

Ye Chen Wade 2351

Chapter 2351

To Ye Chen, the Blood Dispersion Pill is nothing more than an ordinary item, nothing extraordinary.

However, for others, it can't be said to prolong life, but at least at the most critical moment, it has the effect of saving life.

With it, it is like having an extra life at a critical moment.

Song Wanting is the best example of this.

Had it not been for a pill that she carried with her, she would have fallen off the cliff in Japan, just like everyone else, and her soul would have been lost.

Therefore, everyone present was so excited that there was no way to attach it to their hearts.

Ye Chen put the pills down one by one, and then said to everyone, "Everyone put the pills away and let's continue to eat."

Only then did everyone carefully put the wooden box containing the pills into their pockets and got up to return to their seats.

The meal went on and the guests enjoyed themselves.

Until nine o'clock at night, the dinner party ended, Wang Dongxue still did not contact Ye Chen.

Ye Chen drove away from Qin Gang's villa, and then took out his cell phone, ready to give Wang Dongxue a call, ask her whether she encountered any trouble.

At this moment, Wang Dongxue is at home, anxiously awaiting the results of the police criminal investigation officers.

More than a dozen professional criminal investigators have come to the home, the entire house for the carpet testing, but still have not found the source of poisoning where.

Just at this moment, Wang Dongxue's cell phone in her pocket suddenly rang.

She was shocked by the ringing of the phone, immediately pulled out the phone, found that it was actually Ye Chen called, it just remembered, he also promised Ye Chen, night to go to the dinner party organized by him!

Chapter 2352

Wang Dongxue said, "Thank you very much, Young Master!"

Ye Chen smiled indifferently, "It's fine, no need to be so polite with me. Net."

When it came to this, Ye Chen wanted to tell her to get busy first, so he wouldn't keep her busy with family matters, but at this time, he heard a man's voice on the other end of Wang Dongxue's phone: "Ms. Wang, we found the source of the poison your father was poisoned with.

At this time, Wang Dongxue is still holding a cell phone, but when she heard this, she had completely forgotten to talk to Ye Chen, this matter, and then asked nervously: "Captain Sun, you said the source of poisoning in the end is where!

Sun Wenbin, with a heavy book in his latex-gloved hand, spoke up, "Our criminal investigators found that every page of this book contains mercury dichloride."

"Also, we found the book to be very new and full of flip marks, and we estimate that your father has been reading it more frequently of late."

"When he was reading this book, his hands were constantly covered with mercury dichloride, a small portion of which was absorbed directly through the skin, and some of which he may have eaten along with his food when he took it. "

"And the last generation tends to have a bad habit when reading books, they like to wet their fingers with their tongues when turning pages, I wonder if your father had that habit?"

Wang Dongxue gently nodded her head and said, "My father does have this habit of reading books. I've said to him before that it's not hygienic to turn the pages like that, but their generation has long been used to it, so it's a problem that hasn't changed"

Sun Wenbin nodded his head and said, "That's right, I think the excessive amount of mercury dichloride in your father's body came from this book."

Wang Dongxue was struck by lightning and blurted out, "Captain Sun, did someone deliberately poison my father?"

Sun Wenbin nodded his head and said, "Judging from the coating process in the book, mercuric dichloride is in the form of a very fine powder, completely laid flat on the paper, so that it is almost colorless and odorless, and it is also difficult to identify, so we can assume that it is absolutely artificial, and the other party is very careful and very strong anti-surveillance awareness!"

Wang Dongxue said angrily, "My father has never offended anyone in his life as a teacher and educator, who would do this to him?"

Sun Wenbin hurriedly asked her, "Do you know how this book came to be?"

Chapter 2353

"Right here in Jinling?!"

As soon as Wang Dongxue heard this, the whole person couldn't help but clench her teeth!

Immediately, she said angrily and coldly, "This man is trying to harm my father in every way possible, and I don't know what his intentions are! Captain Sun, please think of a way to make sure this person is arrested!"

Sun Wenbin nodded his head and said seriously, "This kind of alleged murder criminal case is an absolute big deal, and we will do our best to solve it quickly!"

Saying, he inevitably sighed: "Hey, but because there are still too few clues in hand, I can't guarantee you time."

