

Ye Chen 5111

Chapter 5111

“Adding three more Dark Realm experts?!”

Wan Bajun was a bit stunned by Ye Chen’s words, and his jaw dropped.

Although he was already a Dark Realm expert now, he knew very well in his heart just how rare a Dark Realm expert was.

It was not an exaggeration to say that Wan Bajun had not seen a single one that could break through the Dark Realm by his own cultivation.

The first is himself, can break through the dark realm, all thanks to Ye Chen to bring up.

The second is his master, thirty years failed to break through, also relied on Ye Chen to give the opportunity to finally be able to wish.

As for Duan Liye, the special envoy of the Qing Breaking a*sociation, and Ni Zhenyu, the sectional amba*sador, they were also trained by the Tiger Ben Camp of the Qing Breaking a*sociation.

Therefore, so far, Wan Bajun has not heard of any Dark Realm expert who broke through by himself.

Because of this, when Wan Bajun heard that Ye Chen was going to add three more Dark Realm experts to Wan Long Hall, his whole body was shocked and happy, and he couldn’t even believe his ears.

In Wan Bajun’s opinion, if the Hall of Ten Thousand Dragons could have five Dark Realm experts, the overall strength would definitely cross a brand new level again, which was definitely a great good thing.

Thus, he gratefully and excitedly said to Ye Chen, “Mr. Ye, if my subordinates tell this good news to those brothers who are six-star war generals or above, they will definitely be very excited!”

Ye Chen nodded slightly and said indifferently, “The establishment of the Huben Battalion by the Broken Qing Society is indeed a wonderful move! Unlike the dead soldiers, those who are able to join the Huben Battalion are almost all Ming Realm Great Perfection level experts, and what is even more valuable is that the Broken Qing Society does not need to imprison or enslave them at all, they only need to tell them that the Huben Battalion can make them Dark Realm experts, and they themselves will rush to join the Broken Qing Society, and they can also make them take the poison voluntarily.”

Said, Ye Chen said with a serious expression: “the biggest advantage of the Huben camp, is that he simply do not need to train from within their own little to select, but can be selected from among the world’s martial artists, do not underestimate the merit of this selection, it can directly set the screening threshold to the ceiling, greatly saving their energy and time.”

Wan Breaking Jun also could not help but sigh: “They make every case expert must enter the world to travel and discover talents for the Huben battalion, this move is also very subtle, these dark realm experts, can easily see all martial artists of Ming realm great consummation and below Ming realm great consummation cultivation, in this way, as long as there is a Ming realm great consummation found by them, it is difficult to refuse them to become a dark realm expert the bait.”

Chapter 5112

Ye Chen agreed and said, "This is also something worth learning from us, the Ten Thousand Dragons Hall should also gradually set up an internal institution that specializes in training Dark Realm experts, the first stage can be selected from within first, and in the second stage, it can be like the Tiger Ben Battalion of the Broken Qing Society, looking for suitable targets around the world."

After saying that, Ye Chen added: "This matter, I will go back and think about it, and try to put it on the agenda as soon as possible."

Wan Breaking Jun respectfully said, "Okay Mr. Ye, my subordinates will wait for your instructions!"

.....

At noon, the speedboat Ye Chen and Wan Bajun were on had arrived in Beirut, the capital of Lebanon.

In order not to delay, Ye Chen took the Concorde directly from Beirut to return to the United States.

And Wan Breaking Army also returned to the headquarters base of the Ten Thousand Dragon Temple in Syria after Ye Chen's plane took off.

The Mighty Broken Clear Society did not know that they had permanently lost their base in Cyprus.

A few hours later, Ye Chen returned to Providence, to his wife Xiao Churan's side.

Xiao Churan only thought that her husband had finished reading feng shui for another client, but she did not know that he had spent the past few days bouncing around Northern Europe, Syria, Lebanon and Cyprus in order to fight against the most mysterious and powerful organization in the world.

After returning to Providence, it coincided with the end of Xiao Churan's master class at the Rhode Island School of Design.

The Rhode Island School of Design had prepared a special ceremony for the master class, and Xiao Churan had greeted Ye Chen two days in advance, asking him to accompany her to the ceremony.

