matter of the CIA must not be exposed, he nodded and said, “Yes, I am here just for the Jiu Xuan Zai Zai Pills, why does Miss Fei ask that?”

Fei Ke Xin paused slightly for a moment and asked him with a serious expression, “Mr. Smith, have you ever heard of the Spring Return Pill?”

Smith shook his head, surprised, and asked, “What is the Spring Return Pill? Is it also a medicine?”

“Sort of.” Fei Ke Xin said, “Echoing Spring Pill, it is said that if you take one, you can get rid of a hundred diseases, and even prolong one’s life for ten years, or even twenty years.”

“This” Smith said with his jaw dropped, “This kind of medicine” shouldn’t be able to exist”

Fei Ke Xin smiled faintly and said frankly, “Whether it really exists, I am not sure now, but there will be an auction in Jinling in a few days, when the Spring Return Pill will be the grand finale.”

Smith said awkwardly, “Miss Fei, if I remember correctly, you are a senior student of Stanford University, right? I heard that you entered Stanford at the age of 15 and got your PhD at the age of 21, is that correct?”

Fei Kexin nodded and smiled to herself, “Mr Smith, you’re trying to say that I, as a Stanford graduate, shouldn’t believe in such things that defy scientific logic, right?”

“Yes” Smith said seriously, “I don’t believe that there is any medicine in this world that can really do away with all diseases, let alone any medicine in this world that can prolong one’s life for ten or twenty years, if such a thing really existed. I’m afraid the whole world would go into a frenzy.”

Fei Ke Xin said helplessly, “To be honest, I don’t really believe in it either, but there are many top tycoons who are convinced of it, including my grandfather.”

But even if it did work, I’m afraid the outside world wouldn’t know about it, and even if they did, they wouldn’t believe it if they heard about it, just like you. ”

Smith was silent for a moment and said, “Miss Fei, how can I participate in this auction? Can I go and see it?”

“There’s no chance.” Fei Ke Xin said seriously, “The registration has already closed, if Mr. Smith wants to attend, he should wait for the next one!”

Chapter 3736

Smith was also piqued by Fei Kexin’s words and asked her, “Miss Fei, which auction house is holding this auction? I can try to find someone to run it and see if there is any way to add a place.”

When Smith said this, he didn't think there was anything wrong with it, he was after all the head of the FDA, a standard upper class, elite person, he knew many people from all walks of life, and he could find some connections with several big internationally renowned auction houses.

However, when Fei Ke Xin heard this, she could not help but smile slightly and said seriously, "Mr. Smith, this auction for the Spring Return Pill is not ordinary, it is hosted by a local antique company in Jinling, the threshold for registration is extremely high, only those with assets over ten billion RMB are eligible to register, I reckon the odds are that your connections will not be able to reach here. "

Smith was stunned and blurted out, "Ten billion RMB?! That's too much, isn't it?!"

Fei Kexin shook her head, "It's not exaggerated at all, and there are so many applicants that if they were only worth ten billion, they wouldn't stand a chance of getting the final entry ticket."

Smith said with a shocked expression, "So many top tycoons believe in this miracle medicine that can cure all diseases and even increase their life expectancy by more than ten years?"

Fei Ke Xin nodded slightly and said, "Yes, to use an old Chinese saying, it's better to believe in it than not to believe in it."

Smith smiled helplessly and said, "This kind of thing feels like it must be a well-planned scam."

Fei Kexin, however, shrugged her shoulders and laughed, "I was a bit sceptical before, but now I am more and more convinced, especially after meeting Mr Smith."

Smith asked in confusion, "What does Miss Fei mean by that?"

Fei Kexin smiled blandly, "It's not much, it's just that I feel that many of the veins in my head have become clearer after meeting you."

What Fei Ke Xin did not say was that she felt more and more that that Master Ye, and the Mr. Ye that Smith had spoken of, was a very crucial figure.

In a place like Jinling, it was already very bizarre that two unbelievable medicines, the Jiu Xuan Reclamation Pill as well as the Spring Return Pill, could appear at the same time.

It would be even more incredible if the clues behind the two medicines pointed to two different people.

But if the clues behind both medicines pointed to the same person, then this would make a lot more sense.

