

Ye Chen 4651

Chapter 4651

While Ye Chen and Fei Kexin were shopping at the mall, Liu Manqiong, who was at school preparing for her thesis defense soon, suddenly received an email signed by Jinling University.

When she saw the words "Jinling University", her whole body was lifted and she hurriedly opened the email, and then she could not help but read out the content of the email softly: "Dear Ms. Liu Manqiong

"Dear Ms. Liu Manqiong, how are you? I am Luo Rui Xue, the person in charge of the Talent Introduction Programme at Jinling University, I have received your self-nomination letter and CV, after our initial review, we think your situation is very much in line with the needs of our Talent Introduction Programme, and we would like to invite you to come to Jinling for an interview The interview time is... .."

Seeing this, Liu Manqiong immediately gave an excited cheer, "Great!"

Chen Zixuan, a classmate and good friend of the same major, who was quietly looking up information, suddenly heard Liu Manqiong shout and asked in surprise, "Sister Manqiong, what's wrong with you, what can make you so excited?"

Liu Manqiong said without thinking, "I have received an interview notice from Jinling University, after I finish my defence I can go there for the interview! If I pass the interview, I will stay at Jinling University to teach!"

Chen Zixuan was dumbfounded and said, "No way Sister Manqiong you will soon be a doctor at the University of Hong Kong, if you want to stay and teach, the university would love to have you, why would you want to teach at a lowly university in the Mainland?"

Liu Manqiong said very seriously, "Jinling University is not an unimpressive university, on the contrary, it is also a national double first-class university, the faculty strength as well as the development heritage are very strong."

Chen Zixuan said offhandedly, "Even if it is stronger, it is not stronger than the University of Hong Kong, and if you stay at the University of Hong Kong, you do not have to leave Hong Kong Island and work right at your own doorstep, so it is much better than going to the Mainland to develop."

Liu Manqiong smiled faintly and said seriously, "I've stayed in Hong Kong for so many years, it's time for me to go out and see the outside world!"

Chen Zixuan skimmed her lips, "What's so great about the outside world, I don't think anywhere is as good as Hong Kong Island.

Saying that, she asked curiously, "Right, Sister Manqiong, you want to go to the Mainland to develop, it's not for love, is it?"

Liu Manqiong's cheeks instantly flushed red, but her mouth was unwilling to admit it, and she hurriedly said, "I simply want to leave my comfort zone, so don't make any wild guesses."

Chen Zixuan eyes took in Liu Manqiong's performance and said very firmly, "Sister Manqiong, I have known you for so long, I really know you too well, you are a person who cannot lie at all, when you lie you blush, look how red you are now, how dare you say it is not"

Liu Manqiong subconsciously reached out and touched her cheeks, when she found that her face was indeed rolling hot, she hurriedly said to her, "That's the end of what I just said, you must not talk nonsense to others."

Chen Zixuan said with a smile, "Fine, I definitely won't say anything nonsense, but can you satisfy my curiosity, I really can't figure out what kind of person it is? With what kind of charm, it is possible to capture the heart of Miss Liu Manqiong Liu, who is crowned as the exterminator at the University of Hong Kong"

Liu Manqiong glared at her and reminded, "Get busy with serious business, don't always gossip!"

Chapter 4652

Chen Zixuan laughed, "Serious business is not as fun as gossip!"

As she said that, she suddenly remembered something and exclaimed, "Sister Manqiong, is it possible that the guy you fell in love with is the one you brought over to the charity sale in Tsim Sha Tsui last time? He even said at the time that he was your fiance, could it be that you really had an affair?!"

Liu Manqiong looked at her speechlessly and asked helplessly, "Can you not be so vulgar, I am innocent with Mr. Ye, how can you call it having an affair"

"Also Mr. Ye also clean and innocent" Chen Zixuan spat out her tongue and teased, "I guess you've started to name the two of you in your heart for your future. The name of your future child is already named, right? The last name is Ye, then you have a son named Ye what sounds better? Hey right, if you don't mind, I'll be a godmother for the child, what do you think?"

Liu Manqiong felt her face swelling a little and said with a little exasperation, "Xuan Xuan, if you are always so uncouth in the future, then it would be better for me to stay away from you in the future!"

Chen Zixuan bristled and asked her, "Sister Manqiong, when is it convenient to ask him to come out for a meal with us? I'm not good at anything else, but I'm definitely good at identifying scum, whether he's good or scum, I can tell in just one meal!"

