

Ye Chen 5361

Chapter 5361

If one were to refine medicine with aura, it would be like smelting iron for the ancients. Although one could barely reach the temperature needed for smelting iron by using high heat charcoal with a bellows, the quality of the smelted iron would still be much inferior to the high temperature blast furnaces of modern industry because the temperature was not sufficient.

And this medicine pot is the equivalent of a blast furnace in modern iron smelting!

The same iron ore, if used in the most primitive way, the iron refined can only make some swords at most, but if smelted from a modern blast furnace, the steel can be used to make aircraft cannons, or even aircraft carriers.

Moreover, to refine pills with bare hands, one can only refine some low grade pills, once it reaches the middle and high grade, one must have a pill censer to be able to refine it, so this thing also has great significance to Ye Chen's future development!

At this moment, Ye Chen's heart was naturally overjoyed.

However, he was also a little curious, this Hong Changqing was just a Daoist who practiced martial arts, and had no spiritual energy at all, so how could he use this pill censer to refine pills?

Thinking of this, Ye Chen couldn't help but ask, "Heavenly Master Hong, I'm curious to ask you, what do you usually use this for?"

Hong Changqing's pair of eyes stared straight at the medicine pot, his eyes full of reluctance and pain, and he muttered under his breath, "I usually use this medicine pot to refine some soup pills, or introductory pills."

Ye Chen asked, "Do you know how to use it, or to be more blunt, how do you use it?"

Hong Changqing explained, "Just add some charcoal to the bottom of the cauldron, then pour the herbs and water into the inside of the cauldron and boil it with a gentle fire Actually, it's the same as using a casserole to cook Chinese medicine"

"With charcoal fire?" Ye Chen was stunned and turned over the three-legged medicinal censer in his hands, and indeed, he saw traces of blackening by charcoal fire at the bottom, and it looked like it had been smoked by charcoal fire for not just a few years or decades, but perhaps even for hundreds of years.

Ye Chen couldn't help but think in his heart, "Damn, these silly Daoist priests of Tai Zhen Dao, to use charcoal to burn a magic weapon, what a waste!"

Thinking of this, Ye Chen asked again, "Could it be that your ancestors of the Tai Zhen Dao all used this medicinal censer with charcoal fire to refine pills?"

"Right." Hong Changqing subconsciously said, "That's how the pill cauldron was originally used, ah, if this medicinal material is not boiled with water and fire, how can there be any other way to refine it into a pill? Is it hard to use the Three Flavours True Fire as they say in mythology?"

Ye Chen couldn't help but laugh dumbly.

It seemed that this Tai Chen Dao had also obtained this pill censer by chance and had no idea how to actually use it.

From this, it could also be seen that in the thousands of years of history of the Tai Chen Dao, with so many generations of heirs, no one had been able to master the aura, which was indeed a bit sad when one thought about it.

However, Ye Chen could not help but wonder in his heart, "Since so many people in the Tai Chen Dao did not know the actual usage of this Medicine Cauldron, then why did they worship this Medicine Cauldron as the treasure of the sect?"

Thinking of this, Ye Chen deliberately asked Hong Changqing, "Like this medicinal censer of yours, what is the difference between it and the casserole used by ordinary people to cook medicine? If you say it's beautiful, it's not the best-looking bronze vessel, and if you say it has any other heritage value, it doesn't even have a mark on it, so even if it's old, it won't fetch a high price, so why do you still treat it as a school treasure? Is there some secret in it that outsiders don't know?"

"This" Hong Changqing originally did not want to say, because it was, after all, an untold secret of the sect.

But then he thought, "But fuck it, the tripod is fucking gone, what's the secret of the division" I might as well give up the truth with this son of a bitch named Ye, maybe I can even get a little bit of favourable treatment from him in return"

Thinking of this, he immediately blurted out, "Master Ye, the magic of this medicine pot is not in simply cooking the medicine! But rather, you take the same prescription, the same herbs, the same amount of medicine, put in it and other vessels together to boil, the medicine cooked with it, in terms of medicinal effect, is to be stronger than the medicine cooked in other vessels, a cut above!"

Chapter 5362

Hearing Hong Changqing's answer, Ye Chen couldn't help but ask with some curiosity, "Using a civil fire to cook the medicine, it cooks it out stronger than the others?"

