

The Yun Family's Ninth Child is an Imp! Chapter 1604

Yun Chujiu felt that the people of the Nether World Hall must have some big tricks up their sleeves. However, it was useless to provoke them, so she could only wait and see.

Yun chujiu had just communicated with di beiming. Di beiming and Xue Wuji would need at least half a day to reach the Gui Yuan sect, so they had to delay the time.

Qin Yixiao and Yin Qinghua had also considered this point. They wanted to finish the battle as soon as possible, so they waved their hands and ordered to attack.

Yun chujiu smiled coldly. "Little ones, blow them up! I have plenty of explosive talismans here. Blow them all to death!"

Di Linhan and the others did not bother to adjust their breathing. They spread out and helped the hidden guards to guard the surroundings of the courtyard.

With the explosive talismans and the attacks of di Linhan and the others, the first wave of attacks from the Gui Yuan sect and the Yin family were blocked.

Yin Qinghua Smiled sinisterly. "Continue to attack! I don't believe that the explosive talismans on their bodies can not be used up!"

“I’m sorry! I have hundreds of thousands of explosive talismans on me!”Of course, what Yun Chujiu said was not the truth. However, she just happened to have a batch of explosive talismans that she wanted to send to the Thunder sect, so she could use them against the enemy.

Although Qin Yixiao and Yin Qinghua did not believe that Yun chujiu really had so many explosive talismans, they were so angry that they gritted their teeth when they saw the endless supply of explosive talismans on Yun chujiu’s side. Why did this wretched girl have so many talismans for no reason? ! It was really detestable!

The second wave of attacks from the Gui Yuan sect and the Yin family were also blocked. Just as Qin Yixiao was about to launch the third wave of attacks immediately, flames soared into the sky from a distance. There were actually several places that were on fire!

Qin Yixiao took a look and saw that the ones that were on fire were actually the library, the warehouse, and the living room. He stomped his feet anxiously and said, “Send half of our men to quickly put out the fire! Why is there a fire all of a sudden?”

Yun Chujiu was also puzzled. Although she had sent Xiao Hei out, she only asked it to think of a way to destroy the array core. who was the one who set the fire?

Yun chujiu suddenly had a thought. Could it be the potential stock that I invested in? It was most likely done by Zi Heng. This kid was quite smart! He knew to surround Wei to save Zhao, but don’t get caught! You are my future money tree and mascot. Don’t die just like that!

Yun chujiu rolled her eyes, she said loudly, “Disciples of the Gui Yuan sect and disciples of the Yin family, listen up. You are all people from the Tian Yuan continent. You followed Qin Yixiao and Yin Qinghua to help the wicked. Don’t you feel pain and struggle in your hearts?”

Your family and friends are all from the Tian Yuan continent. Once we all die, do you think the Nether Hall will keep their word if they take over the Tian Yuan continent? “You will all die in the end!”

“Do you know why you are on Fire? “This is God’s warning to you! “If you are still stubborn, maybe God will send down lightning to strike you!”

As expected, after hearing Yun Chujiu’s words, the disciples of the Gui Yuan sect and the Yin family had a slight commotion. They were naturally unwilling to do so from the bottom of their hearts. They were just following the arrangements of the higher-ups!

Qin mingzhu immediately said, “Don’t listen to Yun Chujiu’s nonsense! A good man’s ambition is everywhere. As long as we kill them, the influence of the Gui Yuan sect and the Yin family will expand endlessly. At that time, all of you will have a meteoric rise. With money and power, are you afraid that you won’t be able to take care of your family and friends?”

When those people heard Qin Mingzhu’s words, their initially wavering thoughts turned towards the Netherworld Palace. The eldest miss was right. As long as we have money and power in our hands, who cares about their conscience!

Yun Chujiu's eyes deepened. Aiyo, are you comparing words with me? Little B * TCH, look at how I've tricked these people into betraying us today!
