

## **Ye Chen 5101**

### **Chapter 5101**

Ye Chen's words caused Duan Liye to short-circuit a little at once.

However, after a few seconds of stroking, he was able to figure out what Ye Chen was implying with this hint.

In fact, Ye Chen was trying to give him a trigger condition for his hint.

When Duan Liye was not here, Ye Chen did not need him to use him for himself, nor did he need him to keep in his mind that he was his master.

What Ye Chen needed was that when Duan Liye was not here, he was still himself, and he did not remember that he had any master, nor did he remember that he had been psychologically hinted at, so as to ensure that he had no influence in front of the others.

And once he got off the ship and arrived at the copper mine, the really strong suggestion began to take effect.

This ensures that once Duan Liye arrives here, he becomes a tool man, and when he leaves here, he can return to normal and be himself again.

The only difference was that in the deepest part of his subconscious, Ye Chen had given him an extremely deep hidden hint, convinced that there was nothing abnormal here.

This command was extremely simple and did not require Duan Liye to think about it, let alone respond to any other variables for it, so this extremely deep psychological hint would have reduced the impact on Duan Liye to a limit.

What's more, Ye Chen also specifically implied that he should follow his true colours, so that it would be even harder for others to see anything.

However, apart from Duan Liye, last night on the boat, Ye Chen had also taken control of that male pet of his.

Right now, the same psychological implication needed to be given to that male pet.

So, he said to Duan Liye, "Go to the boat and bring that male pet of yours over, I have something to explain to him."

"Good." Duan Liye nodded without a second thought, and then immediately pushed the door out.

Right after Duan Liye left, Ye Chen called Wan Breaking Jun, Li Nianzong, Thirty Nine Zero, Five Four Seven and Wan Breaking Jun's master Qiu Zhiyuan to his office.

Once everyone came in, Ye Chen spoke, "Gentlemen, I have solved the problem of Duan Liye, in the future, as long as he is still a special envoy, this place can temporarily avoid the surveillance of the Qing Breaking Society, however, once this matter changes, I am afraid that this base will have to be forbidden, at that time everyone must immediately evacuate from Cyprus."

Li Nianzong asked respectfully, "Sir, all of us together are over four thousand, if we really need to evacuate, where can we evacuate to?"

Ye Chen smiled faintly and said with relief, "Don't worry about that, the Ten Thousand Dragons Temple is building a base across the river in Syria that can accommodate 100,000 people, if it is really necessary, I will ask him to move everyone to Syria."

## **Chapter 5102**

At this point, Wan Bajun spoke up, "Rest assured, all of you, the Ten Thousand Dragons Hall will respond much faster to manoeuvres from Syria than the Broken Clear Society will from elsewhere, and given the current global mobility of the Broken Clear Society, it is unlikely that the number of dead soldiers they can mobilise globally on a single day will exceed two thousand, and it is unlikely that they will be a match for the Ten Thousand Dragons Hall when they really get into action. "

Wan Breaking Jun said this with great assurance.

The Qing Breaking Society was indeed very strong and had forces all over the world.

However, when it came to really talking about concentrating their power to do great things, this was something they definitely couldn't compare to the Ten Thousand Dragons Temple.

Even a country with a medium to high ranking in terms of military power would not be able to deploy tens of thousands of people globally in a short period of time, whereas the Ten Thousand Dragons Hall has tens of thousands of soldiers under its command, and most of them are concentrated around Syria.

Therefore, in the Middle East, the Ten Thousand Dragons Temple really did not need to fear the Broken Qing Society.

After all, they all had families and had just seen the dawn of a change in their destiny, and in this situation, deep down they naturally wanted to see more hope and a greater chance of success.

If the Ten Thousand Dragons Hall was still behind them, then they could all put their hearts down and hold on to this place.

At this moment, Ye Chen said, "There is one thing that everyone must be clear about, even if we can hide well at the moment, this base will be exposed sooner or later, but being exposed is not scary, as long as we prepare for everything, we will be able to avoid unnecessary casualties."

