Chapter 4351

“One billion dollars?!”

Fei Ke Xin’s words instantly sent the world into an uproar.

In third world countries, the civil compensation attached to a human life is only a few thousand dollars.

In developing countries, it is only a few tens of thousands of dollars or at most hundreds of thousands of dollars.

In developed countries, it is true that there are often cases of very high damages, but tens of millions of dollars are at the top of the scale.

And, those tens of millions of dollars are usually secured by top legal teams racking their brains.

So the victim really only gets a small percentage of it, and a large portion goes almost entirely into the lawyer’s pocket.

And when Fei Ke Xin asked for a billion dollars each, what a concept! Almost like paying out a listed conglomerate to each victim’s family!

The video footage shows that the girls who died at the hands of Fei Hao Yang were at least in excess of twenty.

This also means that the Fei family will have to come up with at least twenty billion dollars to settle this matter.

This this can no longer be described as wealthy and generous.

It’s simply reckless and costless!

Therefore, in this instant, Fei Ke Xin’s image became abnormally tall in everyone’s eyes.

What kind of boldness could make this woman compensate one billion US dollars each at the very first word?!

Moreover, a billion dollars was already enough for any family, anywhere in the world, to live in top luxury and not be able to spend it all in several lifetimes.

This kind of compensation is unheard of! And impeccable!

I don’t know who applauded first, so the whole release hall became thunderous with applause that lasted forever!

What Fei Hao Yang had done had indeed made everyone gnash their teeth, but the attitude Fei Ke Xin had just demonstrated and the solution she had proposed had indeed convinced everyone.

Not shirking any responsibility, not avoiding any sensitive factors, and at the same time making up for the mistake at all costs, Fei Kexin’s solution had made it impossible for anyone to pick any fault.

Therefore, at this moment, everyone’s negative feelings towards the Fei family instantly dissipated.

However, Fei Ke Xin wasn't finished at this point.

She waited for a few minutes, but did not wait for the applause to stop, so she could only hold out her hand to signal for everyone to stop clapping.

After waiting for about another minute, the applause finally stopped gradually.

Fei Ke Xin continued, "Specifically for the payment of this money, we will first fully communicate with the police, and after identifying the victim, take the initiative to contact the victim's immediate family and pay the compensation to the victim's immediate family; if the victim has no immediate family, we will donate the money to the women and children's rights protection organisation in the victim's birthplace, and the details of the donation will then be We will disclose it to the whole society and accept the supervision of the whole society."

When Fei Ke Xin said this, the stage once again thundered with applause.

So far, the crowd had never seen any gentry noblemen who could handle their own scandals so well beyond expectations.

In the past, the first thing those gentry did after making a mistake was to clear the air, and when they couldn't, they would find a whole host of excuses to justify themselves, or even simply play dumb and not respond.

However, Fei Kexin's handling of the matter was perfect in everyone's eyes, and was a textbook crisis PR exercise for all the top families.

It was only that the cost of this PR was also really high, with a compensation of 20 to 30 billion US dollars at the first instance, which even the top tycoons might not be able to have such courage.

Seeing that the crowd was so appreciative of her solution, Fei Ke Xin was finally relieved.

She knew that this crisis communication had been successful.

Although she had represented the Fei family and taken most of the blame, her attitude was sincere enough and her solution reasonable enough, so she had instead gained the forgiveness of the public.

This is what Ye Chen said, setting a dead horse.

Standing up straight and taking a beating is always much more painful than being scolded with your head covered.

Chapter 4352

The beating is just this one, as long as the beating doesn't kill you, you can stand up your backbone and be a human being in the future.

However, once you choose to hide with your head covered, you are doomed to hide for the rest of your life, and you will not be able to stand up your backbone for the rest of your life.

This is true not only for a family but also for a country.

For those countries that have waged wars of aggression, those that have chosen to admit their mistakes and make positive reparations have been forgiven by the vast majority of people, while those that are unrepentant and never admit their mistakes have been nailed to the pillar of shame.

At this point, Fei Kexin faced the media reporters and continued, "Here, I would like to solemnly state that we are not simply trying to solve all the problems with money, we just want to try to make up for the harm that Fei Hoang has brought to these families, and at the same time we dare not ask for forgiveness from the victims' families, we only hope that they can welcome the new life that belongs to them after the great grief. "

Even though Fei Hao Yang has been severely punished, the guilt in our hearts is still hard to overcome. I'm sorry!"

