

Ye Chen 4401

Chapter 4401

With that, his gaze chilled and a soul piercing blade pressed to the height of an ordinary adult's knee was instantly released!

The leader, who had just lost both his arms, felt a sharp pain in his legs and knees before he could scream!

He subconsciously tried to look down, but his weight suddenly shifted and his entire body, along with his thighs, slid straight down from above his knees!

Then, he fell to the ground with a crash!

He almost fainted from the pain of the fall!

But before he had time to wail, he saw an even more terrifying sight!

All his men, without exception, had had their legs chopped off!

At that moment, the twenty men looked like twenty leeks that had been cut off, falling to pieces in a disastrous manner!

The strong smell of blood instantly filled the entire aisle, and even the An family members in the box could smell the strong smell.

Only, at this moment, being inside the room, they could only see the man at the head of the doorway having his limbs chopped off.

Apart from that, they could neither see Ye Chen on the left side of the gate nor the tragic situation of the remaining two dozen people on the right side of the gate!

But even so, the ghost-like appearance of the man at the head of the room made the An family, who had seen a lot, tremble with fear, and the women of the family even dodged and dared not look at him.

At this moment, the man at the head of the group was already terrified to the core.

He stared dead at Ye Chen and asked with wide eyes, "What the hell are you such a strong person Impossible can't be a martial arts expert!"

Ye Chen said contemptuously, "Who am I, a mole like you is not worthy to ask!"

After saying that, Ye Chen looked at him and said in a cold voice: "Tell the mastermind behind the curtain honestly and I can give you a painful time, otherwise, I will make your life worse than death!"

The man laughed miserably, "You are very strong, but my life will not be in the hands of anyone!"

After that, he shouted, "Brothers, I'm sorry for causing everyone to die here today! But don't be afraid, the organisation will never treat your loved ones badly, don't worry, I'll go first, I'll be waiting for you on the road to the Yellow Springs!"

The others shouted as if they had been beaten with chicken blood, "I am willing to go with you!"

As soon as the words were spoken, all of them, without exception, bit down hard on an artificial molar deep in their mouths at the same time.

Each of these men had had one of their molars removed early on.

Normally, this molar was left open, and each time they acted, they would place a denture filled with highly toxic cyanide into this missing space.

The denture, which is slightly higher than the other teeth, can be crushed by force in the event of an emergency.

Once the tooth is crushed, the venom, which would kill at least ten adult males, will be released instantly.

The amount of venom will kill them in a matter of seconds!

And the pain is almost non-existent.

And this is the medicine they use to shut themselves up when they fail in a mission.

With it, they could avoid being captured alive and tortured in various ways.

These bandits were all very clear about their fate at this point, so, to them, suicide was definitely the best option now!

So, these two dozen people, almost at the same time, bit down on the dentures in their mouths.

The venom that was instantly released made each of their faces, in an instant, turn iron blue and their bodies twitch violently.

The man at the head looked at Ye Chen and let out a miserable laugh, foaming at the mouth, but still sneering with a sneer, "You are indeed strong but... ..I said my life, will not be in the hands of... ..in the hands of anyone! My life is mine not mine!!!"

Ye Chen saw him almost dying, the corners of his mouth smiled contemptuously and asked coldly, "Want to die? Have I given permission?!"

Chapter 4402

The man at the head of the group heard Ye Chen's words and laughed miserably while spitting out a mouthful of blood and sneered, "You really think you really think you can dominate all things and be omnipotent?!"

Ye Chen sneered and said indifferently, "I dare not say that I can dominate all things, but to dominate your life and death is as easy as a hand!"

Saying this, Ye Chen instantly waved his hand!

In an instant, several auras struck out in the void, instantly shattering all the light fixtures in the entire corridor!

The entire corridor was suddenly plunged into pitch black!

At this moment, Ye Chen, who had no scruples, took a step forward and squeezed the man's shoulder blade with his fingers.

At the moment when he was about to die from the poison, Ye Chen sent a ray of spiritual energy into his body, quickly gathering up the toxin that was spreading in his body and sealing it completely with his spiritual energy.

The man had already felt his body stiffen, his breathing, heartbeat and mind almost stop, and he also felt that his whole body had entered a state of near death.

At this time, he had lost the sensation of pain in his limbs, and his entire expression had even surfaced with a few moments of tranquility.

To him, taking poison and dying at this time would be a kind of good death.

