

Ye Chen 4011

Chapter 4011

This short sentence of Ye Chen's stunned Claudia completely.

She subconsciously covered the scar on her face and asked offhandedly, "How did you see that?!"

Ye Chen blandly said, "Although your scar is made very realistic, but that is only a visual effect, if it is a real scar, it is still a part of your body tissue, in other words, a real scar is alive, a fake scar made more realistic is only a material."

Ye Chen's explanation made Claudia somewhat unable to understand.

She could understand that the scars were fake, but she did not understand how Ye Chen could see that.

To Ye Chen, the perception of aura far surpa*sed that of vision.

The first time he saw Claudia, he realised that Claudia's scar was completely devoid of any semblance of life.

It was as if the most realistic imitation flower could only make an identical appearance, but not the life of the real flower itself.

From this point alone, Ye Chen could tell that the scar on her face must be a fake.

It was also at that moment that he concluded that there was something wrong with Claudia.

Only, he had yet to understand what Claudia's intention was in going to all the trouble to call herself to Canada.

So he pressed on, "Claudia, I want you to tell me openly and honestly what danger is she in, Fanny?"

Claudia hesitated for a moment and spoke, "Sister Fanny is now being targeted by the Italian crime syndicate in Vancouver, if you don't take her away from Canada, Guo Lei and the others will soon make a move on Sister Fanny."

Ye Chen frowned and asked, "Xiao Fen is just a Chinese girl who runs a convenience store, she doesn't have much background and doesn't have much property, why is the crime syndicate targeting her? Is it because they want to kidnap her to extort ransom?"

"No" Claudia said with unmistakable seriousness, "They are far more evil than kidnapping for ransom"

At this point, Claudia added: "In the grey areas of Europe and America, the most profitable industries are drug bays and women, and this is especially true of women, because in this underground world, women are a zero-cost gold mine;"

“They kidnap beautiful young women and smuggle them out of the country to be sold in Europe or the United States. The best looking and clean women are usually selected and packaged and sent to auctions in the underworld, where they can fetch over a million dollars or more.”

“Those women who are of average quality, or no longer eligible for auction, are sold to the Algerian gangs operating in Europe, where they are usually coerced to keep engaging in that dirty flesh trade for the rest of their lives, until they lose their value and are killed and discarded”

“Originally, the Italian group also did this kind of harm, and then after my father took charge, it was stopped altogether on my mother’s advice”

“But in recent years, the Italian group in Vancouver has not had too good a time, Asian forces have been rising very fast in Canada over the years, the Chinese group, the Vietnamese group and the Korean group have been expanding, and the Americans are paying more and more attention to this place, the Italian group’s territory has been shrinking, so all revenues are declining sharply”

“Guo Lei always suggested my father to cooperate with several large groups in Europe and America in the population business, kidnapping girls from Canada, especially kidnapping tourists, new immigrants or stowaways, and then smuggling them out of the country and handing them over to those large groups in Europe and America to cooperate in distribution, with almost no cost, and earning at least hundreds of millions of dollars a year, but my father never agreed, and it was because of this that he had a grudge against them;”

“After my father was killed, they restarted this business, and recently there have been frequent cases of young women disappearing in and around Vancouver, in just two months, there have been more than twenty cases, but more than half of these are stowaways, so the Vancouver police also turned a blind eye.”

When Ye Chen heard this, he couldn’t help but be blue in the face.

He did not doubt the truthfulness of what Claudia said, because this world was never as peaceful and kind as ordinary people seemed to be.

Don’t look at the highly developed economy in Europe and America, but the underworld in Europe and America was the dirtiest place in this world, bar none.

And Claudia, herself the daughter of a former leader of the Mafia, must have heard something about these things.

What angered him most was the fact that these gang members, who had hands and feet, were making huge profits from selling women, which was really outrageous.

Chapter 4012

So, he forced down his anger and spoke up to ask Claudia, “Then how do you know that Guo Lei is going to lay hands on Fanny?”

Claudia took out a lipstick-like torch from her pocket and spoke, “This is a specific wavelength of violet light torch, which is not quite the same as the wavelength of violet light used for normal money inspection, and it is not very good to buy on the market, and there is a special potion that goes with this

violet light torch, the potion will only show up under this wavelength of violet light, and they will use this potion, after they have selected their target, to doorway of the chosen target's home and draw a specific mark."

"This is a rule set by several gangs to avoid competing with each other, they limit the maximum number of markers of the same gang at the same time, if there is a certain gang's marker on the door of a certain house and the number of markers is within the gang's limit, then it proves that the gang has chosen this house as a target and is choosing the opportunity to strike, then other gangs can No other gangs are allowed to hit this house."

