

Ye Chen Wade 2341

Chapter 2341

After hearing that Ye Chen asked about Jiu Xuan Stomach Powder, Wei Liang became excited and said, "Master Ye, Jiu Xuan Stomach Powder has now fully occupied the entire Japanese, Korean and Southeast Asian markets. Get ready to make a big push into Europe and America next month!"

Ye Chen nodded in satisfaction and asked with a smile, "The European and American markets should have been quite resistant to Eastern Chinese herbs, right? Confidence?"

"There!" Wei Liang said without hesitation: "Although Europe and the United States is the birthplace of Western medicine, but Europe and the United States is also the main force of alcohol consumption, per capita alcohol consumption ranking of the top 20 countries, all of them are European countries, in addition to Europe, there are Australia, South America, several countries, the annual per capita alcohol consumption, all in more than 10 liters! This is the first tier of highest per capita alcohol consumption. "

"Then there's the second tier, represented by the United States, Canada, Japan and Korea, which consume about seven or eight liters of alcohol per capita per year. "

"These countries have a high percentage of stomach and liver diseases because of high alcohol consumption, and Jiuxuan Stomach Disperse has no toxic side effects, is also extremely convenient to take, quick in effect, and has a very good protection and repair effect on the stomach, once such a drug is launched, the first wave of users who will benefit are those who drink alcohol."

"Once we take word of mouth among these user groups, it will soon sweep across Europe and America!"

In that case, we can start with restaurants, bars and hotels, and then send a push team to do a free trial in front of bars and restaurants in major cities in Europe and the United States, and control the dosage of the trial suit a little smaller, to ensure that they can feel the effect, but the effect can not be maintained in the long term, so that repeated rounds of promotion, will be able to immediately take this group of chronic drinkers and absorb them as our die-hard users. Say little "

Once Wei Liang heard this, he hurriedly said, "Master Ye, your solution is really good! We'll start with the people who need Jiuxuan Gastric Dispersion the most, and hit them where it hurts, so that they won't be able to do without it, and even regard it as a miracle medicine.

Saying that, Wei Liang quickly said, "I'll call a meeting with the management tomorrow and quickly set a detailed plan for ground promotion in Europe and America!"

In the past, it was their sky-high prices that earned us money, and the special effects drugs were priced at tens of thousands of dollars a month in China. . Hen"

Wei Liang smiled and said, "Master Ye, I don't think it's a problem to price it higher, but the key is that we have to find a way to stop them from coming to the Chinese market to buy, and then go to the European and American markets to sell it. In that case, all the money will be made by this group of peddlers."

Ye Chen smiled slightly, "This is simple, in the future, the Nine Xuan Stomach Dispersion, in any country, must be purchased in limited quantities, one person, one month, at most one box with valid documents,

strict control of the source of goods, but also do a good job of strictly preventing the means of stringing goods, this should be learned from the tobacco industry, all drugs factory, must have a corresponding area code, while regular Verify to make sure that there won't be any stringing of goods from region to region, or country to country."

Wei Liang busily said, "Okay Master Ye, I've got it all down!"

Ye Chen added, "In addition, we have to strictly supervise our dealers and sign a clear contract, anyone who dares to hoard supplies or charge ultra-high prices, immediately cancel his dealership, and at the same time make him pay a large amount of damages, and if he doesn't, file a lawsuit against him until he goes bankrupt!"

Chapter 2342

"In short, there must be no price gouging like that with Maotai! A bottle of Maotai official retail price of 1,499, but ordinary people do not have the opportunity to buy at this price, while the dealer to sell to the outside, a bottle of at least two thousand seven hundred and eighteen, and even higher during the New Year's holidays, is not this is a clear pit of consumers?"

Wei Liang immediately stated, "Don't worry, Master Ye, I will severely prevent similar things from happening to Jiu Xuan Stomach Dispersion! Any dealer who dares to hoard and raise prices, I will immediately disqualify him and hold him legally accountable! It will not be tolerated!"

Ye Chen nodded his head in satisfaction and said, "After Jiuxuan Stomach Dispersion is fully spread in Europe and America, I'm sure the alcohol industry in Europe and America will see another surge in development. Net Hen."