However, immediately afterwards, this feeling of his near death was surprisingly drawn out of his body rapidly by a mysterious force!

The stiffness of his body disappeared!

And the rate of breathing and heartbeat rapidly increased!

The tremendous pain from the wounds in his limbs began to return rapidly too!

At this moment, he wasn't just shocked, he was desperate!

Because what Ye Chen had done was, in his opinion, like a miracle!

At this moment, the other bandits had all died of poison, and the man at the head of the group was the only one still alive.

Ye Chen looked at him with a playful expression and asked, "What did you say just now? That your fate is not in anyone's hands? Your fate is in the hands of you? Let me tell you, here! I am the sky!"

The man looked at Ye Chen with wide eyes and asked in despair, "You How on earth did you do that"

Ye Chen said coldly, "Now is not the time for you to ask me questions!"

After saying that, he immediately used his aura to stop the blood from the wounds on his limbs, and at the same time put him into a complete coma.

After doing this, he stood up and stood in the doorway, saying to the An family members in the room, "No one should come out until the show is over!"

The An family could only see a tall black figure standing outside the door at this moment, and everyone wanted to see the dark figure's features clearly at this moment, but the light was simply too dim, so it was impossible to see clearly.

Subconsciously, An Qishan asked, "I don't know your name, but I will definitely repay you for saving my life today!"

Ye Chen said indifferently, "No need, please be more careful in the future, next time, you may not be so lucky!"

An Qishan said, "Your Excellency! Today you have saved more than ten members of the An family, please give me a chance to repay your kindness!"

Ye Chen shook his head, "There is no need to repay the favour, we are all sons and daughters of China, I am just helping out when I see injustice."

Seeing that the other party was unwilling to reveal his identity, An Qishan realised that he should not continue to ask questions inappropriately, so he could only say gratefully, "Then on behalf of the entire An family, I would like to thank you for your kindness!"

Ye Chen was busy saying, "No need! Most of you are old enough to be my elders, so don't bash me."

Chapter 4403

An Chongqiu remembered something and hurriedly asked, "Your Grace, I dare to ask you something"

Ye Chen said indifferently, "You speak."

An Chongqiu said: "I want to go to confirm the situation of a friend of mine, he just left from here before the accident My mobile phone somehow lost its signal, the phone can't even call 911"

Ye Chen frowned slightly and knew that the friend he was talking about must be Li Yalin, so he released his aura and with a little checking, he found out about Li Yalin's situation.

At this moment, Li Yalin was already hopeless.

Although only two to three minutes had passed since he was shot, Ye Chen was at his wits' end at this point.

His body had suffered an extremely serious trauma, and many vital organs in his body, including his heart, had been completely destroyed, so even if Ye Chen took out the Peiyuan Pill, not to mention the Spring Return Pill, it would be impossible to save his life.

Thus, Ye Chen said indifferently, "There's no need to go confirm, he's already dead."

"What" An Chongqiu's entire body was grief-stricken and said offhandedly, "He his daughter was just pregnant... . his wife and child are waiting for him how can he die"

Ye Chen said seriously, "He did die."

An Qishan also burst into old tears and choked up, "It was I who caused Yalin to die. How can I explain to his widow and orphans... ..how can I explain to my old brother who has been gone for many years"

Said, the whole spirit of the person, as if in this moment lost most of the half.

Ye Chen was more or less sorry for Li Yalin's death.

Although this person had been investigating the Ten Thousand Dragon Temple, but after all, it was also his duty, and he had been a police officer for many years, his reputation was really good, he should not have ended up like this.

It was just that a man's death was like a lamp going out.

Things had come to this point, and it was beyond Ye Chen's ability, so even if he wanted to save Li Yalin, there was nothing he could do.

He could only say that he had a fate that he could not avoid.

But at this moment, Ye Chen vaguely felt that there seemed to be some kind of fluctuation in Li Yalin's body.

So, Ye Chen immediately released more aura to investigate and was surprised to find that Li Yalin's brain was not completely dead at that moment.

Perhaps it was because two or three minutes had not been enough to completely deprive Li Yalin's brain of oxygen, or perhaps the desire to survive in Li Yalin's consciousness was too strong, allowing his brain to persist until now.

In short, his brain, still retained the last thread of life.

However, his body had been almost completely destroyed, and Ye Chen had no ability to bring him back to life.

