

## The Yun Family's Ninth Child is an Imp! Chapter 1056

At noon, the canteen of Tianyuan Academy was usually very lively. There were no other canteens in Tianyuan Academy, so almost all the students and instructors would eat at the same place.

Instructor Zhou and a few of Deputy Dean Yin's trusted aides sat together. Ever since Ma Minghua and Qi Cheng were fired, he had become Deputy Dean Yin's favored aide which made him feel full of himself.

"Brother Zhou, it is said that the first grade Huang class students have average aptitudes. You have already taught them twenty days of worth of classes. What do you think?" One of the instructors asked casually.

Instructor Zhou curled his lips. "In my opinion, that bunch of trash has sullied the reputation of our Tianyuan Academy. They have no qualifications to enter Tianyuan Academy at all."

The other instructors at the same table looked at each other. They felt that some things should be kept to themselves, but why did this person just say it out loud?!

The instructor who asked the question quickly made a silent gesture. "Instructor Zhou, be careful with your words."

Although the effects of the medicine had subsided a little, Instructor Zhou was still in a half-excited state, he said arrogantly, "What's there to be afraid of?! I even dared to say that in front of them! That bunch of trash could only listen obediently. They are trash to begin with, why would they be afraid of the truth?"

The people sitting at the same table frowned. They felt that Instructor Zhou was a little too arrogant. He would get into trouble sooner or later if he kept speaking his mind like that.

At that moment, someone saw a little girl standing on the table, she knocked on a large copper basin and shouted, "Everyone! Everyone, quiet down! There's no point in everyone eating anymore, instead, let's listen to something interesting! Are you interested?"

Everyone was stunned. Then, they remembered what happened at the disciplinary department. That Yun Chujiu was extraordinarily bold. Could it be that she was going to do something drastic this time?!

Everyone's eyes immediately flashed with the light of gossip. They began to jeer, "Yes! We are interested! Junior Yun, please tell us!"

"Yes, we were just feeling bored!"

"Junior Yun, go ahead and say it. We are all listening!"

...

Yun Chujiu looked in the direction of Instructor Zhou. Instructor Zhou's heart inexplicably trembled, and a very ominous feeling rose in his heart.

Yun Chujiu knocked on the copper basin, then, she said clearly, "What I want to play is a lesson recorded by the recording stone. Everyone must be patient. I heard that this instructor is recognized by our Tianyuan Academy as an instructor with a relatively high teaching standard, so everyone will not be disappointed! Moreover, there is some very explosive content at the back, so everyone must be patient!"

After Yun Chujiu finished, she formed a seal with her hands, and the voice from the recording stone started playing...

Instructor Zhou immediately recognized that the voice was his voice during his morning lecture in the Huang class, and he immediately stood up!

The lesson plan he had given in the Huang class was deliberately written in a complicated and obscure manner. Moreover, some important parts were skipped, and people with discerning eyes could immediately tell that he deliberately misled the students.

Under Instructor Zhou's fright, the remaining effects of the Irritant Powder in his body were immediately reduced by more than half. He roared angrily, "Yun Chujiu! This dining hall is a place for eating. Quickly shut off that recording stone!"

Yun Chujiu smiled at him.. "Instructor Zhou, our Huang class is really lucky to receive your sincere teachings! Since your lectures are so good, why don't you let everyone experience them? Seniors, do you all want to continue listening to Instructor Zhou's wonderful lectures and comments?"
