

Ye Chen 4051

Chapter 4051

Hearing Guo Lei threaten himself with Li Xiaofen, Ye Chen looked at him and asked with a cold smile, "What? You're at the end of your rope, and you still have the ability to threaten Fanny's safety?"

Although Guo Lei had no bottom in his heart at this moment, he also knew that this was his only chance to escape.

So, he said to Ye Chen with a fierce face, "When you were gambling in the casino, I had already ordered my men to arrest Li Xiaofen! If you kill me, Li Xiaofen will never be able to see the light of day again!"

Ye Chen frowned and asked, "Why did you have someone arrest Fanny? She's a girl, what use is she to you? Or do you have the ability to foretell all this happening now?"

Guo Lei gritted his teeth and said, "In certain rich people's circles, a girl like Li Xiaofen is the most valuable hard currency! The value is much higher than gold or jewellery! A clean girl like Li Xiaofen who is outstanding in looks and not promiscuous can fetch at least a million dollars in the rich man's circle!"

Said Guo Lei viciously, "However, those rich people who would come to the auction to bid for the girl are more or less psychologically challenged! If a girl is bought by them, she will definitely be tortured and abused by them with all kinds of cruel methods!"

"Even if someone is lucky enough to make it through two or three years, I'm afraid these tycoons are already tired of playing with them, and when they're tired of playing with them, these women will either die or be sent to Europe and handed over to European gangs to be sold as a money-making tool! "

I'm telling you, if she falls into the hands of those African and Eastern European gangs in Europe, Li Xiaofen's fate will be extremely miserable! Not only will they confine and beat women, they will also use poisonous battering rams to strengthen their grip on them! A woman like that, in their hands, usually won't survive more than five years!"

"If you don't want Li Xiaofen to end up like this, then let me go now! As long as I leave Canada alive, I will let Li Xiaofen go, and from now on, you and I will have nothing to do with each other!"

Ye Chen looked at Guo Lei with interest and asked curiously, "Guo Lei, as you can see, the entire Ten Thousand Dragons Temple is my man, even if you can leave Canada alive, how can you escape the pursuit of the Ten Thousand Dragons Temple?"

Guo Lei's eyes were filled with fear, and then he said with a stiff upper lip, "The worst thing that can happen is that I will go back to my country and turn myself in! I've committed a lot of cases in China, not just telecommunication fraud, but I've also carried a lot of other things on my back, when the time comes, I'll confess all these things to the police, I can at least be sentenced to a decade or two!"

Ye Chen nodded and said with a smile, "Guo Lei, Guo Lei, you're really a f*cking talent, usually when you break the law and commit crimes, you don't take the police into consideration, and now when

you're in trouble, you want to seek police protection, if I really let you get away with it, won't I just let you smear the face of the police?"

Guo Lei said nervously, "So then you're not afraid that Li Xiaofen will from now on be unaccounted for and die a tragic death overseas?"

Ye Chen laughed: "I came all the way to Canada to protect my little sister, do you think I will let you have your way?"

As he said that, he gave a wink to Wan Bajun.

Wan Bajun immediately brought Li Xiaofen over from the next cabin, again.

Li Xiaofen originally only knew that Guo Lei had killed Claudia's parents and two younger brothers, but never in her wildest dreams did she think that he had even set his mind on her own body!

Therefore, the moment Li Xiaofen saw Guo Lei, although she didn't say anything, her eyes were full of spitefulness and hatred.

And when Guo Lei saw Li Xiaofen, all the hopes he had within him were completely dashed in this instant.

Chapter 4052

At this moment, he was deeply aware that all his illusions were completely shattered and that he was bound to die this time!

He just couldn't understand how Ye Chen could have foreseen and known that he was going to make a move on Li Xiaofen!

He subconsciously asked Ye Chen: "So, you lost money at the casino twice, but you were deliberately acting?"

Ye Chen sneered, "Of course, since we're fishing, how can we not prepare a bit of bait?"

Guo Lei was shocked and could not help but ask with a frown, "I don't understand you you are not in Canada, how do you know all this?! This matter is a secret within our organization, even within the organization only a very few people know about it! And they don't know you at all, and they couldn't have revealed the information to you!"

Claudia on the other side said coldly, "Guo Lei, do you think I don't know about the tricks you guys have been doing? The mark you had someone make on the doorstep of Auntie Li's house, I found out about it a long time ago! And I know exactly what that code means! I was the one who informed Mr. Ye and asked him to come to Canada to protect Little Sister Fan!"