As soon as the words left his mouth, Fei Ke Xin walked out of the lectern and bowed deeply to everyone.

Fei Jianzhong, Fei Shanhai and Fei Xuebin, who followed her, all hurriedly followed her and bowed deeply in apology.

Only after a long time did Fei Kexin stand up straight and said aloud, "From today onwards, we will disclose the progress of the compensation work to the outside world every day. I will later instruct the Group's technical department to develop the Group's homepage and add a real-time information release interface, so that everyone will be able to see all the details of the follow-up of this matter on the official website of the Fei Group. major incident, we will also hold a press conference to announce it to everyone."

After saying this, Fei Ke Xin continued, "That's it for today's conference, thank you all! Thank you!"

The press conference was over, and public opinion about the Fei family went from universal accusations at the beginning to instant praise.

Fei Ke Xin's handling of the situation left everyone speechless and made the vast majority of people appreciate her, in front of the television set and on the internet, people were not shy about praising her.

After watching the entire launch in the hotel's living room, Ye Chen was also very positive about Fei Ke Xin's normal performance. He knew that as long as Fei Ke Xin could actually put her promise into practice, this hurdle for the Fei family would be over.

However, his wife, Xiao Churan, was still watching the TV at this moment, with a shocked face, unable to speak.

After a long time, she asked Ye Chen with a bewildered expression: "Honey this Miss Fei should be Zhan Fei'er, right? I see that she is very similar to Fei'er in every way, even her voice is very similar"

Previously, Fei Kexin had always been close to Xiao Churan under the name of Feier Zhan, and had even become good friends with Xiao Churan. After Fei Jianzhong was usurped by his son some time ago, after Ye Chen had Su Ruoli take Fei Kexin on board, Xiao Churan had lost her contact information.

During this period of time, Xiao Churan had been somewhat worried about Fei Ke Xin's safety, but when she watched the Fei family's launch today, she realized that the Fei Ke Xin who was wearing a

professional suit at the launch had a surprising 90% resemblance to Zhan Feier, so much so that her entire body fell into a kind of bewilderment.

Ye Chen could only play dumb at this time and said, "It does look very similar, but it's not the same person, I can't say"

Xiao Churan said somewhat disheveledly, "It should be one person I haven't been able to contact her recently and thought something had happened to her"

After saying that, she looked at Ye Chen and asked with a puzzled expression, "Honey, why do you think she has to hide her identity from me?"

Chapter 4353

Xiao Churan had been promised to Ye Chen by her grandfather in advance before she graduated from university, and she had been a transparent person in the Xiao Group after their marriage, so she didn't really have much life experience apart from having seen the sinister nature of Xiao's family.

In her limited social experience, she really could not understand why a person would want to use another identity to make friends with someone else.

If the other person was deliberately trying to harm herself, then it would naturally make sense for her to use a false identity.

However, in the midst of her relationship with herself, instead of lying to her, Fei Ke Xin had done herself a great favour by introducing herself to her idol, Kerri West, and had also secured a place in a master class for herself.

So it was all the more reason why she couldn't understand why Fekosin had done so.

Still, the fact that Fei Kexin was hiding her identity made her feel low because she had genuinely considered Fei Kexin as a good friend, but never thought that in the end, her best friend's identity was all fake.

Thinking that she had invested her heart, but did not even know the other party's true identity, Xiao Churan could not help but have her eyes reddened.

Seeing that she was depressed, Ye Chen knew that she must have some disappointment in her heart, so he spoke up and comforted her, "Honey, you don't need to think too much, look at how big she is, her family has trillions of dollars, she definitely can't reveal her true identity, otherwise there's no telling how many people would move against her."

Xiao Churan sighed lightly and said, "I can understand what you said, but I still have a feeling of being cheated, you know I don't have many friends in the first place, and I truly consider her a good friend"

Hearing this, Ye Chen's heart felt a pang of melancholy.

He really did not dare to imagine what kind of feeling Xiao Churan would have if she knew her true identity.

