

Ye Chen 4061

Chapter 4061

“Finish it off?!”

Wan Xiaojun’s entire body was dumbfounded when he heard Ye Chen’s words.

Thinking that Ye Chen had some misunderstanding about the situation between the two sides, he said, “Mr. Ye we don’t have weapons that can sink such a yacht”

Saying that, he seriously explained, “With our current firepower, even if we shorten the distance to five hundred meters, bullets hitting the other ship would be similar to scratching an itch.”

Ye Chen smiled blandly and said, “You guys don’t have it, I do.”

Before the auction, Ye Chen had refined a few amulets for protection.

It was also that time that, with the powerful aura of the Peiyuan Dan, Ye Chen had refined a new magic weapon for himself.

A magic weapon that was even stronger than the Lightning Stunning Order, the Soul Piercing Blade.

A magic weapon like the Thunderbolt Order was too powerful in attracting heavenly thunder, but it was not as powerful in killing the target.

But the Soul Piercing Blade is different.

The Soul Piercing Blade does not need to trigger a celestial transformation, and it is barely visible from the visual perspective.

Not only that, the power of the Soul Piercing Blade was also much greater than that of the Thunderbolt Order.

Back then, Ye Chen had tried it in the back mountain of the Champs-Élysées Spa Hotel. With just one layer of Soul Piercing Blade, he was able to cut down four big trees, and with ten layers of Soul Piercing Blade, even boulders could be turned into pieces.

Therefore, Ye Chen could conclude that as long as the distance was brought a little closer, ten layers of soul piercing blades would definitely be able to pierce that yacht!

As long as he could leave this yacht behind, by then, none of the people on this boat would be able to escape!

Although Wan Bajun did not know exactly what weapons Ye Chen had that could sink a yacht, but since Ye Chen had said so, he did not question it in his heart, so he immediately said, “Mr. Ye, then I will arrange for my men to prepare!”

After saying that, he turned to look at the pilot who was driving the boat and instructed, “Idle towards the target!”

The pilot nodded and carefully steered the cargo ship, approaching the other side at a very slow speed a little.

At this time, Ye Chen stepped out of the C*ckpit and stepped to the bow of the ship, his eyes fixed on the yacht in the distance.

Soon, Ye Chen saw a white four-rotor drone slowly rising up from that yacht.

This kind of civilian drone could be controlled by a seven-year-old child, and the image transmission was as stable as a dog within a few kilometres, when Hamid was in Syria, he relied on this kind of civilian drone to make the gullible Ten Thousand Dragon Temple suffer a big loss.

Ye Chen saw the drone flying towards the cargo ship and thought to himself, "This thing is flying fast, it can easily reach several dozen kilometres per hour, and two kilometres will only take two to three minutes.

But the cargo ship was creeping slowly towards the other side, and it could only drive 300 to 400 metres in two to three minutes.

So, he was bound to not let this drone get close, otherwise if the other side found out the problem and fled at full speed, it would be impossible for him to catch up.

So, he held the soul piercing blade in his hand, his eyes fixed on the fast approaching drone in the air, and with a slight movement of his aura, he immediately struck a soul piercing blade at the drone.

Ye Chen's Soul Piercing Blade had ten layers of Flying Blade Talisman superimposed on it when it was refined, while this Soul Piercing Blade only used one layer.

An almost silent and invisible energy quickly flew towards that drone.

At this moment, Wan Bajun's ears twitched slightly. Although this Soul Penetrating Blade was almost silent, Wan Bajun was after all an eight-star martial artist at his peak state, and his superb perception allowed him to clearly detect the presence of this power.

He was instantly shocked in his heart.

This was because he had not expected that Ye Chen would be able to release the energy within his body across the air, something that was almost impossible for a martial artist.

The internal energy of a martial artist could make a martial artist's senses sharper and limbs stronger, but it could not be separated from the martial artist's body either.

An eight-star martial artist like Wan Bajun could even pierce armour if his internal force converged on his two fists, but no matter how much internal force he used, he could not break a gla*s cup in thin air from a distance of ten centimetres away.

And the soul piercing blade Ye Chen had just struck was like a frog at the bottom of a well suddenly seeing a bigger world to Wan Bajun, instantly turning his perception of strength upside down.

Chapter 4062

At this moment, the drone was gaining speed, and on the yacht, a man in black had his hands on the remote control and his eyes on the image coming back from the drone, preparing to fly the drone to the deck of the cargo ship.

Suddenly, however, the drone burst into flames and the entire picture feed went black.