Speaking here, Claudia looked at Ye Chen and spoke, "The day I sent you the text message was the first time I found the markings left by Guo Lei and the others in front of Auntie Li's house."

Ye Chen asked again, "Then why did you contact me?"

Claudia explained, "Because Sister Fanny talks about you most often, and in her eyes, you are simply omnipotent, so I secretly used her phone to find out your phone number and wanted to ask you to help her."

Ye Chen nodded gently and asked, "Have you ever told Little Fen about this?"

"No." Claudia shook her head and said seriously, "Guo Lei's people are already on her, the reason why they haven't made a move yet is because they haven't found the right time yet, but if she leaves Vancouver by herself at this time, it will only speed up the other side's movements, so I have been following Sister Fanny around for the past two days, and used an anonymous phone to report a few false alarms at night to attract police patrol cars, which kind of barely delayed the other side for a few days, but this is not a long-term solution after all."

Ye Chen frowned, recalling Guo Lei's words to Li Xiaofen just now, and asked, "According to you, Guo Lei is going to make a move on Xiaofen tonight?"

Claudia said, "Guo Lei has that kind of interest in Sister Fanny, he has been trying to convince Sister Fanny to accept his pursuit, he has been coming over once or twice a day these days, but Sister Fanny has never said yes, from what I know about him, his patience should be almost exhausted."

After listening to this, Ye Chen nodded slightly, it seemed that Li Xiaofen's good deeds towards Claudia had still reaped good results for her, if Claudia hadn't tried to protect her, she was afraid that she wouldn't even be able to wait for herself to come over and would have been kidnapped by the other party.

Thinking of this, Ye Chen looked at Claudia and said seriously, "Thank you, Claudia, if it wasn't for you, Little Fen might have met with misfortune."

Claudia said seriously, "If it wasn't for Auntie Li and Sister Fanny taking me in, I'm afraid I would have been living in nowhere"

Ye Chen looked at the fake scars on her face and opened his mouth to ask, "The reason you disguised yourself as if you had been burned should also be because you were worried about being targeted by them, right?"

“Yes” Claudia nodded and said, “After all, Guo Lei and his family are not the only ones doing this kind of thing in Vancouver, there are several other gangs doing the same business, I can be sure that Guo Lei and his family will not do anything to me, but there is no way to ensure that the other gangs will not make a move against me, so disguising myself as this is much safer, after all, no one will be interested in a woman with half of her face ‘badly burned’”

Saying that, she said to Ye Chen with some anxiety, “Mr. Ye, while it’s still dark, why don’t you take Sister Fanny directly to the airport! As long as you take her out of Canada, Guo Lei and the others won’t be able to do anything to her!”

Ye Chen shook his head with a cold smile and asked her, “How many people does this Italian group have?”

Claudia said, “There are very many of them, at least seven or eight hundred, you can’t fight them alone”

Ye Chen grunted and said indifferently, “Seven or eight hundred is a little less, but it’s better than nothing!”

Chapter 4013

Thinking that Ye Chen had not understood her words, Claudia hastily repeated them again and said offhandedly, “Mr. Ye, what I said was that there were at least seven or eight hundred of them, and this is still the most conservative estimate, if we include some of those with nepotism, it is possible to have more than a thousand”

Ye Chen nodded and said, “If we can get a thousand people together, we can still be more or less useful.”

Claudia was busy saying, “Mr. Ye, you alone will definitely not be able to deal with them and they will more or less restrain themselves during the day, if you take Sister Fanny away, they should not dare to mess around, as long as they get to the airport, they will be able to escape, if they really wait until night, then they will not be able to get away even if they want to”

Ye Chen smiled slightly and said casually, “It’s fine, I didn’t want to take her away, it’s easy to go, but it doesn’t make sense, why should you have to leave your family and run away when there are bad people near your home? This is not the way we Chinese act, our style of acting is that if people do not offend me, I will not offend them, if they offend me, I will offend them.”

Claudia felt like her brain was running short.

The reason she had told all her deepest secrets was to persuade Ye Chen to hurry up and take Li Xiaofen away.

Although Guo Lei’s methods were ruthless, they would have no use if they left Canada.

But how could she have imagined that instead of listening to her advice, Ye Chen would have the appearance of fighting with them.

So she said with an eager look on her face, “Mr. Ye, I understand what you said, but in this world, sometimes there is no reasoning, there are so many of them and they are ruthless, how can you protect Sister Fanny alone?”