"Right!" Hong Changqing nodded his head repeatedly and explained, "And this kind of strong comes very magical, whether you use it to cook soup pills or use it to boil medicine clay to make pills, it can make your final finished medicine, more potent!"

Saying that, Hong Changqing added: "You can say, for example, that if I were to prescribe a prescription now, which can nourish yin and tonify yang and revive a man's virility, if you were to boil it in an ordinary casserole, it might take three days and nine pairs of pills to take effect, then the medicine boiled in this medicine pot would only take two days and six pairs to have the same effect."

When Hong Changqing said this, he was already a little excited and explained with devotion, "This is not the most important thing, the most important thing is that this medicine will also undergo a qualitative change!"

“Let’s take those seventy-years-old and eighty-years-old male tycoons, the same medicinal formula, if he doesn’t use this medicinal censer to boil, he just drink it for a month straight, he can at most achieve night and day, but the quality of this night and day, that is, this degree of rejuvenation ah, he can only reach sixty points, that is, barely pass;”

“But if he drinks the medicine from this pot, not only will he be able to sing night and day, he will be able to revive his virility to the extent of seventy, or even seventy-five points! This is very powerful! Not only has it concentrated the medicinal effects, it has also sublimated them.”

As Chen Xiaozhao listened to his serious presentation, she could not help but blush and spit in a low voice, “Yuck! Lascivious monk and demon! Disrespectful for the old man!”

Hong Changqing was embarrassed for a moment, he hurriedly explained, “Gentlemen I didn’t mean anything else, just a casual analogy”

Ye Chen knew that people like Hong Changqing, don’t look like he was very strong and a disciple of the Daoist sect, but he was actually still very worldly and only thought of using what he had learned to cater to the powerful and noble, just like those so-called high priests who were keen on preaching for the rich and famous stars.

On a day-to-day basis, he must have come into contact with the rich and powerful, who, having reached the peak of their material life, must have entered the stage of seeking youthfulness in old age, health in sickness, virility in impotence and rebirth in death, and someone like Hong Changqing was a high achiever who could, to a certain extent, satisfy these needs, so he must have some means in this regard.

However, Ye Chen did not care about this, what he cared about was that this medicine censer could have a certain enhancement effect even if the medicine was cooked with a civilian fire, so I guess its magic was not only in the internal formation, but even in its special material.

If that was the case, if he used spiritual qi to refine pills, wouldn’t he be able to get the double boost of the material and the formation?

Thinking of this, Ye Chen’s heart became even more excited, and looking at Hong Changqing’s obsequious look, he was not as disgusted as before, so he asked him, “Right, what services do you usually provide for those powerful people?”

Hong Changqing said truthfully, “Master Ye, what I can provide are only healing of the living, supernatural treatment of the dead, body strengthening, body cultivation, secret feng shui techniques, fortune telling and dream interpretation, among which the most popular ones are healing of the living and body strengthening. fame, so for a long time, it mixed a name of the Heavenly Master ”

Ye Chen nodded and asked, “I heard that you are familiar with the An family in the United States?”

Hong Changqing said without thinking, “Yes The old lady of the An family started to convert to Taoism twenty years ago, it was one of my clients who introduced her at that time, and she became a resident of Tai Chen Tao, besides often giving sermons for her deceased daughter and son-in-law, she also often asked me to help with divination, as if she was trying to find that grandson of hers s whereabouts”

Ye Chen looked stunned, his heart could not help but be a little moved, and then asked him, "Did you divine for her?"

Chapter 5363

"Divination" Hong Changqing said awkwardly, "I am more or less proficient in divination, but her grandson's name and birth date combined together, but I can't figure out what's going on, so it's really strange."

When Ye Chen heard this, he could not help but secretly shake his head, even Lai Qing Hua, a person who had studied feng shui secret arts all his life, could not even calculate his own information, let alone Hong Changqing, a half-baked Taoist priest, the grandmother must have been deceived by his name of Hong Tian Shi, thinking that he was really some kind of worldly master.

However, let Ye Chen look at it objectively, Hong Changqing was already a high level person, this person had to study Daoism, run a Daoist sect, and train hard in martial arts, but even so, he was not only able to reach the strength of an eight-star martial artist, but also mastered a certain amount of medicine and divination, and even ran a "Hong Tian Shi" sign for himself. "This is proof that he is a very intelligent and gifted person.