The man in black was startled and exclaimed, "The drone blew up!"

Another man came forward, frowned and asked, "What happened?"

The man in black was busy saying, "Team leader, the drone blew up just as it lifted off!"

"It blew up?" The team leader was instantly alerted and asked out of the blue, "How could it blow up? Is it under attack?"

"I don't think so." The man in black explained, "It's the middle of the night, not many people can hit such a small drone with one shot from such a distance, even the King of Guns in the army wouldn't stand a chance."

Saying that, he added, "I feel that there should be a problem with the lithium battery, maybe there is a bulge or defect in the battery, I just manipulated the drone to accelerate and the current was too high, so it blew up."

Hearing this, the team leader instantly relaxed a little and asked, "Any more drones? Put another one in."

"There is." The man in black nodded and then opened another black engineering plastic box at his feet, which also held a white drone.

He hurriedly checked the drone's fuselage, focusing on holding the battery in his hand and looking at it carefully, finding that the battery was not broken or bulging in any way, and that the power indicator was also fully charged, so he immediately took control of this drone and lifted it into the air.

However, the drone had just flown up when it once again repeated the same mistake.

The lithium battery was shattered by Ye Chen's soul piercing blade and quickly caught fire and exploded in the air, turning into a ball of fire and falling directly into the sea.

Seeing this, the team leader hurriedly questioned, "What is this again? Did something go wrong with the lithium battery again?"

The man in black was also a bit puzzled and said with a frown, "I shouldn't, I checked the battery this time and there is no problem"

The team leader was immediately alerted and said offhandedly, "Everyone take cover, there's probably a sniper!"

As soon as the words left his mouth, the crowd on deck bent down to take cover.

At that moment, someone suddenly shouted, "Vancouver 003 seems to be approaching us!"

The men hurriedly looked towards the lighted freighter on the sea, and when they did, they saw that the freighter seemed to have closed the distance between them.

The team leader picked up his communicator with a wary face and said in a cold voice, "Vancouver 003, Vancouver 003, please stop approaching us immediately and maintain a distance of at least one nautical mile from us, or else we will terminate the handover!"

Ye Chen stood on the deck at the bow of the ship and shouted to Wan Bajun at the door of the bridge, "Full speed ahead!"

Wan Bajun got the order and immediately rushed to the controls, pulling the throttle pusher of the engine to the bottom with one hand!

The cargo ship, which was moving slowly at an extremely slow speed, suddenly erupted with a violent shuddering of the engines and the ship's speed was instantly increased by a lot.

The men on that cruise ship had heard the roar from the cargo ship's engines, and the team leader immediately picked up the intercom and said loudly, "There's been a change in the situation! Full speed away!"

As soon as the words left his mouth, the pilot immediately turned up the engine to maximum horsepower, and a large wave of water and foam churned by the propellers gushed out from the stern of the ship at once.

"Want to run?"

Seeing that the other party was trying to escape, Ye Chen sneered and suddenly exerted his full strength, directly striking a ten-layer soul piercing blade towards the stern of the ship!

Ye Chen did not know how much damage the ten-layer soul piercing blade would do to the ship, but the people on this ship were not worthy of death in his eyes, so Ye Chen intended to use the ten-layer soul piercing blade to give them a shot into their souls!

Nearly 30% of the aura within his body was instantly drawn away by the Soul Piercing Blade, turning into an unparalleled energy that rushed towards the yacht violently!

Chapter 4063

A powerful force swept across the sea without a sound.

A second later, a loud boom was heard from the stern of the yacht!

Immediately afterwards, the power system at the stern was detonated and a huge cloud of fire rose into the sky with the shattered propellers and power system components!

The yacht, which was about to speed up and evacuate, instantly lost all power and came to a halt.

At this moment, everyone was dumbstruck.

Before this, he had always presumed that Ye Chen was a Dark Realm expert, but when he saw how easily Ye Chen could launch an invisible attack and knock a big hole through his yacht, he immediately realised that Ye Chen's strength was probably far above the Dark Realm!

Thinking about this, Wan Bajun felt more and more that his action of killing Ye Lingshan in the first place was really ridiculous.

At this moment, the people on the yacht were already dumbfounded by the sound of the explosion just now.

A young man's voice came over the intercom, "What was that explosion just now? Why isn't the boat moving?"

Another urgent voice came over the intercom from the pilot: "Young master! We've lost all power to the ship! It feels like the engine has been blown!"

The young man exclaimed, "sh*t, how did this happen? Are we under attack?"

