

Ye Chen 5081

Chapter 5081

Both sides had their own thoughts, and were looking forward to the appearance of the envoy.

At this moment, Ye Chen, who was dressed in a black robe but did not use a hat to cover his face, stepped onto the stage under the watchful eyes of everyone.

The puppet chairman respectfully took a few steps back, leaving the middle seat for Ye Chen.

As they watched the "Special Envoy" show his true face for the first time, none of the Primus Guards, who were divided into two camps on the stage, felt anything unusual.

After all, both sides had their own understanding of Ye Chen's act of revealing his true face.

As Ye Chen stood on the stage, he looked down at the two hundred people below him and said with a smile on his face, "Gentlemen, I believe that today is an extraordinary day for all of you, a day to remember! It is also a day to build a career!"

The two sides on the stage, each with their own thoughts, were more excited when they heard these words.

Ma Chenfei, who was holding the towel, and his colleagues who were holding the towel, all subconsciously held the towel tighter in their hands, as if what they were holding was not a towel, but a ticket to the next stage of glory and fortune.

They overlooked the fact that the primus guards around them, who were not holding towels, had already begun to quietly gaze at them with their afterglow, ready to strike at them at any moment.

Ye Chen on the stage smiled faintly and spoke, "Today, I have good news to tell you all, Lord Ying has prepared a new antidote for you, this new antidote can make the severe poison in your bodies, from having an attack once every seven days, extend to fifteen days, I hope that you can build a successful career for Lord Ying in the future!"

After saying this, he waved his right hand and said in a loud voice, "Someone, give the medicine and wine!"

Hearing these words, Duan Liye, Qiu Zhiyuan and the sectarians immediately went forward and distributed antidotes to all the men, while arranging for several senior members of the Primus to bring out the white wine and wine cups prepared in advance and pour a gla*s for each of them.

Among them, Ma Chenfei was particularly attentive and handed the first cup of wine to Ye Chen first.

From his point of view, after today, he would become the commander of the primus inter pares and the chief of the primus guards, so it was inevitable that he would have to meet with the "special envoy" more often in the future, so it was best to pay him more compliments.

Ye Chen took the wine cup and said with deep meaning, "Do your best, I'll see you through!"

Ma Chen Fei was trembling with excitement and said respectfully, "Don't worry, Your Excellency! I am ready to be loyal to you! I will not let you down!"

Chapter 5082

Ye Chen said with a smile, "No, not for me, but for Lord Ying!"

Ma Chen Fei nodded his head like a garrotte and hurriedly changed his words, "You are right! My subordinate will do his duty for the Ying Lord!"

After saying that, Ma Chen Fei, fearing that the others might see the obvious, hurriedly said, "Lord Envoy, if you have no other orders, I will return to my team first."

Ye Chen looked at the towel wrapped around his wrist, nodded slightly and smiled blandly, "Go ahead."

After all the primus guards had lifted their cups of wine and those who had not taken the medicine had received a new antidote, Ye Chen then spoke, "Gentlemen, by taking this antidote, the poison in your bodies will completely disappear, and from now on, no one will be able to continue to control your lives by such underhanded means!"

The group of primus guards who had not taken the towel shouted loudly in excitement, and then swallowed the antidote they had just received without hesitation.

Ma Chen Fei, in particular, gloated in his heart and thought, "What a bunch of idiots, how can you believe such things? How could Lord Ying let you lose control? The envoy is just playing a trick on you!"

However, he suddenly thudded in his heart and said, "The backbone of these fools has been stirred up, and now the crowd is in an uproar, so I wonder how the envoy will end it. In case these people really want to defect from the organization, these twenty of us are no match for them moreover, I wonder if the envoy can get them to fold their arms if they tell the truth?"

Just as he was tense and doubtful in his heart, those primus guards around him, already feeling the disappearance of the severe poison in their bodies, were all ecstatic.

Ma Chen Fei's men, who were holding the antidote, did not know whether they should take it or not.

At that moment, Ye Chen could be heard saying aloud, "Gentlemen, I think you already know what I am going to do tonight, so I will not say any more.