Guo Lei looked at Claudia with eyes wide open and cursed through clenched teeth, "So it was you! Claudia, before today, you shouldn't have known that I killed your family. When you came back after disappearing for a while, I saw your face burnt to a crisp and felt sorry for you and wanted to let you off the hook. If I had known, I should have f*cking killed you myself!"

Claudia reached behind her right ear and with a little force, she ripped off the scar on her right cheek, spreading all the way to her neck, revealing an exquisite face that combined the best of Eastern and Western beauties and was unbelievably beautiful.

Guo Lei's entire body trembled with fear and asked offhandedly, "You are actually faking it! What the hell is going on here"

"What's going on?" Claudia tears filled her eyes and asked angrily, "You must have thought that I was just lucky not to be killed by the fire and that it was impossible to find out the truth of what happened, right?"

Guo Lei did not say anything, but there was astonishment in his eyes.

Obviously, Claudia had said what was in his mind.

At that moment, Claudia said in a cold voice, "When the fire started in my house, the first thing I thought of was not to run for my life, but to wake up my sleeping parents and two brothers, but they were all dead by then, and from that moment, I knew that they must have been killed by you!"

Guo Lei's eyes widened and he asked offhandedly, "Since you knew that I killed them, and you still dared to go back to Vancouver after this incident, did you want to seek revenge on me?"

"Of course!" Claudia said through clenched teeth while shedding tears, "The reason I came back was to find a chance to kill you! For a while, I used to tie a few foil bags full of petrol to my body every day, and I would also carry a knife and a lighter in my pockets, so that I could puncture them at the right opportunity and set myself on fire and die with you!"

At this point, Claudia looked at Li Xiaofen and then said to Guo Lei, "But you were still lucky! During that time, every time you appeared in front of me, you came to look for Sister Fanny, and Sister Fanny and Auntie Li had always taken special care of me, afraid that I wouldn't be able to think or be bullied, so they had never given me the chance to meet you alone, otherwise, I would have burned you to death with my own hands!"

Chapter 4053

After listening to Claudia's words, Guo Lei looked at her in shock, and after a moment's hesitation, he suddenly knelt down in front of her and choked up, "Claudia, I was confused in the beginning, please give me a chance to change my ways! If you can spare my life, I'll do whatever you want! After all, we are relatives, blood is thicker than water! Please, for the sake of this relationship, spare me once! Just once!"

Claudia questioned in a cold voice, "Guo Lei, don't you find it ridiculous to say such things? You have killed four members of my family in disregard of the blood ties between relatives, and now you have the audacity to ask me for mercy? For the past few months, I have been killing you countless times in my dreams every night, hoping that one day I would be able to get what I want, and now that I finally have this chance, I would rather die with you than leave any room for you!"

When Guo Lei heard this, he knew in his heart that he was bound to die today, so he immediately put away his pleading face and laughed mockingly, "I didn't expect you to be so young, but you have

such a heavy heart and such a ruthless mind. If I had known this, I should have killed you on the first day you came back to end the trouble” The mistake was that I thought you didn’t know anything

At this point, Guo Lei let out a miserable laugh, pointing at the disguised scar in her hand and sighed, “Claudia, you really have calculated every aspect, if I had known that your face was not burned, I would not have killed you, but I would have found an opportunity to sell you, with your charming face, plus the identity of the daughter of the former head of the Italian group, you would have been able to sell for a higher price than Li Xiaofen

Speaking of this, Guo Lei sighed and said with chagrin, “After all the calculations, I still didn’t count on you, a yellow-haired girl

Then, Guo Lei blurted out, “Claudia I am willing to bet and accept defeat, and I am not asking you to spare my life, I only ask you to give me a painful one, even if you can shoot me!”

Claudia shook her head and said seriously, “The fairest way I can think of is to let you die by fire, that’s the only thing that’s kept me alive these past few months!”

For Claudia, the only motivation she had left to survive after the tragic death of her family was to avenge their death.

Therefore, ever since she disguised herself as being disfigured by the fire and returned to Vancouver, she had been looking for a chance to take revenge.

She knew that Guo Lei was now the second-in-command of the Italian group and had a large number of followers, so it would be difficult for her to kill him.

So, she hatched a plan to die together, using herself as a weapon to exchange for Guo Lei’s life.

However, for some time now, she had not found the right opportunity to do it.

Especially with Li Xiaofen and Auntie Li by her side at all times, she was unwilling to risk these two people who cared about her.