Suddenly, a thought flashed through Ye Chen's mind.

At the beginning, when Ito Nanaiko's father, Ito Yohiko, had his legs amputated, Ye Chen had also felt sorry for him.

However, even though he was sorry, there was no way for Ye Chen to make the broken limbs grow back.

If the severed limbs could not grow back, then it was naturally impossible for the other organs, which had been completely destroyed, to regenerate either.

But!

Chapter 4404

In the Nine Xuantian Scriptures, there was a pill that could regrow organs that was clearly recorded.

The level of this elixir was even higher than that of the Peiyuan Pill.

It could bring back the growth of all of one's body organs, except for the brain.

As long as this elixir could be refined, it would allow Ito Yohiko's amputated legs and feet to grow back and fully recover as before.

So, with this medicine, it was natural that Li Yalin's body could also be reborn.

However, Li Yalin's body was so badly damaged that brain death was estimated to be a matter of minutes.

Within a few minutes, it was impossible for Ye Chen to refine that kind of elixir no matter what.

Not to mention that he was not strong enough now, even if he was, there was no telling how long it would take to gather the ingredients.

And Li Yalin was not like Ito Yohiko, whose legs had been amputated but could still live in a wheelchair and live until such an elixir was made by himself.

Therefore, if he really wanted to save Li Yalin, he could only first use his aura to protect his brain, as well as his badly destroyed body, so that his brain would always survive and his body would always remain undecayed.

In this way, it would be possible to maintain his current physical condition for all time.

However, Ye Chen's spiritual energy was not endless.

It would be a bottomless pit to maintain such a broken body. It might be possible to maintain it for a day or two, a month or two, but if he had to maintain it for a year or two or even longer, it would be impossible for Ye Chen to do so.

Unless he spent the rest of his days guarding his body and replenishing his spiritual energy every few days, it would still be impossible for this person to survive.

Thinking of this, Ye Chen almost gave up in his heart.

Perhaps, this was Li Yalin's destined calamity.

However, when he thought of the conversation he had heard between Li Yalin and his grandfather in the box, Ye Chen couldn't help but feel sorry for him.

At this time, a highly feasible plan suddenly came to Ye Chen's mind.

Although this plan was a little radical, a little risky, and a little pie-in-the-sky, it would leave a silver lining for Li Yalin!

So, with a slight pause, he said to the An family, "The situation outside is too bloody, so you must not leave this door until the show is over! Also, after you leave this door, don't tell anyone about what happened today!"

An Kaifeng said, "Your Excellency, so many people have died tonight, and there is a famous Chinese detective How can this matter be hidden"

Ye Chen blandly said, "You don't need to worry about it, I will solve it myself."

After saying that, he remembered something and spoke to An Chongqiu: "I will have the body of your friend taken away for a thick burial, but you must not reveal his death to the public, at least not yet."

An Chongqiu subconsciously said, "I have to give an account to his wife and children"

Ye Chen said indifferently, "Say he disappeared, say he ran away with someone, or say he threw himself into the sea, in any case, don't tell anyone that he died here tonight! As for whether his wife and children will believe it, that's your problem, you figure it out yourself!"

Chapter 4405

Ye Chen's cold order caused An Chongqiu to mourn deep inside.

Li Yalin was a good brother he had grown up with, and today his good brother had died because of his own family's affairs, and he could not even tell his family about his death, so how could he accept this deep down in his heart.

However, he was not a three-year-old child or a giant baby who had not experienced the beatings of society. He knew in his heart that the situation at the moment was completely out of his hands.

He was lucky to have survived, what more could he ask for?

The only thing he could do was to do everything he could to make it up to Li Yalin's family after today's events had passed.

So, he could only nod honestly and say, "Thank you, my benefactor, I understand, I will definitely follow your orders!"

The reason why Ye Chen used such an unquestionable tone was to cut off any other thoughts An Chongqiu might have, so that he would do exactly as he was asked to do.

Seeing that he had accepted the reality at this moment, he very simply closed the door behind him.

Afterwards, he took out his mobile phone and walked in the direction of the lift entrance while making a call to Wan Breaking Jun.

Once the call came through, Wan Bajun's voice came through, "Mr. Ye, what are your orders?"

Ye Chen asked him, "Broken Jun, you arrange for all the generals left in New York to come to Miss Gu's performance venue, more than twenty armed men just came here to snipe at the An family, basically they were all killed by me, the corpses need you to help me dispose of them."