If it were any other martial artist, even if he spent all his life practising martial arts, he would not be able to reach the height of an eight-star martial artist.

At this moment, Hong Changqing thought that Ye Chen was asking about the An family, and then he thought that Gu Qiuyi had saved the An family's old man with the pills he had given her, so he thought that he wanted to make friends with the An family, so he quickly said solicitously, "Master Ye, the An family's old lady even spoke to me on the phone a few days ago, she said that she would be coming to Jinling some time later, if you want to get acquainted with the An family, I can help. If you want to get acquainted with the An family, I can help you make a connection."

Ye Chen frowned: "You said that Old Lady An is coming to Jinling?"

"Yes." Hong Changqing said, "It's not just the old lady, the old man and the rest of the An family will also be coming over, anyway, the old lady did say so on the phone, and she knew that I had come to Jinling one step earlier, so she said hello to me and asked if I had found anything in Jinling."

Speaking of this, Hong Changqing suddenly thought of something and suddenly realized, "Oops, oops! I'm the one who's been so naive! With Master Ye's magical powers, if you wanted to get to know the An family, how would I need my help" I guess the An family came to Jinling just to find you, after all, it was your pills that saved the old man's life! The odds are that they are coming to Jinling to seek revenge on you!"

Ye Chen's heart tangled up for a moment.

He also knew very well that if Grandpa and Grandma came to Jinling, their purpose must be to find themselves.

Only, Hong Changqing did not understand the details and did not know that he had a triple identity with the An family.

The first identity, naturally, was that of the grandson of the An family.

The second identity, that of the An family's saviour at Gu Qiuyi's concert.

As for the third, it was the true owner of the Blood Dispersing and Heart Saving Pill.

Hong Changqing thought that the An family had come to find his third identity, but Ye Chen knew very well that his grandparents must have come to Jinling with the intention of finding his first identity!

They must have wanted to start from Jinling and search for their whereabouts again.

Thinking of this, Ye Chen couldn't help but feel a little apprehensive.

He was not yet ready to identify with his grandparents' family.

What's more, the Qing Breaking Society had a big enemy ahead of them, and he didn't want to add to the trouble before then.

He himself had just begun to touch on the peripheral forces of the Qing Breaking Society now, and had not yet traced his path upstream along the copper mines in Cyprus, and the smelters in Turkey.

At times like this, Ye Chen would prefer to be able to develop in a low profile in Jinling, enhancing his strength and power at the same time.

If the An family came to his door at this time, on the one hand, they would probably find their trail in Jinling, and on the other hand, this move of theirs would definitely draw the attention of the Broken Clear Society!

Chapter 5364

Frankly speaking, Ye Chen did not want his grandparents to come to Jinling.

However, he also understood that this matter might not be within his control.

After thinking again and again, he looked at Hong Changqing in front of him and suddenly had a plan in mind and spoke, "Send a message to the old lady right now and tell her that you have done a fortune reading for the An family and think that there is a great omen for the An family to come to Jinling this time, so she should consider it carefully and better withdraw this decision."

Hong Changqing was surprised and asked, "Master Ye If the elixir Miss Gu took that day was given by you, then why did you avoid the An family?"

Ye Chen said indifferently, "I have my own considerations, no need for you to say more."

Hong Changqing nodded resentfully, but the next moment, his eyes flickered and he suddenly remembered something and blurted out, "I remember now! That Miss Gu, she's not just a star she has another identity, she's the fiancée of that grandson of the An family!"

After saying that, he looked at Ye Chen with wide eyes and said in horror, "Could it be that could it be that you are the long-lost grandson of Old Lady An, Ye Chen?!"

Hearing Hong Changqing's words, Ye Chen was slightly stunned, he did not expect that this Hong Changqing would know his name and could guess his identity.

However, he did not cover up anything and spoke directly, "You guessed correctly, I am Ye Chen."

"My goodness!" Hong Changqing only felt a dizziness in his brain, and then he hurriedly said, "Master Ye, you see this matter has become a big deal We are just a big water rushing to the Dragon King Temple, and the family does not know the family!"

Ye Chen said in a cold voice: "Who is family with you?"

Hong Changqing said, "Master Ye, I have a close personal relationship with your grandmother, and she has asked me to perform many spells over the years, all for you! Either to pray for you or to show you the way, I've even done pujas to retrieve your file from the Underworld to see if you are still alive"

Ye Chen sneered, "You can still talk to the hell of the underworld?"