So he could only excuse Fei Ke Xin, "Wife, you don't need to be so sad about this matter, I think she must have her own hardships, moreover, this identity of Zhan Feier may not be fake, many of the truly rich people have several identities, and each identity is real, only the nationality and name of each identity are different, maybe she just chose to use Zhan Feier as an identity to go to China."

"Is that so?" Xiao Churan seemed to be in a better mood when she heard Ye Chen explain like that, but she still asked with some doubts, "Then what do these rich people need so many different identities for?"

Ye Chen laughed, "As the saying goes, there are still three caves for cunning rabbits, let alone such top tycoons. Some countries don't allow their citizens to have dual citizenship or multiple citizenship, in this case, they have to use multiple identities to solve this problem, just like those secret agents in the movies you often watch, every agent has several passports and several identities, these are also very normal."

Saying that, Ye Chen continued comfortingly, "Think about it, since people are the Miss Fei family's golden girl, they have travelled thousands of miles to China, they themselves are unfamiliar with the country, if they are using their real identities, what if they are kidnapped?"

Xiao Churan nodded with great understanding and said seriously, "You're right, I'm the one who's a bit narrow-minded"

Ye Chen laughed: "You're not really narrow-minded, you're just too easy to put true feelings into people, so you can't accept it a bit in your heart all of a sudden."

The oldest one is called Fei Jianzhong, who was the original head of the Fei family, and was later given more power by his son Fei Shanhai not to mention that his son was rumored to have wanted to kill him at one point to end the trouble. "

Chapter 4354

"Ah?" Xiao Churan exclaimed, "How can there be such a bad person who won't even spare his own father?"

Ye Chen nodded and said, "In the face of powerful interests, no relationship is 100% reliable."

I heard a gossip a while ago that this Fei Jianzhong and Fei Kexin disappeared together, and the internet said that they must have been killed by Fei Shanhai, but now it seems that they should have gone into hiding and then returned to the US to take back control, which would explain why Miss Zhan, oh no, why Miss Fei would leave without saying goodbye and suddenly disappear I guess she must have been hiding from the chase at that time, so she didn't contact you."

Xiao Churan nodded gently, her low mood having eased a lot, and said softly, "If that's true, Miss Fei is indeed not easy"

Ye Chen nodded and smiled, saying, "You don't need to think too much, since she has now become the head of the Fei family, she must no longer have any worries, I believe she will soon contact you and explain the situation to you personally."

Xiao Churan said somewhat sheepishly, "To be honest, I am quite afraid that she will contact me"

Ye Chen asked in confusion, "What's wrong?"

Xiao Churan seriously said, "Not only is she a thousand-year-old girl from a top family, she is now the head of the whole family, compared to her, someone like me is simply too mediocre to be qualified to be her friend"

Ye Chen seriously said, "Wife, at no time should you presume to be inferior to anyone, in my eyes you are not inferior to anyone."

Saying that, Ye Chen smiled and said jokingly, "Moreover, you may think that the other party is a thousand-year-old daughter of a big family, so you can't afford to climb high, but others may also feel that they can't climb high because you are Master Ye's wife."

Xiao Churan thought that Ye Chen was teasing himself, so he couldn't help but joke about it, saying, "People call you Master Ye, and you really think you're a master. arrested, it's not even once or twice"

Ye Chen laughed: "Wife you can rest assured, reading feng shui this kind of thing, a willingness to fight a willingness to suffer, how can the police arrest me"

Xiao Churan nodded and said, "Later on, I found out that you have a good relationship with all your clients and they all trust you, so I am not so worried anymore."

Saying that, she asked Ye Chen, "Honey, are you still going to New York today?"

"Yes." Ye Chen said, "I'll go there after I drop you off at school later, Miss Gu's first concert starts tomorrow, and I have to open her performance venue today."

Xiao Churan was busy asking, "Then can we go to New York to see her concert tomorrow?"

Ye Chen was a little hesitant for a moment.

Originally, he had indeed planned to take his wife to see Gu Qiuyi's concert.

And it was to see both New York and Boston.

However, ever since Gu Qiuyi had been ordered to go to Grandpa's house to deliver medicine to Grandpa for himself in a crisis, Ye Chen had been more or less worried in his heart.

He was not sure if Grandma and the rest of Grandma's family would go to her concert out of gratitude to Gu Qiuyi.