As he said, Ye Chen added, "Listen up, once there is a change here in Duan Liye, we will immediately evacuate everyone, but before we evacuate, you must completely destroy this base for me, I want the Broken Qing Society to see their hard work go down the drain with their own eyes!"

The copper mine was not of great value, but the underground works underneath it, specifically for the Dead Man's Accessories, were of incalculable value.

The construction cost of the entire underground project alone is estimated to start at one billion dollars, and counting the various hardware and equipment, the cost is even more astronomical.

Most importantly, quietly constructing such an underground project would take a lot of time, and it might not be able to be completed in eight or ten years, which was the most heartbreaking for the Broken Qing Society.

Li Nianzong spoke up, "Sir, if you allow us, we can make blasting points underground in advance, and once the need arises, we can simply fill the blasting points with strong explosives and blow up the entire underground fortifications,

### **Chapter 5103**

Li Nianzong spoke up, "Sir, if you allow us, we can make blasting points underground in advance, and once the need arises, we can simply fill the blasting points with strong explosives and blow up the entire underground fortifications, once the underground is destroyed, the ground will create a huge sinkhole and the entire copper mine will have almost no salvage value."

Thirty-nine Zero also immediately agreed and said, "That's right sir, the copper mine is mined daily by blasting and digging, the sectional governor is in charge of a large amount of emulsified explosives there, as long as a sufficient amount of explosives are pre-buried in the key support positions, the entire underground can be completely blown up!"

Ye Chen nodded gently and spoke, "In that case, let's prepare well in advance."

After saying that, he turned to look at Wan Bajun and his master Qiu Zhiyuan and instructed, "Bajun, in the future, your master will act as the section commander here, responsible for coordinating the operation of the entire copper mine, the control of explosives and the response in case of crisis. Once you discover that one day the envoy who comes here is no longer Duan Liye, you will immediately execute the evacuation plan."

Wan Bajun and Qiu Zhiyuan said in unison, "My subordinates obey my orders!"

And Qiu Zhiyuan asked even more, "Mr. Ye, as you said, once the envoy is no longer Duan Liye, do we have to kill the new envoy?"

"Yes!" Ye Chen said firmly, "Once we find out that the envoy has changed, we will release him into the copper mine, and once he enters the copper mine, the special combat team will immediately attack him in a group, making sure to kill him and his entourage in the shortest possible time!"

Saying that, Ye Chen added, "Everyone listen to my next order!"

Immediately, all the people were in high spirits, waiting for Ye Chen's next words.

Ye Chen looked at Qiu Zhiyuan and asked aloud with a firm expression, "Once the killing is successful, Qiu Zhiyuan must immediately convey the message to Wan Bajun within thirty seconds without any delay, can you do that?"

Qiu Zhiyuan clasped his hands together and bowed, "Don't worry, Mr. Ye, if I delay for one second, I'll see you with my head!"

"Good!" Ye Chen nodded in satisfaction, and then looked at Wan Bajun, "Bajun, after you receive the news, make sure you send a ship to Cyprus within half an hour, the ship must be enough to pick up

everyone back to Syria, and there must be enough means of concealment, so that the other side cannot trace any clues, can you do that?"

Wan Bajun immediately said in a loud voice, "Please don't worry sir, I will make all the arrangements sir!"

"Good!" Ye Chen looked at Qiu Zhiyuan again and instructed, "Once you have successfully killed and conveyed the information to Broken Army, you must immediately synchronise the information to the Primus Guards and the dead soldiers within the shortest possible time, and at the same time, dispatch the special combat team to start planting the explosives at the blasting points that have been hit in advance and prepare for the blasting, can you do that?"

#### **Chapter 5104**

Qiu Zhiyuan bowed once again, "Back to Mr. Ye, my subordinate can do it!"

"Good!" Ye Chen looked at Primus Guards Li Nianzong and ordered, "Li Nianzong, once you receive the news, immediately inform all the families of the Primus Guards to prepare for evacuation, at the same time, you personally lead the elite troops of the Primus Guards to quietly go out and control all the people on the cargo ship in the shortest possible time, to ensure that they cannot pass any information to the outside world in a short time, can you do that?"