Wang Dongxue gently nodded her head and said, "I understand"

Sun Wenbin also said: "Right, Ms. Wang, you first help me recall the time, this express specific day received, so that we can adjust the surveillance video around that time period, first to find out the delivery person!"

Wang Dongxue thought about it and said, "I was very busy with work before the New Year, I really can't remember some of it, so wait for me, I'll give my mom a call and ask her if she still remembers."

"Good!"

Wang Dongxue immediately held the phone in front of her, ready to call her mother, only then did she discover that the original Ye Chen's phone had not hung up, and the number in the call time column was still increasing, proving that it was still in a state of conversation.

In her heart, she hurriedly picked it up and said to Ye Chen: "I'm sorry young master, it's a bit urgent, so"

Ye Chen had already heard the entire conversation between her and the captain of the Sun, so he spoke in an unquestionable tone, "Dongxue, tell me the address of your home!"

Wang Dongxue hurriedly and nervously said, "Young Master, I'd rather not give you any trouble about my family's affairs"

Ye Chen coldly said, "Tell me the address, I'm going over there now!"

Wang Dongxue listened to Ye Chen's tone was very harsh, and all of a sudden was his momentum to suppress, so I had to say in a low voice: "My home My home in Clearwater Court Villa Phase II, Building 11"

Ye Chen nodded his head and said, "I know this neighborhood, it's not too far from me, I'll be there in ten minutes."

Hearing that Ye Chen was coming, Wang Dongxue was somewhat apprehensive.

She knew that Ye Chen's status was honorable, and she really didn't want to trouble Ye Chen about her own family.

However, she inevitably thought that Ye Chen is after all a person with a great deal of foresight, he is not only the young master of the Ye family, but also the master Ye who is highly respected by the high society of Jinling, if he is willing to help, then the probability and efficiency of finding out the murderer should be increased.

When she thought of this, she no longer dwelled on it, and decisively promised: "Okay young master, I'll wait for you at the door."

After hanging up the phone, Wang Dongxue called her mother, who was in the hospital.

With his mother to determine the father received the book after the time, the police began to start working from the surveillance video to investigate, to see if you can lock the delivery of people, to find this person, you will be able to trace the black man behind the scenes.

At the same time, Sun Wenbin also suggested that Wang Dongxue do not live in the home in the near future, after all, this has risen to the height of a criminal case, and the other means of secrecy, in case he also wants to do on Wang Dongxue, Wang Dongxue is afraid that it is impossible to defend against.

Wang Dongxue accepted Sun Wenbin's suggestion, and planned to move directly to the hospital tonight, with his mother to guard his father in the hospital.

At the same time, Sun Wenbin also promised to send a few plainclothes police officers, in the hospital covert control, to prevent the murderer again on their family.

The technicians of the Criminal Investigation Department collected evidence, and Sun Wenbin was ready to lead the team to leave.

Chapter 2354

They had already obtained the evidence, the next thing to do is to search for clues, so they were not going to continue to spend time in Wang Dongxue's villa.

Before leaving, Sun Wenbin said to Wang Dongxue: "Ms. Wang, I suggest you leave now, go to the People's Hospital."

Wang Dongxue nodded and said seriously: "Thank you, Captain Sun, I'll pack something and drive directly over."

Sun Wenbin then said: "That line, I went back to the team to organize a meeting of the task force, while any progress in this side of the investigation, I will be the first to notify you, but you and your mother also help us recall some useful details, if there are any new clues, notify me."

"No problem! Thank you, Captain Sun!" After repeatedly thanking Wang Dongxue, the group of police officers were escorted out the door.

Several police cars whistled away.

Before Wang Dongxue moved his feet, Ye Chen drove his father-in-law Xiao Changkun that BMW 5 series, came to Wang Dongxue's door.

Ye Chen saw Wang Dongxue at the door, so he stopped the car in front of her.

The car just stopped, Ye Chen pushed out the door, face anxiously asked in a deep voice: "Dongxue, in the end, what's going on? Was your father poisoned? Why didn't you tell me?"

Seeing Ye Chen's anxious appearance, Wang Dongxue was very moved deep inside.

Looking at Ye Chen's handsome face, Wang Dongxue's heart was more than a little solid feeling, but also more than a little bit of a small woman's unique kind of grievance.

She has always been the image of a strong woman in front of people, but deep inside, it is still hard to escape the essence of a young woman.

