

## The Yun Family's Ninth Child is an Imp! Chapter 1624

Yun chujiu opened the porcelain bottle and saw that there were five pills inside. The old man of the Heaven Lake must have kept a few pills for himself. He thought to himself, "This old man is really stingy. He only gave me five pills."

If the old man of the Heaven Lake knew that she thought so, he would probably be so angry that he would pass out. He only refined fifteen pills in total. He gave you five pills at once, and you are still not satisfied? Why are you so greedy?

"Uncle-master, please give me the prescription as well. You also know that I'm often cheated by Qi Ling. Maybe I can help you find the herbs you need!" Yun chujiu blinked her eyes and said.

The old man of the Heaven Lake laughed and scolded, "You little girl, it's fake to help me find the herbs. Do you want to refine them yourself in the future?"

"Hehe, half and half! Why are you and I still separated?" Yun Chujiu said shamelessly.

The old man of the Heaven Lake finally understood why his silly disciple was taken away by this little girl. This girl was really shameless!

The old man of the Heaven Lake dictated the pill formula. Yun chujiu understood that if she wrote it on a piece of paper, it would be easy to leak it. She thought to herself, this is also an old fox.

Yun chujiu had most of the herbs needed to refine the transfiguration pill. There were only two herbs that she did not have. One was the lotus seed of the thousand-leaf golden-grade lotus, and the other was the dragon blood ginseng. If she had the chance in the future, she would just have to pay attention to it. These five herbs could last for fifty days, it was enough.

Although he had the transfiguration pill and the cultivation technique that could change his spiritual power, di beiming still did not agree to Yun chujiu risking her life, the old man from the Heaven Lake said, "There are very few people who have seen my appearance. I will head to the river of Forgetfulness City near the Netherworld Hall immediately. When the time comes, Little Jiu can send me a message if she is in danger. I can also help out a little."

Only then did di beiming reluctantly agree. The three of them discussed the details in detail and decided on the final plan before leaving.

Yun chujiu hopped back to the Tianyuan Academy, and after muttering to Dean Huangfu for a while, she finally returned to her own dormitory.

In the following period of time, Yun Chujiu found an old man and learned how to draw the sudden rupture talisman. Every day, other than attending classes, she would draw the sudden rupture talisman. This fellow thought to himself, damn it, this trip to the Netherworld continent is extremely dangerous, I have to be fully prepared.., if she was provoked, she would blow up the Netherworld Palace!

Very soon, there was an explosive news. The temple of Immortals had taken the lead and the various forces of the Tian Yuan continent had united to attack the Netherworld continent in half a month's time.

The Netherworld Palace naturally would not sit still and wait for death. After receiving the news, they immediately organized their men to carry out a blockade. The two sides had formed a standoff at the boundary of the Burning Sky Wasteland.

Although the situation was tense, everything was normal in the Tianyuan Academy. It was time for classes and trials. Yun Chujiu's fifth grade students rushed to a place called the falling eagle slope for trials.

Deputy Dean Yin had already hooked up with the people of the Nether World Palace, so he naturally reported this news to Vice Palace Master Liu.

Although Vice Palace Master Liu wished he could send people to the falling eagle slope to kill Yun Chujiu, he could not spare any manpower in the face of a great enemy. However, he heaved a sigh of relief in his heart. It was a good thing that the two armies did not have Yun chujiu as their enemy.

At this moment, Yun Chujiu had already sneaked out of the gap in the array formation of the fallen eagle slope as she had discussed with Deputy Dean Xiao, who was leading the team, and headed straight for the blazing sky wilderness.

Yun Chujiu had already taken the disguise pill. Other than her eyes, the rest of her body had changed. She had become a delicate and pretty little girl. Most importantly, her complexion had become a little dark, even those who were very familiar with Yun chujiu would not be able to recognize her.

Yun chujiu used the mirror to look at herself. She was very satisfied. The Netherworld continent, here I  
Come!