Thinking about this, the clues in Fei Ke Xin's mind became clearer and clearer: Song Group and Jiu Xuan Pharmaceutical, there must be a common connection behind these two companies as well.

She had already asked Chen Ying Shan to gather all the information on the Song Group, and it seemed that now, another Jiu Xuan Pharmaceuticals had to be added to the list.

So, she said to Smith, "Mr Smith, I have some business to attend to, let's talk some other time."

Smith nodded and said respectfully, "Okay Miss Fei, please say hello to your grandfather for me."

.....

After saying goodbye to Smith, Fei Ke Xin immediately made a phone call to Chen Ying Shan, asking her to immediately mobilize all the resources she could and collect all relevant clues about Jiu Xuan Pharmaceutical at any cost.

That night, Chen Ying Shan sorted out all the information she had gathered and presented it to Fei Ke Xin.

Fei Ke Xin stayed up all night to read all the information on the two enterprises, Song Group and Jiu Xuan Pharmaceutical, and said with a frown, "Song Wanting of Song Group, who lost her parents at an early age, is not high up in the Song family, and has an elder uncle and a cousin above her"

"Before that, Song's group's over hundred billion dollars of assets, Song Wanting was in charge of, but a small Jiqing Hall"

"Before Jiqing Hall held the Spring Return Pill auction, the valuation of the entire Jiqing Hall was only a few hundred million, which did not even account for one percent of the Song Group, thus showing that Song Wanting was not valued at all in the Song family before."

"But even so, Song Wanting still overpowered them both and became the successor of the Song Group at a young age"

This proves that Song Wanting has not only overpowered the two of them, but has even completely squeezed out the two of them"

Chapter 3737

Speaking of this, Fei Ke Xin couldn't help but sigh, "I'm curious, how on earth did a young woman who lost her parents long ago and was somewhat on the fringes of her family manage to do all this"

Chen Ying Shan said, "I reckon that this Song Wanting, should be one of those strong women with extraordinary means."

Fei Ke Xin smacked her lips and said, "If that's true, then this woman is not an ordinary strong woman, otherwise, how could she have won the battle for the hundred billion family fortune?"

Saying that, Fei Ke Xin added, "There's also Jiu Xuan Pharmaceutical! This company's predecessor was Wei Pharmaceutical in Jinling, and Kobayashi Pharmaceutical in Japan, these two companies, the difference in scale is huge, the highest market value that can be traced for Wei Pharmaceutical is only a few billion RMB, but Kobayashi Pharmaceutical's market value at its peak reached hundreds of billions of RMB, a hundred times that of Wei Pharmaceutical."

"But such two pharmaceutical companies from different countries, of different sizes and with different focuses, have completed a merger! And, after the merger, both of them are only minority shareholders, while the majority shareholder is a very mysterious offshore company.

"These two pharmaceutical companies, both of which are family businesses, the founder of Wei Pharmaceutical is named Wei Yongzheng and the founder of Kobayashi Pharmaceutical is named Kobayashi Masao."

“And Wei Liang, the current general manager of Jiu Xuan Pharmaceuticals, is the illegitimate son of Wei Yongzheng, the founder of Wei’s Pharmaceuticals, who previously didn’t even have a proper position at Wei’s Pharmaceuticals, but was just a driver and small assistant to his half-brother Wei Changming.”

“This shows that this Wei Liang’s situation in the Wei family is much worse than Song Wanting’s previous situation in the Song family! It’s no longer a matter of him being unappreciated in the Wei family, he’s even receiving intense suppression and ostracism.”

“However, it was such a much-oppressed bastard son who managed to turn over a new leaf and successfully inherit Wei Pharmaceutical last year!”

“Moreover, after Wei Liang inherited Wei Pharmaceutical, Wei Pharmaceutical could not find any information about Wei Yongzheng or Wei Liang’s elder brother Wei Changming!”

“If I’m right, this father and son have also been kicked out.”

“Song Wanting has only kicked out her eldest uncle and cousin, her grandfather Song Jimo is still alive after all, so taking a step back, if her grandfather fully supports her, then it’s not impossible for her to inherit the family headship.”