The team leader on deck was busy saying, "Young master, if the explosion just now was caused by an external force, it would have to be at least a weapon like a Bazooka or RPG to be possible, but I didn't see anything attacking us."

The team leader, who had served in the military for many years, was extremely experienced in combat, and according to his professional knowledge, the explosion just now was more powerful than a normal large calibre anti-material rifle, and it had to be a weapon of the level of an RPG to be possible.

However, in the darkness of the sea, if the other party used a bazooka, it would be like setting off a big firework, and the noise would be so loud that it would be impossible for him not to detect it.

But just before the explosion, his eyes had been fixed on the suspicious cargo ship, and there was no sign of the other side using weapons to attack him.

He was surprised when he felt that the stern of the ship had suddenly sunk a little lower and the bow of the ship had been C*cked at a slight angle.

He guessed that the reason for the sinking of the stern must have been the explosion at the stern, which had caused water to enter the cabin from the stern!

Moreover, the water ingress must have been so severe that it had caused the stern to start sinking slightly.

If the water ingress continued to develop, then the stern would gradually sink into the water, while the bow would buckle higher and higher, and eventually the whole ship would sink ninety degrees vertically to the bottom!

Just then, the mechanic inside the cabin suddenly shouted over the intercom, "No good! A big hole has been blown in the stern of the ship, and seawater has poured in!"

The team leader's face changed and he shouted, "Everyone put on their life jackets and leave the ship immediately! Armed men, get ready for battle immediately! Old Chen, hurry up and launch the lifeboats, prepare to abandon the ship!"

As soon as these words were spoken, the dozens of people on board the ship panicked to the core!

Although most of them were well-trained bodyguards, they had never encountered such a dangerous situation before, and many of them were in a state of confusion.

More than twenty armed men rushed onto the deck, clutching assault rifles, and the group stared nervously at the approaching freighter, ready to open fire at any moment.

The young man's angry voice came over the intercom: "What did you say? Abandon ship? How are we going to get back to Seattle after we abandon the ship?"

Chapter 4064

The team leader said, "Young master, after we abandon the ship, I will escort you out of here in a lifeboat.

The young man said coldly, "I'm not going back in a f*cking speedboat for a few hours! You call your family and have them send a seaplane to pick me up right now!"

The team leader said, "Young master, we're in more trouble than just a sinking ship! The cargo ship on the other side is speeding up towards us, I think they have evil intentions, if we let them catch up, I'm afraid we'll be in danger! The first order of business now is to get you out of here!"

The young man asked rhetorically, "Are you saying that the Canadian mafia is trying to get at us?"

The group leader blurted out, "Most likely!"

"sh*t!" The young man cursed through clenched teeth, "Are these Sicilian hicks tired of living? How dare they dare to shout at me with that kind of power? Tomorrow I'll send a team to Vancouver to chop off their boss's head!"

The team leader said, "Young master, even if you kill the whole Italian group tomorrow, it doesn't matter, but the point is that we have to evacuate now!"

The other man seemed to have accepted the leader's advice, but he still cursed and said, "sh*t, the first time I've been out with you guys, the ship is about to sink, D*mn bad luck!"

Soon after, a young Asian man, flamboyantly dressed, came running out of the cabin.

He quickly made his way to the right side of the ship under the cover of several men, while the crew on either side were already preparing to put the ship's two lifeboats into the sea.

The team leader, seeing the freighter getting closer, shouted, "Hurry up, you guys! It will be too late soon!"

When the crew heard this, they were even more frazzled.

The two lifeboats were not normally suspended directly from the sides of the ship like the cargo ships, but were hidden inside the deck to ensure the yacht's aesthetic appearance. When releasing them, the deck cover needed to be opened first, and then a special lifting arm was used to lift the lifeboats from inside the deck, before they were turned to the sides of the ship and lowered.

So the whole process would have taken at least two or three minutes.

If it was in a normal situation, two to three minutes would be enough time to lower the lifeboats in case of any emergency.

However, the distance between the cargo ship Ye Chen was on and them was only a few hundred metres, so they did not have enough time to lower the lifeboats before the cargo ship rushed over.

Seeing that time was running out, the team leader hurriedly used his communicator again to shout at the freighter Ye Chen was on: "Vancouver 003, I'm warning you again, your ship must maintain a distance of more than one nautical mile from my ship! Please stop approaching my ship immediately, if you continue to approach, we will fire back!"