Wei Liang said approvingly, "Yes! Many drinkers in Europe and America are highly dependent on alcohol, and if Jiuxuan Stomach Dispersion is on the market, it is equivalent to alleviating the damage that alcohol does to their bodies, drinking too much alcohol, especially the stomach is the most uncomfortable, and Jiuxuan Stomach Dispersion just solves their problem. Xuan"

Saying that, Wei Liang could not help but exclaim, "Master Ye, it would be even better if we could launch a liver protection product down the road! Stomach and liver support, it's a must-have for American and European wine drinkers!"

Ye Chen smiled, "You first push Jiuxuan Stomach Dispersion to the European and American markets, and after a while I'll bring out a recipe for liver protection tablets, and then we'll focus on stomach and liver protection!"

At the side, Richard Chen smiled and said, "Master Ye, if you put your refined pills out for sale, I'm sure the market will be even bigger! There's no need for a pill as powerful as the Rejuvenation Pill, as long as that blood dispersing and heart saving pill from before is diluted to 10%, it'll probably be sold off!"

Ye Chen nodded slightly and said, "If this drug is really sold, sales will definitely not be a worry, but this drug can't be mass-produced through normal pharmaceutical equipment, so the production capacity can't be brought up, and it doesn't have the conditions to sell in large quantities. Xuan Ao Ao."

"So that's how it is" Chen Zekai said with some regret, "Nowadays, in the market, many medicines that are slightly effective in prolonging life are speculated to an extremely high price by those rich

people, you for example, the An Gung Niu Huang Pills that were produced in the 1960s and 1970s are now speculated to more than 100,000 a piece, but in fact, the main treatment of this medicine is only clearing heat and relieving poison, high fever convulsions and stroke coma, it is impossible to prolong life, but everyone thinks it's magical, so the price is speculated very high."

Ye Chen nodded his head and smiled, "That kind of medicine is mainly still in low stock, plus some of the raw materials are from protected wildlife and are no longer allowed to be used, so it appears to be a strange commodity, but it's actually nothing remarkable in terms of effect."

As he was saying that, the Qin family's servant quickly ran over and spoke, "Master, Old Mr. Song and Miss Song Wanting are here!"

Qin Gang hurriedly stood up and said to Ye Chen and the others, "Master Ye, General Chen, Hong Wu, you guys sit down first, I'll go outside to welcome Mr. Song and Miss Song."

Chapter 2343

Ever since Song Tian Ming and Song Honor's father and son's plot to kill Song Wan Ting was revealed and thrown to the diamond mines in Sierra Leone, Africa by Ye Chen, Song Wan Ting's position in the Song family had been unprecedentedly strengthened compared to before.

Previously, it was only Master Song who supported her heartily, but now, no one in the entire Song family dared to disobey her in any way.

The reason for this was mainly because Song Wanting had Ye Chen's full support, and even Song Tian Ming and Song Honor's father and son had failed to bring Song Wanting down by joining hands, and the rest of the Song family was self-aware and no longer dared to move similar thoughts.

After all, if they wanted to bring down Song Wanting, they first had to bring down Ye Chen.

Otherwise, what happened to Song Tian Ming and Song Honor would be a lesson for the others.

In recent days, although Master Song often felt sorry for the sibling rivalry within the family, he was relieved when he thought that Song Wanting was safe and that Song Tian Ming and Song Honor had picked up a dog's life as well.

To Song Wanting, the happiest thing today was that she could see Ye Chen again.

Ever since she had returned to the Song family and regained her position as the head of the family, she hadn't had the chance to see Ye Chen again, not only was Ye Chen busy with many matters every day, she was also very busy herself.

The Song family, with the help of Ye Chen, had negotiated a cooperation with New Japan Railway, and had obtained very generous conditions, so Song Wanting was ready to strike the iron while it was hot, and quickly finalize all matters related to the cooperation, and then push the project forward with all her might, so her energy had been invested in this period of time.

At this time, when she thought of meeting Ye Chen soon, Song Wanting's mood was somewhat uncontrollably excited and leaping.

