

Ye Chen Wade 2361

Chapter 2361

Walter thought he could get away with it, but he didn't expect Ye Chen to suddenly ask himself a question at this time.

So, he was startled, turned back hastily, and asked with a smile, "Master Ye, what else do you want?"

Ye Chen looked at him and smiled, "It's nothing important, just asking you about something."

Walter was instantly relieved and hurriedly said, "Master Ye, you may ask!"

Ye Chen nodded slightly and asked with a smile, "Mercury dichloride, do you know what it is?"

Walter replied with a thud in his heart and a look of surprise on his face: "No, no, no, no. What is mercury dichloride?"

At this moment of speaking, Walter's heart suddenly burst!

By virtue of his strong psychological qualities, he was able to keep his expression from changing too much.

However, Ye Chen still noticed a trace of imperceptible stiffness and panic on his face.

Almost at this instant, Ye Chen concluded that Walter must be inextricably linked to the poisoning of Wang Dongxue's father!

So, Ye Chen's expression darkened at this moment, he grabbed Walter's collar and shouted harshly: "If you tell the truth, I'll let you die a painful death.

Faster!"

Walter shook his head repeatedly with an innocent face and said, "Master Ye, have you made a mistake? I don't even know what mercury dichloride is, so why did you catch me in the act again?"

Wang Dongxue, who was on the side, was also shocked.

Just now when Ye Chen suddenly asked Walter if he knew what mercury dichloride was, she also thumped in her heart.

She was shocked because she had not thought that her father would be harmed by Walter.

She had a preconceived notion that Walter had suddenly appeared after her father's serious illness and tried to take advantage of the situation, but she didn't think about it.

So at that moment, she looked at Walter without blinking, hoping to see if he was lying.

However, Walter's ability to manage his expressions was so strong that Wang Dongxue really couldn't see anything unusual on his face.

So, at this moment, she even had some doubts that Ye Chen was not mistaken.

However, Ye Chen was not compelled by Walter's innocent expression at all.

He stared at Walter's eyes and said coldly, "I'll give you one last chance, if you still don't tell the truth, then

What awaits you next may be the eighteenth circle of hell that you never thought of before!"

Walter swallowed hard and cried, "Master Ye, I really don't understand what you're saying! I'm not a chemistry major and I don't know what mercury dichloride is, but I do know what carbon dioxide is."

Ye Chen lightly nodded his head and sneered, "Well, everything is your own choice, just don't regret it in the future."

After saying that, he immediately took out his iPhone from Walter's pocket and sneered: "Come, stick your face out so I can unlock it, and I'll see if there's any shady deeds in your phone."

Walter freaked out and blurted out, "You are casually invading someone's privacy! I do have the right to have a lawyer sue you!"

Ye Chen pretended to be surprised and said: "Oh my, just now when I hit you, you didn't say you wanted a lawyer to sue me, why do I have to look at your phone, you want a lawyer to sue me instead? Is there really something nasty in your phone?"

"No absolutely not!" Walter said in a panic: "My cell phone is full of Hogwarts family business secrets, it's a matter of great importance, if Master Ye reads it, if it leaks out, it will definitely bring great financial losses to the Hogwarts family!"

Chapter 2362

It's just that I've always been quick and easy, and it's just money, isn't it? You ask around in Jinling, when has Master Ye ever been short of money?"

Walter still wanted to make an excuse to refuse, but Ye Chen had already pointed the phone's front camera at him.

I have to say, the phone's facial recognition is really useful.

Even though Walter's cheeks were swollen, the phone was immediately unlocked by his face.

Walter's phone was all in English, but it was no problem at all for Ye Chen.

Although he didn't go to college, he received a top-notch international education when he was a child, and just like today's international schools, he grew up learning in a multilingual environment.

Especially Ye Chen's mother, who is of Chinese descent in the United States, English is one of her mother tongues, and she received a top-notch aristocratic education since childhood, so she is not only proficient in English and Chinese, but also in Japanese, French, and Spanish.

