

The Yun Family's Ninth Child is an Imp! Chapter 1361

"Master, I've found the nest of those snakes. There are some small snakes that have just broken out of their shells." Xiao Hei sent back a message with its spiritual sense.

"Xiao Hei, get me a few small snakes. They have to be alive. Be careful, don't kill them." Yun Chujiu's eyes lit up. Although this matter was a little despicable, there was nothing she could do in order to survive.

Not long after, Xiao Hei returned with a string of small snakes on its claws. These small snakes were just born and could not spray venom, so the little black rats were not afraid of them at all.

When the snakes saw the small snakes, they immediately became extremely angry. They hissed and stuck out their tongues, crazily attacking Yun Chujiu's defensive barrier.

"If you want to kill these little things, you can continue to attack." Yun Chujiu said fiercely.

The snake group didn't dare to move. The higher the level of the Demon Beast, the harder it was to breed. These little snakes were hatched by the snake group after hundreds of years. Naturally, they were extremely precious.

"I didn't want their little lives. Besides, I didn't know that these mushrooms were your reserve food. As the saying goes, those who don't know won't be blamed. I'll compensate you with some medicinal pills and let these little snakes go. Don't Chase me anymore. Let's forget about our grudges. How about it?"

The snakes were about to collapse!

What?

What else could they do?

You're too despicable!

Yun chujiu saw that although the snakes were angry, they didn't attack her anymore. She knew that they agreed, so she threw them a few bottles of super-quality blood coagulation pills and exploding spirit pills. She walked forward with the small snakes in her hands.

"You can't all follow me. Otherwise, I'll return the small snakes to you. What if you go back on your word? At most, three of you can follow me. The rest of you should guard your nest!"

"TSK tsk, I'm not the one who's criticizing you. Are there any parents as incompetent as you?" "How dare you leave your children in your nest? You've met a kind person like me. If you meet a cruel person, your little babies will all die."

The snakes were both ashamed and angry. They hissed and spat their tongues, wishing they could swallow Yun chujiu. However, they had to admit that Yun Chujiu was right. They were indeed careless and did not leave a single snake in the nest.

The snakes had no choice but to send three wild seven-colored striped snakes to continue following Yun Chujiu. The rest of the snakes returned to the nest to take care of the remaining small snakes while the rest checked on the condition of the mushrooms.

Yun Chujiu soon discovered puppet No. 1 lying on the ground. Some of the parts had been broken by the tail of the wild seven-colored striped snakes. Yun Chujiu put puppet No. 1 into her spirit beast bag and placed the few small snakes on the ground, she ran away quickly.

Although the three wild seven-colored striped snakes wanted to kill Yun Chujiu, they knew that they could not kill Yun chujiu with just the three of them. They could only swallow the small snakes on the ground and return to their nest.

Yun Chujiu was afraid that the snakes would chase after her again. She ran until she felt that the distance was safe. Then, she sat on the ground and panted. Damn it, she was going to die!

She always earned something from every trial. This time, other than guai Cao drinking to her heart's content, she didn't do anything stupid. She even lost a large part of her defensive spiritual artifact. It was really a huge loss!

Yun chujiu gritted her teeth. She couldn't just let it go like this. Bai Mantou, just you wait. I want you to compensate me for the double loss!

Bai Mantou sneezed loudly. After checking, she saw that Yun Chujiu was still alive. She was so angry that she was jumping around. This stupid girl was too difficult to deal with. Dozens of wild seven-colored striped snakes couldn't even kill her?