Ye Chen said lightly, “Don’t worry, Xiao Fen is my sister, I will protect her, moreover, this convenience store is also her heart and soul, I, as a brother, will naturally protect it for her, as for the hundreds and thousands of Italian groups you mentioned, I will also get rid of them all, they are like a group of parasites, disgusting, a little bit disgusting, just get rid of them all. They’re like a bunch of parasites.

Claudia’s jaw dropped as she listened.

She couldn’t figure out what kind of courage Ye Chen had to come all the way to Canada alone to say such a dismissive statement.

She could not understand how Ye Chen could have the courage to say such a statement when these gangs had been a cancer in Canada and even in Europe and America for hundreds of years and no one had ever been able to eradicate them.

When Ye Chen saw that Claudia was a bit stunned all of a sudden, he opened his mouth and asked her, “Claudia, what are your plans for the future?”

“Me?” Claudia was slightly stunned and hesitated for a moment before she said awkwardly, “I don’t know if I have the chance to avenge my parents and my two younger brothers, then I’ll change to a place where no one knows me and continue my studies.”

Ye Chen asked her, “You haven’t thought about following in your father’s footsteps?”

Claudia asked in surprise, “You mean taking over that Italian group?”

“Yes.” Ye Chen nodded and said, “Have you ever thought about it?”

“No.....” Claudia shook her head and said seriously, “I don’t want to have anything more to do with this group of trash in my life except for revenge.....”

Ye Chen smiled slightly, “Then I have nothing to worry about.”

After saying that, Ye Chen asked again, “By the way, what time of day does this gang usually strike?”

Claudia had not yet figured out what Ye Chen meant by having no worries, when she suddenly heard this question from Ye Chen, she hurriedly said, “Definitely at night, and in the latter half of the night, they would usually sneak into the target’s home in the early morning, anesthetize everyone and then take the target away, and if they encounter resistance, they would kill them to exterminate them.”

Ye Chen asked again, “What about after kidnapping the people? Where will they be sent?”

Claudia thought about it and said, “It seems to be centralized to the port, they will concentrate on transporting a group of people to the high seas, and then what is the process behind that, I am not too sure.”

“OK,” Ye Chen nodded and lamented, “Although it’s safe for the time being during the day, this doesn’t look like there’s much time left

Chapter 4014

After saying that, Ye Chen asked, “This gang, apart from doing these harmful things, what other business do they do?”

Claudia said, “Apart from these, they also run several bars, hotels, and quite a few establishments with rubbish services, in addition to that, they also run several underground casinos.”

Ye Chen nodded and asked her, “If I want to go to their casinos to play a couple of games, who should I ask?”

Claudia asked awkwardly, “Mr. Ye you’re not kidding me are you

Ye Chen laughed, “Of course not.”

Claudia thought Ye Chen was hitting on the other party’s casino and said seriously, “The casino is one of their main sources of income, there are many people guarding there and they are all loaded with guns to prevent blackmail, you must not hit on there

Ye Chen waved his hand, “I don’t mean anything else, I simply want to go play a couple of games and lose some money to them by the way.”

Saying that, Ye Chen couldn’t help but sigh: “This place in Canada is just too far away, and it takes time for me to mobilize my troops, if I can delay them for a day, I can also have more time to prepare.”

Claudia thought for a moment and spoke, “If you really want to go play a couple of games, I’ll just ask Guo Lei, he’d love to get some more people to play a couple of games at their casino.”

Ye Chen snapped his fingers and smiled, “Beautiful! Wait for me, I’ll go make a call.”

Saying that, Ye Chen turned around and walked out of the convenience store.

Li Xiaofen was carrying a pancake fruit at this moment, standing at the doorway and waiting anxiously.

Seeing Ye Chen come out, she hurriedly stepped forward and asked after him with concern, “Brother Ye Chen, how did you and Claudia talk?”

Ye Chen smiled, “Almost done, where’s the pancake fruit I wanted?”

Li Xiaofen raised her hand and handed the food bag in her hand to Ye Chen, “Here, it’s done, Brother Ye Chen, can you help Claudia?”

Ye Chen nodded and said indifferently, “Of course I can, is this small matter still a matter for your brother Ye Chen? “

Hearing this, Li Xiaofen became excited and hugged Ye Chen and said excitedly, “That’s really great Brother Ye Chen!”

Ye Chen patted her back and said with a smile, "You go inside first and get busy, I'll make a phone call."

"Okay!" Li Xiaofen nodded and hurriedly went back to the convenience store with gusto.

Ye Chen, on the other hand, took the pancake fruit out of the bag and took a bite, while taking out his mobile phone again and called Wan Breaking Jun.

As soon as the call came through, Wan Bajun on the other side said, "Mr. Ye, the twenty female soldiers I sent to the United States have already departed three hours ago, and I have also sent another twenty-member special operation team to Canada, which is expected to arrive in ten hours in case you need someone in Canada."