So, when he went to New York today, Ye Chen planned to go to the venue to have a look, if there was a VIP box with good privacy, that would be great, if not, then he would have to consider making up a pretext to persuade his wife to give up this concert in New York!

Chapter 4355

Fei Ke Xin solved all the troubles of the Fei family at once, but immediately afterwards, more new video evidence was exposed on the internet.

However, the protagonists of these evidences were no longer Fei Hao Yang, but those wealthy New Yorkers, as well as the sons of aristocrats, who were found tragically dead in the Hudson River this morning.

This, in turn, exploded around the world.

The public's attention immediately shifted from the Fei family to these big families.

And those big families did not even care to grieve over the tragic death of their own family members, they immediately had to have a headache over how to dispel the public's anger.

Although Fei Ke Xin had already given them a sample, her solution was simply too expensive for the others.

These money-hungry families would not be willing to pay a billion dollars for each of the victims' families until they had to, and asking them to pay that much would be more unacceptable than asking for their lives.

However, these were no longer the issues that Fei Ke Xin needed to consider.

Immediately after the launch, she called Ye Chen, and when the call was answered, she asked with unparalleled devotion, "Mr. Ye, did you see the launch of the Fei Group just now?"

Ye Chen smiled and said, "I saw it."

Fei Ke Xin asked, "Then do you think you are still satisfied with the solution I have proposed?"

Ye Chen said seriously, "I think you have handled it well enough, and I believe that under your impeccable handling like this, the Fei family will soon be able to get out of the gloom of Fei Hao Yang."

When Fei Ke Xin heard Ye Chen's praise, her heart was not only relieved, but also a little more shy as a young girl.

She then said to Ye Chen, "Thank you for Mr Ye's approval, I will complete the verification of the victim's information and the payment of compensation in the fastest time possible."

"Good." Ye Chen gave a slight pause and asked her again, "Now that you have officially become the head of the Fei family, what are your next plans?"

Fei Ke Xin said, "I have only planned two things during this recent period of time, the first thing is to settle the mess left behind by Fei Haoyang; the other thing is to take the time to familiarise myself with and sort out the group's affairs and get up to speed as soon as possible."

Ye Chen instructed, "In fact, your immediate priority now is not to familiarise yourself with the business, but to purge the team."

Fei Ke Xin was busy asking, "Mr Ye, what you mean is"

Ye Chen reminded, "You should not forget that the current board members of the Fei family are the same group of people who kicked your grandfather out in the first place, your immediate priority now is to take back all of their voting rights and veto power in the board, only then will your position be the safest."

Fei Ke Xin said with some concern, "The members of the board of directors, apart from the direct members of the Fei family, are basically relatives of the Fei family, as well as some of the backbone of the Fei family, I have just taken office now, the smooth running of the group still needs them to maintain, if I strike at them first at this time, I am afraid that they will unite to overthrow me, or simply quit."

Ye Chen said seriously: "These people have stood on the wrong team once, and now that you have become the new head of the family, they must be very panic-stricken in their hearts, afraid that you will look for them to settle accounts afterwards, so at this time, you must not let them worry for nothing, you must first settle the previous accounts at the first time, otherwise, if you turn over this one today, then they will think that the original stand There is no consequence for being on the wrong team, and they will only be more reckless next time."

He said, "Right now, you have two extremes in front of you, either you take this opportunity to completely convince them and make them fear you, or you let them take this opportunity to see your weaknesses, so that they can become more aggressive in the future. Zero."

Fei Ke Xin fell silent all of a sudden.

She knew that what Ye Chen said was correct.

At this time, she should indeed be tougher and put up the authority of the family head.

Chapter 4356

It was just that one person confronting the entire board of directors made her more or less like a mane, and she did not know exactly where to start.

Ye Chen spoke up at this time: "I have the impression that in most groups, shares and voting rights correspond in equal proportion, if a person holds 10% of the shares, correspondingly they have 10% of the voting rights, if a person holds more than 51% of the shares, the voting rights are also more than 51%, theoretically they are the absolute controlling majority shareholder, right?"

Fei Ke Xin was busy saying, "That's right Mr. Ye, that's right."