The Primus guards shouted in excitement, "Eradicate the Qing Society by the roots and eliminate all future problems!"

When Ma Chen Fei heard these words, his whole body trembled in fear, and he thought to himself, "The envoy is too into the drama, how dare he say such treacherous words"

Unlike him and his men, at this moment, those primus guards who had taken the antidote had their eyes staring hotly at the wine cup in Ye Chen's hand, waiting for Ye Chen's final signal!

Just as Ma Chenfei was terrified by Ye Chen's "treason", Ye Chen suddenly tilted his head and drained his cup of white wine, then slammed the cup to the ground and shouted, "All soldiers, listen to the order!

The primus guards roared, "My subordinates are here!"

With a smile on his lips, Ye Chen waved his hand and said aloud, "Do it!"

Chapter 5083

When he heard Ye Chen say the word make a move, Ma Chen Fei was first stunned.

One of the thoughts in his mind was, "Do it? What kind of action? His Excellency is not asking 20 of us to do more than 200 of them, is he? This is clearly an impossible task!"

The other primus guards who were holding towels like him were also confused, not knowing what exactly Ye Chen meant by doing something.

But at that moment, those primus guards around him suddenly moved!

Li Nianzong, who was the left banner commander, and another banner commander lashed out at Ma Chenfei in an instant, and before Ma Chenfei had time to react, both his arms were grabbed by the two men in a deadly grip.

Before Ma Chenfei had time to react, both of his arms were grabbed by both of them. He was shaken and asked, "What do you two want? In front of the envoy, do you still want to rebel?!"

Li Nianzong said coldly, "Ma Chenfei, do you really think that today is an auspicious day for you to soar to great heights?"

Ma Chen Fei was controlled by the two men, unable to break free at all, and the primus guards who were following him, holding towels in their left hands, were each instantly subdued by the others around them.

After all, the difference in numbers between the two sides was so great that Ma Chen Fei and his men had no room to resist at all.

Seeing that his men had all been wiped out in an instant, Ma Chenfei had not realised that it was the envoy who had gone wrong. He thought that the primus guards had thought that the poison in their bodies had been cured and that they were planning to mutiny under Li Nianzong's leadership.

So, he looked at Ye Chen with a face full of fear and said offhandedly, "Lord Envoy, you must tell them the truth! Quickly tell them that what they are taking is not an antidote at all! If they dare to betray the organization, they will be purged by the organization sooner or later! You should tell them quickly!"

Ye Chen smiled faintly and said indifferently, "Ma Chen Fei, in fact, I am not a special envoy at all. The medicine I gave you was originally an antidote that could completely remove the poison from your bodies, and I originally intended to give all of you a chance to fight for your freedom. Since this path was chosen by you, you must also bear the consequences yourself!"

When Ma Chen Fei heard Ye Chen's words, his entire body was struck by lightning, and he subconsciously blurted out, "You are not Lord Special Envoy? Then who the hell are you? Why can you impersonate Lord Special Envoy to come here?!"

Ye Chen looked at him and then looked at the two hundred or so Primus Guards below and said with a smile, "Introduce myself, my name is Ye Chen, from today onwards, I will temporarily become the supreme commander here, and together with all of you Primus Guards who are unwilling to compromise with the Qing Breaking Society, we will fight against the Qing Breaking Society to the end!"

The crowd on the stage was already overwhelmed with excitement, and they all raised their arms in unison and chanted, "Fight to the end! Let's fight to the end!"

Ye Chen nodded and reached out his hand to signal everyone to be quiet for the time being, then raised his right hand high and snapped his fingers.

At that moment, Wan Bajun led the seven primus guards who had surrendered to Ye Chen in Northern Europe and stepped up.

When the primus guards on the stage saw these seven men, they could not help but let out a gasp of surprise!

Chapter 5084

They had thought that the eight men who had been sent out on a mission last time had all been killed, but to their surprise, seven of them had survived.

Therefore, when they suddenly met, they were naturally shocked beyond addition.

Pointing at the seven men, Ye Chen said aloud, "These seven men, who were once your fellow soldiers, had decided to pledge their allegiance to me in Northern Europe some time ago.

