

Ye Chen 4821

Chapter 4821

Hearing Ye Chen's question, Lang Hongjun shook his head with a bewildered expression and laughed bitterly, "It's already in this situation, what else can I plan to do, it was only thanks to your blessing that I was spared, so right now it's better to go back to the United States and think of other solutions"

The first thing you need to do is to go back to the United States and find a suitable job."

Hearing this, Lang Hongjun's expression was a little embarrassed and helpless at once.

He let out a long sigh and said, "If you can't find a suitable job, just look for some low-end work, my mother can find work in a restaurant, I'm sure I can too."

Ye Chen looked at him and smiled, "Older brother, I think it's better this way, you've already come out anyway, so there's no need to rush back, since you're in communications engineering, why don't you join and work in the Hall of Ten Thousand Dragons from now on? The demand for communications will definitely increase in the future and become higher and higher, and talents like you are very much needed."

When Ye Chen said these words, he already had two plans in mind.

If Lang Hongjun agreed to his invitation, it would naturally be the best, and he would definitely ask Wan Bajun to give him a generous offer, and then take him directly to the Middle East.

But if Lang Hongjun did not say yes, he would certainly not be able to let him stay with the secrets of what happened here and return directly to the United States, and he would erase all his memories and those of others about today, just like he did with the others who were rescued.

But Ye Chen easily did not want to try the second option.

After all, he and Lang Hongjun had known each other for a while, so it was more or less fate. If his memory was erased, the two of them would never cross paths again in the future, and Lang Hongjun would forget the bloody lesson he had learned today and return to the US in a daze to find another job.

In contrast, Ye Chen would prefer to take him under his wing and let him keep his memories, which would be a happy ending for all.

Lang Hongjun did not expect that Ye Chen would invite himself to join the Hall of Ten Thousand Dragons.

At this moment, he did not hesitate and instead asked with extreme surprise, "Old Brother, is someone like me really qualified to join the Ten Thousand Dragons Hall?"

Ye Chen said seriously, "Old brother, you are an expert in communications, the Ten Thousand Dragons Temple needs talents like you, and the core members of the Ten Thousand Dragons Temple are almost all Chinese overseas Chinese, there are no barriers to communication, and it will become very easy to integrate, it will definitely be more comfortable than you going back to the US to work for a foreigner."

Lang Hongjun said excitedly, almost without thinking, “I do! I do! I owe this life to you, but whenever I can have a chance to repay your kindness, I have absolutely no hesitation, and I don’t want a single penny of salary, as long as Wan Long Temple can manage to feed me, I’ll be satisfied.”

Ye Chen smiled and said, “Older brother, you don’t want a salary, what about your wife and children in the United States?”

“It’s okay” If not for you, my wife and children would have thought I was missing, and they would have been on tenterhooks for me, looking for clues until they found out I had been killed. By then, they might have learned the details of my murder from the police, and they would have been overwhelmed with pain and grief

Chapter 4822

The first thing that I can do is to save my life, so that my wife and children won’t be in pain because of my tragic death, in this regard, you not only saved me, but also saved them, in this case, I can live, it’s already the best situation for them, as for the difficulties in life, I believe they should be able to overcome, it’s just living a bit harder!”

Seeing Lang Hongjun’s determined expression and steely eyes, Ye Chen was actually touched in his heart for a few moments.

A few moments later, he called Wan Bajun to his side and said to him, “Bajun, this Lang Hongjun is an expert in the field of communication, I believe that the Ten Thousand Dragons Temple definitely needs such talents, so let him go back to the Middle East with you.”

Wan Xiaojun smiled and said, “That’s great! Wan Long Temple is now preparing to strengthen its own hardware investment in the field of communications, and is in need of such a talent to help us with the infrastructure and the planning of our future blueprint!”

Ye Chen smiled and said, “Good! In my opinion, in the future, the Dragon Palace can even customise its own communication satellites from communication companies, and then look for commercial satellite launch companies to carry out the launch and build its own satellite communication system. level of security will definitely be greatly enhanced.”

Saying that, Ye Chen added: “I remember that private individuals and private enterprises, it seems, are now able to launch their own satellites.”