Ye Chen added: "But for many large groups, because of the large number of businesses and shareholders, and because they have listed public offerings to issue shares, the equity dilution is so great that in many large groups, the single shareholder with the largest shareholding may sometimes be only twenty to thirty percent, right?"

"Yes." Fei Ke Xin said truthfully, "The vast majority of listed companies are like this, take Apple, which has a market capitalisation of more than two trillion dollars, the largest shareholder, Pioneer Group, holds only about seven percent of the shares."

Ye Chen said, "So in this case, it is necessary to implement the system of AB shares, taking away the voting rights of other shareholders without depriving them of their shares, even if you cannot achieve an absolute holding of more than 51%, you must at least hold more than 51% of the voting rights in your hands, only then can you ensure that others cannot shake your foundations."

Saying that, Ye Chen added: "You have to remember that today, is the day those shareholders fear you the most, no matter if you make or not make them pay today, after today, their fear of you will be lessened, so you must seize the opportunity."

Hearing this, Fei Ke Xin's entire body was enlightened.

Ye Chen was right, the current board members must all look like suspects who had committed a crime and were waiting to be sentenced.

They were all ready to receive punishment themselves, and if they didn't take this opportunity to suppress them for a while, then they would create a feeling of impunity after today.

In that case, they would only become more arrogant.

Thinking of this, she immediately said to Ye Chen, "Mr. Ye, thank you for your reminder, I understand, I will convene a board meeting later and ask all board members to surrender all the voting rights corresponding to their shareholdings!"

Ye Chen smiled in satisfaction, "Then I will wait for your good news."

Just then, one of the group's public relations managers walked over in stride and said to Fei Ke Xin, "Chairman, Inspector Li Yalin from the New York Police Department is here, and he says he has something important to ask you."

Fei Ke Xin frowned and spoke, "He should be here for the matter of Fei Hao Yang, let you take up this matter with him, I have other things to do, so I won't meet with him."

The PR manager immediately nodded and said, "Okay, then I'll go and communicate with him."

Fei Ke Xin was about to speak when she heard Ye Chen on the phone speak, "Miss Fei, since Li Yalin ran over to you, then you might as well meet him and see what he really wants."

"Okay!" Fei Ke Xin immediately agreed and said to the PR manager, "You can let Inspector Li in."

Ye Chen spoke at this time, "Miss Fei, you don't have to hang up, I want to hear what Inspector Li wants to do."

"Okay Mr. Ye." Fei Ke Xin said and put the phone into her pocket.

A moment later, Li Yalin walked in with big strides.

After he saw Fei Ke Xin, he got straight to the point and asked, "Miss Fei, where is Miss Su Ruoli Su, the one you went back to New York with, now? I have something to ask her face to face!"

Chapter 4357

Hearing Li Yalin suddenly ask about Su Ruoli, Fei Ke Xin's heart, all of a sudden, tensed up.

She knew that Su Ruoli's identity was relatively sensitive, and if Li Yalin had set his eyes on Su Ruoli, he was afraid that he had already suspected the Ten Thousand Dragons Temple.

Moreover, Fei Ke Xin also knew very well that if Li Yalin came directly to Su Ruoli, he must have information about Su Ruoli entering the country with himself, and he definitely could not play sloppy with Li Yalin at this time, otherwise, if Li Yalin bit the bullet, he would definitely be in trouble.

On the other hand, when Ye Chen on the other end of the phone heard that Li Yalin had come looking for Su Ruoli, he likewise realized that Li Yalin must have taken Su Ruoli as a breakthrough.

At this moment, Ye Chen couldn't help but feel a bit chagrined in his heart. He had initially asked Su Ruoli to escort Fei Ke Xin to Syria, only considering that Su Ruoli was completely trustworthy, and being a woman, it was also convenient for Fei Ke Xin to be closely protected and taken care of.

The reason he had asked her to bring Fei Kexin to the United States was because of the suddenness of the incident and the need to bring Fei Kexin back to inherit the Fei family, so it was only natural that he had asked Su Ruoli to escort Fei Kexin to New York.

However, he now realised that he should not have let Su Ruoli enter the country in New York. Once he entered the country, he would naturally leave behind entry information, and Su Ruoli's own fame was relatively big, so it was inevitable that he would be targeted.