In the face of such a major tribulation and change, she was already at the limit of her ability to hold on by herself.

She also yearned for a strong shoulder to lean on, even if it was only to give her a moment's relief, it would bring her great comfort.

Therefore, at the moment when she saw Ye Chen appear in front of her, Wang Dongxue only wanted to hug him and cry.

However, Wang Dongxue's remaining shred of sanity in her heart constantly admonished herself: "No. Absolutely not, he is my boss ah And is the Hall Ye family young master, how can I go up and hug him".

The first time I saw him, he was in the hospital for acute kidney failure. I thought he had a problem with his transplanted kidney. "

Ye Chen asked her, "Then how is your father's status now?"

Wang Dongxue choked: "He is now in a very poor state, the doctor said that the window for kidney transplant has at most fifteen days, but he is rh negative blood, it is very difficult to match, in such a short period of time, the possibility of finding a kidney source is very slim".

Ye Chen nodded his head and said without hesitation, "Get in the car, I'll go with you to the People's Hospital!"

Wang Dongxue hurriedly said: "Young Master How can I bother you with this matter"

Ye Chen said with a very serious expression: "Dongxue, your father is poisoned, not normal kidney failure."

"The doctor told you today that he has a fifteen-day window, and tomorrow it will most likely be ten, or even five!"

"In such a short period of time, if you hope to find the right kidney source, the possibility is not very slim, but almost impossible!"

Chapter 2355

When Wang Dongxue heard these words, she unconsciously lowered her head.

At this time, she inevitably lamented in her heart: "Young Master is right, Dad's situation is like this Every day it is rapidly deteriorating, and there is no hope at all".

"The only glimmer of hope is the kidney source that Walter found in the United States that has been successfully typed".

"But the conditions Walter proposed were a great insult to my character and integrity.

"However, if I am not willing to accept his conditions, I should be prepared for my father to die at any time".

Thinking of this, Wang Dongxue's eyes a sore, tears will instantly come out of her eyes, uncontrollably dripping on the cold cement floor.

Subsequently, Wang Dongxue's negative emotions accumulated for many days instantly exploded, slowly squatted on the ground, holding a headache and crying.

Ye Chen saw always strong Wang Dongxue, even at this moment, holding her head silently sobbing, the heart can not help but a few heartache, secretly thought: "She must be at the point of desperation, emotional collapse will be so".

Here, he squatted in front of Wang Dongxue, gently patted her shoulder, serious: "Dongxue, can not find the source of kidney does not matter, I have a better way to save your father, than to find the source of kidney, but also let the old man to avoid the suffering of the operating table to take a knife."

When Wang Dongxue heard this, she raised her head and looked at Ye Chen with a horrified expression, choking: "Young Master Is what you said true"

"Of course it's true." Ye Chen nodded his head, reached out and pulled open the passenger door, and said to Wang Dongxue, "Get in! Go to the hospital first to heal your father's body, and then thoroughly investigate who poisoned your father!"

When Wang Dongxue regained consciousness, Ye Chen had already opened the passenger door and gently pushed her back and pushed her to the car door.

Wang Dongxue recalled what he had said a moment before, and asked with an incredulous face: "Young Master You Do you really have a way to cure my father?"

Ye Chen nodded, looked into her red eyes, and said seriously, "If I say it, I can do it!"

Wang Dongxue subconsciously said: "But But But the doctors all say that kidney failure is irreversible"

Ye Chen said word for word: "Just because the doctor can't reverse it, doesn't mean I, Ye Chen, can't."

Said, Ye Chen took out from his pocket to Wang Dongxue originally prepared pills, spoke: "This medicine was originally prepared for you, you take it, will be taken to the hospital to your father, to ensure that the medicine to the disease."

Wang Dongxue was dumbfounded: "Young Young Master, you said this medicine was originally prepared for me? Did you already know about my father?"

Ye Chen shook his head and said, "The main reason why I organized today's dinner party is to thank everyone for coming to my home to pay respects during the New Year, and that's why I prepared a blood dispersal saving heart pill that can cure all diseases for everyone."

When Wang Dongxue heard this, her whole body was still somewhat like a dream.

She subconsciously asked: "Young Master This medicine can really cure my father?"