Hong Changqing smiled sarcastically, "Aiya, religious rituals religious rituals how can I have that ability, to be frank, it's just a formality to help your grandmother and give her a psychological comfort! I have always told the old lady that this grandson of yours is not ordinary.

At this point, Hong Changqing said with a smile, "Master Ye, to be honest, I, Hong Changqing, have been working for you for many years, so even if I didn't get any credit, I did get some hard work, right? Even if there is no hard work, then I have been practicing divination for so many years, there is always fatigue"

Ye Chen said indifferently, "You should not talk such nonsense here to get close, now do as I said and send a message to my grandmother."

Hong Changqing did not dare to be slow, he hastily took out his mobile phone and sent a message to the old lady, the message read: Old lady An, I have just started a trigram, the trigram shows that if you and your family come to Jinling in the near future, there is a great omen of evil, to be cautious, I would suggest that you and your family wait for a while.

As soon as the message was sent, the old lady's phone call came immediately afterwards.

Hong Changqing looked at Ye Chen and asked tentatively, "Master Ye, do you think I should answer it or not? If I do, what should I say?"

Chapter 5365

Ye Chen then said, "Answer! After you answer, you should say the same thing, that it is not appropriate for them to come to Jinling in the near future!"

Hong Changqing nodded his head and picked up the phone, while at the same time very sensibly turning on the speaker.

On the phone, Ye Chen's grandmother's voice came through and asked in an anxious tone, "Master Hong, in your message just now, you said that there was a great omen for us to go to Jinling, I wonder what the situation is?"

Hong Changqing could only talk nonsense, "I read the stars at night and did a trigram for the An family, and the trigram showed that Jinling is very bad for the An family, so I'd better not come over in the near future."

Mrs. An pondered for a moment and said seriously, "Master Hong, the An family is already making preparations to go to Jinling, this time to find my grandson who has been missing for twenty years. calamity?"

Hong Changqing looked at Ye Chen awkwardly, then said stiffly, "Old Madam, it's not that someone from Hong is not well learned, it's just that the evil omen you encountered this time is too strong, and it's beyond the strength of someone from Hong to solve"

Old Madam An fell into silence.

Hong Changqing hastened to strike while the iron was hot and said, "Old Madam An, in my opinion, the best thing for you to do now is to shelve your plans to come to Jinling for the time being and wait for some time to see what happens.

The old lady on the other end of the phone said, "I appreciate your kindness, but the An family still has to go to Jinling."

Hong Changqing hurriedly said, "Old Madam An, you must consider this matter carefully!"

Old Mrs. An smiled faintly and said seriously, "I'm not going to lie, the An family experienced an unprecedented crisis in the United States some time ago, but fortunately, a benefactor stepped in and saved the lives of everyone in the An family. I believe this is also the luck brought to me by my eldest grandson in the underworld, we went to Jinling this time to find him, and I believe he will also be able to bless us with good fortune."

"This" Hong Changqing was at a loss as to how to continue his persuasion, for he could hear that although the old lady was smiling as she spoke these words, her tone was so resolute that she certainly could not be persuaded with just a few words of her own.

So, he looked at Ye Chen with a questioning look, wondering if Ye Chen had any solutions or any new instructions.

Hearing his grandmother's words at this time, Ye Chen could not help but sigh silently, and then waved his hand to Hong Changqing, signalling that the matter was over.

Hong Changqing then said to the old lady, "Old Madam An, since you insist, then I, Hong, will not discourage you much, when you all arrive in Jinling, you must not forget to contact me, Hong!"

"Good!" The old lady said with a smile, "Then, Master Hong, we will see you in Jinling."

Hong Changqing said repeatedly, "Yes old madam, see you in Jinling!"

After hanging up the phone, Hong Changqing said with a helpless expression, "Master Ye, I really tried my best"

Ye Chen waved his hand and said indifferently, "It's alright, I don't blame you."

After saying that, Ye Chen looked at Hong Changqing and asked him, "I wonder what Master Hong Tianshu is planning to do now? You wanted to come to me now that you have found me, shouldn't you also prepare to prepare to go back to America?"

Chapter 5366

“Back to America?!”

When Hong Changqing heard this, his eyes were on the verge of bursting into tears.