“Yes.” Lang Hongjun, who knew a lot about this, immediately nodded without thinking and said, “The three biggest problems with private satellite launches are actually all related to money, one is the development and production of the satellite itself, another is the cost of launching the satellite, and the approval process needed to launch the satellite. I suggest that we can first register a legal private company in the United States or in an offshore centre like the Cayman Islands, and then through this private company, we can go to the satellite’s research and development company, the launch company and the approval department.”

On the side, Wan Breaking Jun hurriedly asked, “Mr Lang, may I ask what the total cost of launching a communication satellite is approximately?”

Lang Hongjun thought for a moment and said, "If you just want to realise Wan Long Temple's own global communications, and not to make it a To-C communications provider, then the overall demand would actually be much smaller, and the cost of the satellite would be around ten million dollars, and the launch cost would be even lower, currently Elon Musk's Space-X, which is quoted at around five thousand dollars for a kilo of launch, a satellite It's only around two million dollars, and if it's global communications and you can guarantee twenty or thirty satellites, you'll be absolutely foolproof!"

Wan Bajun did not know much about this and could not help but exclaim, "You need 20 to 30 satellites?"

Lang Hongjun nodded and said, "Twenty to thirty satellites is not too many, Elon Musk's Starlink satellites have launched several thousand satellites so far, and will launch several thousand more in the future, the total number will be more than ten thousand. And the more satellites there are, the higher the processing power and communication bandwidth will be, but his satellites are developed and launched by himself, so the cost will be relatively much lower, and he is for commercial use, so the demand is high, and the demand will be relatively much lower for the Ten Thousand Dragon Hall's own internal use."

After hearing this, Ye Chen's heart was overjoyed and he spoke, "Older brother is indeed a professional! Since that's the case, then you should come to the Ten Thousand Dragons Hall to lead this matter, and strive to build a set of your own satellite communication network for the Ten Thousand Dragons Hall in the shortest possible time!"

Chapter 4823

Lang Hongjun's major is communications engineering, and his speciality is satellite communications.

He was originally a professional with strong research and development capabilities, but he was a bit too old to find a suitable job of his choice, as most communication companies had a stable market share and had already entered the stage of receiving dividends.

In fact, for a technical professional, the saddest thing is not to be laid off, but to be unable to find a real place to use his ambition.

However, Ye Chen's words gave him a great encouragement all of a sudden.

Ye Chen had made up his mind to build a satellite communication system of his own for the Ten Thousand Dragons Temple with just a casual remark, a boldness that was indeed very rare.

Lang Hongjun, too, was determined to find an opportunity to show off all his abilities and ambitions, so he looked very excited and thrilled.

He said without thinking, "Mr. Ye, I am grateful to you for thinking highly of me, I will do my best!"

Ye Chen nodded his head and turned to Wan Bajun, "Bajun, when Lang arrives in Syria, he will be paid an annual salary of one million US dollars after tax, plus another half a million US dollars a year for settling in because the place is too far from home.

Wan Bajun immediately said respectfully, "Don't worry Mr. Ye, my subordinates will make the right arrangements!"

Lang Hongjun, who was next to him, instantly tensed up, and he quickly waved his hands and said, “No, no Mr. Ye, you saved my life, how can I take your salary again this definitely won’t work! I also said just now, you just need to manage my food and accommodation, I don’t want a penny of the rest.”

Ye Chen waved his hand and said with a serious face, “Older brother, look, the entire Ten Thousand Dragon Temple is loyal to me, if I treat any of the people who work for me poorly, how can I serve the public in the future? After you arrive in Syria, all the members of the Ten Thousand Dragons Hall around you will have a salary income, but you are the only one who doesn’t have a penny, how will others look at me when they find out?”

Lang Hongjun was sweating a little anxiously and blurted out, “But but I always have to repay you for saving my life”

Ye Chen laughed: “There are many ways to repay the kindness, after old brother arrives in Syria, he can put his whole heart and soul into his work, and use the results of his work to repay me for saving his life in the future, this is the most real way.”

He said, in an unquestionable tone, “Let’s settle this matter, you don’t need to talk to me anymore, from now on your salary will be paid monthly, but this \$500,000 settlement fee, I will let the Broken Army side pay it first, so that you can also settle your family matters and problems first.”

Lang Hongjun wanted to say something, but when the words came to his mouth, he simply could not send them out, so he could not control his red eyes.