For this reason, she specially dressed up today, not only wearing her favorite clothes, but also specially brought the diamond bracelet that her mother had left to her before she passed away.

This diamond bracelet was the one that Ye Chen had lost and regained after helping him to break the Feng Shui dilemma.

This bracelet was originally a memento from her mother in Song Wanting's eyes.

But now, this bracelet had another layer of meaning in Song Wanting's heart: it was the beginning of her own acquaintance with Ye Chen and the beginning of the intersection of their lives.

At this time, Qin Gang also quickly welcomed out and said very politely, "Oh my, Mr. Song and Miss Wanting, I am sorry to have missed the welcome!"

Master Song was busy saying, "Why do you need to be so polite, please don't take offense if you come to your house today to disturb me, Mr. Qin."

Qin Gang hurriedly said, "How could it be! Come on in!"

Song Wanting then asked, "Mr. Qin, has Master Ye arrived?"

Qin Gang smiled and said, "Master Ye has arrived and is chatting with General Manager Chen, General Manager Wei and Hong Wu."

Song Wanting nodded gently, her heart becoming a little more excited.

As Qin Gang arrived at the living room, Ye Chen saw the Song family grandparents enter, so he stood up and greeted them with a smile, "Master Song, Miss Song."

Ye Chen looked at her and couldn't help but sigh in his heart, "Song Wanting is truly a stunning beauty, and after dressing up so carefully, her temperament doesn't lose to anyone."

Master Song came forward at this time and said respectfully, "Master Ye! I'm so grateful to you for hosting a banquet for me."

Ye Chen smiled: "You don't have to be so polite, come, come, please sit down."

After saying that, he was busy instructing Hong Wu: "Hong Wu, show tea to Master Song and Miss Song."

Hong Wu was busy saying, "Yes, Master Ye!"

Afterwards, you hurriedly brought out two more teacups and filled them with tea.

Chapter 2344

Subconsciously, Song Wanting sat beside Ye Chen.

When Hong Wu handed her the teacup and she reached out to receive it, Ye Chen also saw the diamond necklace on her wrist, and he couldn't help but feel a little sighing in his heart.

When it came to meeting Song Wanting, it was Hong Wu who was the matchmaker, and he was the one who begged him to go and read feng shui for Song Wanting.

After sitting down, Song Wanting opened her mouth and said to Ye Chen, "Master Ye, when Cabbage Patch was videoing with me today, she also asked me to greet you."

Ye Chen asked curiously, "Oh? Did you video chat today?"

Song Wanting smiled and said, "I basically video with Cabbage every day, didn't she give me a puppy, I can see that she's also quite attached to it, she wants to see how the dog is doing every day."

Ye Chen nodded gently and smiled, "Ao Xue also said that she wants to give her your dog when it grows up and has one."

Song Wanting smiled, "Yes, she told me about it, I just happened to talk about it today with Cai Cai Zi, Cai Cai Zi said that when she comes to Huaxia in a few days, she can bring another one over and give it to Aoxue, I also wanted to tell Aoxue the good news myself, why isn't she here?"

Qin Gang at the side was busy saying, "Miss Song, Ao Xue just finished training and went upstairs to shower and change clothes."

Ye Chen was a little surprised and asked, "Cabbage is coming to Warsaw in a few days?"

"Right." Song Wanting nodded her head and said, "Vegetables said that she has always quite liked our Huaxia star Gu Qiuyi, it just so happens that Gu Qiuyi is going to hold a concert in Jinling, she also wants to come over to see it, I've already told her that she will stay at my house when she comes."

Ye Chen's entire body was stunned and asked in surprise, "Nai Nai Zi likes Gu Qiu Yi?! Seriously?"

"Really." Song Wanting said seriously, "Gu Qiu Yi is not only famous in China, she has many fans in all of Asia, in Chinese circles around the world, and even in the European and American markets, and she is very much admired by Japanese girls because of her beautiful looks, and many Japanese girls specialize in imitating her style of dressing, matching, and makeup, and she has an especially large number of fans!"