The first thought that flashed through his mind was excitement.

After all, Ye Chen was willing to let himself go back to the United States, which meant that he would not take his life and would not imprison him.

So he asked with unbridled excitement, “Can I?”

As Ye Chen looked at his excited look, he could not help but laugh a few times in his heart.

In fact, he wasn't prepared to kill Hong Changqing, he was just playing a bit of tricks with Shi Tianqi, which was underhanded, but not a crime worthy of death.

What's more, he had given away the medicine pot, albeit reluctantly, but he was willing to gamble and accept defeat.

Besides, he had a personal relationship with his grandmother, so if he met her in the future and talked about her as a friend, and he ended up being killed or imprisoned in the dog farm, it would be a bit unjustifiable.

Moreover, he was in need of help at the moment, and it would be good to have an old Taoist who had been in North America for so many years and was known in high society as “Master Hong”.

So he asked Hong if he wanted to go back to the US, just to test the waters a little. He guessed that if Hong was really smart, he would not take the opportunity to return to the US at this time.

Sure enough.

As soon as Hong Changqing said ‘May I’, the next second, his heart suddenly wanted to die with aggression.

He couldn't help but think in his heart, “Damn it, I came all the way here to find Ye Chen, hoping to get a powerful elixir to take my strength to the next level, or to learn more powerful alchemy from Ye Chen, so that I could find a chance to make some powerful pills myself, but who would have thought that I wouldn't be able to find a chicken and learn the art of alchemy? If I were to leave like this, wouldn't I be losing more and more money?”

However, he did not dare to say that, he just stammered and could not say anything.

Ye Chen laughed at this moment, “Let's do it this way, Master Hong, although you voluntarily gave me this medicine censer, but I, as a person, don't like to owe people favors, so why don't I arrange a special plane for you and send you back to the United States this afternoon, and you also tell my grandmother in advance that you have other plans to go back, so you won't wait for them here.”

After knowing that Ye Chen was not prepared to kill himself, Hong Changqing was suddenly unwilling to just leave, so he could only say resentfully, “Master Ye, I'm not going to lie to you, I've focused on

seclusion these years, I don't have time to take care of Tai Zhen Dao, the talent within Tai Zhen Dao has withered, there is nothing left to run, so I so I

Speaking of this, Hong Changqing also did not dare to voice the thought that he intended to stay in Jinling for the time being.

Ye Chen saw him so for half a day, but also did not so what the result, so he smiled and asked him, "Are you trying to say that there is no point in going back, so you intend to stay in Jinling for a while first?"

As soon as Hong Changqing heard this, he was overjoyed and subconsciously slapped his thigh, "Master Ye is right! That's what I mean!"

After saying that, he looked at Ye Chen with apprehension, waiting to bring Ye Chen's statement.

Ye Chen was not angry at this time, but smiled slightly and said, "Master Hong, listen to me and see if this is right."

Hong Changqing busily said, "Master Ye, please speak!"

Chapter 5367

Ye Chen nodded and continued, "Look, the purpose of your visit to Jinling is to find out who made the two pills, the Spring Return Pill and the Blood Dispersion Pill, and now that you have succeeded in finding me, hasn't the purpose of your visit to Jinling been achieved?"

Hearing Ye Chen's words that could not be refuted, Hong Changqing's whole body shivered a little in depression, and his lips trembled one after another, his teeth could not help but start clashing involuntarily in his mouth.

Naturally, Hong Changqing did not want to leave, but he did not know how to speak to Ye Chen at the moment.

After all, he was also afraid that if he advanced an inch, Ye Chen would suddenly turn against him, and if he then killed himself, wouldn't that be a big loss?

Just at this time, Ye Chen suddenly changed the subject, "Right, Master Hong, how long have you stayed at the realm of eight-star martial artist?"

Hong Changqing said respectfully, "Back to Master Ye I have stayed at the realm of eight-star martial artist for one hundred and sixteen years"

Ye Chen asked curiously, "Then how old are you?"

Hong Changqing said, "I am sixty and two years old!"

Ye Chen said, "You've already reached eight-star martial artist in your forties? It seems that your cultivation speed is quite good!"

Hong Changqing smiled sarcastically and said, "I'm not going to lie to you, although Tai Chen Dao's art of alchemy is crude, it's good that the master has passed down a relatively complete set of martial arts heart techniques, compared to most sects that don't even have a complete heart technique, the potential is naturally a bit greater."