Ye Chen naturally did not refuse, his wife, after all, had studied hard in the master class for more than a month and was looking at graduation, so he must accompany her and attend the closing ceremony together, which would also be considered a successful conclusion to this study in the United States.

The closing ceremony was scheduled for Friday night, and Xiao Churan was already returning to her home, so she wanted to check out of her room early Saturday morning and embark on her return journey.

Ye Chen did not hesitate to agree to this and had the Ye family's Concorde ready to take off from New York early Saturday morning.

The main reason for taking off from New York is that Ye Chen still has to go to the hospital of the Fei family to pick up Ma Lan who is recovering in the hospital.

In addition, Auntie Li and Li Xiaofen, who were adopted by Auntie Li and who indirectly saved Li Xiaofen's life by informing Ye Chen in advance – Claudia DiNorscio – had promised Ye Chen that they would return to China together with the couple after Xiao Churan's studies were over.

Auntie Li and Li Xiaofen will help themselves to the large orphanage they invested in after they go back, and as for Claudia, who already has no relatives, Ye Chen also promised her that he would find a way to arrange for her to study at Jinling University so that she would put down roots in Jinling in the future.

Chapter 5113

There are many direct flights from Vancouver, Canada to New York, USA, and Ye Chen plans to return home from New York, so he can meet the three of them in New York first.

The time soon arrived on Friday.

Xiao Churan finished all the cla*ses at noon and returned to the hotel. Once she entered the room, she couldn't hide her excitement and said to Ye Chen: "Honey, our cla*ses are all over!"

Ye Chen smiled and asked her, "How did you feel after the whole master cla*s?"

"Very good!" Xiao Churan could not help but sigh: "The heritage of the top design schools, as well as the thinking of the top design masters, it is difficult for a small designer like me to learn to understand on their own, it is like those who study cla*sical music, you have to go to the top cla*sical music schools like Curtis, Juilliard, in order to realize how big the gap between yourself and the world's top."

Said, Xiao Churan self-deprecating smile, said seriously: "In fact, I feel, I such a small student, suddenly came to this kind of top hall, not at all like to learn something, but more like to pilgrimage."

Ye Chen smiled gently and encouraged: "Do not think so, I have always felt that you have the talent to become a world-cla*s designer, only now is still young, has not yet ushered in the thick and thin time, the masters of various industries are generally in the age of 40 or 50 years old before they start to make a fortune, you are still so young, must not look down on yourself, maybe when you are forty years old, you will be able to Become the world's top female designers, at that time, I will really lie flat at home to eat my wife's soft rice."

Xiao Churan couldn't help but laugh out loud and said shyly, "I'm afraid that before I become a world-cla*s design master, you'll already be a world-cla*s feng shui master."

Ye Chen laughed: "If Bill Gates asks me to read feng shui, then I really have to think about it."

Xiao Churan curiously asked: "Why, husband, Bill Gates asked you to look at feng shui and you have to consider?"

Ye Chen laughed: "Who came all the way to the United States to serve him ah, if he buys a villa in Jinling, maybe I can even go and give him a couple of looks, the United States forget it."

Xiao Churan couldn't help but laugh out loud and said, "You, you said you were fat and you're really panting!"

After saying that, Xiao Churan remembered Ma Lan, and asked her: "By the way husband, how is my mother in New York in the end ah, these days I send her video calls, she always does not answer, must be converted to voice before willing to talk to me a few words, I always think she is not hiding something from me."

Ye Chen thought: "Of course she has something to hide from you, you certainly can not imagine, she broke her leg again, right now this Bedford Hills ghost, is in the hospital in New York to recuperate, if you video, will not leak the stuffing?"

Chapter 5114

Ye Chen thought: "Of course she has something to hide from you, you certainly can not imagine, she broke her leg again, right now this Bedford Hills ghost, is in the hospital in New York to recuperate, if you video, will not leak the stuffing?"

However, Ye Chen's mouth still smiled and comforted: "You ah, do not think too much, Mom this person's style of action you do not know, we are the general two ordinary people, simply can not figure her out, anyway, tomorrow will return to the country, she certainly will not stay alone in the United States."

Xiao Churan nodded and asked, "By the way, husband, have you fixed the tickets?"

Ye Chen shook his head and said, "No need to book air tickets, Miss Fei just happens to have a plane to return to China, so she can take us back by the way."