Saying that, she explained, "I'm actually quite interested in Gu Qiuyi, so the two of us are planning to go over to the concert together then."

Ye Chen felt as big as a head at this point.

"My wife is going to see Gu Qiu Yi's concert, Dong Ruolin is also going to see Gu Qiu Yi's concert, Song Wanting is going to go, and even Itochi is going to This What the hell is this going to be?"

At this time, Qin Aoxue changed into a very elegant dress and came over. When she heard Ye Chen and Song Wanting talking about Gu Qiuyi, she hurriedly asked with great concern: "Master Ye and Sister Wanting, are you talking about Gu Qiuyi's concert?"

Song Wanting nodded her head and smiled, "Ao Xue, you like Gu Qiuyi too?"

Qin Aoxue said without hesitation: "Who doesn't like it! I've bought all the tickets, and I plan to go with my classmates at"

After saying that, she asked, "Sister Wanting, are you going too?"

Song Wanting smiled, "I'm going too, it just so happens that the Itochiko who gave me the dog wants to come and see it, so I'm meeting up with her and will go with her."

"Yah!" Qin Ao Xue exclaimed, "Is Itoh Cabbage coming to Jinling for the concert too?"

"Right." Song Wanting nodded and said, "There's also good news for you, I told Cuisinart that you like puppies, and she said that when she comes this time, she'll bring you one of Yoshi's brothers or sisters to give to you."

"Huh? Really?!" When Qin Ao Xue heard this, her expression was first pleasantly surprised, but soon became very embarrassed

She fidgeted and said: "Sister Wanting, I've fought with Ito Nai Nai Nai Zi and injured her, how can I accept her gift of dogs again"

Song Wanting laughed and said seriously, "I'm sure the others knew you would take this matter seriously, so they specifically asked me to tell you, she said, ah, a match is a match, what happens in the match, just stay on the field, never bring what happens on the field into life, she said she still wants to make friends with you!"

Chapter 2345

When I heard that Itochi wanted to make friends with her, Qin Ao Xue was overjoyed.

She couldn't hide her excitement and asked, "Sister Wanting, is what you said true?"

Song Wanting smiled and said, "Of course it's true, can I lie to you?"

Qin Ao Xue couldn't help but exclaim: "Actually I also quite want to be friends with her, I used to admire her very much, and although I don't have much contact with her, I can feel that she must be a very good and nice person."

Song Wanting gently nodded her head and said in agreement: "Cai Cai Zi is indeed a very good girl, very friendly and humble."

Qin Ao Xue said more or less guiltily, "In fact, her strength was originally far above mine, and the reason why she lost to me was because I took the pills that Master Ye gave me, I really feel ashamed to think about it"

Song Wanting smiled and said: "It's fine, Master Ye gave you the pills, this is completely your chance, there's nothing to be ashamed of. There is nothing to be ashamed of."

Ye Chen also spoke up at this time: "Ao Xue, your sister Wanting is right, everyone has their own opportunities, these opportunities people will never tell you, for example, Ito Cabbage, you don't know if she has learned some kind of fighting skills with the top ninja in Japan, so this kind of thing, what is there to be ashamed of?"

Qin Aoxue nodded gently, so incomparably serious, said: "Master Ye, Aoxue understands"

At this time, the servant came forward to inform that the richest man in the city, Li Tailai, had arrived.
Little

This time, Li Tailai did not let Ye Chen's little friend Zhao Hao drive, mainly because he felt that Ye Chen is after all a person with great supernatural powers, he invited himself to dinner, he must be more pious, if this time still let his good brother as a driver, more or less inappropriate.

Next, Wang Zhenggang came, followed by Shi Tianqi and Chen Xiaozhao's grandparents.

As it was not yet time for dinner, the people successively took their seats, drinking tea and chatting, and the atmosphere was particularly harmonious.

These people, one by one, all have great respect and esteem for Ye Chen, and also have good relations with each other, so we can also chat together.

See the invited guests one by one settled down, Ye Chen could not help but think of Wang Dongxue, I do not know why Wang Dongxue has not appeared yet, before the phone, she had confirmed with himself will come over.