In China, it seems very rare for a person to speak multiple languages.

This is mainly because China itself is not a country of immigrants, and the vast majority of its billion-plus population speaks Chinese.

The United States, on the other hand, is different.

The United States itself is a country of immigrants, and there are many English-speaking Europeans and many Chinese-speaking Chinese, and because it is very close to Mexico, there are many Spanish-speaking people as well.

In addition, Japan, Korea, and Vietnam in Asia, and Germany, France, and Italy in Europe, have all had large numbers of immigrants come to the U.S. to settle in the last two hundred years.

The biggest advantage of living in such an environment is to be exposed to cultures and languages from all over the world.

Therefore, Ye Chen has also benefited from his mother, and has laid a good language foundation since childhood.

The first thing Ye Chen did when he opened Walter's phone was to read text messages and WeChat.

Although it was all in English, it looked like it was no effort at all.

Walter's entire face had been ashen, and he said in near despair, "You can't read my message logs! It's illegal!"

Ye Chen is looking through it while

In a cold voice: "Shut your mouth, or I'll break your other hand too!"

Walter's expression was one of extreme trepidation.

He didn't know what to do now.

If he had shut up, Ye Chen would have found evidence in the chat logs that he had poisoned Wang Dongxue's father.

However, if you don't shut up, what will happen?

At most, Ye Chen will break another hand and then wait for Ye Chen to turn over the evidence.

When he thought of this, he regretted it so much that he wailed in his heart, "I'm a fucking fighter among idiots! Why did I come to the hospital at this time? Why! If I hadn't come over tonight, I probably wouldn't have met this asshole! If we don't meet this bastard, we won't be tortured so badly."

"It's okay to be tortured! If he finds evidence that I ordered others to poison Wang Dongxue's father, then I'm finished! The Warsaw police will definitely charge me with intentional homicide."

"Wouldn't I then face at least seven or eight years, if not more than ten years, of prison in Warsaw?"

Chapter 2363

Just as Walter was panicking, he happened to receive a WeChat on his phone.

The Chinese nickname of the person who sent the WeChat was Song.

The only thing you can see from the list is a picture from Song, so Ye Chen directly opened the message from Song.

It doesn't matter what you look at, the picture that Song sent was a corpse foaming at the mouth!

At this time, the corpse was lying crooked on the seat of a car, Ye Chen stared at it with a huge, fierce expression, and it looked like it had been poisoned to death.

Just when Ye Chen was surprised, Song sent another message, with a sentence written in English, to the effect that: "Boss, the man has been killed, a little later I will sink him, you can rest assured that this clue must be completely broken."

Ye Chen immediately flipped up the chat log of Song and Walter.

The chat logs of the two of them did not have a large conversation, mostly some "done", "coming soon", "come quickly", "good job", "good job". Most of the conversations were phrases such as "Got it", "Be right there", "Come on over", "Good job. and so on.

It seems that these two don't often communicate with each other by WeChat text.

However, Ye Chen soon discovered that in their chat logs, there were four words that Walter sent to Song in Chinese: Mercury dichloride!

And, right after that, Walter sent another message in English below: "Remember this term, and don't ever get it wrong!"

At the sight of this word, Ye Chen's pupils contracted!

Immediately, he stared at Walter and asked in a stern voice, "Who is this Song? Why do you want him to remember mercury dichloride!

As soon as Wang Dongxue heard this word, she stared at him and hurried to Ye Chen to check.

When she saw the words "mercury dichloride" in Walter's chat with Song, Wang Dongxue immediately understood what was going on.

She angrily questioned Walter, "Walter! I have no grudge against you, and I have been your classmate for many years, so why do you want to harm my father?"

Walter shuddered and faltered, saying, "I didn't I really

No."

Ye Chen opened the photo of the corpse that Song had just sent over, handed it to Walter, and questioned, "I'll give you one last chance to explain what you're really up to, or else you'll never make it back to the United States alive in this life."