Moreover, she spent most of her time helping out in Li Xiaofen’s shop, and whenever Guo Lei appeared before her without an entourage and alone, it was basically in the convenience store, so Claudia could only suspend the plan for the time being.

Later, at the entrance of Auntie Li’s house, she found the markings left by the Italian group and knew that Guo Lei had set his sights on Li Xiaofen.

It was only then that she thought of asking Ye Chen, whom she had never met before, to come to Vancouver and take Li Xiaofen away, so that Li Xiaofen would be safe and she could carry out her plan to die together without any worries.

At that time, she never hoped that Li Xiaofen, her brother, could help her take revenge, because she knew very well that Guo Lei’s Italian group was a local snake in Vancouver, with hundreds to thousands of people, which could never be resisted by a foreigner.

It’s just that she never thought that that brother Ye Chen, who Li Xiaofen would mention every day, would actually have such actually powerful strength.

The tens of thousands of people in the size of the Ten Thousand Dragons Hall were all loyal to him alone!

If it wasn't for Ye Chen, she was afraid that she wouldn't have found the opportunity to seek revenge on Guo Lei!

Guo Lei was already desperate to the extreme at this point, he did not expect that Claudia, who looked weak on the surface, would be determined to burn herself to death.

At the thought of that endless pain, he could only plead in a hoarse voice, "Claudia, I did kill your family of four, but I never put them through the pain either, your parents and two brothers went in their sleep, so even if you want to kill me, you have to give me the minimum of humanity!"

Claudia shook her head and said seriously, "Humanity is for people, beasts don't deserve to talk about humane!"

At this moment, Ye Chen had a little more appreciation for Claudia, an eighteen year old girl.

On the premise of not actively hurting others, a ruthless heart was definitely a merit.

Countless people were just not ruthless enough, which gave the wrongdoers an opportunity to take advantage of them.

Eighteen-year-old Claudia, at least, had already managed to leave no room for her enemies.

He then opened his mouth and said to Wan Bajun, "Bajun, take this beast down, and by the way, tie up all the others and escort them all to the cargo warehouse, later on we will make them watch Guo Lei turn into ashes with their own eyes."

Wan Bajun immediately said respectfully, "Yes Mr. Ye, my subordinate will arrange it!"

After saying that, he immediately instructed the generals of the Wan Long Temple to use very strong nylon ties to bind all the members of the Italian group with their hands from behind them and have them line up to go to the cargo warehouse.

The bulk carrier's cargo hold was like a deep pit made of steel, not only was it nearly ten storeys deep, its interior was also surprisingly large.

This, coupled with the fact that the whole ship was completely empty, made it a very wide place overall.

Two to three hundred members of the Italian group were escorted here and, as requested, squatted one by one in several rows at the edge of the cargo hold.

Chapter 4054

The heavily armed generals of the Hall of Ten Thousand Dragons stood on either side of this group, their eyes and guns always locked on them.

Soon, two of Wan Bajun's men, brought Guo Lei in.

They were followed by two soldiers from the Wan Long Temple, who together were carrying a bowl-thick chain weighing at least seven to eight hundred pounds.

The thick chain was a replacement anchor chain from a cargo ship, thick and heavy.

When Guo Lei was brought to the centre of the cargo hold, the two soldiers behind him used the anchor chain, starting from Guo Lei's ankles, to coil Guo Lei's entire lower body to death in the centre of the chain.

Surrounded by 700 to 800 pounds of iron chains, Guo Lei could not move at all, and he realised at this moment that this was his execution ground.

At this moment, Guo Lei's whole body was so scared that his liver and guts split.

At this very moment, another soldier from the Ten Thousand Dragons Hall stepped in with an oil drum in his hand.

There was no petrol on the freighter, so he had specially disembarked and siphoned nearly ten litres of fuel from the tank of Andre's Rolls Royce.

The soldier came in front of Ye Chen and asked respectfully, "Mr Ye, shall we start now?"

Ye Chen looked at Claudia and said to her, "You can start anytime after you have considered it."

Saying that, Ye Chen added, "If you change your mind, or if you can't do it yourself and need someone else to do it for you, feel free to tell me."

With a determined expression, Claudia said, "I have no problem with that!"

After saying that, she took the oil barrel from the soldier's hand, stepped in front of Guo Lei, looked at him, and without hesitation, poured the liquid inside the barrel onto his body.

The strong smell of fuel made Guo Lei pee his trousers in fear, but at this time, peeing his trousers would not help, he could already see the unwavering killing intent in Claudia's eyes.

