The Yun Family's Ninth Child is an Imp! Chapter 1014

Just as everyone stared in disbelief, they heard Yun Chujiu continue, "However, I know that all of you are people who care about face. You must be feeling uneasy after taking the jade token that I worked so hard to obtain. How about this, you just have to be willing to give me some money for my hard work.

Two hundred thousand is too much, and many people can't afford it. How about this, just give me one hundred thousand high-grade Spirit Stones! "You guys can draw lots to decide who gets the jade token. I'll give it to whoever gets it. Whether or not you can get the jade token will depend on your luck."

When the crowd heard this, although they felt like they were just spewing nonsense, they still said the words, "Junior Yun is really generous. This method is fair, let's do it!"

Yun Chujiu got someone to make a ball of paper for drawing lots. Then, she put it into a box and asked the crowd to draw lots.

The person who drew the winning lot was so excited that he was dancing with joy while the person who did not, could only complain about his bad luck.

Yun Chujiu had money in one hand and goods in the other. She also received several million high-grade Spirit Stones. She was so happy in her heart. These people needed to grow some brains. It was an easy way to get so many Spirit Stones in such a short time!

"Everyone, these Spirit Stones are all thanks to you. I, Yun Chujiu, am not a person who eats alone. After we leave, I will transfer 10,000 high-grade Spirit Stones to each of you." Although Yun Chujiu felt her heart ache, to live a good life in the Tianyuan Academy in the future, she had to make some sacrifices.

Those people simply felt that they had received a windfall from the heavens. 10,000 high-grade Spirit Stones was no a small amount. It was enough to pay off a year's worth of tuition fees. It was truly a small fortune.

Not to mention 10,000, even 1,000 high-grade Spirit Stones were considered a lot. They did not expect Yun Chujiu to be so generous.

Many people had developed a vague idea in their hearts. If they could follow Yun Chujiu, there would be benefits. If there was still a chance in the future, should they still follow Yun Chujiu?! She had the confidence, and there was still money to be made. Was it not a great deal?!

Yun Chujiu saw the change in everyone's eyes. She had recovered from the trauma of giving up two million high-grade Spirit Stones in one go. Those who wanted to achieve great things had to be willing to make sacrifices. These two million high-grade Spirit Stones were worth it!

At that moment, in the small square outside, the instructors were all looking at the display screen with dumbfounded expressions.

The group that had obtained a jade token would have a jade token icon appear in front of their group name. In the beginning, there were a few groups that had a jade token in front of their names. Everyone was still sighing, this year's batch of examinees' qualifications were truly a little inferior compared to the previous batches. It had been so long, and only a few dozen groups had managed to obtain the jade token. It was estimated that this round of recruitment round would be another round of additional examinations.

Just as they were animatedly discussing what to do, they were stunned to discover that the jade token icons had started to appear non-stop in front of group 250, one after another. In the end, the number "250" was squeezed into the third row.

The first thought in everyone's mind was: the display screen has gone crazy!

"What's going on?! What's wrong with group 250? How did they get so many jade tokens? This is impossible! There must be a problem with the display screen."

"Yeah, no matter how powerful they are, they can't defeat so many Iron Golems at once. Not to mention them, even with our cultivation level, we can't get so many jade tokens."

Instructor Xiao raised his eyebrows, 'The display screen couldn't be faulty. They must have really managed to get so many jade tokens. This group 250 was always doing the unexpected. How did they do it?'

"Look, there are fewer jade tokens now.. There must be a problem with the display screen!"