Ye Chen patted his arm and said seriously, “Old brother, since you have this ability, you should let your wife and children and your aged mother enjoy their happiness. 500,000 US dollars should be given to them first, so that they can solve all the difficulties at home in one go, so that the elderly can concentrate on their old age, so that the wife can concentrate on taking care of the family, so that the children can concentrate on their schooling, so that you can also concentrate on your work without any worries.”

The money will not only solve their difficulties, but also make them feel more comfortable about you working alone and more confident about their future life, so they will all be happy. So don’t refuse, say yes and leave for the Middle East tonight!”

Lang Hongjun’s tears could no longer be controlled, a forty-year-old man with tears dripping down like broken pearls.

A moment later, he wiped away his tears with his hand and said firmly, “Don’t worry, Mr. Ye, I will do everything I can, everything I have learned in my life, to repay this great kindness of yours!”

Chapter 4824

Ye Chen nodded his head and smiled, saying, “That’s a promise, you don’t have to worry about the rest.”

After saying that, he said to Wan Xiaojun, “Xiaojun, you should arrange for Lao to follow the army to Syria, and when you get there, you should take care of the people, money and land. You must create a satellite communication system of your own within the shortest possible time, so that in the future, the

Hall of Ten Thousand Dragons will never have to worry about information leakage, and it will be 100% reliable, and will definitely do a great service for the Hall of Ten Thousand Dragons in the future!”

“Good! My subordinate understands!” Wan Bajun was also a little excited at this point.

Although he had been running the Ten Thousand Dragons Hall for many years, he had never thought that he would be able to let the Ten Thousand Dragons Hall have its own satellite communication system.

This, was definitely a qualitative upgrade!

Since Lang Hongjun had agreed to the invitation to Syria, Ye Chen did not let him get on the bus, but instead let Wan Breaking Army arrange for him to leave the site with the other generals in other vehicles.

At this time, Wan Bajun said to Ye Chen, “Mr. Ye, our men have already discovered the whereabouts of that Zong Qihua, she and her concubine are currently hiding in Las Vegas, as long as we capture her back to New York, your mother-in-law’s side will be cleared of suspicion, do you think when is the right time for us to do it?”

“Zong Qihua?” Ye Chen frowned slightly and asked, “It’s the one my mother-in-law docked at the New York airport, right?”

“Right.” Wan Xiaojun said, “That woman’s real name is Huang Qiufen, similar to that Mei Yuzhen’s situation.”

Ye Chen nodded and said indifferently, “Keep an eye on her first, I still have some things to do back in New York, don’t alert the snake for the time being, when I need to, I’ll get her back.”

“Good.” Wan Bajun nodded, “Then I’ll have my men keep an eye on her 24 hours a day and be ready at all times.”

Ye Chen nodded slightly and asked him, “Is my mother-in-law in there in a good condition?”

Wan Bajun scratched his head awkwardly and said, “This Mr. Ye, my subordinate doesn’t know how to say”

Ye Chen said casually, “But there is no harm in saying it.”

Wan Bajun coughed twice and said, “Your mother-in-law is at Bedford Hill Correctional Facility and can now be said to be like a fish out of water and happy ”

Ye Chen froze and asked him, “What’s going on?”

Wan Breaking Jun said, “It’s like this Didn’t you say before that you wanted me to send a few female warriors to look after and take care of her so she is now basically all alone in Bedford Hill Correctional Facility Not only her cell, but even the other cellmasters at Bedford Hills Correctional Facility are now being ruled by her commanding our three female soldiers”

"I heard from my men's report that your mother-in-law is already the number one in Bedford Hill Correctional Institution in the true sense of the word, no one dares to challenge her authority, and she now has a resounding nickname in Bedford Hill Correctional Institution"

Ye Chen was surprised and asked, "What nickname?"

Wan Breaking Jun said awkwardly, "Bedford Hills Ghost Ghost Seeing"

"Rub what ghost" Ye Chen listened dumbfounded and asked offhandedly, "Who gave it to her? It couldn't be herself, could it?"

"Yes" Wan Xiaojun smiled sarcastically, "Mr. Ye is wise indeed she named it herself... .."

Chapter 4825

Ye Chen also did not expect that his mother-in-law, Ma Lan, could give himself such a martial arts style nickname while in prison.

Bedford Hill Ghosts

I have to say, this nickname sounded a bit imposing.

