

## **Ye Chen 5191**

### **Chapter 5191**

At a young age, Claudia had lost interest in material things and money when her peers were just beginning to appreciate their importance.

The tragic death of her family has made her look at these things very lightly. She does not expect to be rich and famous in her life, nor does she seek to live a good life or obtain a high social status, she just wants to be able to respect her own heart and live well, so that her family's soul can feel relieved.

So, after looking at so many professions, she has little interest in any of the others, but archaeology is the only one that she is interested in.

This is not only because she wants to learn more about China, but also because she wants to keep her hands off too many people.

The fact that archaeology is a field that deals with all kinds of monuments and relics on a daily basis, and that it is a cold field with few classmates, made it an even better choice for Claudia.

So, she made up her mind on the spot that she wanted to major in archaeology.

And Ye Chen was very supportive of this. He knew that many university students applied for majors that were actually not their favourite direction, some chose painting, not because he loved it so much, but because painting could make the cultural marks for the university entrance exam drop low enough, and the same was actually true for music and sports.

As for those who get into ordinary universities, because of their marks, they may not be able to choose the major they like, and as long as their marks are not high enough, they basically have to settle for the second best, or even submit to a transfer.

Claudia was more fortunate than the majority of university students in that she knew exactly what she wanted.

Seeing that Claudia's mind was made up, Director Liu immediately nodded and said, "Since you do like archaeology, then I will arrange for you to go to the archaeology department."

He took out a pile of forms and a pen and handed it to Claudia, saying, "You have met our requirements for international students in all aspects, so you can fill out these forms exactly as you really are, all the forms with an asterisk are compulsory, the rest can be left blank. Once you have filled in the form and given it to me, I will arrange for someone to make the acceptance letters, but we just made and sent out a batch of acceptance letters the other day.

Claudia nodded her head and thanked, "Thank you, thank you for your hard work!"

Director Liu smiled slightly, looked at Chen Zekai at the side and said seriously, "My friendship with Mr. Chen is here, there is no need to say thank you for this, in the future, if you need any help with anything at JLLU, feel free to contact me, I will deal with it at the first time."

With that, he took out another business card from the card holder on his desk and handed it to Claudia, saying, "This has my mobile phone number on it, it's open 24 hours a day."

Claudia thanked him again and then began to fill in her personal details.

When she reached the emergency contact section, she saw an asterisk on it and paused for a moment, but quickly bypassed it and filled in the rest of the fields before saying, "Director Liu, can I write this emergency contact later? My godmother and sister have both just returned from Canada and haven't had time to get domestic mobile phone numbers yet."

Director Liu nodded and casually said, "It's fine, it's fine to fill it in later, as long as you don't forget."

## **Chapter 5192**

Ye Chen spoke up at this time, "Claudia, just fill in my mobile phone number for this, if there is really any emergency, it would be more effective to contact me than Auntie Li."

After a slight hesitation, Claudia nodded gently, she picked up the pen again and wrote down the word Ye Chen in this column, then her big blue eyes looked at Ye Chen and asked softly, "Brother Ye Chen, what is your mobile phone number?"

Ye Chen reached out to Claudia for the pen and wrote down his phone number after his name.

Claudia then handed the information to Director Liu.

After carefully going through it, Director Liu said, "OK, there is basically nothing else, the acceptance letter will be mailed to the address on it, and there will be a reporting time on it, so just follow the time to report and go through the admission procedures."

After that, he asked Claudia, "Do you have relatives in Jinling?"

Claudia nodded, "My godmother is in Jinling."

Director Liu asked, "So are you planning to live at school or go to school?"

Claudia asked in return, "Can you only choose one or the other?"

Director Liu nodded, "Theoretically, yes, because you need to sign an agreement with the school to go to school, because there are some personal safety responsibilities involved, so the process is more troublesome. I'll also say hello to the tutors."

Claudia sighed with relief, "That would be great!"

For her, she would be studying and living in Jinling for at least four years in the future.

Auntie Li and Li Xiaofen had always taken extra care of her, so for the next four years, she was also worried that she would not cause too much trouble for Auntie Li as well as Li Xiaofen.

Therefore, in her heart, she also hopes to have an alternative.