Walter took one look at that picture and was struck by lightning!

This WeChat from Song was sent after Ye Chen took his phone away, so it was the first time he saw this photo.

He immediately recognized the corpse in the photo as the man who disguised himself as a courier and delivered to Wang Dongxue's house!

It seems that Song was quick to carry out his own orders, and just lured the subordinate out and poisoned him in the car!

At this moment, his pores all over his body instantly poured out cold sweat, his heart has been panicked to the extreme.

He was worried that he would reveal the poisoning of Wang Dongxue's father, but then again, even if he did, at least Wang Dongxue's father wasn't dead, and the Chinese judicial authorities would convict him and give him a lighter sentence.

However, this subordinate is already dead.

Chapter 2364

He himself ordered Song to kill him, so he can't get away with intentional murder!

After all, in Chinese law, those who abet others to commit crimes are punished as principal offenders!

He instigated his men to kill someone, and even if he didn't do it himself, if he goes to court, he'll get at least a life sentence!

If we add the crime of poisoning Wang Dongxue's father, it might be a suspended death sentence!

At this point, he broke down emotionally, poofed to his knees and cried, "I'm sorry, it was all a moment of confusion, I didn't mean it I didn't mean it."

Ye Chen slapped him across the face and questioned, "You ordered your men to kill, and you say you didn't mean it? Are you fucking kidding me?!"

Walter covered his face and cried: "I am just obsessed with the idea that I want to possess Wang Dongxue, I want Wang Dongxue to resign from Dihao Group to help me expand our family's business in China, I want her to steal Dihao Group's trade secrets to help me gain a foothold in China as quickly as possible, so that's why I'm doing this, I want to force her to give in."

When Wang Dongxue heard this, the whole person was out of anger!

Wang Dongxue, who has always been very cultivated in front of people, at this moment completely unable to control herself, she angrily slapped Walter, hysterically rebuked

"Why?! Why are you doing this? Is my father's life a bargaining chip for you to further your career and satisfy your animalistic nature? Why are you so vicious? You tell me why!!!"

Wang Dongxue's mother heard this, the whole person also angry blood pressure soared, she shivered and rebuked: "You you this beast! You give back my husband's life!!!"

After saying that, she only felt a dizziness in her brain, and all of a sudden she lost consciousness and fell straight down to the ground.

Wang Dongxue was so shocked that she unconsciously cried out, "Mom!"

Ye Chen hurriedly held Wang Dongxue's mother, and then checked her breath, and found that she was just a brain blood supply shortage caused by anger, there is no danger to life, so they gently helped her to lie on the couch.

At this time, Walter covered his face, weeping and crying: "Dongxue, I beg you to forgive me this time, I can immediately call the U.S. side of the men, let them now to the donor to do nephrectomy surgery, tomorrow morning to send over to the uncle to replace".

"I can also give you ten million dollars as compensation, and if ten million is not enough, then twenty million."

Said Walter, crying and begging, "Winter Snow, please, give me a chance! Please, please don't turn me over to the police! "

.....

At this time, Walter's greatest fear was not what Ye Chen would do to himself.

He felt that the most that Ye Chen would do is to beat himself up, but his real trouble is the judicial department in China.

If he is arrested by the police and prosecuted, he will be sentenced to death with a high probability.

If he is arrested and prosecuted by the police, it is very likely that he will be sentenced to death suspension.

He is the eldest son of a ten billion dollar family, living the top, most extravagant, reckless, and arrogant dude life, and if he really had to spend more than twenty years in jail, it would be even more painful than killing him!

When Wang Dongxue heard his plea, she was even more furious and trembling!

She looked Walter dead in the eye and scolded him with a cold voice, "I told you Walter! No matter what, I won't let you get away with it! Just wait, I'm calling the police to arrest you!"

Walter cried out in fear, wailing: "Do not ah winter snow I beg you winter snow do not turn me over to the police! Even if you don't want to forgive me, you have to think about your uncle's life! If I'm really caught, who's going to find you a kidney? Who will save your father's life? As a daughter, you can't just stand by and watch your father die, can you?"

