

Ye Chen 5091

Chapter 5091

From the time he could remember, his father made him understand by practical action that the fate of the dead was so difficult, but each generation was still living strong and reproducing offspring, with the sole purpose of hoping that his own bloodline would finally be able to break the shackles of the Qing Society one day in the future and truly win freedom.

And there are several mountains in front of this goal, and the first mountain that needs to be crossed is the poison that comes on regularly in the body.

This kind of poison, there is really no reason to speak.

No matter how hard so many dead soldiers and so many generations have tried, they have no way to dissolve this bizarre poison.

Although Thirty Nine Zero had never forgotten his father's sage advice, he knew very well in his heart that this was simply beyond his ability to accomplish.

He had even placed his hopes, on his own son, or even his future son's son.

Just like the psychology of generations of dead soldiers: although he could not break the shackles, but his own son, his future son must have a chance, as long as they can achieve this wish in the future, then he will be able to laugh at the nine springs.

He never thought that when he swallowed the antidote given by Ye Chen, he could feel a special power spreading rapidly towards his body, and then it fused with the poison in his body.

Immediately after, the antidote and the poison seemed to have some kind of chemical reaction, and both disappeared without a trace.

If the poison was originally a flesh and blood body can not resist the iron rope, then the antidote, like a strong acid that specializes in dissolving the iron rope, but has no effect on the flesh and blood body, directly melted the lock to nothing!

At this time, all the dead soldiers and their relatives, eyes are staring at thirty-nine zero.

The large scene was almost silent, everyone was holding their breath, anxiously waiting for the feedback from thirty-nine zero.

After ten seconds, thirty-nine zero, who had been like casting a fixation, suddenly had two lines of hot tears gushing from the corners of his closed eyes.

In this needle-thin hall, you can even hear the sound of his tears dropping to the ground one by one.

At this time, Thirty Nine Zero suddenly opened his eyes, looked at Ye Chen with tears in his eyes, and did not say a word, but respectfully bowed to him deeply, and for a long time.

At this instant, all the dead soldiers and their relatives understood.

Ye Chen's antidote must have solved the poison in Thirty Nine Zero's body, otherwise he would never have suddenly given such a big salute of worship.

And at this time, thirty-nine zero worship on the ground, the body has been unable to control the violent trembling up.

Ye Chen looked at him and asked aloud, "Thirty-nine zero, how do you feel?"

Thirty-nine zero slowly raised his head, excited but more grateful respectfully said: "Back to the sir the the poison has disappeared..... There's no trace of it....."

Once these words came out, thousands of people around a shock, the color of excitement in everyone's face, is already overflowing.

Thirty-nine zero looked back at the dead soldiers and families on both sides and behind them, turned back to Ye Chen, hands clasped fists raised above his head, shouted: "Sir! You are the one who has the great power! We dead soldiers have been enslaved for hundreds of years, hundreds of years without seeing the light of day, life is worse than death, please help us out of the sea of suffering, we are willing to follow you for the rest of our lives!"

After saying this, he bowed down again!

The crowd immediately followed, shouting: "We are willing to serve you for the rest of our lives and follow your lead!"

The chanting of thousands of people made the whole underground feel a little trembling.

Ye Chen could hear that their voices were filled with extreme urgency and desire.

Getting rid of the shackles of the Broken Qing Society was, for each of them, the greatest wish of their lives, as well as the generations of ancestors over the centuries.

Chapter 5092

Getting rid of the shackles of the Broken Qing Society was, for each of them, the greatest wish of their lives, as well as the generations of ancestors over the centuries.

Now, this wish of more than a dozen generations finally had the chance to come true.

Ye Chen looked at the crowd's determined and exuberant appearance, couldn't help but splash a pot of cold water and said, "If you serve me, you are bound to be enemies with the Broken Clear Society, although you are now controlled by the Broken Clear Society, at least you can still live here, if you are enemies with the Broken Clear Society, maybe you will all face danger to your lives, so have you thought it over?"

This time, thousands of people didn't wait for Thirty Nine Zero to take the lead.

They shouted with one voice: "Considered!"