Li Nianzong replied firmly without thinking, "Sir, don't worry, my subordinates will not disgrace the mission!"

Ye Chen nodded and looked at the dead soldier XXXIX and ordered, "XXXIX, once you receive the news, immediately organize all the dead soldiers and their families to prepare for the evacuation, you live deep underground, when you evacuate, you must do it in an orderly manner while ensuring speed and efficiency, absolutely no panic! And make sure that the elderly, children and women are evacuated first, if anyone else dares to rush ahead, they will be killed, can you do that?"

Thirty Nine Zero respectfully said, "Sir, don't worry, Thirty Nine Zero guarantees on his head that there will never be any disclosure!"

Ye Chen nodded slightly in satisfaction and spoke, "At that time, as long as you can take out the new envoy and control the people on the freighter in the shortest possible time, you can theoretically buy at least half a day, or twelve hours, for the evacuation, which is the time needed to unload and reload the freighter;"

"The Broken Clear Society is too confident in their poison as well as the antidote, this is also our chance, if we seize these twelve hours, we will be able to evacuate without a trace;"

"After everyone has retreated, the last special forces team left behind to break the back will be responsible for blowing up the entire copper mine!"

"When the time comes, the huge explosion will definitely trigger local attention in Cyprus first, and once they intervene, it will become very difficult for the Broken Clear Society to follow up on the investigation."

“Moreover, this kind of explosion, will completely destroy the entire underground, while forming a cave-in in the ground, several hundred metres deep, and it will be impossible for them to investigate deeper;”

“So as long as we don’t leave any clues when we withdraw, these thousands of people will be like evaporating in the eyes of the Broken Clear Society, and they will rack their brains to not be able to think of how these people actually did it, let alone how these people broke through the shackles of the antidote.”

“At that time, I’m afraid that the Broken Qing Society itself will first be scared sh\*tless, and it will definitely be a huge blow to them!”

Speaking of this, Ye Chen gave a slight beat and said with a smile, “Above, is our plan to overturn the nest!”

### **Chapter 5105**

As long as these people could follow his orders at the critical moment, and each of them carried out their tasks in an orderly manner, they would definitely be able to make a perfect response in the shortest time.

Moreover, Ye Chen believed that once the day came when the plan to overthrow the nest was executed, it would definitely be a huge blow to the Broken Qing Society.

At that moment, the Qing Breakers would realise that the poison they used to control all their members had already been broken, and their inner circle would first fall into chaos, and their hearts would definitely change drastically.

It would be like a man who had been invulnerable to swords and spears suddenly having an arm broken by a sudden bullet.

All the people were excited at this moment, because they knew that Ye Chen’s plan to overthrow the nest would definitely be put into action sooner or later, but it was just a matter of time.

Once this plan was really launched, it would be their first step towards revenge against the Qing Breakers!

At this moment, Ye Chen said to Five-Four-Seven, who had followed Wan Xiaojun from Syria, “Five-Four-Seven, from now on, you can stay here, you are from the same background as Thirty-Nine, you are a dead soldier, living with them will definitely be more adaptable for you.”

Five-Four-Seven said respectfully, “Thank you, Mr. Ye!”

When Ye Chen saw that Five-Four-Seven looked like he wanted to say something, he spoke, “Don’t worry, maybe the next dead soldier’s station we take over will be the one where your wife and family are, but you must understand that this matter, can’t be rushed, we have to wait for the broken Qing Hui to reveal the breach again.”

With tears in his eyes, he choked up and said, “Thank you, Mr. Ye, for thinking of my wife and children.

Ye Chen smiled faintly and instructed, “Live well and live to see your wife and children.”

Five-Four-Seven nodded heavily with tears in his eyes.

Ye Chen then said to Thirty Nine Zero, "Like you, Five Four Seven is a bitter man, I will leave him in your care from now on."

Thirty Nine Zero said without thinking, "Sir, don't worry, my subordinate will definitely take care of Fifth Elder Brother!"

"Good." Ye Chen nodded and waved his hand, "Alright, you guys go out first, Broken Army and Qiu Zhiyuan stay behind."