Chapter 2365

In the face of Walter's dying struggle, Ye Chen said calmly: "Walter, don't worry, without your kidney source, Winter Snow's father won't die."

Walter shook his head vigorously and said with conviction, "No way, absolutely no way!

After saying that, he quickly knelt in front of Wang Dongxue, crying and said: "Dongxue, I beg you, as long as you are willing to let me live, do not turn me over to the police, I can give you 100 million dollars! Please, please don't turn me over to the police, or my life will be over."

Wang Dongxue was about to refuse, the side of Ye Chen smiled slightly and said: "Walter you can rest assured, I will never hand you over to the police."

Walter thought his \$100 million promise had worked, and hurriedly said, "Master Ye, as long as you let me leave Jinling, when I arrive in the U.S., I will immediately put \$100 million in your account."

Ye Chen waved his hand: "Friend, you must not misunderstand, I said that I will not hand you over to the police, but it does not mean that I will let you go, it is two different things."

Walter looked at Ye Chen in fear and asked off the top of his head, "Then what do you want?"

Ye Chen smiled: "Don't worry, you'll soon know what I want."

Just said, Ye Chen grabbed his collar and harshly questioned, "I ask you, how many people did you bring to the People's Hospital this time? Say one less or more, and I'll have one of your arms removed!"

Walter shuddered with fear and said, "With a driver and bodyguard, there were five of them."

Ye Chen continued to ask, "Where is everyone? Where are they all?"

Walter said honestly, "Everyone was in their cars downstairs in the lobby doorway, two cars, a Rolls Royce and a Buick Business."

Ye Chen nodded and immediately pulled a group on WeChat, pulling in Chen Zekai and Hong Wu, and then initiated a group voice chat.

After receiving it, these two immediately connected in and asked in their voices, "Young Master, what do you want?"

Ye Chen seriously said, "Old Chen and Hongwu, immediately send your best men out to help me arrest all of Walter Hogewitz's men, and don't leave any of them behind."

He also said, "Oh yes, he has men in Jinling People's Hospital, in a car outside the lobby of the inpatient department, a Rolls-Royce, a Buick Business, a total of five people, you quietly send someone over and wipe out the whole nest of them!"

Richard Chen was surprised and asked, "Young Master, why did you have a conflict with Walter?"

Ye Chen asked him, "Do you know this Walter?"

"I don't know anyone, but I know this person." Richard Chen explained, "The Hogwarts family, although it's not considered a top family in the United States, it's still somewhat famous, so when someone like Walter comes to Jinling, I'll have a tip-off here."

"Wires?" Ye Chen asked curiously, "Did you specifically assign someone to keep an eye on this area?"

"Right!" Chen Zekai said, "The task given to me by the Ye family is to control the entire situation in Jinling, not only some of the internal situation in Jinling must be washed to grasp, the external situation must also know, once some people with backgrounds come to Jinling, I will make a record of this."

Ye Chen asked him, "This Hogwarts family, does it have a big origin?"

Richard Chen thought about it and said seriously, "This Hogwarts family is not that big of a deal."

He went on to explain: "The Hogwarts family's own assets add up to about ten billion dollars, which is not even in the top two hundred in the United States, but their family does have some special background."

Ye Chen pursued, "What kind of special background?"

Richard Chen explained, "The Hogwarts family, and the Rothschild family, are more or less related."

"Oh?"

Hearing about the Rothschild family, Ye Chen's heart was not moved.

He knew that the crowning moment of his father's life was when he led the Ye family, as well as several other Chinese families, to fight against the Rothschild family's economic aggression.

That time, he caused the Rothschild family to suffer a great loss of property as well as loss of face.

Chapter 2366

Therefore, Ye Chen also suspected that the death of his parents might have something to do with the Rothschild family.