Those seven men were also excited.

To be able to come back was something that they had not dared to imagine before.

What's more, right now, Ye Chen had taken full control of the situation here.

Not only would they be able to return, they would even be able to reunite with their loved ones here!

This was definitely the best outcome for them.

At this point, Ye Chen added: "I announce that from today onwards, all Primus Guards will be reorganised, with Li Nianzong as the Primus Guard Commander, the Right Banner Commander remaining unchanged, and the Left Banner Commander and Middle Banner Commander, with Li Nianzong nominating five people each, and then you will vote internally to choose the person with the highest number of votes from among the five to be the Commander!"

"In addition, from today, the Primus shall establish a cabinet, the maximum number of which shall be eleven, with the exception of the Commander, the Left and Middle Banner Chiefs, and seven others, to be elected by secret ballot by all members. "

The crowd did not expect that Ye Chen would really want them to be internally autonomous, so their hearts were naturally excited.

Although I fully respect your internal autonomy, according to my agreement with Li Nianzong, before the Qing Breaking Society is eradicated, you have to obey my command and fight against the Society together with me, so all the internal rules you make must also be submitted for approval. But rest assured, as long as it doesn't affect our cooperation and position, Wan Bajun will not abuse his veto power."

The crowd naturally had no problem with this, after all, they were now considered Ye Chen's subordinates, military discipline was strict and military orders were like mountains, any affairs of subordinates, strictly speaking, had to be approved by their superiors, not to mention that Ye Chen had already given them considerable autonomy, which had fully demonstrated his respect for them.

With that, Ye Chen continued, "Right now, the first matter that needs to be decided internally by you is about how these traitors should be dealt with."

Immediately, someone from the Primus Guards below shouted, "Kill them traitors!"

Immediately afterwards, someone else echoed, "Yes! Kill them!"

Soon, many more people shouted slogans in excitement to kill all these traitors.

However, Ye Chen said very seriously, "This is not the right time to make a decision in the heat of the moment, I will give you three days to form a cabinet and then three days to discuss the treatment of these people. certain people to death, I will respect your opinions."

From Ye Chen's point of view, if he did not stop the excited primus guards, then I was afraid that none of these twenty people would survive.

However, if they were really allowed to kill all these twenty people, Ye Chen felt that it was somewhat overkill.

Therefore, it was better to let them calm down before discussing this issue carefully, and he would not interfere with their judgment at that time. If they eventually decided to execute all these people, he would respect their opinion.

After hearing these words from Ye Chen, Li Nianzong said respectfully, "Don't worry, Mr. Ye, my subordinate understands!"

The others also said in a loud voice, "My subordinates understand!"

Ye Chen nodded slightly and said to Li Nianzong, "First, arrange for them to be escorted down under strict supervision, and you take me down to the copper mine to meet the dead soldiers here!"

Chapter 5085

This copper mine was mined at a location about five hundred metres deep underground.

Ye Chen had Li Nianzong, along with the sectarians under his control, take the crowd with them and ride the elevated cage to the dead man's quarters.

As they made their way down, Li Nianzong introduced Ye Chen to the specifics of this copper mine.

After decades of continuous development, the interior of this copper mine had become extremely intricate and complex.

It consisted of three parts in total, the first being the normal mining part of the copper mine, including the tunnels and mining faces; the second, the part where the dead soldiers and their relatives lived; and the third, the part where all the supplies and equipment were stored.

When you go down from the shaft to the very bottom, you are actually just going down to the working face of the copper mine.

Once down there, one could see that it was a very standard medium-sized copper mine, with all the facilities and equipment needed for production, and nothing unusual could be seen at all.

Ye Chen, led by Li Nianzong, walked out of the cage, looked at the deep mine tunnel and asked curiously, "Where do the dead soldiers and their relatives usually live?"

Li Nianzong hurriedly said, "Back to Mr Ye, this plane at an altitude of minus five hundred metres is all the working face of the copper mine, the area where the dead men live, you have to go in through a hidden dark tunnel in front and take another lift cage to go down another hundred metres."

Ye Chen nodded and asked him, "Why is no one working here now?"