Ye Chen opened his mouth and said, "You'll know whether it can be cured or not when you get to the hospital, so get in the car."

Although Wang Dongxue was not 100% sure whether Ye Chen's pill could cure her father or not, she was in an incomparably excited mood, and hurriedly nodded her head and got into the car under Ye Chen's urging.

After that, Ye Chen started the car and drove towards Jinling People's Hospital at speed.

Chapter 2356

At the same time, Walter, who was in the Jinling International Hotel, received a phone call from his men.

As soon as the caller came up, he hurriedly said, "Boss, I heard from someone inside the Jinling police that the police have found a book containing mercury dichloride from Wang Dongxue's house. A task force has now been set up to start tracking down clues to that book!"

"What?!" Walter exclaimed, out of shock, "How could the Jinling police be so fast?"

The other side said, "We didn't expect them to be so efficient."

Walter hesitated for a moment and said, "You didn't leave any clues when you disguised yourselves as couriers to deliver the goods, did you?"

The man thought about it and said, "I don't think so, the delivery car was a condominium car, it's impossible to check for clues, and the disguised courier was also wearing a mask, so he shouldn't be found."

Walter's eyebrows were tightly locked, his expression dark, and with his large hawk nose, he appeared a bit more ruthless.

He pondered for a moment, then spoke up and ordered, "Kill that guy disguised as a courier immediately."

The other party was obviously stunned, and only after a moment did he said with some horror: "The old Boss Xiao Zhu this person usually behaves well, very clever, there is no need to do him because of such a little thing, he is still very safe"

"Unnecessary?" Walter snapped, "What the fuck do you know about forensics or not? He's the only person currently exposed to the police, and even if he's wearing a mask, so what? Do you think wearing a mask makes you absolutely safe?"

"A man's face has ears, nose, mouth, eyes and eyebrows, and a mask only covers the nose and mouth! The police were still able to get his basic face shape, eyes, eyebrows, and ears through surveillance video! You can see more clearly his size, his height, his hairstyle, and the way he walks!"

"If the surveillance camera in front of Wang Dongxue's house had a radio microphone, the police would still have his voice signature! With all the clues exposed, you still think he's safe?"

As soon as the other party heard this, his voice trembled with nervousness: "Right Sorry boss I I I didn't expect I didn't think that this matter so serious"

Walter gritted his teeth and said, "Tell that little Zhu that I've prepared a million cash for him, and then tell you to send him on his way, and then you'll drive him out of Jinling with your men, and find a remote place in the middle to do away with him."

He said, "Remember to use the poison, and never see blood."

The other party hurriedly asked, "Boss, what should we do with the body? How about throwing it straight into the river? Where the river is more than 100 meters deep, the probability is that no one will find it!"

Walter scowled and said, "Dumbass! No matter how deep the river is, it is useless! There are undercurrents at the bottom of the river, and the undercurrents will wash things downstream, and once the bodies reach the shallow waters downstream, they'll probably be washed up on the shore! How else do you think those sunken bodies were found?"

When they heard this, they hurriedly asked again, "Boss, do you have any good ideas?"

Walter thought about it and said in a cold voice: "Well, you go and find an anchor for a speedboat, tie the body up with a chain, attach it to the anchor, and throw it into the river with the anchor, which will hold the body in the mud and sand at the bottom of the river like a fixed boat."

The other party hurriedly agreed, saying, "Yes, boss! I'm on it!"

Walter hung up the phone and paced the floor-to-ceiling windows in a darkened state, cursing quietly, "Shit! I didn't expect the speed of the Jinling police to be so fast Wang Dongxue, it seems I'll have to push you a bit more!"

As soon as he said that, he immediately picked up his cell phone and dialed the number of his men.

As soon as the call came through, Walter immediately commanded in a cold voice, "Prepare the car immediately! Go to Jinling People's Hospital in five minutes!"

Chapter 2357

Jinling International Hotel is located in the center of the city, from the Jinling People's Hospital, a little closer than Wang Dongxue's villa.

So, when Walter got into the Rolls-Royce and set off to the hospital, Ye Chen and Wang Dongxue had just walked half of the journey.

When Ye Chen parked the car, and Wang Dongxue together into the people's hospital inpatient building, Walter's car, also followed into the parking lot.