If she could go to school and live at the same time, it would be much more convenient. If Auntie Li and Li Xiaofen were busy with their work, she could also choose to live at the school, so that they would not have to take care of themselves when they were busy with their work.

After stamping a few stamps on Claudia's documents, Director Liu said to her, "All right, the formalities are complete, just wait for the notice next."

Saying that, he then asked Richard Chen, "Mr. Chen, do you want me to show you around the school? Get familiar with it in advance."

Richard Chen laughed, "That's too much trouble for you, isn't it, I see you have banners outside, are you welcoming VIPs?"

"Right." Director Liu laughed, "It's true that there are VIPs coming, the school's headmaster, executive vice headmaster and several other headmasters and deans have all come, even the old headmaster who has been retired for almost ten years has come over."

Saying that, he added, "But people shouldn't arrive for a while, it's just that I'll ask the security guard to drive a battery car over now, so I'll take you around nicely and visit the international student dormitory by the way, the specifications of our international student dormitory over here are still very high, all of them are two-person rooms with bed and table, Claudia should like it."

Chen Zekai looked at Ye Chen and when he saw Ye Chen nodding slightly, he smiled and said, "Good, then it will be hard for you."

Director Liu was busy saying, "Why are we still being polite! You usually don't help me much either."

A middle-aged woman pushed open the door, peeked halfway in and said urgently, "Director Liu, the VIPs will be here soon! The headmaster has asked us to hurry downstairs and wait to greet them!"

### **Chapter 5193**

Hearing the woman's words, Director Liu asked in surprise, "Ah? So soon? Didn't they say they might arrive at noon or in the afternoon?"

The woman said, "I never thought they would leave early in the night, and just now I called the old headmaster and said they were almost there! I guess it's too late to go to the entrance of the university to meet them, so I can only wait downstairs!"

The new campus of Jinling University covers an area of almost 5,000 acres, and the distance from the entrance to the Academic Affairs Building is more than one kilometre, so if a group of middle-aged and elderly people really walked there, it would take at least ten to twenty minutes.

Saying that, she hurriedly added, "Director Liu, hurry up, the headmaster told me to be downstairs in three minutes, I still have to inform the others."

After these words were said, the woman retreated.

When Director Liu heard this, he could only apologize and said to Chen Zekai, "Mr. Chen, I'm really sorry, it happened suddenly, let's come back another day, come back some other time!"

Chen Zekai smiled and said, "It's fine, you go ahead and do your work, we'll leave first, come to the Buckingham Palace some other day and get together, I'll be the host!"

Director Liu hurriedly nodded and said, "Okay, I'll definitely come to the house after I'm done with the enrollment."

He said, somewhat embarrassed, "By the way, Mr. Chen, my son found a girlfriend and suddenly told me that he had gotten married in a flash and was getting married on October 1st. I don't know if I can still get a date at the Buckingham Palace ballroom?"

The hotel rooms and banquet halls at Buckingham Palace are never sold out, so they are reserved for good friends who suddenly need them. Buckingham Palace to see me, I'll personally show them the venue, and as long as they're impressed, the space will be yours to use."

"Aiya!" Director Liu suddenly became excited and said gratefully, "Thank you so much, Mr. Chen! You've really relieved my pressing need! I'll take them both to visit Buckingham Palace this afternoon!"

The main reason is that in a year, the number of wedding days suitable for marriage may not even be one tenth, and almost everyone who has a wedding will definitely choose an auspicious day for marriage to be held, so as long as it is a good day, there can be several couples in a community to hold a wedding at the same time.

The first of October itself is a good day for national celebrations, and it coincides with the seven-day long holiday, and the weather at that time is the most comfortable time of year in most places, so there are even more people who choose to get married on this day.

When it comes to such a good day, it is very difficult to book the hotel of one's choice without starting six months in advance.

Director Liu's son is also getting married in a flash, leaving him with only two months left to book a classy hotel.

Director Liu's family had been anxious and angry about this matter. Previously, Director Liu also wanted to ask Richard Chen for help, but at that time, Richard Chen happened to be abroad, so he exchanged a few pleasantries, but when he heard that Richard Chen was abroad, he did not have the heart to ask again.