Li Nianzong was busy saying, "Because today is the time to take the medicine, so the dead soldiers have to be driven away early back to the living area at minus six hundred metres, as requested, so that they can wait there for the antidote to be delivered and take the medicine together."

Saying that, Li Nianzong added, "Normally, only the dead soldiers working in the copper mine and the families of the dead soldiers are qualified to come to this level as miners, everyone else stays at that level below all the time and only has the chance to come out when they are selected to go on a mission."

Ye Chen asked again, "How do you usually manage these dead soldiers who act as miners?"

Li Nianzong said, "There are three teams of miners, each with about a hundred men, working in three shifts. The specific management style is similar to that of American prisons, where each shift comes up, there will be a primus inter pares who is in charge of that shift to count the number of men in advance and then bring them up to work personally, while the primus inter pares above will also count the number of men on the shift they are managing on time. After making sure that there was no difference between the number on duty and the shift change,

Chapter 5086

, they would hand over to another team that came over to hand over the shift, and after the number was verified to be correct, they would send back all the men of this shift that had been replaced, and after reaching that level below, they would count the number once more, and after confirming that it was correct, this shift of miners would go back to rest, and the primus guards who were responsible for supervising them would also go back to rest."

Ye Chen asked him, "Is there any extra pay for the dead soldiers who act as miners and their families?"

"No." Li Nianzong shook his head, "According to the organization's requirements, we will only select those dead soldiers and their families who are not strong enough to carry out their labour, and will not give them any extra pay."

Ye Chen nodded gently.

At this moment, Li Nianzong had already led him and the others to a room with the word distribution room written on it.

Upon entering the room, the first thing that jumped into his eyes was the well-organised electrical equipment, but as Li Nianzong operated a set of power distribution cabinets on the wall for a moment, immediately afterwards, the whole wall suddenly opened slowly inwards.

Ye Chen was able to tell from the side of the door frame that the door, which was disguised as a wall, was almost nearly one metre thick, and both sides were reinforced with very thick steel plates; not to mention martial arts experts, even ordinary heavy firepower would not be able to blow this wall open.

Behind this wall was a huge machine room, which was actually the equipment and operation room of a heavy lift, and below it was a huge lift cage.

Li Nianzong led the crowd up to the cage and used his iris to activate the cage, which then took the crowd on a descent to an altitude of minus six hundred metres.

As the cage was running downwards, Li Nianzong said to Ye Chen, "Mr Ye, all the safety equipment here is one-way, the hidden door just now, as well as this lift cage, can only be operated by us from the outside, in addition to that, once the cage reaches the bottom, there is a door that opens from the outside, which can also only be opened by us from the outside."

Ye Chen asked him, "This should be the only access to the outside world from the Deadman's quarters, right?"

"That's right." Li Nianzong nodded and said, "The dead soldiers can only get in and out by a passage, but there are also a large number of steel ventilation pipes in their quarters, but the thickest inner diameter of those pipes is only eleven centimeters, people can't get out at all, so there is no possibility for them to escape, even if they can open that door at the bottom, it is impossible for them to climb up this one hundred meter high shaft, and even if they can climb up Even if they could climb up,

Chapter 5087

the cage is blocked tightly at the entrance of the shaft at all times, so they can't get out at all, so there hasn't been a single escape since the place has been in use for so many years."

Of course, this has something to do with the poison in their bodies. Even if they escape from here after all the trouble, without the antidote, they will definitely die within a week."

Ye Chen nodded, and in his heart, he sighed a little more at the living environment of the dead soldiers.

How torturous must it be to be six hundred meters underground, without seeing the sun for years and months?

As Five-Four-Seven had said, many of the children of the dead soldiers were born here, and from the time he was born until he started working for the organisation at the age of twenty, he hadn't even had the chance to see the sunlight in the twenty years in between.

Thinking about this, how to settle the lives of these dead soldiers and their families in the future became a relatively tricky issue.

Naturally, Ye Chen did not want to continue to let them live underground at a depth of six hundred metres, but this copper mine was a few hundred people in the eyes of the outside world, so if he got

these people above ground, the buildings above ground would not be able to carry so many people at all.

