

The Yun Family's Ninth Child is an Imp! Chapter 1871

"Uncle, third uncle, both of you said that you would treat me well, but how do I know if what you said is true?" Yun Chujiu blinked her eyes and said in puzzlement.

This... Mo Peng and Mo Chang were in a difficult situation. How could they prove that this didn't happen?

"Oh right, uncle, third uncle, this is the first time you've seen me. Shouldn't you give me a greeting gift?" Yun Chujiu said with a smile.

Mo Peng and Mo Chang's eyes lit up. This was a good opportunity. Whichever family's gift was valuable, this little girl would most likely be inclined towards whichever family.

The two of them did not doubt Yun Chujiu's determination to leave the second branch. This was because they had received news that this little girl had suffered a lot of abuse in the second branch and had even been forced to go to the dense forest to train for a few days.

"Niece Fangcao, uncle will give you a high-grade spirit tool!"

"Niece Fangcao, third uncle will give you a high-grade spirit tool too!"

Yun Chujiu took the two high-grade spirit tools in her hands and looked at them, then said with difficulty, “Uncle, third uncle, the gifts you two give each other are very expensive. I, I really don’t know who treats me better.”

“Uncle will give you another one!” Mo Peng hurriedly said.

Mo Chang naturally wasn’t willing to be outdone. “Third uncle will give you two more!”

“Uncle will give you three!”

“Third uncle will give you four!”

boxn ov el. c o m

“Uncle will give you five, and an additional 100,000 high-grade spirit stones!”

“Third uncle will give you an additional 200,000 high-grade spirit stones!”

..

As they spoke, they took out their items. Yun chujie quickly put them into her storage ring. TSK TSK, the immortal essence continent is still the best. There are so many opportunities to make a fortune here!

Mo Peng and Mo Chang's bids grew higher and higher. In the end, both of them shouted for 20 million high-grade spirit stones. The atmosphere became increasingly tense. Both of their eyes were bloodshot, as if they were about to fight.

"Cough cough, cough cough. Uncle, third uncle, calm down. I can see that both of you treat my niece quite well. As for the matter of the succession, I, as a junior, can't make the decision. It's better to listen to my father! I've just returned from the trial and am really too tired. I'll take my leave first. You guys chat, you guys chat." Yun Chujie finished her sentence and ran out.

Mo Peng was stunned!

Mo Chang was stunned!

Mo Cheng was stunned!

Everyone in the room was stunned!

Finally, someone reacted. This uncle Mo and third master Mo seemed to have been, probably, 80% cheated by country bumpkins, right? !

For the first time, Mo Cheng felt that Yun chujiu had some redeeming qualities, he couldn't help but laugh out loud, "Big Brother, third brother, I've really let you guys spend so much money! I didn't expect that after not seeing you for a few days, you guys would be so generous. You actually gave Fangcao such a generous gift."

Mo Peng and Mo Chang's faces were almost as red as pigs'livers! This little girl was really too mean! She played us two elders like fools! As expected of second brother's daughter, she was simply as sinister and cunning as him!

"HMPH! Second Brother, you don't have to be proud. The news of Jinchuan city has already spread to father's ears. You know father's temper, sooner or later he will find you to lecture him."

"Second brother, I have to admire your brain. For that matter, you actually found this niece who hasn't been interested in you for many years. "However, you should be careful not to shoot yourself in the foot. I heard that the fragrant grass is a heavenly thunder spirit root, right? "Perhaps she will be struck to death by the Heavenly Thunder at that time. At that time, your efforts will have been in vain!"

Mo Cheng's heart tightened and a layer of cold sweat could not help but appear on his forehead. Mo Chang's words reminded him that he had almost forgotten that that rebellious daughter was a heavenly thunder spirit root that was not tolerated by the Heavenly Dao!