But Ye Chen didn't find it very surprising, this is how mother-in-law Ma Lan always acts.

It's a bit inappropriate to say that she's a dog, but to say that she's a bully is certainly not an injustice.

I didn't expect that in two or three days' work, she would be able to blend in as a Bedford Hills ghostly figure, so it seemed that her life inside was indeed like a fish in water.

So, Ye Chen said, "Fine, let her go, as long as she is happy, when I am done with my business in New York, by then, no matter if she is a Bedford Hills Ghost Seeing Sadness or a Bedford Hills Pig Seeing Mad, she will have to come out of it."

Wan Xiaojun nodded and smiled, "Then I'll wait for your notice."

"Good." Ye Chen smiled, "You go ahead and get busy, I'll go check on the bus, there's still a bit of business to wrap up."

Wan Bajun said respectfully, "Okay Mr. Ye, then my subordinate will go and get busy first."

After Wan Bajun left, Ye Chen boarded the bus that was already ready to depart.

He shook hands with those who had been rescued one by one, but while shaking hands, he sent a tiny amount of spiritual energy into each other's bodies.

However, everyone was oblivious to all this.

The last person Ye Chen shook hands with was the old grandmother who gave him the Phoenix Bone Vine.

He shook hands with the old grandmother and said very seriously, "Old man, my men will arrange for you and your son to return to your country first, and they will help you solve your difficulties in life, and

when the time comes, they will take down your address, and when I return to my country, I will also visit you personally!”

The old lady was a little excited and also a little terrified, “Ye Mr. Ye how can this be? You are our life-saving benefactor, we should be the ones to pay you a visit”

The others in the car also nodded: “Yes Mr. Ye, it should be all of us to visit you together!”

Ye Chen smiled slightly and said, “I appreciate your kindness, it’s not too early now, we still have a few hundred kilometres to go, so you should take a good rest first.”

As soon as Ye Chen finished speaking, everyone except the old lady seemed to yawn, and immediately afterwards, they all fell back to sleep.

The old lady was a little surprised at this point and spoke, “How did these people say they slept”

Ye Chen smiled and said, “Old man, you also seize the time to rest and rest, I will definitely visit after I return to China, only that you may not recognize me then, but it does not matter, I will then claim to be the descendant of your husband’s lifelong friend, at that time, I will help you and your son to arrange everything in the future, so that you will have no more worries in this life. ”

The old lady was confused, she said with certainty, “Mr. Ye, although I am old, my brain is still in good working order, don’t worry, I will definitely not forget your kindness in saving my life!”

Ye Chen knew that she did not understand the meaning of her words, so he smiled and said, “Old man, it’s time to leave, you should rest early.”

As soon as the words left his mouth, a trace of spiritual energy was transferred into the old man’s meridians, and he quickly fell asleep.

Ye Chen then stepped off the bus and said to Su Ruoli who was waiting here, “Let’s go Ruoli, let’s go back to New York!”

.....

In the middle of the night, Ye Chen took a modified bullet-proof Cadillac and drove into Mexico’s Ensenada Airport.

In the car, apart from the driver arranged by Wan Bajun, there were only Ye Chen and Su Ruoli.

Chapter 4826

At this moment, the Ye family’s Concorde airliner was waiting at the end of the runway.

The slim fuselage and sci-fi shape of the plane made it look like a ghost.

This plane was arranged in advance by Ye Chen, who flew from China to Mexico to take him home.

The turnaround efficiency of both civil aviation and private jets was too slow, and using this plane would cut the overall flight time in half.

As soon as Ye Chen's car appeared on the airport runway, the cabin door opened from the inside and two figures quickly stepped off the plane and waited respectfully in front of the boarding ladder, one on the left and one on the right.

These two men were Ye Chen's right-hand men in Jinling: the head of Buckingham Palace in Jinling, Chen Zekai; and the head of the underground world in Jinling, Master Hong Wu.

Both of them had travelled from China on this plane at Ye Chen's request, but at this point they still did not know why Ye Chen had called them all the way to Mexico.

Hong Wu watched the car Ye Chen was riding in approaching and couldn't help but ask Chen Zekai in a low voice, "Mr. Chen, what do you think Master Ye is asking us to do in Mexico this time?"