Ye Chen couldn't help but praise, "Broken Jun, I didn't expect you to be so meticulous."

Wan Bajun said, "Mr. Ye, this is all I should do."

Ye Chen smiled faintly and spoke, "The Ten Thousand Dragon Hall should be very short of manpower now that the base is being built, right?"

Wan Bajun said, "I'm not going to lie to you, Mr. Ye, the overall workload of building a permanent base is very heavy, and the soldiers have to train on top of their daily missions and holidays, so I can't mobilize too many soldiers to participate in the construction work, so there is indeed a shortage of manpower."

Ye Chen then said, "It just so happens that I have just found 700 to 800 quality labourers in Canada, I plan to find an opportunity to send them to you in one pot!"

Chapter 4015

Hearing Ye Chen's words, Wan Bajun was busy asking, "Mr. Ye, are you going to take on any organisation?"

"Right." Ye Chen didn't hide anything and said indifferently, "There is a small group that has harmed Heaven and Earth, I want to root them out, but it is not quite appropriate to kill them all, so why not send them to your place as a free labourer, with tens of thousands of generals from the Ten Thousand Dragon Hall guarding them, they will definitely not be able to escape in their lifetime."

Wan Breaking Jun immediately said, "Mr. Ye, do you need the cooperation of your subordinates?"

Ye Chen thought about it and said, "Yes, you should arrange for another group of soldiers to come over, preferably with more people, around two hundred, and just arrive in Vancouver in thirty hours, that is, before tomorrow night."

Wan Bajun said, "No problem Mr. Ye, thirty hours is enough, I'll arrange the men and have them leave as soon as possible."

"Good." Ye Chen said with satisfaction, "That's it then, I'll communicate with you if there's a need."

After saying that, Ye Chen hung up Wan Bajun's phone and then called He Zhiqiu who was far away in China.

At this time, it was just morning in China, and when He Zhiqiu received Ye Chen's call, he immediately asked respectfully, "Mr. Ye, are you calling me so early? Do you have any orders?"

Ye Chen got straight to the point and said, "Zhiqiu, please help me see if there are any suitable cargo ships in the Vancouver port, the price should not be too expensive, around ten to twenty million dollars, preferably one that can be traded at any time.

Although He Zhiqiu was unsure, he immediately agreed and said, "Don't worry Mr. Ye, I'll make the arrangements, second-hand ships are easy to find, we should be able to find a suitable one soon."

"Good." Ye Chen said, "Let me know in time when there is progress."

After saying that, he hung up the phone and walked back to the convenience store with a smile on his face.

At this moment, Li Xiaofen still did not know what Ye Chen had just talked about with Claudia, not to mention that it was actually herself who was in real danger, so she was still immersed in the excitement of Ye Chen's willingness to help Claudia take revenge.

Li Xiaofen knew very well in her heart that with Ye Chen's strength and background, it would be no problem to deal with such a small Italian group.

But Claudia was more or less worried in her heart.

What she feared most was that Ye Chen would have to be a hero, and if things got out of hand, he would not only harm himself, but also Li Xiaofen.

Therefore, she wanted to find another opportunity to persuade Ye Chen to leave Canada with Li Xiaofen as soon as possible.

But what she didn't expect was that the first thing Ye Chen said when he came in was to say directly to her, "Claudia, call that Guo Lei and tell him that I have an itch to play a couple of games, and ask him to pick me up from Auntie Li's house at nine o'clock tonight."

Claudia asked with a shocked look on her face, "Nine o'clock at night? What about Sister Fanny?"

Ye Chen laughed, "Of course she's coming with me."

Hearing this, Li Xiaofen was confused and asked in confusion, "Brother Ye Chen, what do you want to play? Why are you looking for that Guo Lei?"

Ye Chen laughed, "Don't they run a casino? I want to go over and play a couple of games, idle as it is."

Li Xiaofen asked suspiciously, "Brother Ye Chen, when did you get hooked on gambling?"

"Nope." Ye Chen laughed, "I just want to go and find out what they are up to! When the time comes, you will accompany me there."

Li Xiaofen suddenly realized and nodded her head, "Okay! I'll go with you then!"

Claudia was very nervous, she didn't expect that Ye Chen would not only go to the casino managed by Guo Lei to gamble, but even take Li Xiaofen with him, wasn't that like entering a tiger's mouth?

Ye Chen also knew what she was worried about, so he smiled and said, "Claudia, me going to their casino to gamble is the same intention as you reentering here alone, sometimes the most dangerous place is the safest instead."

Claudia was instantly enlightened.