Because of this, when he heard that Walter actually had some relations with the Rothschild family, he couldn't help but exclaim in his heart, "I didn't expect that my first contact with the Rothschild family would come so quickly."

So, Ye Chen curiously asked Richard Chen, "What kind of kinship is the Hogwarts family, and the Rothschild family, specifically?"

Chen Zhaichai introduced: "At most, it's just a distant relative Rothschild family has developed for so many years, just their own family with the surname Rothschild, there are tens of thousands of people, in addition to that, relatives with outside surnames are countless."

"In other words, Walter's grandmother, is a Rothschild family member, but her grandmother's line, in the Rothschild family, is not considered to be any core, at most, it is equivalent to a grid during the Qing Dynasty, and it is still a very marginal kind of grid in the imperial family."

Ye Chen smiled slightly, "I see."

The name of Rothschild is almost universally known around the world.

Such a super family with a history of several hundred years is no smaller than the Qing Dynasty's imperial relatives or the Eight Banners' sons.

Within such a family, there must be many branches, and between these branches, there is a clear relationship of priority.

Just like the Ye family.

Master Ye Zhongquan's lineage is the only main lineage in the entire Ye family, and it is also the core lineage of the Ye family.

As for the innumerable branches all over the country, they are all branches without exception.

Some branches are Ye Zhongquan's brothers, which is a little bit closer.

But there are some branches whose blood relations with Ye Zhongquan are even outside the Five Services, and naturally they will not have a deep connection with Ye Zhongquan.

This kind of branch lineage, although also surnamed Ye, has too low a presence in the entire Ye family.

The Rothschild family must be the same.

Eventually, there may even be more branches than the Ye family.

Walter's grandmother, although she was a Rothschild, was also a very partial lineage, and had little presence in the family.

The Hogwarts family's assets are only about ten billion dollars.

Richard Chen immediately said, "No problem young master, I'll arrange it right away."

Hong Wu, on the other hand, asked, "Young Master, what will happen to these people after they are caught?"

Ye Chen instructed, "Lock all his men up in the dog pound, vacate one of the largest dog cages, and strip them naked and lock them up together."

"Okay young master." Hong Wu busily said, "I'll order the dog farm over there, tell them to hurry up and prepare."

Ye Chen added: "Oh right, Hongwu, prepare a smaller dog cage, I have another use for it."

Hong Wu immediately agreed, saying, "Young Master, don't worry, Hong Wu will make the proper arrangements."

Ye Chen continued, "By the way Old Chen, I still have one more thing for you to do."

Chen Zekai was busy: "Young Master, you may command."

Ye Chen instructed: "You prepare a complete set of kidney dialysis equipment for me, and send the whole set of equipment to Hongwu's dog farm. If you have one, transfer me one there too."

"Dialysis equipment?" Richard Chen hurriedly asked, "Young Master, did any of Walter's men suffer from kidney failure?"

Ye Chen looked at Walter and sneered, "Not yet, but soon!"

Chapter 2367

"Soon?!"

Walter, on the other side, whispered in a stunned voice

Then, he wondered, "What the f*ck do you mean, soon? This surname Ye, speak simply inexplicable Well I f*cking hate the Chinese people is this point, everything like to say vague and unclear,"

Just when he still didn't understand what Ye Chen meant, he said to Chen Zekai: "And, Old Chen, try to get me some mercury dichloride, I'm useful."

Ye Chen said to Richard Chen again: "And, old Chen, try to get me some mercury dichloride, I'm useful."

As soon as Ye Chen said this, Walter was struck by lightning!

"Huh?! What does the surname Ye want with mercuric dichloride?"

"And what does he have people preparing dialysis equipment for?!"

"And! He just asked for dialysis equipment to be prepared and said that it would be available soon, what soon? What's there?"

"Now, he's having mercury dichloride prepared, so this is not going to be for me, is it?"

Thinking of this, Walter felt his whole body almost collapsed.