“But this Wei Liang, however, kicked out his father and half-brother, who owned Wei Pharmaceuticals, so I wonder how he, an illegitimate son who could only serve as a servant to his brother in the family, managed to get his father to voluntarily step aside and give way? It’s illogical!”

Hearing this, Chen Ying Shan could not help but exclaim, “Miss, do you think that behind both of them, there could be a noble person helping them?”

Fei Ke Xin said with conviction, “There must be!”

After saying that, she added, “After Wei Liang inherited Wei Pharmaceutical, he took the initiative to merge Wei Pharmaceutical into Jiu Xuan Pharmaceutical, but Jiu Xuan Pharmaceutical is only a shell that has just been registered for less than a year, that’s just as well, but Xiao Lin Pharmaceutical, which has a market value of over 100 billion RMB, also took the initiative to merge into Jiu Xuan Pharmaceutical, this is even more unbelievable!”

Then, she flipped out the information of Kobayashi Pharmaceuticals, pointed to the picture of Masao Kobayashi on it and spoke, “This person, is the founder of Kobayashi Pharmaceuticals, and also the former president of Kobayashi Pharmaceuticals Co Ltd, Masao Kobayashi.”

“But this Kobayashi Masao died of poisoning some time ago, and it was once rumoured that Kobayashi Ichiro had killed his father, and his brother Kobayashi Jiro even offered a huge reward to kill Kobayashi Ichiro to avenge his father’s death.”

“However, Kobayashi Jiro soon disappeared and Kobayashi Ichiro regained control of Kobayashi Pharmaceuticals and then merged Kobayashi Pharmaceuticals into Jiu Xuan Pharmaceuticals, and Kobayashi Ichiro even gave up 90% of Kobayashi Pharmaceuticals’ shares for this!”

Chen Ying Shan was puzzled and said, “When I saw this, I also thought it was too unbelievable, I just couldn’t figure out who would so simply give up 90% of the several hundred billion family assets?”

Chapter 3738

Fei Ke Xin grouped together a large pile of information in front of her and sighed, "I really didn't expect that there would be so many meticulous things going on in tiny Jinling"

After saying that, she added, "Whether it's Song Wanting, Wei Liang, or that Kobayashi Ichiro, behind them, there must be someone with a great deal of power!"

Chen Ying Shan was busy asking, "Miss, do you think that the person behind them is also that Master Ye?"

Fei Ke Xin nodded and said calmly, "I feel that in these few incidents, the traits of the mysterious person behind them all highly overlap, and it is likely that it is the same person."

Saying that, she picked up Wei's Pharmaceutical's initial financial statements and spoke, "Look, Wei's Pharmaceutical used to be a medium-sized pharmaceutical company, and the market was also all within China, their financial statements could tell that the drugs they sold were mostly some thin margin ones with very low profit margins."

After a pause, Fei Ke Xin continued, "Grandpa has invested a lot of money in the pharmaceutical field in the past few years, and I have done some research on this field, if a pharmaceutical company has a very low profit margin, the biggest possibility is that they don't have any high-end products that are worthy of their name, which is the case with Wei's Pharmaceutical."

Chen Yinshan said with surprise, "Miss, if that's the case, Wei's Pharmaceutical doesn't have the ability to develop the Jiu Xuan Zai Zai Pill at all! I'm afraid that even the world's top pharmaceutical companies would find it difficult to develop a medicine like the Jiu Xuan Zai Zai Pill, let alone a mere Wei's Pharmaceutical."

"Yes." Fei Ke Xin nodded appreciatively and said, "This is the key, Wei's Pharmaceutical does not have the ability to develop the Jiu Xuan Zai Zai Pill, not to mention the Jiu Xuan Zai Pill, even the Jiu Xuan Stomach Pill, it is impossible to develop it, I have used the Jiu Xuan Stomach Pill, it is definitely the best stomach medicine on the market."

Chen Ying Shan was busy asking, "Then the Jiu Xuan Stomach San and Jiu Xuan Zai Zai Pills, could they be the technology of Xiao Lin Pharmaceutical?"