So, he immediately sent a text message to Su Ruoli using WeChat, which read: "Ruoli, Li Yalin is already on to you, he is at the Fei Group, leave New York immediately and go back to China through special channels, let Wan Bajun take care of the rest!"

After the message was sent, he heard Fei Kexin say to Li Yalin on the phone, "Inspector Li, I take the liberty to ask, I wonder what you want to do with Miss Su?"

Li Yalin was not ambiguous and said directly, "There is information that she has joined the Ten Thousand Dragons Temple some time ago, so I want to consult her about matters related to the Ten Thousand Dragons Temple."

Fei Ke Xin said very seriously, "Inspector Li, Miss Su is my guest here in New York, and she entered the United States through legal channels and is also a green card holder, so it's not appropriate for you to come here so aggressively to ask her questions when she has not committed any crime?"

Li Yalin said in a cold voice, "Miss Fei, according to American law, I have the right to question backed by the law in the jurisdiction I am in charge of, so I also hope that you will not interfere with my normal law enforcement."

Hearing this, Fei Ke Xin knew that Li Yalin was resolute, so she thought to herself, "Mr. Ye is listening over the phone right now, I think he will definitely inform Ruo Li to respond in advance, I have to buy a little time for Ruo Li no matter what!"

With this in mind, she put away her friendly attitude from earlier and said very forcefully, "Inspector Li, I know you have the right to ask questions, but I also have the right to refuse to answer your questions."

Li Yalin snorted coldly, "Miss Fei, I know that Su Ruoli is at your Fei Group's headquarters, if you let me meet with her, then I won't make this matter too difficult for you, but if you insist on going against me, then don't blame me for putting your entire Fei Group on lockdown."

Fei Ke Xin nodded: "If Inspector Li feels the need to blockade, I have no problem with that, but I would like to remind Inspector Li that blockading Fei's group requires legal authorization documents, not to mention that I have so many journalists here right now who are preparing to withdraw, so if you blockade them in as well, you better have a legal enough reason. "

Chapter 4358

When Li Yalin saw that Fei Kexin was not greasy, he opened his mouth and threatened, "Miss Fei, I think you know the identity behind Su Ruoli, if I go back and apply for a search warrant to seal off the place, then if the media reporters ask about it, I will answer truthfully and suspect that Fei's group has a relationship with Wan Long Temple, how will Miss Fei explain to the American people then? "

Even if she is a member of the Ten Thousand Dragons Temple, I would like to ask, "Is there a law in the United States that prohibits American citizens from being friends with members of the Ten Thousand Dragons Temple? "

Li Yalin said in a cold voice: "Miss Fei, I think you should know that your nephew Fei Hao Yang and the other people who were killed last night, all died at the hands of the Hall of Ten Thousand Dragons, and you can hold a press conference today as the chairman of the board, you must also be related to the Hall of Ten Thousand Dragons!"

At this point, Li Yalin raised his voice a few notches and threatened, "Miss Fei, if this matter were to get out, do you think the outside world would think that the reason why Fei Hao Yang died was because you, Miss Fei, had reached some kind of cooperation with the Hall of Ten Thousand Dragons in order to fight for the family succession and hired the Hall of Ten Thousand Dragons to exterminate your family? When the time comes, we might even have to investigate you on suspicion of murder for hire, which I'm afraid will affect the future you've managed to secure with great difficulty!"

Fei Kexin said, "It doesn't matter, if Inspector Li wants to investigate, he can do so without worrying, I Fei Kexin will cooperate fully, it doesn't matter even if the outside world is suspicious, the innocent will clear themselves, I won't be coerced by you for something I didn't do!"

"Good!" Li Yalin saw that Fei Kexin was not greasy, so he spoke up and said, "Miss Fei, I might as well tell you, when I came up here, I already asked the relevant staff downstairs, I showed them Su Ruoli's photo information, they all told me that they saw Su Ruoli accompany you in and never left, so I believe that Su Ruoli is definitely in Fei's group now. "

After saying that, he looked at Fei Ke Xin and said in a cold voice: "If Miss Fei is willing to cooperate, call Su Ruoli over now, if you insist on refusing to cooperate, then I will have to order the headquarters of Fei's Group to be temporarily closed, when things get big, Miss Fei will be responsible for all the consequences!"