Liu Manqiong said, "No chance, he's leaving tonight, he's leaving Hong Kong Island."

"Huh?" Chen Zixuan asked in surprise, "Is he going back to the mainland? If I'm not wrong, he should be from Jinling, right?"

Liu Manqiong was upset in her heart, but at this moment, she didn't hide anything too much, she just sighed helplessly, "He's going back to the United States."

"Back to America?" Chen Zixuan asked, "Then what are you doing in Jinling? Go to America to look for him!"

Liu Manqiong held her chin, her eyes dazed as she looked at the wall not far away, and muttered under her breath, "He went to America to accompany his wife to school, and will be back in Jinling next month."

Chen Zixuan's jaw dropped as she asked, "Sister Manqiong you what are you saying?! He he he has a wife?"

"Right." Liu Manqiong nodded her head and said seriously, "He has been married for four years."

"I go,," Chen Zixuan was a bit incredulous for a moment and said offhandedly, "Sister Manqiong, you you... . where in the world are you thinking about this,"

Liu Manqiong subconsciously turned the pen in her hand and muttered, "It's not that I can't think about anything, I just can't control myself."

As she said that, she suddenly glanced at the time in the bottom right corner of her computer and blurted out, "Oh no, it's after four o'clock, I have to ask him when he's leaving."

.....

After discussing with Fei Kexin, Ye Chen set the time for the plane to take off at seven o'clock in the evening.

The reason for choosing seven o'clock is because it takes about twelve hours for Fei Ke Xin's private plane to fly to Providence, and if it takes off at seven o'clock Hong Kong time, it will be exactly seven o'clock local time in Providence, which is a more suitable time to land.

However, the time of 7pm would be more or less awkward for Chen Zhao Zhong and Liu Jia Hui.

Both of them wanted to invite Ye Chen to dinner in private. Chen Zhao Zhong wanted to thank Ye Chen properly as a family, while Liu Jia Hui wanted to take this opportunity to get closer to Ye Chen again.

It was a pity that it was too late for Ye Chen to arrange dinner at this time of departure, because in view of the various processes involved in international flights before boarding, Ye Chen decided to leave for the airport at five o'clock in the afternoon, and this time was really not suitable for arranging another dinner in.

When Ye Chen received a message from Liu Manqiong asking when he would be taking off, Ye Chen sent him the tentative time.

When Liu Manqiong got Ye Chen's reply, she hurriedly stood up and eagerly said to Chen Zixuan, "Xuan Xuan, I have to go first, the gift I prepared for him just arrived in Hong Kong Island in half an hour, I haven't bothered to pick it up yet!"

Chapter 4653

5pm.

Liu Jiahui's Rolls-Royce convoy, carrying him and Chen Zhao Zhong, arrived at the hotel where Ye Chen and Fei Ke Xin were staying on time.

When he saw Ye Chen, Liu Jiahui said respectfully, "Mr Ye, the convoy is ready to go at any time."

Ye Chen nodded gently and when he saw that Liu Manqiong was not there, he casually asked, "Is Miss Manqiong here?"

Liu Jiahui was busy explaining, "Back to Mr. Ye, I called Manqiong and she said she just had to go to the airport for something, so she simply went there by herself first."

Ye Chen then said, "Good, then let's set off as well."

Half an hour later, Ye Chen and Fei Ke Xin, followed Liu Jiahui's motorcade and arrived at Hong Kong Island International Airport.

The convoy stopped in front of the VIP building, and after Liu Jiahui got out of the front car, he jogged and came to the car beside Ye Chen's. After pulling open the door, he said respectfully, "Mr. Ye, it's hard for you and Miss Fei to go through the security and customs checks first. After you finish the customs formalities, you can see me as soon as you go out."

He was worried that Ye Chen might not be satisfied with this process, so he hurriedly explained, "Mr. Ye, Hong Kong Island has a tighter grip on aviation security, unlike the United States where it is relatively loose, so all these procedures are necessary."

Ye Chen nodded his head and smiled, and said, "I should, then I will go in through here with Miss Fei."

"Good!" Liu Jiahui nodded and busily said, "I'll send you two in first."

Ye Chen said, "There is no need to be so polite, Mr Liu, you go ahead and get busy, we will just go in ourselves."

With that, he got out of the car with Fei Kexin, one left and one right.

Liu Jiahui insisted on sending Ye Chen and Fei Kexin into the VIP building and saw them enter the security check lane before hurrying back to the caravan and directing it to undergo security checks through the special car lane.