It was only when Richard Chen approached him today that he tentatively mentioned it, but to his surprise, he was able to secure the best banquet hall in Buckingham Palace, which was a perfect solution to all his problems and greatly exceeded his expectations.

Fortunately, the Ye family's Buckingham Palace has never put money first, which is why Richard Chen has kept the best rooms and banquet halls in his hands, so that he can use them as favours or to solve the needs of his connections at critical times.

## **Chapter 5194**

Naturally, Richard Chen was also willing to sell him this favour, so he said, "Contact me anytime when you're done, I'll be waiting for you at Buckingham Palace."

"OK!" Director Liu said excitedly, "Thank you so much, Mr Chen!"

"You're welcome." Richard Chen smiled faintly and said, "Since you still have things to do, we won't bother you."

Director Liu nodded, "I'll send you down just in time."

When the four of them arrived downstairs, a group of school leaders were already waiting here, after Director Liu said goodbye to the three of them, he hurriedly went over to line up, Chen Zekai looked at Ye Chen and asked respectfully, "Young master, what other arrangements do you have?"

Ye Chen said, "I have nothing more to do, first I will send Claudia back and have a meal at noon at Auntie Li's new home."

Saying that, Ye Chen added: "By the way, at that time, I brought Wan Bajun and a group of generals from the Ten Thousand Dragon Hall to save an old lady and her only son in Mexico, you should contact Wan Bajun and ask him for this old lady's home address, I will pay a visit to her in the next few days."

When Chen Zekai arrived in Mexico with Hong Wu Yi at that time, Ye Chen and the Ten Thousand Dragon Hall had already annihilated the entire Crazy Juarez, he was not very clear about the details, but his style of action was crisp and clear, so he did not ask anything and immediately agreed, saying, "Yes young master, I will contact Master Wan later."

Ye Chen nodded and said, "I'll leave first then, today is sort of a pot luck for Auntie Li and the girls, I'll go and prepare some gifts."

Chen Zekai immediately said, "Okay Young Master, I'll report back to you this afternoon after I've finished docking with Hall Master Wan on my side."

"Good." Ye Chen nodded slightly in approval, and then said to Claudia, "Let's go."

Claudia nodded obediently and sat on the passenger side of Ye Chen's BMW.

Ye Chen started the car and drove towards the school gate.

At the same time, a black Rolls Royce Phantom, escorted by three Cadillacs, slowly drove towards the main entrance of Jinling University.

Qiu Ying Shan and his wife were sitting in the back of this Phantom.

The driver in the car is Qiu Ying Shan's most trusted man, who has been with him for forty years.

The passenger seat was occupied by Lin Wan'er.

Qiu Ying Shan saw the banner hanging outside the school gate and said, "This old Xue! I told him not to flaunt it, but why did he still put up the banner!"

Saying that, he looked at Lin Wan'er and asked, "Miss, I'm afraid this is not very safe for your status, right?"

Lin Wan'er smiled and said, "It's fine, when someone of your level comes to Jinling, he should come openly, if he is really sneaking around, it will look fishy if people know about it, a person in his nineties has to hide his visit to a school he donated a lot of money to, whoever hears about it will find it strange."

Said Lin Wan'er and added, "But I won't get off the bus later, you meet up with them first and let me know when you get to talking about my schooling, I'll go up myself then."

Qiu Ying Shan agreed without a second thought and said respectfully, "Yes Miss!"

At this moment, the motorcade had already driven into the main entrance of Jinling University, and Lin Wan'er also became visibly curious at this moment, and began to look around at the school she was about to enroll in.

Meanwhile, a BMW in the opposite lane drove by from afar, and in the front row of this car sat none other than Ye Chen and Claudia!

## **Chapter 5195**

As the two cars got closer, Ye Chen subconsciously glanced towards the opposite convoy out of curiosity.

He could tell that the valuable guest from Jinling University should be in that Rolls Royce, so he focused on looking at the car more as well.

However, he didn't have any voyeuristic desire, he just took a general glance and because of the privacy film inside the car, he could vaguely see that there were four people sitting in the car.

At this time, Lin Wan'er, who had been looking left and right while sitting in the passenger seat, turned her eyes just to the right.