Ye Chen was thinking about whether to give Wang Dongxue a phone call, but then thought about it, Wang Dongxue already seems to have some things to busy, if she is finished with the matter in hand, she will naturally come over; if not finished, then there is no need to rush her, let her feel at ease to do her own thing.

.....

At this time, Wang Dongxue was in the intensive care unit of the People's Hospital with her mother.

See mom ate dinner, the nurse also hung up the nutrition solution to dad, Wang Dongxue slightly relieved, said to mom: "Mom, I have a dinner party tonight, my boss organized, so I have to go first, but I will be back as soon as possible."

Mom Sun Yufang hurriedly said: "Dongxue, these days you are also enough of a toss, since there is a dinner party, have a good meal, chat with the boss and colleagues, relax, do not rush back, Mom is afraid that you have been tense with the heart."

Wang Dongxue smiled slightly and said, "Don't worry about me, I can adjust myself."

Chapter 2346

Saying that, she picked up her hanging jacket and said to Sun Yufang, "Mom, if there's nothing else, I'll leave first. Net."

Sun Yufang nodded and said, "Be safe driving on the road."

"Okay mom, I know."

Wang Dongxue said goodbye to his mother, came out of the ward, and saw that there was still enough time, so he first went to the office of Director Chen of the Department of Nephrology.

Now, the deadline from Walter to himself, has only ten hours left, Wang Dongxue's only remaining ray of hope, on the body of Director Chen, I do not know whether Director Chen initiated relations, can help find the right kidney source in the last time.

Wang Dongxue came to the office door and knocked, and heard Director Chen say: "Please come in. Only then did she push the door in.

As soon as she entered the door, she said, "Director Chen, I'm really sorry to bother you again."

Director Chen was busy: "Wang Dong, don't be so polite, please sit down. Xiao"

Wang Dongxue said, "Director Chen, I won't sit down, I just have something to go out, I came over to ask you, is there still a chance for the kidney source?"

Director Chen sighed and said, "I have already greeted many of my classmates, our old classmates, are now basically directors of nephrology departments in major tertiary hospitals across the country, there are a lot of relevant resources, they all agreed to help, but whether they can be found, this they can not guarantee, can only depend on luck. Xuan"

Wang Dongxue nodded gently, then lowered her voice a bit and said seriously: "That Director Chen If you or your classmates can help solve the problem of the kidney source, I am personally willing to take out three million as a thank you, if you can solve it yourself, all three million to you; if your classmates help solve it, then I will give your classmates three million in addition to your classmates, and then give you an additional two million hard work Please also be more attentive"

When Director Chen heard this, he hurriedly said: "Wang Dong, I admit that some doctors do accept red envelopes from patients' families, but I have never done such a thing in all my years in medicine. Hen"

Only then did Wang Dongxue realize that her own words had indeed offended Director Chen's medical ethics, and hurriedly apologized and said: "Director Chen, I'm really sorry I was in too much of a hurry, that's why I did what I did, please don't mind"

Director Chen nodded his head and said, "Wang Dong, this feeling is understandable, we usually operate on patients, the families will come over to stuff red envelopes, if they don't accept it they will feel as if I won't be attentive to their relatives"

"So, usually in this situation, we will take the red envelope before the surgery, followed by quietly asking the nurse to give it to the hospital's finance, and after the surgery is over, the money will be charged directly into the patient's account, and when the patient is discharged from the hospital, the money will be returned to the family, so that the family can feel at ease during the surgery. Pride"

Wang Dongxue said ashamedly: "Director Chen, I'm really sorry, I was abrupt"

Director Chen smiled and waved his hand: "It's fine, I won't take it to heart, as for the matter of the kidney source, don't worry, I will definitely do my best."

"Good." Wang Dongxue nodded and said, "Then Director Chen, I will not disturb your work, you can contact me at any time if there is any progress."

Director Chen nodded and said: "Okay, I'll call you if there is any news."

Just at this time, someone suddenly pushed the door in with a panicked look and spoke, "Director Chen, great news! The results of the tests on the patient in Ward 1 are finally clear!"