The others got up and respectfully excused themselves.

In the office, only Wan Jun broke, and his master, Qiu Zhiyuan, were left at last.

Ye Chen looked at Qiu Zhiyuan and said indifferently, "Mr. Qiu, I still have a very important matter to leave to you."

Qiu Zhiyuan hurriedly stood up, bowed and said, "Mr. Ye, just give me an order, my subordinates will do their best!"

Ye Chen nodded and said, "All the dead soldiers and the primus guards have lost a lot of their ability to fight after the poison in their bodies was lifted, mainly because the poison in their bodies was itself an accumulating energy that could improve their strength to a certain extent. and Primus Guards as if they were your own disciples, and teach them the true martial path."

Qiu Zhiyuan immediately said, "Yes, Mr. Ye, I will definitely teach them with all my knowledge and will not hide anything from them!"

Ye Chen was very satisfied with his attitude, as most martial artists treasured the martial arts techniques they practiced and would not be willing to teach them to strangers under any circumstances.

Moreover, martial arts techniques are not only a martial artist's untold secrets that he has suppressed, but also an exhaustive summary of all his martial arts characteristics. If one's martial arts techniques are mastered by one's enemies, then the chances of one's enemies defeating oneself will be greatly increased.

Therefore, in the field of martial arts, the vast majority of martial arts techniques are not passed down to the outside world, but only within one's own descendants and clansmen.

## **Chapter 5106**

For some martial arts sects, they would also divide their martial arts techniques into several parts; for outer disciples, they could only learn a small piece of skin, while inner disciples could learn some essence, but if they really wanted to learn all the heart techniques within the sect, they would inevitably have to be the most trustworthy closed disciples to be able to do so.

When Ye Chen asked Qiu Zhiyuan to teach these dead soldiers and primus inter pares, a normal person would have hesitated, or even struggled, even if he had agreed.

However, Qiu Zhiyuan did not hesitate and did not intend to hide anything. From this alone, it could be seen that this man was sincere in his submission and had full sincerity.

Thus, Ye Chen nodded, looked at him and asked with a smile, "Stuck in the Ming realm at the Great Perfection for so many years, you should be anxious, right?"

"Yes....." Qiu Zhiyuan nodded sincerely and said, "Being trapped for decades is indeed anxiety-provoking, if it were not for my eagerness to break through, I am afraid I would not have been in a momentary rush, knowing that it would be drinking hemlock (zhèn) to quench my thirst, but still decided to Join the Qing Breaking Society ....."

Ye Chen nodded slightly and said indifferently, "Breakthrough is about talent, but even more about chance, if you don't have enough talent, you may not be able to become a Dark Realm expert even if you work harder, and if you don't have the chance, you may not be able to find the way to begin even if you wander outside the door for decades."

Qiu Zhiyuan was ashamed and said, "What Mr. Ye said is very true, my subordinate is not gifted enough and his chance is even less, unlike Broken Jun, who was able to receive the heavenly chance bestowed by Mr. Ye at a young age ....."

Wan Bajun looked at his master's humble and ashamed appearance, his heart was both heartbroken and thankful.

The heartache is because seeing his master wasting so many years and not being able to get what he wanted.

I am glad because I have taken at least thirty years less of a detour than he did.

It is impossible to describe the significance of taking thirty to fifty years less of a detour in a life of just over a hundred years.

Ye Chen let out a light laugh and said, "The special envoy of the Qing Breaking Society is a Dark Realm expert, and the sect leader before you is also a Dark Realm expert, after Broken Army and I left, you are theoretically the highest commander of this place, if you can't reach the Dark Realm, doesn't it seem like we are inferior to the Qing Breaking Society... .."

Upon hearing this, Qiu Zhiyuan's expression became even more ashamed as he said, "Mr. Ye, my subordinate is not strong enough, so I'm holding you back!"

At this moment, seeing that his master was still dumbfounded, he urged with some impatience, "Master, quickly thank Mr. Ye for his promotion!"

"Huh?" Qiu Zhiyuan froze as he listened, obviously not yet understanding what Wan Bajun meant by these words.