"It's not likely either." Fei Ke Xin waved her hand and said, "Xiao Lin Pharmaceutical used to have a fist product called Xiao Lin Stomach Pill, which was positioned the same as Jiu Xuan Stomach Pill, but the product power was more than one grade different. If Xiao Lin Pharmaceutical had the ability to do so, why would it have been acquired by Jiu Xuan Pharmaceutical? With the product power of Jiu Xuan Stomach San, as long as Jiu Xuan Stomach San goes on sale and is fully distributed, Xiao Lin Stomach San won't be able to sell a single pack."

Chen Ying Shan pursed her lips and then said, "In that case, Jiu Xuan Pharmaceutical's technology also comes from the mysterious people behind Wei's Pharmaceutical and Xiao Lin Pharmaceutical"

Fei Ke Xin nodded, her shell teeth lightly biting her thin lower lip and smacking her lips before saying, "There was a mysterious person behind Song Wanting's inheritance of the Song family, the same behind Wei Liang's illegitimate son turning over as master, there was also a mysterious person behind Jiu Xuan

Pharmaceuticals providing technical support, and there was still a mysterious person behind Song Wanting's Jiqing Hall being able to host the auction for the Spring Return Pill."

"So many mysterious people, all inextricably linked in my opinion!"

Chapter 3739

"Moreover, whether it's the Jiu Xuan Stomach Pill, or the Jiu Xuan Rejuvenation Pill, or the Spring Return Pill, these three medicines are all ancient Chinese medicines, and their medicinal effects are all extraordinary in terms of their respective fields, so I think that these three medicines might have come from the same person as well."

Remembering something, Chen Ying Shan busily said, "Right Miss, you asked me earlier to look for the top famous doctors in Jinling, and after mapping down my side, I found that there are at least thousands of Chinese doctors in Jinling."

Fei Ke Xin asked in surprise, "So many?"

"Yes." Chen Ying Shan said, "Of these thousands, 40% work in public hospitals, 30% work in private hospitals and clinics, and another 30% run their own medical schools, the most famous of these is an old Chinese doctor named Shi Tian Qi, he runs a Chinese medical school called Jishi Tang in Jinling, and business is booming, rumour has it that he once cured a paraplegic patient! "

"Shi Tianqi?" Fei Ke Xin seemed to catch something and muttered with a frown, "I seem to have heard of this person, there was a Chinese medicine summit in Nanhai some years ago, my grandfather was very interested and even flew over to attend it once, although I didn't go, I read some written materials of the summit, there was an introduction of this Shi Tian Qi in it, this person is indeed very famous in the field of Chinese medicine. "

Chen Ying Shan was busy asking, "Miss, then do you think that the mysterious person we just analysed, could it be him?!"

Fei Ke Xin frowned and couldn't help but mutter, "I don't think so"

Chen Yinshan said, "But looking at it, it seems like he is the most likely, after all, he is a top Chinese doctor himself, paraplegia is also a difficult problem that cannot be treated within Western medicine, but in his case, he can cure it, such a person, developing Jiu Xuan Stomach Pill, Jiu Xuan Recycle Pill or Spring Return Pill, it is not impossible."

Fei Ke Xin nodded and said, "At the moment, it does seem that Shi Tian Qi is the most likely, but for some reason, I always feel that these things are more like the work of that Master Ye."

Chen Yingshan had a different opinion, saying, "Miss, aren't Chinese doctors all about experience and seniority? Shi Tianqi is over eighty years old and has been practicing for over sixty years, so he is definitely considered highly respected in the field of Chinese medicine, and it is reasonable for such a person to develop good Chinese medicine.

Fei Ke Xin shook her head and said, "Shi Tian Qi's background of practicing medicine for so many years is indeed excellent, but I always feel that a bit of demonic aura is missing."

"Demonic Qi?" Chen Ying Shan asked in surprise, "Miss, what do you mean by demonic aura"

Fei Ke Xin said, "It's what I said before, the demonic aura of 'when things go wrong, there must be a demon', all of Shi Tianqi's experiences are watery and natural, that is, the experiences of a Chinese medicine nationalist, in other words, there are at least ten other Chinese medicine nationalists with similar resumes as him that can be found in the country, so why haven't the others In other words, there are at least ten other Chinese medicine practitioners in China with a similar resume.

Chen Yinshan said, "Then Shi Tianqi's healing of a paraplegic should be considered as the demonic qi you are talking about, right?"