Xiao Churan was surprised and asked, "Miss Fei? Is it the Fei family's Miss Fei Kexin Fei?"

"Right." Ye Chen nodded: "That's her, their family some time ago is not a son of a b*tch called Fei Hao Yang, the whole thing is quite a big thing, the Fei family anxious, I went to help her change the feng shui, so that the Fei family is considered to survive the crisis, Miss Fei has been very grateful, know that we will soon return to the country, so take the initiative to let us take her plane back. "

Because there were more people going back together this time, so Ye Chen did not intend to take so many people to take an ordinary civilian airliner.

However, his own Concorde and really some eye-catching, not only bad to explain to Xiao Churan, Ma Lan that love to show off the character is also a big problem, she sat a Gulfstream can not even post ten friends, if you take the Concorde, it is estimated that a day down in the circle of friends screen.

So think about it, Ye Chen plans to let Fei Ke Xin from the Fei family fleet of random arrangements a, they are also close to her, this small matter, Ye Chen is also nothing embarrassed.

When Xiao Churan heard that Ye Chen was going to take Fei Ke Xin's plane back, her expression was a bit complicated for a while.

When she first met Fei Ke Xin, Fei Ke Xin was still using her other identity named Zhan Feier.

It was only when Xiao Churan saw Fei Ke Xin on TV that she realized that the person she thought was her "best friend" hadn't even told herself her true identity.

However, Xiao Churan was not angry, after all, she also knew that Fei Ke Xin's status was unattainable, and she, as a small entrepreneur from an ordinary family, was a hundred thousand miles away from her, so it was rare that she could use another identity to make friends with herself, not to mention that she also helped herself to get a valuable master class slot.

The only thing that Xiao Churan is not happy about is the fact that Fei Ke Xin has suddenly evaporated without leaving any clues from the friend she had been talking to.

Xiao Churan's friends are not many, and to make friends and more heartfelt, the results did not expect the other party evaporated not to mention, and later found that even the identity is false, which makes her heart, more or less, some blow.

Thinking of this, Xiao Churan could not help but ask: "Right husband, Miss Fei will return to the country with us?"

Ye Chen shook his head: "She should not, what's wrong?"

Xiao Churan sighed lightly and sighed: "It's okay, friends, as long as everything goes well for her."

Chapter 5115

Ye Chen could see that in Xiao Churan's heart, she still considered Fei Ke Xin as a friend.

It was only that the huge gap between their social status had caused her to hold back a little in her own heart.

In this regard, Ye Chen understood this very well in his heart.

Moreover, for Ye Chen, he did not really want his wife to get too close to Fei Kexin.

On the one hand, Fei Kexin already knew his identity, so if his wife got too close to her, it was likely that she would reveal clues about her identity.

On the other hand, Fei Kexin is really too smart, and in comparison, Xiao Churan is like a primary school student facing a graduate student in front of her, one is too smart and the other is too naive, if such two people really become friends, both sides will definitely be tired in order to compromise with each other.

So, the two of them just kept the current state, which in Ye Chen's opinion was the best.

So, Ye Chen digressed and asked Xiao Churan, "Honey, what time does the closing ceremony start in the evening?"

Xiao Churan said, "The ceremony is from 5pm to 5.30pm to start signing in, and it officially starts at 6pm."

Ye Chen nodded and spoke, "Then let's collect our luggage this afternoon, so we can drive to New York first thing tomorrow morning."

"Good!" Xiao Churan happily agreed and said with a little leap of faith, "I've been out for so long, I'm really homesick! My dad finished his exchange and returned to Jinling from Korea a few days ago, so I don't know how he's doing at home alone these days, he doesn't know how to cook either, so eating alone is a problem."

Ye Chen laughed, "Eating is a small thing, these days with a mobile phone, you can't go hungry anywhere, and with mum not at home, dad is probably having a great time alone, he might even be looking forward to us going back later, for middle aged married men, being able to live alone at home for a few days is more comfortable than being the President of the United States for a few days."

Xiao Churan couldn't help but sigh: "If you want to take care of your family, it's women! You see, when we first came to America, Dad also went on an exchange trip to Korea, and my mother was the only one at home. According to what you just said, she must have been very comfortable at home alone, but she still missed us in her heart and came all the way to America to see us."