As soon as Wang Dongxue heard that it was bed No. 1, she immediately realized that he was talking about her own father, so she hurriedly asked, "Hello, what are the test results of the patient in ward No. 1?"

The man looked at Wang Dongxue and then at Director Chen hesitantly, not knowing for a moment whether he should continue.

Director Chen hurriedly urged: "Little Liu, what are the results you directly say, don't dilly-dally."

The man then hurriedly said, "Well, the laboratory first found an excessive amount of mercury in the blood of the patient in Ward 1, and then sent the blood sample to the Judicial Department's laboratory for further testing of toxic substances. "

"What?!" Director Chen exclaimed, "Mercury dichloride? Sure it's mercury dichloride?!"

"OK!" The man hurriedly said: "The police suspect that someone has thrown poison, so they are ready to file a case, and they are expected to come over soon."

Wang Dongxue was shocked and asked, "Director Chen, what is mercury dichloride?"

Director Chen explained: "Mercury dichloride, a highly toxic inorganic substance, is so toxic that an average of one milligram per kilogram of body weight can reach a LD50! An eighty kilogram adult male needs only eighty milligrams!"

Wang Dongxue pursued, "What is a LD50?!"

For example, if we use 100 mice to test the toxicity of mercury dichloride, and 50 mice die when the oral dose exceeds one milligram per kilogram for a specified period of time, this amount is called the LD50.

Wang Dongxue exclaimed, "This substance, only a few tens of milligrams can kill a person?!"

Director Chen nodded his head and said, "This stuff is extremely toxic, especially to the kidneys, just like Paraquat is extremely harmful to the lungs, it's almost hopeless.".

Wang Dongxue was so nervous that she blurted out, "How could my father take this toxic substance? No one in our family has ever been exposed to this highly toxic chemical."

Director Chen said seriously, "Since the police are opening an investigation, it is likely that someone deliberately threw the poison."

"Poisoning?!" Wang Dongxue said, perplexed, "My father has spent most of his life teaching and educating people, and has received countless honors.

Director Chen hurriedly said: "Wang Dong, this kind of thing by speculation is useless, we must rely on the police in-depth investigation, it is possible to find the murderer behind the scenes!"

As I was saying, the office door was pushed open, and several uniformed police officers walked in with heavy expressions.

One of them, a middle-aged man with a Chinese face, walked in front and came directly to Director Chen and said: "Hello, I'm Sun Wenbin, deputy captain of the Jinling Criminal Police Brigade, we received an

alarm from your unit's laboratory, and now suspect that a patient named Wang Chengyuan from your hospital was most likely poisoned. "

Director Chen immediately pointed to Wang Dongxue and said, "Captain Sun, this is Wang Chengyuan's daughter, Ms. Wang Dongxue."

Sun Wenbin was slightly surprised, then immediately put away his surprised expression and said seriously, "Hello Ms. Wang, I am Sun Wenbin, may I ask how your father is doing now?"

Wang Dongxue hurriedly said, "Captain Sun, my father is in very bad condition, his kidneys are failing rapidly in a short period of time, and his life is in danger at any time. Please make sure you find the person who poisoned my father!"

Chapter 2348

Sun Wenbin nodded very seriously and said, "Ms. Wang, can you please help us recall if your father usually has any enemies? Or have you had any financial troubles with anyone?"

Wang Dongxue shook her head and said, "My father has been a dedicated teacher and educator for so many years, and he is also non-competitive and very helpful at work, and has never had any conflicts with anyone."

Sun Wenbin asked again, "Then has your father eaten any strange food recently, or come in contact with anything rather strange?"

Wang Dongxue continued to shake her head: "It seems that he really didn't, everything was quite normal before his illness"

Sun Wenbin then asked: "Do you usually live with your father?"

Wang Dongxue nodded, "Living together."

Sun Wenbin went on to ask, "Then who else lives with you besides you and your father?"

Wang Dongxue spoke up, "And my mother, the three of us."

"Good." Sun Wenbin nodded, and after a pause asked, "Does the family have any nannies or hourly workers?"