"How do I know" Chen Zekai shrugged his shoulders and said, "I just heard the young master instruct me to get on this plane and come with you, as for what arrangements the young master is following, I am not sure. "

I thought he wanted us to come to Mexico to do something, and he said he wanted us to go and eat Mexican taco. The real original taste of food can only be experienced when you go to the place of origin."

Richard Chan laughed, "There's no rush to eat Taco, I'll arrange it when we're done with the young master's arrangements!"

But you have to be careful in a place like Mexico. This is not China, and it's not Jinling. In a place like this, a teenager on the side of the road could have a real gun in his pocket and shoot at the first sign of disagreement."

"f*ck." Hong Wu scowled and waved his hand, "That's a D*mn good idea, I'm at least a dignified person in Jin Ling, if I get shot by a kid in Mexico, it's a big f*cking shame."

Richard Chen laughed, "What's the matter, no more Taco?"

Hong Wu said, "Taco is just a tortilla roll, it's the same everywhere, I'll go back to China and have a modified shredded fish and pork Taco."

While they were talking, the Cadillac sedan Ye Chen was riding in had already arrived in front of him.

Chen Zekai hurriedly opened the door and said respectfully, "Hello, Young Master!"

As he spoke, he saw that there was still Su Ruoli in the car, and hurriedly added, "Miss Su is also here!"

As he said that, he also forgot to give a wink to Hong Wu.

Without hesitation, Hong Wu went around to the other side, opened the door on the other side and said respectfully, "Good day, Master Ye and Miss Su!"

Su Ruoli was a little uncomfortable and said politely, "Hello Mr. Hong, hello Mr. Chen."

Ye Chen got out of the car and said to the two of them, "It's hard for you to come all the way here, you might have to do something in New York recently, and I'm afraid that there aren't quite enough trusted hands, so I've called you here."

Chen Zekai said, "Young master, our duty is to serve you, how can this be considered hard work, it's all part of our job."

Hong Wu also heatedly smiled, "Yes Master Ye, I, Hong Wu, am a brick for you Master Ye, I can carry it wherever you need it, and I am a brick with legs, whenever you need it, I can run over myself without you carrying it."

Ye Chen laughed, "Hong Wu, without you this time, I don't know how many works of human calligraphy have been lost in the Western art field."

Hong Wu grinned, "No fear Master Ye, I've come back here with a knife close to me, so I can create new works anytime and anywhere!"

"Good." Ye Chen nodded and smiled, waving to the two, "Let's go, let's go up and talk!"

Chapter 4827

Hearing Ye Chen's invitation, both Chen Zekai and Hong Wu nodded hastily, and then they followed him and Su Ruoli onto the plane.

Once on the plane, Ye Chen said to the three of them, "You guys sit first, I'm going to make a call inside."

The cabin of this Concorde Technology was divided into four parts, apart from the C*ckpit and the crew's working area, the pa*senger cabin from front to back were the seating area, the office area and the rest area.

The seating area was all wide first cla*s seats, capable of seating thirty people, the office area had a conference room and an office, while the rest area was a double suite.

After greeting the three of them, Ye Chen went to the office at the back first, and the first thing he did after sitting down in the office was to call Fei Ke Xin first.

After receiving the call, Fei Kexin respectfully asked, "Mr Ye, what are your orders?"

Ye Chen said, "Miss Fei, I will send you a list of herbs in a moment, you should hurry up and help me prepare them in New York, if you can get them together, it would be best, if not, you can tell me in time which herbs are missing, I will have them shipped over from China."

"No problem." Fei Ke Xin hurriedly said, "Mr. Ye, there are many Chinese ones over here in New York, and there are also many well-known Chinese doctors, and the Chinese medicine as well as herbal business is quite large, I believe that I can gather what you need."

Ye Chen gave a hint and said, "Then I will send you the list later, it will be hard for you to prepare it."

"Mr Ye is very kind, it's Kexin's honour to serve you."

Fei Kexin followed up by asking, "By the way Mr. Ye, when are you returning to New York?"

Ye Chen said, "My plane will be leaving soon, I should be there in two hours."

Fei Ke Xin said, "Then I will pick you up at the airport!"

Ye Chen did not intend to stay at Fei's house tonight, because of the alchemy he had to make, plus the fact that both Chen Zekai and Hong Wu were around, so he planned to stay at the Buckingham Palace Hotel in New York.