At this moment, the cargo ship was only less than five hundred meters away from the other side. Wan Bajun came to the bow of the ship with the walkie-talkie, and when he saw Ye Chen standing here calmly, he hurriedly asked respectfully, "Mr. Ye, what should we do next?"

Ye Chen said indifferently, "The next step is in your hands, I just have three requests: first, do not allow anyone to be let go; second, kill all those holding weapons; third, leave a few alive and bring them up for questioning."

Wan Bajun nodded, clasped his hands together and said respectfully, "Don't worry, Mr Ye, my subordinates will complete the task!"

The other party's yacht had already lost power, so it was naturally easy for Wan Bajun, and the other ten experts of the Tenth Dragon Hall, to deal with those armed men.

Ye Chen nodded and pointed at the young man on the yacht ahead who was being protected by multiple people and said, "I see that guy seems to have quite a special status, make sure to catch him alive for me!"

Chapter 4065

To Wan Bajun and the generals of the Ten Thousand Dragons Temple, the only thing that was holding them back earlier was the speed of the other party's yacht, which far exceeded that of the cargo ship. Even though they were all martial arts masters, they had no chance of close combat and they could only watch the other party escape.

But now, the other yacht had lost power, and the gang was at the mercy of others.

After receiving his orders, Wan Bajun immediately used the intercom to order, "Turn on all the horsepower, hit the stern of the yacht at ninety degrees, others get ready for battle!"

The cargo ship immediately adjusted its direction and rammed directly into the stern of the yacht!

The people on the yacht could see what the freighter was up to and were terrified.

The yacht had already lost power and was at the mercy of the other side.

The team leader shouted at once, "Quick! Everyone get ready for collision prevention!"

Some of the soldiers, who were still trying to raise their guns to fire when they saw the freighter crashing over, heard the team leader's reminder and hurriedly grabbed the fences on both sides of the deck with both hands.

The way the other side hit the stern of the ship at ninety degrees, they knew without thinking that the yacht would be thrown far out in the sea, and if they couldn't hold on, they would probably be thrown into the sea!

A few moments later, the freighter slammed into the yacht's still-burning stern, instantly sending the yacht's stern into a semi-circle in the sea.

The young master, protected by many people, barely managed to survive the impact, but he was thrown so badly that he couldn't even stand up.

The crew had just lifted the lifeboats from below deck when they were suddenly hit so hard that the right-hand lifeboat was thrown into the sea, but as the steel cable was still suspended from the hull, the boat was thrown out and hit hard on the right-hand side of the yacht.

The lifeboat on the other left was thrown directly onto the deck, instantly breaking the hull.

With this, both lifeboats were completely scrapped.

The group had no chance to escape.

The moment the collision was over, Wan Bajun gave an order, and ten soldiers from the Dragon Palace jumped from the cargo ship to the deck of the yacht with their guns, followed by the sound of gunfire!

All the generals of the Dragon Palace were martial arts masters and had undergone rigorous military training, so they stood firmly on the deck like a bell on a violently shaking hull, raising their guns and firing almost unaffected.

So all the bodyguards with guns were shot in the head in a matter of seconds!

The team leader, who had just pointed his gun at Wan Bajun, the next second, Wan Bajun had instantly killed him with great speed and grabbed him by the neck.

That team leader was terrified and said with great difficulty, "You are a martial arts master?!"

Wan Bajun nodded and smiled, "You're not bad either, you look like you're about to break through to a three-star martial artist."

The leader of that group was shocked and quickly said, "Senior, you are so strong, why do you want to serve a lowly Italian group?"

Wan Bajun laughed, "Who told you that I was serving the Italian group? My boss is far more powerful than me, a mere Italian group is just cannon fodder."

Saying that, Wan Bajun looked at him with interest and asked, "On the contrary, if you are a person of martial arts, why are you helping the enemy by following these trash who sell people?"

When that team leader heard this, he immediately lowered his eyelids in shame.

As the person in charge of this ship, he had indeed not been involved in such unconscionable things on a regular basis. Originally, he thought that his proprietor had a background and a backing, and he had nothing to worry about, but to his surprise, retribution had come at his word.

Wan Bajun looked at him coldly, then fiercely punched him fiercely at his dantian, and instantly, the powerful internal force shattered his dantian to pieces, and all his cultivation instantly went up in smoke and became a ruined man.

Chapter 4066

His entire body instantly fell to his knees in agony, and Wan Bajun threw him directly behind him and said to a member of the Ten Thousand Dragon Hall behind him, "Take him to the boat, except for him and the young boy in front of him, all the rest are finished off!"