Since Ye Chen and Fei Kexin had to go through one more procedure than Liu Jiahui and the others, by the time they finished the procedure and entered the airport, Liu Jiahui's motorcade had also completed the security check and was already waiting outside the VIP lane.

When he saw Ye Chen and Fei Kexin coming out, Liu Jiahui, who was guarding the entrance, immediately greeted them and said respectfully, "Mr. Ye, I've already had your and Miss Fei's luggage sent to the plane in advance."

Ye Chen laughed, "I didn't let Mr. Liu go through a lot of trouble to come to Hong Kong Island this time, how can I be so kind as to let Mr. Liu break the bank again?"

Liu Jiahui said with a smile on his lips, "Mr. Ye is too polite, I should have done this, not to mention that I did not prepare any particularly expensive gifts for you, just some top-quality dried abalone, yellow-lipped fish glue and Xinhui peel. So I have prepared some for you two."

He said this, but in his heart Liu Jiahui couldn't help but spit out, "The souvenirs prepared for Ye Chen, the God of Plague, are worth tens of millions of dollars alone."

Hearing him say that, Ye Chen smiled and said, "Mr. Liu is too modest, these three items you mentioned, any one of them is a very expensive ingredient, right?"

Liu Jiahui hurriedly said, "Mr. Ye, even if these things are expensive, they are not enough to express my gratitude to you, so you must not be polite to me."

Ye Chen nodded, seeing that there was still no sign of Liu Manqiong among those standing outside the car, and unconsciously felt a little disappointed in his heart.

But he didn't ask Liu Jiahui again, so he spoke, "Mr. Liu, it's getting late, let's get in the car and set off."

Liu Jiahui looked at the time and hurriedly said, "Mr. Ye, I don't know what's wrong with this girl Manqiong, her phone is not working, you wait a moment, I'll try to call her again."

After saying that, Liu Jiahui took out the phone and was about to call it when he heard Liu Manqiong's voice ringing out not far away, "Dad!"

Ye Chen subconsciously turned his head back, and the moment he saw Liu Manqiong, the few moments of disappointment that were uncontrollable in his heart instantly dissipated.

If he could not see Liu Manqiong one more time before leaving Hong Kong Island today, his heart would definitely have a few regrets.

At this moment, Liu Jiahui also looked happy, reached out to Liu Manqiong and waved, and couldn't help but complain, "Where have you been? Everyone is waiting for you, and you didn't give me a call!"

Liu Manqiong panted and said, "A good sister just came back from Japan I asked her to bring something for me So So I came over to pick it up from her first As a result, her plane was delayed and I just picked up the things and rushed over, I was running all the way and didn't bother to check my phone."

Saying that, Liu Manqiong came to Liu Jiahui's side, looked at Ye Chen and Fei Kexin and said somewhat apologetically, "Sorry Mr. Ye, Miss Fei, for keeping you two waiting."

Fei Ke Xin smiled faintly and said, "It's alright, we just arrived too, besides it's not like we're in a hurry to catch a flight, there's no rush."

Chapter 4654

As she spoke, she saw Liu Manqiong carrying a suitcase about the size of a briefcase in her hand and asked curiously, "Manqiong, what are you carrying here? It looks quite heavy."

Liu Manqiong looked at the case in her hand, and could not help but look at Ye Chen at the side, and said with a little shyness, "This is a small gift I asked someone to buy for Mr. Ye from Japan."

After saying that, she raised the box with both hands to Ye Chen and said with an expectant face, "Mr. Ye, this is a companion gift for you, please don't mind it."

Ye Chen did not expect that Liu Manqiong had specially prepared a gift for himself, and seeing her look of expectation, Ye Chen did not have to be polite with Liu Manqiong and thanked her, "Then I will thank Miss Manqiong for her kindness."

As he said that, he reached out and took the box, not expecting it to be heavy and weighty.

Seeing him accept it, Liu Manqiong smiled sweetly, and then remembered something before hurriedly instructing, "Right Mr. Ye, please open this gift after you get on the plane."

Ye Chen agreed, "Okay."

At the side, Fei Ke Xin deliberately asked, "Manqiong, did you prepare a gift for Mr. Ye alone? That's a bit heavy-handed, isn't it?"

Liu Manqiong was immediately ashamed and bashful and said awkwardly, "Sorry Miss Fei, I saw this gift on the website yesterday by chance and there was only one, so I asked a friend to buy it and bring it here I will definitely prepare your gift and send it to you later!"