He crawled to Ye Chen on his knees and cried, "Master Ye, please don't play with me, \$100 million if you are not satisfied, I can give you another \$100 million, please be noble and let me go as a fart." [Google search "Avracity" for fastest update]

Ye Chen waved his hand and said with a serious face, "Walter, we have an old saying in Warsaw that says, "Do unto others as you would have them do unto you."

"You're an American, you probably know very little about Chinese culture, and this is a perfect opportunity for you to get hands-on experience, isn't it?"

Walter went crazy and cried, "I don't want to practice! I don't want to practice! Master Ye, please give me a way out, no matter how much money you want, just say the word, I'm willing to give any amount of money, just please don't screw me, I'm still young."

Ye Chen smiled: "Then I really have to congratulate you, so young and happy to mention double kidney failure, but don't worry, I'll keep you alive as a dog, and then connect you to the dialysis equipment 24 hours a day to make sure you don't die." This

He said, Ye Chen coldly said: "Compared to what you did, I am really much more merciful."

Walter wailed in fear: "Master Ye, I beg you to spare me, or you let me call my father, I ask him how much he can do and how much he can pay you."

Ye Chen laughed and shook his head, calmly said: "You should not daydream, from now on, you have completely disappeared in his world, it is impossible for him to find any clues about you, from now on, you just lay down in the cage in the dog farm, you should eat, drink, and dialysis."

After saying that, Ye Chen added: "And don't worry, compared to your dirty tricks, I'm much softer than you, you only know how to poison people, and don't care about the treatment, and don't care how long the person you poisoned can live, you are considered to be a bandit who kills without burying!"

"But my mother, after all, is still a civilized person, our civilized way of doing things, that is, since we manage to kill, we have to manage to bury, I not only give you free treatment, but also give you food and shelter, and most importantly, I guarantee that you will not die for at least ten years."

After hearing this, Walter's spirit and emotions completely broke down!

He has been a dude for more than twenty years, and although he has harmed many people, he himself has never tasted any bitterness.

Right now, Ye Chen has pronounced his future, and his future is to lie in a dog cage in the dark, living on dialysis.

To him, this kind of punishment is far more horrible than hell!

He never dreamed that Ye Chen would be such a ruthless character.

Chapter 2368

It was only then that he realized what a mess he had gotten himself into!

So, he looked at Wang Dongxue and cried and begged, "Dongxue! Please turn me over to the police! Let me be punished by the law and judged by justice, please, Winter Snow! Have pity on me, Winter Snow!"[Google search "Avracity" for fastest update]

Walter's mind is very clear, although the prison is terrible, but at least he can go to prison in good health.

If it really falls into the hands of Ye Chen and let him torment himself like that, he will not only suffer from all kinds of pain and suffering, but he may even end up dying in a dog pound.

So in comparison, going to jail is really too humane.

Ye Chen sneered and ridiculed, "Walter, you are a person who has become really too fast, just now you were begging Winter Snow to never turn you over to the police, why only a few minutes later, you started begging her to turn you over to the police?"

Walter cried out to the heavens and said: "Master Ye, please do me a favor, call the 110, let the police take me away, I am a criminal, criminals should be punished by the law, so don't bother".

He said, he also looked at Wang Dongxue, crying and begging: "Dongxue please say something, help me to beg for mercy for Master Ye ah Dongxue I kowtow to you".

Before the words fell, Walter turned desperately kowtow to the floor, knocking the floor thudding.

Wang Dongxue at this time did not say a word.

Ye Chen just said that he would use his own way, but also to treat his own body, although the means are a little scary, but in a nutshell, for people like Walter, is just the best end.

After all, Ye Chen also planned to keep him alive, but he didn't have this intention when he harmed his own father!

He would never have reached out to Dad if he hadn't agreed to his nasty demands!

In the end, my father will end up dead!

So, Wang Dongxue knew very well in her heart that at this time, she absolutely could not have any woman's kindness!

So, she said to Walter in a cold voice, "Sorry Walter, but a piece of trash like you doesn't deserve my sympathy! You're where you are today, and you're totally asking for it!"