He cried out in terror: "Claudia, I beg you to give me a painful death, to shoot me, I beg you! If you burn me today, you will live in the shadows for the rest of your life! You don't want your conscience to be tortured day and night afterwards, do you?!"

Claudia shook her head and said firmly, "I want to move on, I don't want to live in hatred for the rest of my life, I won't hate you anymore after I see you burned to ashes!"

With that, she pulled out of her pocket a loud lighter that she had been preparing for months.

It was one of her father's favourite lighters when he was alive, and when the cap was opened, it made a crisp crashing sound.

Whenever she heard this sound, she used to know that her father was smoking again, so she would go to him and recite a few words.

Ever since her father died, she has bought a lighter of the same type. Every day, when she misses her parents the most, she takes this lighter out, listens to the familiar sound, watches the wavering fire and recalls the happy times she had with her family.

She even planned to use this meaningful lighter to die with Guo Lei.

At this moment, she gently pushed the metal cap off the lighter, and it once again made a dinging sound.

The crisp sound reverberated in the empty cargo hold, and actually had a somewhat mellifluous feel to it.

At this moment, Claudia felt like the world had slowed down.

She slowly rubbed the slender tumbler on the side of the lighter, and sparks erupted as the flint ground out.

The next moment, the sparks ignited the gas that the lighter kept releasing, and with a poof, a long, thin, thriving flame sprang up.

In the wavering firelight, she saw Guo Lei's face, completely distorted by extreme fear, and heard Guo Lei's hysterical cries and wails.

She lifted her head, averted her gaze from the firelight and turned to Guo Lei, smiling with relief as she reached out and threw the burning lighter towards him.

With a loud boom, a large fire ignited from Guo Lei.

It was like the flames of that Lang Sheng lighter just now, which was instantly magnified countless times.

Guo Lei's miserable screams became stronger and stronger, yet gradually disappeared.

At this moment, Claudia seemed to see her parents and two younger brothers in the roaring firelight.

She remembered the bedtime stories her mother had told her when she was a child, at the foot of her bed.

The poor, little girl, the match seller, vaguely saw her deceased grandmother in the light of the matches.

Totally uncontrollable tears spurted out, causing her vision to blur instantly.

But, although the vision was blurred to the extreme, the appearance of her parents and younger brothers became clearer and clearer.

She saw her young mother smiling at her, her serious father quietly hiding his hand squeezing his cigarette under the table like a child, and her two young brothers running towards her with excitement on their faces.

At that moment, the world seemed to stand still in her eyes.

Chapter 4055

At this moment, Claudia's whole being is in a state of half-dreaming, half-awake.

The faces and faces of her parents and her two brothers were appearing before her eyes in a way that seemed unbelievably real.

The fire of vengeance was baking her body at close range, even drying the tears that were pouring out of her big eyes.

Once that monstrous hatred had weighed her down alone.

And now, after all that hatred had dissipated with this great fire in front of her, she finally experienced the feeling of relief for the first time.

Only in comparison to her, Li Xiaofen shivered in fear the moment she watched a living person wail and burn in front of her.

She couldn't help but bury her head in the crook of Ye Chen's arm and close her eyes, not daring to look, but Ye Chen patted her back while whispering in her ear, "Don't be afraid, this is what this world is like in its truest form."

Although Li Xiaofen was an orphan, she had been adopted by the orphanage since she was a child, and growing up, she was not only taken care of by Auntie Li, but also pampered by a group of little friends.

Although life was a little bit hard, everyone had never let her suffer any grievances, nor had they given her the chance to experience the dangers of the world.

However, what happened this time made Ye Chen realise that Li Xiaofen did not know enough about the evils of the world.

In her twenties, her understanding of the dark side of this world was not even as good as Claudia's at the age of eighteen.

Moreover, if Claudia had not found a way to inform herself, Li Xiaofen might have been tragically killed by Guo Lei's poisonous hands.

Therefore, Ye Chen felt that it was also time to let her face up to the cruelty of this world, so that she could be more alert in the future.

More such awareness could also make her a little more wary of this society.

Li Xiaofen also probably understood Ye Chen's intention, and her warring body gradually regained its stability.

It was only when Guo Lei had turned into a human-sized charcoal that Ye Chen opened his mouth and said to Claudia, "Claudia, Guo Lei is dead, this matter, can you let go of it in your heart?"

Claudia turned around, looked at Ye Chen, choked up and said, "I can let go Mr. Ye, I really don't know how to thank you If it wasn't for your help, I don't know when I would have been able to avenge my family's death"

Ye Chen waved his hand, "No need to be so polite, it was your good cause of wanting to save Xiaofen that bore good fruit, so in the end, it was you who helped yourself."