So without further hesitation, she nodded and said, "Then I'll give him a call here"

.....

At this very moment.

The ground floor of an Italian restaurant on George Street.

Chapter 4016

Guo Lei was sitting in front of a wide table, personally supervising several of his men counting money with two money detectors.

In their group, they had to pay their men once a week, and this evening was the day when they were paid.

Most of the members of the group are the kind of people who get drunk today and don't leave any cash for tomorrow, so they spend it all as soon as they get it and then wait for the next payday.

With a group of over 700 people, the average weekly salary per person is no less than \$1,000 per week, so the weekly payroll cost is nearly a million Canadian dollars.

As he watched the piles of cash being divided into small envelopes, he couldn't help but feel a pounding in his head and muttered under his breath, "This isn't 700 f*cking men, this is 700 f*cking mouths waiting for meat"

Saying this, he asked one of them, "Hey Pete, how much money can Rich and I have in hand this week?"

The other man glanced at the numbers on the form and spoke, "Mr. Guo, the money that will reach you and Mr. Ritchie is a total of \$110,000 Canadian."

"Only eleven hundred thousand ah" Guo Lei was a little disappointed when he heard this figure.

Although he was the second in command of this group at the moment, the newly promoted boss had only given him a 10% share.

After all, he was not Italian and still came from a chauffeur background, and he had only been able to get a 10% share by making a plan to take out Claudia's family, so he was actually considered a step up.

In the past, the net profit left to him and his boss each week was at least \$200,000 to \$300,000, and he himself could get \$20,000 to \$30,000, which was quite a fortune, but he never thought that it would drop so much this week.

So, he was surprised and asked, "Why is it so low this week?"

The other party was busy saying, "The casino's business has been getting worse and worse lately, the income has been decreasing sharply, and those girls that were offered before didn't fetch any good prices, the high-end customers only want untouched clean girls, only such girls have a chance to sell for high prices, the batch we sent to the auction was directly brushed off."

Guo Lei couldn't help but think of Li Xiaofen.

In his eyes, there were only two high quality girls around, one was Li Xiaofen and the other was his distant cousin Claudia.

It was a pity that Claudia's face was burnt too frighteningly, so the only real high-quality girl was Li Xiaofen.

Originally, he wanted to be boyfriend and girlfriend with Li Xiaofen, but Li Xiaofen really didn't buy into him, and he gradually lost his patience.

So he said to the man in a cold voice, "There's a good one tonight, if we get her there, she'll be selected for the auction and might fetch a few million dollars!"

"That's great." The man said excitedly, "Only if we keep providing high quality goods will the auction house be impressed with us, otherwise, we will slowly be blacklisted by the auction house."

Guo Lei nodded and gritted his teeth as he muttered to himself, "It seems that we still have to rely on Xiao Fen to make a turnaround"

After saying that, he asked, "What's going on over at the casino these days?"

The other party replied, "During this period of time, big customers, old customers, many have switched to play at the venue opened by the Hua Gang, the service of the Hua Gang is said to be better, they not only redecorated the venue, but also bought several Maybachs, as long as the big customers go, they are picked up and delivered by Maybachs, and they are also provided with food and accommodation after playing for a long time;"

"Moreover, they have also found a few young girls from Eastern Europe from the style street specifically to accompany the big clients, if the guests lose all, they will also return some draws without compensation to let the guests flip, borrowing this aspect is also more flexible, the junior underneath will have certain authority and can take chips to the guests on the spot"

The other party looked at Guo Lei and said, "Mr. Guo, what the big customers are after now is experience, it doesn't matter if they lose money, the key is to have fun losing, compared to the Hua

Gang, our venue, as a whole, is still too old, we have to keep up with the times otherwise if this continues, the customers will all run away

Chapter 4017

“You think I don’t want to keep up with the times, huh?”

Guo Lei rubbed his temples and said with some annoyance, “I have long talked to the boss, but the boss is not willing to invest the cost, let us put up with everything beforehand, and I have no way

To the current boss, Guo Lei has more or less some slight words in his heart.

The main reason is that this boss has just seized the group’s power, his mind is only thinking, hurry up and put money in his own pocket first.

Therefore, he was not interested in giving up his immediate gains and investing his money for the long term.

Seeing that his boss was not willing to pay, Guo Lei could not persuade him to do so, so he could only watch the casino business deteriorate.

At this moment, Guo Lei’s mobile phone suddenly rang.

He looked down and was surprised to find that the person calling was his cousin, Claudia, who had been ignoring him.

So, he smilingly picked up the phone and asked, “Aigoo cousin, what kind of wind is blowing today, how can you think of giving brother a call?”