He then said to Fei Kexin, "Miss Fei doesn't need to bother, I'm going to Buckingham Palace tonight, prepare the herbs on your side and meet me directly at Buckingham Palace."

Although Fei Kexin was a little disappointed, she still agreed very readily, "Okay Mr Ye, you send me the list and I will prepare it as soon as possible."

Ye Chen then sent Fei Kexin the list of all the herbs needed to refine the Remodelling Pill.

The medicinal herbs needed in this were all very valuable, but at least they were not as rare as the Phoenix Bone Vine.

With the Phoenix Bone Vine, it shouldn't be too difficult to match the other ingredients.

Once the ingredients were matched, Ye Chen would be able to refine the Remodelling Dan directly in New York at that time.

By then, after the Dan was completed, he could ask He Yingxiu, as well as Ito Yohiko and Tanaka Koji, to all fly to New York and solve all of these people's problems at once.

Thinking of Ito Yohiko, Ye Chen also could not help but think of Ito Nanaeko.

He himself and this gentle as water Yamato Nadeshiko had not seen each other for some days.

Although he did not want to admit it, Ye Chen knew in his heart that he had been missing her quite a lot.

If Yohiko Ito came to the United States, I was sure that Nadeshiko Ito would also come along, so I would be able to meet her then.

However, Ye Chen did not have any unpleasant thoughts, but subconsciously wanted to take this opportunity to meet her.

Then, fearing that his wife Xiao Churan would be worried about Ma Lan, Ye Chen picked up his mobile phone and called her again.

As soon as the call came through, Xiao Churan asked, "Honey, where are you now?"

Chapter 4828

Ye Chen said, "I flew overseas to help Ma find connections, and am now preparing to return to New York, has Ma contacted you in the past two days?"

"Contacted." Xiao Churan sighed and said, "Honey, I was just about to call and tell you about this, Mom just called me ten minutes ago, do you know what she said to me on the phone?"

Ye Chen I had already guessed a general idea, but still pretended to be curious and asked, "What did Mom say?"

Xiao Churan said helplessly, "Mom actually told me over the phone that she was doing very well inside the prison right now, and that she had wanted to call you, but your phone never got through, so she

called me and asked me to tell you that she was in no hurry to get out for now, so she asked you not to get her out of there too quickly either... ..and also said something like, as long as she can make it back to China with us, if she really can't, she can also go back on her own after she gets out of prison later

How come she is still addicted to entering a prison and actively says she is not willing to come out too soon

Ye Chen laughed twice and thought to himself, "My silly wife, if you knew that your mother is now a Bedford Hills ghost, you would probably be able to figure out why she doesn't want to get out"

But Ye Chen didn't say much, he just said comfortingly, "Honey, I guess mum doesn't want us to be anxious, that's why she said that."

Xiao Churan seriously said, "My mother is not the kind of person who will think about others, there are only two possibilities for her not wanting to come out, one is that she is being coerced, the other is that she is living comfortably inside."

As for the second possibility you mentioned, I think this is probably the case, maybe she has made new friends inside or wants to experience life inside. I've also asked my clients in New York to help me find connections, so I guess I can take care of her inside too."

Xiao Churan said helplessly, "To be honest, I heard her tone on the phone at the time and it didn't sound like she was being coerced, she sounded strange, like she was happy but didn't want me to hear it, so she was deliberately somewhat restrained

I really don't get it... .."

Ye Chen laughed: "Good wife, since you can't understand it, don't think so much, since mum can say this to you, then she must not be in any trouble and should be doing well."

"Well" Xiao Churan sighed and said helplessly, "There's nothing I can do about her, I just have to work hard for you and find a way to get her out."

Ye Chen smiled and said, "It's nothing hard, as long as mum is okay, nothing else matters."

Saying that, Ye Chen saw the seatbelt alert light in the office light up, so he said to Xiao Churan, "Wife, the plane is ready to take off, I have to return to New York overnight, so I won't talk to you for now, you take care of yourself in the next few days, do well in cla*s, don't worry about the rest."

"Okay" Xiao Churan instructed, "Then you must also pay attention to your rest, don't get tired."

The two of them instructed each other for a while before they hung up the phone before they could finish.

Immediately afterwards, the plane was at full thrust and after taxiing down the runway for some distance, it took off and disappeared into the night.