Through the front gear of the Rolls-Royce, Ye Chen just saw that in the opposite car, the driver was a middle-aged man of a slightly older age, the co-driver was a young girl, and in the back was an elderly couple, and the rest did not notice anything unusual.

When the two cars brushed past each other, the shortest distance between Ye Chen and Lin Wan'er was just a few meters, and even Claudia, who was sitting on the passenger side, saw the side of Lin Wan'er's face.

At this moment, she only felt that the girl's side face was so long and beautiful, an overwhelming classical beauty, just by looking at her side face, she could feel a transcendent and out-of-this-world aura.

It was just that Ye Chen had just glanced at her from afar and had no intention of looking any further at this time.

And Claudia couldn't help but subconsciously exclaim at this time, "Wow ..... that girl is so beautiful!"

When Ye Chen heard her words, he subconsciously wanted to see what was going on.

At this time, if Ye Chen had taken one more look at the Rolls Royce's cab, he would have been able to instantly recognize the side of Lin Wan'er's face that was close at hand.

But at this crucial moment, Ye Chen suddenly felt something in the right pocket of his trousers suddenly jumped violently!

Immediately afterwards, the object jumped repeatedly in his pocket as if it was alive, with a very high frequency.

This strange phenomenon caused Ye Chen to lose his concentration for a moment, and when he subconsciously looked down at his trouser pocket, he had already brushed against the Rolls-Royce, the whole process, in just a second or two.

Ye Chen reached into his trouser pocket and touched the ring that Lin Wan'er had given him when he was in Northern Europe.

At this moment, the ring was still vibrating slightly in Ye Chen's hand, but the vibration was getting smaller and smaller until it finally stopped completely.

Ye Chen stopped the car with a kick of the brakes and examined the ring again, thinking in his heart, "This D\*mn thing has been on my body for so long, I have fed it so much spiritual energy, it hardly reacted, why is it suddenly moving now?"

When Claudia at the side saw Ye Chen stop and pull out another ring and frown at it, she couldn't help but ask, "Brother Ye Chen, what's wrong with you?"

Ye Chen frowned but said casually, "Oh ..... don't know who put a ring in my pocket."

Claudia was busy saying, "Maybe it was put there by sister Churan?"

Ye Chen deliberately nodded, "It's also possible, wait for me to go back and ask her."

As he said this, Ye Chen thought again in his heart, "Strange ..... how come this ring moved a few times and then didn't move again? Should I input some more aura to test it out?"

The moment he thought of this, Ye Chen thought of something, his face suddenly changed and he said in his heart, "Nima, this thing is not going to cheat me of my spiritual energy again, right? It knows I'm not happy, so it's making a small move to arouse my curiosity and further cheat me out of my aura ....."

Thinking of this, he hurriedly put that ring back into his pocket, recalling the powerless feeling of having his aura drained several times, he secretly swore, "Don't worry, I won't fall for your trick again!"

In fact, Ye Chen did not know that the reason why the ring suddenly seemed to have awakened was actually because it had sensed Lin Wan'er's presence.

This ring was not an ordinary item, and it had been Lin Wan'er's personal belongings, so there had already been some kind of induction between it and Lin Wan'er.

## **Chapter 5196**

But Lin Wan'er had no aura, so this sensing was one-way,.

That is to say, only the ring could sense Lin Wan'er, but Lin Wan'er could not sense the ring's presence.

Originally, there was a high probability that Ye Chen could see Lin Wan'er, but it was because of the ring's sudden vibration that caused Ye Chen not to see Lin Wan'er, and Lin Wan'er not to see Ye Chen either.

But Lin Wan'er, whose intuition was spot on, didn't know what tugged at her heart the moment the BMW flashed by on her left and immediately subconsciously glanced back, but she only saw the car that was already far away and didn't notice anything unusual.

She thought it was her own look that was a little too sensitive, so she didn't take it to heart for a hundred years.

Ye Chen, who was inside the BMW, had by now put away the ring again and said to Claudia, "If you don't have anything to do, let's go around the city and buy a present before we go back."

Claudia hurriedly nodded, "I'm fine, listen to brother Ye Chen."

So the two drove to the shopping mall in the city centre.