Li Xiaofen had just learned the whole story from Claudia's conversation with Guo Lei.

Therefore, she walked up to Claudia and said gratefully, "Claudia, thank you"

Claudia was busy saying, "Sister Fanny don't say that, I should thank you and Auntie Li, otherwise, I might have been on the streets long ago."

Ye Chen said to the two of them, "You two don't need to thank each other here, I'll have someone arrange for a few female soldiers to accompany you back over to the C*ckpit to rest, I still have some things to take care of here."

Li Xiaofen nodded gently, Claudia glanced at Andrei as well as the other Italian group members and opened her mouth to ask Ye Chen, "Mr. Ye, what do you plan to do with them"?

Ye Chen asked her, "What do you wish me to do with them?"

Claudia shook her head and said, "I don't know just think that although they are all guilty, most of them are not guilty to death"

Ye Chen smiled faintly and whispered, "You don't need to worry about this matter, I will leave them alive and give them a chance to reform."

The latter half of the sentence, Ye Chen did not say.

The opportunity was definitely to be given, but it was definitely not for them to go home and reform, but to follow the Ten Thousand Dragon Hall and go to the Middle East to reform.

Of course, the main reason was to make them work and contribute, and it was not so important as to whether they would reform or not.

Chapter 4056

Afterwards, Claudia and Li Xiaofen, escorted by several female soldiers, left the cargo warehouse.

The charred Guo Lei still stood in the middle of the cargo silo, his body still emitting a trace of smoke, and the cargo silo, which could hold 10,000 tons of cargo, was, at this moment, also filled with a burnt smell.

The members of the Italian group, including Andrea, looked at Guo Lei's remains and were all horrified and terrified.

Seeing Guo Lei's tragic death with their own eyes had an extremely powerful deterrent effect on them.

Andre was even so terrified that he almost had a heart attack.

Because, he was afraid that Ye Chen would use the same method against him later on.

And the more he feared, the more he became afraid.

At this time, Ye Chen pointed at Andrei who was crouched in the first row and said indifferently, "Broken Army, bring that guy over."

"Good." Without thinking, Wan Bajun lifted Andre with one hand and brought him directly in front of Ye Chen.

At this moment, Andre was even more frightened, trembling violently one after another.

Ye Chen looked at him and said indifferently, "Come, Andrei, we've finished talking about Guo Lei, now it's time to talk about you."

Andrei said in horror, “Ye Mr. Ye I didn’t do anything wrong to you other than screwing your money in the casino

Ye Chen asked him rhetorically, “What, the kidnapping of my sister was done by Guo Lei alone? The money that was earned, Guo Lei earned it alone?”

Andre stammered, “This was mainly Guo Lei’s idea, he led the specific things to do, I never participated

Ye Chen patted his shoulder and smiled faintly, “All right, you don’t have to be so afraid, as long as you cooperate obediently, people, today only kill Guo Lei one, as for you and the others, I just said that I will give you a chance to work for the Ten Thousand Dragons Temple, definitely will not go back on my word.”

Saying that, Ye Chen looked at Andre and said seriously, “Now I will give you a task, gather all the members of this Italian group of yours to me, say that there is something important to announce to them, remember, it is every one of them must be present.”

Andrei panicked in his heart and blurted out, “Mr. Ye you don’t think you want to wipe out our entire group

Ye Chen said with a sincere face, “Since I have said that I want you to join and serve the Ten Thousand Dragons Temple in the future, I will naturally not go back on my word, as long as you do as you are told, I promise on my character that I will never kill you; as long as your men are good and cooperative, I will never kill any of them either.”

With a slight beat, Ye Chen added, “You also don’t need to worry about me going back on my word, if I go back on my word and go back on my word in front of all the generals of the Ten Thousand Dragons Hall because of this bunch of rubbish like you, how am I going to convince the public in the future with these tens of thousands of people in the Ten Thousand Dragons Hall?”

When Andre heard this, he was slightly relieved.

Right now, he was not sure whether joining the Ten Thousand Dragons Hall would be good or bad, but at least one thing could be guaranteed, that is, if he joined the Hall, he would be able to survive.

After seeing Guo Lei being burnt to black, what was more important than staying alive?

However, Ye Chen’s face darkened at this time and he said in a cold voice, “But remember, this is the only chance I’m giving you, if you refuse to cooperate, then your fate will be the same as Guo Lei’s, I’ll give you ten seconds to think about it.”