Wan Bajun was already a little anxious and hurriedly said, "Master, you don't know Mr. Ye, for Mr. Ye to say that, this is his intention to wish you a favor and help you make a breakthrough!"

After saying that, he immediately knelt down in front of Ye Chen on both knees and said in fear, "Mr. Ye, my subordinate is so clever that I don't know if I have misunderstood your meaning, if I have really misunderstood, I hope you can forgive me!"

Ye Chen nodded and smiled, "You are right, that is exactly what I meant."

Even if Qiu Zhiyuan was slow, he had understood by this time.

Hearing that Ye Chen had affirmed Wan Breaking Jun's guess, he also hurriedly knelt down on both knees and choked back tears of gratitude, "My subordinate ..... thanks Mr. Ye for his generous kindness!"

Ye Chen nodded and took out two blood dispersing heart saving pills from his pocket and handed them directly to Qiu Zhiyuan, smiling, "Take the medicine immediately, close your eyes and run the power of the medicine to all your meridians, when you open your eyes again, you will be a Dark Realm expert!"

### **Chapter 5107**

Ye Chen was never stingy with those who sincerely followed him.

At the beginning, when Wan Bajun led all the generals of the Ten Thousand Dragon Hall to kill him on Mount Ye Ling, Ye Chen was able to repair his meridians after he had broken them, and even helped him to enter the Ming realm in one step, and then even helped him to enter the Dark realm directly.

Now, since Qiu Zhiyuan was sincere and had no reservations, he naturally had to help him too.

What's more, Qiu Zhiyuan had been stuck in the Bright Realm for thirty years, so if he could help him achieve a breakthrough at this time, it would definitely be the greatest favour of his life to him.

Therefore, Ye Chen planned to take this opportunity to do him a favour.

At this moment, Qiu Zhiyuan was still grateful deep inside, and when he heard Ye Chen say that he would be able to break through to the Dark Realm after taking the medicine, his whole body even trembled uncontrollably.

With trembling hands, he took the pill that Ye Chen bestowed on him, then he fell to the ground and bowed, "Mr. Ye's great kindness, my subordinate will never forget it!"

Ye Chen said blandly, "Quickly take the medicine, the Ten Thousand Dragons Hall really needs more Dark Realm experts too!"

Qiu Zhiyuan heavily nodded his head, then glanced at the two pills in his hand and put them into his mouth without a second thought.

Immediately afterwards, Qiu Zhiyuan experienced the most miraculous moment in his life.

The moment the two actual pills entered his mouth, they suddenly turned into a stream of pure energy, which suddenly surged into his dantian.

And at this moment, how could Qiu Zhiyuan's dantian expect that there would be such a powerful surge of energy into it so violently.

This feeling was like a huge flood suddenly bursting into a small reservoir downstream, such a powerful energy could not be carried by a small reservoir.

So, after that energy quickly filled up his dantian, it began to start from the dantian and rushed towards his eight odd meridians.

He was already a Ming realm great success, and his eight meridians had already been opened up, but the degree of smoothness varied, and the best conditioned meridian was only 70% opened up.

But this force was so overwhelming and domineering that it directly impacted his meridians, making them even more unobstructed!

Qiu Zhiyuan was shocked and overjoyed!

He finally understood why Wan Bajun had been able to make breakthroughs one after another in such a short period of time.

With this divine pill, breaking through to the Dark Realm was as easy as pie!

At this moment, Ye Chen's voice rang out in Qiu Zhiyuan's ears, "Grasp onto guiding and absorbing this medicinal power, don't waste it!"

As soon as Qiu Zhiyuan heard this, he immediately put in twelve percent of his energy, fully guiding the surging medicinal power, which was constantly working in his meridians.

After ten minutes, Qiu Zhiyuan finally absorbed the surging power, and only then did he finally realize that his dantian, his eight meridians, and even the muscles and bones of his entire body had all undergone earth-shaking changes!

## **Chapter 5108**

He could clearly feel that his strength had taken a huge leap forward, and even his degree of control over his own internal dantian and meridians had greatly improved.