Fei Ke Xin smiled slightly, hugging her shoulders, and said lightly, "I'm not going to lie to Inspector Li, although I'm not old, I've seen almost all kinds of big battles, you don't need to bully me here, if you want to close down the Fei Group, then be my guest!"

At this moment, Fei Ke Xin, believed that Ye Chen must have already informed Su Ruoli in advance.

With Su Ruoli's thunderous style of action, she was probably already on her way to the airport by now.

Therefore, she was not the least bit worried about Li Yalin closing Fei's group.

Li Yalin was furious in his heart, his successive defeats had made him lose his mind somewhat. At this moment, he angrily took out his mobile phone, called his men and ordered, "From now on, block all entrances and exits of Fei's Group, and do not allow anyone to leave for the time being!"

The henchman asked in surprise, "Inspector Fei's group has hundreds of reporters ah is this action a little too big?"

Li Yalin looked at Fei Kexin and said in a cold voice: "I now suspect that the chairman of Fei's group has links with overseas terrorists, you immediately seal off the entire Fei's group, I'll call the chief to come over with a search warrant now!"

Chapter 4359

To Li Yalin, Su Ruoli was the only clue he could find at the moment.

Therefore, he knew very well that if he wanted to solve the case, he had to find Su Ruoli first, and then find a way to dig deeper into other clues related to the Ten Thousand Dragons Temple from her body.

Otherwise, once Su Ruoli and the people from the Ten Thousand Dragons Temple withdrew from the United States, then this series of lynching execution cases that happened in New York this time would not only have no chance of being solved, but would also become the biggest shame of his own career as a police officer.

As a police officer, he naturally abhorred the abuse of lynchings.

In his view, it was the police's responsibility to fight crime, not that of other social groups.

Moreover, other social groups do not have any power to enforce the law, and once they lynch, it is an outright crime, even if it is to punish evil and promote good, they should be sanctioned by the law.

Therefore, he was now determined to find Su Ruoli out, and he believed that as long as he did not give Fei Ke Xin any chance to tip him off, Su Ruoli would definitely not leave the place.

Because of this, after he hung up the phone, he said to Fei Ke Xin, "Miss Fei, I now need you to take out your mobile phone and put it on the desktop, and at the same time, you are not allowed to touch any more communication devices in the room."

Fei Ke Xin was going to promise him straight away that if she pressed the lock screen button twice in a row when she took out her phone, her call with Ye Chen would hang up and automatically lock the screen, and would definitely not be noticed by Li Yalin.

But on second thought, she felt that if she agreed to do it too easily, she would definitely give Li Yalin the impression that she had a plan for this matter.

So, she said in a cold voice, pretending to be nervous, "Inspector Li, I have always treated you with respect, but please don't go too far! What right do you have to restrict my personal freedom?"

When Li Yalin saw that Fei Ke Xin was a bit weak, he immediately took advantage of the situation and said unceremoniously, "I now suspect that you are in close contact with the criminals, so in order to

prevent you from tipping off the criminals, I have the absolute right to restrict your contact with the outside world! If Miss Fei is not convinced, she can always sue me in the Federal Court when this matter is over!”

Fei Kexin insisted, “I’m going to inform my lawyer! It’s my right!”

Li Yalin sneered, “Sorry Miss Fei, you are now closely associated with terrorists and have threatened the homeland security of the United States of America, so you cannot contact your lawyer during extraordinary times!”

After saying that, he warned, “Miss Fei, I repeat, you take your phone out and put it on the table immediately, or else I will do it myself!”

Gritting her teeth, Fei Ke Xin reached for her phone in her pocket in mock indignation, and incidentally, she pressed the lock screen button twice in succession to hang up the phone and lock the phone.

She then took the phone out of her pocket and laid it on the table, looking angrily at Li Yalin as she asked, “Are you satisfied?”

Li Yalin smiled contemptuously and said indifferently, “Miss Fei, I hope you understand what kind of a mistake you are making, if the final evidence points to you having cooperation with the Ten Thousand Dragon Temple, then I will definitely send you to jail myself!”

Fei Ke Xin nodded and replied, “Inspector Li, I also hope you can understand that after this incident today, I will definitely protest to the mayor regarding today’s incident and announce it to all the media, and I hope you will not be removed from your position before you retire.”