“Moreover, there are also some shining points in our crude alchemy art. ”

“The other one was sold to a wealthy man some years ago to save his life, and it did have the effect of curing his illness, so it also gave some fame to this Life Renewing Pill. was too serious, so it didn't have much effect.”

Ye Chen nodded gently, although he had not seen what kind of thing his Life Renewing Pill actually was, he surmised that the medicinal effect was much worse than his own Blood Dispersing and Heart Saving Pill, and it was even less comparable to the Spring Returning Pill.

He then asked Hong Changqing, “Master Hong, are you willing to serve me from today onwards? If you are willing, I will naturally not treat you badly.”

As soon as Hong Changqing heard this, he immediately said with great joy, “I am willing! I am ten thousand times willing!”

After saying that, he immediately knelt on the ground and said respectfully, “Master Ye, I, Hong Changqing, wish to follow you and serve you for the rest of my life, and if I betray you, I will be struck by lightning!”

At this moment, Hong Changqing had already realized that Ye Chen's strength was much stronger than his own, and from this alone, he was worth following.

What's more, Ye Chen had an even more powerful pill in his possession, perhaps five times or ten times more potent than his own Life Renewing Pill.

Not only that, Ye Chen was also the grandson of the An family, and his background was also very strong.

So, no matter how one looked at it, Ye Chen was a strong man among strong men.

Hong Changqing also couldn't help but think in his heart, “If I really want to be a lapdog, I have to be the lapdog of a true big man like Ye Chen, following such a big man, how can I worry about not being able to break through in my cultivation?”

Seeing his pious attitude, Ye Chen nodded slightly and said blandly, “Since you are willing, stay in Jinling from now on and follow my orders.”

Hong Changqing knelt on the ground and said excitedly, “My subordinate, Hong Changqing, is at Master Ye's beck and call!”

Ye Chen nodded and smiled, took out a Blood Dispersing Heart Saving Pill from his pocket and handed it to him, saying gently, “Take this pill, go back to your temporary residence and take it and refine its power.

Chapter 5368

When Hong Changqing heard Ye Chen's words, his entire person was instantly struck by lightning and was speechless in a daze.

Half a long time later, he asked Ye Chen with an incredulous face: “Ye Master Ye this elixir can make me step into the Ming Realm Great Perfection?!”

Ye Chen nodded and said indifferently, "With your current cultivation situation, the medicinal effect of this elixir is sufficient for you to achieve a breakthrough."

Still not believing, Hong Changqing asked in astonishment, "What kind of elixir is this, that it can be so miraculous?"

Ye Chen smiled and said, "This is the Blood Dispersing and Heart Saving Pill, you should have seen it before."

Hong Changqing was shocked and asked, "Master Ye this is the Blood Dispersing and Heart Saving Pill that saved your grandfather's life that day? This medicine is a miracle pill that can bring back the dead! You really intend to give it to me?!"

On that day, Hong Changqing was at the An family and witnessed with his own eyes the strength of the Scattered Blood Heart Saving Pill that brought back life from the dead.

After all, he had taken his master's Life Renewing Pill and had also seen with his own eyes the huge difference between the Life Renewing Pill and the Scattered Blood Heart Saving Pill that Elder An had taken.

Therefore, he knew very well in his heart that the strength of the Blood-Scattering Heart-Saving Pill was probably ten or dozens of times greater than that of his own master's Life Renewing Pill.

And this was also the biggest driving force behind his journey to Jinling, which had taken him thousands of miles.

But he had never expected that the first time he met Ye Chen, Ye Chen would give him such an expensive pill so simply, and that he would be caught by Ye Chen the moment before for setting a trap for Shi Tianqi to cheat.

So, he asked nervously and tentatively, "Master Ye why did you give your subordinate such a valuable elixir?"

Ye Chen smiled blandly, "Since you have sworn allegiance to me, you are also my subordinate, so this one elixir will be considered as a meeting gift from me to you."

Hong Changqing was sincerely terrified, but when he realised that Ye Chen's expression was serious and did not seem to be joking with him, his heart was suddenly overwhelmed with excitement.

This Blood Dispersing and Heart Saving Pill meant extremely much to him.