Ye Chen asked again, "You guys have considered it well and want to be enemies with the Broken Clear Society, right?"

The crowd shouted again, "Yes!"

Ye Chen nodded in satisfaction and said indifferently, "Before I came down, I had already reached a cooperation agreement with all the Primus Guards, before the Qing Breaking Society was eradicated, they obeyed my orders and gave their allegiance to me, after the Qing Breaking Society was eradicated, they could be completely free! Since you are willing to be loyal to me, this cooperation is the same for you too! The day the Qing Breaking Society is uprooted is the day you dead soldiers will regain your freedom!"

Hearing that they could regain their freedom, all the dead soldiers were excited and in tears.

They originally thought that Ye Chen's condition for giving them the antidote to the poison was that they had to be used by Ye Chen for the rest of their lives.

But even then, they would agree to it without hesitation, because then, although they would have to serve Ye Chen for the rest of their lives, but with the loss of that poison in their bodies, their children and grandchildren, they would no longer have to look at anyone's face and become a free man completely.

Sacrificing this generation to seek freedom for future generations was naturally righteous to them.

But what they did not expect was that Ye Chen did not intend to take this opportunity to take control of the rest of their lives.

This also means that not only their children and grandchildren, can have freedom, but after the broken Qing Society breaks, they can also have the same!

And Ye Chen's actions also created an extremely stark contrast with the Broken Qing Society's move to control the dead soldiers for generations.

Thus, a group of people almost regarded Ye Chen as a savior.

Seeing that the people had sincerely pledged their allegiance, Ye Chen had the prepared antidote distributed.

At this time, more than 3,000 people were still kneeling on the ground, devoutly waiting for the antidote.

Everyone respectfully held their hands above their heads, and when the antidote was handed out to them, they then took the pills with both hands.

However, they did not take the antidote immediately, but subconsciously waited for everyone to get the antidote one after another before taking it together with the others around them.

The scene once again fell into a dead silence.

From ten seconds later, a lot of faint sobbing sounds were heard.

It was someone who was too excited to control his emotions and crouched on the ground trying to control the painful crying.

And soon there were people who could no longer control, the whole person howling.

There were even families hugging each other and crying.

Some even knelt on the ground and shouted: "Ancestors and ancestors, can your spirits in heaven see this? We finally don't have to be controlled by the evil poison of the Qing Breaking Society anymore! Your spirits in heaven must bless us and follow you to destroy the Qing Breaking Society and avenge the ancestors!"

These words immediately triggered the resonance of the crowd, and everyone began to kneel on the ground, making a secret wish to their ancestors.

When Ye Chen saw this scene, he could not help but sigh in his heart: "These dead soldiers are not ordinary humiliation, what they endure is two or three hundred years of humiliation, what they bear is the weight of more than ten generations! After promising them freedom today, I believe they will become the most loyal troops in the future when they destroy the Qing Breakers!"

Chapter 5095

"Enjoying the sunrise?!"

Thirty Nine Zero was stunned and at the same time full of excitement as he asked, "Sir, is this true?!"

Ye Chen nodded: "I have just said that in the future, I will make sure that the dead soldiers can take turns to go to the ground at any time of the day, and right now this first time will be reserved for those children who have never seen the sun, moon and stars."

Thirty-nine Zero was excited, but suddenly remembered something and asked Ye Chen, "Sir, at this moment it is still dark outside?"

"Yes." Ye Chen said, "In another half an hour, it will be light."

Thirty-nine Zero looked at the dense lights on the ceiling and sighed, "It seems that our day and night inside are diametrically opposed to the outside."

Ye Chen smiled faintly, "They don't want you to calculate the dates in real life, so naturally they will invert and distort the time in here with reality."

After saying that, Ye Chen added, "But you don't need to worry, from today onwards, the day and night here will be the same as outside, and I will have someone prepare clocks for you, so from now on your dates and times will be completely synchronised with real life."

Thirty-nine Zero gratefully and respectfully said, "Thank you, sir!"

Ye Chen said, "By the way, there is another task for you."

Thirty-nine Zero busily said, "Please command, sir!"