Ye Chen was dumbfounded for a moment and thought to himself, "Ma Lan has us in her heart? Good wife, you don't know your own mother well enough. The reason your mother came to America was because I had devised a little scheme to get her to come and stay with you, so that she would spend all her money."

However, naturally, Ye Chen could not tell the truth, so he said with a smile, "You are right, wife, our mother is still more loyal."

Chapter 5116

Xiao Churan laughed, "We'll leave tomorrow morning, we'll be home in ten hours or so, and by then I'm afraid that these good days for Dad will come to an end."

While Xiao Churan was packing his luggage, Ye Chen went to the terrace of the presidential suite and called Auntie Li in Canada.

As soon as the call was answered, Auntie Li called out respectfully on the other end of the line, "Young Master!"

Ye Chen wanted to persuade Auntie Li not to address himself like that, but after thinking about it, he eventually gave up on the idea.

He knew that even if he asked Auntie Li not to call himself Young Master, it would not change the fact that in Auntie Li's heart, he was the young master of the Ye family.

Coupled with the fact that she had always felt that it was the Ye family that had saved her life and arranged for her to retire to Canada, in her mind she felt that she was a servant of the Ye family.

In front of people who did not know Ye Chen's identity, she would call him by his name against her heart, but when there were no outsiders, she wanted to call him Young Master from the bottom of her heart.

So, Ye Chen stopped naming this matter and said with a smile, "Auntie Li, Churan's course here in the United States has ended today, we plan to return to Jinling tomorrow, you, Little Fen, and Claudia should also prepare briefly and come to New York to meet us tomorrow."

Hearing this, Auntie Li couldn't help but say happily, "That's great Young Master, all this time, Little Fen has been talking to me about going back to Jinling, and I've been thinking about the large orphanage you mentioned, and I've been longing to return for a long time."

Ye Chen smiled, "That would be great, I was afraid you wouldn't be able to leave the Canadian environment behind."

Auntie Li said very seriously, "Young master, to be honest, when you get older, nowhere is as good as home, not to mention the fact that you will be able to shine for those children when you return, so I can't wait any longer."

"That's good." Ye Chen also breathed a sigh of relief and asked, "By the way, Auntie Li, how are Fanny and Claudia doing these days?"

Auntie Li replied, "They both still go to the supermarket every day to work, after what happened last time, they have a better relationship, just like sisters."

Ye Chen asked, "Regarding the matter of going to Jinling, did Claudia show any reluctance or have any worries before?"

Auntie Li thought for a moment and said, "Since you left, Claudia seems to have become more optimistic and cheerful, and she is still looking forward to going to Jinling to start a new life.

Saying that, Auntie Li added, "However, the only thing she may not be able to rest assured about is the tombs of her parents and younger brother, Little Fen promised her that she will accompany her back to pay respect to her parents every year during the summer holidays in the future, so she has nothing to worry about."

Chapter 5117

"Good." Hearing this, Ye Chen also put his heart down slightly.

Although he did not have much contact with Claudia, this girl's experience did make him sympathise with her, especially when her family had all died at the hands of her relatives, while at the age of eighteen, she had endured the humiliation and had a fake scar on her face to show people, this kind of mind and patience was something that an ordinary eighteen-year-old girl could not have.

It was a good thing that she had helped Claudia to kill her enemy, otherwise it would have been difficult for her to lead a normal life.

If she hadn't discovered that Guo Lei was plotting against Li Xiaofen and alerted her, I'm afraid I wouldn't have been able to save her, let alone help her complete her revenge.

With emotion in his heart, Ye Chen said to Auntie Li with a smile, "Auntie Li, after you go back this time, you can keep the house and the supermarket storefront in Canada, so if you are really tired and want to retire in the future, you can go back to Canada again."

"In addition, I have arranged for Richard Chen to prepare a decent villa for you, Fanny and Claudia in Jinling, from now on this villa will be yours to retire in Jinling, and if Fanny and Claudia get married in the future, it will be the maiden home of the two girls."