In the past two hundred years of the Tai Chen Dao, no one had been able to break through the eight-star martial artist and enter the Ming realm at its fullest, let alone step into the Dark realm.

Therefore, he had also thought for a while that he might not be able to enter the Ming realm of great perfection in his lifetime, just like his ancestors.

And now, Ye Chen was telling him that he only needed such a pill to make his breakthrough, which simply made him ecstatic!

So, he took the pill with both hands respectfully and said in an extremely pious tone, "Master Ye, your great kindness is unforgettable to my subordinate!"

Ye Chen waved his hand slightly and spoke, "Alright, there is no need for you to speak politely to me here, grab the elixir and go back to your place of residence to dive into your breakthrough, after you breakthrough, come to Ji Shi Hall to find Divine Doctor Shi and report back to him."

The reason why Hong Changqing was asked to come to Ji Shi Hall to report to Shi Tianqi was to put his position under Shi Tianqi for the time being, to frustrate Hong Changqing's eight-star martial artist on the one hand, and to give Shi Tianqi a stage on the other.

Hong Changqing also knew that Ye Chen had his own considerations, so without thinking, he immediately said, "My subordinate follows orders!"

Immediately, he looked at Shi Tianqi with shame and said, "Divine Doctor Shi, the previous competition was just a little trick that I played, your medical skills are certainly far superior to Hong's. My previous behaviour was really a bit of a fool's errand, so I hope you won't be too insensitive to me!"

Chapter 5369

Shi Tianqi hurriedly said, "You are very kind, Master Hong, from now on you are Master Ye's person, we are friends, there is no need to mention the previous matter again."

Seeing how generous Shi Tianqi was, Hong Changqing hurriedly bowed and spoke, "Divine Doctor Shi, from now on, I, Hong, will stay in Jinling, if you need my help with anything, you can contact me anytime."

"No problem!" Shi Tianqi said, nodding politely.

Hong Changqing turned to look at Ye Chen again and bowed, "Master Ye, if you have no other orders for the time being, my subordinate will go back to the hotel to close up."

Ye Chen nodded, "Go, and remember to report to me first if there are any new developments on my grandmother's side."

"My subordinate understands!" Hong Changqing nodded heavily before he thanked a thousand times and left Ji Shi Hall.

After Hong Changqing left, Shi Tianqi was also finally relieved and could not help but sigh, "Thanks to your timely appearance, Master Ye, otherwise, this Ji Shi Hall of mine would have been cheated by this Heavenly Master Hong."

Ye Chen smiled and said, "It's not a problem, even if he really let him cheat you, I can still get it back for you."

The more this happens, the less we can explain to the public, otherwise there is a possibility that it will get darker and darker, so Dr. Shi will have to play dumb about this matter and no matter who asks, he will ask three questions to avoid being caught in a trap. The memory of the public will last for a week at most, as long as we survive this week, this matter will be considered to be turned over, once it is turned over, we have to pick up the lost reputation and popularity again as soon as possible."

Without thinking, Shi Tianqi said, "Don't worry, Master Ye, I will do my best to restore the reputation and popularity of Ji Shi Tang as soon as possible."

Chen Xiaozhao was also overjoyed and excitedly held Ye Chen's arm, shaking it while saying with a smile, "Great! Finally, we don't have to leave Jinling! Thank you, Master Ye! It's all thanks to you for helping me and Grandpa save the day!"

Ye Chen smiled faintly, "No need to be so polite, in Jinling, no one can bully my Ye Chen's friends yet."

Chen Xiaozhao was thrilled and said happily, holding onto Ye Chen, "Master Ye is still the best! Grandpa couldn't face telling you at first, so he wanted to tell you after he left Jinling quietly, but fortunately I had the presence of mind to call you for help, otherwise I would have given up Jishi Hall."

Ye Chen smiled and said, "In the future, when you encounter something like this, firstly, don't take the bait nor the bait, and secondly, notify me at the first opportunity."

After saying that, he looked at the time and then said to the grandfather and grandson, "Alright, you guys should also hurry up and regroup and get ready for business, I want to find a quiet place to study this medicine pot of Hong Changqing, so I will take my leave first."

Hearing that Ye Chen was going to study the pill censer, the ancestor and grandson nodded in unison, and Shi Tianqi respectfully said, "Master Ye, I'll see you off!"