Ye Chen said seriously, "Starting tomorrow, you are to divide your people, into three groups, each group numbering roughly a thousand people, and then from each group, select one hundred and thirty labourers to continue participating in the daily production of the copper mine mining."

Saying this, Ye Chen turned around and said to Li Nianzong, the primus guard who was following him, "For the sake of fairness, do the same for the primus guard, and have each of the three banners within

the left, centre and right select roughly twenty labourers to participate in the work together with the labourers selected by the dead soldiers.”

Without thinking, Li Nianzong said, “Don’t worry, sir, I will do it later!”

Ye Chen instructed again, “The work will be done in three shifts of eight hours, with one on and one off, so this requires that at least one more shift be selected internally when choosing people, so that the shifts within each group can be rotated to ensure that everyone gets a good rest.”

“No problem!” Li Nianzong said, “The production scale of this copper mine is not that big, there are only a hundred or so people who started work at the same time, the dead soldiers and primus guards combined are almost four thousand people, it is still easy to cope with this amount of work.”

Ye Chen nodded and said, “We let them participate in the work, not to exploit their labour, but to keep this copper mine operating normally and not let the Broken Qing Society notice anything unusual, so you two tell all the labourers involved in the work that as long as they participate in the labour, I will settle their salaries at double the normal treatment of mine workers in Cyprus, when the time comes to settle in US dollars.”

Li Nianzong and Thirty Nine Zero looked at each other and Li Nianzong said, “Sir, there is no need for money, you have already helped us so much, you are our great benefactor, how can we take your money again, moreover, the ore produced from this copper mine is given to the Broken Clear Society, the settlement money will not go into your pocket, is it not the same as you purely stick money?”

“Yes,” Thirty Nine Zero also hastened to agree: “Sir, firstly, we can’t let you pay for it, and secondly, the money is of no use to us at all, even if you give it to us, it will only be a pile of waste paper for us. The money will be of some use to the cause of eradicating the Qing Breaking Society.”

Ye Chen waved his hand and said very firmly: “You have to be paid for your work, this is one of the few truths that have remained unchanged throughout the ages. I will have a list of commonly used goods sent to you all at that time, and if you need them, let the Hall of Ten Thousand Dragons be responsible for purchasing them and then transporting them here and handing them over to everyone by hidden means, and what I can promise is that the Hall of Ten Thousand Dragons will never make any difference in price.”

Chapter 5096

Li Nianzong and Thirty Nine Zero were both a little stunned.

They did not expect that Ye Chen would actually plan to use the Ten Thousand Dragons Hall to help them with their simple shopping problems, which obviously sounded a little too exuberant.

However, once they thought that they would really be able to purchase various things from the outside world for themselves and their families with the money they earned from their daily labour, they could not help but feel a little bit of anticipation in their hearts.

After all, Li Nianzong had already been a banner commander of the Primus Guards. Although the banner commander was not paid either, he at least lived above ground and had a much better knowledge of the world than the subterranean and isolated Thirty-Nine.

Thirty-nine Zero had continued to explain to his son for several years in order to make him understand that the earth was a circle.

However, his son had not yet gone out on a mission and had not seen the outside world, and Thirty Nine Zero himself could not even hold a globe, so there was no reasonable way to make his son understand this simplest of truths.

Once the kind of model Ye Chen was talking about was implemented, and he himself earned money, he would only need a few dollars to purchase a globe to explain to his son what the world was really made of.

Ye Chen added at this point, "By the way, for the selection of labourers, I hope you can use families as a unit, so that each family can select a strong labourer to participate, so that the maximum fairness and justice can be achieved."

"Yes sir!" Both of them nodded their heads in agreement without a second thought, and this idea of Ye Chen's coincided with their intentions.

Ye Chen continued, "Also, if the family members are involved in logistical support, they are also to be paid according to the actual type of work and workload, in addition, if there are underage children, each of them will be paid a milk fee at two hundred US dollars per month, and this money will be collected and held by their family members on their behalf."

"Milk money?" The two listened in confusion, completely unable to understand what this money meant.