The flight, which would have taken at least five or six hours to complete, took only two hours to land at New York's JFK airport.

The Buckingham Palace Hotel's motorcade was already waiting at the airport, and after Ye Chen and the others completed the customs formalities through the VIP lane, they went directly to the hotel in the Buckingham Palace's courtesy motorcade.

When they arrived at the hotel, Fei Ke Xin called and said to Ye Chen, "Mr Ye, all the herbs on your list are ready, I'll send them to the hotel for you now?"

Ye Chen did not expect Fei Kexin to be so efficient, after all, it only took more than two hours and it was a big night.

However, Ye Chen did not ask too many questions, Fei Ke Xin was now the head of the Fei family, and was also a sitting family in New York, so her relationship channels were naturally deep-rooted.

So Ye Chen said, "Then let's meet at the hotel!"

Chapter 4829

When the motorcade arrived at the Buckingham Palace Hotel, Fei Kexin had been waiting there for a long time.

She was accompanied by Yuan Zixu, who was carrying two large suitcases containing the medicinal materials that Fei had prepared for Ye Chen.

As soon as Ye Chen got out of the car, Fei Ke Xin came forward and was about to speak when she saw Su Ruoli come out of the next car door and couldn't help but be a little surprised.

Immediately afterwards, Chen Zekai and Hong Wu stepped down from the car behind them. Fei Ke Xin was even more puzzled, as she naturally knew and had met these two people in Jinling, but she just didn't expect Ye Chen to call them to the US as well.

However, she quickly returned to normal and respectfully said to Ye Chen, "Mr. Ye, everything you want is ready."

Saying that, she pointed to the box in Yuan Zixu's hand and added, "I'm afraid that you won't have enough, so I've prepared an extra copy on top of what you requested."

"Good!" Ye Chen nodded, "Thank you Miss Fei."

Saying that, Ye Chen added, "Miss Fei, how is the situation with that Li Yalin?"

Fei Kexin busily said, "It has been frozen in the freezing centre, and is in a stable state after freezing."

"Good." Ye Chen nodded and said, "It's hard for Fei to arrange a time for him, I want to go see him tomorrow."

Fei Kexin agreed without thinking and opened his mouth to ask, "What time does Mr. Ye want to go there, I will arrange it in advance, the freezing centre is in the suburbs of New York, you can go there by helicopter, you can get there in half an hour."

Although Ye Chen was confident that he could refine the Remodelling Pill, he was not sure exactly when he would be able to succeed.

So he said, "I can't be sure of the time right now, if you are busy, you can arrange for someone you trust to interface with Mr. Chen, you should know Mr. Chen, right?"

Fei Ke Xin nodded, greeted Chen Zekai and smiled, "Hello, Mr Chen."

After saying that, she looked at Hong Wu and smiled, "Hello Mr. Hong."

Chen Zekai and Hong Wu had long known Fei Ke Xin's true identity and that she was now the head of the entire Fei family, so the two of them were more or less formal, and hurriedly nodded politely in greeting, saying together, "Good day Miss Fei!"

At this time, Fei Kexin said to Ye Chen, "Mr. Ye, we are going to the ice cave centre tomorrow, so I won't arrange anything else tomorrow, so you can give me a call in advance when the time comes, and I will come directly by helicopter to pick you up."

"Fine." Ye Chen didn't have to be polite with Fei Kexin, and agreed readily. Thinking that he still had to hurry to refine his pills, he said to Fei Kexin, "Miss Fei, I still have some things to take care of today, so I won't have to accompany you, let's meet tomorrow to discuss other matters, it's hard for you to make a special trip."

Fei Kexin said respectfully, "Mr. Ye doesn't have to be polite, in that case, then Kexin won't bother Mr. Ye either."

After saying that, she said to Yuan Zixu, "Master Yuan, give Mr. Ye the things he wants."

Yuan Zixu went forward with the box, and both Chen Zekai and Hong Wu were about to go forward to receive it, but they were preempted by Su Ruoli, who was even faster in stature.

Su Ruoli was not trying to be solicitous in front of Ye Chen, it was just that she had long regarded herself as Ye Chen's dead soldier and was loyal to him, so she instinctively stepped forward to take the things over.

