

## SHE IS GONE

### JOHNNYS POV

I was in my ope with Alex, Axel, Jack, Jefferey and dad when we started to here a lot of commotion coming from the pack house were Patty was staying and we all ran towards it. When we got there we headed to Patty's room where we could hear people ghting and we tried to break down the door, once we were able to get into the room it seemed that a hurricane had gone through there. There was furniture every where and you could tell a ght had taken place here, we started to look for Patty every where in the room but we couldn't nd her I ran out to the front of the house and I called my best trackers and ghter as well.

"Father I got our best trackers and ghters ready for your orders" Alex said

"Did you just call me father" I asked

"Yeah, that is what you are and to be honest we always wanted to call you that since we got here" Axel said

"Alpha what are your orders" Sanchez asked

"Spread out and try to nd any sign of Patty, if you nd anything get ahold of me, Alex or Axel right away" I said

We then all headed to different areas following Patty's scent to a stream where her scent ended, we started to look around and didn't nd anything that allowed us to know who had taken her or where in that matter. We headed back to the pack house and started to think who might want to take her and why, for what we all knew she never did anything to anyone except help those who needed help. I turned to look at Alex whos eyes were white which meant he was trying to get ahold of someone but we didn't know who it was just yet, after a few minutes Lucifer appeared in front of us and saw our faces which made his smile disappear.

"What is going on" Lucifer asked

"Mom was taken and we don't know by who or why" Alex said

"What when did this happened" he asked

"About an hour ago or so" Axel said

"We already went out searching for her but found nothing that would help us know where she is" I said

Lucifer closed his eyes and then several other people appeared in front of us, he then looked at us and he took out a map form a book and placed it on the desk before turning to all of us and we started to tell him where and where we had looked but found nothing. We then circled areas that we knew had underground cells where people could be put and no body would be able to nd them due to the earth and also how deep down they where, we then sent out another party with some of the men that appeared after Lucifer had closed his eyes I just hope that we could nd Patty soon and well.

Alex was looking at the map like if he was analyzing it, he then turned and looked at the map that I had on the table and he went to grab it and placed it above the one on the desk. He placed three books under each side of the maps and then placed my desk lamp underneath of the map and I was able to see what he was looking at, all the areas where we had already looked at were areas where some underground cells were but we were not paying attention at that moment so we didn't know if we had passed the area where Patty had been or not. Once the party came back we were told that they had found nothing so we crossed that area out and we continued to search on other area that were on either one of the maps, by the next morning we had gone through most of the underground cells but we still had several to go.

Right now the only one that would be able to help us safe Patty would be the moon goddess but for what Lucifer said she wouldn't do anything because it is what she does, she puts you through a lot before you are happy with what ever it was you were suppose to be happy about. I just wanted Patty back with us and nothing else hell if she said that she was leaving and that she was going to move back to where ever she was before she came here then I would have let her go even though my heart would break into a million pieces, I would never stop looking for her until I found her safe and sound and in my arms but once I nd out who took her they would die by my own hand.