Wang Dongxue mood excited and nervous, did not take two steps will unconsciously become run, Ye Chen will also speed up, followed her all the way to the door of the ward jog.

Push the door to enter, Wang Dongxue's mother Sun Yufang is lying in front of the hospital bed to rest.

Although Sun Yufang is only in her fifties, her entire state is very tired.

Her mental state looked no different from that of a sixty or seventy year old woman.

Hearing the sound of two people entering the door, Sun Yufang raised her head and saw her daughter Wang Dongxue and a man she did not know, she was a little surprised and asked: "Dongxue, this is?"

Wang Dongxue subconsciously wanted to say that Ye Chen was his boss, but Ye Chen was one step ahead and said with a smile: "Hello, auntie, my name is Ye Chen, I am a friend of Dongxue."

Sun Yufang nodded hastily and said politely, "Oh, hello Mr. Ye."

When Wang Dongxue saw that Ye Chen didn't want to reveal his identity as the chairman of the Emperor Group, he hurriedly said to his mother, "Mom! Ye Chen has a miracle medicine that can cure all diseases, Dad is saved this time!"

As soon as the words died down, the hospital room door was pushed open.

Walter sneered as he stepped inside, "Who was the prodigy who said he had the miracle cure for all diseases? What nerve to cheat money out of a regular hospital!"

Seeing Walter enter, Wang Dongxue's face immediately turned very ugly.

She looked at Walter angrily and said in a cold voice, "You are not welcome here! Please get out!"

Walter spared a chuckle and said, "Winter Snow, how come you're seeing your temper rise at night?"

After saying that, he strode to Wang Dongxue before, disdainful of the laugh, said: "Haha, Dongxue ah, you now turn the other cheek so quickly, because you get the Chinese God stick often said that the cure for a hundred diseases of divine medicine? In the United States, we also often have some of the Chinese Gods in Chinatown to cheat money, but as soon as the federal police catch them, without exception, they are all sent to jail! I don't know if your Warsaw law governs or not."

At this point, he couldn't help but look at Ye Chen, looked him up and down for a moment, smiled and asked Wang Dongxue: "This guy, is that guy the prodigy? Looks like a little younger than most of the kamikazes!"

In the meantime, Ye Chen saw Walter's arrogant appearance, and couldn't help but knit his brows.

In the meantime, Ye Chen saw Walter's arrogant appearance in his eyes, and did not know the relationship between Wang Dongxue and Walter.

Even the matter of Wang Dongxue's father's serious illness in the hospital, he had just heard about it, so he was a little confused about the sudden appearance of Walter in front of him, and could not figure out what was the origin of this blond foreigner.

As soon as Wang Dongxue heard that Walter referred to Ye Chen as a god stick, he angrily snapped: "Walter, don't you dare to say anything here! This is Grandmaster Ye Chen Ye, who is well known in Jinling! Not the prodigy as you call it!"

Walt said with disdain, "Don't all of you Chinese Gods like to call yourselves masters? What qigong masters, metaphysical masters, feng shui masters, there are masters everywhere, in my opinion, all fucking liars!"

Ye Chen was already a little upset, so he spoke up and said: "I advise you to show a little respect before you speak, this is Huaxia, not the United States."

Walter looked at Ye Chen, despised and said: "Kid, I don't want to bullshit with you too much, I came over, is to chat with winter snow about her father's affairs, unrelated people as soon as possible to get away!"

Chapter 2358

Ye Chen sneered, "You're very big-headed, what exactly is your origin that gives you the courage to speak out here?"

Walter looked arrogant and scoffed, "My name is Walter Hogewitz, have you, you diva, ever heard of the famous Hogewitz family in America?"

Ye Chen smiled casually, "Sorry, I've never heard of this whatever Vitz family you're talking about."

Walter coldly said, "I tell you! The Hogwarts family, a well-known major real estate developer in the U.S., not only has business all over the U.S., but also has large properties in Canada, England, Germany, France, and we even own a building named after the Hogwarts family in Manhattan, New York!"

Ye Chen trailed off and laughed, "You have a building in Manhattan, New York, and you have the audacity to come to Warsaw and pretend that you're carrying that building on your back?"

When Walter heard this, he frowned.

He could hear that the meaning of Ye Chen's words was to ridicule his family's building in Manhattan, New York, which was not good in Warsaw.