After hearing this, Wan Bajun asked, appalled beyond belief, "Are you alright, Mr. Ye?!"

"I'm fine." Ye Chen said blandly, "It's just that there are too many corpses and it's rather troublesome for one person to deal with them."

Wan Bajun busily said, "My subordinate will bring someone there!"

Ye Chen asked curiously, "You haven't left New York yet?"

Wan Bajun said, "Back to Mr. Ye, I haven't left for the time being, it just so happens that there is an equipment dealer that I have been working with for many years here in New York, and I plan to purchase a batch of heavy equipment to be shipped to Syria."

Saying that, Wan Bajun hurriedly said, "Mr. Ye, most of the soldiers of the Ten Thousand Dragon Temple have already departed for Syria this morning, there are only a dozen people on hand now, is that enough?"

"It's fine." Ye Chen said lightly, "I'll ask Fei Ke Xin to send some men over, she's a New York sitter, manpower shouldn't be a problem."

Wan Broke sighed in relief, then said, "Alright then, Mr Ye, you wait for a moment, my subordinate will come over here."

Ye Chen gave a hmp and spoke, "Good then, prepare more body bags, I will wait for you here."

As Ye Chen said that, his person had already arrived next to Li Yalin's corpse.

He hung up the phone and took off the thin jacket he was wearing and covered Li Yalin's body, then he sent a few more auras into his body to maintain his current state.

Afterwards, he picked up the phone again and called Fei Ke Xin.

Fei Ke Xin on the other end answered in almost a second and said with a bit of surprise in her voice, "Mr. Ye!"

"It's me." Ye Chen opened his mouth and asked, "Miss Fei, I have something I need your help with."

As soon as Fei Ke Xin heard Ye Chen say that she needed help with something, she said almost without thinking, "Please say it, Mr. Ye, as long as it's something I can do, I'll do it!"

Ye Chen said, "I'm at Miss Gu's performance venue, and I've encountered a small situation here, I need you to bring enough people to block the entire VIP entrance and exit."

Fei Ke Xin said without hesitation, "No problem Mr. Ye, I'm closer, I'll bring my men over right away!"

After hanging up the phone, Gu Qiuyi's concert also officially started.

Chapter 4406

Gu Qiuyi, who was completely unaware of what was happening, shone brightly in a futuristic warrior costume, and the whole crowd of fans shouted wildly in excitement.

Ye Chen was slightly relieved to see the show start normally.

The best solution to tonight's incident was to clean up the mess here while the show was going on normally, so as not to trigger outside attention, let alone attracting the police.

Otherwise, if panic sets in, tens of thousands of people will flee and cause a stampede, and there is no telling how many people will die.

As long as the scene can be dealt with basically, tomorrow let Chen Duo Duo announce this venue for upgrading, and then the vip area with the floor and wall ceiling all demolished, all landfill, otherwise, today so many people, shed so much blood, even if washed in the clean, floor crevices, wall deep will also have dna residue.

The only way to get rid of the place was to tear it all down so that there would be no evidence of death.

Ten minutes later, Fei Ke Xin arrived at the scene in a blaze of glory.

She brought dozens of bodyguards to directly block the entrances and exits of the entire vip area. Fei Kexin then took the lift to the upper floors, and as soon as the lift doors opened, she saw Ye Chen standing here, as well as Li Yalin's corpse on the floor.

As Ye Chen had covered the upper half of Li Yalin's badly injured torso with his clothes and did not cover Li Yalin's face, Fei Kexin recognised him at a glance and exclaimed, "Mr Ye You You killed Inspector Li?!"

Ye Chen shook his head and said blandly, "I really didn't kill him, the murderer's body is inside."

Fei Ke Xin almost subconsciously wanted to go in and have a look, Ye Chen stretched out his arm in front of her and said indifferently, "The scene is too bloody, you'd better not go."

Fei Kexin pursed her lips and said, "Mr. Ye, my men are all guarding below, why don't I call them up to help you?"

Ye Chen shook his head and said, "No need, Wan Bajun will bring his men over later to dispose of the corpses, your men are just to help me guard the entrances and exits here, including the entrances and exits on the ground floor leading to the inner arena and backstage, all of them are blocked off, no one else is allowed in except for the people from Wan Long Temple, including the staff of the show, and the NYPD."