Fei Ke Xin said with a smile, "I am just teasing you and joking with you, don't take it seriously."

She said, "Mr. Ye, let Manqiong take a car with you, I have to fly with you for twelve hours, so I won't steal the time with you from her now."

Liu Manqiong said shyly, "Miss Fei I'll take whichever car I want"

Fei Ke Xin smiled and said, "Since either car is fine, then take this one, I'll go and squeeze a car with Master Yuan!"

After saying that, she turned around first and waved her hand behind her while sitting in a Rolls Royce at the back of the convoy.

Seeing this, Ye Chen then held the car door with one hand and said to Liu Manqiong, "Miss Manqiong, please get in."

Liu Manqiong nodded slightly and greeted her father, Liu Jiahui, before bending down and getting into the car.

Ye Chen got into the car next and saw that Liu Manqiong was still panting a bit, guessing that she must be very tired after running all the way here just now, so he said, "Since your friend's flight was delayed, just give me a call to say so, why are you in such a hurry?"

Liu Manqiong shook her head and said, "I can't have so many people waiting for me, she wasn't delayed for too long, I'll just run a few more steps to catch up."

Ye Chen was more or less straight, and after looking at the box in his hand, he said, "Actually there is no need to pick a gift specifically for me, I don't really lack anything."

Liu Manqiong said seriously, "You gave me such an expensive elixir, I haven't returned the gift yet"

Ye Chen asked her curiously, "Who told you that the elixir was expensive? Was it Miss Fei?"

"Yes" Like a child who had done something wrong, Liu Manqiong said in a somewhat nervous whisper, "It was the time you bought me a phone case, and I accidentally took out the elixir you gave me and showed it to Miss Fei"

Saying that, she hurriedly explained again, "I really wasn't trying to show off or anything I was just hearing Miss Fei say that you had two particularly miraculous elixirs, and then I thought that you had also given me one, so I subconsciously took it out to show her"

Speaking of this, Liu Manqiong plucked up her courage, looked at Ye Chen and asked softly, "I'm sorry ah I know you said before that you wouldn't let me tell others nor let me show it to others I thought you were joking"

Ye Chen smiled slightly and spoke, "It's fine, Miss Fei's character can still be trusted, but you should keep it away in the future and never let anyone else see it again."

Saying that, he looked up at the driver in front of him.

Luckily, the back row of this car had privacy soundproof gla*s from the front row, the two of them were not talking too loudly, the driver definitely could not hear them.

Seeing that Ye Chen did not blame himself, Liu Manqiong finally sighed with relief and said in a good manner, "Don't worry, I will definitely not tell anyone again."

Ye Chen nodded gently, wondering in his heart what Fei Ke Xin would think when she saw the Blood Dispersing Heart Saving Pill she had given to Liu Manqiong.

At the beginning, when her grandfather was dying, he had only given her half a pill.

It was not that Ye Chen was stingy, but mainly because he was somewhat displeased with Fei Ke Xin at that time. After all, this woman had used a set of false identities to approach him and his wife Xiao Churan, and even secretly investigated his background, which made Ye Chen quite displeased in his heart.

However, the Fei Ke Xin now was not the same Fei Ke Xin at that time, she had long sworn her loyalty to herself, and the few times when she had something to do, Fei Ke Xin had also done her best to cooperate, and had indeed behaved impeccably, so she really could not treat her and Liu Manqiong with favor.

Thinking of this, Ye Chen suddenly felt that he should take the opportunity of Fei Kexin's visit to Hong Kong Island to give her a reward that she had always dreamed of.

Chapter 4656

After the plane was pushed out of the hangar, the four engines began to start, and with the thrust of the engines, it began to glide towards the end of the runway.

At this point, Liu Manqiong was almost out of sight, but Ye Chen found that she was still standing in place even after everyone else had boarded the plane.

Ye Chen turned back to look for a long time before turning his head back.

Somehow, he always had a feeling of empathy for Liu Manqiong that existed.

He knew that this heavenly daughter, who was the envy of countless people on Hong Kong Island, had actually lost colour in her life since the day her father had cheated on her.

From that time onwards, she had to face her mother's tearful self-pity every day, in addition to accepting the reality that her mother was seriously ill and her health was deteriorating.

Since her mother's death, although her father had given very generous material compensation, it was almost a drop in the bucket compared to the shock caused by her death.

So, he knew that Liu Manqiong had lived an unhappy life all these years, even living in constant nostalgia for her mother.