As Ye Chen had already asked Chen Zekai to arrange for a room here in advance, so after saying goodbye to Fei Kexin and Yuan Zixu, he said to Chen Zekai, "Old Chen, you and Hong Wu will stay in the same room, and Ruo Li will go with me to the Presidential Suite."

When Ye Chen said this, all three of them, whether it was Su Ruoli or Chen Zekai and Hong Wu, were a little surprised.

Su Ruoli's cheeks instantly turned red, and Chen Zekai and Hong Wu both had a sense of enlightenment on their faces, as if they had realized something.

Chapter 4830

How could Ye Chen not see the lewd hint on these two people's faces, so he said with a straight face, "I've asked Miss Fei to prepare some herbs for me, I'm going to refine some pills tonight, Ruo Li is the strongest out of the three of you, she's following me so she can help in time in case there's any need."

To Ye Chen, refining higher-ranked pills was a great challenge.

The higher the rank of the pills, the greater the loss of spiritual energy when refining them, and the refining process was more dangerous.

If there were deviations in the middle, light work would be lost, and heavy work would backfire on oneself.

Although Su Ruoli could not help with the alchemy, she was after all the strongest among them, so with her around, she could at least help Ye Chen eliminate outside interference as much as possible, which would be an additional safeguard.

The two of them then suddenly realized, and then could not help but reveal some regrets, Su Ruoli at this time also for her just thinking nonsense and emerged a bit of shame.

The four of them then arrived at the top floor, Ye Chen led Su Ruoli to the presidential suite, and after instructing Su Ruoli to keep the doors and windows tightly closed and the curtains tightly shut, he said to Su Ruoli, "Ruoli, later on I will be refining pills in the master bedroom, don't let anyone in until I come out."

Su Ruoli nodded and asked him, "Is there anything else Mr. Ye needs from Ruoli?"

Ye Chen smiled faintly, "No, just don't let anyone in to disturb."

Without thinking, Su Ruoli said, "Okay Mr. Ye, Ruoli will keep watch at the door."

Ye Chen suddenly remembered something and opened his mouth to ask, "Ruo Li, how does it feel to be a four-star martial artist?"

Speaking of four-star martial artists, Su Ruoli still could not hide her excitement, she said respectfully, "Back to Mr. Ye, Ruo Li Ruo Li hadn't even had time to feel I felt as if I was dreaming My grandfather had waited his whole life to become a four-star martial artist, but I am only in my twenties and have already reached this realm It's really It's really a bit unbelievable, I've been in a bit of a trance all the way over here, and I might not quite be able to adapt for a while."

Ye Chen nodded and smiled, "Since it's so hard to adapt this time, I'll save you some trouble."

Su Ruoli asked with a surprised look on her face, "Mr. Ye, what do you mean by that? Ruo Li didn't understand"

Ye Chen smiled blandly and spoke, "I'll teach you how to adapt faster."

Saying that, Ye Chen added: "Here, you should first close your eyes and take a few sets of deep breaths."

Su Ruoli obeyed and did as she was told, closing her eyes and taking deep breaths very seriously.

At this point, Ye Chen urged, "Change your breath more quickly, and you can use your mouth to assist your breathing."

Su Ruoli immediately did as she was instructed, opening her mouth and doing her best to increase the efficiency of her exhalation and inhalation.

Suddenly, she felt a marble-sized object being thrown into her mouth, and she subconsciously opened her eyes.

Her entire body was instantly shocked and she couldn't help but look at Ye Chen, asking in horror, "Mr. Ye You Are you giving me the elixir?!"

Ye Chen nodded and said lightly, "It's a blood dispersing heart saving pill, this pill can help you break through to five stars quickly, haven't you still not adapted to break through to four stars, why not adapt to four stars and five stars together."

Su Ruoli was instantly dumbfounded, she had never dreamed that Ye Chen's earlier comment about helping herself save some trouble meant this.

Just when she was so flattered that she was so terrified that she didn't know what to do or even what to say, Ye Chen spoke indifferently, "I'm going to refine the medicine, so you should take the time to absorb and digest the medicine power, and in ten minutes at most, you will be able to break through to the fifth meridian."

After saying that, without waiting for Su Ruoli's response, he turned around and went into the bedroom with the medicinal herbs, leaving Su Ruoli, who was standing motionless and her heart was in turmoil, in the same place