So, he coldly snapped, "Kid, although the building can't be moved, but the dollars in my account can be circulated around the world at any time, this is called hard currency, hard power, understand?"

Ye Chen nodded his head and smiled, "When you say so, I understand."

Saying that, Ye Chen couldn't help but ask curiously, "I wonder how much this Hogwarts family of yours is worth, all together, approximately how many dollars?"

Walter snorted between his nose, "That's naturally over ten billion!"

Walter waved his hand in disgust and muttered, "I don't know what I'm doing with all this nonsense with you!"

Then, he immediately looked to the side of Wang Dongxue, straight to the point: "Dongxue, I don't want to talk too much with you, a lot of words I have said countless times, my mouth is calloused." "I'll say it one last time, or uncle's kidney source problem.

"I'll just say it one last time, or uncle's kidney source problem, do you want to agree to my conditions or not?"

"If you don't agree, the kidney source won't stay!"

Wang Dongxue subconsciously asked, "Didn't you say you would give me 24 hours? It's only been half a day!"

Walter laughed and said, "Excuse me, but the French have suddenly added \$50,000 to the donor to steal this kidney source!"

"Now that the donor has wavered a bit, he wants me to settle with him as soon as possible."

"Otherwise, he'll just sell it to the French, so you need to give me a clear answer now, yes, or no!"

Ye Chen then opened his mouth and asked Wang Dongxue: "Dongxue, what's going on?"

Wang Dongxue replied, "Master Ye, this Walter was a classmate when he was studying in the United States, and he helped my father find a successful kidney match, but the requirements were "

When she said this, Wang Dongxue suddenly became stammering.

Walter's words were so nasty and shameless that she couldn't even describe them in words.

At this time, a side of Walter sneered: "My request is very simple, let Dongxue be my lover for ten years! Give me more children! What, do you have a problem with that?"

Chapter 2359

In fact, Walter on Wang Dongxue, there are still a lot of business requirements, and even want her to help themselves to empty the Imperial Howe Group.

Only this kind of words, Walter did not say in front of Ye Chen's face.

However, Walter's reservations still made Ye Chen's heart unbearably angry.

He grabbed Walter's collar with one hand and slapped him with the other!

This slap made Walter dizzy, and not only did half of his face swell up, even the corners of his mouth and nostrils began to bleed.

Just when he was dizzy and could barely stand, Ye Chen said coldly, "Remember, no woman can be insulted by you at will."

He covered the side of his face in pain and cursed angrily, "Bastard! You dare to hit me? All my life, no one has ever dared to lay a finger on me! How dare you, you bastard, hit me in the face!"

Ye Chen sneered and raised his hand to slap him again, seeing both sides of his face swollen into a symmetrical, living pig's head, before he said coldly: "Didn't your parents teach you to learn to behave with your tail between your legs when you're in someone else's territory?"

Walter had been beaten to a pulp and was already furious inside.

At the same time, his heart was also very regretful.

He felt that he had brought his bodyguards with him on this trip, but because he had come to see Wang Dongxue, he didn't let them go upstairs, otherwise, why would he have been pressed and beaten by Ye Chen?

Walter himself was tall, and occasionally practiced fitness, and the force of a punch was much greater than that of an average adult, plus a surge of anger in his heart at this time, and he subconsciously waved his hand to counterattack.

He swung his fist and hit the bridge of Ye Chen's nose hard.

He was always sinister, and the tactic he planned in his heart was to smash Ye Chen's nasal bone with one punch first!

Once the nasal bridge is broken, the pain is so excruciating that you can't even open your eyes, and your combat effectiveness rapidly declines!

Right after that, you can just kick him in his lower vital parts and completely nullify all his fighting power!

Walter's move is one of the most damaging moves in street fighting, first hitting the opponent's nose with his forehead and then taking advantage of his surprise to go straight to the heart of the matter, which can often turn a person's defeat into a victory at an absolute disadvantage.[Google search "Avracity"]

However, Walter had no idea what kind of terrifying strength this seemingly refined, even a little thin oriental man in front of him actually had!

Walter punched out fiercely, thinking that he had already achieved his goal.

But he never expected that the punch went out, and when it was almost at Ye Chen's face, it was suddenly caught by a big hand!

This big hand was so powerful that it took all the force off of its own sudden punch!