This also made him feel a little more heartache for Liu Manqiong in his heart.

At this moment, when Fei Ke Xin saw Ye Chen's somewhat melancholy appearance, she was also somewhat lost in her heart.

She always felt that she was no worse than Liu Manqiong, and in some ways she was even better than Liu Manqiong, but she did not understand why Ye Chen, who had only known Liu Manqiong for a few days, could take Liu Manqiong so seriously and could even see that he had some feelings for her, but she had never found any feelings for herself in him.

While sighing inwardly, she did not forget to remind Ye Chen: "Mr. Ye, the gift Miss Liu gave you, isn't it time to open it and take a look?"

"Oh yes!" Only then did Ye Chen remember about the gift.

So, he carefully placed the suitcase on his lap and opened it gently.

After opening it, he found that the inside of the suitcase contained an extremely beautifully crafted wooden box, and right above the box, the English logo of Patek Philippe was actually printed.

On the side, Fei Ke Xin came over to take a look and said in surprise, "So it's a watch"

Saying that, she couldn't help but sigh: "Miss Liu is indeed observant, if I had to think of a gift for you, I might not really be able to think of one, because you don't lack anything, but now that I think about it, the only thing you lack is a watch, a successful man like you, when you go out, you really need to wear a watch that can highlight your status."

Ye Chen smiled, "I don't wear a wristwatch because I don't like it. Nowadays, I carry a mobile phone when I go out, so I can check the most accurate time anytime and anywhere, so there is absolutely no need to carry a huge watch on my wrist."

Fei Ke Xin laughed, "I didn't like it before, but this watch was given to you by Miss Liu, so maybe you'll like wearing a watch because of this person."

Saying that, she hurriedly urged, "Mr. Ye better open it and take a look, I also have some research on watches, maybe I can help you with a reference."

Ye Chen nodded and opened the top lid of the box.

What caught his eye was a large, round dial watch with a circle of blue stones attached around the circumference of the watch, with a white gold bezel that was very grand.

Fei Kexin could not help but exclaim at this point: "Patek Philippe's 5073P, or the top of the line sapphire model, Miss Liu this is all at once for you to match the top ah"

Ye Chen asked curiously, "This watch is very expensive?"

Fei Ke Xin smiled faintly, "It may not be much to you, but this watch should be one of the most expensive within the watch, the actual transaction price is going to be around ten million dollars."

Ye Chen couldn't help but sigh: "Just a watch like this, ten million dollars? That's outrageously expensive, isn't it?"

Fei Ke Xin said jokingly, "It's okay, you can buy the entire Patek Philippe brand with one Blood Saving Pill, Patek Philippe has been in business for so many years and has been marketed by Transition for so long, the market value is only around US\$8 to 10 billion, and it is still valued at a higher level. "

The market value of the Rolex Group is also around ten billion dollars."

Chapter 4657

Ye Chen did not expect that Fei Kexin would be willing to exchange two well-known watch companies, Patek Philippe and Rolex, for a blood dispersal heart saving pill with herself.

However, when one thought about it, for a top tycoon like her grandfather Fei Jianzhong, twenty billion US dollars in exchange for three to five years of life, this was still a very good deal.

After all, even the Spring Return Pill could fetch over US\$300 billion, and it would be easy to sell a tenth of the Blood Scattering Heart Saving Pill for the Spring Return Pill.

In fact, Ye Chen also knew very well that, don't look at Fei Ke Xin's words as if she was joking, but in fact, this was what she really had in mind.

Only by saying it in such a joking tone, she had left herself enough room for manoeuvre both before and after, to advance and retreat.

If one indicated that one was not willing to sell the Blood Dispersing Heart Saving Pill, then she would definitely use the joke as a friend and easily pass it by.

However, if he went along with her words and expressed his interest in selling the schooling, then she would definitely immediately put away her joking attitude and have a serious and in-depth talk with him.

This made Ye Chen's heart can't help but feel once again: "Fei Ke Xin is really extremely smart, at all times and under all circumstances, she can judge the form very clearly and control the rhythm very precisely, it is really remarkable."

Thinking of this, Ye Chen could not help but think, "However, Fei Ke Xin must not have thought that I had already planned to give her a blood dispersal heart saving pill."

At this thought, Ye Chen suddenly developed a flirtatious heart.

He knew that Fei Kexin could now attack and retreat, seemingly holding the initiative, but he was also clear that he now had a four-two killer move, which was to deliberately play a hand with her to pretend to be confused.