Auntie Li hurriedly said, "No, young master, you and the Ye family have already given me too many favours, how can I ask for your villa again, you just need to leave us a room in the orphanage"

Ye Chen said seriously, "Auntie Li, the time has changed, and today's Ye Chen is no longer the same Ye Chen who worked three jobs every day and earned money for books and milk powder for his brothers and sisters in the orphanage. discounted, it's not as much as a box of lunch money when I'm working part-time, so you don't need to push back anymore."

He said, "Auntie Li, you have taken care of me for so many years, you are my benefactor, and now you have to go back to work in Jinling for me, if I don't give you a proper settlement in Jinling, other people will also have a problem with me."

Auntie Li sighed and said from the bottom of her heart, "Young master, in fact, for so many years, I have only done my part of the job well, I would never dare to take the word benefactor"

Ye Chen firmly said, "Aunt Li, in my heart, you are my benefactor."

The first thing that I want to do is to bring you to Vancouver in the morning and have him bring someone to pick you up at home."

Auntie Li was busy saying, "Young Master, there is no need to take so much trouble, the three of us can just go to the airport ourselves." www.hdrmjgj.com

The plane you and Fanny and the girls are on is the plane we'll take back to Jinling together. "

Hearing Ye Chen's firm tone, Auntie Li had no choice but to agree and respectfully said, "Then it will be hard for you to make the arrangements, Young Master."

Chapter 5118

"It's not hard work." Ye Chen smiled faintly and spoke, "Auntie Li, then let's see you tomorrow!"

.....

Five o'clock in the afternoon.

Ye Chen, who had changed into a suit, and Xiao Churan, who was wearing a long white evening dress, arrived at the Rhode Island School of Design together.

It was summer vacation time for American college students, so there were no young students to be seen on the large campus, but there were many faculty members shuttling through, and even many media reporters and famous designers in the design field.

The Rhode Island School of Design attaches great importance to the master cla*sses each year, so the school's auditorium was specially used to hold the closing ceremony for the master cla*sses.

When Ye Chen and Xiao Churan arrived at the auditorium, it was already full of people.

Many of the designers who had attended the master cla*s had invited their friends and relatives, and even their bosses, mentors and partners in the design field to support the ceremony.

The ceremony was actually a salon for the elites in the industry to show off their status and make friends with powerful people in the industry.

In contrast, Xiao Churan, who was only accompanied by her husband and had little background in the industry, looked a bit out of place here.

When it was time to sign in, Xiao Churan found an inconspicuous corner on the large sign-in board and wrote down her name.

As soon as she handed the signatory pen to the hostess, an oriental-faced woman walked up next to her and wrote a large English signature: emilywang.

Emily Wang, it seemed, should be of Chinese descent.

Only, what irked Ye Chen a little was that this Emily had signed her name extra large, and that last letter g was thrown in an exaggerated arc, even drawing Xiao Churan's already signed name on.

When Xiao Churan saw his signature being drawn on by the other party, he was slightly stunned, but didn't say anything, while that Emily Wang, at this time, looked at Xiao Churan with a surprised face and said with a smile, "Aiya Churan, I didn't even see you just now, when did you come?"

Xiao Churan smiled and said politely, "I just arrived."

Emily nodded and said with a smile, "I have good news for you, I have become a senior partner of aecom construction company, and our boss is also here today, I will introduce you to him later, you can have a good chat with him, maybe you will have a chance to join aecom too!"

Xiao Churan smiled faintly and said, "Thank you Emily, but I don't plan to look for a job, I'm thinking of returning to China after finishing school."

Emily said with a serious look on her face, "Go back and continue to run your little decoration company? To be a designer is to join the best design company in the world, become a senior partner, and then take the full project design of Fortune 500 companies, or even the Olympic Games or World Cup, that's what we came to do the master class for!"

As she said that, she saw a few people walking not far away and said in a rush of surprise, "My boss is here! Introduce you all to each other!"

Chapter 5119

Xiao Churan did not intend to exchange too many pleasantries with Emily, so she hurriedly said to Emily, "Emily, I'm not very good at socialising, so I won't bother your boss."

With that, she then said to Ye Chen, "Honey, why don't we go in first."

When Emily heard Xiao Churan call Ye Chen her husband, she looked at Ye Chen with a surprised face and opened her mouth to ask, "You're Churan's husband, huh?"

Ye Chen nodded slightly, "That's right, I am."