Walter was so desperate that he cried, "Winter Snow, I know I was wrong, and I beg you to give me a chance to make amends and make things right."

"Otherwise, even if you torture me to death, your father can't turn back time!"

"We are all adults, now that this has happened, we should negotiate a follow-up solution and remedy, which is much more realistic than pursuing fault alone."

Before Wang Dongxue opened his mouth, Ye Chen said in a cold voice, "Walter, from now on, if you say one more word without my permission, then I will give you an extension of one year on the ten-year period."

When Walter heard this, he was scared out of his wits and didn't dare to say another word.

Even if the Rothschilds came in person, they couldn't find any trace of him!"

Richard Chen said without hesitation: "Young Master, don't worry, I will completely erase him from the surveillance records. Even if the King of Heaven were to investigate, it would be impossible to find out anything about his whereabouts or clues!"

Ye Chen smiled in satisfaction and said, "Good, I'll leave these things to you and Hongwu, hurry up and land me, let me know when it's done, and I'll send Walter downstairs to you, and you take him and his men to the dog pound."

Chapter 2369

Richard Chen and Hong Wu's men moved extremely fast.

In a few minutes, all of Walter's men in Jinling, including Song who was preparing to dump the body, were all controlled by the men they sent.

On the Jinling People's Hospital side, Richard Chen arrived in person.

The five men immediately surrendered and were captured.

As soon as the gun was pointed at the five men, the five men surrendered and were captured.

A Rolls-Royce and a Buick commercial were driven away by Hong Wu's men.

These two cars will be taken directly to one of Hongwu's auto recycling plants tonight, where they will be dismantled and squeezed into a pile of scrap iron and thrown into a steel furnace.

In other words, after tonight, it would be impossible for the Da Luo Jin Immortals to find the whereabouts of these two cars.

After that, Richard Chen called Ye Chen and said respectfully, "Young Master, the five people downstairs in the hospital are under control. I'll take someone over there and take that Walter with me!"

Ye Chen then said, "You come directly to the No. 1 intensive care unit of the nephrology department."

"Okay young master!"

Walter, who never dared to speak again, was in tears when he heard Ye Chen's call with Richard Chen.

He really did not expect that he would end up in such a miserable situation.

He thought that he was a fierce dragon crossing the river, to come to Jinling, a small place to swim at will, so naturally did not put Wang Dongxue in his eyes, just wanted to take the opportunity to take her as a plaything, and then squeeze her body of the value of the use.

However, who would have guessed that a small place like Jinling would still have people like Ye Chen, who is very clever and ruthless.

The day he decided to poison Wang Dongxue's father, his fate was already decided.

Soon, Richard Chen led people to the hospital room.

The moment Walter saw Richard Chen, it was as if his whole body had seen a ghost!

Just now, Ye Chen and Richard Chen were only on a voice call on WeChat, Walter only knew that Ye Chen was communicating with his subordinates, but who his subordinates really were, Walter was not sure.

However, when he saw Richard Chen, his entire body was instantly struck by lightning!

"Chen Chen?!" Walter subconsciously took off and asked, "Why are you here?"

When Walter first came to Jinling, he once took the initiative to visit Richard Chen out of basic courtesy.

The reason why he came to visit Richard Chen was because he knew that Richard Chen was the spokesman of the Ye family in Jinling, and was arguably the person with the strongest background in Jinling, so when he first came here, he naturally wanted to get acquainted.

However, the two only met that time.

In Walter's perception, Richard Chen represents the pinnacle of Jinling's influence, but he never dreamed that Richard Chen would appear here.

Richard Chen looked at Walter, smiled playfully, and said, "Walter, when you last saw me, didn't you say that you have admired the Ye family for a long time? This Mr. Ye Chen Ye in front of you is the young master of the Ye family!"

"What?!" Walter felt as if his heart had been run over by a heavy train!

"I actually unintentionally pissed off the young master of the Ye family?!"