"No," said Wang Dongxue. Wang Dongxue said, "I wanted to find them a nanny, but my parents have been intellectuals all their lives and are not used to having someone wait on them, plus they are only in their 50s now and can take care of themselves, so they have never looked for a nanny or an hourly worker."

Sun Wenbin asked, "Neither you nor your mother have any problems with your health, right?"

Wang Dongxue shook her head: "No."

Sun Wenbin nodded and said, "The three of you are living together, and you and your mother don't have any problems, so it can be inferred that it's not the food or water source in your family that's causing the problem."

He then asked, "Ms. Wang, I need you to carefully recall whether your father had ever gone out to eat by himself or with his friends in the period of time before his health signs appeared."

Wang Dongxue thought carefully and said seriously: "No, the period of time before my father's health problems, because it was winter vacation, so he has been at home reading books, almost never went out, so he did not go out to meet with others."

According to the test data, your father had a large amount of mercury dichloride in his body, a highly toxic substance that can enter the body through the nose and mouth, or through the skin.

"But our experts speculate that such a large dose of poisoning may take a long time if the skin alone is used, so the most likely possibility is that it enters through the nose and mouth, with oral ingestion being the most likely."

"However, from what you've said, it's unlikely that your father was poisoned at home through food and water, but he also didn't go out to eat or get together at"

"Then, trying to figure out exactly where he was poisoned might be a little tricky!"

Chapter 2349

At this time, Wang Dongxue, hearing Sun Wenbin's words, was incomparably nervous, and hurriedly asked, "Captain Sun, in your experience, is it more likely that my father was accidentally exposed to this poison, or was it more likely that he was secretly poisoned?"

"It's not good." Sun Wenbin explained seriously, "The situation and clues we have now are really still too limited, and basically there are no very useful clues that can help us determine our direction."

He then asked, "By the way, Ms. Wang, is your father's current state acceptable for questioning? There are some things that if you ask him directly, you may be able to get more useful clues."

Wang Dongxue shook her head and sighed, "My father has been in a deep coma for the past two days"

Sun Wenbin hesitated for a moment, smacked his lips, and said, "Tsk How about this!"

"Since you just said that your father barely left the house for a while before the attack, I'm guessing it's more likely that he was still poisoned at home!"

"Only, it is too likely that the poisoning was through food and drink."

"If it's convenient for you, could you let us come to your home and gather clues? If a highly toxic substance can be found in your home, then there is a way to continue to trace it upward!"

"After our professional criminal investigators come to investigate, there may be more valuable discoveries."

As soon as Wang Dongxue heard this, she spoke almost without hesitation, "No problem! Whenever is convenient for you?"

Sun Wenbin immediately said, "It's urgent, if possible, let's go over there now!"

Wang Dongxue was busy saying, "No problem! Then I'll bring a few people over now."

After saying that, she turned to look at Director Chen and said with a pleading face, "Director Chen, my mother has been very tense these past few days, please don't tell her about this."

Director Chen immediately nodded his head and said, "No problem Wang Dong, don't worry, I will keep your mother's secret strictly."

"Okay, thank you Director Chen!"

After thanking Director Chen, Wang Dongxue looked at Sun Wenbin and said, "Captain Sun, shall I take you all to my house now?"

"Good." Sun Wenbin nodded and said, "It's not too late, let's go over there now."

Fifteen minutes later.

Wang Dongxue brought several police officers, as well as several technicians of the Criminal Investigation Department, to his own small villa.

Wang Dongxue's family is relatively well-off, her parents' income is very high, but also her own income is not low, so the family has a set of more than three hundred square meters in Jinling, upper and lower three layers with a courtyard villa.

The villa is decorated in an exquisite Chinese style, and the furniture and appliances are all of the highest quality, making it a family in pursuit of quality of life.

Police officers are very dedicated to put on shoe covers, gloves, with a variety of professional equipment, the entire home for careful technical detection.

At this time, Wang Dongxue's heart was completely about her father's poisoning, because this matter is so important that her brain has unconsciously, put Ye Chen's dinner party in the back of her mind.