Chapter 4057

As soon as Andre heard this, how could he dare to question or hesitate?

He had witnessed what happened to Guo Lei the entire time, and what he couldn’t wait for right now was to be able to live.

So he hurriedly nodded and said, “Mr. Ye, I am willing to cooperate with and willing to work for the Ten Thousand Dragons Hall!”

Ye Chen nodded and spoke, "I'll give you ten minutes, you and your men, make a list of all the members of the group and give it to me, remember, a list of all the members, no one is missing!"

Andre did not dare to disobey and hurriedly gathered several of his leaders and began to make a list of the group's members.

Ten minutes later, a large list of eight hundred and seventy people was made out.

After Ye Chen read the list, he said to Andre, "From now on, contact the group members who are not present on the list and tell them to come to the pier as soon as possible, and if there are people who cannot be contacted for the time being, mark them after their names."

Andre did not dare to say much and hurriedly led a group of leaders under the supervision of the soldiers of Wan Long Temple and began to call and send messages to their respective juniors, urging them to come to the pier as soon as possible.

At this time, Ye Chen called for Wan Bajun and instructed, "Bajun, send some men and horses to find out where those people they can't contact live, and kidnap all of them and bring them to me before dawn!"

Wan Bajun immediately said respectfully, "Yes, Mr. Ye, I'll go do it now!"

Earlier, Ye Chen had given Wan Bajun three tasks.

The first task was to protect Li Xiaofen's safety, and at the same time, to eliminate those who intended to do harm to Li Xiaofen.

This task had been completed by Wan Bajun himself.

the second task, was to make preparations on the cargo ship to bring Andre, Guo Lei and all their men under control.

This task was still completed by Wan Bajun himself with the generals of the Ten Thousand Dragon Hall.

As for the third task, all the members of the Italian organisation had to be put in place, all 800 people had to be present and no one was to be left behind.

Wan Bajun immediately asked his men to take half of his men and escort a group of Italian group members to search for those who could not be contacted at the moment, according to the list.

After giving the order, Wan Bajun said to Ye Chen, "Mr. Ye, this group of Italian syndicate members kidnapped a total of five girls, two of them were found in the car, and three were found on a small cargo ship at the pier.

Ye Chen asked, "What is the state of the five girls now?"

"Comatose." Wan Bajun explained, "We caught a few key people and tortured them, according to their explanation, these girls were injected with a large amount of narcotic sedative drugs and will not wake up before noon tomorrow."

Ye Chen asked again, "What about their original plan?"

Wan Bajun busily said, "Their original plan was to capture Miss Li and then send these six girls together to the high seas, and their superiors would go to the high seas to pick these girls up."

Ye Chen asked again, "Who is their superior?"

Wan Bajun explained, "They are not sure exactly who the superior is, the identity of the superior is completely confidential to them, they just send the people to the superior, who will take them to other countries to sell them, and then the superior will pay them the sales amount after the share, and the superior payment is also using cryptocurrency, no clues to the identity can be found at all."

Ye Chen said in a cold voice: "It still seems to be an organization with a very complicated structure and a very large scale."

"Right." Wan Xiaojun nodded and spoke, "It is said that this is a very large grey industrial chain in Europe and America."

Ye Chen frowned slightly and added: "Just this one gang, the Italian Group, kidnapped five or six girls, if this is several gangs together and each gang provides five or six girls, then this is at least twenty to thirty people, so many people missing at once, they are too blatant, right? Aren't they afraid that the Vancouver police will investigate?"

Chapter 4058

Wan Bajun nodded and said seriously, "I thought it was a bit strange at first, but after some interrogation, I found out that they have a complicated relationship with the police, and most of the target group are illegal immigrants, in addition to that, they will also threaten the families of the victims, layers of tactics to force them not to dare to speak out, so the paper data about the missing people in Vancouver is still relatively normal."

Speaking of this, Wan Breaking Jun added: "I heard that their superiors seem to come from a much bigger source, like Miss Li, a girl they consider to be of very high quality, are generally supplied to some rich people with a heavy hunting mentality in Europe and the United States, including some of the top hidden rich as well as socialites in Europe and the United States, the water behind is very deep."

Ye Chen asked, "Have you asked them clearly how to deliver people?"

"Asked clearly." Wan Bajun said, "They usually send the information of the girl they want to trade first, and the other party will set a time for the transaction, and send them the coordinates of the specific place of the transaction within a few hours before the transaction, so that they will sail to the designated place to meet them."