On this side, Qiu Ying Shan's motorcade also came to a slow stop in the square outside the Academic Affairs Building.

The old retired president of Jinling University, along with the current school leaders, were already lined up here waiting.

Two of them came to the back of the Rolls Royce, one left and one right, and opened the doors on both sides.

Qiu Ying Shan then slowly stepped out of the car with his wife, one left and one right.

Due to their advanced age, the bodyguards immediately handed the two a cane, while Xue Zai Zhou, the old president of Jinling University, was the first to greet them with excitement and said warmly, "Mr Qiu, welcome to Jinling University again!"

Qiu Yingshan said with a smile, "Old Xue, I told you to keep a low profile, why are you still making such a big show?"

Xue Zai Zhou said, "Mr. Qiu, you haven't come back for so many years, and this time you suddenly said you were coming over, so I had to greet you personally.

He said, "I know Xue Zai Zhou very well, he is a man who acts in every way, and he speaks in a very good way, he made such a big show, and said that everyone came to greet him spontaneously, he not only set aside his own responsibility, but also praised Qiu Ying Shan.

So, Qiu Ying Shan also stopped dwelling on this issue and just said with a smile, "I haven't been here for so many years, I really feel that it has changed a lot since I entered the campus just now, and it is worthy of being a double-cla\*s university in China, which can really make people feel the distinctive aura."

Xue Zai Zhou nodded and said with a smile, "Jinling University could not have become a double first-cla\*s university without the support and help of the state, and also without your generous donation, Mr Qiu, it was you who gave Jinling University enough ammunition to stand out in those days when money was most scarce!"

Qiu Yingshan said seriously, "I acknowledge both of the points you just mentioned, but I think that it is even more indispensable for Jinling University to have such development because of the hard work you and all of you have done!"

As for me, I'm just a businessman who smells of copper, so apart from donating some money, I can't help much else.

Xue Zai Zhou said with a smile, "Mr. Qiu, you are getting more and more modest. I think, let's not brag about each other here, why don't I show you around and introduce you to the progress and improvement of Jinling University nowadays compared to before!"

He added, "We have also arranged a debriefing session later, so that the current management team can report back to you on their work so far!"

Qiu Ying Shan smiled faintly and said, "Good, then let's take a look around first!"

The two of them, accompanied by the university leaders, took a tour of the campus by electric car.

At the same time, Lin Wan'er pushed her way out of the Rolls Royce when there were no university staff around.

The driver also hurriedly pushed the door down and followed Lin Wan'er in silence.

Lin Wan'er looked back at him and said indifferently, "I want to walk alone, you don't have to mind me."

The driver busily said, "Miss, Master told me to make sure to protect you, it's best if you don't walk around by yourself."

"It's alright." Lin Wan'er smiled, "I'll just take a casual look, I won't go far."

## **Chapter 5197**

The architectural design of Jinling University as a whole is still very elaborate.

Because it is the ancient capital of the Six Dynasties, the cultural heritage of this place is very deep, so when the new campus was built, it also took full account of the local cultural characteristics of Jinling, and the overall modernity with a bit of ancient simplicity and solemnity made Lin Wan'er's eyes shine.

As she wandered around the campus, she suddenly saw the lush hills not far away and murmured, "That must be Qixia Mountain ..... It really is better to be known than to see ....."

After saying that, she didn't know what came to her mind, and those absolutely beautiful eyes were suddenly covered with a slight mist of sorrow.

The first time I saw a woman, I had to go through the campus of Jinling University, and in the middle of the tour, Qiu Yingshan found an opportunity to pull the old headmaster, Xue Zai Zhou, aside and said, "Old Xue, there's something else I need to ask you for this time."

Upon hearing this, Xue Zai Zhou said, "Old Mr Qiu, why are you so polite to me? I want to repay you for your kindness, but I never thought I would have the opportunity to do so until I retired.

Although Xue Zai Zhou was very good at talking, these words were not exaggerated in any way.

He had been retired for many years, his retirement life was full and rich, and his children and grandchildren were all extraordinarily competitive, and at his age, he no longer needed to please anyone against his will.

At his age, he no longer needed to ingratiate himself with anyone, and he really admired and appreciated Qiu Yingshan from the bottom of his heart.