At these words, several soldiers of the Ten Thousand Dragon Hall immediately rushed to the fence and raised their guns to shoot at those who had jumped into the sea, as well as those who had been thrown into the sea.

Wan Bajun, on the other hand, personally killed the young man whom Ye Chen had named to be kept alive.

Several other soldiers from the Ten Thousand Dragon Hall aimed at the entourage around the young man, firing one after another with precision point blank.

The young man's side was suddenly splattered with blood.

As he watched his entourage being shot in the head and falling to the ground one by one, the young man trembled with fear and fell to the deck, squirming backwards on his legs in a panic.

At that moment, Wan Bajun had already arrived in front of him.

The young man looked at Wan Breaking Jun with desperate eyes and blurted out, "I am the third young master of the American Qiao family, if you dare to kill me, the Qiao family will never spare you"

Wan Bajun laughed and said, "Now it's popular to come up and declare yourself, right? Well then, meet me, I am Wan Breaking Jun of the Ten Thousand Dragons Hall."

When the young man heard the words Wan Long Hall and Wan Bajun, his whole face was filled with shock as if he had been struck by lightning.

He naturally knew the great name of Wan Bajun and knew that Wan Bajun was the Hall Master of the Ten Thousand Dragons Hall, but he could not believe that such a strong character as Wan Bajun would make a move against himself.

Although the Qiao family was also somewhat famous in the United States, but in the final analysis, it was only the upper-middle class level in the United States, so how could it possibly mess with the Hall of Ten Thousand Dragons?

So, he subconsciously said, “You how can you be Wan Breaking Our Qiao family has never offended the Wan Long Temple Wan Long Temple How could you lay hands on me?”

Wan Breaking Jun sneered, “Why did he lay hands on you, you will know in a moment.”

After saying that, he walked forward and lifted the young man up like a chicken and took him directly back to the cargo ship.

At this moment, a dozen corpses were already floating on the sea, and more than a dozen were also falling across the deck of the yacht.

Several soldiers from the All Dragons Palace were ordered to start inspecting the yacht. They went deep inside the yacht, checked it out and found five more crew members hiding inside.

After shooting these five down, they did not find the kidnapped girl inside the cabin and withdrew immediately.

By this time, the stern of the yacht was sinking faster and faster, and the bow was buckling at a wider angle.

After all the soldiers of the Ten Thousand Dragons Temple had withdrawn to the cargo ship, the angle at which that yacht was tilted, had already exceeded forty-five degrees.

A few minutes later, the entire back half of the ship had sunk completely into the water and the front half was completely perpendicular to the surface.

At this point, the whole boat began to sink into the sea at a very fast speed, and after less than twenty seconds back and forth, it disappeared without a trace.

At this moment, all that was left on the surface of the sea was a pile of floating corpses, as well as the debris from the cruise ship’s explosion.

After staring at the water surface for a moment and carefully observing it, confirming that Wan Bajun and the others had not left any survivors, Ye Chen turned around and looked at the two people on the deck who were tied up and shivering, walked straight up to the young man and said in a cold voice, “Come, introduce yourself first!”

Chapter 4067

The young man looked at Ye Chen and said with a panicked expression, “Who the hell are you I have no enmity with you, why are you attacking me?!”

Ye Chen laughed: “No enmity? Among those six girls you are going to trade from the Italian group today, one of them is my sister, how dare you have the face to say to me that you have no grudges and no enemies?”

With that, Ye Chen directly took the pistol from Wan Bajun’s hand and fired a shot at his right leg.

With a bang, a bloody hole was made in the young man’s right leg, and along with his painful scream, a large amount of blood quickly gushed out from the hole.

The young man said in agony, "I just came over to pick up a few people, I don't know anything else ah"

"Is that so?" Ye Chen aimed his gun at his left leg and pulled the trigger without hesitation.

After a gunshot, the young man hysterically held his legs and wailed, the whole person was already on the verge of pa*sing out from the pain.

Ye Chen said in a cold voice: "If you say anything else I don't want to hear, I'll put a hole between your legs!"

The other party cried out in fear, trembling and begging, "No no I'll say I'll say anything"

Ye Chen coldly said, "First, introduce yourself, who is your last name and where you come from."

The other party cried, "I my name is Qiao Feiyu am the third young master of the Qiao family in Seattle"

"The Qiao family?" Ye Chen frowned and asked Wan Bajun, "Bajun, do you know the Qiao family?"