"What kind of idiot am I that I would anger the young master of the Ye family?!"

Chapter 2370

"The Ye family is at least dozens of times more powerful than the Hogwarts family!"

When he thought of this, Walter truly realized how pathetic and ridiculous he really was.

He thought he came to Jinling and could do whatever he wanted as long as he avoided Chen Zhaichai, but he didn't expect to get in trouble with the young master of the Ye family all of a sudden!

So, while he kept vigorously smacking his face, he cried and said: "Young Master Ye, I was blind, I didn't think I would offend you, I didn't know that Wang Dongxue was your friend, if I knew, kill me, I wouldn't have any intention on her."

Ye Chen smiled and asked him, "Then do you know that the Emperor Group is also my property?"

"Huh?!" Walter stared at me and said, "I really don't know about this, I really don't know about this, I really don't know about this, I really don't know about this, I really don't know about this."

Before Walter came, he deliberately checked the background of the Dihao Group.

However, because the company was bought by the Ye family as a gift to Ye Chen, it was not included in the Ye family's own assets.

He didn't understand the background of the company, so he thought it was just a real estate company in the province.

In addition, he really wanted to quickly gain a foothold in Huaxia, and even quickly achieve profitability, and Wang Dongxue happened to be the vice chairman of the Emperor Howe Group, so he hit on the idea of Wang Dongxue.

He always thought that as long as Wang Dongxue could be controlled by himself, he would not only be able to possess Wang Dongxue, but also be able to suck some of the blood from the Dihao Group in order to quickly increase his own strength.

But he never thought that the company he wanted to suck blood from was actually the Ye family's young master's property!

It's like a rat that thinks nothing of getting into a tiger's food, it's just asking for death!

Chen Zekai looked at Walter at this time, with some pity in his eyes, and thought: "This Walter is also considered to be handsome and dashing, a talent, plus his family is also a wealthy businessman, the future would have been boundless."

"But, he provoked no one, but the young master, this is not a rush to fly over 10,000 kilometers from the United States to die?"

Immediately, Richard Chen looked to Ye Chen and respectfully asked, "Young Master, shall I take this Walter away now?"

Ye Chen nodded: "Take it away."

Walter was paralyzed with fright and shouted, "Young Master Ye, please let me go Young Master Ye! My grandmother was a Rothschild. You've heard of the Rothschilds, haven't you? The world's top families are rich and powerful, and half of the economic and energy lifeblood of Europe and America is in the hands of the Rothschild family!"

"If you leave me alone, I can help you get in touch with the Rothschild family and get you started on a partnership with the Rothschild family, which will be of obvious benefit to you."

Ye Chen heard, sneered: "Sorry, I'm not the least bit interested in working with the Rothschild family."

When Walter saw that the inducement failed, he was dying: "If you really insist on locking me up and subjecting me to inhumane torture, once the Rothschild family finds out, have you considered the consequences?"

"Even though my last name is not Rothschild, I have a quarter of my blood from the Rothschild family, and Rothschild would not allow anyone to do that to a descendant who has their blood!"

"By then, they will not let you go! They will only make your death worse!"

As soon as Richard Chen heard this, he angrily slapped Walter and said in a cold voice: "You're looking for death, aren't you? How dare you speak to the young master to the point of death? I'll cut out your tongue if you don't believe me."

Ye Chen waved his hand at this time and interrupted Chen Zekai, saying indifferently, "Old Chen, let him say what he wants to say."

Walter couldn't hide his panic and shouted, "I'm done! You'd better think carefully about whether you really want to offend the entire Rothschild family because of me!"

Ye Chen nodded, smiled slightly and said playfully, "To tell you the truth, I'm not afraid of offending the Rothschild family at all, because even if they don't come looking for me, sooner or later I'll go looking for them!"

At this point, Ye Chen made a slight pause, and said in a firm and domineering tone: "I still have a blood debt that I have to settle slowly with the Rothschild family with interest."