In those days, it was very rare to be able to give so much money to help develop a university in China, and Xue Zai Zhou always remembered this.

When Qiu Yingshan saw Xue Zai Zhou's sincere expression, he said, "It's not really a big deal, it's just that the great-granddaughter of one of my distant cousins has just graduated from secondary school in Malaysia this year. ask me to contact her and see if Jinling University can accept her."

Xue Zai Zhou was surprised and asked, "Mr. Qiu, is this the ..... thing you are talking about?"

"Yes." Qiu Yingshan nodded, "I am hoping that she can come to Jinling University for her undergraduate studies."

Xue Zai Zhou said without thinking, "Simple, I'll take care of this, I'll say hello to Qin Yun later, this kind of thing is just a matter of raising a hand."

Qiu Ying Shan smiled faintly and said, "That's good, then I'll be able to go back and give my report."

Xue Zai Zhou asked, "When does the child plan to come over?"

Qiu Ying Shan said, "She's already here, she didn't get off in the car just now, this little girl is quite withdrawn and doesn't like crowds."

"Understood." Xue Zai Zhou nodded and spoke, "Let's do this, let's go back to the teaching building after the tour later and settle the matter of the child's schooling first."

"Good!" Qiu Ying Shan said with a smile, "Then it will be hard for you to make the arrangements!"

Lin Wan'er had been looking at Qixia Mountain for a long time, and her whole body had been in a trance, until she suddenly received a message on her mobile phone, which brought her thoughts back to reality.

She opened her phone to see that the message was from Qiu Ying Shan and read, "Miss, please move to the Admissions Office on the fourth floor of the Academic Affairs Building, I'll be waiting for you in the Director's office."

"Okay." Lin Wan'er replied with a word, then glanced at Qiu Xia Shan again and turned around to go back to the Academic Affairs Building.

She made her way lightly to the fourth floor, found Director Liu's office, knocked on the door, and when she didn't hear anyone speak, she saw a middle-aged man diligently open the door.

This man, who had been guarding the door, was the owner of this office, Director Liu.

## **Chapter 5198**

Interestingly, at this moment, Director Liu, however, was standing nervously at the door like a follower's attendant.

On the sofa that Ye Chen had just sat on, sitting at this moment, were Qiu Ying Shan and his wife, the old headmaster Xue Zai Zhou and the current headmaster Zhang Qin Yun.

When he saw Lin Wan'er enter, Qiu Ying Shan said with a smile, "Come, let me introduce to you all, this is my distant cousin's great-granddaughter, Lin Xiaowan."

After saying that, he also said to Lin Xiaowan, "Xiaowan, come and meet Principal Xue, Principal Zhang, and that one is Director Liu from the Admissions Office."

Lin Xiaowan just looked at the three of them and nodded gently, not speaking.

Luckily, Qiu Ying Shan had already given everyone a precautionary warning earlier, saying that Lin Wan Er was aloof and did not like to talk, so no one minded in any way.

The current headmaster, Zhang Qin Yun, said enthusiastically, "Miss Lin, I've asked Director Liu to prepare an introduction to all our faculties and departments as well as majors at Jinling University, so take a look at them first and see which subject you are interested in."

Lin Wan'er continued to nod slightly, with the air of a wealthy young lady who was arrogant as well as unconcerned.

But Qiu Ying Shan was too big after all, and his distant cousin's great-granddaughter was certainly not far behind in wealth, so everyone had a preconception that she was extraordinarily understanding of this state of affairs.

Director Liu, on the other hand, hurriedly handed all the information he had just shown Claudia, to Lin Wan'er again, and said with a smile, "Miss Lin, the information is all here, I just sorted it out today, please look through it."

Zhang Qin Yun couldn't help but praise, "This director of our admissions office is still very dedicated and responsible, the information was put together early."

Director Liu smiled modestly and thanked Chen Zekai again in his heart, thinking to himself, "These two groups of foreign students enrolled back and forth, it's really a coincidence, if Mr. Chen hadn't come one step ahead, I'm afraid it would have taken me some time to sort out these materials on the fly."

Lin Wan'er took the information and quickly flipped through it, she actually had no interest in going to school and wasn't sure how long she could stay in Jinling.