By this time, the cage had made its way to the very bottom.

After stepping out of the cage, there was a transition area of about forty square metres. The so-called transition area was the back end connected to the cage, and the front end connected to the last gate where the dead men were kept.

Li Nianzong took out a key from his pocket and inserted it into the lock hole, followed by a pupil match, and then heard a click from the gate, followed by a slow opening outwards.

And the moment this iron door opened, Ye Chen was a little disoriented by the sight in front of him.

What appeared in front of him was an underground square of at least tens of thousands of square metres, with a height of at least fifteen metres, supported by a thick load-bearing column every ten metres or so, while the lights at the top illuminated the whole square like daylight! New Pen Interesting Pavilion

The passage in front of Ye Chen was also not at the bottom of this square, but in the middle of the vertical side of this square.

When he stepped out, in front of him was a circular platform that poked outwards, which was seven or eight metres from the ground and seven or eight metres from the top.

When he stepped onto the platform, thousands of people were already standing neatly on the ground in the square, seven or eight metres from his feet.

At that moment, all of the thousands of people suddenly knelt down on one knee and shouted respectfully under their breath, "Greeting Lord Special Envoy!"

Chapter 5088

At this moment, the dead soldiers who had fallen to the ground to greet the envoy, as well as their families, did not know that the man in black robes in front of them was not the envoy they had thought he was.

According to the rules, on the day when the antidote was to be distributed, all the dead soldiers and their relatives had to line up in advance in this tens of thousands of square metres hall and kneel down to greet the envoy the moment they saw him.

When Ye Chen saw so many people fall to their knees, he was shocked by the sight before him.

The underground world, which was tens of thousands of square metres in size and had a height of over ten metres, with the huge support pillars and the daylight lighting at the top, made the space feel like a magnificent ancient palace, plus when thousands of people were kneeling in front of them, saying the same words in unison, the echoes made the whole underground space tremble.

Ye Chen looked at these people and could not help but frown as he asked in a loud voice, "Did they force you to kneel, or did you take the initiative to do so?"

With a single sentence, all the dead soldiers were asked with horrified faces.

This was the first time they had ever heard the envoy say anything other than the established lines.

The so-called established lines were just to thank Lord Ying for giving the antidote, and that everyone should do their utmost to serve him, and so on and so forth.

Therefore, in their impression, the envoy was more like a human repeater who only had two things to do every time he came over, one was to supervise the primus guards in distributing the medicine to the dead soldiers, and the other was to repeat nonsense that the dead soldiers would not believe or care about at all.

The fact that Ye Chen suddenly said such a sentence out of the blue really shook them to their core, and they couldn't understand what was wrong with this envoy, who dared to speak in such a way, and even said "they".

Who were they? Aren't they the Qing Breaking a*sociation?

But wasn't the envoy himself also a member of the Qing Breaking Society?

Then he should have said "we", not "they"!

Just when everyone was confused, Ye Chen asked again, "Who is the commander among you? Stand up and speak!"

A middle-aged man in the centre of the first row slowly stood up and said in a loud voice, "I am Thirty Nine Zero, the person in charge here."

Ye Chen grunted and asked him, "Answer my question just now, did they force you to kneel here to greet the envoy, or did you take the initiative to do so?"

Thirty Nine Zero looked around and said with a somewhat apprehensive expression, "Lord Envoy, it has always been a tradition for us to kneel here to greet you as well as the antidote given by the British Lord, why are you suddenly asking such a question?"

Chapter 5089

Ye Chen smiled and said, "Kicking the can down the road, right?"

Thirty Nine Zero hurriedly bowed and said, "My subordinate does not dare! My subordinate is not representing himself, but these three to four thousand men, women and children behind him, so naturally I don't dare to speak nonsense."

Ye Chen nodded approvingly, thirty nine zero seemed to be somewhat clever, when he was not sure of his own origin, he did not speak too slowly, nor did he act too heartfelt towards the Broken Qing Society, instead, he defined Ye Chen's problem as "tradition", in this way, it was considered that he could attack and retreat.

Ye Chen did not give him too much trouble, but slowly took off his black robe and showed his true face to the public.