So, he looked at Fei Ke Xin and smiled, then looked at the luxurious new interior of the plane and suddenly said, "Hey yes, Miss Fei, this plane of yours is very new, you didn't just buy it, did you?"

Fei Ke Xin was slightly stunned.

She had originally thought that she could communicate with Ye Chen about the purchase of the Blood Dispersing and Heart Saving Pill properly regarding this joking conversation, and since words were rushing to this point, perhaps this matter could really be facilitated.

However, she really did not expect that Ye Chen would directly change the topic.

This made her feel as if she had punched the air, not to mention making any real progress, and not even getting any feedback.

This made Fei Ke Xin feel very lost all of a sudden.

She couldn't help but think of Liu Manqiong again and the blood dispersing heart saving pill that Ye Chen had given her, and felt even more inferior in her heart.

She thought, "Mr. Ye knew Liu Manqiong for a few days and was able to give her a rejuvenation pill, but Mr. Ye knew me much earlier than Liu Manqiong, yet he was unwilling to even sell me one"

"Could it be that Could it be that in his heart, I am so much worse than Liu Manqiong?"

At this moment, Fei Ke Xin, in addition to loss, could not help but have a few more aggravation, this aggravation made her heart blocked uncomfortable, her eyes even a little red and tide.

However, she didn't want Ye Chen to see it, so she hurriedly adjusted and smiled along with Ye Chen's words, "I'm not going to hide it from you, this plane was actually ordered by my grandfather from Boeing three years ago, the prototype was a Boeing 747-8, as the interior modification also needed to be done by Boeing, so the whole production cycle was incomparably long, and it was only just delivered in Chicago last week. "

At this point, Fei Ke Xin gave a slight pause and continued, "Originally, I didn't want to use this plane either. But when my grandfather heard that I was coming to Hong Kong Island to meet you, he transferred this plane directly to New York."

Ye Chen nodded gently and asked with a smile, "How is Mr. Fei doing lately?"

Chapter 4658

"Not too bad." Fei Ke Xin said truthfully, "There is nothing serious wrong with his body for a short period of time, plus he is in a good mood, so he is also in better shape than before, and recently he even made plans to learn to play tai chi with others, saying that he wants to strengthen his body and try to live two more years."

Ye Chen smiled, "It seems that the old man is in good shape."

“Yes.” Fei Ke Xin nodded and said, “Looking at the whole person’s condition, it is much better than before, thanks to your help, Mr. Ye.”

Saying that, Fei Ke Xin added, “Oh yes Mr. Ye, my grandfather he is determined to win the Spring Return Pill auction next year, saying that he must get the last whole Spring Return Pill at all costs.”

Ye Chen smiled faintly and asked her, “You are now at the helm of the entire Fei family, from your current perspective, do you think it is worth it for the old man to spend several hundred billion dollars on a Spring Return Pill for the entire Fei family?”

Fei Ke Xin thought for a moment and said seriously, “If we look at it purely from the perspective of the Fei family head, then it is definitely not worth it.”

“Even though the Fei family has a large family, the cash that can really be taken out is only the value of a Spring Return Pill.”

“Once this money is taken out, the entire Fei family will turn into a luxury jumbo jet with no money to refuel, and the turnover of many businesses will be greatly affected.”

“Moreover, in order to free up enough cash in advance, I will probably have to start reducing unnecessary expenses and investments with long payback periods throughout the family from the second half of this year, to ensure that at least US\$350 billion, to US\$400 billion, is set aside for the first half of next year.”

Speaking here, Fei Ke Xin sighed softly and added, “However, I am not just the head of the Fei family, I am also his old man’s granddaughter, and having followed him these past few years, I can be acutely aware of how strong his desire for survival really is.”

“I’m not exaggerating when I say that for Grandpa personally, he would even be willing to take out 80% of the entire Fei family’s assets to get twenty years of life for himself, after all, in his opinion, the vast majority of the Fei family’s current estate was fought for by him, even if he took away 80%, the remaining 20% would be enough for all the Fei family to spend for several lifetimes.”

At this moment, Fei Ke Xin paused slightly for a moment and lamented, “So for me now, I can’t let the Fei family lose a lot of money on the one hand, and on the other hand, I can’t let down my grandfather’s desire to survive, if I reject him at this time, then what difference would there be between me and my eldest uncle? The most saddening thing in this world is that the young man who slays the dragon ends up as an evil dragon, and this is what I have been constantly reminding myself of in my heart.”