Now she just wants to find out what poisoned her father, whether it was an accident, or someone malicious poisoning!

.....

At this moment, Qin Gang's home.

Dinner time has arrived, Wang Dongxue has not yet come, Qin Gang came to Ye Chen side, asked in a low voice: "Master Ye, Wang Dongxue Wang Vice Chairman has not yet come, do you think we should start or wait for her?"

Ye Chen thought, Wang Dongxue did not come, there must be something to do, if he called her at this time, even if he did not mean to rush her, but in her view, there must be some sense of urging.

Chapter 2350

And as her boss, once he called him himself, he would definitely put some pressure on her, and it would be inappropriate if it would affect her ability to do important things.

So he said to Qin Gang, "It's fine, let's start first."

Anyway, for Ye Chen, organizing a dinner party today was of secondary importance, giving everyone a gift back was the most important thing.

If Wang Dongxue is unable to come tonight, there's no need to rush her, just wait until there's a chance to give her the pills in private.

As soon as Qin Gang heard this, he hurriedly said to the crowd: "Come, come, come, thanks to all of you a restaurant, we are about to start tonight's banquet."

The crowd then followed Qin Gang to the restaurant, where the Qin family's chef had already placed sixteen cold dishes on the large table.

Master Song smiled and said, "Mr. Qin, just the cold dishes alone are sixteen, that's a bit too much to break down, isn't it?"

Qin Gang said in a panic: "How can it be Mr. Song, you are all Qin's guests, and the real host today is not me, but Master Ye.

Master Song nodded and smiled, "Then thank you for the hospitality of Mr. Qin and Master Ye!"

Ye Chen smiled, "Old Mr. Song doesn't have to be so polite, please sit down."

After everyone had sat down, Qin Gang immediately sent someone to bring a few bottles of collectible Maotai wine.

After everyone had poured a glass of wine, Ye Chen lifted his own glass and said very seriously: "Thank you all for coming today, and thank you Mr. Qin for helping to organize all this.

As soon as everyone heard this, they all stood up with their wine glasses, and old Mr. Shi Tianqi hurriedly said, "Master Ye! All of you here have been favored by you, so why are you so polite to us?"

Ye Chen smiled, "Good! Let's not say any more polite words, let's drink together!"

Everyone at the table said together, "Cheers!"

Then, Ye Chen poured himself a full glass of wine and opened his mouth, "During the New Year, everyone was really a bit shabby, and to be honest, I feel somewhat sorry for myself."

Saying that, Ye Chen added, "However, I won't say any more polite words, so I also hope that you won't be polite to me next."

The crowd nodded, some of them were already getting excited in their hearts.

The difference between them and Wang Dongxue was that they had all received medicine from Ye Chen, and they had gone to Ye Chen's house together to pay their respects during the New Year, when Ye Chen said he wanted Qin Gang to prepare something.

Wang Dongxue, on the other hand, had neither received any pills from Ye Chen, nor had she gone with him to pay New Year's respects, so she had no idea what the purpose of Ye Chen's invitation today was.

If she had known that Ye Chen was going to give out the Blood Severing Pill to cure all diseases, she would not have missed this opportunity.

As long as she got one pill, she would be able to cure her father's condition completely.

Ye Chen left the banquet temporarily and took the pills he had prepared from the car, the one he had prepared for Wang Dongxue, and put it into his pocket.

Afterwards, he returned to the table with these pills, took out the boxes containing the pills one by one, and said seriously: "Everyone, this is some blood dispersing and heart saving pills that I recently asked Mr. Qin to prepare materials to refine, this kind of pills can't say immortality, but at least it can cure all diseases, and also treat serious injuries, I hope everyone will keep it well, and take it out again at the critical moment. "

Everyone saw Ye Chen take out the pill, and they were both happy and moved.

Without saying a word, Hong Wu stood up and went around the chair, kneeled down in piety, and said excitedly, "Hong Wu, thank Master Ye for the medicine!"

As soon as they saw this, all of them, without exception, got up and knelt down in front of Ye Chen and said in unison, "Thank you, Master Ye, for the medicine."