Li Yalin was slightly stunned, and then said in a cold voice: “Good, Miss Fei, we’ll see about that!”

At this moment, Li Yalin had his mind made up.

No matter what kind of fuss he made at Fei’s group today, as long as he could find Su Ruoli at Fei’s group, then he would be considered to have won.

After all, Su Ruoli’s identity was already sensitive and special, and although she hadn’t broken any laws in the US, it made sense to define her as a terrorist given what she had done in Tokyo before.

So, as long as she was found in Fei’s group, even if the president came, he could not do anything to himself.

But how could he know that Su Ruoli had already left Fei’s group minutes ago?

After she had left Fei’s Group, the hackers of Wan Long Temple directly hacked into Fei’s Group’s security surveillance and tampered with all the CCTV footage of Su Ruoli’s stay in Fei’s Group.

Chapter 4360

As for Su Ruoli herself, she went directly to the dock of New York harbour, where there happened to be a cargo ship of the Isuzu Line ready to return to China, so Ye Chen arranged for Su Ruoli to take the ship to leave the United States first.

The cargo ship would sail directly from New York back to China's China Sea, so normally it would cross the Panama Canal into the Pacific Ocean, but as the voyage was too long, Su Ruoli could take a helicopter directly from the sea to Cuba when the cargo ship was passing Cuba, and then take a plane from Cuba back to China.

He called the New York police commissioner and told him all his suspicions and motives, asking him to come immediately with a search warrant.

The police commissioner was originally a bit angry at his private actions, but when he heard that Su Ruoli was at the Fei Group and might even be involved in the more than ten murders that had taken place in New York, he immediately sent his men to the Fei Group for support.

He shared Li Yalin's stance, regardless of whether those mysterious people were acting for Heaven or not, he had to bring these people to justice, otherwise it would be a disgrace to the entire New York police system.

Thus, a large number of police officers came from all over New York to support Fei's group headquarters, including the SWAT special operations unit, the strongest among the NYPD.

In order to prevent Su Ruoli from escaping, the police blocked all the entrances and exits of the Fei Group, and put heavy guards at each of them, including many snipers hiding in the shadows in addition to the loaded SWAT units.

The other police officers checked the identity information of the people inside one by one, and those who were found to be correct were asked to leave the scene immediately. After everyone had been checked, if Su Ruoli was not found, the police officers would carry out a carpet search of the entire headquarters of the Fei Group with life detectors.

In order to prevent accidents, the New York Police also informed the immigration authorities that Su Ruoli would be listed as a subject of restricted exit. Once Su Ruoli appeared at the port of entry and exit, the powerful face recognition system would be able to identify her within a second and send an early warning to the police.

Therefore, Li Yalin believed that Su Ruoli would not be able to fly.

While the New York police were setting up a net at the Fei Group and preparing to search for Su Ruoli's whereabouts, Ye Chen had already arrived in New York.

Today, Gu Qiuyi will be doing her final rehearsal at the performance venue, and tomorrow night at 8pm, her first concert in the US will officially start in New York.

So Ye Chen didn't rush to find her, but planned to go to Chen Zhao Zhong's restaurant to meet Uncle Zhong first, to talk to him about the current situation, and also to find the opportunity to ask him if he was interested in returning to China.

This time, Ye Chen took a very low-key helicopter ride to the vicinity of Chinatown first, and then walked alone to Chinatown.

Having the experience of meeting his great uncle by chance at Uncle Chung's restaurant last time, he also deliberately wore a duck-tongue hat and a disposable mask this time.

When Ye Chen arrived near Uncle Zhong's restaurant, he suddenly noticed that, just outside the restaurant, a young man in his twenties reached out and grabbed a girl's mobile phone from the roadside, before getting into a black car and taking off.

The girl shouted nervously after her phone was snatched, "Please call 911 for me, someone has snatched my phone!"

Ye Chen frowned slightly, but didn't think much of it.

He then took a step to go towards Uncle Zhong's restaurant.

At this time, Uncle Zhong pushed open the door, saw Ye Chen wearing sunglasses and a mask, and still recognized him by his posture and hair style at once, so he shook his head slightly and gave him another wink, then skipped him and said to the girl who had been robbed of her mobile phone, "Don't be afraid, girl, come and sit in the shop for a while, I'll help you call the police!"