Ye Chen simply said indifferently, "Just think of it as a little welfare for the children from me."

Saying that, Ye Chen remembered something and said to Thirty Nine Zero again, "By the way, from now on, starting at five o'clock every morning and ending at eleven o'clock at night, for these 18 hours, you can send at least six groups of people to the surface in turn, and they can change into the uniform clothes of the Primus Guards for three hours of outdoor activities at the surface, but they are absolutely not allowed to leave the copper mine without permission, so that word will not get out."

Thirty-nine Zero immediately assured, "Sir, don't worry, I'll give you my word on my head that there will never be a single dead soldier, or the family of a dead soldier, leaving the confines of the copper mine without permission!"

"Good." Ye Chen nodded and said, "Alright, start organising the children to go up one after another now!"

Chapter 5097

Soon, batch after batch of babies and toddlers, as well as teenagers, began to ride the mine's lifting device one after another, all the way to a surface they had never set foot on in their lives.

They included babies who were just a few months old, children who were just learning to speak, and teenagers who were on the verge of adulthood.

In order to give priority to these children to experience the first sunrise of their lives, all adults were excluded from the list of those who went to the well this time.

There is one exception, however, and that is for all children under the age of three, whose mothers are allowed to accompany them as guardians to the surface for their belated first sunrise.

Children under the age of three were accompanied by their mothers, while those over the age of three joined hands with their siblings or friends and came to the surface one after another.

On the roof of the copper mine, more than seven hundred children under the age of eighteen breathed in fresh air they had never breathed before and stared with excitement and anticipation at the eastern skyline.

The moment the white of the fish's belly began to rise in the east, all the children were so excited that they didn't dare to blink, fearing that they would miss the first sunrise of their lives.

The poor thing was that none of these children, although they had heard their parents talk about the sun since they were children, knew what it really looked like.

After all, there was not even a single picture related to the sun in the Deadman's quarters.

Some of the children could not believe how their fathers and grandfathers said that after that dazzling ball of fire rose into the sky, everything on earth would be completely illuminated by it.

The children had only seen lights since they were born, so they had the impression that a light, at most, could only illuminate a house, and how could it illuminate everything on earth.

So, at this moment, they all waited for the moment when they would witness the miracle.

A few minutes later.

The sky was gradually brightening and the dappled clouds were visible in the sky.

The unpredictable sky made all the children look in awe, each one staring in awe at the clouds floating in the sky, a sight they had never seen before.

As the brightness became stronger and stronger, looking around, the earth and all things, as well as the magnificent sea, were clearly visible.

Standing on top of the building, they could easily look down on the sea.

When the children saw this, they could not help but exclaim in amazement.

They had heard their fathers talk about the sea, saying that it was a vast expanse of water, and that in the extreme distance, the sky and the water were connected in a line, and the sea and the sky were in one spectacular colour.

After all, they had never even seen the sky.

Now, when they saw the sky and the sea, all abstract descriptions suddenly became vivid and incomparable.

Just as the children let out a cry of amazement, a golden light suddenly rose from the east, and the original fish-belly white skyline turned into a golden colour in this instant!

In the next moment, a golden arc in the sky appeared from the other side of the sea.

One child pointed to the arc and shouted excitedly, "Look! Is that the sun?!"

Chapter 5098

The eyes of all the children were at that moment attracted by the golden thing that was rising!

As the sun rose in an ever-increasing arc, ten thousand feet of golden light dyed the entire sky, along with the entire sea, golden.

The sky was aglow with haze, the sea was sparkling with light!

The rising sun distorted the light of the skyline a little, and it looked, more than anything, dreamy.

The children, as well as the parents who were looking after the young children, were frozen in awe.

Even though the light was becoming more and more blinding, no one bothered to blink their eyelids.

The mothers of the children, and those who were still in their teens, subconsciously clung to their closest friends, and they or they in groups, could not control the tears.

The scene before them was one that they would not have been able to think about for another twenty years underground.

Soon, the golden sun had broken out of the sea and the world was bathed in the first rays of sunlight.

For the hundreds of millions of ordinary people living in this time zone, it was just a normal, ordinary day.