Claudia said indifferently, “Sister Fanny’s cousin Mr. Ye asked me privately, asking me where I could play a couple of hands of cards, and I didn’t know anyone else, so I had to ask you.”

Guo Lei had no doubt and said with a smile, “Haha, want to play cards, that’s not easy, we have a venue ourselves, let him play.”

Guo Lei added, “By the way, you have to tell him that we are not a place for petty games, when you enter the venue, you have to start with \$10,000 in chips.”

Claudia said casually, “Mr. Ye is not short of money, he’s a big ship owner in ocean shipping, and he’s here to buy a freighter from Vancouver.”

“Buy a cargo ship?” When Guo Lei heard this, he was immediately delighted.

A cargo ship was not something that could be played with when all was said and done.

A random ocean-going cargo ship would start at least at ten million dollars, and if it was some kind of special ship that transported liquefied gas or something like that, it was possible that it would cost hundreds of millions of dollars.

So, he immediately concluded that Li Xiaofen’s cousin, that cousin, must be very rich.

For those who run casinos, what they like the most is rich people, every rich person in their eyes is a fat sheep to be slaughtered, if the operation is good, a person can slaughter millions out.

This is only the underground casinos in Vancouver, if it were the top casinos in Las Vegas, it would not be uncommon to catch a VIP and rip off hundreds of millions of dollars.

So he immediately smiled and said, "Sure! Then ask him when he wants to play."

Claudia said, "Mr. Ye said that at nine o'clock at night, he asked you to pick him up at Auntie Li's house."

"And ask me to pick him up?" Guo Lei couldn't help but frown, thinking, "He's the second in command of the group after all, asking himself to pick him up, isn't that Mr. Ye's tone a bit too big?"

At this moment, Claudia said, "Mr. Ye said that he would exchange 100,000 Canadian dollars in chips when he arrived at the casino."

"Okay, I'll get it!"

When he heard the 100,000 Canadian dollars, Guo Lei agreed without a second thought.

One hundred thousand Canadian dollars was not a small amount.

Moreover, according to the casino's rules, if the 100,000 CAD is lost in the casino, the croupier takes 5% and the introducer takes 20%!

A croupier is someone who works with a client to help them exchange their chips, but once they reach a certain level and have enough big clients in their hands, they will become a senior partner of the casino.

What the casinos lack most is customers, especially quality customers who are willing to spend a lot of money, so they are willing to give 20% to 40% of the commission back to the croupiers and referrals, so as to maintain the casino's customer base and income.

The casinos under the hands of the Italian group, giving 20% to the referrals is actually quite stingy. In Las Vegas, the big casinos will give out 40% as commission to the referral channel as a way to attract more clientele.

So, in life, many rich people have friends around them who always like to introduce him to gamble in high class casinos, just so that their rich friends can lose more money so that they can get more referral fees, that's all.

For Guo Lei, since it was Claudia who introduced him to the clients, he would definitely not give Claudia a cut, but just by-pass Claudia and take that cut for himself.

And if he follows and accompanies Ye Chen to gamble tonight, then he is also acting as a code-fold, and he will be able to take 25% of whatever Ye Chen loses!

After taking away the 25%, the remaining 75% would go to the casino and he would still get 10% of the proceeds!

Chapter 4018

Therefore, Guo Lei's interest was instantly aroused by Ye Chen.

Wasn't this a god of wealth delivered to his door?

He could not wait to kill Ye Chen. If Ye Chen could lose a million or so in his casino, he would be very rich.

.....

The other side.

Ye Chen used his US dollar account to easily cash in 300,000 Canadian dollars at a bank near Chinatown.

Tonight, he planned to go to Guo Lei's venue and lose all of the three hundred thousand.

He then returned to the convenience store and waited for a short while before Auntie Li pushed the door in carrying the non-woven bag from yesterday's video.

Li Xiaofen hurriedly pulled Ye Chen to welcome him and said excitedly, "Auntie Li, look who's here!"

When Auntie Li looked up and saw that it was Ye Chen, her eyes widened for a moment before she reacted!

At first, Auntie Li was naturally in a happy mood and just wanted to ask Ye Chen why he was here so early, but as the words came to her lips, she realized that her status with Ye Chen was not the same as before, so she hurriedly controlled her emotions and said with a bit of respect, "Young Master, why are you here so early?"

Ye Chen was a bit stunned for a moment and hurriedly said, "Auntie Li, why are you still being so polite with me"

Auntie Li said seriously, "You are the young master, I am the under"

Ye Chen didn't wait for her to say the word subordinate before he immediately said, "Auntie Li, I was brought up by you, in my eyes, you are the mother of our group of children, no matter what my status really is, it can't offset this layer of relationship is the most important, so in front of you, I am not a young master, I will always be your child!"

