

## **Yo Daddy 265**

### **Chapter 265**

In the dead of night, Anthony finally went online secretly.

Kyle asked once he saw Anthony: Why are you always so late?

Anthony replied: I was busy!

Kyle: Why are you always busy before you have to get online? Isn't that too coincidental?

Anthony: Well, I am indeed busy.

How dare I get online before Natasha goes to bed? I don't have a death wish.

Kyle couldn't be bothered to argue with him, so he changed the subject of the conversation and asked: Where is Thalia?

Anthony: She's injured and still resting at home.

Kyle grew nervous and asked: Injured? What happened?

Anthony explained: It's just some private matter. Don't worry about her. It's only a minor injury.

Kyle thought for a while and asked: Did it happen because of a man?

Anthony: How did you know about that?

Kyle responded: Given Thalia's skills, it won't be easy to hurt her unless she is willing to take it! Has she found the man?

Anthony said: Yes. They ran into each other!

Kyle: D\*mn! What a coincidence!

Feeling surprised, Anthony asked: Do you know about this as well?

Kyle: I only know a little about it.

While Anthony arched his eyebrow, Kyle changed the subject of the conversation: All right. Let's not dwell on it. I have something important to discuss with you!

Anthony questioned: What is it?

Kyle became excited when they started talking about this topic. He typed: Did you know that Shadow Seeker was online yesterday?

Once Kyle brought this up, Anthony's heart skipped a beat. Nonetheless, he pretended to be nonchalant and replied: I guess every hacker knows about this. Why are you bringing this up now?

Kyle asked: Are you not excited?

Anthony: Of course, I'm excited!

However, it wasn't hard to tell that he wasn't excited at all.

Kyle ignored him and continued typing: When she offered rewards, I happened to have some information and provided it to her. Do you want to guess what happened next?

Anthony was startled for a while before he replied: Did she agree to join Darknetz?

That was just a guess, but deep down, Anthony thought his position would be precarious if his speculation turned out to be true.

Kyle answered: Well, she didn't. I can tell she's still determined not to join any organization!

Upon hearing it, Anthony heaved a sigh of relief. He asked: In that case, why are you so excited?

Kyle quickly responded: Even though she didn't join Darknetz, she promised to fulfill three of my requests!

Anthony: What requests?

Kyle: I haven't thought about it. However, an idea did pop into my mind!

Anthony's gut instinct told him that the idea was related to him. He questioned: What's your idea?

Kyle proposed: I'm planning to let you and Shadow Seeker compete against each other!

Instantly, Anthony was rendered speechless.

Can I refuse?

Kyle added: Although Shadow Seeker is a legend, you're not bad, too. After all, you're the most awesome hacker I've ever seen, other than Shadow Seeker. I'm curious about the gap between the two of you!

The next moment, Anthony responded without hesitation: I refuse!

Kyle: Why?

Anthony: There is no reason. I refuse, and that's it.

Kyle asked provocatively: Are you afraid of losing?

Anthony: No!

Kyle: You must have a reason, right?

Anthony couldn't bring himself to explain to Kyle.

How should I tell him? I can't possibly reveal to him that Shadow Seeker is my mom and that she'll find out about me being a hacker if we compete against each other, right?

Moreover, Kyle would think he was crazy and delusional even if he spoke the truth.

After giving it some thought, Anthony responded: I don't know how I should explain it to you, but I refuse to accept your proposal!"

However, Kyle didn't want to take no for an answer. He typed: If you can't provide a reason, your refusal is invalid. Come on. Can you stop dilly-dallying and worrying about losing? Besides, it's not embarrassing even if you lose to Shadow Seeker. Many wish to compete with her but don't get the chance!

Anthony had no idea how he should respond.

I'm not concerned about being embarrassed!

While Anthony was deep in thought, Kyle sent another message: All right. It is decided. Anyway, it's all right if you lose, for the next thing I will do is to make her accept you as her disciple. I'll turn you into the next Shadow Seeker because you're Darknetz's future!

Kyle didn't hide how much he valued and appreciated Anthony's talent.