But for these seven hundred children, this moment was the brand new beginning of their lives!

Ye Chen looked at the hundreds of young faces illuminated by the sunlight in front of him, and said to Li Nianzong, Thirty Nine Zero, and Wan Xiaojun beside him, "Before today, their lives were a long eternal night; after today, they will have true light!"

After saying this, he suddenly made a decision and said in a stern voice, "From today onwards, don't let these children learn martial arts anymore! If anyone really wants to learn, it is not too late to do so when they reach the age of eighteen!"

Thirty-nine said subconsciously, "Sir, if you wait until you are eighteen before you start learning martial arts, it will be too late."

"Late?" Ye Chen snorted coldly, "If you really want to learn, it's not too late any day! I don't want them to learn martial arts because I don't want them to pay too much for their childhood because of the Broken Qing Society!"

"Besides, if our generation can eradicate the Qing Breaking Society, what need is there for these children to learn martial arts?"

"Instead of practising martial arts, they should get out of here, settle with their parents in a peaceful and stable country, study hard, get into a good university, study a profession they are interested in, and then find a job that will allow them to start a family and create their own value in society!"

"That, for them, is the best option!"

Thirty Nine Zero then realised that his thinking was still stuck in the previous mode.

Before Ye Chen's appearance, the only thing a dead soldier could do was to improve his abilities as much as possible, become a primus guard as much as possible, and after becoming a primus guard, have a few more children to ensure that his offspring had a "scholar", so as to break away from the life of fighting and killing.

But things have changed.

Chapter 5099

Their children did not need them to work hard to make a third of them become "scholarly".

As long as they could join Ye Chen in eradicating the Qing Breaking Society, all of their children would become true scholars!

Thinking of this, Thirty Nine said with tears in his eyes, "Thank you, sir, for your great kindness and generosity, all the dead soldiers will never forget it!"

Ye Chen patted him on the shoulder and turned to Wan Bajun and said, "Bajun, from the Hall of Ten Thousand Dragons, find a few female warriors with higher education, and have them come here regularly to teach the children, using our regular Chinese teaching materials, and also prepare a set of projection equipment down there, and show the children some films every day that can give them a quick understanding of the world, of history and the present. "

After saying that, Ye Chen added: "Right, there is also the Internet, move a network cable in, prepare some computers, so that the children know what is the Internet, but the Internet for the time being can not let the children get started on their own, after all, we have to be careful that they accidentally leak information to be discovered by the Broken Qing Society."

Without thinking, Wan Xiaojun said, "Don't worry, Mr. Ye, I will make all the arrangements!"

Ye Chen nodded gently and said to Thirty Nine Zero, "In another twenty minutes, take the children down first, then come to the meeting room and we will all have a meeting together."

Thirty Nine Zero immediately said respectfully, "Yes sir!"

Ye Chen didn't say any more, but took Wan Xiaojun and the others and went to the meeting room first.

Right now, it was already dawn, and the supplies that the ships had delivered to the copper mine last night had been quietly transported long before dawn, and the loading of the copper ore was now taking place at the pier, and once the loading was finished, it would be time for Duan Liye, as the special envoy, to return to the ship.

Ye Chen needed to smooth out all the links and solve all the hidden problems before then, so that he could ensure that Duan Liye would not be exposed when he arrived in Turkey after he left.

As for how to keep Duan Liye from revealing the clues, Ye Chen also had a new idea of his own.

In the past, he did not use psychological suggestion very often because it had a very serious drawback. Once the target person was in a controlled state, his behaviour and reaction would appear to be somewhat slow, and a discerning person could see at a glance that something was wrong.

In the past, when Ma Lan was at her peak, Ye Chen did not use psychological suggestion on her, just because of this reason.

Once the psychological suggestion was on, Ma Lan would definitely be able to be honest, but the person would also become far from his usual self, and his wife Xiao Churan would definitely notice the abnormality by then.

Duan Liye's situation was the same.

Even more, it was a little trickier.