Wan Bajun pondered for a moment and said, "It seems to ring a bell, a family of Chinese descent, originally not too strong, all the a*sets combined are estimated to be only two or three hundred billion dollars, but in the past few years it has developed at a fast pace, the total a*sets are estimated to be close to a hundred billion dollars, and it has some influence on the west coast."

Ye Chen nodded, looked at Qiao Feiyu and said in a cold voice, "If your family has a*sets of a hundred billion dollars, why do you still want to do such harmful things? Is it to find excitement?"

Qiao Feiyu cried, "No it wasn't me who did it I just helped my big brother to go out to sea to pick up someone the rest I don't know anything about ah"

Ye Chen coldly questioned, "What kind of person did your big brother ask you to pick up?"

Qiao Feiyu did not dare to conceal it and hurriedly said, "In the information submitted by the Italian group this time, there is a girl named Li Xiaofen, my big brother asked me to pick her up and take her to New York"

Ye Chen had heard from the members of the Italian group before that the other party would send a yacht over to pick her up, and the odds were that some big man with a background had taken a fancy to one of the girls in this transaction.

Now that he heard Qiao Feiyu mention Li Xiaofen's name, he a*sumed that it was his big brother who had mischief in mind for Li Xiaofen.

So he immediately put his gun against Qiao Feiyu's head and questioned, "Isn't your Qiao family in Seattle? Why did your elder brother ask you to send Li Xiaofen to New York? Seattle to New York is at least 4,000 kilometres across the entire United States, isn't that asking for a distance?"

Qiao Feiyu was busy saying, "He said that a big shot from New York had taken a liking to that Li Xiaofen, and the other party wanted my big brother to send her there as soon as possible, that's why my big brother asked me to follow him over to pick up the goods, and also put me in charge of inspecting the goods"

"Goods inspection?!" Ye Chen slapped Qiao Feiyu's face hard, directly knocking out seven or eight of his teeth, and questioned in a stern voice: "You're still in charge of inspecting the goods? Are you f*cking tired of living?"

Qiao Feiyu hurriedly cried and explained, "It's not what you think" My elder brother asked me to inspect the goods, but to see with my own eyes whether Li Xiaofen's actual appearance was the same as the photo, and if I was sure that there was no discrepancy between the actual appearance and the photo, I would contact him immediately and he would send a seaplane over and send that Li Xiaofen directly to New York"

Saying that, he choked with aggression, "I would never dare to mess around with a girl who is normally looked at by a big shot"

Ye Chen originally thought that Qiao Feiyu's elder brother should be the big man who had taken a fancy to Li Xiaofen, but what he didn't expect was that this big man was someone else.

So, he immediately questioned, "Who is the big shot your big brother is talking about?!"

Chapter 4068

Qiao Feiyu hurriedly explained, "This I really don't know ah" I only know that person is my brother's top VIP, and all the top VIP's identity is only known to my brother alone"

Ye Chen turned to look at that team leader and said in a cold voice: "I ask you, is what he said true?"

That team leader nodded his head repeatedly and said offhandedly, "What the third young master said is true" Top VIP information, indeed only the eldest young master knows it alone"

Ye Chen frowned tightly and asked that Qiao Feiyu: "Your Qiao family is at least a hundred billion dollar family, why would you do this kind of underhanded hook?"

"This" this" Qiao Feiyu became stammering all of a sudden.

When Ye Chen saw him stammering and not speaking for half a day, he stamped his foot on the wound on his right leg and said in a stern voice, "Tell or not?"

Qiao Feiyu bared his teeth in pain and said in a panic, "I'll say" I'll say"

Then, he said in a trembling voice: "My big brother he" has long wanted to enlist as many of the top circles in Europe and America as possible, so" so he has formed a special supply chain"

Ye Chen frowned and asked, "What kind of supply chain? Supplying what! Women?"

Qiao Feiyu said in a panic: "Not just women" This supply chain" specializes" in providing all kinds of unseen services for those in the top circles" Whatever they want and want to

try, my brother will find a way to help them achieve it and satisfy those monstrous desires in their hearts

“Over time, many top people trusted my big brother a lot and would provide some favorable resources in many areas, and sometimes when they did any big projects, they would also pull on my brother, that’s why our family had the chance to develop rapidly in the past few years

Ye Chen was instantly furious and said in a cold voice, “Not only did you move up by kidnapping women, but you also put the idea on my sister Ye Chen, the Qiao family right, I’ll write it down!”

After saying that, he questioned, “Let me ask you, how many innocent girls has your brother harmed over the years?!”

