

The Yun Family's Ninth Child is an Imp! Chapter 1859

The golden-horned wind-blade Leopard's attention was on its abdomen. It did not expect Yun chujiu to attack its eyes, so it was struck by Yun Chujiu.

The golden-horned wind-blade leopard immediately screamed and rolled on the ground. Yun chujiu sighed, "You are also suffering. I will take your life directly!"

Yun chujiu shot out a few bolts of lightning, and after the golden-horned wind-blade leopard fell to the ground, it died.

Everyone was silent at first, and then they all applauded!

"Miss Mo! Good move!"

"Miss Mo, you're so brave! You're really a hero among women!"

"Miss Mo, you won by taking a risk and defeating the strong with the weak. It's really admirable!"

..

Manager Xia thought the complete opposite in her heart. This Country Bumpkin's movement technique was really fast, but this time it was just good luck. She didn't believe that she could have such good luck every time.

Manager Xia pretended to praise her a few times, then said, "Miss, this trial must be intense, or else we won't be able to achieve the purpose of the trial. So, we still have to continue looking for the Demon Beast."

Yun chujiu nodded. "Manager Xia is really dutiful. Since that's the case, then I'll listen to you. Let's continue looking for the Demon Beast."

Manager Xia was not stupid. She could naturally tell that Yun chujiu was mocking her. She snorted coldly and did not speak.

boxn ov el. c o m

She did not speak, but someone spoke. "Miss Mo, you should rest after the battle. We'll go and find another demonic beast for you."

Manager Xia wished that she could stab these troublesome people to death with a knife. These people were all full of themselves. They were really troublesome!

Very soon, those people found another demonic beast. This time, it was a level 26 golden horned wind blade deer, which was one level lower than the previous one.

Yun chujiu still didn't use her spiritual power materialization this time. She only relied on her nimble skills and purple lightning to deal with the golden horned wind blade deer.

Everyone was certain that this miss mo most likely didn't know how to materialize spiritual power. This low-level continent's people simply couldn't do it. They actually didn't even know the most basic spiritual power materialization. Even if they didn't know how to materialize high-level spiritual power, they could at least know how to materialize low-level spiritual power.

After another fifteen minutes or so, Yun chujiu still managed to kill the golden-horned wind-blade deer despite her efforts.

Although manager Xia was anxious in her heart, she couldn't find any faults because these two demon beasts were indeed killed by Yun Chujiu alone.

If not for these onlookers, manager Xia could still get some high-level demon beasts to make things difficult for Yun Chujiu. Now that there were so many people staring at her, she had no choice but to watch helplessly.

After a while, the onlookers got another 26-level golden-horned wind-blade deer. Yun chujiu did the same and killed the deer with her movement technique and Purple Heavenly Thunder.

“Everyone, it’s time for lunch. Let’s grill some meat! We’ll continue the trial after we finish eating.”Yun Chujiu said with a smile.

Those people were also a little hungry, so they naturally agreed.

Manager Xia tactfully didn’t object, because she knew that even if she did, it would be useless. Moreover, it would be the truth.

Yun Chujiu ordered a few guards to kill all three of the prey, and then began to roast the meat.

It was the first time that everyone saw honey applied on the meat when it was being roasted. However, when the fragrance spread, they couldn’t stop their saliva, and they impatiently followed Yun Chujiu’s method to roast the meat.

Although the three demon beasts were not small, there were too many of them and it was not enough. Therefore, someone hunted a few more demon beasts and returned.

Manager Xia looked at Yun Chujiu who was chatting and laughing with everyone and her heart was about to break down. She had promised to teach her a lesson, but now it seemed that this group of people was accompanying the country bumpkins on an outing?