"Good!" Fei Ke Xin immediately said solemnly, "Don't worry, Mr. Ye, I'll arrange it right away."

After saying that, she took out her mobile phone and instructed Ye Chen's order to her bodyguards.

Only then did she say to Ye Chen, "Mr. Ye, there are still a few corpses in the lobby on the ground floor, all of which were shot to death and look like staff members."

Ye Chen nodded and said, "The other party killed all the way up, they must have killed everyone on sight."

Fei Ke Xin asked, "Mr. Ye, are these people coming for you?"

Ye Chen shook his head and said, "They came for the An family, a whole family of An family is here to watch the show today."

Fei Ke Xin's eyes widened and she asked offhandedly, "Your grandparents' whole family is here?!"

"Yes."

Fei Ke Xin asked, "Are they alright then?"

Ye Chen said, "Yes, they are fine, they are still in the box after a little shock."

Fei Ke Xin asked in a low voice, "Then Have you identified with them then?!"

In Fei Ke Xin's opinion, Ye Chen's current comprehensive strength had basically reached the peak, and if he could identify with his grandparents' family, then no one could even look up to him.

"No." Ye Chen smiled blandly and spoke, "Fortunately, I had a bright idea and broke all the lights in the corridor, so they shouldn't be able to see me."

Fei Ke Xin looked surprised and asked offhandedly, "Mr. Ye This time, although the situation is very dangerous, it is also an excellent opportunity to identify each other Why don't you take advantage of this opportunity and go with the flow?"

Ye Chen smiled to himself and sighed, "Instead of wanting to push the boat with the current, I now want to pull the boat in, or even let it go upstream"

Chapter 4407

"Against the current?!"

Fei Ke Xin was even more surprised when she heard Ye Chen's words.

She really couldn't understand why Ye Chen was so resistant to identifying with his own grandfather.

At this time, Fei Ke Xin received a phone call, and the person on the phone said, "Eldest Miss, Hall Master Wan of the Ten Thousand Dragons Hall has arrived and has already brought someone in."

"I know." Fei Ke Xin answered and said to Ye Chen, "Mr. Ye, Hall Master Wan is here."

As he was speaking, the lights of the two lifts flashed, and a moment later, the doors of the two staircases opened, and Wan Broken Jun rushed out with more than ten of the Ten Thousand Dragon Hall generals.

When he saw Ye Chen, Wan Bajun led the way and arched his hand, "Mr Ye, my subordinates are late!"

The generals also immediately arched their hands and said in unison, "I'm late!"

Ye Chen said blandly, "You have all come quickly."

Wan Xiaojun hurriedly asked, "Mr. Ye, how is the situation now? What do I need to do?"

Ye Chen spoke, "There is a bandit with a broken limb who is still alive, take him away, I still have something to ask him, the rest of the people inside are dead, you take all the bodies away and dispose of them properly, then clean up the blood and bullet marks at the scene."

With an astonished expression, Wan Bajun hurriedly said, "Then we'll get to work on it now."

He then immediately led his men to the corridor.

The corridor was pitch black at this time, but Wan Bajun was after all an eight-star martial artist with extraordinary strength, so even though the light was faint, he could still see very clearly.

When he saw the scene, his entire body was dumbfounded with shock.

He was also considered to have crawled out of the pile of the dead, but this was the first time he had seen such a bloody scene.

The other generals of the Ten Thousand Dragons Hall were also unable to hide their horror, and the strong smell of blood made everyone a little physically uncomfortable.

Wan Bajun was the first to come back to his senses and said in a cold voice, "Prepare the body bags, fill them up with the dead ones."

"Good!" The crowd nodded their heads and immediately pulled out black thickened body bags from their pockets and began to handle the corpses.

As each corpse was put into a body bag, Wan Bajun's heart became more and more shocked.

What shocked him was not the bandits whose legs had been cut off by Ye Chen and who had taken poison to commit suicide, but the four martial arts experts with extremely high cultivation levels.

Each of these four martial arts experts had been completely disfigured by the bullets, and it was not an exaggeration to say that each of them had at least thirty to forty bullet holes in their bodies, with hardly any part of them intact from head to toe.

Even Wan Bajun could only tell from their mutilated corpses that one of their meridians was open, but could not determine how many stars they were as experts, as most of their meridians had been shattered by the bullets.