Qiao Feiyu, seeing Ye Chen’s murderous aura, trembled in fear and said in a trembling voice: “No nor many

Ye Chen coldly snorted, raised his gun, and without hesitation, he shot him between the legs!

Qiao Feiyu’s crotch was instantly a bloody mess, he covered the wound in pain and rolled on the ground, wailing incessantly, cold sweat was already flowing layer after layer on the surface of his body!

Ye Chen stomped on Qiao Feiyu, who was rolling uncontrollably, and said in a cold voice, “I’ll give you one last chance, if you don’t tell the truth, I’ll have you lynched!”

Qiao Feiyu cried out with a loud wow, and then shouted in a near-collapse, “How many exactly I don’t know probably in the range of four or five thousand I’ve told you everything I know please spare me

“Four or five thousand” Ye Chen clenched his teeth, looked at Wan Breaking Jun and said in a stern voice, “Breaking Jun! I’ll give you two more tasks!”

Wan Bajun immediately stood up straight and said respectfully, “Mr. Ye, please give the order!”

Ye Chen said coldly, “First, send your men to investigate all the gangs in Vancouver, if any gang has been involved in kidnapping young girls and human trafficking, kill all the top five ranking executives of their gangs! Carve eight big words on their foreheads with a knife: “They deserved to die!”

Without hesitation, Wan Bajun said, “Don’t worry, Mr. Ye, I will complete the task!”

Ye Chen said, “Second task, send someone to the United States to investigate all the dirty things of the Qiao family!”

Wan Bajun asked, “Mr. Ye, do you want me to kill all the people in charge of the Qiao family?”

Ye Chen waved his hand and said indifferently, “Leave it to me!”

Chapter 4069

Hearing Ye Chen’s words, Qiao Feiyu was scared out of his wits.

He knew very well in his heart that this Mr. Ye, although he did not know what his origins were, even the Hall Master of the Ten Thousand Dragons Hall, Wan Bajun, had pledged his allegiance to him, so it was clear that this Mr. Ye must be very powerful in his own right.

The entire Ten Thousand Dragon Hall had tens of thousands of top mercenaries, the Qiao family could not possibly be a match for the Ten Thousand Dragon Hall, and if the other side really wanted to uproot the Qiao family, then he would definitely die at the front of the line.

So, he could only make a difficult voice and begged, “Mr. Ye how much money you want, just ask as long as our Qiao family can afford it, we will not hesitate please be noble and spare us this time”

Ye Chen looked at him and said in a cold voice: “It’s too late to beg for mercy now, you go first, after I find out who all your family members are involved in this series of events, I will send all those who are involved, to be reunited with you.”

Qiao Feiyu’s face was full of fear and he begged like a madman, “Mr. Ye, don’t, Mr. Ye, it was my elder brother who did this, I’m innocent! If you want to kill him, you should kill him, not me!”

Ye Chen sneered, “You knew full well what he was asking you to do, and you knew full well that what he was asking you to do was unconscionable, but instead of refusing, you still came to do it, this is knowingly committing a crime, those who knowingly commit a crime are not innocent, they deserve it!”

Qiao Feiyu was immediately scared and trembled violently, crying and saying to Ye Chen: “Mr. Ye, I am really innocent I am only twenty-two years old I don’t want to die Please spare my life Mr. Ye”

Ye Chen asked rhetorically, “Did the young girl word who was killed by you and your brother ever beg you guys like that? And what did you guys do?”

Qiao Feiyu hurriedly said, “I didn’t I didn’t get anyone killed I really didn’t”

After saying that, he pointed at the group leader beside him and said offhandedly, “He can testify for me!”

Ye Chen pointed his gun at the team leader beside him and questioned, “Then come on, did he get anyone killed or not, if you dare to lie, I will make you die even worse than he did!”

That team leader said offhandedly, almost without thinking, “Mr. Ye has had dozens of people killed by him, less and more than a hundred He and his brother are nicknamed Big and Small Yan King in the circle.”

When Qiao Feiyu heard this, he roared in anger, “Zhao Yinsheng, you ungrateful son of a b*tch! How did my brother and I treat you normally? How dare you bite me back now!”

Zhao Yinsheng immediately said righteously, “I’ve been displeased with you for a long time! It’s because you’re too harmful! I’ve always wanted to turn to the dark side, but I never found the chance! Now is the best time to do so!”

Ye Chen smiled slightly, looked at Qiao Feiyu and asked him, “What else do you have to say, Sir Qiao?”