Ye Chen asked curiously, “So how are you going to neutralise these two different positions?”

Fei Ke Xin thought for a moment and said seriously, “Really taking out 80% of the assets, I think it would be irresponsible, irresponsible to myself and to the entire Fei family, but if I were to take out 50%, I would not hesitate, after all, to grandpa right now, life is worth more than everything.”

Saying this, she pointed to the luxurious floor inside the plane and said to Ye Chen, “When it really comes to his deathbed, if he was asked to use this private plane, which cost over US\$500 million, to exchange even one day for himself, he would definitely agree without hesitation.”

Saying this, she sighed and looked at Ye Chen, saying very sincerely, "Mr. Ye, if you are willing to sell me a rejuvenation pill, I am willing to give away half of the Fei family's assets, and will never go back on my word."

Ye Chen smiled indifferently and said seriously, "People are all afraid of death the more they live, even if you really help him buy a rejuvenation pill next year and let him live for another 20 years, but 20 years will always pass, at that time, he will become even more afraid of death than he is now, what should you do?"

Fei Ke Xin said seriously, "I am not foolishly filial either, as long as I can do it right for once and have a clear conscience."

Ye Chen nodded gently, and without showing his hand, he took out a blood dispersing heart saving pill and said to Fei Ke Xin, "By the way, I have prepared a small gift for you, I was planning to give it to you just now, but I never thought of it."

Chapter 4659

At this moment, in Ye Chen's hand, he was clutching a Blood Dissipation and Heart Salvation Pill.

It was not as precious as the Spring Return Pill, so Ye Chen did not bother to get a wooden box to put it in, and just sealed it with wax paper specially wrapped around food.

When Fei Ke Xin heard that Ye Chen was going to give her a gift, and that he had deliberately clenched one hand in a fist, palm down, like a child, as if he was being mysterious, she thought for a moment that Ye Chen was trying to joke with her, so she said with a smile, "What kind of small gift is Mr Ye preparing? It's not a little worm, is it? For the record, I'm not afraid of bugs."

The most common way for boys to tease little girls was to grab a bug in their hands and pretend to have a present for them to pick up.

Fei Ke Xin also seemed to be playful at this time, and while saying so, she even put her hand out and placed it under Ye Chen's clenched hand, then looked at Ye Chen and asked with a light smile, "Do you want to close your eyes?"

Ye Chen smiled faintly and said blandly, "No need."

With that, his hand loosened and the blood dispersing heart saving pill fell into Fei Ke Xin's hand.

Fei Ke Xin felt what seemed to be a ball of paper in her hand, but it seemed to have more weight than paper, so she looked over curiously and saw that it was a ball of wax paper wrapped in wax paper, and for a moment she was stunned for a moment, then she thought of the Blood Dissipation Heart Saving Pill that Liu Manqiong had shown her, which also seemed to be wrapped in this kind of wax paper

This is the first time that I've ever seen a person's heart beat faster than it ever has before, as if the adrenaline was soaring in this instant.

Even though the Blood Dispersing and Heart Saving Pill was already lying in her hand, Fei Ke Xin still did not dare to believe it.

She looked at Ye Chen dumbfounded and subconsciously asked, “Mr. Ye, isn’t this the Blood Dispersing Heart Saving Pill? Why are you suddenly giving me such an expensive gift?”

Ye Chen looked at her and smiled lightly, “It’s true that I haven’t troubled you much during this period of time, so this Blood Dispersing Heart Saving Pill will be taken as a small token of my appreciation, and I hope Miss Fei won’t mind.”

Fei Kexin was a bit flattered, and even a bit flustered, and hurriedly said, “Mr. Ye, Kexin’s life was saved by you, without you, Kexin’s present day would not be possible, you have such great kindness to Kexin, Kexin does anything for you is justified ”

Saying that, she hurriedly handed the Blood Dispersing Heart Saving Pill to Ye Chen again and said with incomparable determination, “Mr. Ye, this pill is too valuable for Kexin to take”

With a serious expression, Ye Chen pushed the elixir back and put it back into Fei Kexin’s hand, using his own hand again, holding her hand so that she could hold on to the elixir, while speaking, “This is a small token of my appreciation, so just take it and keep it close to you, just in case it’s always good.”

Saying that, Ye Chen also instructed, “If it is not necessary, don’t directly pa*s it on to your grandfather, just consider it as a backup for yourself first.”

Fei Ke welcomed Ye Chen’s resolute attitude, her heart was immediately moved beyond measure, and tears were already coming out of her eyes uncontrollably.