Ye Chen asked in a cold voice: "Then what time were they originally scheduled to leave for the sea tonight to deliver the girl?"

Wan Bajun said, "Three o'clock in the morning."

Ye Chen looked at the time and saw that it was already around two in the morning, so he gritted his teeth and muttered, "Since I'm in charge of this matter, I'll take care of all that is within my immediate power!"

After that, he said to Wan Bajun, "Bajun, leave this place to the others and tell them to gather all the people on the list before dawn, you go and gather a few of your powerful men, and take the Italian group members you have captured with you, let's go out to meet their superiors!"

Wan Bajun said without a second thought, "Yes Mr. Ye, I'll arrange it right away!"

.....

Ten minutes later.

Ye Chen boarded the ship, the cargo ship that was already under the control of Wan Breaking Jun's men.

This ship was not actually an a*set of the Italian group, but something they had temporarily leased over.

Ye Chen asked Wan Bajun to bring ten of his best men and kidnap a dozen more members from the Italian group who were specifically in charge of this line, then he started the freighter to leave the pier and sailed into the dark sea.

After sailing for more than two hours, according to the confessions of the members of the Italian group, the freighter was approaching a pre-arranged handover point.

The handover point was a GPS coordinate sent by their handler four hours earlier.

After the cargo ship arrived at this coordinates, the entire sea was dark and no vessel could be seen at all.

Ye Chen questioned the Italian group member who was responsible for driving the ship, "Where is your handler?"

The other party shook his head and said, "This I am not too sure about this, we all go to the specified place at the specified time and then wait for them to show themselves."

As Ye Chen looked around, there was no sign of a half-dozen ships on the sea in a dozen kilometres around, except for his own ship.

It took another twenty minutes of waiting before a ship finally came slowly from afar.

From a distance, it looked like a dot of light drifting slowly at sea level.

When the man driving the boat saw this, he hurriedly said, "They're here!"

Ye Chen stared at the point of light in the distance and said to Wan Bajun beside him, "Bajun, when the other side gets close, you should lead the men to quickly rush up and kill all those who have the ability to resist first, leaving a few tongues to bring over for questioning."

Wan Bajun nodded and said offhandedly, "Don't worry, Mr. Ye, my subordinates will definitely complete the task!"

Chapter 4059

Ye Chen knew very well that this kind of grey industry must have intricate roots behind it, and the entire chain, from top to bottom, was estimated to be spread throughout Europe and America.

Therefore, he also knew that it was impossible for him to completely destroy this industry chain.

However, since he had caught up with this mess and happened to run into this gang's deal tonight, Ye Chen still decided to teach this gang a little lesson.

Regardless of who the top man of these gangs in Vancouver really was, tonight, he would first wipe out the men sent by this top man to receive the goods, and then force some useful information out.

The fact that the entire Italian group had vanished in the morning, and that the people who had come to deal with them were also unaccounted for, would definitely serve as a wake-up call to the real bosses to at least stay away from Vancouver.

By now, the dot of light on the sea was getting closer and closer.

However, the other side stopped when they were still two kilometres away from the cargo ship.

Ye Chen's vision was better than normal, and even at a great distance, he could still easily tell that the other party was not driving a cargo ship, but a very luxurious mega-yacht.

The yacht looked to be nearly a hundred metres in total length, with six floors of construction above the deck, which made Ye Chen wonder, such a yacht was worth at least over a billion dollars.

He could not help but ask Wan Bajun beside him, "Bajun, these days, are all human traffickers in Europe and America so profitable?"

Wan Bajun also saw it clearly, so he was puzzled and spoke, "I'm not too sure, this boat does look worth a lot, and it's a bit too high-profile for them to use this kind of boat to pick up people, right?"

Wan Bajun's words reminded Ye Chen, who at this point waved his hand and said seriously, "Being overly high profile sometimes becomes a kind of low profile, to be honest, if I were to investigate which of the ships that come in and out of a port every day are suspected of smuggling people, then this kind of luxury yacht should be the last thing I would line up, even if we are surprised to see such a ship here. Everyone else must have felt the same way."

Wan Bajun nodded gently and said, "Mr. Ye has a point."

Saying that, Wan Bajun added, "However, those who can afford this ship should also have a rather distinguished background, it seems that population crimes do involve quite a lot of high society in Europe and America."

Ye Chen called a member of the Italian syndicate to him at this time and opened his mouth to ask, "Did you also dock this ship when you came to trade at sea before?"