Qiao Feiyu looked uneasily at Ye Chen and pleaded, "Mr. Ye As long as you can spare my life, whatever conditions you want, I will do my best to meet your demands"

Ye Chen smiled and said, "I have just one request for you."

Qiao Feiyu thought he had grabbed the straw that saved his life and said in a panic: "Mr. Ye, please speak!"

Ye Chen said in a cold voice: "Don't be a human being in your next life."

After saying that, Ye Chen suddenly pulled the trigger.

"Bang!"

A bullet, hit Qiao Feiyu's heart.

Qiao Feiyu, who had been shot in the heart, did not die for a while, his entire body instantly lurched, staring at Ye Chen with wide eyes and a face full of hatred, wanting to say something but unable to do so, and after whimpering a few times, he completely fell to the ground.

Ye Chen didn't even look at him again and turned to Wan Bajun and said, "Bajun, the eight big words I just said, carve them on his forehead first! Then put on his life jacket and throw him into the sea!"

"Okay Mr. Ye!"

Chapter 4070

Ye Chen looked at that Zhao Yinsheng again at this time and said indifferently, "Since you still have more or less a little bit of good and evil, I will give you a chance to live, but whether or not you can properly grasp it depends on your own willingness to cooperate properly."

Zhao Yinsheng was overjoyed and said, "Mr. Ye, don't worry, I will make good use of the opportunity!"

Ye Chen nodded and asked, "What do you know about the Qiao family?"

Zhao Yinsheng was busy introducing, "The Qiao family started in Seattle, in the early years engaged in foreign trade, when the Chinese manufacturing industry was on the rise, they seized the opportunity to import Chinese goods to Europe and the United States and made a lot of money, but as more and more people did import and export trade, their business in this area became increasingly difficult, and then the old man of the Qiao family abdicated and passed the power of the Qiao family to his eldest son, which is Qiao Feiyu's father, Qiao Bingcheng"

"After Qiao Bingcheng took over the Qiao family, he thought of many ways to revive the Qiao family's strength, but there was never much success. Later, when the eldest son of the Qiao family, Qiao Feiyun, who is also Qiao Feiyu's elder brother, was in university, he joined a secret society made up of top rich kids, and in this society, he met many descendants of big families or big shots in America"

"After Qiao Feiyun graduated from university, he began to take the initiative to contact some dark industries, specialising in providing special services to the descendants of those big families and big

shots, most of these people are somewhat psychopathic, with antisocial personalities, violent tendencies, sexual quirks and even some sadistic addictions, but no matter how perverted these people's needs are, Qiao Feiyun can find a way to cater and satisfy them well

“And because of this, Qiao Feiyun's connections in the top circles are getting stronger and stronger, many people need to rely on the services he provides to satisfy their inner perverted desires, and many of them also have all sorts of unseemly handles in his hands, which is why he is able to bind himself very firmly to those people

Speaking here, Zhao Yinsheng added: “Since Qiao Feiyun has played this piece of the supply chain to perfection, the Qiao family's business in other areas has also been overwhelming and rising, whatever he wants to do, he is able to find contacts and resources, and there are people who give him the green light, so the Qiao family has been developing very fast in the past few years!”

Ye Chen frowned and questioned in a cold voice, “This Qiao Feiyun, where does he usually operate? What are the main places where his grey supply chain is concentrated?”

Zhao Yinsheng was busy saying, “Back to Mr. Ye, the Qiao family's normal business is still generally concentrated in Seattle and the entire West Coast, but his grey supply chain is mostly around New York on the East Coast, because New York has the most wealthy people and his main clients are concentrated there.”

Said Zhao Yinsheng and said: “However, if you want to ask me, where exactly is Qiao Feiyun, this I really do not know because I am under Qiao Feiyun, is mainly responsible for picking up people on the West Coast, north to Vancouver, Canada, south to San Francisco, Los Angeles and Ensenada, Mexico , the rest of the business I'm basically not qualified to interfere.”

When he said this, Zhao Yinsheng remembered something and hurriedly said, “By the way, Mr. Ye, Qiao Feiyun bought an island in the Atlantic Ocean last year, and then brought in a lot of investment, and is in the process of building a big construction project, which is said to be a ‘playground’ far away from the US mainland, free from any constraints and absolutely safe. This ‘playground’ is the project he is most interested in at the moment, and he will probably go there often to inspect and supervise the construction!”

Ye Chen asked, “Where exactly is this island located?”

Zhao Yinsheng hurriedly shook his head and said, “This is highly confidential and I'm not sure