Just a moment ago, she was still feeling inferior and aggrieved by the difference in Ye Chen’s treatment of herself and Liu Manqiong.

But to her surprise, Ye Chen had given herself a powerful response so quickly.

The greatest value of this elixir in front of her, in this instant, was not the elixir itself, but an attitude that Ye Chen had released through this elixir.

This elixir let her know that Ye Chen, in his heart, cared about her.

Chapter 4660

Thus, all the negative emotions in her heart, at this moment, gushed out with her tears, and her whole mood clouded over, as if a young girl in the beginning of her love life, receiving a love letter from her beloved, sweet into her heart.

Seeing her tears flowing, Ye Chen hurriedly said, “Look, how can a small gift make you cry?”

As he said that, he handed over a tissue and said, “Hurry up and wipe your tears, when the steward comes over and sees this, he will think that I am bullying you while no one is around.”

Fei Ke Xin could not help but laugh out loud, while laughing and taking the tissue to wipe away her tears, she teased, “What are you afraid of? Even if you do bully me, I don’t blame you”

She realized that her joke didn’t seem appropriate and hurriedly changed the subject again, remembering the joke she had just made with Ye Chen, and immediately said with great determination,

“Mr. Ye, thank you for this great gift, in return, I will buy the two companies, Patek Philippe and Rolex, for you within a week... ..”

Ye Chen hurriedly waved his hand and said, “No, don’t!”

Saying that, he pointed at the Patek Philippe in his hand that Liu Manqiong had given him and said helplessly, “Just this one watch, I don’t even know what to do, and you have to give me two watchmaking companies, what use do I want them for.”

Fei Ke Xin seriously said, “But this blood dispersing and heart saving pill of yours, if put in an auction, it would fetch at least tens of billions of dollars, Ke Xin is really ashamed of it”

Ye Chen waved his hand and admonished, “Remember, Kexin, if it’s something I give you, no matter how expensive or how cheap it is, it’s just a token of my appreciation, you don’t need to feel lost because the gift is cheap, and you don’t need to feel uneasy because it’s expensive, you just need to accept it silently, nothing else matters.”

Hearing Ye Chen’s incomparably sincere words, Fei Ke Xin’s heart was instantly moved beyond attachment.

She understood Ye Chen’s heart and knew that she must have a place in Ye Chen’s heart, so she scrambled to wipe away the tears that couldn’t be controlled from welling up again, nodded solemnly and choked up, “Thank you, Mr. Ye, Kexin understands!”

Ye Chen let out a hmph and added, “Say hello to your grandfather when you get back, and tell him I’ll see him again before I leave the US.”

“Okay!” Fei Ke Xin nodded in a hurry and asked, “Mr. Ye, is there something you want to see grandpa about? I’ll ask him to prepare in advance!”

Ye Chen shook his head, “There’s no need to prepare, when I see him, I will tell him not to go to next year’s Spring Return Pill auction.”

Fei Ke Xin asked in surprise, “Mr. Ye this is why?”

Ye Chen said seriously, “Your grandfather’s desire for longevity is indeed too strong, if he still goes to the auction next year, he will definitely not be able to bear the result of failure and might botch it up.”

Saying this, Ye Chen gave a slight beating and looked at Fei Ke Xin as he continued, “Once he throws his weight around and you are too tolerant and benevolent towards him, it will probably drag the entire Fei family into the abyss, you and the Fei family are very important allies to me in the future, I don’t want my allies to be greatly injured because of such things.”

Fei Ke Xin said with difficulty, “Mr. Ye grandfather he is a man who has always known very clearly what he wants and will put it into action very dryly, he will not listen to advice”

“Never mind.” Ye Chen said indifferently, “I can’t possibly advise him with empty words, that way not to mention him, even the others can’t possibly accept it.”

Saying that, Ye Chen gave a slight beating and added: “The Blood Dispersing Heart Saving Pill that I gave you just now, you keep it well, after I meet your grandfather, I will give him a promise to break his thoughts of the Spring Return Pill.”

Fei Ke Xin did not know what else in this world was more important to her grandfather than the Spring Return Pill, so she could not help but ask, “Mr. Ye, what promise are you going to give to grandfather?”

- Ye Chen said indifferently, “As long as he assists you properly in sitting as the Fei family’s head, he doesn’t need to bid for the Spring Return Pill, I, Ye Chen, can guarantee him another ten years of life!”