"No need." Ye Chen smiled and said, "Doctor Shi stay here, I'll just go by myself, many things in this medical hall of yours have been put away and have to be taken out and re-housed, so it's better to hurry up and get busy with your business."

After bidding farewell to Shi Tianqi and Chen Xiaozhao, Ye Chen took the pill censer that had been passed down from Hong Changqing's master and drove to the villa in Champs-Elysees.

He had previously refined a batch of Blood Dispersing Heart Saving Pills here, and had asked Qin Gang to prepare a batch of herbs for himself at that time, and Qin Gang had specially prepared a quantity of herbs for him that far exceeded Ye Chen's needs, so after Ye Chen had refined that batch of Blood Dispersing Heart Saving Pills at that time, there were still quite a lot of herbs left here.

It was precisely because of this that Ye Chen planned to go directly to Champs-Elysees and use this medicinal censer to refine a batch of Blood Dissipating Heart Saving Pills to see what effect this medicinal censer actually had!

Chapter 5370

While Ye Chen was preparing to set about refining his pills, Hong Changqing also returned to the hotel where he had landed.

Like a thief, he hurriedly entered the hotel lobby, quickly got into the lift and slipped back to his room.

As soon as he entered the room, he locked the door and hung the security clasp on it, and then, unsure of himself, he lifted the coffee table in the living room and held the door firmly against it.

After all this, Hong Changqing couldn't wait to go back to his bedroom, pulling the curtains up tightly before taking out the Blood Dispersing and Heart Saving Pill he was carrying in his arms.

Hong Changqing knew some superficial alchemy skills, so he could tell at a glance that the pill Ye Chen had given him was no ordinary thing.

At the very least, the colour and aroma of this pill was much stronger than the pills he had made and the Life Renewing Pills passed down from his ancestors at Tai Chen Dao.

The excited Hong Changqing, after examining the pill, could not wait to put it into his mouth.

As soon as he put the pill into his mouth, before he could make a move to swallow it, it had already turned into a cloud of medicinal power and gushed into his belly.

Hong Changqing exclaimed in his heart, "This master ancestors always said that good pills should melt in the mouth, only pills that melt in the mouth are the purest pills, I used to be unconvinced, but now it seems that the master ancestors are sincere and do not deceive me!"

Just as he finished sighing, he felt a powerful medicinal effect rise from his abdomen.

It was like a huge wave of energy coming over him, and he was immediately at full strength to deal with it!

The good thing was that although the energy was surging, it was very gentle overall, unlike the uncontrollable power that seemed to be ready to break and tear people apart.

As an eight-star martial artist, Hong Changqing had already opened all his eight channels, and the surging medicinal energy poured into his dantian along the eight channels, widening them and immediately transforming his originally stagnant cultivation!

Originally, it was as if there was a vault between Hong Changqing and the Great Perfection of the Ming Realm that his physical body could not break through, and he knew full well that this Great Perfection realm was behind the door of this vault, but he simply could not open the door of this vault.

He was like a thief who was deliberately trying to steal the vault's finances, wandering outside the vault for years, trying almost everything he could and still not making any progress.

But now, the moment the medicinal effect of the Blood Dispersing Heart Saving Pill reached his dantian, the entire vault's unbelievably strong door immediately began to crumble in front of his own eyes!

Immediately afterwards, Hong Changqing felt that the entire vault's gate had completely disappeared, and the huge wealth in this vault was already laid out in front of him.

Then, he even felt as if that vault had fused with his own dantian to the point where the wealth that it had guarded for so many years had been completely given to him.

At this moment, Hong Changqing was already in tears.

He knew that at this moment, he had successfully completed his breakthrough and stepped into the new realm of the Great Perfection of the Ming Realm!

He felt that his strength, compared to before, had changed qualitatively, the true qi in his body was more surging, the strength of his limbs was stronger, and the perception of his five senses was also more sensitive.

The whole person, completely, was an all-round, qualitative improvement.

And what he had never dreamed was that it could be so easy.

Also at this moment, he suddenly realised in his heart that Ye Chen was far more powerful than he had imagined.

This kind of strength was not reflected in strength, but a huge contrast of contrast.

This was like Yugong moving a mountain. Even though Yugong was desperately trying to move the mountains with his children and grandchildren like ants, he could not shake one ten-thousandth of Taihang and Wangwu, but the two sons of the Great God Kua'e Clan could easily move the two mountains directly.