After all the corpses were put into the body bag, Wan Bajun tugged the collar of the one at the head and stuffed it into the body bag as well, while instructing the others, "This one is still alive, take it away separately, Mr. Ye has other uses for it."

"Good!" The handlers nodded hastily and made a mark on this body-shrouded bag.

These generals of the Ten Thousand Dragon Hall moved quickly, and in a few minutes' time, nearly thirty corpses were all packed.

They then began to carry these body bags downstairs via the lift.

As they stood in the pool of blood for too long, they left large blood-red footprints on the ground outside when they walked out.

Fei Ke Xin saw the way these people from the Wan Long Temple were all covered in blood, with the strong smell of blood still on them, so she didn't need to look to imagine just how tragic the situation was inside.

At this time, Wan Bajun came in front of Ye Chen and spoke, "Mr. Ye, the bodies are all loaded, immediately arrange for them to be transferred out of New York first, then arrange for them to be transported to the high seas to be disposed of as soon as possible, as for the one who is still alive, I will send him to the villa to be locked up first."

Chapter 4408

Ye Chen nodded: "Good, thank you all for your hard work."

Wan Bajun opened his mouth and asked, "By the way Mr. Ye, there are four other martial arts masters inside, I wonder what their cultivation levels are and how they died so badly?"

Ye Chen said indifferently, "A six-star martial artist, two seven-star martial artists, and an eight-star martial artist."

"An eight-star martial artist?!"

Wan Bajun's entire jaw dropped.

One had to know that the highest martial artist was only eight stars, which corresponded to a martial artist's eight odd meridians, and one who had opened the eight odd meridians was an eight-star martial artist.

And now, Wan Bajun was only one small realm higher than an eight-star martial artist.

For an eight-star martial artist to die so tragically, this was indeed something that Wan Bajun had not expected!

Seeing his astonished expression, Ye Chen asked, "Was it that you didn't expect that an eight-star martial artist would die so tragically? Even his heavenly spirit cover was shattered."

"Yes" Wan Bajun said incomprehensibly, "I'm not going to hide it from you Mr. Ye, my subordinate really can't think of why these four people died so badly" With such strong strength, it should be difficult for ordinary people to get close to them, and they were supposed to be bodyguards, their sense of precaution should be very strong, they shouldn't have given the other party the chance to get close enough to shoot"

Ye Chen said in a cold voice: "Broken Jun, this is the arrogance of being a martial artist in your bones, you always think that martial artists are strong, but you have never thought that martial artists also have many shortcomings."

Saying that, Ye Chen asked him, "If more than twenty people suddenly appeared at the end of this corridor with nowhere to hide to shoot at you in saturation, how many rounds do you think you could withstand?"

Wan Bajun said seriously, "I think I should be able to spot the other side before they appear, after all, they are not eight-star martial artists, it is impossible to hide their scent and movements."

Ye Chen asked again, "Then what if the other party took advantage of the fact that the show was just about to start and the sound outside was full of the explosion roar of the cosmic war? Would you still be able to sense the other party's breath and movements?"

"This" Wan Bajun's expression flinched as he said in shame, "If that's the case, then I shouldn't be able to do it"

Ye Chen asked him again, "If more than twenty people suddenly appeared and shot six or seven hundred rounds in a few seconds with powerful modern firearms, would you be able to stop them?"

"This" Wan Bajun's expression became even more shocked and froze for a long time before shaking his head, "If it's six or seven hundred rounds of bullets in a few seconds, I" can't stop it"

Ye Chen spoke: "I don't know if you've seen the details of the firearms they use, the magazine inserted under each person's gun is also taped with a magazine in the opposite direction, after the bullets run out, just pull the magazine out and insert it backwards, after two or three seconds, it can shoot six or seven hundred bullets again, this kind of firepower, in this kind of aisle where there is no way to hide, not to mention an Even an eight-star martial artist, even an expert in the Ming realm like you, would not be able to withstand it."

Speaking of this, Ye Chen lamented, "This is like African hyenas hunting in packs, the tricks are underhanded, but as long as they work together, they can be invincible on the gra*sland, even if they are the king of a hundred beasts, they can kill them as they please."

“Yes” A cold chill ran down Wan Bajun’s back and he spoke, “My subordinate will definitely learn from my mistakes!”

Ye Chen nodded and said, “It’s good that you have it in your heart, it’s getting late, first let the brothers grab the corpses and get rid of them.”