The Italian syndicate member picked up the binoculars and after looking at it for a while, shook his head and said, "I have never seen this ship before, the people who came to dock with me in the past were all cargo ships, they usually hid people in special containers and when they arrived at the pier, a truck driver from the distribution side would pull the containers away, they would not use such a luxurious big yacht."

Ye Chen frowned: "How does the distribution side usually operate?"

The man was busy saying, "Normally, people are sent to the city where the distributing party is located, they will evaluate the people and keep the ones that meet the criteria to go to the auction, and the rest are packed and sold to some overseas criminal groups, this is the normal distribution channel."

Saying that, he thought for a moment, suddenly remembered something and hurriedly said, "But I seem to have heard that if there are top quality goods that are spotted by big shots in advance, the other party will send a ship to pick up the people directly, and will not go through this channel again."

Ye Chen asked after him, "What does this mean again?"

The other party hurriedly explained, "Generally speaking, before delivery, we will do some investigation on the target person, and then take some photos, and organize them into a profile to submit to the superior, who will give priority to the highest level VIP customers to go through the profile first, if there is no highest level VIP customer in here who has taken a fancy to it, they will go through the distribution channel normally, but if someone is the highest level VIP customer, they would directly skip the auction session, and the upper house would negotiate a price with the VIP customer and send the person directly to the VIP customer."

Chapter 4060

Hearing this, Ye Chen's expression gradually cooled down and asked, "So, among the six girls you are handing over this time, someone has been picked up by the highest level VIP?"

The other party nodded, "Although we have never encountered such a thing before, it should be correct."

Ye Chen's eyebrows knitted together, his intuition told him that the girl who was being looked at by the highest level VIP was probably Li Xiaofen.

Just at that moment, the ship's communicator suddenly rang.

A man's voice came out, "Vancouver 003, please respond when you receive."

The Italian group member looked at Ye Chen and asked nervously, "Do I have to answer?"

Ye Chen nodded and said, "Answer normally."

"Good."

The Italian hurriedly picked up his communicator and spoke, "Vancouver 003 received."

The other man's voice came over the communicator, "Bring the cargo you are delivering this time to the deck and prepare for the handover."

The Italian asked, "How do we hand it over? Do we send the men over or do you come and take them?"

The other man instructed, "Bring all the cargo to the deck first, make sure their faces are uncovered, we will send a drone to verify their identity first, and when it is accurate, we will send a speedboat to pick them up!"

The Italian was instantly nervous, he had never experienced such a handover process before, and as soon as he heard that the other party would also send a drone to verify their identities first, he instantly panicked.

He knew very well that the six girls, including Li Xiaofen, were not even on board at the moment.

And the other party was so cautious to verify their identities first, so how could this hurdle not be muddled through?

Ye Chen smacked his lips and said in a cold voice, "This gang is vigilant enough to use a drone to probe the truth first, this is something I really didn't expect."

Wan Bajun lamented, "These people are indeed very cautious, the distance they keep between them and us is also a range that normal automatic weapons can't hit at all, two kilometres away, to do damage to this ship, at least it must be heavy anti-material weapons, what we can get in Canada are some ordinary standard firearms with a range of a few hundred meters, if they notice the anomaly and turn around to escape, we really have no way to take them"

Ye Chen asked again, "If they were to run, would our ships be able to catch up with them?"

"Impossible" Wan Xiaojun shook his head and said, "Mr. Ye, this kind of luxury cruise ship, is definitely not skimping on the power configuration, it is like a Ferrari, while this one of ours, is like an old truck in disrepair, if he sails at full power, he must be much faster than us;"

"This freighter of ours, we'd be thanking the heavens if we could run at twenty knots, but that yacht of theirs, it's estimated to easily reach fifty knots, that's ninety kilometres per hour, at such a speed, it's undoubtedly a fool's errand for us to try and catch up with him."

Ye Chen nodded gently and spoke, "This way, we will first idle and slowly approach them, then you find a few soldiers with a smaller build, disguise them and lie down on the deck first, try to get as close to them as possible before they find out the end."

Wan Bajun was a bit puzzled and couldn't help but ask, "Mr. Ye, do you want to find a chance to get close to them and catch them? I feel that this may not be feasible" the other side is so alert, even if we can shorten the distance to one kilometre, the other side will just find out and run away at full power, we can't do anything to them"

Wan Breaking Jun felt that even if Ye Chen's strength was strong, it would be impossible to rely on two legs to chase a luxury yacht with a speed of over ninety kilometres per hour in the vast ocean.

However, Ye Chen said at this time with a cold face, "I don't want to catch up with it, I just want to finish it off!"