However, since she had chosen to study at Jinling University as a student, she definitely had to choose a major.

Lin Wan'er went through the subjects and found that only history was of some interest to her.

Combined with her love for blue and white porcelain, she pulled out the introduction page of the archaeology major and said indifferently, "Let's take this one."

When Director Liu took a look, his eyes widened and he exclaimed, "Archaeology again? The archaeology major looks like it's going to turn over this year ....."

Lin Wan'er frowned at him and asked, "Where does 'again' come from?"

Director Liu said heartily, "I'm not going to lie to you, Miss Lin, a few minutes before you arrived, I had just admitted an international student from Canada, also a girl, who liked mixed blood, and she chose

the archaeology major ..... I even advised her at that time that the archaeology major was really cold and future employment was a big problem, but she didn't care at all and was determined to choose this major. But she didn't care at all, she was determined to choose this major ..... Now you are also going to choose this major, in the future, with you two in the archaeology department, I am afraid that the archaeology department will become the focus of the whole school .....

The two of you are both from overseas, if you feel like getting along, you can get in touch with each other more after the school year starts, and you might become friends."

Lin Wan'er skimmed a glance, smiled and shook her head, "No need, I don't really like making friends."

"Oh, that's fine ....." Director Liu smiled sarcastically and put Claudia's application form back.

Lin Wan'er, however, suddenly saw something at that moment and blurted out, "Wait a minute!"

### **Chapter 5199**

When Director Liu heard Lin Wan'er's voice, his body was stunned and he hurriedly asked her, "Miss Lin, what's wrong?"

Lin Wan'er pointed at the application form in his hand and said, "Can you show it to me?"

Director Liu said without a second thought, "Of course!"

With that, he handed the application form to Lin Wan'er, but in his heart he was sighing, "I wanted to show it to you just now, but you said it was not necessary ..... Young people at this age are really fickle."

Lin Wan'er took Claudia's application form, her eyes appeared to be browsing through her personal information, but the rest of her eyes and attention were focused on the emergency contact section.

In the space in that column, there were two Chinese characters that had been haunting her all this time, Ye Chen!

In addition to the word Ye Chen, there was also a series of 11 digits, which Lin Wan'er knew must be Ye Chen's phone number in China.

At this moment, Lin Wan'er felt her breathing suddenly rush up and her heartbeat suddenly speed up a lot.

She was always at ease and as quiet as a virgin, but for the first time, she felt this kind of excited tension, and fine beads of sweat seemed to have emerged from her soft palms.

At this moment, she did not know if this Ye Chen was the Ye Chen she was looking for.

However, she felt that seeing Ye Chen's name right after she arrived in Jinling, in the dark, seemed to be like divine help, or heavenly destiny.

So, her intuition could almost conclude that this Ye Chen, should be called the same Ye Chen she was looking for!

So, she immediately memorised Ye Chen's mobile phone number and quickly tried to recite it several times, and after confirming that she had memorised the eleven digits by heart, she then wrote down Claudia's mailing address.

Afterwards, she handed Claudia's information back to Director Liu without showing her face and said casually, "We are both leaving our hometowns to study in Jinling, so having more friends is one more way."

She then asked Director Liu, "Does this girl live at school?"

Director Liu was busy saying, "She should check in, but most of the time she should be studying on foot, she has relatives in Jinling, so she should usually stay at their house."

"Understood." Lin Wan'er said, glanced at Qiu Ying Shan and spoke, "My cousin's great-grandfather does have a property in Jinling, but I probably won't be bothered to go there often, so why don't you also give me a residential school, so I can be more flexible in the future."

Director Liu laughed and said, "That's right! Our international student dormitories are all two-person rooms, why don't I put you and this girl of mixed race in the same dormitory? You and she are already in the same major, and the order of registration is also next to each other, so they would normally be placed together."

"No problem." Lin Wan'er agreed readily and smiled, "It's settled then."

After saying that, she remembered something and added, "Oh yes, please don't tell this girl that I have read her profile and plan to share a dormitory with her, in case word gets out, people might think that I have other intentions and it might not be natural to make friends with her in the future."

Several of the school leaders hastily agreed.