Not only that, he couldn't even get his fist to move forward a fraction!

Walter was so shocked that he hurriedly tried to retract his fist, but in the next second, he realized that his opponent's strength was so great that he couldn't shake these big hands with all his might!

It feels like an ant being held at the fingertips of a giant, with no ability to resist at all.

It almost seemed to Walter that this defied physical common sense!

In his opinion, even if the other party is very strong and he can't free himself, but if he pulls with all his strength, the other party's arm should at least move, right?

Even if the opponent is a world champion, it is impossible for him to keep his arm almost immobile under his own violent struggle.

Walter realized at this moment that he was in for a tough fight!

With such a weird technique, even if the bodyguards followed him up, it would be useless![Google search "Avracity"]

So, he immediately put on an extremely flattering expression and repented, "Master Ye is really sorry! I'm new here, and I don't know what you're talking about. I hope you don't think I'm too familiar with you."

Chapter 2360

Ye Chen grasped his fist and asked with a sneer, "What? You can't beat them and you just give up? Is this what you call the Hogwarts way of doing things?"

Walter didn't think that Ye Chen would dare to humiliate his family, so he was naturally extremely angry.

However, he knew clearly that the difference in strength between himself and Ye Chen was too great, and the only way to minimize his losses was to admit defeat.

As for the loss of face, it doesn't matter, at the worst, he can get it back a thousand times more when he finds an opportunity!

When he thought of this, he immediately smiled and said, "Master Ye, as you said, the Hogwarts family does have some power in the United States, but this is Huaxia, this is Jinling, and it's not my place to be wild."

After saying that, he begged with a pious face: "Master Ye, please forgive me this time, since it is my first offense and you have already slapped me twice."

Ye Chen saw his face swollen into a pig's head and snorted, "You don't even realize what your biggest mistake is! So, your superficial apology, in my opinion, is nothing more than a technique to get out of a trap, without any real sincerity in it!"

Walter's face was white with fright, and he said, "Master Ye, you have misunderstood me. I sincerely know I was wrong, and I apologize to you with all my heart.

Ye Chen sneered, then twisted his right hand abruptly, only to hear a click, Walter's wrist should be cracked.

Walter screamed in pain and almost collapsed, shouting loudly, "My hand! Why are you doing this to me? I've clearly confessed to you!"[Google search "Avracity"]

Ye Chen looked at him and said coldly, "The person you should apologize to most is not me, but Winter Snow! You blackmailed her with your kidney source to achieve your own nasty goals, and didn't you even think to apologize to her?"

As soon as Walter heard this, he hurriedly looked to the side of Wang Dongxue, and said, "Dongxue I was wrong! I really knew I was wrong! Please, don't get along with me, and also intercede with Master Ye for me, please."

At this moment, Wang Dongxue was more or less compassionate.

Although she knew that Walter was a dirty man, but in her opinion, Walter's nastiness was just his own wishful thinking, he did not agree with him, nor was he coerced by him.

And now look at Walter, was Ye Chen beaten badly enough, even a broken wrist, is also almost the same.

So she said to Ye Chen, "Master Ye, let him go, after all, I have nothing to lose."

Ye Chen nodded his head.

He didn't want to get along with Walter.

An offspring of an American real estate developer, with a worth of ten billion dollars, wouldn't even look at it in Huaxia itself, let alone in Jinling.

The company's main business is to provide a wide range of products and services, and to provide a wide range of products and services to the public.

So, he then stared at Walter and warned word by word: "From now on, don't let me see you again, and don't let Winter Snow see you again, do you understand?"

When Walter heard this, he was astonished!

He looked at Ye Chen, nodded his head as if pounding garlic and said: "Master Ye, don't worry, I will definitely not appear in front of you and winter snow."

As he said this, Walter thought to himself: "Good you Ye, you fucking dare to hit me and break my wrist, if I don't kill you, I won't be fucking Hogwarts!".

Ye Chen didn't bother to listen to his nonsense at this point, loosened his hand and said disdainfully, "Get out of here! Roll without stopping!"

Walter nodded repeatedly: "Yes, yes, yes, I'm getting out of here! Get out of here."

Said he, turning to go out.

In the meantime, Ye Chen's saber brows knitted and suddenly stopped him with a stern voice: "Wait a minute! I asked you a question!"