Emily looked Ye Chen up and down twice and laughed, "Churan said that you specialise in reading feng shui for people, does anyone still believe in such deceitful things now?"

Ye Chen frowned slightly and spoke, "Many things are believed or not, just like religious gods, no one has ever seen God, but that doesn't stop believers from believing in his existence."

Emily laughed, "God and feng shui are not the same thing, God is a belief, in other words, a crystallization of wisdom, as for feng shui, it is just a feudal superstition that some charlatans use to cheat."

Ye Chen waved his hand and laughed lightly, "The real theory of feng shui is from the Eight Trigrams of the I Ching, and the I Ching was written in the Western Zhou Dynasty, more than three thousand years ago, its history is longer than the world's three major religions, so the next time Miss Wang comments on something, it is better to find out before you speak, so as not to make a fool of yourself."

Emily didn't expect Ye Chen to make a mockery of her, so her face was a little embarrassed, but she had only heard of the I Ching that Ye Chen was talking about, but she had never understood it in depth, so she didn't know how to retort when she was mocked by Ye Chen.

So, Emily simply clutched her shoulders and grunted coldly, asking him, "If you know so much, why don't you show me your feng shui face, and also let me personally experience whether the secret feng shui techniques you talk about are reliable or not."

Ye Chen didn't want to pay any attention to her, but after looking her up and down a bit, he couldn't help but laugh, "Aiya, this look doesn't matter, Miss Wang's career luck seems to be in great trouble."

"Career luck?" Emily faintly stared, and then said with a smile, "You're saying that my career luck has gone very wrong?"

"Right." Ye Chen said with certainty, "There is indeed a big problem, if I'm right, your career will soon suffer an extinguishing blow, and all the roots you had worked so hard for before may all go up in smoke."

Emily laughed shamefully, "Are you kidding me? If you said I might have other problems, I might believe you for a thousandth of a second, but to say that my career is about to take a hit is a joke!"

Chapter 5120

Emily said with an arrogant look on her face, "Aecom, you may not know much about this company, it's the world's top design group, a listed company with a market capitalisation of over \$10 billion! There are only a few dozen people in the world who can be a senior partner in such a company, and I happen to be one of those few dozen, and the youngest of them all!"

"And, as a Senior Partner, you can earn over \$5 million a year before taxes, and the top partners can even earn over \$100 million a year!"

Speaking here, Emily looked at Ye Chen with a sneer on her face and laughed shamefully, "I just became a senior partner today and my future is bright, so who are you to say that my career is going to suffer a crushing blow? Is it just based on my face? What a joke!"

Ye Chen did not get angry when she disliked him, but said very patiently, "You do have a red face and a great joy today, but the hostility between your eyebrows is too much, which proves that you are not good in nature. This is a typical thin lip and sharp mouth, which proves that you are usually sarcastic and good at causing trouble, which are characteristics that can easily cause trouble."

Emily laughed coldly, "Yo, you're a feng shui reader and you're getting personal? What's wrong with my big eyes and thin lips? Does that make me prone to trouble? Then why didn't you say I'm pretty and tall, with a nice figure?"

Ye Chen laughed, "I was just about to say that the end of your eyes are uplifted, the shape of your mouth is down, and the lying silkworms contain moles, which are all standard charming looks, and it's not too much to say that you were born with charming bones, and the reason why you have great joy is inevitably related to your natural charming bones, to put it bluntly for a day, your looks and body have helped a lot for you to have great luck in your career."

Emily heard this, suddenly became a little unnatural, stammered and said: "You you do not here nonsense ah I tell you, I can get to today, it is all step by step out! Never relied on looks or body."

The first thing you need to do is to listen to this kind of thing, and if it's accurate or not, you'll know it in your heart."

Emily immediately sneered in exasperation, "And say you're not a personal attack, believe it or not I can get a lawyer to sue you?"

After saying that, she gave a cold snort and said with contempt, "Besides, what's the use of your bullsh*t here? I'm lucky and one step ahead today, where's the extinguishing blow you're talking about?"

Ye Chen was about to speak when a middle-aged male came up to him and said to Emily with a smile, "Emily, which friend are you chatting with, you are talking so much."

Emily looked at the middle-aged man and said with a smile, "Chairman, you've come over so early!"