“As you wish Mr. Ye!” Wan Bajun said, then pointed at Li Yalin’s corpse and asked Ye Chen, “Mr. Ye, will this Inspector Li’s corpse be taken away and disposed of together?”

Ye Chen shook his head, “No, he’s not dead yet.”

After saying that, he looked at Fei Ke Xin and said, “Miss Fei, I have heard before that there are many rich people with terminal illnesses in the United States who freeze themselves before they die, hoping that future technology can cure them, is there such a thing?”

Fei Ke Xin was busy saying, “Back to Mr. Ye, this situation is quite common, basically every top tycoon has their own investment in freezing centres, in order to freeze themselves after all modern medical means have been exhausted and failed to perpetuate the statement, this is known as the future hibernation plan in the rich people’s circle, hoping to be reawakened one day in the future. ”

Said, Fei Ke Xin added: “The freezing centre using liquid nitrogen can maintain the temperature of the human body at about two hundred degrees below zero, but many biological experiments have been done before, and they have all failed without exception, the current level of technology is not yet able to wake up the frozen creature, and everyone is treating it as the last bit of luxury.”

Ye Chen asked her, “This kind of frozen centre, does the Fei family also have one?”

“Yes.” Fei Ke Xin nodded and said, “Grandpa invested in one ten years ago and it’s still in operation.”

Ye Chen nodded, pointed at Li Yalin, and said to Fei Kexin, “Then make arrangements to send him there to freeze on!”

Chapter 4409

“Mr. Ye” you told me” you told me to freeze Inspector Li on?!”

Fei Ke Xin was stunned by Ye Chen’s words and was at a loss as to how to respond.

Ye Chen, on the other hand, said with a matter-of-fact face, “Don’t you have a freezing centre right in your non-speaking? Pulling him back and freezing him is just a piggyback job.”

Fei Ke welcomed Ye Chen’s incomparable ease of speech, could not help but remind: “Mr. Ye, the human body freezing technology so far, it is still only a scientific concept, although the concept has been proposed by scientists since decades ago, but until now there has not been any successful cases” ”

Saying that, Fei Ke Xin couldn’t help but look at Li Yalin lying on the ground and continued, “Mr. Ye, let me put it bluntly, as far as the current scientific means are concerned, it is impossible for a person to come back to life after being frozen on” ”

Ye Chen waved his hand, “You don’t need to worry about that, let’s freeze him first.”

The reason why Ye Chen had to send Li Yalin to the freezing centre to freeze was because he also did not have the ability to maintain Li Yalin's body immortal all the time, by freezing him, he would be able to maintain his current state to the maximum extent, and since he was frozen in an ultra-low temperature environment of one or two hundred degrees below zero, the aura needed to maintain his body would also be reduced to an extremely low level.

In this way, Ye Chen would only need to spend a small amount of Spiritual Qi to protect his body and let it freeze with him, then he would be able to ensure that he would not have any changes for at least a few years.

However, there was no way for Ye Chen to explain this kind of thing clearly to Fei Ke Xin, so he could only stubbornly ask her to do as he was told.

Fei Ke Xin was pleased that Ye Chen had already made a decision, so out of respect, she didn't say anything more, but immediately called her grandfather and asked him to personally order the head of the freezing centre to come and pick up Li Yalin.

After communicating with Grandpa, Fei Ke Xin then said to Ye Chen, "Don't worry, Mr. Ye, Grandpa said that from the freezing centre, he will come and pick up Inspector Li within 15 minutes."

"Good." Ye Chen nodded and said, "I'm counting on you guys for this person, remember, don't let any word out to the public."

"You can rest assured." Fei Ke Xin said with certainty, "The secrecy level of the freezing centre has always been very high, it will definitely not leak out."

Ye Chen then said, "That's good."

At this time, Fei Ke Xin could not help but say, "By the way, Mr. Ye, I have something I don't know if I should say."

Ye Chen said, "But there is no harm in saying it."

Fei Ke Xin nodded and continued, "Mr. Ye, generally speaking, every step of the top family members' movements is top secret, especially for a super family like the An Family, generally speaking, it is impossible for their movements to be captured by the outside world, but this gang of bandits today, not only were they able to grasp the movements of the core members of the An Family, but they even knew the situation here like the backdrop of the concert. The background music of the concert to launch the attack, it seems that they have been plotting for a long time, I suspect this matter, there must be a mole in the An family"

"Yes." Ye Chen agreed and said, "I agree with you on this matter, but who exactly the mole is, it may be up to the An family to find out for themselves."