Auntie Li was in a tangle for a moment.

In fact, it wasn't just Ye Chen who was grateful to her, she was, likewise, grateful to Ye Chen.

When Tang Sihai recruited her into the orphanage, she was the only employee of the orphanage who was kept in the dark, and in terms of daily work, life and welfare benefits, Tang Sihai had never treated her poorly.

Later, she unfortunately suffered from uremia, and it was the Ye family who finally sent her to Yanjing, found her a suitable kidney source, and invited the best kidney transplant surgeon in the country to operate on her.

Even the post-operative recovery was the highest level of treatment that money could not buy, and even those rich celebrities could not enjoy it.

Later, when the orphanage was changed, Tang Sihai not only gave her a generous severance package, but also helped her and Li Xiaofen with immigration and had a mansion bought for her in Canada.

In addition to this, Auntie Li receives a monthly living allowance of 30,000 Canadian dollars, which is enough for her and Li Xiaofen to live a prosperous life here.

In her eyes, it was all thanks to Ye Chen's blessing.

Therefore, when she saw Ye Chen again, she did not feel the same as when she saw him in the video. The moment she really saw him standing in front of her, gratitude and respect still prevailed in her heart.

However, when she saw that Ye Chen did not have the slightest hint of a young master's attitude and even treated her with respect as usual, she was particularly torn in her heart.

At this moment, Li Xiaofen said to Auntie Li pitifully, "Auntie Li, if you're going to be so polite and unfriendly to Brother Ye Chen in the future then I can't call him Brother Ye Chen and have to call him Young Master instead but in my eyes, he's the same Brother Ye Chen who grew up with me and loves me like a real brother"

When Auntie Li heard this, she was enlightened and hurriedly wiped away the tears that had just spilled out of the corners of her eyes and said with a smile, "Aiya, it's my old age that's confused"

After saying that, he hurriedly looked at Ye Chen with a happy face and said happily, "Ye Chen, you came to Canada, auntie is really happy, you should not have tasted auntie's cooking for a long time, right? Auntie will cook a big meal for you at home tonight!"

Chapter 4019

Ye Chen's arrival made Auntie Li extraordinarily happy.

She told Li Xiaofen to close the shop early and took Ye Chen, as well as Li Xiaofen and Claudia, to the market to buy ingredients.

At the market, Auntie Li didn't forget to buy a copy of any ingredients she saw that she was good at, saying that she had to make a sumptuous dinner to welcome Ye Chen.

After buying the ingredients with them, Ye Chen got into Li Xiaofen's car and headed to take Auntie Li's home in Vancouver.

After coming to Canada, Li Xiaofen got her driving licence and bought a second-hand Chevrolet sedan to drive Auntie Li and Claudia between home and Chinatown every day.

Ye Chen did not expect that Li Xiaofen had bought such a second-hand, low-end car and could not help but ask her, "Xiaofen, why don't you buy a better car?"

Li Xiaofen said with a smile, "A car is just a means of transportation, there is no need to buy a good one, used cars are cheap, and insurance is also cheap, so you can save a lot of money, and it doesn't hurt if you cut or anything."

Ye Chen seriously said, "At least buy a new car too, turn around and brother will send you one."

Li Xiaofen said, "Brother Ye Chen, don't give me a car, I won't drive it even if you give it to me, you don't know me well, I grew up in an orphanage, I'm used to being frugal, I don't have any special pursuit of material things, besides, my life now is much better than when I was in the orphanage, I'm content."

She said, smiling cheekily and said, "Maybe I don't have that life of enjoyment."

After hearing this, Ye Chen nodded empathetically.

In fact, like Li Xiaofen, he did not have any particular pursuit of material things.

If he was on his own, clothing, food, shelter and transportation were actually not much of a requirement.

A car is also quite indifferent to him. Strictly speaking, he does not have a car of his own until now, and usually goes out either in Xiao Churan's car or in Xiao Changkun's car

As for the cars given to him by others, he is not interested in the slightest.

Therefore, he is very understanding of Li Xiaofen's diligence and frugality.

If a person has little high demand for material things herself, then too good material conditions will, on the contrary, drive her to be at a loss.

The house that Tang Sihai bought for Auntie Li is not far from Chinatown, the best and most expensive Chinese neighbourhood near Vancouver's Chinatown.

It was a very typical North American single-family house. Although the villa only had two floors above ground, it covered a large area with a larger yard and green space in front of the door, giving it a very spacious and comfortable feel.

This also made Ye Chen sigh, the community where Auntie Li lived had a much larger green area for each household than even his home in Townsend, such was the advantage of the spaciousness of the land and the sparseness of the people.