Previously, he was like a handicapped person with poor eyesight who could only see the state of his body in a hazy manner, but now, he felt like he had grown a new pair of healthy eyes and could see the situation inside his body at a glance.

This all-round enhancement made him marvel and was so excited that tears flowed down his face.

He couldn't help but think in his mind, "So this is what the Dark Realm feels like ..... Everything has become stronger and clearer, it's simply a qualitative improvement compared to before!"

"If I didn't enter the door of the Dark Realm, I would never be able to experience such a wonderful feeling in my lifetime! I've waited for thirty years, and now it's all worth it!"

Thinking of this, Qiu Zhiyuan opened his eyes, and in the haze of tears, he saw Ye Chen's face and once again bent down and bowed, choking with emotion, "Mr. Ye ..... thank you for the opportunity you have bestowed upon my subordinate! Subordinate ..... subordinate has finally broken through to the Dark Realm!"

Ye Chen smiled faintly and said seriously, "The Dark Realm is just a new beginning, the road ahead is even more arduous and distant than the decades you have walked before. Another thirty to fifty years."

However, the longer you live, the more effort you will need to put in. Ordinary people can still retire at the age of 60 and take care of themselves, but martial artists, if they are pursuing cultivation, they may still have to work hard at the age of 160 and may not be able to relax for the rest of their lives. This is definitely a pain that is difficult for ordinary people to experience.”

Qiu Zhiyuan said respectfully, “Don’t worry, Mr. Ye, since the day I entered the door of martial arts, I have already firmly believed in one thing, the path of martial arts is a long one, I will go up and down to seek for it!”

Ye Chen nodded gently and said indifferently, “From today onwards, teach these dead soldiers and Primus Guards well, there is bound to be a battle with the Qing Breaking Society in the future, the chance of surviving depends in large part on how high you can teach them.”

Qiu Zhiyuan said respectfully, “I understand! Please don’t worry, Mr Ye, from today onwards, I will teach them with all my heart and soul, without any reservations!”

Ye Chen slightly breathed a sigh of relief and spoke, “Alright, go and bring in the original sect leader, at least he is a Dark Realm expert, he cannot be wasted.”

“My subordinate follows orders!”

Qiu Zhiyuan quickly brought in the sect leader, who had been completely controlled by Ye Chen, from outside.

This person’s cultivation level, although he was already at the Dark Realm Two Heavens, had still become a puppet of Ye Chen’s at this time.

After that person came in, he stood respectfully in front of Ye Chen, as if he was a robot waiting for orders.

Ye Chen looked at him and asked with interest, “What is your name?”

The man immediately said respectfully, “Back to you, sir, my name is Ni Zhenyu.”

## **Chapter 5109**

Ye Chen asked again, “How did you become this sectional amba\*sador?”

Ni Zhenyu replied, “I am from the Huben Battalion, and after I came out of the Huben Battalion, I first travelled around various continents before I was a\*signed here as a sectional envoy.” You’re so curious!

Ye Chen asked him curiously, “The Broken Qing Society is so strict in its management, how come they let you travel around?”

Ni Zhenyu said, “Sir, travelling is a necessary process for everyone who comes out of the Huben Battalion. The organisation lets us travel around so that we can look for people who are talented in martial arts and convince them to join the Qing Breaking Society.”

Ye Chen sneered, “So it is to pull heads everywhere, it seems that the Broken Qing Society is very short of people.”

“Yes.” Ni Zhenyu nodded and said, “In these few years, there are fewer and fewer members of the Huben Battalion, and there are fewer and fewer martial geniuses with the potential to step into the Dark Realm, which is why the organisation has asked us to travel around to find suitable talents.”

Ye Chen nodded, pointed at Qiu Zhiyuan and ordered, “Ni Zhenyu, from today onwards, I want you to never leave this copper mine, follow his instructions at all times, do whatever he tells you to do, and if anyone tries to do anything against him, you must be the first to defend him with your life, even if you die, you are not afraid, do you understand?”

Ni Zhenyu nodded his head without hesitation and said, “I understand!”