This action even dazzled all the dead soldiers and their families.

They had never seen the true face of any of the envoys before, because according to the rules of the Broken Clearance Society, the dead soldiers could only meet with specific primus inter pares and were not allowed to meet face to face with anyone else from this organisation.

The reason for this is also mainly because of the special status of the Dead Soldiers, and once they go out, they are all going on important missions, and it is necessary to stop them from recognising any of the members of the Qing Breaking Society while they are on their missions.

Therefore, every envoy who came here was dressed in black robes and covered their faces with black hats.

However, this time, Ye Chen suddenly broke this long-standing rule, which made all the dead soldiers involuntarily tense up.

Seeing the horrified and panicked expressions of the crowd, Ye Chen spoke lightly, "To tell you the truth, I am not a special envoy of the Qing Breaking Society, the real special envoy is already under my control. fight alongside me?!"

As soon as Ye Chen said this, the whole room was in an uproar!

No one had expected that things would be so unexpected!

Even if you get the antidote from the real envoy, it will only keep us alive for one more week, so even if we want to fight alongside you, I'm afraid we won't be able to."

Thirty-nine Zero's words caused all the dead soldiers who were in shock to be dismayed for a moment.

Everyone knew that Thirty Nine Zero was right.

Once they didn't have the antidote, they would soon die of poison, and even if they wanted to fight to the death against the Qing Breaking Society, I was afraid that they would not be able to wait for the day when they would be able to kill the enemy in front of the battle.

At this moment, Ye Chen looked at Thirty Nine Zero and the group of dead soldiers and asked curiously, "Are you willing to be controlled by the Broken Qing Society for the rest of your lives, or are you willing to fight them to the death?"

Chapter 5090

Thirty Nine Zero blurted out, "Naturally, we are willing to fight to the death, but how can we have such an opportunity? For hundreds of years, the dead have been firmly controlled by the organization, not to mention the hundreds of years of living in a place that is comparable to a heavenly prison, the poison in our bodies alone, we are destined to be unable to resist at all, not to mention resisting the Broken Qing Society, we don't even have the ability to resist the Primus Guards and escape from here"

Ye Chen smiled and asked aloud, "If I could completely cure the poison in your bodies, would you be willing to fight them to the death?"

Thirty Nine Zero said without thinking, "If sir can really cure the poison in our bodies, Thirty Nine Zero is willing to follow sir for the rest of his life and serve his ancestors as a dog and horse!"

Ye Chen nodded slightly, looked around and asked, "What about the others? Are you willing to do so?"

The group of people looked at each other for a while.

If what Ye Chen said was true, they would naturally be willing to do so.

However, at this moment, they could not believe this "if" that Ye Chen had said.

The reason was that for so many years and so many people had tried to fight the poison in their bodies, but none of them had ever succeeded.

In the minds of the dead soldiers, the poison was like an invisible shackle that could not be broken free for the rest of one's life, it was like gravity to oneself, one simply could not fight it, and one could not hope that it could disappear completely.

Therefore, when everyone was faced with Ye Chen's bold words at this moment, they did not know how to reply for a while.

At this moment, someone whispered from below, "Could this be a ploy used by the organisation to test our heartfeltness?"

As soon as these words came out, everyone else echoed them and began to whisper below.

Even when Thirty Nine Zero heard this, his expression couldn't help but be astonished.

He too was somewhat unable to distinguish whether Ye Chen was an enemy or a friend.

Ye Chen took out an antidote at this time and looked at Thirty Nine Zero as he said indifferently, "Since you were the first to take a stand, let you set an example for them."

After saying that, he threw the antidote at Thirty Nine Zero and said in a loud voice, "Take this antidote and it will completely remove the severe poison in your body, whether you are brave enough to try it or not, you decide for yourself!"

Thirty Nine Zero reached out and grabbed the antidote thrown at him, and after just a glance, he said without thinking, "Sir should be the first outsider to find his way here in hundreds of years, and on that basis alone, I, Thirty Nine Zero, believe in Sir!"

Having said that, without hesitation, he immediately put the antidote into his mouth!