The whole community is very sparsely built and looks more like a big park, with a very nice environment.

Almost all the people you can see in the community are Chinese, and those who live here, even if they don't have any basic English, their lives are not affected in any way.

It is indeed very friendly to Chinese immigrants who do not have a basic knowledge of English and are not accustomed to Western life.

Li Xiaofen parked the car and was eager to take Ye Chen into the house for a tour.

In North America, houses are not allowed to be sold rough, they are basically completely renovated and equipped with home appliances before they are sold to the public, so this house is very well decorated and the supporting furniture and home appliances are all international brands, the overall grade is very high.

After visiting the house, Ye Chen was satisfied with the house. It seemed that Tang Sihai had not treated Auntie Li badly, and such a house was definitely considered a luxury house in Vancouver.

As soon as Auntie Li entered the house, she rushed to the kitchen to prepare dinner, and Claudia followed her to help with the cooking.

She said, "Ye Chen is a guest from afar, so there is no reason for him to be in the kitchen.

Ye Chen saw her firm attitude, so he did not insist.

Chapter 4020

Li Xiaofen then took this opportunity to give Ye Chen a good tour of the villa.

At eight o'clock, Auntie Li, with the help of Claudia, prepared a sumptuous table for dinner.

Li Xiaofen took out a bottle of juice from the fridge and said to Ye Chen with a smile, "Brother Ye Chen, there is no one at home to drink, so let's use juice instead!"

Ye Chen nodded, took the juice over and poured four cups.

Auntie Li was in a particularly good mood, picked up her gla*s and said with a smile, "Come, let's drink together and welcome Ye Chen to Canada!"

Li Xiaofen immediately applauded and said with a smile, "Welcome brother Ye Chen, I also hope that brother Ye Chen will come to Vancouver to see us more often in the future!"

Ye Chen lifted his cup and smiled, "Thank you for your hospitality Auntie Li, I will come over more often if I have time in the future."

Claudia was a little apprehensive, now that it was already dark, I was afraid that even if Ye Chen changed his mind and wanted to hurry up and take Li Xiaofen away, it would not be that easy.

Therefore, her mind was not at all on dinner right now, but prayed silently that nothing unexpected must happen tonight.

At this time, Li Xiaofen winked at Claudia while saying, "Claudia, you're meeting brother Ye Chen for the first time today, have a drink with him."

Claudia smiled faintly, nodded, picked up the juice and said to Ye Chen, "Mr. Ye, I'll drink to you!"

Li Xiaofen was busy saying, "Aiya, you shouldn't call him Mr. Ye so rudely, call him brother Ye Chen like me!"

Saying that, Li Xiaofen looked at Ye Chen again and said seriously, “Brother Ye Chen, but I treat Claudia like my own sister, and I’m your sister, Claudia is your sister’s sister, that’s the same as your sister, so you must treat her like your sister too

Ye Chen saw through Li Xiaofen’s mind at a glance and knew that she must have hoped that she had avenged Claudia’s bloodshed, so she had deliberately placed Claudia, her “sister”, on her head.

Ye Chen himself admired Claudia, a young girl who never gave up despite her ill-fate, and he really wanted to take advantage of this opportunity to give her a hand.

So, he nodded along and smiled faintly, “In that case, then Claudia will be like Xiaofen and call me brother from now on, and if you encounter anything else in the future, just tell me directly, and I will definitely help you if I can.”

Claudia hesitated for a moment and nodded somewhat moved.

However, she swallowed back the words “Brother Ye Chen” just as they reached her mouth.

She was a slow girl with a cold and solitary nature, so it was hard for her to let go completely at once.

However, her heart was indeed full of gratitude to the three people in front of her.

Auntie Li and Li Xiaofen need not be mentioned, but the fact that Ye Chen had met her for the first time but could say these words did give her a feeling of being protected.

She was the eldest sister in her family and grew up without a brother to protect her, yet she had two younger brothers who needed her to take care of her at all times. Although she was indeed strong and good at taking care of others, very often, like other little girls, she wished deep down that she could have a brother who would take care of and protect her at all times, especially after her family suffered a huge change, this need in her heart became even stronger.

This made her think back to what had happened at the convenience store today.

When Huang Xingyu brought Li Haoyang and her two followers to the convenience store to bully her, it was Ye Chen who took the initiative to stand up for herself and protect her.

However, she had never figured out what method Ye Chen had used to make Li Hao Yang, who had always been obedient to Huang Xingyu, suddenly seem to have lost his mind. It seemed as if Li Hao Yang had acted on his own impulse, but she felt as if things were not that simple...