The reason for this was mainly because these middle and senior members within the Broken Clear Society were all not weak, and Dark Realm experts were supposed to have eyes and ears to see and hear everything, so if Duan Liye showed too much abnormality, once he arrived in Turkey to return to his superiors, he would definitely be seen out.

Therefore, Ye Chen planned to play a trick.

So, he called Duan Liye to him and opened his mouth to ask, "Duan Liye let me ask you, is there anyone else from the Turkish side who would come here normally, apart from you and your assistant?"

"No more." Duan Liye shook his head and said respectfully, "I'm a fixed envoy and I'm mainly in charge of this line, so every time I'm the one in charge of bringing medicine and supplies over, no one else will follow along."

Chapter 5100

Ye Chen asked again, "And there won't be anyone of a higher rank than you, coming here to check on the situation?"

Duan Liye shook his head, "In order to avoid exposing the top management, the organization's consistent attitude is to have a single person and a single line of contact, and no other senior executives will be sent to participate."

"That's good." Ye Chen's heart became more solid as he opened his mouth and asked him, "As long as you tell your superiors that everything is normal here, they won't suspect too much, right?"

Duan Liye nodded and said, "Normally that's the case, but it still needs to be combined with some of the surveillance footage here, before I leave, I will bring the surveillance hard drive back to them, and they will copy the footage from the hard drive and analyse it."

Ye Chen asked him, "Who will analyse it?"

Duan Liye said, "There should be a special security team in charge."

Ye Chen turned to Wan Bajun and asked, "Bajun, can the surveillance footage be tampered with?"

Wan Bajun nodded and said, "It's too easy, the team under me can modify the surveillance footage frame by frame, and make sure that the other party doesn't see any clues."

"Good." Ye Chen nodded slightly and turned to Li Nianzong, "Copy out the surveillance before this morning and give it to him to take away, and for the surveillance behind, let Duan Liye take it away the next time he comes after Broken Army's people have taken care of it."

Li Nianzong was busy saying, "Yes sir!"

Ye Chen asked Duan Liye again, "If you tell your superiors that everything is normal here, and the surveillance footage does not reveal anything unusual, will your superiors still ask for more details like you?"

"No." Duan Liye shook his head and said, "He also has very little communication with me, he barely meets with me usually, and when I say that everything is not abnormal, he will report to his superiors truthfully."

Saying that, Duan Liye further explained, "Within the Broken Qing Society, due to the severe poison in our bodies and the fact that everyone needs the antidote, the organization has never had any deviation in our control, so the organization has always focused on strictly preventing the outside world from prying into the secrets of the Broken Qing Society, but there is not much worry that there will be traitors within the Broken Qing Society, after all, everyone's life is in the Broken Qing Society's hands, no one would go against the Broken Clear Society, even the dead soldiers who went out on missions wouldn't dare to escape, after all, not only were their own lives in the hands of the organization, but so were the lives of their families."

Ye Chen nodded, it seemed that the Broken Qing Society was very confident in their antidote and did not think that anyone could break this antidote.

Thinking of this, he only had one last thing left to do, and that was to give Duan Liye, a new "psychological suggestion".

This new "mental suggestion" was more complex, more powerful and more skillful.

This would be the killer solution to his last problem.

With this in mind, he called Duan Liye to his office and sent more aura into his body when there were only two people in the office.

Afterwards, Ye Chen stared at Duan Liye and said in a cold voice, "Remember, Duan Liye! From now on, as soon as you get off the ship and enter the copper mine, you will remember me and remember that I am your only master, and then you will stay here honestly and wait for my people to make all the preparations before you return to the freighter as if nothing has happened.

Duan Liye nodded his head without hesitation and said, "My subordinate understands!"

Ye Chen turned his words and said, "However, once you get on the ship, you will forget about me and me being your only master for a while, forget about the psychological suggestion I just gave you, and in your subconscious mind, you only need to firmly believe in one thing, that is: you have finished all the

work inside the copper mine, and firmly believe that everything is fine and there is nothing abnormal inside the copper mine! ”

“Other than that, you should follow your true nature, be your envoy, practice your martial arts, play with your male pets, and do whatever you want with Duan Liye! Can you hear me?”