After saying that, Ye Chen said to Fei Ke Xin: "Right Miss Fei, you have more manpower in New York, so you should arrange for your beloved ones to remove and burn all the carpets here, dispose of all the blood stains and bullet holes, and also solve all these together. The new carpets should be the same or similar to the ones here, so that the place can be restored in the shortest possible time."

Fei Ke Xin said without thinking, "Don't worry Mr. Ye, I'll make the arrangements!"

Ye Chen nodded and said to Wan Bajun, "Bajun, keep an eye on the bandit who is still alive, don't let him commit suicide, let alone let anyone get rid of him, I will personally go over to interrogate him later!"

Wan Bajun said offhandedly, "Yes Mr. Ye, my subordinates will personally watch over him, nothing will ever happen."

Chapter 4410

"Good." Ye Chen nodded and said, "You go to the villa first and wait for me, I will go over at night."

Wan Bajun cupped his fist and said, "Alright Mr. Ye, then I will leave you subordinates!"

After Wan Bajun left, Fei Ke Xin also immediately instructed his men to quickly prepare a large number of tools to prepare to go in and take care of the aftermath.

According to Fei Kexin's request, his men first removed all the carpets and then packed them into sealed bags and took them away to be incinerated.

While these men were cleaning the carpets, another wave of men brought in an emergency shipment of lighting equipment, building materials, cleaning supplies and water pumps.

A few men with electrical knowledge began to replace the spotlights, while more men immediately used the water barriers and styrofoam used in the renovation to create an impermeable pool about ten centimetres high, and then used the fire-fighting high-pressure water cannons with powerful cleaning agents to clean the bloodstains in the corridor.

Soon the lights in the corridor were fully restored and the smell of blood in the corridor soon dissipated by 90% as the concentration of blood in the sink became lighter and lighter to the naked eye.

Meanwhile, another wave of men were silently dealing with the remaining bullet holes in the walls.

After gouging out the bullet heads one by one, they smoothed out the damaged walls with quick-drying putty.

As the wallpaper in the corridor of the VIP area was the same as the wallpaper used in the compartment rooms, they cut down all the wallpaper in one of the unused VIP compartments, then filled it in piece by piece according to the pattern and treated the gaps in the patchwork so that nothing could be seen.

Afterwards, Fei Ke Xin's men sprayed the entire corridor again with a pungent disinfectant and dried it with several high-powered hot air dryers.

It took less than half an hour to do all this, as everyone was clearly divided and worked together.

And at this time, another wave of Fei Ke Xin's men arrived in a cargo truck.

As soon as the first group had started cleaning up the carpets, they had urgently deployed brand new carpets from the Fei family's own decorating town.

These carpets were not of the same brand as the ones that had been replaced, but the colours and textures could already be 80% similar.

Along with the truck, there were workers who knew nothing of the tragic shooting that had just taken place here, let alone the fact that nearly thirty people had died.

All they knew was that their supervisor had given them five times their hourly rate to carpet the place as fast as they could.

So, they all worked together to get the whole VIP area covered with brand new carpet in the fastest time possible.

By the time the workers withdrew, the entire corridor was completely unrecognisable as having been the scene of a fierce battle.

Apart from the faint smell of disinfectant water and the smell of the brand new carpet, there was hardly any smell of blood in the air.

At this time, Fei Ke Xin's men below reported, "Chairman, a woman surnamed Chen insisted on going up, saying she was in charge of this place, and questioned my identity, threatening to call the police, I have her under control, what should we do next?"

Fei Ke Xin was surprised and hurriedly reported the situation to Ye Chen.

After listening, Ye Chen guessed that it should be Chen Duoduo, so he spoke, "Have someone bring her up, keep an eye on her and don't let her contact the outside world."

After saying that, Ye Chen suddenly frowned, the matter of Fei Ke Xin's feedback made him recall a detail, just now Great Uncle An Chong Qiu had said in the room that his phone had no signal and he couldn't even call 911.

But why was his own phone not affected in any way?

Could it be that the device to block the signal was installed inside their compartment?!

If that was the case, then it was likely that there was a mole in Gu Qiuyi's team, too!