"Right." Fei Ke Xin nodded, "It counts, but it doesn't give me the impression that it's enough, and frankly speaking, although Chinese medicine is a very profound discipline, there are countless charlatans in this line of work, as well as those who are fishing for fame, and there are often Chinese doctors who claim to have cured various terminal illnesses, but it turns out that the majority of them are all lies."

I want to know the details of the incident, including when it happened, where it happened, who the patient was, and whether the patient had any public hospital records, and if so, find a way to retrieve all of his medical records, including images, from the public hospital! "

Chen Ying Shan hurriedly agreed and said, "Yes Miss, I'll get right on it."

Fei Ke Xin nodded slightly and said with a serious expression, "If the matter of Shi Tian Qi curing a paraplegic patient is true, then this matter, most likely, is a breakthrough!"

Chapter 3740

After Xiao Changkun was injured by the men instructed by Gao Junwei, he was first taken to the Jinling People's Hospital by ambulance.

Shi Tianqi was also invited by Ye Chen to come to the Jinling People's Hospital personally and feed Xiao Changkun half a blood dispersing heart saving pill.

Therefore, all the medical records of Xiao Changkun's injuries until he recovered were kept in the large medical record system of the Jinling People's Hospital.

Over the years, with the development of computers and the Internet, almost all hospitals have started to adopt electronic medical records, which not only save all the patient's information, the results of every examination, the medical records filled in by the doctor and the diagnostic certificates, but, more importantly, also save all the patient's medical images in, so that the doctor can easily access them at any time.

However, this kind of large medical record system, while convenient, also leaves a huge hidden danger, that is, information security cannot be absolutely guaranteed.

For a powerful family like the Fei family, they have all sorts of special teams on hand at all times, and this includes hacker teams.

Therefore, Chen Ying Shan immediately had people hack the major medical record systems of several public hospitals in Jinling overnight, and then under Fei Ke Xin's instructions, used the elimination method to find usable clues.

First, Fei Kexin had the hackers extract all the information on patients diagnosed with paraplegia.

Then, Fei had the hacker sift through the cases of these paraplegics to see if there were any records of healing and discharge.

Soon, a copy of the results was delivered to Fei Ke Xin.

In recent years, a total of 1,300 patients were diagnosed with paraplegia in Jinling, of which a dozen or so were discharged from hospital after recovery.

There was only one person who was truly cured and discharged from the hospital, and that person was Ye Chen's father-in-law, Xiao Changkun.

Fei Kexin looked at Xiao Changkun's hospital records and said in shock, "This Xiao Changkun was admitted to the hospital last summer because of a car accident, and his admission CT results showed that he had a complete spinal cord injury, which is clinically irreversible paraplegia, but his CT results that afternoon showed that he had completely recovered from his spinal cord injury."

Chen Yinshan took a look and exclaimed, "Miss, the time when this Xiao Changkun was hospitalized was very close to the time when Shi Tianqi came to Jinling to open the Ji Shi Tang, there was at most a difference of half a month or so before and after! This person must have been cured by Shi Tianqi!"

Fei Ke Xin nodded gently and said, "To completely cure a spinal cord injury in a day's time, this can't be described as medical skill, it seems that this Shi Tian Qi is really very powerful! The previous speculation might really be my wrong guess"

After saying that, she immediately said to Chen Ying Shan, "Shan Shan, no matter what, get me a number for Shi Tian Qi tomorrow, I want to go to Ji Shi Tang to meet him!"

.....

Early the next morning.

Chen Ying Shan bought a number for Ji Shi Tang from a patient at a cost of 50,000 yuan.

Shi Tianqi was getting older and could only see a few patients a day nowadays, so his number was always very much in demand.

Afterwards, Fei Ke Xin, accompanied by Chen Ying Shan, went to the waiting area inside the Jishi Tang.

This morning was Shi Tianqi's consultation, so his granddaughter Chen Xiaozhao acted as his assistant, helping out and learning more about consultation.

When she first met Fei Kexin, Chen Xiaozhao was amazed by her appearance. Although she had always been very confident in her own appearance, she was still somewhat ashamed of herself in front of Fei Kexin.

After checking the registration voucher in Fei's hand, she seated her in the waiting area and said, "Please wait for a moment, I will come to inform you when it is your turn."
