

THE RESCUE PART ONE

PATTYS POV

I don't know how long I have been here but by the way that my stomach is growing I am sure that I am having more than one pup, I have tried to mind link with my kids and pack but to no success. I have been keeping myself sane by talking to Lily who keeps telling me that we will get out of here soon, that our mate and kids will find us and we will be able to have our pup away from this smelly and dirty place. I have been getting three full meals each day and I am only in silver ankle braces which keep me weak just so that my wolf won't be able to help me with her strength, they have also given me a bed so I can lay down without being lathered on the floor.

JOHNNYS POV

We have been looking for Patty for almost two months and we still don't know where she could be, Alex, Axel, Jack and Maggie are cleaning up Pattys room to see if who ever took her left or dropped something during the struggle the day that they took Patty. I am in my office with Lucifer, my father and the tracker captains looking at the map and trying to find where they could have taken Patty when Alex and everybody else came in with a worried look on their faces.

"What is going on, what did you find in your mothers room" Lucifer asked

"How long has it been since mom was taken" Alex asked

"Almost two months why" I asked

"Well that means we only have about two weeks, three max to be able to find her before it is too late" Axel said

"What do you mean we only have two weeks, three max" I asked

"While we were cleaning up the room we found these under the desk" Maggie said as she handed us two sticks

"What is that" Lucifer asked

"Pregnancy test" I answered

"Are you telling us that Patty is pregnant" my father asked

"That's what I am saying" I said as I looked at the positive result on the stick

"How are we going to find them now, we have been looking for her for over two months and we haven't been able to find them" Lucifer said

"We have a suggestion" Alex said

"What is it" I asked

"Mom once said that if we ever got our mates pregnant and we wanted to find her, to let our wolfs take control and he will lead us to her due to the need to protect her and his pup. Why don't we try and let Cesar take over and see if he could find them, it won't hurt to try right" Axel said

"Yeah but we need to plan this out right, we need to take some strong fighters and at least one doctor to check her right away if we find them" I said

"So what do you want us to do father" Alex said

"Go get your strongest fighters but only pick half of them so the rest can stay here and help protect the packs" I said

"What do you want me to do Alpha" Maggie asked

"Maggie please call me Johnny or John and I would like for you to continue taking care of Mark and Jr as well as talk to all the other female she wolves and organize a safe place for them while we are out looking for Patty" I said

"I will get right on that" she said

"Jack you go get half of our strongest fighters and bring them here" I said

"Consider it done" he said

"Father you go tell mom to get the doctor she trusts the most and bring them here" I said

"Done" he said

"Lucifer could you let us use some of your fighters as well, the more people we have the more protection Patty and the pup will have" I asked

"Sure but promise me that you will bring them home and that I will be able to go with you" he said

"Thankyou Lucifer" I said

Once everybody was in the meeting room Jefferey and I explained to everybody what we were going to do, we also made a plan that if we did find where Patty was that we would surround the area before we moved in so in case there were wolves we would take them out as they showed themselves. We stayed in the meeting room for several hours trying to make sure that our plan was one hundred percent solid without any cracks in between for any error to happen, we dismissed everybody it was late at night and we had decided that we would be leaving at dawn to be able to take advantage of the daylight since we didn't know how far we would be going. As I walked to my room with the pregnancy tests still in my hand, I couldn't be more happy this time I would be able to be by Pattys side as she gave birth to our pup. The only thing that I did hate was that once again I missed out seeing her belly swell as our pup grew inside her, I just hope that they are being kept healthy and once I had them in my arms I won't be letting her go anywhere not this time not ever.