Ye Chen nodded slightly and said to Qiu Zhiyuan, “This person’s strength has reached two heavens of the Dark Realm, stay by your side to be a helper for you.”

Qiu Zhiyuan was busy saying, “Mr. Ye, the Broken Army is in need of people, and this person’s cultivation level is even above my master and disciple, so why not let him stay by the Broken Army’s side and serve the Ten Thousand Dragons Hall!”

Ye Chen waved his hand and said indifferently, “Wan Long Hall is in a different situation from you, Wan Long Hall has become a ground snake in the Middle East, and even the Broken Clear Society has to weigh in, but your place is different, there are killing machines everywhere, in case the Broken Clear Society changes an envoy who is even stronger than Duan Liye, you two Dark Realm experts, you have a better chance of winning, it is better to keep him here with you.”

When Qiu Zhiyuan heard this, he no longer insisted and said with an arch of his hand, “My subordinates will follow the arrangement of sir!”

.....

Ten o’clock in the morning.

Duan Liye, who was the special envoy, was taken to the pier by the caravan together with his male pets.

As the members within the copper mine still needed to conceal their identities, none of the section envoys and others would get off the car during the normal send-off session.

Therefore, Qiu Zhiyuan did not get off the car at this point either.

He watched as Duan Liye and his male favourite disembarked and watched the two men stride onto the freighter.

## **Chapter 5110**

The guards and crew of the freighter bowed respectfully to Duan Liye and shouted “Good day, Special Envoy” with respectful faces.

However, Duan Liye rarely responded, at most giving a muffled cry before walking towards his office without looking back.

After entering the room with his male pet, the captain came to the door, knocked on it and said respectfully, “Lord Envoy, we have finished loading our cargo, do you think we should leave the port?”

At this moment, Duan Liye had already triggered the strong hint that Ye Chen had left deep inside him, he only knew that everything was as usual in the copper mine, there was nothing abnormal, and he had successfully completed this delivery of medicine as well as the on-site review, this routine mission had been successfully concluded.

He then said indifferently, "Since the goods are all loaded, let's just set off."

"Good!" The captain responded and hurriedly said, "Then my subordinates will arrange to set sail!"

The cargo ship, which had been moored in the harbour overnight, finally began to set sail and leave.

Duan Liye, as well as his male pets, had completely forgotten about what had happened at the copper mine by now.

It was also Ye Chen's tactful and triggering psychological suggestion that ensured that Duan Liye looked as normal as usual at such times.

When the cargo ship disappeared at sea level, Ye Chen was also ready to depart back to Lebanon, together with Wan Breaking Army.

Arrangements had already been made for the affairs related to the garrison, and in future, this garrison would be jointly managed by Qiu Zhiyuan, Wan Bajun's master, as well as Li Nianzong, the Primus Guard, and Thirty-Nine Zero, the Deadly Warrior.

Their common superior, on the other hand, is Wan Bajun.

Wan Bajun had left a way for them to contact each other online, and asked Qiu Zhiyuan to gather Li Nianzong and Thirty Nine Zero to give him a routine report together once a day.

Once everything was arranged, Ye Chen stepped on the speedboat back to Lebanon with Wan Brejun.

After sailing, Ye Chen said to Wan Bajun, "Bajun, when we arrive in Lebanon later, I will fly back to the United States directly, so you should keep an eye on things here."

Without thinking, Wan Bajun said, "Don't worry, Mr. Ye, my subordinates will not let anything go wrong here."

"Good." Ye Chen nodded in satisfaction and spoke, "When you return, have the brethren of the Ten Thousand Dragon Hall who are six-star war generals or above, go all out on closed-door cultivation, and make sure to lay their respective foundations firmly!"

Saying that, Ye Chen added, "Within this year, the Dark Realm experts of the Ten Thousand Dragons Hall must exceed five! Right now, apart from you and your master, there are still three people missing!"

"You tell them that of these three, I will select the three with the best qualifications, the most stable foundation and the most diligent cultivation from them, and help them break through to the Dark Realm! Whoever works the hardest will have the possibility of becoming one of these three!"