After all, this was Qiu Ying Shan's distant great-granddaughter, and for her to come to Jinling with Qiu Ying Shan and for Qiu Ying Shan to personally entrust her to the school, several people attached extra importance to her, and since she had said so, everyone would naturally respect her wishes.

Lin Wan'er finally breathed a sigh of relief as she smiled faintly and said to several people, "Then you all chat first, I'll go down and have a look around first."

Saying that, she also said to Qiu Ying Shan, "Grandpa Zeng, if there's nothing else, I'll go down first."

Qiu Ying Shan instinctively wanted to stand up to pay his respects, but fortunately, his wife quietly tugged on the hem of his coat, so he came back to his senses and hurriedly said, "Alright, then you can go down and have a look around first."

## **Chapter 5200**

Lin Wan'er nodded, and then turned around and left the door.

Leaving the office, the corners of Lin Wan'er's mouth immediately lifted to the sides, and two shallow pear swirls appeared on her face, her beauty unmistakable.

In her heart, she was thinking about how she should make a final check to make sure that the Ye Chen on the application form was the Ye Chen she was looking for.

In her mind, she thought, "The best way would be to give Ye Chen a call and listen to his voice, I still remember his voice, as long as he speaks, I will be able to recognise it."

However, she did not dare to call by herself, if she did, she might be heard by Ye Chen.

However, if she called herself and did not speak, it might sound feasible, but it would seem a bit bizarre, and in case Ye Chen thought about it one more step, he might figure out that it smelled unusual.

So, after thinking about it, she thought that she should find another person to call Ye Chen, and that she should make up a reasonable set of words so that Ye Chen would not have any suspicion after answering the phone.

So, she hurriedly went downstairs and, in the motorcade, found the Qiu family housekeeper who had gone to the airport to pick up the plane earlier.

This housekeeper, who had been helping Qiu Ying Shan take care of his estate over here in Jinling, had chosen the most attentive female housekeeper from the Malaysian housekeeping team to come over because Qiu Ying Shan's wife had grown up in Jinling and had a deep affection for the place.

Lin Wan'er had seen the face of this housekeeper and she was a loyal and honest person.

So she went straight to the housekeeper and spoke, "Sister Xian, can you do me a favour?"

Sister Hien was a middle-aged woman of about fifty, of Cantonese provincial ancestry, who had worked with her parents in the Qiu family since childhood and was still all alone in her fifties.

It was said that she and her family had experienced a turmoil in Southeast Asia back then, and the family had nearly died in a foreign land. It was Qiu Ying Shan who brought the family of four to Malaysia and gave them a stable life and job, so Sister Xian's parents, as well as her sister, were very devoted to the Qiu family, and her sister was now working for the Qiu family as well.

Seeing that Lin Wan'er had asked for her help, the housekeeper said respectfully, "If you need anything, Miss Lin, just ask!"

Lin Wan'er asked her, "You must have a local mobile phone number in Jinling, right?"

Sister Xian was busy saying, "Back to Miss Lin, I have a local mobile phone card for Jinling and also a Malaysian mobile phone card in my mobile phone."

Lin Wan'er nodded and instructed, "It's hard for you to make a phone call for me with your Jinling mobile phone number, when the call comes through, just tell him that you are going out soon and ask him to put the courier at the property centre and you will pick it up yourself when you get home, he will definitely tell you that you have dialed the wrong number, just say that you are sorry that you might have entered the wrong number and then hang up the phone and that's it."

"Okay." Although Sister Xian did not understand Lin Wan'er's intention, she still nodded very respectfully, then took out her mobile phone and said to Lin Wan'er, "Miss Lin, please say the number."

Lin Wan'er said, "Let me lose it."

Sister Xian hurriedly handed the phone to Lin Wan'er, who then entered Ye Chen's mobile number on it.

Afterwards, she handed the phone back to Sister Xian.

Sister Xian took the phone and pressed the dial button, and after hearing two beeps, Ye Chen's voice came from the phone, "Hello."

Just these three words caused Lin Wan'er's dark eyes to instantly shine with a different look.

It was these three words that made her certain that the person on the other end of the phone was the same Ye Chen who had saved her life in Northern Europe!
